## **LOVISA HOLDINGS LIMITED (LOV) ANNUAL GENERAL MEETING TRADING UPDATE**

In advance of our Annual General Meeting today, we would like to provide an update on the status of the company's store network and current trading conditions.

We continue to maintain our focus on expanding our global store footprint across all markets in which we operate, with 44 net new stores opened for the financial year to date, including 62 new stores opened and 18 closures (including 6 relocations). This has taken the store network to 1,075 stores across more than 50 markets, and we are currently trading from 148 more stores than this time last year.

Global total sales for the first 20 weeks of FY26 were up 26.2% on FY25, benefiting from the continued growth in the store network over the past year, with global comparable store sales up 3.5% on FY25 for this period.
