About Ionic Rare Earths Ltd

Ionic Rare Earths Limited (ASX: IXR or IonicRE) is an emerging miner, refiner and recycler of sustainable and traceable magnet and heavy rare earths needed to develop net-zero carbon technologies.

Ionic Technologies International Limited ("Ionic Technologies"), a 100% owned UK subsidiary, has developed processes for the separation and recovery of rare earth elements (REE) from mining ore concentrates and recycled permanent magnets. Ionic Technologies is focusing on the commercialisation of the technology to achieve near complete extraction from end-of-life / spent magnets and waste (swarf) to high value, separated and traceable magnet rare earth products with grades exceeding 99.5% rare earth oxide (REO).

The Makuutu Rare Earths Project in Uganda, 60% owned by IonicRE, is well-supported by existing tier-one infrastructure and is on track to become a long-life, low Capex, scalable and sustainable supplier of high-value magnet and heavy REO.

IonicRE has also executed a transformational 50/50 joint venture refinery and magnet recycling facility in Brazil with Viridis Mining and Minerals Limited (ASX: VMM) to separate high value magnet and heavy rare earths from the Colossus Project's full spectrum of REOs.

This integrated strategy completes the circular economy of sustainable and traceable magnet and heavy rare earth products needed to supply applications critical to EVs, offshore wind turbines, communication, and key defence initiatives.

Dear Shareholder

Renounceable Entitlement Offer of New Shares and New Options

Ionic Rare Earths Limited has announced a pro-rata renounceable entitlement offer of new fully paid ordinary Shares and Options in the Company to existing shareholders (Offer). The Offer is open to all eligible shareholders of the Company who are on the share register on 19 September 2025 (Record Date) and who have a registered address in Australia or New Zealand.

The Offer is by way of a pro-rata renounceable entitlement issue of:

- 1 New Share for every 15 Shares held by Eligible Shareholders registered at the Record Date at an issue price of 1.6 cents per New Share; and
- 1 New Option for every 1 New Share applied for (at no additional issue price) exercisable at 2.5 cents before 30 September 2028.

This letter has been sent to you to inform you about the Offer and to explain why you are ineligible to subscribe for New Shares and New Options under the Offer. This letter is not an offer to issue New Shares and New Options to you, nor an invitation for you to apply for New Shares and New Options. You are not required to do anything in response to this letter but there may be financial implications for you as a result of the Offer that you should be aware of.

Eligibility criteria

The restrictions upon eligibility under the Offer are in place because of legal limitations on making or extending an offer of securities in some countries. The Company has determined pursuant to Listing Rule 7.7.1(a) of the ASX Listing Rules that it would be unreasonable to make or extend the Offer to shareholders in countries outside of Australia and New Zealand having regard to the relatively small number of shareholders in those countries, the number and value of shares those shareholders hold and the potential cost of complying with regulatory requirements in those countries.

Accordingly, in compliance with ASX Listing Rules and the Act, the Company wishes to advise you that it will not be extending the Offer to you and you will not be able to apply for New Shares and New Options under the Offer.

The Company has appointed Mahe Capital Pty Ltd to act as nominee to sell the entitlements to which ineligible shareholders are entitled and to account to them for the net proceeds of the sale. There is no guarantee that there will be any net proceeds, but if there are any you will be notified in due course.

The Company, Mahe Capital, their affiliates and related bodies corporate, and each of their respective directors, officers, employees, partners, contractors, consultants, advisers and agents, disclaim any duty or liability (including in negligence) in respect of any determination of eligibility, to the maximum extent permitted by law.

Further information

If you have any questions, please contact the Company's share registry, Computershare Investor Services on 1300 850 505 (for callers within Australia), or +61 3 9415 4000 (for callers outside Australia) at any time between 8.30am and 5.00pm (Melbourne time) on Monday to Friday.

For other questions, please contact your stockbroker, accountant or other professional financial adviser.

On behalf of the Board, I thank you for your continued support of the Company.

If the purchaser of your Entitlement is an Ineligible Shareholder or a person that would be an Ineligible Shareholder if they were a registered holder of Shares, that purchaser will not be able to take up the Entitlement they have purchased. - If you wish to transfer all or a proportion of your Entitlement to or from another person on the CHESS subregister you must engage your CHESS controlling participant (usually your stockbroker). If you do not take up your Entitlement or dispose of your Entitlement by the Closing Date, the Offer to you will lapse.	N/A

2.11 Payment

Eligible Shareholders are requested not to forward cash as cash payment will not be accepted. Receipts for payment will not be provided. Neither the Company nor the Share Registry accepts any responsibility if you lodge your Entitlement and Acceptance Form and payment at any other address or by any means other than those detailed in this Prospectus and in the Entitlement and Acceptance Form.

Payment by BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form which can be accessed online at www.computersharecas.com.au/ixr. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Securities which is

covered in full by your Application Monies; and

- (c) if you pay more than your full Entitlement, you are deemed to have applied for Shortfall Shares (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. It is your responsibility to ensure that funds submitted through BPAY® are received by 5.00pm (Melbourne time) on the Closing Date and using the correct BPAY® details. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.

By EFT

Payment by Electronic Funds Transfer (EFT) is only available to all Eligible New Zealand Shareholders. If you wish to arrange for payment by EFT and are an Eligible New Zealand Shareholder, please follow the instructions on the Entitlement and Acceptance Form which can be accessed online at www.computersharecas.com.au/ixr or contact the Company for payment instructions. Please note should you choose to pay by EFT:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application Monies; and
- (c) if you pay more than your full Entitlement, you are deemed to have applied for Shortfall Shares (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. It is your responsibility to ensure that funds submitted through EFT are received by 5.00pm (Melbourne time) on the Closing Date and using the correct EFT unique reference number. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.

Guidance where you have more than one BPAY® Reference Number or EFT Unique Reference Number (i.e., multiple eligible Security holdings)

If you have more than one shareholding of securities and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Security holdings only use the BPAY® Reference Number or EFT Unique Reference Number (as applicable) specific to that Security holding as set out in the applicable Entitlement and Acceptance Form. Do not use the same BPAY® Reference Number or EFT Unique Reference Number (as applicable) for more than one of your Security holdings. This can result in your Application monies being applied to your Entitlement in respect of only one of your Security holdings (with the result that any Application in respect of your remaining Security holdings will not be valid).

By cheque

Payment by cheque will not be accepted.

2.12 Implications of an acceptance

By returning a completed Entitlement and Acceptance form or payment of any Application Monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety; and
- (b) you acknowledge that once the Entitlement and Acceptance Form is completed, or a BPAY® payment or an EFT payment instruction is given in relation to any application monies, the application may not be varied or withdrawn except as required by law.

2.13 ASX listing

The Company intends to apply for Official Quotation of the New Shares and the New Options offered under the Offer. Application will be made to ASX no later than 7 days after the date of this Prospectus for the Official Quotation of the New Shares and New Options under the Offer. If ASX does not grant Official Quotation of the New Shares and New Options offered pursuant to this Prospectus as required, all Application Monies will be returned without interest.

The possibility that ASX may grant Official Quotation to the New Shares and Options is not to be taken in any way as an indication of the merits of the Company or the New Shares and Options now offered.

The New Shares are expected to trade under the existing code "IXR" and the code for the New Options will be available following issue.

2.14 Overseas shareholders

The Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus. It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas shareholders, the number and value of securities these shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Shares will not be issued to shareholders with a registered address which is outside Australia or New Zealand, unless otherwise determined by the Company.

(i) New Zealand

The Offer is not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand at the Record Date to whom the offer of these securities is being made in reliance on the transitional provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offer) Exemption Notice 2021 (New Zealand). This Prospectus has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

(ii) Nominees and custodians

Nominees and custodians may not submit an Entitlement and Acceptance Form on behalf of any shareholder resident outside Australia and New Zealand without the prior consent of the Company, taking into account relevant securities law restrictions. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

2.15 Appointment of Nominee under Listing Rule 7.7

Pursuant to Listing Rule 7.7, the Company has appointed the Lead Manager and Underwriter as a nominee to sell the Entitlements to which Ineligible Shareholders are entitled and to account to them for the net proceeds of the sale.

2.16 Notice to nominees and custodians

Nominees and custodians that hold Shares should note that the Offer is available only to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Shares. If any nominee or custodian is acting on behalf of a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Offer is compatible with applicable foreign laws.

2.17 CHESS and issuer sponsorship

The Company operates an electronic CHESS sub-register and an electronic issue sponsored sub-register. These two sub-registers will make up the Company's register of shares.

The Company will not issue certificates to security holders. Rather, holding statements (similar to bank statements) will be despatched to security holders as soon as practicable after allotment. Holding statements will be sent either by CHESS (for security holders who elect to hold Shares on the CHESS sub-register) or by the Company's Share Registry (for security holders who elect to hold their Shares on the issuer sponsored sub-register). The statements will set out the number of New Shares and New Options allotted under this Prospectus and the Holder Identification Number (for security holders who elect to hold Shares on the CHESS sub register) or Shareholder Reference Number (for security holders who elect to hold their shares on the issuer sponsored sub-register). Updated holding statements will also be sent to each security holder following the month in which the balance of their security holding changes, and also as required by the Listing Rules and the Corporations Act.

2.18 Electronic Prospectus

Applications for securities may only be made on the personalised Entitlement and Acceptance Form which will be provided to invitees, and which will be accompanied by the complete and unaltered electronic version of this Prospectus.

The Corporations Act prohibits any person from passing on to another person a personalised Entitlement and Acceptance Form unless it is attached to or accompanied by a hard copy of this Prospectus or by the complete and unaltered electronic version of this Prospectus. The Company reserves the right not to accept an Entitlement and Acceptance Form from a person if it has reason to believe that when that person was given access to the Entitlement and Acceptance Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

2.19 Market price of Shares

The highest and lowest closing market sale prices of the Shares on ASX during the three months immediately preceding the date of lodgement of this Prospectus with ASIC and the respective dates of those sales were:

Lowest: 0.8 cents on 11 and 12 June 2025

The Share price on ASX at close of market on 11 September 2025 was 1.7 cents per Share, being the day prior to the date of lodgement of this Prospectus with ASIC.

2.20 Privacy

Persons who apply for securities pursuant to this Prospectus are asked to provide personal information to the Company, either directly or through the Share Registry. The Company and the Share Registry collect, hold and use that personal information to assess applications for securities, to provide facilities and services to Securityholders, and to carry out various administrative functions.

This document is important and should be read in its entirety. Persons who are in any doubt as to the course of action to be followed should consult their stockbroker, solicitor, accountant or other professional advisor without delay. Questions relating to the Offer can be directed to the Share Registry on 1300 850 505 (within Australia) or +61 3 9415 4000 (outside Australia) at any time between 8.30am and 5.00pm (Melbourne time) Monday to Friday during the Offer period.

3. Purpose and effect of the Offer

3.1 Purpose of the Offer

The purpose of the Offer is to raise up to approximately \$6.1 before costs. The funds raised from the Offer will primarily be used to support the activity underway on early works and financing Ionic Technologies' Belfast magnet recycling project, advancing the Brazilian rare earth refining and recycling Viridion joint venture, both corporate and supply chain development activity in the USA, minor ongoing costs at the Makuutu Heavy Rare Earth Project, and provide working capital.

The use and allocation of capital may need to be altered during the course of the Company's programs. Funds may be re-allocated to any particular project according to results, program assessment and strategic needs.

3.2 Effect of the Offer

The principal effect of the Offer, assuming all Entitlements are accepted and no Shares are issued including on exercise or conversion of other securities on issue prior to the Record Date, will be to:

- (a) increase the cash reserves by approximately \$6.6 million (after deducting the costs of the Offer) immediately after completion of the Offer; and
- (b) increase the number of Shares and Options on issue as set out in section 1.2. It is possible that Shareholders will be asked to consider in due course a potential share consolidation which would reduce the number of Shares and Options on issue without changing their proportionate interest in the Company, although details in this regard have not been determined.

3.3 Pro-forma Balance Sheet

The unaudited balance sheet for the Company as at 30 June 2025 and the unaudited pro-forma balance sheet shown below have been prepared on the basis of the accounting policies normally adopted by the Company and reflect the changes to its financial position. They are based on consolidated management accounts as at 30 June 2025 and are subject to potential adjustment as a consequence of the audit process.

The unaudited pro-forma balance sheet has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

4. Rights and liabilities attaching to securities

4.1 Terms of New Options

New Options entitle the holder (Holder) to subscribe for ordinary fully paid shares in the Company (Shares) on the following terms:

- (a) Each New Option entitles the Holder to subscribe for one Share upon exercise of the New Option.
- (b) The amount payable on exercise of a New Option is 2.5 cents.
- (c) Subject to paragraphs (l) and (m), each New Option expires on 30 September 2028. A New Option not exercised on or before the expiry date will automatically lapse on the expiry date.
- (d) There are no participating rights or entitlements conferred on the New Options and the Holder will not be entitled to participate with respect to the new Options in new issues offered to Shareholders during the term of the New Options without exercising the New Options. There is no change in exercise price or to the number of Shares over which a New Option can be exercised in the event of a pro-rata issue.
- (e) In the event of any reorganisation of capital of the Company prior to the expiry date for exercise of the New Options, the number of New Options to which the Holder is entitled or the exercise price of the New Options or both will be changed to comply with the ASX Listing Rules applying to a reorganisation of capital at the time of reorganisation.
- (f) The number of New Options held will appear on a Holder's statement which will be accompanied by a Notice of Exercise of New Options form that is to be completed when exercising New Options.
- (g) The New Options can be exercised at any time prior to their expiry date by completing the Notice of Exercise of New Options form and delivering it to the Company with payment of the exercise price for each New Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.
- (h) The Company shall, within 5 Business Days after the receipt of a Notice of Exercise of New Options form and the requisite payment, issue Shares in respect of the New Options exercised and arrange for a holding statement for the Shares to be despatched to the Holder.
- (i) The Holder may exercise any number of the New Options without prejudice to the Holder's ability to subsequently exercise any remaining New Options.
- (j) If admitted to the official list of ASX at the time, the Company will, within 7 days, apply for official quotation on ASX of the Shares issued upon the exercise of the New Options.
- (k) Shares issued on exercise of a New Option rank equally with the then issued shares of the Company.
- (l) If a takeover bid within the meaning of the Corporations Act is made for the Shares in the Company and the bidder acquires a relevant interest in at least 90% of the Shares and the bid is unconditional, any New Options not exercised within 7 days thereafter will automatically lapse.
- (m) If a court orders a meeting to be held in relation to a proposed scheme of arrangement in relation to the Company the effect of which is that a person will have a relevant interest in at least 90% of the Shares and that resolution is passed by the requisite majorities of Company shareholders, any New Options not exercised within 2 days of the court order approving the scheme of arrangement will automatically lapse.

4.2 New Shares

A summary of the key rights attaching to the New Shares is set out below. The provisions of the Constitution relating to the rights attaching to the New Shares must be read subject to the Corporations Act, the ASX Listing Rules and the ASX Settlement Operating Rules. This summary is not intended to be exhaustive and does not constitute a definitive statement of the rights, liabilities and restrictions attaching to the New Shares.

- (a) Every Shareholder present in person or by proxy at a meeting of Shareholders has one vote on a vote taken by a show of hands, and on a poll, every Shareholder who is present in person or by proxy has one vote for every fully paid Share held. A poll may be demanded at a meeting in the manner permitted by the Corporations Act.
- (b) Dividends are payable upon the determination of the Directors, who may fix the amount, time for payment and method of payment of dividends.
- (c) Subject to the Corporations Act, ASX Listing Rules and ASX Settlement Operating Rules, a Shareholder may transfer Shares by an instrument in writing in a form approved by the Directors. Except as otherwise provided for in the ASX Listing Rules or the ASX Settlement Operating Rules, the Directors may in certain circumstances refuse to register any transfer of New Shares, or request ASX or its registry to apply a holding lock to prevent a proper ASX transfer of Shares.
- (d) Each Shareholder is entitled to receive notice of, and to attend, general meetings of the Company and to receive all notices, accounts and other documents required to be sent to Shareholders under the Constitution, the Corporations Act and the ASX Listing Rules. A Director may call a meeting of members and members may also requisition or convene general meetings in accordance with the procedures for member-initiated meetings set out in the Corporations Act. Shareholders must be given at least 28 days written notice of any general meeting unless otherwise permitted by the Corporations Act.
- (e) All Shares rank equally in the event of a winding up, subject to any amount remaining unpaid on any Shares. Once all the liabilities of the Company are met, the liquidator may, with the sanction of a special resolution of the members, divide amongst the members all or any of the Company's assets and for that purpose determine how the liquidator will carry out the division between the different classes of members.
- (f) If the Company's share capital is divided into different classes of Shares, the rights attached to any class may be varied or cancelled by a special resolution passed at a general meeting of the holders of Shares in that class or with the written consent of three quarters of the holders of Shares in that class.
- (g) If a Shareholder holds a number of Shares that is less than a marketable parcel (as defined in the ASX Listing Rules and is generally a holding of Shares with a market value of not less than \$500), the Company has the power to sell or dispose of such Shares unless otherwise instructed by the Shareholder. The net proceeds from the sale will be paid to the Shareholder.

5. Risk factors

The business activities of the Company are subject to risks and there are many risks which may impact on the Company's future performance. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but many are outside of the control of the Company and cannot be mitigated. There are also general risks associated with any investment. Investors should consider all of these risks before they make a decision whether or not to subscribe for New Shares and Options.

The New Shares and Options offered under this Prospectus are considered speculative. An investment in the Company is not risk free and the Directors strongly recommend that potential investors consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding to apply for the New Shares and Options pursuant to this Prospectus.

The principal risk factors include, but are not limited to, the following:

Risk Category	Risk
Financial and Capital Risk	At present the Company's expenses exceeds its revenue. The Company's financial position depends on its ability to secure additional capital for activities across its portfolio of assets and to pay its expenses as and when they occur. There can be no assurance that additional capital (or other types of financing) will be available or that, if available, the terms of such additional capital will be on favourable terms.
Market volatility and Geopolitical Risk	A significant risk for the Company is the volatility of rare earth oxide prices, which are subject to fluctuations driven by global supply-demand dynamics, geopolitical tensions, and macroeconomic conditions. Changes in these prices can have a substantial impact on the Company's outlook. Furthermore, rare earth elements are considered to be in the highest risk quartile on criticality indices for western governments, representing both high economic importance and high supply chain risk, making them geopolitically sensitive due to their strategic role in high-tech industries such as defence, renewable energy advanced manufacturing. As a result, export restrictions, tariffs, or trade disputes between nations could and have previously resulted in dramatic price escalations, substantially disrupting global supply chains, negatively impact significant industrial investment, and could hinder the Company's access to key markets.

Risk Category	Risk
Operational Risk	The successful development of the Ionic Technologies magnet recycling project, progressing the Viridion JV in Brazil in developing new refining and recycling capacity, and the Makuutu project as an economically viable rare earth mine, is central to the Company's long-term success. At Ionic Technologies, the magnet recycling demonstration plant has validated the technical aspects of the patented process, and engineering studies have defined a high confidence capital and operational cost basis to commercialise the technology in the UK. Additional engineering is required through FEED stage and financing activity is underway, where due diligence on the overall financing of the Project will require support from both Government and western customers and supply chain partners to reach commercialisation. The development of refining and recycling capacity in Brazil will be influenced by market conditions and appetite from both local and western customers to support the development. At Makuutu, geological uncertainties and the complexities involved in mining and processing rare earth elements present operational risks that must be carefully managed and derisked through staged activity to enhance overall execution confidence prior to the final investment decision.
Environmental Risk	The Company must comply with environmental and climate-related regulations that impact its mining activities. Failure to meet these standards or adapt to changing regulations could affect the Company's financial performance and require unplanned expenditures. Additionally, stricter requirements from customers or partners may also lead to increased compliance costs. The Company manages these risks through a strong risk management framework and environmental management plans. The appetite from supply chain customers for a circular economy solution to rare earths security of supply via magnet recycling provides a significantly lower step change in environmental risk and carbon footprint for the production of rare earth oxides which is seen as a benefit over primary mined rare earth supply sources.
Tenure Risk	The Company's access to funding directly influences the ability to continue investment at the Makuutu project to satisfy continued access rights under exploration permits and mining licences. Access rights are governed by Ugandan Mining Regulations. If the Company fails to comply with the requirements therein, it may lose access rights or incur material unplanned expenditure, and or loss of the tenement if failing to meet expenditure obligations.

Risk Category	Risk
Technology Risk	The Company has invested in developing magnet recycling technology and has several patents protecting its intellectual property. The Company has produced rare earth oxides at demonstration scale in its Belfast facility and the Company is subject to risks associated with scale up of technology to commercial scale. Whilst the Company has methodically worked through laboratory, pilot and demonstration scale verification of the process, the Company's ability to achieve the financial performance and outcomes may be materially adversely affected if it fails to achieve its scale up plans to commercialisation, which does however represent a substantially smaller scale up risk relative to the development of rare earth mining and processing activity, with a significantly lower capital and technical risk profile.
Execution Risk	The Company may experience time delays, unforeseen expenses, increased capital costs and other complications while developing its magnet recycling technology, its Viridion joint venture or its Makuutu Project in Uganda. These risks could delay the start of revenue-generating activities and increase development costs. Further to the above, the Company depends on key personnel for the success of the business.
Personnel Risk	In order to deliver on its initiatives, the Company will need to retain and attract suitably qualified personnel to deliver on its plans. The technical aspects of the business require specific skill sets which are in high demand. To address this the Company is exploring mechanisms to reduce the risk profile.

6.2 Continuous disclosure obligations

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities.

This Prospectus is a 'transaction specific prospectus'. In general terms a 'transaction specific prospectus' is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been provided to ASX and does not include all of the information that would be included in a Prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with ASIC in relation to the Company may be obtained from, or inspected at, the offices of ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the annual financial report most recently lodged by the Company with ASIC, being the financial report for the year ending 30 June 2024; and
 - (ii) any continuous disclosure documents given by the Company to ASX after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with ASIC.

Copies of all documents lodged with ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

Details of documents lodged by the Company with ASX since the date of lodgement of the Company's latest full year statutory accounts and before the lodgement of this Prospectus with ASIC are available through the Company's website www.ionicre.com and are set out in the table below:
