Review of Operations for Period Ending 30 June 2025

Peako's exploration focus during FY2025 was its Eastman Project (Figure 1) in the East Kimberley region of Western Australia.

The geological diversity within Peako's tenement package has driven the search for a wide range of commodities, with the Koongie Park Formation (KPF) having demonstrated prospectivity for base (Cu-Pb-Zn) and precious (Ag, Au) metals mineralisation, whilst the Eastman Ultramafic Intrusion has demonstrated prospectivity for additional styles of base (Ni, Cu) and precious metal (Au, PGE and REE) mineralisation.

Eastman Project

A site visit was undertaken at the end of September 2024 to ground-check previous surface sampling in the context of recent detailed geological mapping work completed by an external consultant (Dr Dave Selley). Highlights of reconnaissance rock chip samples taken during the site inspection include:

- Sample RS0071024: 14% Cu, 226 g/t Ag, 2.36% Pb, 0.59% Sb, 0.12% Zn;
- Sample RS0061024: 50.22% Pb 78.6 g/t Ag, 0.77% V, 0.44% Zn; and
- Sample RS0051124: 0.93 g/t Au, 10.95 g/t Ag, 5.74% Pb.

The samples were taken mostly from locations where the Company has previously sampled or drilled, and confirm previously reported results (see Figure 2 for sample locations). In addition, a review of the Company database found that historic sample P2100184 was collected from a location close to sample RS0071024 at Bullock's Bore, but was not reported by the Company. Historic sample P2100184 returned assay results of 4.79% Cu, 336 g/t Au, 2.99% Pb, 0.22% Sb, 0.17% Zn. Figure 2 presents the location of sample P2100184.

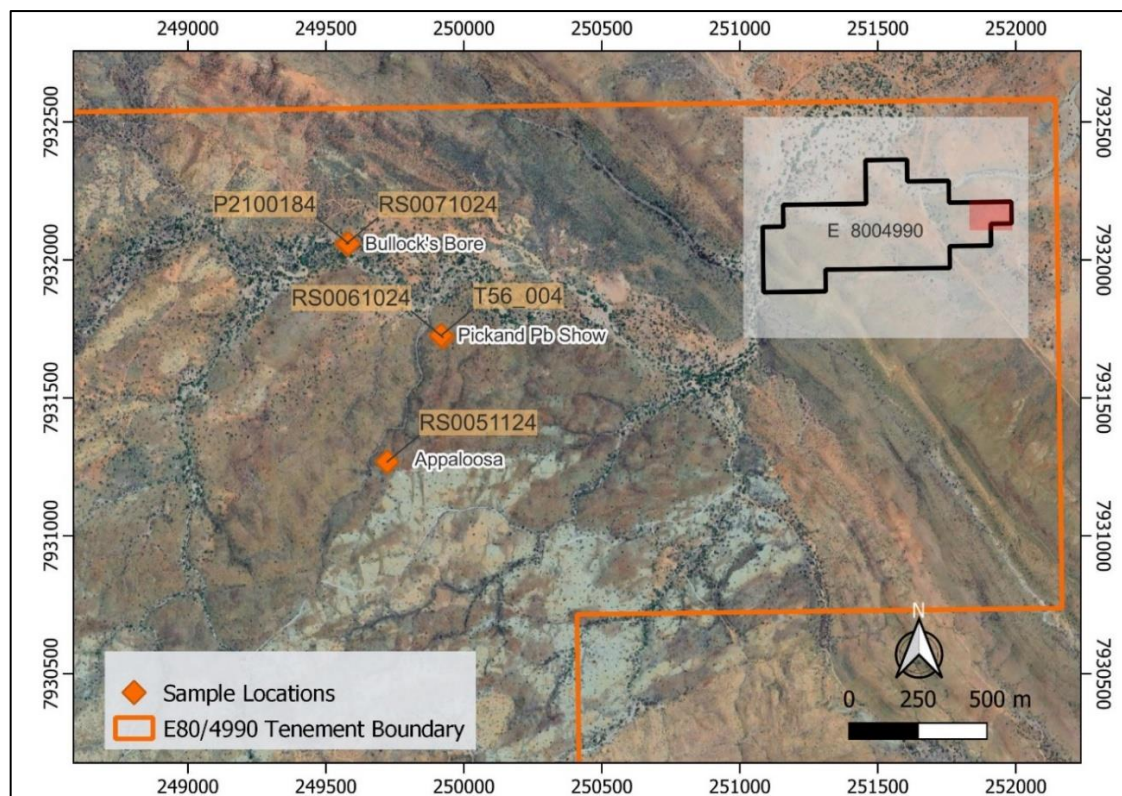

Figure 2. Location of rock chip samples collected within tenement E8004990, including historic samples P12100184 and T56_004.

Sample RS0071024 – Bullock's Bore

14% Cu, 226 g/t Ag, 2.36% Pb, 0.59% Sb, 0.12% ppm Zn

Bullock's Bore was identified from historical exploration that included drilling (no assay results are available) and limited rock chip sampling for Cu, Zn and Pb only. Peako previously sampled the location in 2021 as part of a regional reconnaissance program focused on Au. The Company shortly after refocussed its efforts on the Eastman PGE discovery which it preferentially pursued.

The 2021 sample at Bullock's Bore (sample P2100184) returned assay results of:

- 4.79% Cu, 336 g/t Ag, 2.99% Pb, 0.22% Sb, 0.17% Zn.

This result was confirmed by sample RS0071024 which was proximal to P2100184 and within a similar trend from a highly silicified and ferruginous outcropping gossan with extensive malachite staining (Figure 3).

Figure 3. (A) Gossan outcrop where sample RS0071024 was taken at the Bullock's Bore prospect.
 (B) Sample RS0071024 collected from outcrop in Figure A.

The geology of the area is interpreted to include KPF rocks and potentially Sally Downs Supersuite intrusive units. Volcanic rocks of the KPF are known to host syngenetic and replacement style volcanogenic massive sulphide (VMS) base and precious metal mineralisation elsewhere in the Halls Creek Orogen (HCO), and remain an area of focus for the Company.

Sample RS0061024 – Pickand's Pb Workings

50.22% Pb 78.6 g/t Ag, 0.77% V, 0.44% Zn

The Company has previously collected limited rock chip samples at the Pickand's Workings, with best results including up to 74.06% Pb and 123.1 g/t Ag (sample T56_004; see ASX Announcement dated 13 November 2020). Sample RS0061024 and T56_004 were both taken from mullock dumps next to a creek, and the source remains unknown. Sample RS0061024 was characterised by massive coarse-grained galena in strongly silicified mafic volcanics with remnant boxwork textures and iron oxide staining (

Figure 4).

Figure 4. Sample RS0061024 from the Pickand's Showing displaying massive galena and iron oxide staining in silicified mafic volcanic.

Sample RS0051124 – Appaloosa

0.93 g/t Au, 10.95 g/t Ag, 5.74% Pb

The Company has previously mapped, sampled and drilled Appaloosa with significant rock chips indicating the potential for Au mineralisation (see ASX Announcements dated 25 May 2021 and 21 July 2021). Over 400m of outcropping gossanous quartz veins have been mapped along strike in an area known to have historic Au grades in veins up to 12.7 g/t Au. Such veins are narrow (< 20cm) and largely discontinuous, and are hosted within propylitic (epidote) altered massive gabbro (see ASX Announcement dated 21 July 2021). Sample RS0051124 (Figure 5) confirms previously reported gold anomalism albeit at lower grades. Limited drilling by the Company at Appaloosa returned no significant results (ASX Announcement dated 14 January 2022); however, the source for the anomalism remains unresolved and warrants further work.

The various mineralisation styles with discrete metal associations in particular areas across E80/4990 is currently under review. This review includes allocating appropriate mineralisation systems known for the region, and locally possible, as established by detailed geological and structural mapping undertaken by Dr Dave Selley. It is expected this reinterpretation will assist the Company in refining priority targets for future work exploration programs.

Grant and subsequent surrender of East Kimberley Tenements

During the reporting period the Company announced that that it has received notification from the Department of Energy, Mines, Industry Regulation and Safety that tenements E80/5704 and E80/5703 have been granted (Figure 6). The tenements were identified as areas of interest for lithium and rare earth element (REE) prospectivity.

Although considered prospective at the time of application, the Company decided to surrender the newly granted areas and remain focussed on the flagship Eastman Project. The surrender of tenements E80/5704 and E80/5703 was completed on 16 May 2025 and announced in 30 June Quarterly Report.

Corporate

Business Development

During the reporting period Peako reviewed a number of new project opportunities, primarily precious and base metals, both in Australia and overseas, to complement its Eastman Project and to drive value to shareholders.

Board & Management Changes

During the reporting period, the Company announced planned changes to the Board with Mr Geoffrey Albers retiring as a Director of the Company. Mr Albers was a Director of the Company for over 10 years, commencing in 2013. The Board would like to sincerely thank Mr Albers for his contributions to the Company.

Following the retirement of Mr Albers, Mr Gernot Abl was appointed as Non-Executive Chairman of the Board.

Gernot has a background in law, corporate finance, and strategic consulting and has more than 20 years of entrepreneurial, business strategy, and investment experience. Gernot has worked with many early-stage businesses, across industries, to help commercialise, grow, and increase the value of the business for all stakeholders. Gernot is currently a Director of Lithium Universe Limited (ASX:LU7) DorsaVi (ASX: DVL) and Nelson Resources (ASX:NES).

Dr Louis Bucci was also appointed as Non-Executive Director. Dr Bucci is an economic geologist with over 20 years' experience in the mineral resources sector in a wide range of technical, consultant and senior management roles including Board level positions. His experience spans the management of early-stage exploration projects through to mineral resource development, feasibility studies and operations.

In November 2024 the Company announced the elevation of Dr. Louis Bucci from the role of Non-Executive Director to Technical Director. The appointment of Louis as Technical Director will allow him to focus his time on overseeing the technical aspects of the Company's exploration programs and undertaking technical due diligence on new opportunities.

On 27 August 2024 it was announced Mr Ryan Skeen had been appointed as Chief Executive Officer of the Company. On 6 May 2025 Ryan tendered his resignation as CEO of the Company to pursue other opportunities

Entitlement Offer

In July 2024, Peako completed a fully underwritten pro-rata non-renounceable entitlement offer to raise up to approximately \$1.054 million before costs. The Offer provided Eligible Shareholders an entitlement to subscribe for 2 new Peako shares for every 3 existing Peako shares held at an offer price of \$0.003 per New Share. Each subscriber was entitled to receive (for no additional consideration) one new Option (exercisable at a price of \$0.0075 at any time on or before 28 February 2027) for every two New Shares subscribed for and received under the Offer.

The entitlement offer successfully raised \$469,212 (before costs) from existing shareholders through the issue of 157,034,171 new fully paid ordinary shares ("Shares") and 78,517,093 new options exercisable at \$0.0075, with expiry date of 28 February 2027 ("Options"). The balance of the entitlement issue was successfully placed by the underwriters with the Company receiving significant inbound interest from new investors groups.

Capital Raise - Placement

In November 2024 the Company announced that it has received firm commitments for the issue of 600,933,667 new fully paid ordinary shares ("Shares") with an issue price of \$0.003 (0.3 cents) per Share and 300,466,833 free attaching options exercisable at \$0.0075, with expiry date of 28 February 2027 ("Options"). The total amount to be raised through this Placement is \$1,802,801.

The proceeds will be used for working capital for Peako to undertake exploration on existing projects and to review new project opportunities.

The issue of Shares and Options were conducted through a two-tranche placement with 216,666,667 Shares issued through the Company's placement capacity in accordance with ASX Listing Rule 7.1 and the remaining 384,267,000 Shares and 300,466,833 Options were issued on 31 January 2025 following shareholder approval.

Small Shareholder Facility

During the period Peako announced that it had established a small shareholding sale facility for shareholders whose holding of fully paid ordinary shares in the Company has a market value of less than A\$500 at 7.00pm Melbourne time on 24 January 2025.

The Sale Facility allowed shareholders who held less a Small Parcel Holding to sell their Shares cost effectively without incurring brokerage or other transaction costs, while also assisting the Company to reduce the costs associated with servicing smaller shareholdings.

The final number of Shares sold under the Sale Facility was 14,493,734 held by 640 shareholders. The company received 67 valid share retention forms from shareholders, holding 2,504,825 Shares, who chose to retain their Shares. The Shareholders whose Shares were sold through the Sale Facility received \$0.0026 per share (in accordance with the announcement dated 28 January 2025).

The information in this ASX Release that relates to previous Exploration Results is extracted from the following reports which are all available at www.asx.com.au:

The Company also issued 78,517,093 unlisted options (PKOAC) as free attaching options through the RI (one for two free attaching options) being exercisable at \$0.0075 (0.75 cents) on or before 28 February 2027.

On 20 August 2024, the Company issued 194,355,975 shares at \$0.003 (0.3 cents) as part of the Rights Issue (RI), raising \$583,063 before costs. The Company also issued 97,177,987 unlisted options (PKOAC) as free attaching options through the RI (one for two free attaching options) being exercisable at \$0.0075 (0.75 cents) on or before 28 February 2027.

On 20 August 2024, Mr Geoffrey Albers retired as a Director of the Company and Mr Gernot Abl was appointed Nonexecutive Chairman and Dr Louis Bucci was appointed Non-executive Director.

On 27 August 2024, the Company announced the appointment of Mr Ryan Skeen as a CEO.

On 4 December 2024, the Company issued 216,666,667 fully paid ordinary shares with an issue price of \$0.003 (0.3 cents) per share, raising \$650,000 as part of a placement.

On 31 January 2025, the Company issued 392,600,427 fully paid ordinary shares with an issue price of \$0.003 (0.3 cents) per share, raising \$1,177,801 as part of the Tranche 2 placement which was approved by shareholders at the general meeting held on 17 January 2025. The Company also issued 304,633,537 unlisted options (PKOAC) as free attaching options through the placement (one for two free attaching options) being exercisable at \$0.0075 (0.75 cents) on or before 28 February 2027.

On 6 May 2025, Mr Skeen tendered his resignation as CEO of the Company. Mr Skeen will officially leave the Company 3 months post resignation on 6 August 2025.

There were no other significant changes in the state of affairs of the consolidated entity during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2025 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Likely developments and expected results of operations

The likely developments in the consolidated entity's operations in future years and the expected result from those operations are dependent on exploration success in the tenements in which the consolidated entity holds an interest.

The consolidated entity continues to review potential new opportunities, if the Directors are successful in acquiring new projects or entering into a joint venture, it is expected that part of the funding held by the consolidated entity may be directed to the purchase of that project and to the exploration and development plan for that project. It may be that additional cash will be required to fund any of these events should they eventuate. In that case the Directors will be required to review the funding options available to the consolidated entity.

Business risk management

The consolidated entity is committed to the effective management of risk to reduce uncertainty in the consolidated entity's business outcomes and to protect and enhance shareholder value. There are various risks that could have a material impact on the achievement of the consolidated entity's strategic objectives and future prospects.

Key risks and mitigation activities associated with the consolidated entity's objectives are set out below:

Exploration risk

The consolidated entity's projects are at various stages of exploration, and potential investors should understand that mineral exploration is a high-risk undertaking. There can be no assurance that exploration of these projects, or any other tenements that may be acquired in the future, will result in the discovery of an economic mineral deposit.

The future exploration activities of the consolidated entity may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, local title processes, changing government regulations and many other factors beyond the control of the consolidated entity.

In addition, the tenements forming the projects of the consolidated entity may include various restrictions excluding, limiting or imposing conditions upon the ability of the consolidated entity to conduct exploration activities. While the consolidated entity will formulate its exploration plans to accommodate and work within such access restrictions, there is no guarantee that the consolidated entity will be able to satisfy such conditions on commercially viable terms, or at all.

The consolidated entity uses a number of exploration techniques in order to reduce the level of exploration risks and continues to explore new and innovative technologies through its day to day operations.

Regulatory risk

The consolidated entity's mining and exploration activities are dependent upon the maintenance (including renewal) of the tenements in which the consolidated entity has or acquires an interest. Maintenance of the consolidated entity's tenements is dependent on, among other things, the consolidated entity's ability to meet the licence conditions imposed by relevant authorities. Although the consolidated entity has no reason to think that the tenements in which it currently has an interest will not be renewed, there is no assurance that such renewals will be given as a matter of course and there is no assurance that new conditions will not be imposed by the relevant authority or whether the consolidated entity will be able to meet the conditions of renewal on commercially reasonable terms, if at all.

The consolidated entity works with local government and mining departments to ensure it meets the required level of reporting requirements and to reduce any potential for breach of regulatory requirements.

Future funding risk

The consolidated entity has no operating revenue and is unlikely to generate any operating revenue in the foreseeable future. Exploration and development costs and pursuit of its business plan will use funds from the consolidated entity's current cash reserves and the amount raised under the Equity Offer.

The development of one or more of its projects may require the consolidated entity to raise capital in excess of the funds proposed to be raised under the Equity Offer.

Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the then market

price (or Offer Price) or may involve restrictive covenants which limit the consolidated entity's operations and business strategy. Debt financing, if available, may involve restrictions on financing and operating activities.

Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the consolidated entity or at all. If the consolidated entity is unable to obtain additional financing as needed, it may be required to reduce the scope of its activities and this could have a material adverse effect on the consolidated entity's activities and could affect the consolidated entity's ability to continue as a going concern. The consolidated entity's funding requirements are reviewed on a regular basis in order to mitigate future funding risk.

Environmental regulation

The consolidated entity holds participating interests in a number of exploration tenements. The various authorities granting such tenements require the tenement holder to comply with the terms of the grant of the tenement and all directions given to it under those terms of the tenement. To the best of the Directors' knowledge, the consolidated entity has adequate systems in place to ensure compliance with the requirements of all environmental legislation described above and are not aware of any breach of those requirements during the financial year and up to the date of the Directors' report.

Remuneration report (audited)

The remuneration report details the key management personnel remuneration arrangements for the consolidated entity, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Share-based compensation
- Additional information
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The objective of the consolidated entity's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with the achievement of strategic objectives and the creation of value for shareholders, and it is considered to conform to the market best practice for the delivery of reward. The Board of Directors ('the Board') ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness
- acceptability to shareholders
- performance linkage / alignment of executive compensation
- transparency

Consolidated entity performance and link to remuneration

The remuneration of directors and executives are not linked to the performance, share price or earnings of the consolidated entity.

Voting and comments made at the company's 2024 Annual General Meeting ('AGM')

At the 2024 AGM, 98.58% of the votes received supported the adoption of the remuneration report for the year ended 2024. The company did not receive any specific feedback at the AGM regarding its remuneration practices.

Details of remuneration

Amounts of remuneration

Details of the remuneration of key management personnel of the consolidated entity are set out in the following tables.

Note 1. General information

The financial statements cover Peako Limited as a consolidated entity consisting of Peako Limited and the entities it controlled at the end of, or during, the year. The financial statements are presented in Australian dollars, which is Peako Limited's functional and presentation currency.

Peako Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Suite 1, Level 6
350 Collins Street,
Melbourne, VIC 3000
+61 3 8630 3321

A description of the nature of the consolidated entity's operations and its principal activities are included in the Directors' Report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 30 September 2025. The directors have the power to amend and reissue the financial statements.

Note 2. Material accounting policy information

The accounting policies that are material to the consolidated entity are set out either in the respective notes or below. The accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The impact of the new standards are not material for the current financial period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Going concern

The financial report has been prepared on the going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

For the year ended 30 June 2025, the consolidated entity incurred a net loss of \$1,317,172, net cash outflows from operating activities of \$1,220,748 and had a cash balance as at 30 June 2025 of \$1,655,174. Although the Company raised \$2,880,081 (before costs) throughout the financial year, the Company remains reliant on capital raisings and shareholder support to sustain its exploration activities for the foreseeable term. The Directors have assessed that these conditions indicate that a material uncertainty exists that may cast significant doubt on the entity's ability to continue as a going concern, and therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The consolidated entity is able to vary its planned levels of exploration expenditure. The ability to curtail other expenditure: Key management personnel have written to the Company advising of their ability and intention, if needs be, to not call in cash amounts owed that will be contractually owed to them for the period of the next 13 months if such a cash call jeopardises the consolidated entity's available reserve of working capital.

The Directors determined that the use of the going concern basis of accounting is appropriate in preparing the financial report. The assessment of the going concern assumption is based on the consolidated entity's cash flow projections and application of a number of judgements and estimates, resulting in the conclusion of a range of reasonably possible scenarios. Included in the Directors going concern cash flow assessment is that further funds can be secured if required by a combination of capital raisings and deferment of forecast payments for exploration and evaluation activities. Accordingly, the Financial Report has been prepared on the basis that the consolidated entity can continue normal business activities and meet its commitments as and when they fall due, and the realisation of assets and liabilities in the ordinary course of business.

Note 2. Material accounting policy information (continued)

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention

The financial statements have been prepared under the historical cost convention.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 14.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2025. The consolidated entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

Note 3. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. There are no critical accounting judgements, estimates and assumptions that are likely to affect the current or future financial years.

Note 4. Operating segments

Under AASB 8 Operating Segments, segment information is presented using a 'management approach', i.e. segment information is provided on the same basis as information used for internal reporting purposes by the Board of Directors.

At regular intervals the Board is provided management information at a consolidated entity level for the consolidated entity's cash position, the carrying values of exploration permits and a consolidated entity cash forecast for the next twelve months of operation. On this basis, no segment information is included in these financial statements.

All interest received has been derived in Australia. All exploration and evaluation assets are held in Australia.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back.

Capital risk management

The consolidated entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

Note 7. Equity - issued capital (continued)

In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment. The consolidated entity is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

The capital risk management policy remains unchanged from previous financial years.

Accounting policy for issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Note 8. Financial instruments

Financial risk management objectives

The consolidated entity's activities expose it to liquidity risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity.

Risk management is managed at board level with cash flow forecasting techniques.

The Consolidated entity has adopted a lifetime expected loss allowance in estimating expected credit losses to trade receivables.

Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, who have built an appropriate liquidity risk management framework for the management of the consolidated entity's short, medium and long-term funding and liquidity management requirements. The consolidated entity manages liquidity risk through capital raising activities, and continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. The consolidated entity did not have any undrawn facilities at its disposal as at reporting date. Vigilant liquidity risk management requires the consolidated entity to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to be able to pay debts as and when they become due and payable.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

As at year end all liabilities had maturities no greater than 60 days (2024: 60 days).

Fair value of financial instruments

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

Note 9. Key management personnel disclosures

No options or performance rights have been included in the weighted average number of ordinary shares for the purposes of calculating diluted EPS as they do not meet the requirements for inclusion in AASB 133 "Earnings per Share". The rights to options are non-dilutive as the Consolidated entity is loss generating.

Note 18. Earnings per share (continued)

Accounting policy for earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of Peako Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares. There is no impact due to the Company being in a loss position.

Independent auditor's report to the members of Peako Limited

Report on the audit of the financial report

Our opinion on the financial report

In our opinion, the accompanying financial report of Peako Limited (the Company) and its controlled entities (together, the Group) is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the Group's financial position as at 30 June 2025 and of its financial performance for the year then ended; and
- complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What was audited?

We have audited the financial report of the Group, which comprises:

- the consolidated statement of financial position as at 30 June 2025,
- the consolidated statement of profit or loss and other comprehensive income for the year then ended,
- the consolidated statement of changes in equity for the year then ended,
- the consolidated statement of cash flows for the year then ended,
- notes to the financial statements, including material accounting policy information,
- the consolidated entity disclosure statement, and
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For this audit, we have no key audit matters to report.

Other information

The directors are responsible for the other information. The other information comprises the information contained in Group's annual report for the year ended 30 June 2025 but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of:

- the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Our opinion on the Remuneration Report

In our opinion, the Remuneration Report of Peako Limited, for the year ended 30 June 2025, complies with section 300A of the *Corporations Act 2001*.

What was audited?

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2025.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
