

## Company announcement

# PME signs 5-year, A\$10M next generation enterprise PACS contract with University Hospital Heidelberg

8 October 2025

### HIGHLIGHTS

- **PME signs 5-year, A\$10M Enterprise PACS deal at University Hospital Heidelberg (UKHD) and German Cancer Research Institute (DKFZ), and associated hospitals, Thoraxklinik Heidelberg and KKH Bergstrasse**
- **PME will be replacing and consolidating three (3) legacy PACS**
- **Expands Visage footprint in key German/European market**

Leading health imaging company Pro Medicus Limited [ASX: PME] today announced its wholly-owned European subsidiary, Visage Imaging, GmbH (“Visage”), has signed a 5-year, A\$10M Enterprise PACS deal at University Hospital Heidelberg (UKHD) and German Cancer Research Institute (DKFZ), and associated hospitals, Thoraxklinik Heidelberg and KKH Bergstrasse.

UKHD is one of Germany’s largest and most renowned academic medical centers, with approximately 2,600 beds and nearly 14,000 staff members. UKHD is linked to the medical faculty of Heidelberg University, and is co-located and closely cooperates with DKFZ, together providing one of Europe’s top centers for medical research and teaching.

DKFZ is Germany’s largest biomedical research institution, with over 3,400 employees from more than 90 nations, comprising approximately 1,490 scientists. UKHD and DKFZ form the core of one of Europe’s preeminent hubs for cancer research and treatment.

UKHD and DKFZ and its associated hospitals require the most advanced technology to support cutting-edge diagnostics, innovative treatment pathways and translational research. They rely on imaging not only for day-to-day patient care, but also to bridge the gap between scientific discovery and clinical application.

With its ultrafast, highly scalable architecture, the Visage 7 Enterprise Imaging Platform (“Visage 7”) enables seamless access to massive imaging datasets across institutions, specialties, and research domains. Visage 7 makes it possible to consolidate disparate legacy systems, streamline workflows and provide clinicians with the tools they need to interpret even the most complex imaging studies with confidence and precision.

“Imaging is at the heart of both patient care and research at University Hospital Heidelberg, said Oliver Reinhard, Chief Information Officer, Heidelberg University Hospital. “With Visage 7, we are gaining a future-proof platform that can support our clinicians with the most advanced diagnostic tools, while enabling researchers to work seamlessly with imaging data at scale. This is essential for our mission to translate scientific discoveries rapidly into improved outcomes for patients.”

Visage 7 also empowers researchers to integrate imaging into clinical trials and translational studies at unprecedented speed and scale, while providing the foundation to bring new discoveries into clinical practice.

“We are honoured to partner with UKHD and DKFZ, one of Europe’s most important medical and cancer research centers, “said Malte Westerhoff, PhD, Chief Technology Officer, Visage Imaging. “Visage 7 is uniquely positioned to deliver both the diagnostic performance and the research capabilities required by leading academic medical centers. Together, we are shaping the future of enterprise imaging and help empowering clinicians and researchers to deliver better care.”

Authorised by the Board of Pro Medicus Limited.

**About Pro Medicus Limited:**

Pro Medicus Limited [ASX: PME] is a leading healthcare informatics company. Founded in 1983, the company provides a full range of medical imaging software and services to hospitals, imaging centres and health care groups worldwide. In January 2009, the company acquired Visage Imaging transforming it into a global provider of leading-edge medical imaging solutions. The company's Visage 7 suite of products are the foundation of an ultra-fast, clinically rich, and highly scalable platform that is seamlessly deployable in both public or private cloud environments. The company offers a leading suite of RIS, PACS, Artificial Intelligence and e-health solutions constituting one of the most comprehensive end-to-end offerings in healthcare imaging. Pro Medicus has offices in Melbourne, Berlin and San Diego. [www.promedicus.com.au](http://www.promedicus.com.au)
