Chair's Letter

9 December 2025

Dear Shareholder,

L1 Global Long Short Fund Limited (ASX: GLS) – Entitlement Offer

On behalf of the Directors, I am pleased to invite you to participate in a one (1) for one (1) pro rata non-renounceable entitlement offer of new ordinary shares (**New Shares**) at an offer price of \$1.63 per New Share (**Offer Price**), to raise gross proceeds of up to \$415 million (**Entitlement Offer**).

The proceeds of the Entitlement Offer will be invested in accordance with L1 Capital's Global Long Short Strategy which is further described in the Investor Presentation, and as set out in the Notice of Annual General Meeting which was released by the Issuer to the ASX on 29 October 2025.

Details of the Entitlement Offer

Under the Entitlement Offer, Eligible Shareholders (as defined in Section 3.2) are being offered the opportunity to subscribe for one (1) New Share for every one (1) existing ordinary share (**Existing Share**) held on the Record Date of 7.00pm (Sydney time) on Friday, 5 December 2025 (**Entitlements**). The Offer Price of \$1.63 per New Share represents the post-tax NTA per Existing Share as at Friday, 28 November 2025. The New Shares issued under the Entitlement Offer will rank equally with Existing Shares.

Top-Up Facility

As part of the Entitlement Offer, Eligible Shareholders who take up their Entitlement in full may also apply for additional New Shares in excess of their Entitlement (**Additional New Shares**), being those Shares that have not been taken up by Eligible Shareholders in full or in part (**Top-Up Facility**). Any New Shares not applied for by Eligible Shareholders under their Entitlement will be included in the Top-Up Facility.

Applications for Additional New Shares under the Top-Up Facility will be allocated by the Board (in its sole discretion) in consultation with the Joint Lead Managers and will be subject to scale back (where applicable). The Issuer's current intention is to exercise its discretion to facilitate Eligible Shareholders acquiring Additional New Shares up to 50% of their Entitlement. Eligible Shareholders who apply for Additional New Shares of up to 50% of their Entitlement are expected to receive their full allocation, whilst applications for Additional New Shares in excess of 50% of an Eligible Shareholder's Entitlement are expected to be scaled back. However, there is no guarantee that an Eligible Shareholder who applies for Additional New Shares will receive all or any of the Additional New Shares that they applied for.

Eligible Shareholders who participate in the Top-Up Facility will do so without incurring any brokerage costs. Additional New Shares issued under the Top-Up Facility will rank equally with Existing Shares.

Shortfall Offer

In connection with the Entitlement Offer, if there remains any shortfall of New Shares not applied for following the Entitlement Offer (including following the issuance of Additional New Shares under the Top-Up Facility, which will be subject to the discretion of the Board, including with respect to any scale backs), the Board reserves the right to issue all or any of the New Shares to Wholesale Investors under a shortfall facility at their discretion up to the intended maximum number of New Shares (**Shortfall Offer**) (together with the Entitlement Offer, the **Offer**). Any New Shares to be issued under the Shortfall Offer (**Shortfall Shares**) are offered at the Offer Price.

For personal use only

The Issuer undertook a Shortfall Offer bookbuild which attracted strong support from both existing and new Wholesale Investors, as announced to the ASX on 4 December 2025. For further details, refer to the relevant ASX announcement in Section 4 of this Offer Booklet.

Placement

As disclosed to the ASX on Thursday, 4 December 2025, in light of strong demand from the Shortfall Offer bookbuild, the Issuer will undertake an institutional placement at the conclusion of the Entitlement Offer to enable further participation for Wholesale Investors in the Shortfall Offer bookbuild, who will otherwise be subject to scale back (**Placement**). The Placement will be for approximately \$62 million. The Issuer has obtained the agreement of L1 Group Limited (**L1 Group**) to split its cornerstone commitment under the Entitlement Offer so that approximately \$62 million will be the subject of the Placement, with the balance of the commitment forming part of the Shortfall Offer.

The Issuer may seek to upsize the Placement by approximately \$60 million, subject to receipt of an ASX waiver and a final decision by the Issuer.

The Placement is expected to settle on 24 December 2025 along with the New Shares issued under the Entitlement Offer and Shortfall Offer. The Placement will be conducted pursuant to the Issuer's available placement capacity under ASX Listing Rule 7.1 such that no shareholder approval is required. Any Shares issued under the Placement (**Placement Shares**) will rank equally with Existing Shares.

Placement Shares will be offered at the Offer Price, being the post-tax NTA value per Existing Share as at Friday, 28 November 2025. The proceeds from the Placement, together with the Entitlement Offer and Shortfall Offer, will be invested in accordance with L1 Capital's Global Long Short Strategy.

Section 1 Overview of the Entitlement Offer

In this Offer Booklet, references to "you" are to Eligible Shareholders and references to "your Entitlement" or "your Entitlement and Acceptance Form" are references to the Entitlement (or Entitlement and Acceptance Form) of Eligible Shareholders (as defined in Section 3.2).

1.1 Overview

The Issuer intends to raise up to \$415 million under the Entitlement Offer. As part of the Entitlement Offer, Eligible Shareholders (as defined in Section 3.2) are being offered the opportunity to subscribe for one (1) New Share for every one (1) Existing Share held as at 7.00pm (Sydney time) on Friday, 5 December 2025 (**Record Date**), at the Offer Price of \$1.63 per New Share.

The Offer Price has been determined by reference to the post-tax NTA value per Existing Share as at 28 November 2025.

Under the Entitlement Offer, offered Entitlements can be taken up in whole or in part by Eligible Shareholders. Entitlements are non-renounceable and are not tradeable or otherwise transferable.

The Entitlement Offer is not underwritten. Morgans Financial Limited (ACN 010 669 726) and Taylor Collison Limited (ACN 008 172 450) have been appointed as the Joint Lead Arrangers to manage the Entitlement Offer pursuant to an offer management agreement. The Joint Lead Managers comprise the Joint Lead Arrangers and Canaccord Genuity (Australia) Limited (ACN 075 071 466), Ord Minnett Limited (ACN 002 733 048), E&P Capital Pty Limited (ACN 137 980 520) and Shaw and Partners Limited (ACN 003 221 583).

You should read this Offer Booklet carefully before making any decisions in relation to your Entitlement.

Further details on the Entitlement Offer are set out below.

1.2 Entitlement Offer

The Entitlement Offer opens on Tuesday, 9 December 2025 and will close at 5.00pm (Sydney time) on Thursday, 18 December 2025.

The Entitlement Offer is being made pursuant to section 708AA of the Corporations Act (as notionally modified by the *ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84*) and *Australian Securities Investments Commission Corporations (Disregarding Technical Relief) Instrument 2016/73*), which allows rights issues to be offered without a prospectus, provided certain conditions are satisfied. This Offer Booklet does not contain all of the information which may be required in order to make an informed decision regarding an Application for New Shares offered under the Entitlement Offer. As a result, it is important for you to read carefully and understand the information on the Issuer and the Entitlement Offer made publicly available, including the information lodged by the Issuer with ASX as part of its continuous disclosure obligations, prior to deciding whether to take up all or some of your Entitlement or do nothing in respect of your Entitlement. In particular, please refer to this Offer Booklet and other announcements made available at <https://www.asx.com.au> (including announcements which may be made by the Issuer after publication of this Offer Booklet).

Please consult with your stockbroker, accountant or other professional adviser if you have any queries or are uncertain about any aspect of the Entitlement Offer.

Eligible Shareholders should be aware that an investment in the Issuer involves risks. The key risks identified by the Issuer are set out in the "Key Risks" section of the Investor Presentation (enclosed in Section 4 of this Offer Booklet).

Subject to any changes at the Board's discretion, the allocation policy for New Shares subscribed for under the Entitlement Offer will be as follows:

For personal use only

- to any Eligible Shareholders who have taken up all or part of their Entitlements by the closing date of the Entitlement Offer; and
- at the discretion of the Board, to any Eligible Shareholders who have applied for Additional New Shares through the Top-Up Facility by the closing date of the Entitlement Offer.

If any shortfall remains following the Entitlement Offer (including following the issuance of Additional New Shares under the Top-Up Facility, which will be subject to the discretion of the Board, including with respect to any scale backs), the Board reserves the right to issue New Shares under the Shortfall Offer described in Section 1.4 below.

Directors of the Issuer will not be eligible to participate in the Top-Up Facility, Shortfall Offer or Placement in accordance with ASX Listing Rule 10.11.

1.3 Top-Up Facility

The Top-Up Facility will enable Eligible Shareholders that have fully subscribed for their Entitlements under the Entitlement Offer to subscribe for Additional New Shares in excess of their Entitlement. Eligible Shareholders can subscribe for Additional New Shares by following the instructions in Section 3.3(b). No Additional New Shares will be issued to the extent that all Entitlements are taken up in full under the Entitlement Offer.

Eligible Shareholders who apply for Additional New Shares should be aware that:

- there is no guarantee that Eligible Shareholders who subscribe for Additional New Shares will receive all or any of the number of Additional New Shares applied for. The Issuer reserves the sole right to satisfy applications in the Top-Up Facility in its discretion including by applying any scale backs;
- the Issuer's current intention is to exercise its discretion to facilitate Eligible Shareholders acquiring Additional New Shares up to 50% of their Entitlement. Eligible Shareholders who apply for Additional New Shares of up to 50% of their Entitlement are expected to receive their full allocation, whilst applications for Additional New Shares in excess of 50% of an Eligible Shareholder's Entitlement are expected to be scaled back;
- Eligible Shareholders may be allocated a lesser number of Additional New Shares than applied for, or may be allocated no Additional New Shares at all, in which case excess Application Monies will be refunded without interest;
- the Additional New Shares will be offered at the Offer Price and the Top-Up Facility will close on the closing date of the Entitlement Offer;
- the Issuer will not issue Additional New Shares under the Top-Up Facility if the allocation would result in an Eligible Shareholder's voting power in the Issuer increasing from 20% or below to more than 20%, or from a starting point that is above 20% and below 90% in breach of section 606 of the Corporations Act; and
- the Issuer's decision on the number of New Shares and Additional New Shares to be allocated to Eligible Shareholders is final.

The Board reserves the right to alter the allocation policy and to allocate and issue Additional New Shares under the Top-Up Facility at its discretion.

1.4 Shortfall Offer

In connection with the Entitlement Offer, if there remains any shortfall of New Shares following the Entitlement Offer (including following the application of the Top-Up Facility, which as set out above will be subject to the Issuer's sole discretion, including with respect to any scale backs), the Issuer reserves the right to issue all or any of the New Shares under the Shortfall Offer to new and existing

Wholesale Investors at their discretion. The Shortfall Offer will close at 12.00pm on Friday, 19 December 2025.

The Shortfall Shares are offered at the Offer Price. There will be no general public offer of New Shares under the Shortfall Offer.

The Issuer undertook a Shortfall Offer bookbuild which attracted strong support from both existing shareholders and new Wholesale Investors, as announced to the ASX on 4 December 2025. For further details, refer to the relevant ASX announcement in Section 4 of this Offer Booklet.

There is no guarantee that there will be any shortfall available under the Shortfall Offer and that any application in the Shortfall Offer will be successful. The Issuer reserves the right to satisfy applications under the Shortfall Offer in consultation with the Joint Lead Managers, including by applying a scale-back mechanism.

Shortfall Shares issued under the Shortfall Offer will rank equally with Existing Shares (including New Shares issued under the Entitlement Offer and Placement) with effect from their date of issue. Shortfall Shares are expected to be issued on Monday, 29 December 2025.

1.5 Placement

As disclosed to the ASX on Thursday, 4 December 2025, in light of strong demand from the Shortfall Offer bookbuild, the Issuer will undertake a Placement at the conclusion of the Entitlement Offer to enable further participation for Wholesale Investors in the Shortfall Offer bookbuild, who will otherwise be subject to scale back. The Placement will be for approximately \$62 million. The Issuer has obtained the agreement of L1 Group to split its cornerstone commitment under the Entitlement Offer so that approximately \$62 million will be the subject of the Placement, with the balance of the commitment forming part of the Shortfall Offer.

The Issuer may seek to upsize the Placement by approximately \$60 million, subject to receipt of an ASX waiver and a final decision by the Issuer.

The Placement is expected to settle on 24 December 2025 along with the New Shares issued under the Entitlement Offer and Shortfall Offer. The Placement will be conducted pursuant to the Issuer's available placement capacity under ASX Listing Rule 7.1 such that no shareholder approval is required. Placement Shares will rank equally with existing fully paid ordinary shares in the Issuer.

Placement Shares will be offered at the Offer Price, being the post-tax NTA value per Existing Share as at 28 November 2025.¹

1.6 Use of funds

The Issuer proposes to use the proceeds from the Entitlement Offer, Shortfall Offer and Placement by investing the funds raised in accordance with L1 Capital's global long short fund investment strategy (**Global Long Short Strategy**).

As outlined in the Issuer's Notice of Meeting dated 29 October 2025 and approved at the Issuer's annual general meeting held on Friday, 28 November 2025, the Issuer has replaced Platinum with L1 Capital as the investment manager of the Issuer. The Issuer's current portfolio has been monetised and, these proceeds along with the proceeds from the Offer will be redeployed into the Global Long Short Strategy, with this transition expected to occur by approximately 31 December 2025 (subject to market conditions). Further details regarding the Global Long Short Strategy are set out in Section 3 of the Investor Presentation.

¹ Assuming Shareholders take up their full Entitlement.

Section 3 How to participate

3.1 Your Entitlement

Your Entitlement is set out on your personalised Entitlement and Acceptance Form and has been calculated as one (1) New Share for every one (1) Existing Share you held as at the Record Date.

If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have a separate Entitlement for each separate holding.

New Shares issued under the Entitlement Offer will be fully paid and from allotment rank equally in all respects with Existing Shares and will be entitled to dividends and distributions on the same basis as Existing Shares.³

See Section 3.2 and the "Important Notices" section (particularly under the heading 'Foreign jurisdictions') for information on restrictions on participation in the Entitlement Offer.

The Entitlement stated on your personalised Entitlement and Acceptance Form may be in excess of the actual Entitlement you may be permitted to take up where, for example, you are holding Shares on behalf of a person in the United States.

3.2 Who is eligible to participate?

This Offer Booklet is being offered to Eligible Shareholders only.

Eligible Shareholders are persons at 7.00pm (Sydney time) on the Record Date who:

- are registered as a holder of Shares;
- have a registered address on the Issuer's share register in Australia or New Zealand (**Eligible Jurisdictions**);
- are not in the United States and are not acting for the account or benefit of a person in the United States to the extent such persons hold Shares for the account or benefit of persons in the United States; and
- are eligible under all applicable securities laws to receive an offer under the Entitlement Offer.

If a Shareholder (including a nominee or custodian) is acting for the account or benefit of a person in the United States, it may not participate in the Entitlement Offer on behalf of such person.

Shareholders who are not Eligible Shareholders are Ineligible Shareholders. (**Ineligible Shareholders**). The Issuer reserves the right to determine whether a Shareholder is an Eligible Shareholder or an Ineligible Shareholder.

By making a payment by BPAY® (in the case of Eligible Shareholders with a registered address in Australia), or by BPAY® or EFT (in the case of Eligible Shareholders with a registered address in New Zealand), you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

The Issuer has determined, pursuant to ASX Listing Rule 7.7.1(a) and section 9A(3)(a) of the Corporations Act, that it is unreasonable to make offers under the Entitlement Offer to Shareholders who have registered addresses outside Eligible Jurisdictions, having regard to the number of such holders in those places and the number and value of the New Shares that they would be offered,

³ Distributions are declared and paid at the discretion of the Issuer. Neither the Issuer nor L1 Capital provides any representation or warranty in relation to the payment of any future distributions.

and the relevant legal and regulatory requirements in those places, including the cost of complying with the relevant legal and regulatory requirements.

The Issuer may (in its absolute discretion) extend the Entitlement Offer to Shareholders who have registered addresses outside Eligible Jurisdictions (except for Shareholders in the United States) in accordance with applicable law.

3.3 Options available to you

If you are an Eligible Shareholder, you may take any of the following actions. Each of these options may have a materially different outcome on any value you receive in respect of your Entitlement:

- take up your Entitlement in full (see Section 3.3(a)); or
- take up your Entitlement in full and apply for Additional New Shares in connection with the Top-Up Facility (see Section 3.3(b)); or
- take up part of your Entitlement, in which case the balance of your Entitlement would lapse (see Section 3.3(c)); or
- do nothing, in which case your Entitlement will lapse and you will receive no payment or value for your lapsed Entitlement (see Section 3.3(d)).

The Entitlements are non-renounceable and will not be tradeable or otherwise transferable. Shareholders who do not take up their Entitlement in full will not receive any payment or value for any part of their Entitlement they do not take up. Their percentage holding in the Issuer will be diluted.

The Issuer reserves the right to reject any Application that is received after the Entitlement Offer closes. The Entitlement Offer closes at 5.00pm (Sydney time) on Thursday, 18 December 2025 (however, that date may be varied by the Issuer, subject to the Corporations Act, the ASX Listing Rules and other applicable laws, as set out in this Offer Booklet).

(a) Taking up all of your Entitlement

If you wish to take up all of your Entitlement, please pay your Application Monies via BPAY®, if you reside in Australia, or by BPAY® or EFT if you reside in New Zealand, by following the instructions set out on the personalised Entitlement and Acceptance Form, by no later than 5.00pm (Sydney time) on Thursday, 18 December 2025.

If you take up and pay for all your Entitlement before the close of the Entitlement Offer, it is expected that you will be issued New Shares on Monday, 29 December 2025.

(b) Taking up all of your Entitlement and applying for Additional New Shares

Eligible Shareholders may also apply for Additional New Shares, being New Shares in excess of their Entitlement in connection with the Top-Up Facility (refer to Section 1.3).

If you take up all of your Entitlement and wish to apply for Additional New Shares in excess of your Entitlement, see the "Additional New Shares" section in your personalised Entitlement and Acceptance Form and pay your Application Monies for your full Entitlement and your participation in the Top-Up Facility via BPAY®, if you reside in Australia, or by BPAY® or EFT if you reside in New Zealand, by following the instructions set out on the Entitlement and Acceptance Form, by no later than 5.00pm (Sydney time) on Thursday, 18 December 2025.

Please note that Additional New Shares will only be allocated to Eligible Shareholders if and to the extent that the Issuer determines to do so, in its absolute discretion having regard to circumstances as at the time of the close of the Entitlement Offer. The Issuer's current intention is to exercise its discretion to facilitate Eligible Shareholders acquiring Additional New Shares up to 50% of their Entitlement. Eligible Shareholders who apply for Additional New Shares of up to 50% of their

Entitlement are expected to receive their full allocation, whilst applications for Additional New Shares in excess of 50% of an Eligible Shareholder's Entitlement are expected to be scaled back. There is no guarantee that an Eligible Shareholder who applies for Additional New Shares will receive all or any of the Additional New Shares for which they applied.

The Issuer may scale-back any application for Additional New Shares in its absolute discretion, but will not scale-back any Entitlement. In the event of a scale-back, the difference between the Application Monies received, and the number of New Shares allocated to you multiplied by the Offer Price, will be refunded by the Issuer, without interest, following allotment.

(c) **Taking up part of your Entitlement and allowing the balance to lapse**

If you wish to take up some of your Entitlement, please pay your Application Monies via BPAY®, if you reside in Australia, or by BPAY® or EFT if you reside in New Zealand, by following the instructions set out on the personalised Entitlement and Acceptance Form by no later than 5.00pm (Sydney time) on Thursday, 18 December 2025.

If the Issuer receives an amount that is less than the Offer Price multiplied by your Entitlement, your payment may be treated as an Application for as many New Shares as your Application Monies will pay for in full at the Offer Price and the excess amount will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid to you on any Application Monies received or refunded.

If you take up and pay for some of your Entitlement before the close of the Entitlement Offer, it is expected that you will be issued New Shares on Monday, 29 December 2025.

(d) **Allowing your Entitlement to lapse**

If you take no action, you will not be allocated New Shares and your Entitlement will lapse. Entitlements which are not taken up by the Closing Date, being 5.00pm (Sydney time) on Thursday, 18 December 2025 will lapse.

3.4 Payment via BPAY®

Please follow the instructions on the personalised Entitlement and Acceptance Form. You can only make payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. You can also access BPAY® payment instructions online at the following website: <https://events.miraqle.com/gls/>.

Receipts for payment will not be issued. The Issuer will treat you as applying for as many New Shares as your payment will pay for in full at the Offer Price.

Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

Please make sure you use the specific Biller Code and your unique Customer Reference Number (**CRN**) on your personalised Entitlement and Acceptance Form. If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only, use the CRN specific to that holding. If you do not use the correct CRN specific to that holding your Application will not be recognised as valid.

By paying by BPAY®:

- you do not need to submit your personalised Entitlement and Acceptance Form but you are deemed to have made the declarations, representations and warranties on that personalised Entitlement and Acceptance Form and in Section 3.6; and

- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares as is covered in full by your Application Monies.

It is your responsibility to ensure that your BPAY® payment is received by the Share Registry by no later than 5.00pm (Sydney time) on Thursday, 18 December 2025. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment, and you should take this into consideration in the timing of when you make payment.

3.5 Eligible Shareholders in New Zealand

If you are an Eligible Shareholder in New Zealand who does not have an Australian bank account or cannot pay via BPAY®, you can pay by EFT. If paying by EFT, please return your completed Entitlement and Acceptance Form via email to capital.markets.au@cm.mfps.mufg.com. For more information, you should contact the Offer Information Line on 1800 425 578 (within Australia) or +61 1800 425 578 (outside Australia) between 8:30am and 5:30pm (Sydney time), Monday to Friday.

3.6 Representations by acceptance

Making an Application (via payment made through BPAY® or otherwise) constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Offer Booklet and, once paid, cannot be withdrawn.

By making a payment by BPAY® or EFT or otherwise applying to participate, you will be deemed to have represented and warranted to the Issuer on behalf of yourself and each person on whose account you are acting that you are an Eligible Shareholder and you:

Details of Entitlement Offer

The Offer Price is equivalent to the post-tax net tangible asset value per ordinary share in the Company as at 28 November 2025, having regard to the monetisation process undertaken by the Company in respect of its existing portfolio.

The Entitlement Offer is non-renounceable. This means that Eligible Shareholders who do not take up their entitlement to participate in the Entitlement Offer will not be able to transfer or receive any value for those entitlements. Further details will be contained in the Offer Booklet to be dispatched in accordance with the below indicative timetable. Eligible Shareholders are encouraged to read the Offer Booklet in its entirety, in particular, the risk factors, and should seek financial advice if they are uncertain of whether or not to participate.

Cornerstone Commitments and L1 Participation

L1 Group, together with the L1 Capital founders and Co-CIOs, have committed to investing approximately \$90 million alongside L1 Capital's external cornerstone partners' commitment of approximately \$72 million, making the total cornerstone commitment approximately \$162 million.

Use of Proceeds

The Company proposes to use the proceeds from the Offer by investing the funds raised in accordance with L1 Capital's Global Long Short Strategy. Further information in relation to L1 Capital's Global Long Short Strategy can be found at Section 3 of the investor presentation released with this announcement to the ASX on 2 December 2025.

Placement

The Company reserves the right to also conduct an institutional placement concurrently with, or following the close of, the Entitlement Offer, subject to investor demand and in reliance on its placement capacity under ASX Listing Rule 7.1. Key Risks

Key Risks

This section discusses some of the key risks associated with an investment in shares in the Company. The risks set out below are not necessarily listed in order of importance and do not constitute an exhaustive list of all risks involved with an investment in the Company.

Before investing in the Company, you should consider whether this investment is suitable for you. Potential investors should consider publicly available information on the Company (such as that available on the websites of the Company and ASX), carefully consider their personal circumstances (including the possibility that they may lose all or a portion of their investment) and consult their professional advisers before making an investment decision. Additional risks and uncertainties that the Company is unaware of, or that it currently considers to be immaterial, may also become important factors that adversely affect the Company's operating and financial performance. Nothing in this Presentation is financial product advice and this document has been prepared without taking into account your investment objectives or personal circumstances.

You should note that the occurrence or consequences of many of the risks described in this section are partially or completely outside the control of the Company, its directors and management. Further, you should note that this section focuses on the potential key risks and does not purport to list every risk that the Company may have now or in the future. It is also important to note that there can be no guarantee that the Company will achieve its stated objectives or that any forward-looking statements or forecasts contained in this Presentation will be realised or otherwise eventuate. All potential investors should satisfy themselves that they have a sufficient understanding of these matters, including the risks described in this section, and have regard to their own investment objectives, financial circumstances and taxation position.

These risks recognise that, on 28 November 2025, the Company's shareholders voted to authorise the termination of the Company's investment management agreement with Platinum Investment Management Limited and the entry into a new investment management agreement with L1 Capital Pty Ltd (ACN 125 378 145) (**L1 Capital**) (**L1 Capital IMA**) which intends to invest the Company's portfolio (the **Portfolio**) in a global long short investment strategy (**Global Long Short Strategy**). As at the date of this Presentation, L1 Capital is the investment manager of the Portfolio.

Risks relating to the investment strategy and L1 Capital as investment manager

Management Risk	The success and profitability of the Company in part depends upon the ability of L1 Capital to make investments that increase in value over time. The Company's performance depends on L1 Capital's expertise and investment decisions. Its opinion about the intrinsic worth of a company or security may be incorrect, the investment objective may not be achieved and the market may continue to undervalue the securities held by the Company. L1 Capital's performance is largely dependent on the skills and efforts of its investment team. There can be no guarantee that L1 Capital will be able to retain its investment team or that L1 Capital will be able to attract and retain management personnel of sufficient experience and expertise. Should L1 Capital become unable to perform investment management services for the Company or should there be significant changes in key personnel, investment activities may be disrupted and its performance negatively impacted.
Risks associated with the Company's structure	The Company is exposed to certain other risks specific to its structure as a listed investment company. These include: <ul style="list-style-type: none">Discount to net tangible assets (NTA): All listed investment companies are exposed to the risk that their shares do not trade in line with the underlying value of their assets. NTA discounts (where shares trade below their underlying asset value) are influenced by many factors including market sentiment, investment manager performance and market capitalisation.Liquidity risk: The ability of a shareholder to sell shares on the ASX will be a function of the turnover or liquidity of shares at the time of sale. Turnover is a function of a wide variety of factors including size of a company and the cumulative investment intentions of all current and possible investors in the Company at any one point in time. There is a risk that the Shares may become illiquid, which may result in a loss to a shareholder if they need to sell their Shares at a particular time.
Key person risk	The Company has no right to terminate the L1 Capital IMA in the event of a change of control of L1 Capital or in the event of a material change to the composition of the investment committee or the investment team, including, for the avoidance of doubt, Raphael Lamm or Mark Landau. L1 Capital will seek to mitigate this risk by ensuring that the depth of experience across the investment team is such that the departure of one or more of the portfolio managers, including the aforementioned individuals, does not impact its ability to manage the Portfolio or implement the Global Long Short Strategy.
Regulatory compliance risk	In order to ensure compliance with the constitution of the Company, the Corporations Act, ASIC policy and the ASX Listing Rules, L1 Capital has an established regulatory compliance and governance framework. L1 Capital monitors compliance with existing regulations, the political and regulatory environment and its adherence to internal processes. From time to time, L1 Capital may become subject to regulatory investigations. The inherent uncertainty of the investigative processes may have an effect on its operational or financial position, through demands on management time and increased costs. Such investigations may result in administrative actions or legal proceedings against L1 Capital or its key persons. Such actions or proceedings, if successful, could attract fines and civil and criminal liability and amendments or cancellation of its AFSL. There is also the risk that its reputation may suffer due to the profile of, and public scrutiny surrounding, any regulatory investigation, regardless of the outcome. Any of the actions or investigations described above may have a negative impact on the Company.

Key Risks (continued)

For personal use only

Distribution Risk	The Company's ability to pay dividends is contingent on there being sufficient income from the Portfolio. There is no guarantee that the future earnings of the Company will be adequate to allow it to pay dividends to shareholders. L1 Capital may make poor investment decisions which may result in the Company's returns being inadequate to pay dividends to shareholders.
Under-utilisation risk	There is no guarantee that L1 Capital will find sufficient investments for the Company at suitable returns or fully deploy the capital available to the Company or the Portfolio in order to achieve its investment objectives. An inability to invest in opportunities which are consistent with the Global Long Short Strategy is likely to have an adverse impact on the Company and the value of Shares.
Cyber risk	L1 Capital's information and technology systems, or those of its suppliers or other counterparties, may be vulnerable to damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorised persons and security breaches, usage errors, power outages and catastrophic events. If these systems are compromised, become inoperable for extended periods of time or cease to function properly, L1 Capital and/or the Company may have to make a significant investment to fix or replace them. The failure of these systems and/or of disaster recovery plans for any reason could cause significant interruptions in L1 Capital's and/or the Company's operations and result in a failure to maintain the security, confidentiality or privacy of sensitive data, including personal information relating to shareholders.
Service provider risk	Key operational functions of the Company will be outsourced including investment management (to L1 Capital), custody, administration and valuation to a number of third party service providers. There is a risk that third party service providers may intentionally or unintentionally breach their obligations to the Company or provide services below standards which are expected causing loss to the Company.
Investment Strategy Risk	<p>There are risks inherent in the Global Long Short Strategy employed by L1 Capital as investment manager of the Company's Portfolio. The performance of the Company and the Portfolio could be affected by the following:</p> <ul style="list-style-type: none"> • Manager risk: Performance depends on the expertise and investment decisions of L1 Capital. L1 Capital's opinion about the intrinsic worth of a company or security may be incorrect, investment objectives may not be achieved, and the market may continue to undervalue the relevant securities. • Market risk: Security prices may decline over short or extended periods due to general market conditions, including but not limited to, inflation, foreign currency fluctuations and interest rates. • Portfolio asset risk: Investments in equity and equity related securities generally have greater price volatility risk than debt securities. The value of securities may decline because of the quality of a company's management, financial condition, operations and the general health of the sector in which the company operates. Share markets can experience exceptionally high levels of volatility affecting the value of the securities traded in those markets. • Derivative risk: the Company may invest in exchange traded derivatives and over-the-counter derivatives, including options, futures, swaps, and currency instruments (collectively, Derivatives). Use of Derivatives may be applied for risk management or to enhance returns. Derivative positions may not always move in line with underlying assets and can create effective leverage, increasing volatility and potential losses beyond the initial investment. • Short selling risk: short selling involves selling borrowed securities with the intention of buying them back later at a lower price. While this may help manage risk or enhance returns, it can also amplify losses if prices rise. The Company's use of short selling may increase portfolio volatility and collateral requirements and the Company could potentially be forced to close positions at unfavourable times. • Currency risk: Investing in assets denominated in a currency other than Australian dollars may cause losses resulting from exchange rate fluctuations. L1 Capital may choose not to hedge or any hedging strategies employed may not be successful. • Foreign issuer risk: Investments in foreign companies may decline in value because of sovereign, political, economic or market instability; the absence of accurate information about the companies; and/or risks of unfavourable government actions such as expropriation and nationalisation. Such securities may be less liquid, more volatile, and harder to value. In times of market disruptions (including but not limited to market closures), security prices may be delayed or unavailable. Some countries may have different legal systems, taxation regimes, auditing and accounting standards with less governmental regulation and transparency. These risks may be higher when investing in emerging markets. • Liquidity risk: It may not be possible to purchase or sell a security in a timely manner or at a desired price or achieve its desired weighting in a security. • Counterparty risk: This is the risk of loss resulting from a counterparty not meeting its obligations due to a dispute over terms, or the insolvency, financial distress or bankruptcy of a counterparty selected by L1 Capital. • Global pandemic risk: Health pandemics could significantly affect the industries in which, as well as the normal operations of financial markets and the operation of L1 Capital, the Company and its service providers and counterparties. • General regulatory and tax risk: This is the risk that a government or regulator may introduce regulatory and/or tax changes, or a court makes a decision regarding the interpretation of the law, which affects the value of assets held or the tax treatment of the Company or investments in the Portfolio. • Performance fee risk: L1 Capital receives compensation based on performance. Performance fees may create an incentive for L1 Capital to make more speculative or higher risk investments than might otherwise be the case. • Conflicts of interest: Failure to deal appropriately with actual, potential or perceived conflicts of interest could damage, the Company's and L1 Capital's reputation and materially adversely affect its business. It is possible that actual, potential or perceived conflicts could give rise to client dissatisfaction, litigation or regulatory enforcement actions. Appropriately identifying and managing actual or perceived conflicts of interest is complex and difficult, and the reputation of the Company and L1 Capital could be damaged or could be subject to regulatory scrutiny or litigation if it fails or appears to fail to deal appropriately with one or more actual or perceived conflicts of interest.

Key Risks (continued)

Investment Strategy Risk (continued)	<ul style="list-style-type: none"> Use of leverage and associated risk: L1 Capital may employ leverage to enhance returns, which can increase Portfolio volatility. Leverage, including through derivatives or short selling, can magnify both gains and losses and may require positions to be closed at a loss or at times not of L1 Capital's choosing. Borrowing risk: the Company may finance certain investment activities with secured and unsecured borrowing. There is no assurance that the Company will be able to obtain borrowing or do so on terms that it deems acceptable. Furthermore, there is no assurance that counterparties will continue to extend borrowing to the Company. The inability to obtain borrowing or loss of existing lines of credit may adversely impact the performance of the Company. Like other forms of leverage, the use of borrowing can enhance the risk of capital loss in the event of adverse changes in the level of market prices of the assets being financed with the borrowings. Prime broker risk: The Company will rely on prime brokers and other third-party service providers for functions including custody, execution, administration, and valuation. These arrangements introduce counterparty and operational risks if providers fail to perform, breach obligations, or provide substandard services. Assets under custody could be rehypothecated by the prime brokers. Net exposure: The Portfolio may have a maximum net exposure (long positions minus short positions) of 150% of net asset value (NAV) and a maximum gross exposure (total of long and short positions) of 350%. This is a meaningful leverage strategy which seeks potentially higher but more volatile returns. Credit risk: Credit risk refers to a risk of loss arising from the failure of a borrower or other party to a contract to meet its obligations. This may arise in derivatives, fixed interest securities, loans and cash deposits. Entry into transactions, such as derivatives and short selling, may also give rise to counterparty risk. In addition, the Company may deposit cash with its counterparties for purposes that may include acting as security for its performance under a swap or similar contract or providing an offset to the cost of a swap contract. Substantial losses could be incurred if a counterparty fails to deliver on its contractual obligations, or experiences financial difficulties. Concentration risk: The Company may invest a portion of its assets in only a very few trading strategies or a relatively small number of securities. This lack of diversification may subject the Company to more rapid changes in value than would otherwise be the case if the assets were more widely diversified. Uncertain Legal and Regulatory Environment: The laws and regulations affecting western investment and business continue to evolve in an unpredictable manner in certain foreign markets. Laws and regulations applicable to the Company's activities, particularly those involving taxation, currency regulation, foreign investment and trade and transfer of title to securities and other property, are relatively new and can change quickly and unpredictably. Although basic commercial laws are in place, in many foreign market economies they are often unclear and untested and subject to varying interpretation, and may at any time be amended, modified, repealed or replaced in a manner adverse to the interests of the Company. Equity Securities: Equity securities fluctuate in value in response to many factors, including the activities and financial condition of individual companies, the business market in which individual companies compete and industry market conditions and general economic environments. Small and Medium Capitalisation Companies: The Company may invest a portion of its assets in the securities of companies with small to medium-sized market capitalizations. While such companies often provide significant potential for appreciation, those stocks, particularly small-capitalization stocks, involve higher risks in some respects than do investments in securities of larger companies. In addition, due to thin trading in the securities of some small-capitalization companies, an investment in those companies may be illiquid. Convertible Securities Risk: The Company may invest in convertible securities. The market value of a convertible security performs like that of a regular debt security; that is, if market interest rates rise, the value of a convertible security usually falls. In addition, convertible securities are subject to the risk that the issuer will not be able to pay interest or dividends when due, and their market value may change based on changes in the issuer's credit rating or the market's perception of the issuer's creditworthiness. Since it derives a portion of its value from the common stock into which it may be converted, a convertible security is also subject to the same types of market and issuer risks that apply to the underlying common stock. Debt Securities Risk: The Company may invest in debt securities. Debt securities, such as bonds, involve interest rate risk, credit risk, extension risk, and prepayment risk, among other things.
Collateral Risk	<p>The Company will use the services of a prime broker to facilitate the lending of securities to short-sell and enter into derivatives arrangements that require it to deliver collateral or other credit support to the derivatives counterparty. As such, the Company may be exposed to certain risks in respect of that collateral including that the Company will be required to post initial margin/collateral to the counterparty in the form of cash. The Portfolio will need to have sufficient liquid assets to satisfy this obligation. Furthermore, if the value of short positions or derivatives move against it, be required to post variation margin/collateral with the counterparty on an ongoing basis. The Portfolio will need to have sufficient liquid assets to satisfy such calls, and in the event it fails to do so, the counterparty may have a right to terminate such arrangements and the Company may be subject to the credit risk of the counterparty. In the event the counterparty becomes insolvent at a time it holds margin/collateral posted with it by the Company, the Company will be an unsecured creditor and will rank behind other secured creditors. In the event of insolvency of any of the custodian or the prime broker, the Company may not be able to recover the entire value of the relevant securities.</p>
Diversification Risk	<p>If the Company's Portfolio is concentrated in a small number of investments, the Portfolio will be subject to a greater level of volatility. Also, the use of a single investment manager applying generally similar trading programs could mean lack of diversification and, consequentially, higher risk.</p>

Key Risks (continued)

Risks relating to the Offer

Not underwritten	The Offer is not underwritten. This means that there is no certainty that the Company will raise the amount of capital which it is seeking.
Non-renounceable entitlements	Entitlements are non-renounceable and will not be tradeable on ASX or otherwise transferable. Accordingly, if you do not take up your Entitlement, you will not receive any value for these entitlements.
Dilution	On completion of the Entitlement Offer, the Company will issue Shares. As a result, the total number of Shares on issue will increase and if shareholders do not take up their Entitlement, their percentage shareholding in the Company will decrease. Before deciding whether to take up Shares under the Entitlement Offer, you should seek independent advice.

General investment risks

For personal use only

Economic and market risk	The Portfolio will be exposed to economic and market risk as its value can fluctuate as a result of economic and market conditions, including factors such as interest rates, regulations, sentiment and geopolitical events, as well as environmental, social and technological changes. Economic factors that may affect the investment returns of the Company include movements in interest rates, exchange rates, securities markets, inflation, consumer spending, employment and the performance of individual local, state, national and international economies. A general economic downturn may have a significant negative impact on the price of the Company's shares. In addition, exogenous shocks, natural disasters and acts of terrorism and financial market turmoil (such as the global financial crisis) can add to equity market volatility as well as impact directly on individual entities. As a result, no guarantee can be given in respect of the future earnings of the Company or the earnings and capital appreciation of the Portfolio or appreciation of the price of the Company's shares. Security markets also tend to move in cycles, and individual security prices may fluctuate and underperform other asset classes over extended periods of time.
Economic conditions and global issues	The economies in jurisdictions where the Company has positions may differ favourably or unfavourably from the economies of other developed countries. Examples include: growth of gross domestic product; rate of inflation; currency depreciation; capital reinvestment; resource self-sufficiency; and balance of payments position. The Company may have exposure to emerging markets (developing economies with some market accessibility) or frontier markets (less developed economies with limited market accessibility) where economies can involve greater risk than is customarily associated with larger or established economies. This can result in such positions being more susceptible to loss. As with any jurisdiction, there is the possibility of political changes, government regulation, social instability or diplomatic developments (including war) which could affect adversely the value of the Portfolio.
Market Liquidity	The trading price of listed shares can change, due to many factors including performance and matters inherent to the investment performance of the positions. This could be due to external factors such as market sentiment, or a range of other factors including the presence of larger buying or selling interest in the Company's shares. Securities on the ASX may be thinly or heavily traded, and can be very volatile, irrespective of any change in the underlying value of the positions in the Company. Shareholders should expect that for periods of time, the Company's shares may trade below the stated underlying NTA. There can be no guarantee that the number of buyers at any point in time in the market will match or exceed the number of sellers, or that shareholders will be able to sell for a price which they or the Company believe fairly reflects the value of their shares.
Changes in taxation and accounting standards	Changes in general taxation law and, in particular, income tax, GST or stamp duty legislation, case law in Australia, rulings and determinations issued by the Australian Commissioner of Taxation or other practices of tax authorities, may adversely affect the Company's returns. Any changes to the tax regime applicable to the Company may adversely affect the tax treatment of distributions in the hands of investors. Tax considerations may differ between investors. Therefore, investors are encouraged to seek professional tax advice in connection with any investments in the Company's shares. There are particular taxation rules that apply to offshore investors. Offshore investors should obtain their own taxation advice in relation to those rules.

The Issuer will apply to ASX for official quotation of the New Shares, in accordance with the ASX Listing Rules requirements. If ASX does not grant such quotation, the Issuer will repay all Application Monies (without interest).

It is expected that allotment of the New Shares under the Entitlement Offer and Shortfall Offer will take place on Monday, 29 December 2025. Subject to approval being granted, it is expected that normal trading of New Shares allotted under the Entitlement Offer and Shortfall Offer will commence at 10.00am (Sydney time) on Tuesday, 30 December 2025. Application Monies will be held by the Issuer on trust for applicants until the New Shares are allotted. No interest will be paid on Application Monies.

It is the responsibility of applicants to determine the number of New Shares allotted and issued to them prior to trading in such shares. The sale by an applicant of New Shares prior to receiving their holding statement is at the applicant's own risk.

5.6 Continuous disclosure

The Issuer is a 'disclosing entity' under the Corporations Act and is subject to regular reporting and disclosure obligations under the Corporations Act and the ASX Listing Rules, including the preparation of annual reports and half yearly reports. The Issuer is required to notify the ASX of information about specific events and matters as they arise for the purposes of the ASX making that information available to the stock markets conducted by the ASX. In particular, The Issuer has an obligation under the ASX Listing Rules (subject to certain exceptions) to notify the ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of its securities. That information is available to the public from the ASX and can be accessed at <https://www.asx.com.au>.

Some documents are required to be lodged with ASIC in relation to the Issuer. These documents may be obtained from, or inspected at, an ASIC office.

5.7 Offer management agreement

The Issuer and L1 Capital have entered into an offer management agreement with the Joint Lead Arrangers and Joint Lead Managers, as amended from time to time (**Offer Management Agreement**), under which the Joint Lead Managers have agreed to manage the Entitlement Offer and the Shortfall Offer, and have consented to the Issuer undertaking the Placement, subject to the terms and conditions of the Offer Management Agreement. The obligations of the Joint Lead Arrangers and Joint Lead Managers are subject to the satisfaction of certain terms and conditions which are customary for an Offer Management Agreement of this type, including conditions

precedent, representations, warranties, indemnities and undertakings in favour of the Joint Lead Arrangers and Joint Lead Managers.

The Joint Lead Arrangers and Joint Lead Managers are entitled to terminate the Offer Management Agreement, subject to certain conditions, upon the occurrence of a number of customary events. This entitlement is set out in further detail in the "Offer Management Agreement Summary" at Appendix II of the Investor Presentation (see Section 4 of this Offer Booklet).

L1 Capital has agreed to pay fees to the Joint Lead Arrangers and Joint Lead Managers, in accordance with the terms of the Offer Management Agreement. The estimated aggregate fees payable by L1 Capital under the Offer Management Agreement is expected to be approximately \$8 million.

The actual amount of fees payable to the Joint Lead Arrangers and Joint Lead Managers will not be known until the completion of the Entitlement Offer and Shortfall Offer, and will comprise the following (in each case excluding any New Shares allocated and issued to L1 Capital and L1 Capital's external cornerstone partners under the Shortfall Offer):

- a lead arranger fee of 0.20% (excluding GST) of the aggregate value of the New Shares issued to Wholesale Investors under the Shortfall Offer, payable to the Joint Lead Arrangers in equal proportions;
- a selling fee of 1.50% (excluding GST) of the aggregate value of the New Shares allocated to the respective Joint Lead Manager under the Shortfall Offer and issued to Wholesale Investors, payable to that Joint Lead Manager;
- a selling fee premium of 0.25% (excluding GST) the aggregate value of the New Shares allocated to the respective Joint Lead Manager under the Shortfall Offer for Wholesale Investors on bids received by 5.00pm (Sydney time) on 3 December 2025, payable to that Joint Lead Manager; and
- a management fee of 1.00% (excluding GST) of the aggregate value of the New Shares issued to Wholesale Investors to that Joint Lead Arranger, payable to that Joint Lead Manager.

In addition, L1 Capital will pay for all reasonable expenses in connection with the Offer Management Agreement, the offer documents or the Offer, including reasonable legal fees, marketing or travel fees.

The Appendix 3B released to the ASX on 2 December 2025 also includes details of fees payable in connection with the Entitlement Offer and Shortfall Offer.

Please see the ASX announcements and Investor Presentation (in particular, the "Offer Management Agreement Summary" section of the Investor Presentation) set out in Section 4 for further details about the Offer Management Agreement.

5.8 Effect on capital structure

The proposed capital structure of the Issuer following the issue of the Shares in connection with the Entitlement Offer, Shortfall Offer and Placement will be as follows:

Event	Shares
Shares on issue as at the date of this Offer Booklet	254,506,420
Shares to be issued under the Entitlement Offer and/or Shortfall Offer	254,506,420

Event	Shares
Shares to be issued under the Placement*	38,175,963
Total Shares on issue on completion of Entitlement Offer, Shortfall Offer and Placement*	547,188,803

* These numbers assume that the Placement is not subject to an upsize for the purposes of ASX Listing Rule 7.1. If the Placement is subject to such an upsize, and the Issuer determines to proceed with an upsized Placement, it is expected that approximately 76,351,926 Placement Shares would be issued, and the total Shares on issue on completion of the Entitlement Offer, Shortfall Offer and Placement would be approximately 585,364,766. For further details, please refer to Section 1.5 of this Offer Booklet.

The final number of Shares to be issued under the Entitlement Offer, Shortfall Offer and Placement is subject to reconciliation and rounding.

The above table provides a pro-forma capital structure of the Issuer after completion of the Entitlement Offer, Shortfall Offer and Placement assuming:

- no other Shares are issued by the Issuer between the announcement of the Entitlement Offer and the Closing Date; and
- the Entitlement Offer is fully subscribed, or to the extent it is not fully subscribed, firm commitments under the Shortfall Offer are subject to allocations such that the maximum number of New Shares to be issued under the Entitlement Offer are issued.

5.9 Directors' interests

The relevant interest of each of the Directors in Securities of the Issuer as at the date of this Offer Booklet, together with their Entitlement under the Entitlement Offer are set out below:

Name	Existing Shares	% Interest ³	Entitlement (New Shares)
Rachel Grimes AM	30,000	0.01%	30,000
Douglas Farrell	19,108 ¹	0.01%	19,108
David Gray	150,000	0.06%	150,000
Joanne Jefferies	Nil	Nil	Nil
Katrina Glendinning	6,280 ²	0.00%	6,280

Notes:

1. By way of a beneficial interest in shares held by Farlie Pty Ltd A/C Henley Property Trust (Family Trust).
2. By way of a beneficial interest in shares held by KDEEDS Pty Ltd.
3. Percentage interest has been rounded to 2 decimal places.

As at the date of this Offer Booklet, it is the intention of the Directors to take up all of their Entitlement under the Entitlement Offer.

Directors of the Issuer will not be eligible to participate in the Top-Up Facility, Shortfall Offer or Placement in accordance with ASX Listing Rule 10.11.

5.10 Control implications

(a) Summary

The potential effect of the issue of the New Shares under the Offer on the control of the Issuer will depend on a number of factors, including the extent to which Eligible Shareholders take up their Entitlements under the Entitlement Offer. In the likely event that some Eligible Shareholders do not take up their full Entitlement under the Entitlement Offer, or in the case of shareholders who are not Eligible Shareholders, those shareholders' percentage holdings in the Issuer will be diluted by

those other Eligible Shareholders who take up some or all of their Entitlement, by Eligible Shareholders who apply under and to whom New Shares are allocated under the Top-Up Facility, and by Wholesale Investors who subscribe for New Shares under the Shortfall Offer. However, it is not anticipated that the Offer will have a significant effect on the control of the Issuer, particularly in light of the strong demand received during the Shortfall Offer bookbuild, as announced to the ASX on 4 December 2025.

(b) **L1 Participation**

L1 Group, together with the L1 Capital founders and Co-CIOs, have committed to investing approximately \$90 million in the Issuer alongside L1 Capital's external cornerstone partners. As announced to the ASX on 4 December 2025, the Issuer has obtained the agreement of L1 Group to split its cornerstone commitment so that approximately \$62 million will be the subject of the Placement, with the balance of the commitment forming part of the Shortfall Offer. If the Placement is subject to an upsize, as further described in Section 1.5 of this Offer Booklet, it is expected that the full \$90 million which has been committed by L1 Group, alongside the L1 Capital founders and Co-CIOs, would be the subject of such upsized Placement.

L1 Group (via certain of its subsidiaries) has a substantial holding in the Issuer of 14.24% through First Maven Pty Ltd (ACN 125 379 062), which is expected to increase to approximately 15.59% if the Entitlement Offer is fully subscribed and if the number of Placement Shares to be issued under the Placement, as described further above in Section 5.8, are issued.⁵

For the avoidance of doubt, in circumstances where the Entitlement Offer is not fully subscribed, L1 Group's relevant interest will not exceed 20% and therefore an amount less than \$90 million will be committed.

5.11 Reconciliation

The Entitlement Offer is a complex process and in some instances investors may believe that they owned more Shares than they ultimately were recorded as holding as at the Record Date or are otherwise entitled to more New Shares than initially offered to them. This may result in a need for reconciliation to ensure all Eligible Shareholders have the opportunity to receive their full Entitlement.

The Issuer may need to issue a small quantity of additional New Shares to ensure all Eligible Shareholders have the opportunity to receive their appropriate allocation of New Shares. The price at which these New Shares would be issued, if required, is the same as the Offer Price.

The Issuer also reserves the right to reduce the size of Entitlements or the number of New Shares allocated to Eligible Shareholders, or persons claiming to be Eligible Shareholders or other applicable investors, if the Issuer believes in its absolute discretion that their claims are overstated or if they or their nominees fail to provide information requested to substantiate their claims, or if they are not Eligible Shareholders.

5.12 Privacy

As a Shareholder, the Issuer and the Issuer's share registry (**Share Registry**) have already collected certain personal information (which includes your name, mailing address, details of your shareholding, number of Entitlement grants, and bank account details) from you. If you apply for New Shares, the Issuer and the Share Registry may update that personal information or collect additional personal information for the purposes of:

⁵ This assumes that the Placement is not subject to an upsize, as further described in Section 1.5 of this Offer Booklet. If the Placement is subject to an upsize, and the Entitlement Offer was fully subscribed, L1 Group (via certain of its subsidiaries) would be slightly diluted and its relevant interest would reduce.

For personal use only

This Entitlement Offer is a rights issue in accordance with the Corporations Act, and the Issuer is required to collect personal information about you under the Corporations Act and Australian taxation laws as part of this offer. If you do not provide your personal information, the Issuer may be hindered in, or prevented from, processing your Application. The Issuer and the Share Registry may disclose this personal information for these purposes, or as required or authorised by law, to its subsidiaries and relevant organisations involved in providing, managing or administering your product or service such as third party suppliers, other organisations, loyalty and affinity partners, printers, posting services, call centres, and the Issuer's advisers.

Some of the personal information that the Issuer receives about you may be collected by the Issuer from the Share Registry or from a broker or third party if you have listed such a party as your contact. You can find details about the location of some of these recipients in the L1 Capital's Privacy Policy. Section 6 Australian taxation considerations

6.1 General

Set out below is a general summary of the Australian income tax, goods and services tax (**GST**) and stamp duty implications associated with the subscription of New Shares for certain Eligible Shareholders.

This summary is general in nature and does not take account of the individual circumstances, financial objectives, tax positions, or investment needs of particular Eligible Shareholders and does not constitute tax advice. The tax implications associated with subscribing for New Shares will vary depending on your particular circumstances. Neither the Issuer nor any of its officers or employees, nor its taxation or other advisers, accepts any liability or responsibility in respect of any statement concerning taxation consequences, or in respect of the taxation consequences.

This taxation summary does not constitute financial product advice as defined in the Corporations Act. This summary is confined to taxation issues and is only one of the matters you need to consider when making a decision about your investments.

You should consult your own professional tax adviser regarding the consequences of subscribing to New Shares to you in light of your particular circumstances.

The information provided below is not applicable to all Eligible Shareholders. This tax summary deals only with the Australian taxation implications associated with subscribing for the New Shares if you:

- are a resident for Australian income tax purposes; and
- hold your Shares on capital account.

This summary will not apply to you if you:

- are not a resident for Australian income tax purposes;
- hold your Shares on 'revenue account' or as 'trading stock' (as defined in the *Income Tax Assessment Act 1997* (Cth) (the **1997 Act**), such as share trading entities or entities who acquired their Shares for the purposes of resale at a profit);
- may be subject to special tax rules, such as partnerships, tax exempt organisations, insurance companies, non-complying superannuation funds, temporary residents, dealers in securities or Shareholders who change their tax residency while holding their Shares;
- acquired the Shares in respect of which the Entitlements are issued under any employee share scheme or where the New Shares are acquired pursuant to any employee share scheme, and where those shares remain subject to deferred taxation under Division 83A of the 1997 Act (other than where those Shares are no longer subject to any relevant employee share scheme rules); and/or
- are subject to the taxation of financial arrangement rules in Division 230 of the 1997 Act in relation to gains and losses on your Shares.

This summary is based on the provisions of the *Income Tax Assessment Act 1936* (Cth) and the 1997 Act as at the date of this Offer Booklet. The summary does not take into account or anticipate changes in Australian tax law or future judicial interpretations of law after this time unless otherwise specified. The laws are complex and subject to change periodically, as is their interpretation by the courts and the tax authorities. The summary also does not take into account tax legislation of any country other than Australia.

6.2 Issue of Entitlements

The issue of the Entitlements should not, of itself, result in any amount being included in your assessable income, on the basis that the Entitlements should satisfy the requirements in section 59-40 of the ITAA 1997 and should therefore be treated as non-assessable non-exempt income.

6.3 Exercise of Entitlements

You should not derive any assessable income, or make any capital gain or loss, if you take up (i.e. exercise) all or some of your Entitlements and you acquire New Shares.

The cost base (and reduced cost base) for capital gains tax (**CGT**) purposes of each New Share should include the Offer Price for those New Shares plus certain non-deductible incidental costs you incur in acquiring them.

For CGT purposes, the date that the New Shares should be treated as having been acquired is the date of exercising the Entitlement.

6.4 Entitlements not taken up

Any Entitlements not taken up under the Entitlement Offer will lapse and the Eligible Shareholder will not receive any consideration. In these circumstances, there should not be any tax implications for an Eligible Shareholder from the lapse of all or some of their Entitlements.

6.5 Dividends on New Shares

Generally speaking, future dividends paid or other distributions made in respect of New Shares should be subject to the same tax issues as dividends paid or other distributions made on Existing Shares held in the same circumstances, including:

- for Eligible Shareholders to be eligible for a tax offset in relation to any franking credits attached to a dividend paid by the Issuer on the New Shares they will need to hold the New Shares at risk for at least 45 days, not counting the day of acquisition or disposal (referred to as the holding period rule). The holding period rule generally only needs to be satisfied once for the New Shares and will begin to apply (in respect of the New Shares) the day after the day on which the Eligible Shareholder acquires the New Shares. This rule does not apply if the Eligible Shareholder is an individual whose total franking credit entitlement for the year of income in which the dividend is received does not exceed \$5,000; and
- provided that the Issuer continues to be a 'listed investment company' as defined in section 115-290 of the ITAA 1997, if part or all of a dividend is sourced from a LIC capital gain (defined in section 115-285), certain Eligible Shareholders such as individuals, trusts and complying superannuation entities may be able to claim the applicable capital gains discount in the same way as if they made the capital gain in relation to the underlying investment directly.

6.6 Disposal of New Shares

A disposal of a New Share will trigger a CGT event A1.

Broadly, you will:

- make a 'capital gain' if the capital proceeds received from the disposal exceed the cost base of the New Share;
- make a 'capital loss' if the capital proceeds from the disposal are less than the reduced cost base of the New Share.

The cost base of New Shares is described above in Section 6.3.

Generally, Eligible Shareholders who are individuals, trustees or complying superannuation entities that have held the New Shares for at least 12 months at the time of disposal (not including the date of acquisition or disposal) should be entitled to apply the applicable CGT discount to reduce the capital gain (after offsetting any available capital losses and subject to certain integrity rules).

The applicable CGT discount is 50% for individuals and trusts, or 33½% for Australian complying superannuation entities. The CGT discount is not available for companies.

Based on the acquisition date of the New Shares (as described in Section 6.3 above), in order to be eligible for the CGT discount on the disposal of a New Share, the New Share must be held for at least 12 months after the date that you exercised your Entitlement.

As the rules relating to discount capital gains for trusts are complex, the Issuer recommends that trustees seek their own independent advice on how the CGT discount provisions will apply to them and the trusts' beneficiaries.

If you make a capital loss, you can only use that loss to offset capital gains from other sources; i.e. the capital loss cannot be used against assessable income on revenue account. However, if the capital loss cannot be used in a particular income year it can be carried forward to reduce capital gains you derive in future income years. Specific capital loss recoupment rules apply to companies to restrict their ability to utilise capital losses in future years in some circumstances.

6.7 Provision of TFN and/or ABN

The Issuer is required to deduct withholding tax from payments of dividends that are not 100% franked, at the rate specified in the *Taxation Administration Regulations 2017* (Cth) (currently 47%), and remit such amounts to the ATO, unless you have quoted a TFN or an ABN, or a relevant exemption applies (and has been notified to the Issuer).

You are able to provide your TFN, ABN or relevant exemption online with the Share Registry at <https://www.mpms.mufg.com/en/for-individuals/au/shareholders/>. When providing your details online, you will be required to enter your SRN/HIN as shown on your Issuer Sponsored/CHESS statements and other personal details such as your postcode.

6.8 Other Australian Taxes

There should be no Australian GST payable by Eligible Shareholders in respect of the issue or taking up of Entitlements or the acquisition of New Shares, pursuant to the Entitlement Offer.

There should also be no stamp duty payable by Eligible Shareholders on the acquisition of New Shares provided each Eligible Shareholder, and any related persons, do not hold, as a result of such acquisition, 90% or more of the interests in the Issuer.

6.9 Additional New Shares

The explanations in this section in respect of New Shares also apply in the same way to the acquisition, holding and disposal of Additional New Shares.

9 December 2025

Dear Shareholder

Pro Rata Non-Renounceable Entitlement Offer – Letter to Eligible Shareholders

As announced on 2 December 2025, L1 Global Long Short Fund Limited (ACN 063 975 431) (ASX: GLS) (the **Company**) is undertaking a pro-rata non-renounceable entitlement offer of one (1) fully paid ordinary share in the capital of the Company (**New Share**) for every one (1) fully paid ordinary share held by Eligible Shareholders (as defined below) (the **Entitlement Offer**). The Entitlement Offer will be conducted at an issue price of \$1.63 per New Share to raise up to A\$415 million.

As part of the Entitlement Offer, Eligible Shareholders who take up their entitlement in full may also apply for additional New Shares in excess of their entitlement (**Additional New Shares**), being those Shares that have not been taken up by Eligible Shareholders in full or in part (**Top-Up Facility**). The allocation of any Additional New Shares under the Top-Up Facility is at the sole discretion of the Company's board of directors (the **Board**). Furthermore, if there remains any shortfall of New Shares not applied for following the Entitlement Offer (including following the issuance of Additional New Shares under the Top-Up Facility, which will be subject to the discretion of the Board, including with respect to any scale backs), the Board reserves the right to issue all or any of the New Shares to select wholesale and institutional investors under a shortfall facility at their discretion up to the intended maximum number of New Shares (**Shortfall Offer**).

As disclosed to the ASX on Thursday, 4 December 2025, in light of strong demand from the Shortfall Offer bookbuild, the Company will also undertake an institutional placement at the conclusion of the Entitlement Offer for approximately \$62 million to enable further participation for certain institutional and wholesale investors who would otherwise be subject to scale back (**Placement**). The Placement will be conducted in accordance with ASX Listing Rule 7.1. The Company may seek to upsize the Placement by approximately \$60 million, subject to receipt of an ASX waiver and a final decision by the Company.

The Entitlement Offer is being made without a prospectus or product disclosure document in accordance with section 708AA of the *Corporations Act 2001* (Cth) (as modified by *ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84* and *ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73*).

An offer booklet in relation to the Entitlement Offer was lodged with the ASX and made available to Eligible Shareholders (as defined below) on 9 December 2025 (**Offer Booklet**).

Dear Shareholder

Pro Rata Non-Renounceable Entitlement Offer – Letter to Ineligible Shareholders

As announced on 2 December 2025, L1 Global Long Short Fund Limited (ACN 063 975 431) (ASX: GLS) (the **Company**) is undertaking a pro-rata non-renounceable entitlement offer of one (1) fully paid ordinary share in the capital of the Company (**New Share**) for every one (1) fully paid ordinary share held by Eligible Shareholders (as defined below) (**Entitlement Offer**). The Entitlement Offer will be conducted at an issue price of \$1.63 per New Share to raise up to A\$415 million.

As part of the Entitlement Offer, Eligible Shareholders who take up their entitlement in full may also apply for additional New Shares in excess of their entitlement (**Additional New Shares**), being those Shares that have not been taken up by Eligible Shareholders in full or in part (**Top-Up Facility**). The allocation of any Additional New Shares under the Top-Up Facility is at the sole discretion of the Company's board of directors (the **Board**). Furthermore, if there remains any shortfall of New Shares not applied for following the Entitlement Offer (including following the issuance of Additional New Shares under the Top-Up Facility, which will be subject to the discretion of the Board, including with respect to any scale backs), the Board reserves the right to issue all or any of the New Shares to select wholesale and institutional investors under a shortfall facility at their discretion up to the intended maximum number of New Shares (**Shortfall Offer**).

As disclosed to the ASX on Thursday, 4 December 2025, in light of strong demand from the Shortfall Offer bookbuild, the Company will also undertake an institutional placement at the conclusion of the Entitlement Offer for approximately \$62 million to enable further participation for certain institutional and wholesale investors who would otherwise be subject to scale back (**Placement**). The Placement will be conducted in accordance with ASX Listing Rule 7.1. The Company may seek to upsize the Placement by approximately \$60 million, subject to receipt of an ASX waiver and a final decision by the Company.

The Entitlement Offer is being made without a prospectus or product disclosure document in accordance with section 708AA of the *Corporations Act 2001* (Cth) (as modified by *ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84* and *ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73*).

An offer booklet in relation to the Entitlement Offer was lodged with the ASX and made available to Eligible Shareholders (as defined below) on 9 December 2025 (**Offer Booklet**).

The Entitlement Offer is not underwritten. Morgans Financial Limited (ACN 010 669 726) and Taylor Collison Limited (ACN 008 172 450) have been appointed as the Joint Lead Arrangers to manage the Entitlement Offer. The Joint Lead Managers comprise the Joint Lead Arrangers and Canaccord Genuity (Australia) Limited (ACN 075 071 466), Ord Minnett Limited (ACN 002 733 048), E&P Capital Pty Limited (ACN 137 980 520) and Shaw and Partners Limited (ACN 003 221 583).

The funds received from the Entitlement Offer will be invested in accordance with the global long short fund investment strategy (**Global Long Short Strategy**). For further details regarding the Global Long Short Strategy, please refer to section 3 of the Investor Presentation released to the ASX on 2 December 2025.

This letter is to inform you about the Entitlement Offer and to explain why you will not be able to participate in the Entitlement Offer, as the Entitlement Offer is only open to Eligible Shareholders (defined below).

Eligible Shareholders are persons at 7.00pm (AEDT) on Friday, 5 December 2025 (**Record Date**) who:

- are registered as a holder of ordinary shares in the Company;
- have a registered address on the Company's share register in Australia or New Zealand;
- are not in the United States and are not acting for the account or benefit of a person in the United States to the extent such persons hold Shares for the account or benefit of persons in the United States; and
- are eligible under all applicable securities laws to receive an offer under the Entitlement Offer.

A shareholder who is not an Eligible Shareholder will be an **Ineligible Shareholder** and is consequently unable to participate in the Entitlement Offer.

According to our records, you do not satisfy the criteria for an Eligible Shareholder and are therefore an Ineligible Shareholder. You are not eligible to participate in the Entitlement Offer and you will not be sent a copy of the Offer Booklet. This decision has been made pursuant to Listing Rule 7.7.1(a) of the ASX Listing Rules after taking into consideration the costs of complying with legal and regulatory requirements in jurisdictions outside of Australia or New Zealand compared with the small number of Ineligible Shareholders and the number and value of New Shares to which they would otherwise be entitled.

If you have any queries in relation to the matters described above, please contact the Offer Information Line by phone on 1800 425 578 (within Australia) or +61 1800 425 578 (outside Australia) during office hours, between 8:30am – 5:30pm (AEDT).

Yours sincerely
