PME signs 5-year, A\$44M contract with Advanced Radiology Management

17th November 2025

HIGHLIGHTS

- **PME signs 5-year, A\$44M contract with Advanced Radiology Management, LLC.**
- **Contract is for Visage 7 Viewer.**
- **Visage 7 platform to be implemented in the cloud.**
- **Transaction-based model with potential upside.**

Leading health imaging company Pro Medicus Limited [ASX: PME] today announced its wholly-owned U.S. subsidiary, Visage Imaging, Inc., has signed a 5-year, A\$44M contract with Advanced Radiology Management, LLC (“Advanced Radiology Management”).

Advanced Radiology Management, a leading private radiology reading group, is synonymous with quality, innovation, and collaboration with a practice culture dedicated to exceptional patient care.

Based on a transactional licensing model, the contract will see the company’s cloud-based Visage 7 Enterprise Imaging Platform (“Visage 7”), including Visage 7 Viewer, implemented across Advanced Radiology Management, providing a single, unified enterprise imaging platform for diagnostic interpretation.

Planning for the rollout is to commence immediately and will be based on Visage’s proven cloud-based implementation process, with Go-Live targeted for late Q2 of the 2026 calendar year.

“Advanced Radiology Management is a highly regarded remote reading radiology group that provides innovative, high-quality patient care,” said Dr Sam Hupert, Pro Medicus CEO. “They join an ever-growing list of Visage 7 clients to opt for our fully cloud-based platform, which, as a result of our CloudPACS strategy, is becoming the standard in the North American healthcare IT market.”

Dr Hupert added, "A shortage of radiologists - expected to worsen in North America and worldwide - has pressured providers to interpret more imaging studies in less time, further exacerbating provider burnout. Private practice groups such as Advanced Radiology Management appreciate our proven ability to increase radiologist efficiency within hours of going live, thereby bringing much-needed relief to the mounting demands radiologists face."

Dr. Hupert continued, "Our pipeline remains strong and spans all market segments, including the private radiology market that continues to grow strongly for us."
