Where the Chairman of the Meeting considers it appropriate, the Chairman may continue to hold the Meeting and transact business, including conducting a poll and voting in accordance with valid proxy instructions.

For this reason, Shareholders are encouraged to lodge a directed proxy by 11:00am (AEDT) on Tuesday 11 November 2025 even if they plan to attend the Meeting online.

6.9 How the Chairman will vote undirected proxies for Resolutions

If you appoint the Chairman of the Meeting as your proxy or the Chairman of the Meeting is appointed as your proxy by default, and you do not specify how your proxy is to vote on any Resolution, by submitting a Proxy Form, the Chairman of the Meeting is expressly authorised to vote your proxy as they see fit.

Explanatory Memorandum

This Explanatory Memorandum has been prepared for the information of Shareholders in connection with the business to be considered at the AGM of Shareholders to be held on Thursday 13 November 2025.

The Explanatory Memorandum forms part of, and should be read in conjunction with, the Notice of Meeting. For the assistance of Shareholders, a glossary of defined terms is included at the end of this Explanatory Memorandum.

Full details of the business to be considered at the Meeting are set out below.

Financial Statements and Reports

The Corporations Act requires that the Annual Financial Report, Directors' Report and Auditor's Report be presented to the Meeting. Apart from the matters involving remuneration which are required to be voted upon, the Corporations Act does not require a vote of Shareholders at the Meeting on such reports or statements, however Shareholders as a whole will be given a reasonable opportunity to raise questions with respect to these reports and statements and the management of NEXTDC at the Meeting.

In addition and as required under section 250RA of the Corporations Act, a representative of the Company's auditors, PricewaterhouseCoopers, will be present to answer any questions about the conduct of the audit, the preparation and content of the Auditor's Report, the accounting policies adopted by the Company in relation to the preparation of the financial statements and the independence of the auditor in relation to the conduct of the audit.

The Annual Financial Report, Directors' Report and Auditor's Report are contained in the Company's Annual Report for the period 1 July 2024 to 30 June 2025, which has been sent to Shareholders who requested a copy and is available on the Company's website at www.nextdc.com.

A Shareholder Resolution is not required in respect of this item of business.

1. Resolution 1 – Remuneration Report

The Corporations Act requires that the Company's Remuneration Report be put to Shareholders for consideration and adoption by way of a non-binding ordinary resolution.

The Remuneration Report:

- explains the Board's policy for determining the nature and amount of remuneration of Key Management Personnel of the Company;
- explains the relationship between the Board's remuneration policy and the Company's performance;
- sets out remuneration details for each member of the Key Management Personnel of the Company; and
- details and explains any performance conditions applicable to the remuneration of Key Management Personnel.

A reasonable opportunity will be provided for Shareholders as a whole to ask questions about, or make comments on, the Remuneration Report at the Meeting. In addition, Shareholders will be asked to vote on the Remuneration Report.

The vote on this Resolution is advisory only and the outcome will not be binding on the Board or the Company. However, the Board will take the outcome of the vote into consideration when reviewing the remuneration practices and policies of the Company.

Other remuneration matters

New Growth Incentive Plan (GIP)

The GIP was announced in February 2025 as a one-off fully at-risk plan to reward the CEO and senior leaders for significant growth outperformance and shareholder value creation over a 5-year period in line with incentives available to them in the market.

The CEO's conditional rights allocation under the GIP does not require a shareholder vote at the Annual General Meeting, as any entitlements which vest and are exercised by him will be satisfied with shares acquired on-market.

In addition to the disclosures made in the Annual Report in relation to the GIP, further information on the Board's rationale for the GIP and how the CEO's conditional rights will be satisfied can be found in Appendix B (which forms part of this Explanatory Memorandum).

Board's exercise of discretion, FY22 LTI Grant

The Board exercised its discretion in relation to the 4-year tranche of the FY22 LTI Grant (Aug 2021 – Aug 2025).

The testing of the tranche took place after the release of the Company's FY25 Annual Report on 29 August 2025. Although disclosure is not formally required until the Company's FY26 Annual Report in August 2026, the Board believes shareholders should be made transparently aware of key decisions that impact remuneration so that they are fully informed.

The Board's rationale for exercising its discretion in relation to the 4-year tranche of the FY22 LTI Grant can be found in Appendix C (which forms part of the Explanatory Memorandum).

Recommendation

The Board unanimously recommends that Shareholders vote in favour of adopting the Remuneration Report.

2. Resolution 2 – Re-election of Mr Stephen M Smith, as a Director

Mr Stephen M Smith has been an independent Non-Executive Director of the Company since 1 July 2019. In accordance with Rule 58 of the Company's Constitution, Mr Smith retires from office and submits himself for re-election.

5. Resolution 5 – Approval of grant of Performance Rights to Mr Craig Scroggie under the FY26 Long Term Incentive (LTI) Plan

The Company proposes to grant Mr Scroggie 108,026 Performance Rights and 108,026 Restricted Rights for FY26 pursuant to the Company's LTI Plan under the NEXTDC Limited Equity Incentive Plan (**EIP**).

Background

A key component to effective executive remuneration is the provision of incentive grants under a long-term incentive scheme to support retention, drive shared performance objectives and link remuneration to Company performance and Shareholder wealth outcomes. In his role as CEO and Managing Director, Mr Scroggie is a key executive of NEXTDC Limited and plays an important role in leading the execution of the Company's growth strategies and business objectives.

As part of the review of Senior Executive remuneration undertaken in FY25, the Board has determined that the LTI Plan continues to be fit for purpose, considering retention challenges, strategic priorities and individual and market-based considerations.

Why approval is being sought

Listing Rule 10.14 requires the approval of Shareholders to be obtained where the Company intends to provide newly issued securities under an employee incentive scheme to a Director or an associate of a Director. As Mr Scroggie is the CEO and Managing Director of NEXTDC, Shareholder approval is required under Listing Rule 10.14.1 prior to issuing securities to Mr Scroggie under the LTI Plan.

If Shareholder approval is not obtained, the Board will consider alternative arrangements to appropriately remunerate and incentivise Mr Scroggie.

If approved, the Performance Rights and Restricted Rights will be issued to Mr Scroggie within 12 months of the Meeting.

Key features of the FY26 LTI Plan

The key features of Mr Scroggie's proposed FY26 LTI award are disclosed in Appendix A (which forms part of this Explanatory Memorandum).

Recommendation

The Board (other than Mr Scroggie) unanimously recommends that Shareholders vote in favour of the grant of Performance Rights and Restricted Rights to Mr Scroggie.

The features of the proposed FY26 award of Performance Rights and Restricted Rights to Mr Scroggie pursuant to the Company's LTI Plan under the EIP are summarised below:

Aspect	Details
Form of LTI Award	<p>The CEO's FY26 LTI award is being granted in the form of Performance Rights and Restricted Rights (together, Rights).</p> <p>The Company grants Rights under the EIP because they create strong economic alignment between the CEO and Shareholders while providing greater flexibility than Shares.</p> <p>Each Right will vest and become exercisable subject to the satisfaction of underlying conditions measured over a performance period. On exercise, each vested Right generally entitles the CEO to receive one Share in the Company. The Company uses Rights for the LTI award because they align the interests of the CEO and shareholders but do not provide the CEO with the full benefits of share ownership (such as dividend and voting rights) unless the Rights vest and are exercised.</p>
Mix of Performance Rights and Restricted Rights	<p>The offer comprises 50% Performance Rights and 50% Restricted Rights, constituting the CEO's total FY26 LTI opportunity.</p>
Number of Rights	<p>A total of 216,052 Rights will be offered to the CEO in FY26:</p> <ul style="list-style-type: none"> 108,026 Performance Rights; and 108,026 Restricted Rights. <p>The number of Rights has been calculated by dividing his maximum award value of A\$3,584,316 (being 200% of his annual base salary) by A\$16.59 (being the volume-weighted average price of NEXTDC Shares over the 10 trading days following the release of the Company's FY25 audited accounts).</p>
Amount payable for Rights	<p>The LTI award forms part of the CEO's remuneration and, for that reason, no amount will be payable by the CEO on grant, vesting or exercise of the Rights.</p>

Vesting of the CEO's Performance Rights under the relative TSR Hurdle is determined by ranking NEXTDC's TSR over the performance period for the relevant tranche, relative to the TSR of companies in the ASX 100 Accumulation Index (Index). Vesting and exercise of Rights	<p>At the end of the applicable performance period, the Board will determine if and to what extent the performance/vesting conditions have been satisfied and the number of Rights that will vest and become exercisable. Any Rights that do not vest when they are tested will immediately lapse.</p> <p>Upon vesting, the CEO is entitled to exercise the Rights (at no cost). On exercise, the Rights will be settled in Shares or, at the Board's discretion, with an equivalent cash payment. It is intended that vested and exercised Rights would be satisfied mainly in the form of Shares.</p> <p>Any vested Rights that remain on foot and are not exercised within 8 years of the grant date (the expiry date), will be automatically exercised on behalf of the CEO.</p>
Cessation of employment	<p>If the CEO's employment is terminated for cause or the CEO resigns, unvested Rights will lapse, unless the Board determines otherwise.</p> <p>If the CEO ceases employment because of death, total and permanent disability or redundancy, his unvested Rights will continue on-foot and be subject to the original terms as though he had not ceased employment, unless the Board determines otherwise.</p> <p>In any other circumstances, the Board has discretion to determine how the unvested Rights will be treated upon cessation of employment with NEXTDC.</p>
Change of control	<p>In circumstances where there is likely to be a change in the control of NEXTDC, the Board has discretion to determine the level of vesting (if any) having regard to the portion of the performance period elapsed, performance to date against the performance / vesting conditions and any other factors it considers appropriate.</p> <p>If an actual change in the control of NEXTDC occurs before the Board can exercise this discretion, unless the Board determines otherwise, the Gateway Hurdle will be waived, and unvested Rights will vest and become exercisable in proportion to the Company's performance against the TSR Hurdle up to the date of the change of control or on a pro-rata basis where a TSR Hurdle does not apply.</p>
No rights before vesting and exercise	<p>The CEO does not have any dividend or voting entitlements prior to vesting and exercise of the Rights.</p> <p>However, on vesting and exercise of the Rights, the CEO is entitled to receive a dividend equivalent payment in the form of additional Shares which are equivalent to the value of dividends that the CEO would have received between the grant date and vesting date if he had owned Shares. The number of Shares that the CEO will receive will be calculated by dividing the value of dividends which would have been received over that period by the share price on the date of allocation. The Board may alternatively direct to pay this entitlement in cash.</p>
Clawback and malus	<p>The Board has broad discretion under the EIP to lapse, forfeit or clawback unvested and vested LTI awards in certain circumstances to ensure that no inappropriate benefit is obtained by the CEO. These circumstances include where the CEO acts fraudulently or dishonestly; is in material breach of his obligations to NEXTDC; there is a material misstatement in a Group company's accounts; vesting has been triggered by another person's misconduct or where NEXTDC is required or entitled under law or NEXTDC policy to reclaim remuneration from the CEO.</p>
EIP	<p>Subject to the Listing Rules, the Board may amend or waive terms under the EIP or make such adjustments to rights awarded under the Plan as it considers appropriate in order to minimise or eliminate any material advantage or disadvantage to the CEO resulting from a corporate action such as a capital raising or capital reconstruction. The Remuneration Report in the Company's Annual Report for the financial year ended 30 June 2025 contains further details about the EIP.</p>

Growth Incentive Plan

A new industrial age and technological revolution is underway, driven by the rising demand for AI. Capital investment has reached unprecedented historical levels with annual expenditure in the trillions of dollars for the foreseeable future.

Data centres are the foundation for delivering AI-ready infrastructure with capital inflows at record levels. NEXTDC's capital expenditure for FY26 alone is expected to be in the range of \$1.8 billion - \$2.0 billion and a proposed capital partnership for the ~\$15 billion development of S4 and S7 was recently announced.

Unsurprisingly, given the capital outlay and time to build and launch data centres, the ownership of data centres is now increasingly held by private equity and other non-public domestic and international funds and structures.

We have seen Australia become an attractive market with the entry of several new large industry players as well as the ongoing expansion of incumbent players.

The leadership, expertise and talent required to deliver large scale data centre infrastructure in a rapidly growing capital hungry industry is unarguably a rare and critical component for success given the high execution risk.

Under the leadership of NEXTDC's CEO, a highly experienced and world-class senior team with a proven track record has been curated and in place for more than ten years. Further, NEXTDC has been building a strong bench of managers and future leaders.

Over the past two years in particular, the Company's senior leaders and managers have become prime recruitment and poaching targets for new competitors as well as incumbent players. In a number of cases that the Board is aware of, they have been offered multiples of their current remuneration packages.

In the increasingly privately held global data centre market, ASX listed company remuneration norms do not apply nor are they competitive to attract, reward and retain the talent required to deliver on the Company's growth objectives and grow shareholder value.

In the eighteen months leading up to the introduction of the GIP, approximately 12% of our management team had been poached.

The introduction of the Growth Incentive Plan (GIP) to approximately 40 individuals, was necessary because of the large disparity between the remuneration available to NEXTDC's CEO (refer charts below) and senior leadership and management team in the private global data centre markets compared to the domestic ASX listed market.

The Board comprehensively considered a range of alternatives such as options or embedding it into the existing LTIP and concluded that the GIP was the most appropriate structure that clearly aligned pay for performance and shareholder value creation.

Originally the Board had intended to put the GIP forward for consideration at the Company's 2024 Annual General Meeting, however the time required to finalise terms, metrics, tax and legal considerations meant that timing was not practicable.

Given the poaching pressures and risk of further departures, the Board determined that it was in shareholders' best interests to introduce and announce the GIP alongside release of the Company's 2025 half year results on 24 February 2025. While the Board did consider deferring implementation until this year's Annual General Meeting or calling an extraordinary general meeting, neither option was considered tenable giving the relevant timing pressures and need to secure and motivate management. The GIP awards were granted on 15 April 2025, with the terms of award for the CEO requiring that the GIP conditional rights be satisfied by the on-market purchase of shares to the extent that they vest, which does not require shareholder approval.

The Board did not take this decision on the timing for implementation of the GIP lightly and appreciates that some shareholders would have preferred the opportunity to consider the grant of GIP conditional rights to the CEO at the Annual General Meeting this year.

The Board has received shareholder and proxy advisor feedback and has sought to address it. Some additional questions that have been asked include:

Is the GIP working?

Yes, since introduction of the GIP the Company has retained all eligible participants.

The \$150 million face value of the GIP seems excessive. How is it aligned with the shareholder experience?

The GIP is strongly aligned with shareholder value and wealth creation. In so far as has been possible, the GIP has been benchmarked against privately and publicly held peers. The Board believes that the prospective GIP opportunity versus the peer structures is sufficiently competitive to be effective.

To fully vest, NEXTDC's share price would need to increase by 124% (17.5% annual CAGR) to \$30.82. It provides an incentive opportunity that represents only 2.5% - 3% of the increase in shareholder value and less than 1.5% of total market capitalisation, upon full vesting.

At a minimum, NEXTDC's share price would need to increase by 80% (12.5% annual CAGR) to \$24.80 for 40% to vest. If the TSR CAGR is less than 12.5%, then none of the the GIP rights will vest.

What if management 'games' performance to achieve the GIP?

The GIP performance conditions include a behavioural assessment that specifically interrogates how performance was achieved and the financial soundness of the Group. The performance measurement of a TSR CAGR is determined by the market. As testing takes place in February 2030, the Board believes that management's performance and achievement of annual results in line with the Company's business plan and stringent earnings and return hurdles prevent 'gaming' activity.

How will you retain senior employees post GIP?

Participants may only exercise up to 25% off their vested GIP rights each quarter for the 4 quarters immediately following the five-year performance period. Participants will have up to 8 years to exercise their vested GIP rights.

The senior leadership team will also have rolling LTI grants on foot, with tranches tested annually and vesting from three and up to five years after each grant.

Further, the Company is heavily investing in the next generation of future leaders with the GIP covering approximately 40 participants and the introduction of leadership pathways to grow and promote talent.

Appendix C

Rationale for exercise of Board discretion in relation to the four-year tranche of the FY22 LTI Grant (Aug 2021 to Aug 2025)

Performance Rights are subject to 2 vesting conditions:

1. **Gateway hurdle** – Achieving positive total shareholder return over the measurement period. Condition met.
2. **TSR Hurdle** – Relative to the TSR of ASX100 Accumulation Index. Condition not met.

Despite a 32% increase in the value of NEXTDC shares over the measurement period, the ASX100 Accumulation Index increased by 43% over the same period and therefore the TSR hurdle condition was not met.

For most of calendar 2024, NEXTDC's share price performance was tracking above that of the ASX Accumulation Index.

In January 2025 and then March 2025 respectively, the media coverage in relation to DeepSeek's lower cost AI developments and Microsoft's reported pull-back in data centre investment resulted in a significant drop in NEXTDC's share price.

Further downward pressure on the share price was exerted by a significant increase in shorting representing more than 8% of the Company's issued share capital, that continued up until FY25 annual financial results. Despite the strong share price response to the release of the Company's FY25 financial results, short interest presently still sits at around 6% of the Company's issued share capital, resulting in downward pressure on the share price.

The Board considers that these events were outside of management's control and do not reflect the strong operational and financial performance that was demonstrated with the release of FY25 annual financial results. As disclosed in the CEO's letter in the 2025 Annual Report and separately noted by analysts, management has positioned the Company to "*...more than double revenue and EBITDA in the next few years...*"

As set out in the LTIP, Board discretion will generally only be applied when the vesting that would otherwise apply is considered by the Board to be inappropriate, and when it would not align with shareholder returns.

It is the Board's view that on this occasion, it would be inappropriate for management to receive zero vesting for strong performance and where shareholder value has been created. It has therefore approved the vesting of 50% of the four-year tranche of the FY22 LTIP. The accounting impact is an increase to employee benefits expense of approximately \$1million.

As shareholders may be aware, restricted rights for 50% of the LTIP tested over a 3, 4 and 5 year period, were introduced in 2024 in recognition of the necessity to retain key executives, subject to achieving a positive absolute TSR, a behavioural assessment and continued service.

This formed the premise of applying discretion to vest 50% of the tranche.

The Board considered alternative (internal/return) measures, however, concluded that at this stage of the Company's lifecycle, the increasing capital expenditure makes using return measures challenging, whilst needing to balance reward for performance.

The Board has not previously exercised discretion over the LTIP and does not expect this to become an annual practise.

It is satisfied that at this stage, relative TSR remains an appropriate measure for the performance rights moving forward.
