The Directors present their report, together with the financial statements, on Australian Gold and Copper Limited (referred to hereafter as the 'Company') for the financial year ended 30 June 2025.

## **DIRECTORS**

The following persons were Directors of Australian Gold and Copper Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

<b>NAME OF PERSON</b>	<b>POSITION</b>
Mr Glen Diemar	Managing Director
Mr Zhang Yong	Non-Executive Chairman
Dr Adam McKinnon	Non-Executive Director
Mr Pan Yang	Non-Executive Director ( <i>appointed 23 January 2025</i> )
Mr David Richardson	Non-Executive Chairman ( <i>resigned 20 September 2024</i> )

## **PRINCIPAL ACTIVITIES**

During the financial year, the principal activities of the Company consisted of mineral exploration in Australia.

## **DIVIDENDS**

No dividends were paid or declared during the financial year. No dividend has been recommended.

## **REVIEW OF OPERATIONS**

### **Operating Result**

The loss for the Company after providing for income tax, for the financial year amounted to \$1,089,362 (2024: \$644,414).

### **Corporate**

#### Strategic Acquisitions

Although the primary focus was to actively explore its existing tenements, particularly at the Achilles discovery, the Company took advantage of two regional opportunities to acquire additional tenements to consolidate the South Cobar Project to over 2,600 km<sup>2</sup>.

In June 2025 AGC executed a tenement sale agreement with Strategic Energy Resources (ASX: SER) for the acquisition of NSW exploration title EL9012 to add 270km<sup>2</sup> of highly prospective exploration tenure.

The tenement shares similar geological prospectivity to Achilles, with potential for gold-silver-base metal mineralisation along multiple structural trends, and includes a five-kilometre southern extension of the Achilles Shear Zone.

The transaction comprises \$50,000 payable upon execution of the agreement, with a further \$350,000 payable on completion. The agreement also provides for a production payment of \$100 per gold-equivalent ounce produced from the tenement, capped at \$1 million.

In August 2025 the Company announced that it had executed a tenement sale agreement with Eastern Metals Limited (ASX: EMS) for the acquisition of its 6.5km-long Browns Reef Project, located adjacent to AGC's existing South Cobar Project in NSW (see Figure 1).

The Browns Reef Project comprises four NSW tenements (EL6321, EL9136, EL9180 and EL9565) which will add 1,269km<sup>2</sup> of highly prospective exploration tenure.

Browns Reef is an advanced stage target with over 24,000m of previous drilling along a highly prospective 6.5km strike length, and exhibits exceptional silver, gold and base metal drill intercepts and drill targets.

The Transaction comprises the following:

- A deposit of A\$200,000 has been paid upon Agreement execution
- At transaction Completion, AGC is to issue A\$1,300,000 in AGC ordinary shares (at an issue price equivalent to AGC's 5-day VWAP prior to the Completion Date)
- EMS will pursue an in-specie distribution of A\$700,000 of AGC shares to EMS shareholders, adding new investors onto the AGC share register
- The sale requires the approval of EMS shareholders at an EMS General Meeting to consider the transaction, which is expected to take place in late October 2025.

With these two acquisitions, AGC has now become the dominant titleholder across the South Cobar Basin, securing belt-scale control of this emerging mineral province.

#### Capital Raisings

In August 2024, the Company completed Tranche 2 of the June 2024 placement following the receipt of shareholder approval to issue shares for the \$6.05 million subscription by GeoZen, who exercised their participation rights to maintain their 55% shareholding in AGC.

The completion of the placement ensured that the Company is now well placed to accelerate the exploration of its projects in the Central Lachlan Fold Belt of New South Wales.

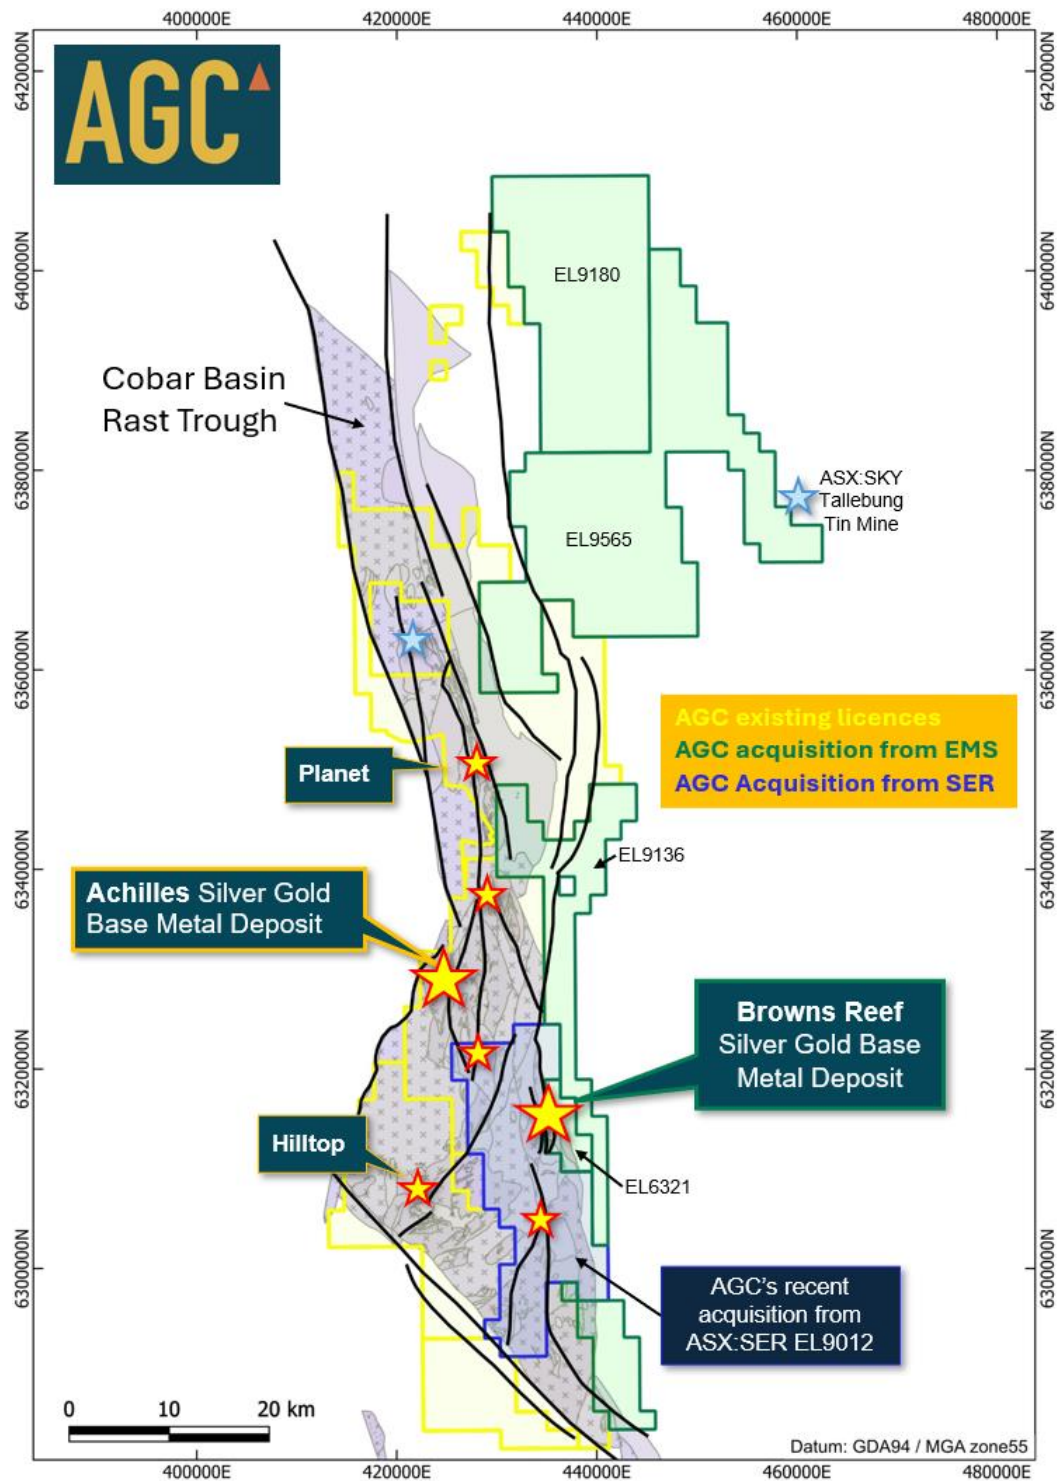

Subsequent to the end of the reporting period, a total of 5.5 million unlisted options were exercised, which generated further cash proceeds of \$602,500 for the Company. The shares from the exercise of these options were issued on 12 August 2025.

#### Board Changes

Mr. David Richardson resigned as non-executive co-chairman and director of AGC effective from 20 September 2024.

Following Mr. Richardson's resignation, Mr. Zhang Yong has continued in the role as the sole non-executive chairman of the Company.

Mr Pan (Joe) Yang was appointed as a non-executive director effective from 23 January 2025. Mr Yang brings considerable experience in strategy, finance, M&A, construction and operations including high-level roles for the China National Chemical Corporation, a Fortune 500 company. Mr Yang is currently the CEO of Geozen Resources.

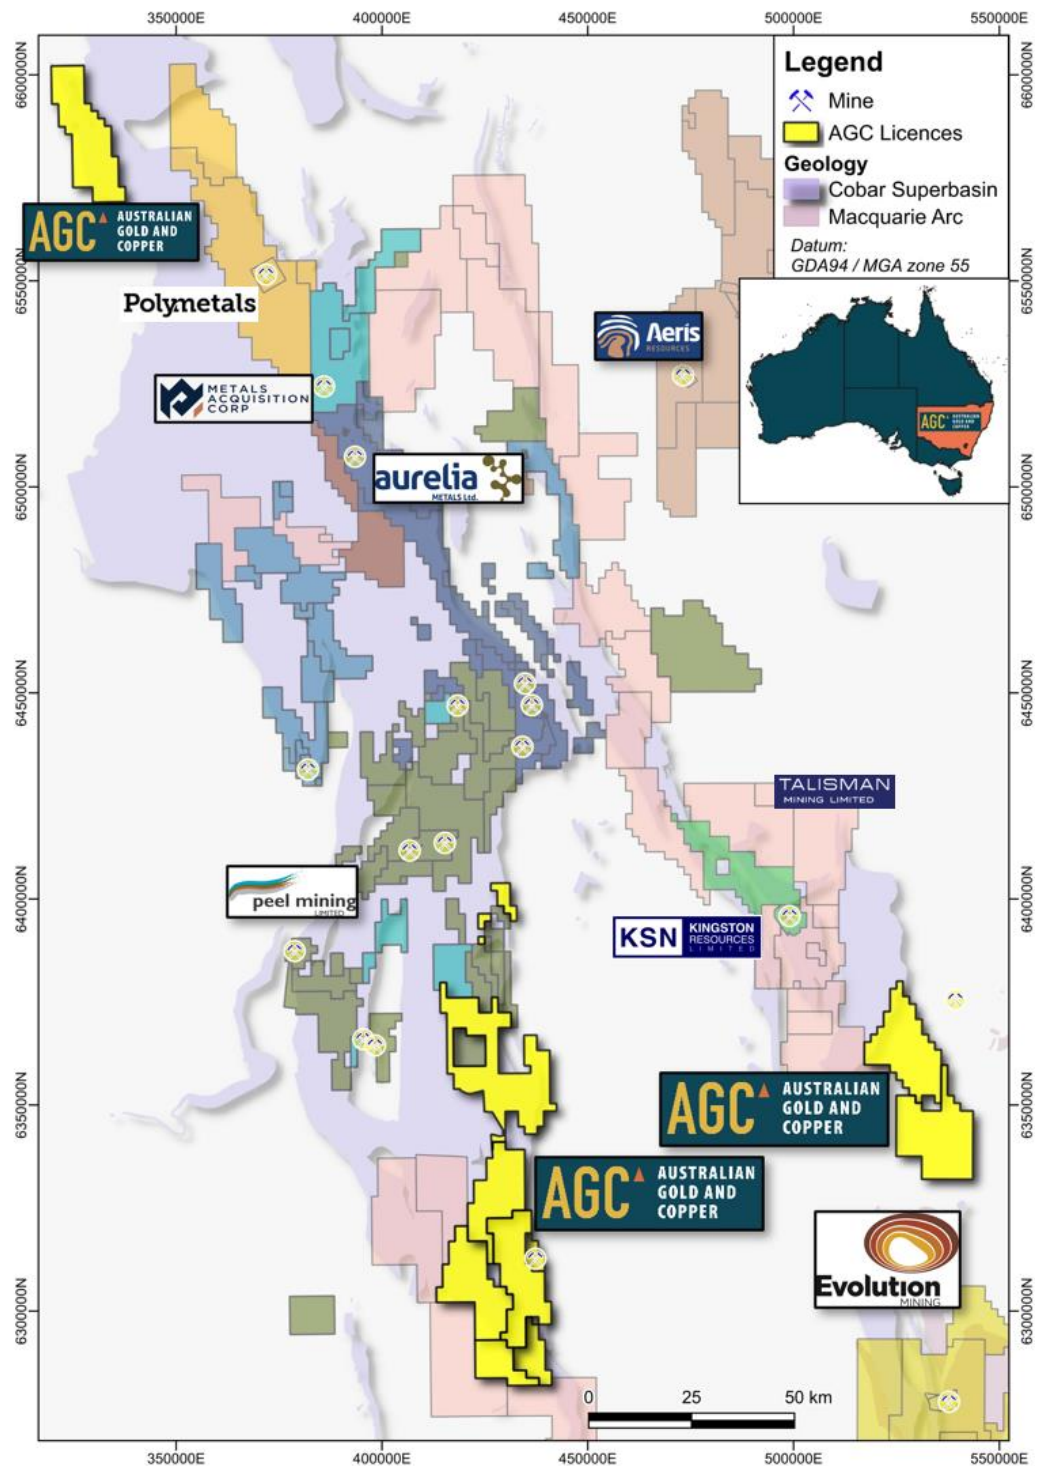

**Figure 1:** Location of AGC South Cobar Project with the new titles being acquired from EMS in green and SER in blue. AGC is the dominant title holder of the prospective Rast Trough of the Cobar Basin.

### Exploration

The Company has built a significant portfolio of high quality NSW projects.

During the year, AGC's delivered on its medium-term growth strategy to build a precious and base metal district in the South Cobar area. Initially through expanding the size of the Achilles deposit and its development potential and through consolidation of the South Cobar district

**Figure 2.** Location of AGC's Projects in relation to major mines and deposits within the western Lachlan Fold Belt.

South Cobar Project - Achilles Discovery

**First Reverse Circulation (RC) Drilling Program**

The Achilles gold silver base metal deposit was discovered in April to May 2024. The Company commenced the financial year with a further RC drilling program at Achilles for 20 holes totalling 3,848 metres. The program targeted extensions surrounding known mineralisation and shallow high-grade zones.

The results demonstrated that the gold, silver and base metal mineralisation continues to depth and along strike with significant high-grade zones near surface. The high-grade central zone was extended up dip with hole A3RC045 returning a broad zone of mineralisation that demonstrates the near surface high-grade potential.

- A3RC045: 12m at 2.2g/t Au, 113g/t Ag from 86m

The northern zone also continued to deliver very high grades near surface with A3RC048 intersecting significant oxide gold, silver and lead mineralisation hosted in the weathered zone. This has given rise to a new search space for follow up drilling with high potential for oxide-style mineralisation from 60m depth to surface.

- A3RC048: 6m at 3.2g/t Au, 48g/t Ag, 11.1% Pb from 58m (oxide)

Extensions were made in the northern zone and overall length of the deposit.

- A3RC040 3m at 0.4% Cu, 8.1% Pb+Zn from 92m
- A3RC041 5m at 6.2% Pb+Zn from 103m

Strong copper grades up to 3.4% were returned from the northern zone.

- A3RC050: 12m at 0.9g/t Au, 211g/t Ag, 0.9% Cu, 13.8% Pb+Zn from 77m  
inc. 2m at 2.0g/t Au, 566g/t Ag, 1.7% Cu, 23.2% Pb+Zn from 78m  
and inc. 7m at 0.5g/t Au, 134g/t Ag, 1.1% Cu, 19.2% Pb+Zn from 83m

This occurs within a broader interval of 57m at 0.2g/t Au, 47g/t Ag, 0.2% Cu, 3.8% Pb+Zn from 39m, including peak grades of 855g/t silver, 3.4% copper, 37.2% lead+zinc.

Exploration hole A3RC047, completed 600m northwest of Achilles, has defined a new area hosting encouraging copper grades. A sphalerite zone was recognised with peak zinc grades to 4.2% at 102m above a broad chalcopyrite (copper) zone deeper in the hole with peak copper grades to 0.95% at 187m.

- A3RC047: 4m at 0.2% Cu, 3.0% Pb+Zn from 101m  
and 23m at 0.3% Cu from 172m including 2m at 0.8% Cu from 187m

For further information, please see the ASX releases on 5 August 2024 and 17 October 2024.

**Diamond Drilling (DD) Program**

Following on from the RC drilling program at Achilles, a ten (10) hole DD program was completed for a total of 2,756 metres.

The primary aim of the diamond drilling was to improve the understanding of the structural controls and geometry of the higher-grade zones, as well as targeting depth extensions to the deposit.

The central portion of the deposit continues to deliver exceptional results with silver grades of up to 2.9 kilograms per tonne returned from hole A3DD008.

The key results from the central section were:

- A3DD008 27m at 1.4g/t Au, 241g/t Ag & 1.9% Pb+Zn from 99m  
inc. 9m at 3.7g/t Au & 566g/t Ag from 110m  
inc. 4m at 5.0g/t Au & 1,182g/t Ag from 111m (see Figures 3 and 4)  
inc. 1m at 1.6g/t Au & 2,910g/t Ag from 111m (see Figure 4)  
and a lower zone of 2.1m at 0.5g/t Au, 145g/t Ag & 16.5% Pb+Zn from 123m
- A3DD004 9.1m at 3.0g/t Au, 698g/t Ag, 1.2% Cu & 19.4% Pb+Zn from 126.5m, including  
2.5m at 6.7g/t Au, 1,625g/t Ag, 0.9% Cu & 18.5% Pb+Zn from 126.5m
- A3DD005 28m at 0.2g/t Au & 99g/t Ag from 228m  
inc. 3m at 0.3g/t Au & 406g/t Ag from 240m  
and 1m at 1.7g/t Au, 1,075g/t Ag & 2.6% Pb+Zn from 249m
- A3DD007 25m at 0.5g/t Au, 89g/t Ag & 1.4% Pb+Zn from 128m  
inc. 4m at 2.2g/t Au, 508g/t Ag & 6.4% Pb+Zn from 139m  
inc. 0.8m at 4.5g/t Au, 2,010g/t Ag & 16.1% Pb+Zn from 140.1m

A hole was also drilled in the northern section of the deposit, which returned:

- A3DD003 19m at 0.3g/t Au, 73g/t Ag, 0.5% Cu & 11.1% Pb+Zn from 92.0m including a high silver zone of 4.5m at 227g/t Ag & 3.4% Pb+Zn from 93.0m and including high-grade base-metal zones of 1.6m at 0.8g/t Au, 96g/t Ag, 1.9% Cu & 34.0% Pb+Zn from 99.0m, and 1.5m at 1.5% Cu & 39.3% Pb+Zn from 108.1m

Results from the southern section included:

- A3DD009 8.4m at 0.3g/t Au & 121g/t Ag from 131.6m inc. 2.0m at 0.6g/t Au & 281g/t Ag from 132.0m

This result expanded the known extents of the silver zone a further 200m south, with the full high-grade silver zone now over 600 metres in length and over 300 metres down dip.

For further information, please see the ASX releases on 13 November 2024, 18 December 2024 and 29 January 2025.

#### **Large Scale Aircore Drilling Program**

The Company undertook a large scale aircore drilling program along the Achilles Shear Zone between February and April 2025, testing for extensions to the Achilles discovery located in the southern portion of the Cobar Basin in central NSW.

With a total of 312 holes drilled for 11,137 metres, the aircore drilling program was the largest drilling program conducted to date in the South Cobar district.

Drilling was focused along a 5km corridor of the Achilles Shear Zone, extending immediately south and northwest of the Achilles deposit.

The aircore drilling technique employed vertical holes to penetrate transported cover and sample the underlying in-situ weathered material above fresh bedrock. Hole depths varied depending on the depth of weathering and the hardness of the rock.

This program targeted geochemical pathfinder elements within the weathered profile to identify vectors toward potential mineralisation, with results now guiding the placement of deeper RC drilling in the second half of 2025.

#### **Oxide Drilling Program – Shallow Weathered Oxide Mineralisation**

A seven hole drill program for 509 metres was conducted in February 2025 targeting the weathered material above the Achilles deposit, testing for near surface high grade oxide mineralisation.

The program was a first pass test to understand the mineralisation's proximity to surface and guide future drilling for resource growth. The 7 holes were drilled north to south along the central zone of the deposit.

The drilling delivered notable shallow oxide gold intersections:

- A3OX006 30m at 0.7g/t Au & 23g/t Ag from 16m inc. 7m at 1.1g/t Au & 53g/t Ag from 17m and 5m at 1.4g/t Au & 33g/t Ag from 37m

The geometry of oxide mineralisation at Achilles is interpreted to be the result of the weathering processes affecting this part of the orebody.

Shallow base metals intersections in fresh rock were also found, including:

- A3OX002 2m at 0.7% Cu & 5.8% Pb+Zn, 0.3g/t Au & 17g/t Ag from 64m
- A3OX007 1m at 0.6% Cu & 9.3% Pb + Zn, 0.1g/t Au & 18g/t Ag from 65m

The widths of mineralisation can change dramatically over short distances, with the strong copper, lead and zinc intercepted in A3OX007 considered encouraging. This demonstrates the potential for continuous mineralisation between the northern and central zone and will be a target for future drilling.

For further information, please see the ASX release on 7 April 2025.

### **Second RC Drilling Program**

The Company commenced a further round of RC drilling in May 2025 with the first holes targeting a new area approximately 500 metres south of the Achilles deposit. Additional holes were also drilled at the Achilles deposit to test extensions at depth and critical infill holes to improve continuity and confidence for a resource calculation in later months.

This latest RC drilling program comprised 18 holes for 3,247m. Assay results have been received for the first nine holes.

At the southern extent of Achilles, A3RC066 returned a thick zone of silver-gold mineralisation comprising:

- 7m at 291g/t AgEq; 220g/t Ag, 0.7g/t Au, 0.2% Pb+Zn from 239m within 38m to end of hole at 108g/t AgEq; 70g/t Ag, 0.4g/t Au, 0.1% Pb+Zn from 220m

A3RC067 was drilled 100m north of A3RC066 and also returned a strong zone of silver-gold mineralisation, comprising:

- 8m at 238g/t AgEq; 122g/t Ag, 1.2g/t Au, 0.2% Pb+Zn; from 249m within 16m at 153g/t AgEq; 71g/t Ag, 0.8g/t Au, 0.3% Pb+Zn; from 247m

AGC's technical team are highly encouraged by these results as they demonstrate a thickening of the known mineralisation at depth in the southern extend of Achilles.

An important recent development has also resulted from extensive geological modelling of the drilling, with a distinctive thinly bedded facies identified as an indicator to the proximity of mineralisation.

For further information, please see the ASX release on 11 August 2025.

### **Second Oxide Drilling Program – Shallow Weathered Oxide Mineralisation**

In conjunction with recent drilling programs, 12 oxide aircore holes totalling 994m were completed, targeting near surface gold and silver in the weathered environment at Achilles.

The program was a follow up test to previous oxide drilling completed earlier in 2025. The understanding of the mineralisation's geometry in the near-surface zone will guide future drilling and studies for potential resource growth.

One of these new holes, A3OX010, returned a thick near surface zone of gold-dominant mineralisation comprising:

- 5m at 19.1g/t Au, 52g/t Ag, 1.3% Pb+Zn (1,851g/t AgEq) from 30m within 42m at 2.6g/t Au, 12g/t Ag, 0.7% Pb+Zn (266g/t AgEq) from 26m

Wide intervals of very shallow mineralisation are welcome potential value and scale drivers for potential future Mineral Resources. Future holes will target around A3OX010 to better define this new gold zone.

Further encouraging oxide results include:

- A3OX009 16m at 68g/t AgEq; 0.3g/t Au, 16g/t Ag & 1.0% Pb+Zn from 54m
- A3OX011 18m at 91g/t AgEq; 0.4g/t Au, 5g/t Ag & 2.0% Pb+Zn from 25m
- A3OX015 12m at 101g/t AgEq; 0.5g/t Au, 31g/t Ag & 1.0% Pb+Zn from 60m
- A3OX018 5m at 136g/t AgEq; 0.6g/t Au, 80g/t Ag & 0.06% Pb+Zn from 67m

For further information, please see the ASX release on 3 September 2025.

### **Metallurgical Test Work & Silver Equivalency Calculation**

In August 2025 the Company reported that initial flotation and leaching test work on a bulk composite sample from the Achilles deposit has demonstrated robust recoveries of all metals to a silver-gold-lead-zinc concentrate.

The composite was selected from twenty-six individual core samples within seven diamond holes, for a combined grade of 229g/t Ag, 1.3g/t Au, 5.5% Zn, 3.2% Pb, 0.5% Cu. The composite then underwent sulphide rougher and cleaner flotation trials with leaching of the resultant tails.

This produced very good results comprising:

- Combined float/leach recoveries of 83.0% silver & 90.3% gold, with concentrate grades of up to 1,267 g/t & 4.9 g/t respectively
- 92.2% lead & 95.7% zinc, with concentrate grades of up to 18.5% & 32.8% respectively

The Company also commenced initial work to test the potential of Achilles to produce individual silver-gold-lead and zinc concentrates by sequential flotation.

Combined sequential and leach test work produced:

- A high-grade silver-gold-lead concentrate grading 2,276 g/t silver, 9.2 g/t gold & 41% lead with recoveries of up to 75.9%, 79.7% & 92.4%, respectively
- A high-grade zinc concentrate grading 59.6% Zn with a recovery of 69.9% Zn

Based on the completed bulk flotation and leaching test work, the Company has been able to define a silver equivalency calculation for Achilles incorporating silver, gold, zinc and lead.

Metal prices have been selected to closely approximate average spot prices between July 2024 and June 2025 (inclusive).

**Table 1:** Material assumptions used in the silver equivalence (AgEq) formula.

Metal	Flotation Recovery	Tail Leach Recovery	Total Recovery	Assumed Recovery	Assumed Price	AgEq Factor
<b>Ag</b>	78.7%	4.3%	83.0%	<b>83%</b>	<b>US\$31.60/oz</b>	<b>1.0</b>
<b>Au</b>	76.5%	13.8%	90.3%	<b>90%</b>	<b>US\$2700/oz</b>	<b>92.6</b>
<b>Zn</b>	95.7%	0.0%	95.7%	<b>95%</b>	<b>US\$2850/t</b>	<b>32.1</b>
<b>Pb</b>	92.2%	0.0%	92.2%	<b>92%</b>	<b>US\$2000/t</b>	<b>21.8</b>

The formula used to calculate the equivalency is:

$$AgEq(g/t) = Ag(g/t) + Au(g/t) / Au price / Ag price * Au recovery / Ag recovery + Zn(\%) / 100 * 31.1035 * Zn price / Ag price * Zn recovery / Ag recovery + Pb(\%) / 100 * 31.1035 * Pb price / Ag price * Pb recovery / Ag recovery$$

In the Company's opinion, all elements included in the silver equivalency have reasonable potential to be recovered and sold. Using the material assumptions in Table 2, the silver equivalent can be expressed using metal factors as  $AgEq(\%) = Ag(g/t) + 92.6 * Au(g/t) + 32.1 * Zn(\%) + 21.8 * Pb(\%)$ .

All future exploration results will be reported using the silver equivalency.

For further information, please see the ASX release on 7 August 2025.

#### Moorefield Project

The Moorefield Project comprises two exploration licences covering 480km<sup>2</sup> (EL7675 'Moorefield' and EL9536 'Ootha') see Figure 1. The project includes the 15km long Boxdale - Carlisle Reefs orogenic gold trend defined by strong surface geochemical anomalism and significant drill results reported during the previous year, comprising 47 RC holes, totalling 5,000m.

Other prospects include the 10km long Ootha copper anomaly, Ghost Hill, Lima-Maloola and Pattons Prospects, which are all considered prospective for Au-Cu mineralisation (AGC ASX prospectus lodged 18th November 2020).

#### Gundagai Project

The Gundagai project consists of an exploration licence covering 265km<sup>2</sup> (EL8955 'Gundagai') and comprises multiple drill ready prospects considered prospective for McPhillamys-style gold (e.g. Grandview), epithermal gold-copper (e.g. Rosehill) and large-tonnage Cobar-style zinc-lead-silver prospects (e.g. Bongongalong).

Gold prospects show similarities to the 2.3Moz, Late Silurian hosted McPhillamys Gold Deposit (ASX:RRL). The Grandview Gold Prospect is characterised by a zone of sheared quartz-sericite-carbonate-pyrite altered volcanics returning up to 35g/t Au in composite rock chips and represents a near term high-grade gold discovery opportunity.

Competent Persons Statement

The information in this document that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Mr Glen Diemar who is a member of the Australian Institute of Geoscientists. Mr Diemar is a full-time employee of Australian Gold and Copper Limited, and is a shareholder, however Mr Diemar believes this shareholding does not create a conflict of interest, and Mr Diemar has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Diemar consents to the inclusion in this presentation of the matters based on his information in the form and context in which it appears.

The information in this document that relates to Exploration Results is based on information compiled and reviewed by Dr Adam McKinnon, who is a non-executive Director of Australian Gold and Copper Limited and a member of the Australian Institute of Mining and Metallurgy. Dr McKinnon has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Dr McKinnon consents to the inclusion in this presentation of the matters based on his information in the form and context in which it appears.

Previously Reported Information

The information in this report that references previously reported exploration results is extracted from the Company's ASX IPO Prospectus released on the date noted in the body of the text where that reference appears. The ASX IPO Prospectus is available to view on the Company's website or on the ASX website ([www.asx.com.au](http://www.asx.com.au)). The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Forward-Looking Statements

This announcement contains "forward-looking statements." All statements other than those of historical facts included in this announcement are forward-looking statements. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and based upon information currently available to the company and believed to have a reasonable basis.

Although the company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and no assurance can be given that these expectations will prove to be correct as actual results or developments may differ materially from those projected in the forward-looking statements. Forward-looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to, copper, gold, and other metals price volatility, currency fluctuations, increased production costs and variances in ore grade or recovery rates from those assumed in mining plans, as well as political and operational risks and governmental regulation and judicial outcomes. Readers are cautioned not to place undue reliance on forward-looking statements due to the inherent uncertainty thereof. The forward-looking statements contain in this press release are made as of the date of this press release and except as may otherwise be required pursuant to applicable laws, the Company does not undertake any obligation to release publicly any revisions to any "forward-looking statement".

**SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS**

There were no significant changes in the state of affairs of the Company during the financial year.

**MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR**

On 10 June 2025, the Company announced that it executed a tenement sale agreement ('agreement') with Strategic Energy Resources (ASX: SER) for the acquisition of NSW exploration title EL 9012. The tenement licence will be incorporated into the Company's existing South Cobar project once complete. Completion of the transaction is subject to a \$50,000 cash payment upon execution of the agreement and \$350,000 cash payable upon completion of the condition's precedent within the agreement. As at 30 June 2025, the Company had made a \$50,000 (excl GST) cash payment to Strategic Energy Resources upon execution of the agreement. At the date of this report, completion of the transaction had not yet taken place.

On 5 August 2025, the Company announced that it has executed a binding tenement sale agreement with Eastern Metals Limited (ASX: EMS) for the acquisition of its Browns Reef Project. The Browns Reef Project comprises of four NSW tenements (EL 6321, EL 9136, EL 9180 and EL 9565). Transaction details include a deposit of \$200,000 which was paid upon execution of the agreement. At transaction completion:

- the Company is to issue \$1,300,000 in the Company's fully paid ordinary shares (at an issue price equivalent to the Company's 5-day VWAP prior to the Completion date);
- Eastern Metals Limited ('EMS') will pursue an in-specie distribution of \$700,000 of the Company's shares to EMS shareholders; and
- Subject to approval from EMS shareholders at an EMS General Meeting anticipated to take place in late September.

On 12 August 2025, Mr Glen Diemar and Dr Adam McKinnon exercised 3,000,000 unlisted options at \$0.107 per share and 2,000,000 unlisted options at \$0.114 per share respectively. Mr Ross Faichney, the Company's Senior Geologist exercised 500,000 options at \$0.107. The Company issued the respective shares upon receipt of funds.

Geozen Resources Group Co. Limited, a company controlled by Mr Zhang Yong, acquired 2,000,000 fully paid ordinary shares in the Company from Tetragonal Consulting Pty Ltd, a company controlled by Non-Executive Director, Dr Adam McKinnon, through an off-market trade.

The Directors are not aware of any other matters or circumstances that have arisen since the end of the financial year, which significantly affected or may significantly affect the operations of the Company the results of those operations, or the state of affairs of the Company in future financial years.

#### **LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS**

Information on likely developments in the operations of the Company and the expected results of operations have not been included in this report because the Directors believe it would be likely to result in unreasonable prejudice to the Company.

#### **MATERIAL BUSINESS RISKS**

The Company's exploration and evaluation operations will be subject to the normal risks of mineral exploration. The material business risks that may affect the Company are summarised below.

##### **Future capital raisings**

The Company's ongoing activities may require substantial further financing in the future. The Company will require additional funding to continue its exploration and evaluation operations on its projects with the aim to identify economically mineable reserves and resources. Any additional equity financing may be dilutive to shareholders, may be undertaken at lower prices than the current market price and debt financing, if available, may involve restrictive covenants which limit the Company's operations and business strategy. Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Company is unable to obtain additional financing as needed, it may be required to reduce, delay or suspend its operations and this could have a material adverse effect on the Company's activities and could affect the Company's ability to continue as a going concern.

#### **Exploration risk**

The success of the Company depends on the delineation of economically mineable reserves and resources, access to required development capital, movement in the price of commodities, securing and maintaining title to the Company's exploration and mining tenements and obtaining all consents and approvals necessary for the conduct of its exploration activities. Exploration on the Company's existing tenements may be unsuccessful, resulting in a reduction in the value of those tenements, diminution in the cash reserves of the Company and possible relinquishment of the tenements. The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions.

Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability. If the level of operating expenditure required is higher than expected, the financial position of the Company may be adversely affected.

#### **Feasibility and development risks**

It may not always be possible for the Company to exploit successful discoveries which may be made in areas in which the Company has an interest. Such exploitation would involve obtaining the necessary licences or clearances from relevant authorities that may require conditions to be satisfied and/or the exercise of discretions by such authorities. It may or may not be possible for such conditions to be satisfied.

#### **Regulatory risk**

The Company's operations are subject to various Commonwealth, State and Territory and local laws and plans, including those relating to mining, prospecting, development permit and licence requirements, industrial relations, environment, land use, royalties, water, native title and cultural heritage, mine safety and occupational health. Approvals, licences and permits required to comply with such rules are subject to the discretion of the applicable government officials.

No assurance can be given that the Company will be successful in maintaining such authorisations in full force and effect without modification or revocation. To the extent such approvals are required and not retained or obtained in a timely manner or at all, the Company may be limited or prohibited from continuing or proceeding with exploration. The Company's business and results of operations could be adversely affected if applications lodged for exploration licences are not granted. Mining and exploration tenements are subject to periodic renewal. The renewal of the term of a granted tenement is also subject to the discretion of the relevant Minister. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the tenements comprising the Company's projects. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.

#### **Mineral resource estimate risk**

Mineral resource estimates are expressions of judgement based on knowledge, experience and industry practice. These estimates were appropriate when made but may change significantly when new information becomes available. There are risks associated with such estimates. Mineral resource estimates are necessarily imprecise and depend to some extent on interpretations, which may ultimately prove to be inaccurate and require adjustment. Adjustments to resource estimates could affect the Company's future plans and ultimately its financial performance and value. Gold and copper price fluctuations, as well as increased production costs or reduced throughput and/or recovery rates, may render resources containing relatively lower grades uneconomic and may materially affect resource estimations.

#### **Environmental risk**

The operations and activities of the Company are subject to the environmental laws and regulations of Australia. As with most exploration projects and mining operations, the Company's operations and activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. The Company attempts to conduct its operations and activities to the highest standard of environmental obligation, including compliance with all environmental laws and regulations. The Company is unable to predict the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area. However, there can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Company to incur significant expenses and undertake significant investments which could have a material adverse effect on the Company's business, financial condition and performance.

### Economic and market risk

General economic conditions such as, laws relating to taxation, new legislation, trade barriers, movement in interest and inflation rates, national and international political circumstances, natural disasters, quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including its exploration activities and the ability to fund those activities.

### ENVIRONMENTAL REGULATION

The Company is subject to and is compliant with all aspects of environmental regulation of its exploration and mining activities. The Directors are not aware of any environmental law that is not being complied with.

### INFORMATION ON DIRECTORS

Name: **Glen Diemar**  
 Title: Managing Director  
 Qualifications: BSc Hons 1st, M ECONGEOLOGY  
 Experience and expertise: Mr Glen Diemar is an Exploration Geologist with experience through Australia, Indonesia and Central Asia. Mr Diemar has worked in all areas of geology including exploration, production and development studies. Mr Diemar's previous roles include BHP Billiton and the CEO of New South Resources PL. Mr Diemar holds a Masters of Economic Geology and is a member of the AIG.

Other current directorships: None  
 Former directorships (last 3 years): None  
 Interests in shares: 3,344,889 fully paid ordinary shares  
 Interests in options: 3,000,000 unlisted options exercisable at \$0.30, expiring 31 December 2025  
 4,000,000 unlisted options exercisable at \$0.48 expiring 18 December 2027

Name: **Zhang Yong**  
 Title: Non-Executive Chairman  
 Qualifications: MBA  
 Experience and expertise: Mr Zhang has a long history of investments in Asia in resources and other industries.  
 Other current directorships: None  
 Former directorships (last 3 years): None  
 Interests in shares: 143,728,472 fully paid ordinary shares  
 Interests in options: 2,000,000 unlisted options exercisable at \$0.48 expiring 18 December 2027

Name: **Adam McKinnon**  
 Title: Non-Executive Director  
 Qualifications: BSc (Hons), PhD, MAusIMM, MRACI (CCHEM)  
 Experience and expertise: Dr McKinnon is a mining and geoscience professional with 16 years industry and academic experience and is currently the Managing Director of Magmatic Resources Limited. Before joining Magmatic he was General Manager – Exploration and Business Development at Aurelia Metals Limited, where he was involved in a number of significant discoveries including the high grade Federation deposit south of Nymagee, NSW. Dr McKinnon also led several highly successful exploration programs whilst with KBL Mining Limited, including the discovery of the Pearse gold-silver deposit near the Mineral Hill Mine. Dr McKinnon holds a PhD in mineralogy and geochemistry from Western Sydney University, is a Chartered Chemist with the Royal Australian Chemical Institute (RACI) and a Member of the Australian Institute of Mining and Metallurgy (AusIMM).  
 Other current directorships: Managing Director at Magmatic Resources Limited (ASX:MAG)  
 Former directorships (last 3 years): None  
 Interests in shares: 23,809 fully paid ordinary shares  
 Interests in options: 1,500,000 unlisted options exercisable at \$0.48 expiring 18 December 2027

Name:	<b>Pan Yang</b> (appointed 23 January 2025)
Title:	Non-Executive Director
Qualifications:	PhD Chemical Engineering.
Experience and expertise:	Mr Pan Yang brings considerable experience in strategy, finance, M&A, construction and operations having previous high-level roles for the China National Chemical Corporation, a Fortune 500 company. Mr Yang oversaw the construction and management of several major factories in both China and England, where Mr Yang spent three years in the UK.
	Mr Yang is currently the CEO of GeoZen Resources, who made a significant investment in the Company in December 2023 and participated pro-rata in the 2024 placement to maintain their 55% holding in the Company.
Other current directorships:	None
Former directorships (last 3 years):	None
Interests in shares:	None
Interests in options:	None

**Ms Andrea Betti** Company Secretary

Ms Betti is an accounting and corporate governance professional with over 20 years experience in accounting, corporate governance, finance and corporate banking. She has acted as Chief Financial Officer and Company Secretary for companies in the private and publicly listed sectors, as well as senior executive roles in the banking and finance industry. Ms. Betti is a member of the Institute of Chartered Accountants in Australia and New Zealand and an Fellow of the Governance Institute of Australia. She has a Bachelor of Commerce, Graduate Diploma in Corporate Governance, Graduate Diploma in Applied Finance and Investment and a Master of Business Administration.

**Mr Damon Cox** Company Secretary

Mr Cox is a Chartered Secretary and is a Fellow of the Governance Institute of Australia. He has over 30 years' experience in various roles including corporate governance, compliance, treasury and strategic policy advice.

**MEETING OF DIRECTORS**

The number of meetings of the Company's Board of Directors ("the Board") held during the financial year ended 30 June 2025, and the number of meetings attended by each director were:

<b>Name</b>	<b>Number eligible to attend</b>	<b>Number attended</b>
Glen Diemar	7	7
David Richardson	3	3
Zhang Yong	7	5
Adam McKinnon	7	7
Pan Yang	2	2

There were seven Directors meetings held during the financial year, however many board matters were dealt with via circular resolutions. The Company does not have a formally constituted audit committee or remuneration committee as the board considers that the Company's size and type of operation do not warrant such committees.

**REMUNERATION REPORT (AUDITED)**

The remuneration report details the key management personnel remuneration arrangements for the Company, in accordance with the requirements of the *Corporations Act 2001* and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following headings:

- A Principles used to determine the nature and amount of remuneration
- B Service agreements
- C Details of remuneration
- D Share-based compensation
- E Related party disclosures

The information provided under the headings A-E includes remuneration disclosures that are required under Accounting Standards AASB 124 *Related Party Disclosures*. These disclosures have been transferred from the financial report and have been audited.

The remuneration arrangements detailed in this report relate to the following Directors and key management personnel as follows:

Mr Glen Diemar	Managing Director
Mr Zhang Yong	Non-Executive Chairman
Dr Adam McKinnon	Non-Executive Director
Mr Pan Yang	Non-Executive Director ( <i>appointed 23 January 2025</i> )
Mr David Richardson	Non-Executive Chairman ( <i>resigned 20 September 2024</i> )

**A. Principles used to determine the nature and amount of remuneration**

In determining competitive remuneration rates, the Board, acting in its capacity as the remuneration committee, seeks independent advice on local and international trends among comparative companies and industry generally. It examines terms and conditions for employee incentive schemes benefit plans and share plans. Independent advice should be obtained to confirm that executive remuneration is in line with market practice and is reasonable in the context of Australian executive reward practices. The Board recognises that the Company operates in a global environment. To prosper in this environment we must attract, motivate and retain key executive staff.

**Market comparisons**

Consistent with attracting and retaining talented executives, the Board endorses the use of incentive and bonus payments. The Board will continue to seek external advice to ensure reasonableness in remuneration scale and structure, and to compare the Company's position with the external market. The impact and high cost of replacing senior employees and the competition for talented executives requires the committee to reward key employees when they deliver consistently high performance.

**Board remuneration**

The total maximum remuneration of Non-Executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the *Corporations Act 2001* and the ASX Listing Rules, as applicable. The determination of Non-Executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value of the Company of the respective contributions by each Non-Executive Director. The current amount has been set an amount not to exceed \$350,000 per annum. The Board determines actual payments to Directors and reviews their remuneration annually based on independent external advice with regard to market practice, relativities, and the duties and accountabilities of Directors. A review of Directors' remuneration is conducted annually to benchmark overall remuneration including retirement benefits. There was no use of external consultants for remuneration advice for the financial year ended 30 June 2025.

#### **Performance based remuneration**

The Company has adopted an employee incentive securities plan ('EISP') to provide ongoing incentives to Directors, Executives and Employees of the Company. The objective of the EISP is to provide the Company with a remuneration mechanism, through the issue of securities in the capital of the Company, to motivate and reward the performance of the Directors and employees in achieving specified performance milestones within a specified performance period. The Board will ensure that the performance milestones attached to the securities issued pursuant to the EISP are aligned with the successful growth of the Company's business activities.

The Directors and employees of the Company have been, and will continue to be, instrumental in the growth of the Company. The Directors consider that the EISP is an appropriate method to:

- (a) Reward Directors and employees for their past performance;
- (b) Provide long term incentives for participation in the Company's future growth;
- (c) Motivate Directors and generate loyalty from senior employees; and
- (d) Assist to retain the services of valuable Directors and employees.

#### **Company performance, shareholder wealth and directors and executives remuneration**

The remuneration policy has been tailored to increase the direct positive relationship between shareholders' investment objectives and Directors and executives' performance. Currently, Directors and executives are encouraged to hold shares in the Company to ensure the alignment of personal and shareholder interests. The Company provides performance based remuneration via their employee incentive securities plan.

#### **Cash bonuses**

The Company occasionally provides cash bonuses to directors, executives and other key management personnel. The amount of the bonus is determined having regard to the Company's internal key performance objectives, including share price, market capitalisation and exploration performance. The Board, acting in its capacity as the remuneration committee, applies discretion as to the quantum, recipients and timing of cash bonuses. All remuneration variations, including cash bonuses, are approved via circulating resolution.

For the year ended 30 June 2025, \$200,000 cash bonuses were paid, where \$112,000 were paid to key management personnel. There were no amounts outstanding at year end (2024: nil). Refer to section C Remuneration Table for further details.

#### **B. Service agreements**

##### **Employment contracts of key management personnel**

Each member of the Company's key management personnel are employed on open-ended employment contracts between the individual person and the Company.

Non-Executive Directors have entered into a service agreement with the Company in the form of a letter of appointment.

The employment conditions of the Managing Director Mr Glen Diemar, is formalised in an executive service agreement with no fixed term and continues until a party terminates it by giving 3 months' notice.

The below is at the date of this financial report:

<b>Key Management Personnel</b>	<b>Appointment</b>	<b>Terms of Agreement</b>	<b>Base Salary (incl. super \$p.a.)</b>	<b>Termination Benefit</b>
Glen Diemar	Managing Director	No fixed term	392,000	3 months
Zhang Yong	Non-Executive Chairman	No fixed term	120,000	Nil
Adam McKinnon	Non-Executive Director	No fixed term	67,200	Nil
Pan Yang	Non-Executive Director	No fixed term	40,000	Nil

**C. Details of remuneration**

**Amounts of remuneration**

The remuneration for each key management personnel of the Company during the financial year was as follows:

**2025**

Key Management Personnel	Short-term Benefits			Post-employment Benefits		Share Based Payments		Performance Related	Remuneration Consisting of	
	Cash, salary & Commissions	Cash profit Share	Non-Cash Benefit	Cash Bonus	Super-annuation	Options	Total		Options

	<b>2025</b>	<b>2024</b>	<b>2023</b>	<b>2022</b>	<b>2021</b>
Share price at financial year end (dollars per share)	0.14	0.29	0.053	0.07	0.14
Total dividends declared (cents per share)	-	-	-	-	-
Basic loss per share (cents per share)	(0.43)	(0.39)	(1.66)	(0.58)	(4.08)

During the year ended 30 June 2025, the Company did not utilise any remuneration consultants.

At the 2024 AGM, 99.74% of the votes received supported the adoption of the remuneration report for the year ended 30 June 2024. The Company did not receive any specific feedback at the AGM regarding its remuneration practices.

**END OF AUDITED REMUNERATION REPORT.**

#### SHARES UNDER OPTION

The number of options over ordinary shares in the Company as at the date of this report are set out below. Options granted carry no dividend or voting rights.

Issue date	Expiry date	Exercise price \$	Number of Options
5/11/2020	31/12/2025	0.30	12,500,000
25/11/2022	25/11/2025	0.107	250,000
20/12/2024	18/12/2027	0.48	7,500,000
			<u>20,250,000</u>

#### SHARES ISSUED ON THE EXERCISE OF OPTIONS

There were no ordinary shares of Australian Gold and Copper Limited that were issued during the financial year.

On 12 August 2025, Mr Glen Diemar and Dr Adam McKinnon exercised 3,000,000 unlisted options at \$0.107 per share and 2,000,000 unlisted options at \$0.114 per share respectively. Mr Ross Faichney, the Company's Senior Geologist exercised 500,000 options at \$0.107. The Company issued the respective shares upon receipt of funds.

#### INDEMNITY AND INSURANCE OF OFFICERS

The Company has indemnified the Directors and executives of the Company for the costs incurred, in their capacity as a Director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Company paid a premium in respect of a contract to insure the Directors and executives of the Company against a liability to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of liability and the amount of the premium.

#### INDEMNITY AND INSURANCE OF AUDITOR

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

#### PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

#### OFFICERS OF THE COMPANY WHO ARE FORMER PARTNERS OF RSM AUSTRALIA PARTNERS

There are no officers of the Company who are former partners of RSM Australia Partners.

#### AUDITOR

RSM Australia Partners continues in office in accordance with section 327 of the *Corporations Act 2001*.

#### NON-AUDIT SERVICES

No amounts were paid or payable to the auditor for non-audit services provided during the financial year ended 30 June 2025.

**AUSTRALIAN GOLD AND COPPER LIMITED**

**1. Material accounting policy information**

The accounting policies that are material to the Company are set out below. The accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

***New or amended Accounting Standards and Interpretations adopted***

The Company has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

***Basis of preparation***

There general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the *Corporations Act 2001*, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

***Historical convention***

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

***Critical accounting estimates***

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 2.

a) Comparatives

When required by accounting standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

b) Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

c) Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the Company's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the Company's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

d) Income tax

The income tax expense (revenue) for the period comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the end of the reporting period. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority. Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses. Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at the end of the reporting period. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

e) Trade and other receivables

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost, using the effective interest method, less any allowances for expected credit losses. Trade and other receivables are generally due for settlement within 120 days.

Collectability of trade debtors is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for doubtful debts is raised when some doubt as to collection exists and in any event when the debt is more than 60 days overdue.

f) Property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Plant and equipment	3-7 years
---------------------	-----------

**AUSTRALIAN GOLD AND COPPER LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2025 (continued)**

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the Company. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

g) Exploration and evaluation assets

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves.

Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made.

h) Impairment of non-financial assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

i) Trade and other payables

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the Company during the reporting period which remain unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 – 60 days of recognition.

j) Provisions

Provisions are recognised when the Company has a present (legal or constructive) obligation as a result of a past event, it is probable the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

k) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

l) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with short periods to maturity and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

For personal use only

m) Other income

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial interest to the net carrying amount of the financial asset.

Other income is recognised when it is received or when the right to receive payment is established.

n) Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Equity-settled compensation

The Company operates equity-settled share based payment employee share and option schemes. The fair value of the equity to which employees become entitled is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account.

Share based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the good or services cannot be reliably measured, and are recorded at the date the goods or services are received. The corresponding amount is shown in the option reserve.

The fair value of shares is ascertained as the market bid price. The fair value of options is ascertained using an appropriate valuation model which incorporates all market vesting conditions. The number of shares and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognised for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

o) Goods and services tax ("GST")

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

p) Earnings/loss per share

(i) Basic earnings/loss per share

Basic earnings/loss per share is determined by dividing net profit/loss after income tax attributable to members of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings/loss per share

Diluted earnings/loss per share adjusts the figures used in the determination of basic earnings/loss per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

**AUSTRALIAN GOLD AND COPPER LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2025 (continued)**

a) New or amended Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Company for the annual reporting period ended 30 June 2025. The Company has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

*AASB 18 Presentation and Disclosure in Financial Statements*

This standard is applicable to annual reporting periods beginning on or after 1 January 2027 and early adoption is permitted. The standard replaces IAS 1 'Presentation of Financial Statements', with many of the original disclosure requirements retained and there will be no impact on the recognition and measurement of items in the financial statements. The standard will affect the presentation and disclosure in the financial statements, including, introducing five categories in the statement of profit or loss and other comprehensive income: operating, investing, financing, income taxes and discontinued operations. The standard introduces two mandatory sub-totals in the statement: 'Operating profit' and 'Profit before financing and income taxes'. There are also new disclosure requirements for 'management-defined performance measures', such as earnings before interest, taxes, depreciation and amortization ('EBITDA') or 'adjusted profit'. The standard provides enhanced guidance on grouping of information (aggregation and disaggregation), including whether to present this information in the primary financial statements or in the notes. The Company will adopt this standard from 1 July 2027 and it is expected that there will be a significant change to the layout of the statement of profit or loss and other comprehensive income.

**2. Critical accounting judgments, estimates and assumptions**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, included expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to respective notes) within the next financial year are discussed below.

Exploration and evaluation expenditure

Exploration and evaluation costs have been capitalised on the basis that activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves. Key judgements are applied in considering costs to be capitalised which includes determining expenditures directly related to these activities and allocating overheads between those that are expensed and capitalised.

Share based payment transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes Option Pricing Model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

**3. Operating segments**

*Identification of reportable operating segments*

The Company is organised into one operating segment, being mining and exploration operations. This operating segment is based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources.

The CODM reviews EBITDA (earnings before interest, tax, depreciation and amortisation). The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

The information reported to the CODM is on a monthly basis.

<sup>1</sup> On 20 September 2023, the Company entered into a Share Subscription Agreement ('Subscription Agreement') with GeoZen Resources Group Co., Limited (formally known as Delin Mining Group Cooperation Limited) ('GeoZen'). Following completion of all conditions precedent under the Subscription Agreement the Company received \$10.1 million in cash and issued 122,222,222 fully paid ordinary shares to GeoZen. Mr Zhang Yong was appointed as Co-Chairman of the Company as a nominee of GeoZen.

<sup>2</sup> On 29 May 2024, the Company announced that it had received firm commitments for a placement to raise \$11 million (before costs) through the issue of 34,375,000 fully paid ordinary shares ('shares') at \$0.32 per share.

Existing 55% shareholder GeoZen, exercised its participation rights and committed to subscribe for shares in the Placement to maintain its shareholding. The shares were issued in Two Tranches. Tranche One raised \$4.95 million through the issue of 15,468,750 shares to sophisticated, professional and institutional investors and Tranche Two raised \$6.05 million via the issue of 18,906,250 shares to GeoZen, with Tranche Two requiring shareholder approval. On 6 June 2024, the Company completed Tranche One and on 12 July 2024, shareholders approved Tranche Two. On 6 August 2024, Tranche Two was completed.

**Ordinary shares**

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

**(b) Capital management**

The objectives of management when managing capital is to safeguard the Company's ability to continue as a going concern, so that the Company may continue to provide returns for shareholders and benefits for other stakeholders.

Due to the nature of the Company's activities, being mineral exploration, the Company does not have ready access to credit facilities, with the primary source of funding being equity raisings. Therefore, the focus of the Company's capital risk management is the current working capital position against the requirements of the Company to meet exploration programmes and corporate overheads. The Company's strategy is to ensure appropriate liquidity is maintained to meet anticipated operating requirements with a view of initiating appropriate capital raisings as required.

Options – recognised as a share based payment expense	353,036	9,877
	<b>353,036</b>	<b>9,877</b>

Below are details of share based payments expensed during the financial year:

- a) Options issued to Directors as an incentive *(vesting conditions attached)*

On 27 November 2024, 7,500,000 options were granted to Directors as an incentive for services provided and will be expensed in the Statement of Profit or Loss and Other Comprehensive income over the vesting period. The fair value of the services could not be reliably measured and therefore, a Black Scholes option pricing model was used to determine the value of the options. The options had service conditions attached and vest on 27 November 2025 following the Director remaining employed for a period of one year.

The expense realised in respect to the options is intended to reflect the best available estimate of the number of options expected to vest.

The inputs have been detailed below:

<b>Input</b>	<b>Director Options (48c)</b>

			<b>25,750,000</b>	<b>20,250,000</b>

The weighted average remaining contractual life of options outstanding at the end of the financial year was 1.03 years (2024: 1.44 years).

**AUSTRALIAN GOLD AND COPPER LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2025 (continued)**

**16. Financial management**

The Company's principal financial instruments comprise cash and short-term deposits. The Company has various other financial assets and liabilities such as other receivables and payables, which arise directly from its operations.

The Company's activities expose it to a variety of financial risks, including, credit risk, liquidity risk, foreign exchange risk and cash flow interest rate risk. The Company is not exposed to price risk.

Risk management is carried out by the Board of Directors, who evaluate and agree upon risk management and objectives.

**(a) Market risk**

**(i) Interest rate risk**

The Company is not materially exposed to interest rate risk.

**(b) Credit risk**

The Company does not have significant concentrations of credit risk. Credit risk is managed by the Board of Directors and arises from cash and cash equivalents as well as credit exposure including outstanding receivables.

All cash balances are held in Australia.

The maximum exposure to credit risk at reporting date is the carrying amount of the financial assets disclosed within the financial report.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about default rates.

**(c) Liquidity risk**

Prudent liquidity risk management implies maintaining sufficient cash balances and access to equity funding.

The Company's exposure to the risk of changes in the market interest rates relate primarily to cash assets.

The Directors monitor the cash-burn rate of the Company on an on-going basis against budget and the maturity profiles of financial assets and liabilities to manage its liquidity risk.

The financial liabilities the Company had a reporting date were other payables incurred in the normal course of the business. These were non-interest bearing and were due within the normal 30-60 days terms of creditor payments.

*Maturity analysis for financial liabilities*

Financial liabilities of the Company comprise of trade and other payables. As at 30 June 2025, all financial liabilities are contractually maturing within 60 days.

	Weighted average effective interest rate %	<6 months \$	6-12 months \$	1-5 years \$	>5 years \$	Total \$
<b>2025</b>						
Trade and other payables	-	570,204	-	-	-	570,204
		570,204	-	-	-	570,204

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2025 (continued)**

2024	Weighted average effective interest rate %	<6 months \$	6-12 months \$	1-5 years \$	>5 years \$	Total \$
Trade and other payables	-	169,604	-	-	-	169,604
		169,604	-	-	-	169,604

**(d) Foreign exchange risk**

The Company is not exposed to any foreign exchange risk.

**(e) Fair value estimation**

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes. All financial assets and financial liabilities of the Company at the reporting date are recorded at amounts approximating their carrying amount.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values due to their short-term nature.

**17. Key management personnel disclosures**

The aggregate compensation made to Directors and other members of key management personnel of the Company is set out below:

	2025 \$	2024 \$
Short-term employee benefits	618,596	463,226
Post-employment benefits	42,941	44,000
Share-based payments	353,036	9,877
	<b>1,014,573</b>	<b>517,103</b>

**18. Remuneration of auditors**

During the financial year the following fees were paid or payable for services provided by RSM Australia Partners, the auditor of the Company:

	2025 \$	2024 \$
<i>Audit services – RSM Australia Partners</i>		
Audit and review of the financial statements	32,270	31,276
	<b>32,270</b>	<b>31,276</b>

**19. Contingent assets and liabilities**

Contingent assets

The Company had no contingent assets as at 30 June 2025 and 30 June 2024.

Contingent liabilities

The Company had no contingent liabilities as 30 June 2025 and 30 June 2024.

**AUSTRALIAN GOLD AND COPPER LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2025 (continued)**

**20. Commitments**

**Exploration and evaluation**

The Company is required to maintain current rights of tenure to tenements, which require outlays of expenditure in future financial years. Under certain circumstances, these commitments are subject to the possibility of adjustment to the amount and/or timing of such obligations, however they are expected to be fulfilled in the normal course of operations.

	<b>2025</b>	<b>2024</b>
	<b>\$</b>	<b>\$</b>
The Company has tenement rental and expenditure commitments payable of:		
- Not later than 12 months	730,000	723,333
- Between 12 months and 5 years	2,100,000	880,000
- More than 5 years	-	-
	<b>2,830,000</b>	<b>1,603,333</b>

**21. Related party transactions**

**(a) Key management personnel**

Disclosures relating to key management personnel are set out Note 17 and in the Remuneration Report in the Directors' Report.

**(b) Other transactions and balances with related parties**

Magmatic Resources Limited, a company of which Mr Richardson and Dr McKinnon are shareholders and directors, are also engaged to provide management and administration services to the Company. During the year ended 30 June 2025 Mr Richardson ceased to be a Director of the Company from 20 September 2024 and Dr McKinnon ceased to be a Director of Magmatic Resources Limited on 25 October 2024. The amount paid to Magmatic Resources Limited was for the period 1 July 2024 to 25 October 2024 of \$27,718 (2024: \$76,856) (excluding GST) was paid or payable under this agreement.

GeoZen Resources Group Co., Limited (formally known as Delin Mining Group Cooperation Limited) ('GeoZen'), a company of which Mr Yong is a shareholder and director. During the year ended 30 June 2025, \$133,990 (2024: \$63,226) (excluding GST) was paid or payable to Mr Yong for his services as a director.

**22. Dividends**

The Company has not declared nor paid a dividend for the financial year.

**25. Events after the reporting date**

On 10 June 2025, the Company announced that it executed a tenement sale agreement ('agreement') with Strategic Energy Resources (ASX: SER) for the acquisition of NSW exploration title EL 9012. The tenement licence will be incorporated into the Company's existing South Cobar project once complete. Completion of the transaction is subject to a \$50,000 cash payment upon execution of the agreement and \$350,000 cash payable upon completion of the condition's precedent within the agreement. As at 30 June 2025, the Company had made a \$50,000 (excl GST) cash payment to Strategic Energy Resources upon execution of the agreement. At the date of this report, completion of the transaction had not yet taken place.

On 5 August 2025, the Company announced that it has executed a binding tenement sale agreement with Eastern Metals Limited (ASX: EMS) for the acquisition of its Browns Reef Project. The Browns Reef Project comprises of four NSW tenements (EL 6321, EL 9136, EL 9180 and EL 9565). Transaction details include a deposit of \$200,000 which was paid upon execution of the agreement. At transaction completion:

- the Company is to issue \$1,300,000 in the Company's fully paid ordinary shares (at an issue price equivalent to the Company's 5-day VWAP prior to the Completion date);
- Eastern Metals Limited ('EMS') will pursue an in-specie distribution of \$700,000 of the Company's shares to EMS shareholders; and
- Subject to approval from EMS shareholders at an EMS General Meeting anticipated to take place in late September.

On 12 August 2025, Mr Glen Diemar and Dr Adam McKinnon exercised 3,000,000 unlisted options at \$0.107 per share and 2,000,000 unlisted options at \$0.114 per share respectively. Mr Ross Faichney, the Company's Senior Geologist exercised 500,000 options at \$0.107. The Company issued the respective shares upon receipt of funds.

Geozen Resources Group Co. Limited, a company controlled by Mr Zhang Yong, acquired 2,000,000 fully paid ordinary shares in the Company from Tetragonal Consulting Pty Ltd, a company controlled by Non-Executive Director, Dr Adam McKinnon.

The Directors are not aware of any other matters or circumstances that have arisen since the end of the financial year, which significantly affected or may significantly affect the operations of the Company the results of those operations, or the state of affairs of the Company in future financial years.

**CONSOLIDATED ENTITY DISCLOSURE STATEMENT**  
**AS AT 30 JUNE 2025**

---

Australian Gold and Copper Limited has no controlled entities and, therefore, is not required by the Australian Accounting Standards to prepare consolidated financial statements. As a result, subsection 295(3A)(a) of the *Corporations Act 2001* does not apply to the Company.

For personal use only

**AUSTRALIAN GOLD AND COPPER LIMITED**  
**DIRECTORS' DECLARATION**  
**30 JUNE 2025**

---

In the Directors' opinion:

- the attached financial statements and notes comply with the *Corporations Act 2001*, the Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in Note 1 to the financial statements;
- the attached financial statements and notes give a true and fair view of the Company's financial position as at 30 June 2025 and of its performance for the financial year ended on that date;
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
- the information disclosed in the attached consolidated entity disclosure statement is true and correct.

The Directors have been given the declarations required by section 295A of the *Corporations Act 2001*.

Signed in accordance with a resolution of Directors made pursuant to section 295(5)(a) of the *Corporations Act 2001*.

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF AUSTRALIAN GOLD AND COPPER LIMITED**

**REPORT ON THE AUDIT OF THE FINANCIAL REPORT**

**Opinion**

We have audited the financial report of Australian Gold and Copper Limited (the Company), which comprises the statement of financial position as at 30 June 2025, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, and the directors' declaration.

In our opinion the accompanying financial report of the Company is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Company's financial position as at 30 June 2025 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

**Basis for Opinion**

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

ASSURANCE | TAX | CONSULTING

## Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed this matter
<b>Exploration and Evaluation</b> Refer to Note 10 in the financial statements	
<p>The Company has capitalised exploration and evaluation expenditure with a carrying value of \$21,580,207 as at 30 June 2025.</p> <p>We considered this to be a key audit matter as it's the most material balance on the statement of financial position and is subject to management judgment in assessing the carrying value of the asset including:</p> <ul style="list-style-type: none"> <li>• Determination of whether the expenditure can be associated with finding specific mineral resources, and the basis on which that expenditure is allocated to an area of interest;</li> <li>• Determination of whether exploration activities have progressed to the stage at which the existence of an economically recoverable mineral reserve may be assessed; and</li> <li>• Assessing whether any indicators of impairment are present, and if so, judgments applied to determine and quantify any impairment loss.</li> </ul>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> <li>• Assessing whether the Company's right to tenure of each area of interest is current;</li> <li>• Agreeing a sample of additions to supporting documentation and ensuring the amounts are capital in nature and relate to the area of interest;</li> <li>• Assessing and evaluating management's assessment of whether indicators of impairment existed at the reporting date;</li> <li>• Assessing management's determination that exploration and evaluation activities have not yet reached a stage where the existence or otherwise of economically recoverable reserves may be reasonably determined; and</li> <li>• Enquiring with management and reviewing budgets and other supporting documentation as evidence that active and significant operations in, or relation to, the area of interest will be continued in the future.</li> </ul>

## Other Information

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 30 June 2025, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

## Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: [https://www.auasb.gov.au/admin/file/content102/c3/ar2\\_2020.pdf](https://www.auasb.gov.au/admin/file/content102/c3/ar2_2020.pdf). This description forms part of our auditor's report.

## REPORT ON THE REMUNERATION REPORT

### Opinion on the Remuneration Report

We have audited the Remuneration Report included within the directors' report for the year ended 30 June 2025.

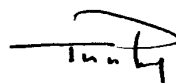

In our opinion, the Remuneration Report of Australian Gold and Copper Limited, for the year ended 30 June 2025, complies with section 300A of the *Corporations Act 2001*.

### Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
