## 4. Number of New Shares

### 4.1 Application amount

- (a) If you are an Eligible Shareholder, you can apply for up to a maximum of A\$30,000 worth of New Shares. Eligible Shareholders can select one of the following alternatives:

Offer	Value	Number of New Shares
A	A\$1,000	515
B	A\$2,500	1,288
C	A\$5,000	2,577
D	A\$7,500	3,865

E	A\$10,000	5,154
F	A\$15,000	7,731
G	A\$20,000	10,309
H	A\$25,000	12,886
I	A\$30,000	15,463

- (b) If your application is accepted, the Company will divide the value of your application money by the Issue Price in order to determine the number of New Shares which, subject to Scale Back (as defined in paragraph 4.3(c) below), will be issued to you. If the Company receives an amount that does not equal one of the parcel amounts specified in the table above, the Company will apply the dollar amount of the payment to the highest designated parcel that is less than the amount of the payment and refund the excess application money (without interest) to the Eligible Shareholder.
- (c) No fractions of New Shares will be issued. Where the determination of the entitlement to New Shares results in a fraction of New Shares, such fraction shall be rounded down to the nearest whole New Share.

#### 4.2 A\$30,000 maximum

In order to comply with ASIC Instrument 2019/547, the maximum value of New Shares each Eligible Shareholder (irrespective of the size of their shareholding) may apply for under the Offer is A\$30,000 (including through joint holdings, multiple registered holdings or any holding in which they have a beneficial interest(s)). This limit will apply even if you receive more than one offer from the Company (for example, because you are a joint holder of Shares or because you hold more than one shareholding under separate share accounts).

The Company reserves the right to issue to an Eligible Shareholder fewer New Shares than the number applied for, for whatever reason, including to avoid the possible subscription of over A\$30,000 worth of New Shares by an Eligible Shareholder (including through joint holdings, multiple registered holdings or any holding in which they have a beneficial interest(s)).

#### 4.3 Maximum number of New Shares to be issued and Scale Back policy

- (a) **Maximum amount:** In accordance with ASX Listing Rule 7.2 Exception 5, the total number of New Shares must not exceed 30% of the number of Shares currently on issue (**ASX Limit**). Subject to the ASX Limit, the Company reserves the right to determine the amount it raises through the Offer. At this stage, the maximum amount raised under the Offer will be capped at a total of A\$2,000,000 (before costs), being a maximum of 1,030,928 New Shares (including potential oversubscriptions). However, the Company reserves the right to change this cap at its discretion by announcement to the ASX (subject to the ASX Limit).

- (b) **Oversubscriptions:** The Board reserves the right to accept oversubscriptions above A\$1,000,000, capped at A\$2,000,000 subject to compliance with the ASX Listing Rules and the Corporations Act in its sole and absolute discretion.
- (c) **Scale Back:** The Board reserves the right to reject or scale back any applications in whole or in part at its absolute discretion (**Scale Back**). If there is a Scale Back, you may not receive all the New Shares for which you have applied. The Company may in its absolute discretion determine to apply the Scale Back to the extent and in the manner it sees fit, which may include taking into account a number of factors including, but not limited to:
- (i) the size of your shareholding at the Record Date;
  - (ii) the extent to which you have sold or purchased Shares over the period 3 months prior to the Record Date;
  - (iii) whether you have multiple registered holdings;
  - (iv) the date on which your application was made; and
  - (v) the total number of applications and New Shares subscribed for by Eligible Shareholders.
- (d) **Return of excess application monies:** In the event of a Scale Back, your application monies may be greater than the value of New Shares issued to you under the Offer, in which case the excess application monies will be refunded to you, without interest, by direct credit deposit to your nominated bank account paid in Australian dollars. Shareholders are encouraged to update their bank details on the Automic Investor Portal by visiting <https://portal.automic.com.au/investor/home>.

<p><b>What are the risks of a further investment in the Company?</b></p> <p>Potential investors should be aware that subscribing for Quoted Options in the Company involves a number of risks. The key risk factors of which investors should be aware are set out in Section 3, including (but not limited to) risks in respect of:</p> <ul style="list-style-type: none"><li><b>Future capital requirements:</b> The Company will require further financing in the future, in addition to amounts raised under the Placement. Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the current market price or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available, may involve restrictions on financing and operating activities. Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Company is unable to obtain additional financing as needed, the Company may be required to reduce the scope of its activities, which could have a material adverse effect on the Company's activities and could affect the Company's ability to continue as a going concern.</li></ul>	Section 3																								

Key Information	Further Information
<ul style="list-style-type: none"> <li> <b>Quotation risk:</b> The Company will apply for quotation of the Quoted Options subject to compliance with the requirements of ASX and the Listing Rules, however, the Quoted Options will only be admitted to official quotation by ASX if the conditions for quotation of a new class of securities are satisfied (which include, amongst other things, there being a minimum of 100,000 Quoted Options on issue, with at least 50 holders with a marketable parcel (within the meaning of the Listing Rules)). The Company makes no guarantee that any such application for quotation will be successful and there is a risk that the Company will not be able to satisfy the ASX requirements for quotation. In the event that the Company is unable to satisfy the ASX requirements, the Quoted Options will still be issued, but will be unquoted Options and there will be no public market for the Quoted Options. If the Quoted Options are admitted to official quotation by ASX, the price of the Quoted Options is subject to uncertainty and there can be no assurance that an active market for the Quoted Options will develop or continue after the Offers.         </li> <li> <b>Option risk and dilution:</b> Options are, by their nature, only of value at times when the exercise price is lower than the price of the underlying Shares. There is no guarantee that the Quoted Options offered under this Prospectus will, at any particular time, have an exercise price which is lower than the price of the Shares. There is a risk that the Quoted Options may expire at a time when they have little or no value. On completion of the Offers, assuming the Offers and SPP are fully subscribed, there will be up to 5,412,371 Quoted Options on issue. If exercised, these Quoted Options will be converted into Shares, thereby causing the shareholdings of Shareholders to be diluted by up to 5.50% (on the basis that the Offers and SPP are fully subscribed and no other Securities are issued or exercised at the Prospectus Date). However, each Quoted Option has an exercise price of \$3.40 which means that the Company will receive additional funds of approximately \$18.4 million (before costs) upon exercise of the Quoted Options, assuming all Quoted Options the subject of the Offers are issued and subsequently exercised. There is no certainty that Quoted Options, if issued, will be exercised in full, or at all.         </li> <li> <b>Commercialisation including regulatory and reimbursement:</b> There are a number of inherent risks associated with the development of new medical device products to a marketable stage and the commercialisation of a medical device. The clinical trial process, which is often lengthy, is designed to assess the safety and efficacy of a device prior to commercialisation and there is no guarantee of achieving the outcomes necessary to generate a viable commercial product. The Company's products are subject to successful clinical trials, regulatory approval by the FDA in the US and regulators in other key markets such as the TGA in Australia and CE Mark in Europe, product reimbursement approvals in each market and adoption of the use of the product by clinicians. A pivotal clinical trial in the US and Australia is currently underway to support FDA De Novo clearance for the emu™ point-of-care bedside brain scanner. The First Responder device is at an earlier stage of development, with pre-hospital feasibility, usability and data collection clinical studies being conducted to support the transition of the device from an advanced proof-of-concept device to a commercial production equivalent device. The Company's operating and financial performance is dependent on its ability to develop and successfully commercialise its product portfolio. The Company will need to manage and optimally develop its business model and global presence to support the commercialisation of its existing and future product portfolio. Should         </li> </ul>	

Key Information	Further Information
<p>the Company not be materially successful in one or more of these areas, there is risk of a loss of commercial opportunities essential for the achievement of the long-term strategy which may lead to the inability to realise, or the inability to retain, value.</p> <ul style="list-style-type: none"> <li> <b>Intellectual property rights:</b> The Company has an expansive intellectual property portfolio. It relies on laws relating to patents, trade secrets, copyright and trademarks to assist to protect its proprietary rights. There is a risk that unauthorised use or copying of the Company's software, data, specialised technology or platforms will occur. If the Company fails to adequately protect its intellectual property rights, competitors may gain access to its technology which could harm the Company's businesses. The success of the Company may depend in part on the Company's ability to obtain patents (and therefore proprietary rights) without infringing the proprietary rights of others. There is a risk that the Company will be unable to register or otherwise protect new intellectual property it develops in the future. The grant and enforceability of patents involves complex legal and scientific questions and can be uncertain. There can be no assurance that any patents will afford the Company commercially significant protection of the or that competitors will not develop competing technologies that circumvent such patents. This may materially adversely impact the Company's revenue, legal expenses and profitability. If the Company believes its intellectual property rights have been infringed, it may initiate or otherwise be involved in litigation against third parties for infringement, or to establish the validity, of the Company's rights. Any litigation, whether or not it is successful, could result in significant expense to the Company and divert the efforts of its personnel. In addition, unauthorised use of the various brands of the Company in counterfeit products or services could not only result in potential revenue loss, but also have an adverse impact on its brand value and perception of product quality. </li> <li> <b>Sales, marketing and adoption success:</b> The Company intends to focus on developing and marketing the Company's the emu™ and First Responder devices. By its nature, there is no guarantee that the Company's technology development and marketing campaign will be successful. In the event that it is not, the Company may encounter difficulty creating market awareness or convincing purchasing groups and this would likely have an adverse impact on the Company's future financial performance. </li> <li> <b>Competition and new technologies:</b> The industry in which the Company is involved is subject to domestic and global competition which is fast-paced and fast-changing. While the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, whose activities or actions may positively or negatively affect the operating and financial performance of the Company's projects and business. For instance, new technologies could result in the Company not being differentiated to other similar offerings. The size and financial strength of some of the Company's competitors may make it difficult for it to maintain a competitive position in the technology market. In particular, the Company's ability to acquire additional technology interests could be adversely affected if it is unable to respond effectively and/or in a timely manner to the strategies and actions of competitors and potential competitors or the entry of new </li> </ul>

The Company will need to develop such policies prior to collecting sensitive and personal data. Costs that the Company incurs in defending third party infringement actions would also include diversion of management's and technical personnel's time. An important aspect of the Company's business is to continually invest in innovation and product development opportunities. The Company may not realise benefits from these investments for several years, or may not realise benefits at all in some cases. The Company makes assumptions about the expected future benefits generated by investment in product research and development and the expected timeframe in which the benefits will be realised. These assumptions are subject to change and involve both known risks and risks that are beyond the Company's control. Any change to the assumptions the Company has made about certain product development may have an adverse impact on the Company's ability to realise benefit from investment in the development of the products.         </li> <li> <b>Litigation risk:</b> In the ordinary course of its business, the Company may be subject to the risk of litigation and other disputes with its clients, employees, consultants, lessors, regulators and other third parties. ## 1. Background to the Offers

### 1.1 Background

On 17 September 2025, the Company announced a capital raising of approximately \$12 million (before costs) via:

- (a) a placement to raise approximately \$10.66 million (before costs) (**Placement**) comprising:
  - (i) up to 5,496,174 Shares to new and existing sophisticated and professional investors (**Placement Participants**) at an issue price of \$1.94 per Share (**Placement Shares**); and
  - (ii) three (3) free attaching Quoted Option for every four (4) Placement Shares subscribed for and issued under the Placement (**Placement Options**); and
- (b) a separate placement to Keysight to raise approximately \$1.34 million (before costs) (**Keysight Placement**) comprising:
  - (i) up to 689,393 Shares to Keysight at an issue price of \$1.94 per Share (**Keysight Shares**); and
  - (ii) three (3) free attaching Quoted Option for every four (4) Placement Shares subscribed for and issued under the Placement (**Keysight Options**).

The Placement Shares and Keysight Shares were issued on 24 September 2025 utilising the Company's available placement capacity under ASX Listing Rule 7.1.A. The Placement Options and Keysight Options are intended to be issued utilising the Company's available placement capacity under ASX Listing Rule 7.1.

In conjunction with the Placement, the Company announced a Share Purchase Plan (**SPP**) to enable eligible shareholders to apply for up to \$30,000 worth of Shares at the same issue price as Placement Shares (**SPP Shares**), together with three (3) SPP Options for every four (4) SPP Shares subscribed for and issued under the SPP.

The SPP seeks to raise up to \$1 million (before costs), with the ability to accept oversubscriptions up to a total of \$2 million (before costs). Accordingly, the Company may issue up to 1,030,928 SPP Shares and 773,196 SPP Options.

The Company will issue the SPP Options without Shareholder approval using the Company's existing placement capacity under Listing Rule 7.1.

The issue price represents a 16.4% discount to the closing price of Shares on the ASX on Friday, 12 September 2025 (being the last day on which EMV Shares traded before the SPP Offer was announced) of \$2.32, and a 11.5% discount to the volume weighted average price (**VWAP**) over the last five days on which Shares traded immediately prior to announcement of the Placement of \$2.193.

The Company intends to apply the funds raised under the SPP as set out in the SPP Offer Booklet released on the ASX on Friday, 26 September 2025.

### 1.3 Conditional Offers

The issue of the Quoted Options under the Offers is subject to ASX agreeing to grant Official Quotation of the Quoted Options on ASX by the time required under the Corporations Act (subject to compliance with the requirements of ASX and the Listing Rules for the quotation of a new class of securities).

As required by Listing Rule 2.5 condition 6, the Quoted Options to be issued under this Prospectus will only be admitted to Official Quotation by ASX if the conditions for quotation of a new class of securities are satisfied, which include (amongst other things):

- (i) there being a minimum of 100,000 Quoted Options on issue; and
- (ii) there being at least 50 holders with a marketable parcel (as defined in the Listing Rules).

As noted above, the Company will apply to ASX, no later than 7 days from the Prospectus Date, for ASX to grant official quotation of the Quoted Options issued pursuant to this Prospectus. If the Quoted Options to be issued under this Prospectus are not admitted to quotation within a period of 3 months from the Prospectus Date, the Quoted Options will be issued as unquoted Options.

If the Quoted Options are not admitted to quotation within a period of 3 months from the Prospectus Date, any issue or transfer of Quoted Options (or Shares issued on exercise of those Quoted Options) will be void in accordance with section 723 of the Corporations Act.

### 1.4 Purpose of this Prospectus

Section 707(3) of the Corporations Act generally requires that a prospectus is issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to on-sell those securities within 12 months of the date of their issue.

The Corporations Act provides an exception to section 707(3) where an entity issues a 'cleansing' notice under section 708A(5). However, the Company is precluded from issuing a 'cleansing' notice in respect of the Quoted Options as they are not in a class of securities that were quoted Securities at all times in the last 3 months.

Consequently, the Company has issued this Prospectus for the offers of the Quoted Options to Placement Participants, Keysight and SPP Participants.

This Prospectus has also been issued to facilitate secondary trading of the Shares to be issued upon exercise of the Quoted Options to be issued under the Offers. Issuing the Quoted Options under this Prospectus will enable persons who are issued the Quoted Options to on-sell the Shares issued on exercise of the Quoted Options pursuant to *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80*.

Accordingly, the primary purpose of this Prospectus is to:

- (a) make the offers of Quoted Options under the Offers; and

- (b) ensure that the on-sale of the Shares issued on conversion of the Quoted Options do not breach section 707(3) of the Corporations Act.

## **1.5 Opening and Closing Date**

As set out in the Timetable, the Offers will open on 30 September 2025 (**Opening Date**) and are anticipated to close at 5.00pm (AEDT) on 23 October 2025 (**Closing Date**).

The above dates are indicative only and subject to change without notice. The Company may vary these dates, including to close the Offers early, extend the Closing Date or to withdraw the Offers at any time prior to issue of the Quoted Options. If any of the dates are changed, subsequent dates may also change. You are encouraged to lodge your Application Form as soon as possible after the Opening Date.

The Company will accept Application Forms for the Offers from the Opening Date until 5.00pm (AEDT) on the Closing Date or such other date as the Directors in their absolute discretion shall determine, subject to the requirements of the Listing Rules and the Corporations Act.

## **1.6 Minimum subscription**

There is no minimum subscription under the Offers.

## **1.7 No underwriting**

The Offers are not underwritten.

## **1.8 No rights trading**

The rights to Quoted Options under the Offers are non-renounceable. Accordingly, there will be no trading of rights on ASX and you may not dispose of your right to receive some or all of the Quoted Options to any other party. If you do not take up your right to receive the relevant Quoted Options by the Closing Date, the offer to you will lapse.

## **1.9 Application - SPP**

No separate application form is required for the SPP Options. By applying and making payment for SPP Shares under the SPP Offer, Eligible Shareholders are deemed to have applied for, and will be issued, the corresponding number of SPP Options in accordance with the terms of this Prospectus. To the maximum extent permitted by law, the Directors will have discretion over which Applications to accept.

If you are in doubt as to the course of action, you should consult your professional advisor.

Acceptance of an application for SPP Shares and SPP Options under the SPP Offer, together with payment, creates a legally binding contract between the SPP Participant and the Company for the number of Quoted Options accepted by the Company. The Application Form does not need to be signed to be a binding acceptance of Quoted Options under an Offer. If the Application Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Application Form, is final.

By submitting a valid Application for SPP Shares and SPP Options under the SPP Offer, SPP Participants will be deemed to have represented and warranted on behalf of themselves or each person on whose account they are acting, that the law in their place of residence and/or where they have been given the Prospectus does not prohibit them from being given the Prospectus and that they:

- (a) agree to be bound by the terms of the relevant Offer;
- (b) declare that all details and statements in the Application Form are complete and accurate;

- (c) declare that they are over 18 years of age and have full legal capacity and power to perform all their rights and obligations under the Application Form;
- (d) authorise the Company and its respective officers or agents, to do anything on their behalf necessary for the Quoted Options to be issued to them, including to act on instructions of the Company's Share Registry upon using the contact details set out in the Application Form;
- (e) acknowledge that the information contained in, or accompanying, the Prospectus is not investment or financial product advice or a recommendation that Quoted Options are suitable for them given their investment objectives, financial situation or particular needs;
- (f) acknowledge that the Quoted Options have not, and will not be, registered under the securities laws in any other jurisdictions outside Australia; and
- (g) meet the eligibility criteria of the expected target market for the Quoted Options outlined in the TMD, a copy of which can be accessed at the Company's website (<https://emvision.com.au/>).

#### **1.10 Application – Placement Options Offer and Keysight Options Offer**

Applications for Placement Options and Keysight Options must be made using the relevant Application Form made available with a copy of this Prospectus. The Application Form must be completed in accordance with the instructions set out on the form.

To the maximum extent permitted by law, the Directors will have discretion over which Applications to accept.

Completed Application Forms must be received by the Company prior to the Closing Date. Application Forms should be delivered in accordance with the instructions contained in the Application Form.

If the number of Quoted Options subscribed for under an Offer is more than the number of Quoted Options to which the Placement Applicant or Keysight is entitled under the Offer, the Company reserves the right to return the Application Form and not issue any Quoted Options to the Placement Applicant or Keysight or to accept it in respect of a lesser number of Quoted Options.

If you are in doubt as to the course of action, you should consult your professional advisor.

Acceptance of a completed Application Form by the Company creates a legally binding contract between the Placement Applicant or Keysight and the Company for the number of Quoted Options accepted by the Company. The Application Form does not need to be signed to be a binding acceptance of Quoted Options under an Offer. If the Application Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Application Form, is final.

By completing and returning an Application Form, Placement Applicants or Keysight will be deemed to have represented and warranted on behalf of themselves or each person on whose account they are acting, that the law in their place of residence and/or where they have been given the Prospectus does not prohibit them from being given the Prospectus and that they:

- (a) agree to be bound by the terms of the relevant Offer;
- (b) declare that all details and statements in the Application Form are complete and accurate;
- (c) declare that they are over 18 years of age and have full legal capacity and power to perform all their rights and obligations under the Application Form;

- (d) authorise the Company and its respective officers or agents, to do anything on their behalf necessary for the Quoted Options to be issued to them, including to act on instructions of the Company's Share Registry upon using the contact details set out in the Application Form;
- (e) acknowledge that the information contained in, or accompanying, the Prospectus is not investment or financial product advice or a recommendation that Quoted Options are suitable for them given their investment objectives, financial situation or particular needs;
- (f) acknowledge that the Quoted Options have not, and will not be, registered under the securities laws in any other jurisdictions outside Australia; and
- (g) meet the eligibility criteria of the expected target market for the Quoted Options outlined in the TMD, a copy of which can be accessed at the Company's website (<https://emvision.com.au/investors>).

#### **1.11 Issue date and dispatch**

It is the responsibility of Applicants to determine their allocation prior to trading in the Quoted Options. Applicants who sell Quoted Options before they receive their holding statements do so at their own risk.

#### **1.12 ASX quotation**

Application for quotation of the Quoted Options will be made to ASX in accordance with the Timetable.

The fact that ASX may grant Official Quotation of the Quoted Options is not to be taken in any way as an indication of the merits of the Company or the Quoted Options offered pursuant to this Prospectus. ASX takes no responsibility for the contents of this Prospectus.

#### **1.13 CHESS**

The Company participates in the Clearing House Electronic Sub-register System known as CHESS. ASX Settlement, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and the ASX Settlement Operating Rules.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of Securities pursuant to their acceptance of an Offer.

Shareholders who are broker sponsored will receive a CHESS statement from ASX Settlement.

The CHESS statement will specify the number of Quoted Options issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Quoted Options.

If you are registered on the Issuer Sponsored sub-register, your statement will be despatched by the Share Registry and will contain the number of Quoted Options issued to you under this Prospectus and your security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Security holders at the end of any calendar month during which the balance of their Security holding changes. Security holders may request a statement at any other time; however, a charge may be made for additional statements.

## 2. Effect of the Offers

### 2.1 Capital structure on completion of the Offers

The principal effect of the Offers, assuming all Quoted Options offered under this Prospectus are issued, will be to increase the number of Options currently on issue by a maximum of 5,412,371 Options. Subject to satisfying the relevant ASX conditions for Official Quotation of a new class of Securities, application will be made for these Quoted Options to be quoted on ASX within 7 days of this Prospectus, creating a new class of quoted Options.

Assuming that no further Shares are issued and none of the existing unquoted Options, Performance Rights or Performance Shares are converted, the effect of the Offers on the Company's issued capital as at the Prospectus Date is as shown in the following table.

	Shares	Options	Performance Rights
Existing Securities on issue	91,907,676 <sup>(1)</sup>	4,200,000 <sup>(2)</sup>	240,660 <sup>(3)</sup>
Placement Options	-	4,122,130 <sup>(4)</sup>	-
Keysight Options	-	517,045 <sup>(4)</sup>	-
SPP Securities <sup>(5)</sup>	1,030,928	773,196 <sup>(4)</sup>	-
<b>Total<sup>(6)</sup></b>	<b>92,938,604</b>	<b>9,612,371</b>	<b>240,660</b>

#### Notes:

1. Includes 5,496,174 Placement Shares and 689,393 Keysight Shares issued on 24 September 2025.
2. Comprising Options of various exercise prices of between \$2.25 and \$3.15 and expiry dates of between 1 December 2025 and 11 February 2029.
3. Performance Rights expiring between 30 June 2027 and 11 August 2030 and convertible into Shares subject to the satisfaction of various performance conditions.

4. See Section 4.2 for the terms and conditions of the Quoted Options. The issue of the Quoted Options is conditional upon (amongst other things) ASX agreeing to grant Official Quotation of the Quoted Options on ASX by the time required under the Corporations Act (subject to compliance with the requirements of ASX and the Listing Rules for the quotation of a new class of securities). In the event that the Options do not satisfy the quotation conditions of the ASX Listing Rules, the Options will remain on issue as unquoted Options. See Section 1.3 for further information.
5. Assumes that the SPP is fully subscribed.
6. Assumes that the Offers are fully subscribed, and no further Securities are issued.

## 2.2 Proposed use of funds

No funds will be raised as a result of the Offers.

The Company will receive \$3.40 for each Quoted Option exercised. If all Quoted Options are issued and exercised, the Company will receive approximately \$18.4 million (before costs). There is no certainty that any of the Quoted Option will be exercised.

It is currently intended that funds raised from the Placement and the SPP and any funds raised from the exercise of the Quoted Options will be applied towards:

- (a) clinical trials;
- (b) clinical development, regulatory affairs, marketing;
- (c) system builds and deployment;
- (d) engineering resources; and
- (e) general working capital.

The above is a statement of current intentions at the Prospectus Date. Intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way the funds are applied on this basis.

The application of any funds from the exercise of Quoted Options will depend on when Quoted Options are exercised and the status of the Company's projects and requirements at the relevant time.

## 2.3 Effect on control of the Company

The Company is of the view that the Offers will not affect the control (as defined by section 50AA of the Corporations Act) of the Company. No investor or existing Shareholder will have a voting power greater than 20% as a result of the completion of the Offers.

The maximum number of Quoted Options proposed to be issued under the Offers is 5,412,371. If all of these Quoted Options are exercised, the Shares issued on exercise will constitute approximately 5.50% of the Shares on issue following completion of the Offers (assuming the Offers and SPP are fully subscribed and no further Securities are issued or exercised at the Prospectus Date).

## 2.4 Substantial Shareholders

As at the Prospectus Date, the following person which together with its associates have a voting power in 5% or more of the Shares on issue are set out below:

Substantial Shareholder	Shares	Voting power <sup>(1)</sup>
Keysight Technologies Inc	8,143,624	8.86%

**Note:**

1. *Based on 91,907,676 Shares on issue at the Prospectus Date.*
2. *Information regarding substantial holdings that arise, change or cease after the date of the substantial holding notices disclosed to the Company, or in respect of which the relevant announcement is not available on the ASX's website ([www.asx.com.au](http://www.asx.com.au)), is not included above.*

## **2.5 Financial effect of the Offers**

The Company does not consider that the Offers will have a material effect on the financial position of the Company.

If all Quoted Options are issued and exercised (which is not certain), it would have the effect on the Company's financial position of increasing the cash balance by approximately \$18.4 million (before costs).

The expenses of the Offers will be met from the Company's existing cash reserves. The Offers will have an effect on the Company's financial position of reducing the cash balance by approximately \$77,906. Please refer to Section 5.10 for further details on the estimated expenses of the Offers.

### 3. Risk factors

An investment in the Quoted Options offered by this Prospectus should be regarded as speculative. Activities in the Company, as in any business, are subject to risks which may impact on the Company's future performance. The Company has implemented appropriate strategies, actions, systems and safeguards for known risks, however some are outside its control.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which prospective investors need to be aware of in evaluating the Company's business and the risks of investing in the Company. Prospective investors should carefully consider the following factors in addition to the other information presented in the Prospectus.

The principal risks include, but are not limited to, the following:

#### 3.1 Risks specific to the Company

##### (a) Future capital requirements

The Company will require further financing in the future, in addition to amounts raised under the Placement.

Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the current market price or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available, may involve restrictions on financing and operating activities. Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all.

If the Company is unable to obtain additional financing as needed, the Company may be required to reduce the scope of its activities, which could have a material adverse effect on the Company's activities and could affect the Company's ability to continue as a going concern.

##### (b) Quotation risk

The Company will apply for quotation of the Quoted Options subject to compliance with the requirements of ASX and the Listing Rules, however, the Quoted Options will only be admitted to official quotation by ASX if the conditions for quotation of a new class of securities are satisfied (which include, amongst other things, there being a minimum of 100,000 Quoted Options on issue, with at least 50 holders with a marketable parcel (within the meaning of the Listing Rules)).

The Company makes no guarantee that any such application for quotation will be successful and there is a risk that the Company will not be able to satisfy the ASX requirements for quotation. In the event that the Company is unable to satisfy the ASX requirements, the Quoted Options will still be issued, but will be unquoted Options and there will be no public market for the Quoted Options. If the Quoted Options are admitted to official quotation by ASX, the price of the Quoted Options is subject to uncertainty and there can be no assurance that an active market for the Quoted Options will develop or continue after the Offers.

##### (c) Option risk and dilution

Options are, by their nature, only of value at times when the exercise price is lower than the price of the underlying Shares. There is no guarantee that the Quoted Options

offered under this Prospectus will, at any particular time, have an exercise price which is lower than the price of the Shares.

There is a risk that the Quoted Options may expire at a time when they have little or no value.

On completion of the Offers, assuming the Offers and SPP are fully subscribed, there will be up to 5,412,371 Quoted Options on issue. If exercised, these Quoted Options will be converted into Shares, thereby causing the shareholdings of Shareholders to be diluted by up to 5.50% (on the basis that the Offers are fully subscribed and no other Securities are issued or exercised at the Prospectus Date). However, each Quoted Option has an exercise price of \$3.40 which means that the Company will receive additional funds of up to approximately \$18.4 million (before costs) upon exercise of the Quoted Options, assuming all Quoted Options the subject of the Offers are issued and subsequently exercised. There is no certainty that Quoted Options, if issued, will be exercised in full, or at all.

**(d) Commercialisation including regulatory and reimbursement**

There are a number of inherent risks associated with the development of new medical device products to a marketable stage and the commercialisation of a medical device. The clinical trial process, which is often lengthy, is designed to assess the safety and efficacy of a device prior to commercialisation and there is no guarantee of achieving the outcomes necessary to generate a viable commercial product.

The Company's products are subject to successful clinical trials, regulatory approval by the FDA in the US and regulators in other key markets such as the TGA in Australia and CE Mark in Europe, product reimbursement approvals in each market and adoption of the use of the product by clinicians. A pivotal clinical trial in the US and Australia is currently underway to support FDA De Novo clearance for the emu™ point-of-care bedside brain scanner. The First Responder device is at an earlier stage of development, with pre-hospital feasibility, usability and data collection clinical studies being conducted to support the transition of the device from an advanced proof-of-concept device to a commercial production equivalent device.

The Company's operating and financial performance is dependent on its ability to develop and successfully commercialise its product portfolio. The Company will need to manage and optimally develop its business model and global presence to support the commercialisation of its existing and future product portfolio. Should the Company not be materially successful in one or more of these areas, there is risk of a loss of commercial opportunities essential for the achievement of the long-term strategy which may lead to the inability to realise, or the inability to retain, value.

**(e) Intellectual property rights**

The Company has an expansive intellectual property portfolio. It relies on laws relating to patents, trade secrets, copyright and trademarks to assist to protect its proprietary rights. There is a risk that unauthorised use or copying of the Company's software, data, specialised technology or platforms will occur. If the Company fails to adequately protect its intellectual property rights, competitors may gain access to its technology which could harm the Company's businesses.

The success of the Company may depend in part on the Company's ability to obtain patents (and therefore proprietary rights) without infringing the proprietary rights of others. There is a risk that the Company will be unable to register or otherwise protect new intellectual property it develops in the future. The grant and enforceability of patents involves complex legal and scientific questions and can be uncertain. There can be no assurance that any patents will afford the Company commercially significant protection of the or that competitors will not develop competing technologies that circumvent such patents. This may materially adversely impact the Company's

revenue, legal expenses and profitability. If the Company believes its intellectual property rights have been infringed, it may initiate or otherwise be involved in litigation against third parties for infringement, or to establish the validity, of the Company's rights. Any litigation, whether or not it is successful, could result in significant expense to the Company and divert the efforts of its personnel. In addition, unauthorised use of the various brands of the Company in counterfeit products or services could not only result in potential revenue loss, but also have an adverse impact on its brand value and perception of product quality.

(f) **Sales, marketing and adoption success**

The Company intends to focus on developing and marketing the Company's the emu™ and First Responder devices. By its nature, there is no guarantee that the Company's technology development and marketing campaign will be successful. In the event that it is not, the Company may encounter difficulty creating market awareness or convincing purchasing groups and this would likely have an adverse impact on the Company's future financial performance.

(g) **Competition and new technologies**

The industry in which the Company is involved is subject to domestic and global competition which is fast-paced and fast-changing. While the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, whose activities or actions may positively or negatively affect the operating and financial performance of the Company's projects and business. For instance, new technologies could result in the Company not being differentiated to other similar offerings.

The size and financial strength of some of the Company's competitors may make it difficult for it to maintain a competitive position in the technology market. In particular, the Company's ability to acquire additional technology interests could be adversely affected if it is unable to respond effectively and/or in a timely manner to the strategies and actions of competitors and potential competitors or the entry of new competitors into the market. This may in turn impede the financial condition and rate of growth of the Company.

(h) **Technology risk**

If the Company's technology network is compromised for any reason or the Company's infrastructure and systems prove insufficient and unable to keep up with evolving technologies or demand for the Company's services, the Company's ability to reliably service its clients and remain competitive may be compromised, which in turn may have an adverse impact on the Company's future financial performance.

(i) **Personal information collation risk**

It is likely that the Company will in the future collect, store and process highly sensitive, highly regulated and confidential information. The provision of secure and reliable information storage and processing services is integral to the businesses and operations of the Company. As the Company has not yet commenced undertaking clinical trials, the Company does not yet have strict policies and procedures for the collection of data.

The Company will need to develop such policies prior to collecting sensitive and personal data. However, even with such policies in place, if the Company's systems or data is compromised for any reason there is a risk that the Company may become involved in legal action due to breaching data confidentiality agreements.

**(j) Target Addressable Market**

The Company's ability to access its target addressable market is subject to various factors, including regulatory approvals, competition, market conditions, sales channel and the successful commercialisation of its products in various regions comprising the market opportunity. There can be no assurance that the Company's products will achieve widespread adoption or that it will overcome barriers to entry in all targeted regions or demographics. Investors are cautioned that there are no guarantees that the Company will be able to convert its target addressable market into future sales of its devices.

**(k) Reliance on key personnel**

The successful operation of the Company in part relies on the Company's ability to attract and retain experienced and high performing key management personnel, in particular those with relevant scientific expertise. The loss of any key members of management or other personnel, or the inability to attract additional skilled individuals to key management roles, may adversely affect the Company's ability to develop and implement its business strategies.

**(l) Sufficiency of funding**

The Company's financial resources are limited and the Company may be required to raise additional funds from time to time to finance the development of its products and commercial services businesses. The ability to raise additional funding is subject to factors beyond the Company's control and the Company can give no assurance that it will be able to secure future funding on favourable terms, or at all.

**(m) IT system failure and cyber security risks**

Any information technology system is potentially vulnerable to interruption and/or damage from a number of sources, including but not limited to computer viruses, cyber security attacks and other security breaches, power, systems, internet and data network failures, and natural disasters.

**(n) Infringement of third party intellectual property rights**

If a third party accuses the Company of infringing its intellectual property rights or if a third party commences litigation against the Company for the infringement of patents or other intellectual property rights, the Company may incur significant costs in defending such action, whether or not it ultimately prevails. Costs that the Company incurs in defending third party infringement actions would also include diversion of management's and technical personnel's time. In addition, parties making claims against the Company may be able to obtain injunctive or other equitable relief that could prevent the Company from further developing discoveries or commercialising its products.

**(o) Uncertainty of future revenue and profitability**

Future sales of products and the Company's future profitability are contingent on, amongst other things, the Company's ability secure contracts with customers by their direct sales force, enter into appropriate distribution and partner arrangements, being able to maintain anticipated prices for products being acquired as well as certainty of supply, being able to set favourable prices for products being sold, market demand for products being sold, general economic conditions, the results of further research and clinical trials in relation to molecular diagnostics products. Consequently, the Company cannot provide any guarantee that future sales estimates will be achieved. Even if future sales estimates are achieved, they may not result in the Company being profitable.

(p) **Failure to realise benefits from product research and development**

The development and commercialisation of the Company's products is expensive and often involves an extended period of time to achieve return on investment. An important aspect of the Company's business is to continually invest in innovation and product development opportunities. The Company may not realise benefits from these investments for several years, or may not realise benefits at all in some cases. The Company makes assumptions about the expected future benefits generated by investment in product research and development and the expected timeframe in which the benefits will be realised. These assumptions are subject to change and involve both known risks and risks that are beyond the Company's control. Any change to the assumptions the Company has made about certain product development may have an adverse impact on the Company's ability to realise benefit from investment in the development of the products.

(q) **Litigation risk**

In the ordinary course of its business, the Company may be subject to the risk of litigation and other disputes with its clients, employees, consultants, lessors, regulators and other third parties. Proceedings may result in high legal costs, adverse monetary judgements and/or damage to the Company's reputation, which ultimately is likely to have an adverse effect on the Company's financial performance.

(r) **Insurance risk**

The Company maintains a level of insurance coverage. If the Company's third-party providers fail to perform their obligations and/or its third-party insurance cover is insufficient for a particular matter or group or related matters, or there is an adverse event in respect of the third-party insurer or Underwriters, the net loss to the Company could adversely impact the Company's financial performance, financial position and prospects. Future changes to insurance market conditions may also result in material or significant increases in the cost of obtaining insurance, and/or impact the ability for the Company to obtain insurance coverage:

- (i) in respect of certain risks;
- (ii) to the extent to which it had previously obtained; or
- (iii) to a level it considers prudent for the scope and scale of its activities.

(s) **Strategic risk**

A failure to execute the Company's strategic objectives may result in a failure to achieve anticipated benefits and ultimately adversely impact the Company's operations, financial performance, financial position and prospects.

(t) **Reliance on external parties**

The Company's operations depend on performance by a number of external parties under contractual arrangements with the Company. Non-performance of contractual obligations and poor operational performance of external parties may have an adverse effect on the Company's business and financial performance.

### 3.2 **General risks**

(a) **Infectious diseases**

The price of the Company's Securities may be adversely affected by the economic uncertainty caused by infectious diseases (including COVID-19). Measures to limit the transmission of infectious diseases implemented by governments around the world

(such as travel bans and quarantining) may adversely impact the Company's operations and may interrupt the Company carrying out its contractual obligations or cause disruptions to supply chains.

(b) **Discretion in use of capital**

The Board and the Company's management have discretion concerning the use of the Company's capital resources as well as the timing of expenditures. Capital resources may be used in ways not previously anticipated or disclosed. The results and the effectiveness of the application of capital resources are uncertain. If they are not applied effectively, the Company's financial and/or operational performance may suffer.

(c) **Investment in capital markets**

As with all stock market investments, there are risks associated with an investment in the Company. Securities listed on the stock market have experienced extreme price and volume fluctuations that have often been unrelated to the operating performances of such companies. These factors may materially affect the market price of Shares regardless of the Company's performance.

(d) **General economic conditions**

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions, including levels of consumer spending, commodity prices, inflation, interest rates and exchange rates, supply and demand, industrial disruption, access to debt and capital markets and government fiscal, monetary and regulatory policies. Changes in general economic conditions may result from many factors including government policy, international economic conditions, significant acts of terrorism, hostilities or war or natural disasters. A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have an adverse impact on the Company's operating and financial performance and financial position. The Company's future possible revenues and Share prices may be affected by these factors, which are beyond the control of the Company.

(e) **Changes in government policies and legislation**

Changes in government, monetary policies, taxation and other laws can have a significant impact on the Company's assets, operations and ultimately the financial performance of the Company and its Shares. Such changes are likely to be beyond the control of the Company and may affect industry profitability as well as the Company's capacity to explore and mine. The Company is not aware of any reviews or changes that would affect its permits. However, changes in community attitudes on matters such as taxation, competition policy and environmental issues may bring about reviews and possibly changes in government policies. There is a risk that such changes may affect the Company's development plans or its rights and obligations in respect of its permits. Any such government action may also require increased capital or operating expenditures and could prevent or delay certain operations by the Company the future performance of the Company or any return on an investment in the Company.

(f) **Force majeure**

The Company, now or in the future, may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, extreme weather conditions, fires, floods, explosions or other catastrophes, epidemics, or quarantine restrictions.

(g) **Unforeseen expenditure risk**

The Company's cost estimates and financial forecasts include appropriate provisions for material risks and uncertainties and are considered to be fit for purpose for the proposed activities of the Company. If risks and uncertainties prove to be greater than expected, or if new currently unforeseen material risks and uncertainties arise, the expenditure proposals of the Company are likely to be adversely affected.

(h) **Climate change risks**

The climate change risks particularly attributable to the Company include:

- (i) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and
- (ii) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

(i) **Taxation**

The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Securities from a taxation point of view and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisers accept no liability and responsibility with respect to the taxation consequences of applying for Securities.

(j) **Litigation**

The Company is exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employee claims.

Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, reputation, financial performance and financial position. The Company is not currently engaged in any litigation.

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company.

The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of its Securities. Investors should consider that the investment in the Company is high risk and should consult their professional adviser before deciding whether to apply for Quoted Options pursuant to this Prospectus.

## **4. Rights attaching to Securities**

### **4.1 Rights and liabilities attaching to Shares**

A summary of the rights attaching to Shares in the Company is below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

#### **(a) General meetings**

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company. Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution.

#### **(b) Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder will, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for the Share, but in respect of partly paid Shares will have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

#### **(c) Dividend rights**

Subject to and in accordance with the Corporations Act, the Listing Rules, the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which will be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

No dividend will carry interest as against the Company.

The Company must not pay a dividend unless the Company's assets exceed its liabilities immediately before the dividend is declared and the excess is sufficient for the payment of the dividend. The Directors may capitalise any profits of the Company and distribute that capital to the Shareholders, in the same proportions as the Shareholders are entitled to a distribution by dividend.

#### **(d) Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution of the Company, divide among the shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as the liquidator considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

(e) **Further increase in capital**

Subject to the Corporations Act and the Constitution, the Board may, on behalf of the Company, issue, grant options over or otherwise dispose of unissued shares to any person on the terms, with the rights, and at the times that the Board decides. The Company must not issue shares or grant options if the issue or grant would result in a breach of the Listing Rules.

(f) **Transfer of Shares**

Shares can be transferred upon delivery of a proper instrument of transfer to the Company or by a transfer in accordance with the ASX Settlement Operating Rules. The instrument of transfer must be in writing, in any usual or common form or in any other form that the Directors approve.

Until the transferee has been registered, the transferor is deemed to remain the holder, even after signing the instrument of transfer.

In some circumstances, the Directors may refuse to register a transfer if upon registration the transferee will hold less than a marketable parcel. The Board may refuse to register a transfer of Shares upon which the Company has a lien. The Company must refuse to register a transfer of Shares where the Corporations Act, Listing Rules or ASX Settlement Operating Rules or a law about stamp duty requires the Company to do so.

(g) **Variation of rights**

Pursuant to section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three-quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(h) **Alteration of Constitution**

The Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

## 4.2 Terms and conditions of Quoted Options

- (e) **(Quotation):** The Company will apply for quotation of the Options on ASX within 7 days of this Prospectus. Quotation of the Options will be subject to compliance with the ASX Listing Rules.
