

Record Sales Result for December 2025 Quarter

Highlights

- Record December quarter with global sales of US\$6.1 million, up 38% on pcp and 25% on the September 2025 quarter**
- Global six-month sales of US\$10.9 million, up 29% on pcp**
- Last Twelve Months (LTM) global sales of ~US\$21 million (A\$32.2 million), up 24% on prior twelve months and three times higher than the industry growth rate of ~8%⁽¹⁾**
- Six consecutive halves of sales growth in the USA at a CAGR of ~40%**

Nova Eye Medical Limited (ASX: EYE) (**Nova Eye Medical** or the **Company**) is pleased to report a record sales result for the December 2025 quarter and continued strong growth for the six months ended 31 December 2025. These results are subject to audit.

Sales Performance

The December quarter result of US\$6.1 million reflects continued strong demand in the United States, supported by consistent growth in Rest of World markets. The iTrack technology has now been used in approximately 180,000 surgical cases worldwide. Its minimally invasive, rejuvenative method of action is becoming increasingly recognised by more surgeons as our commercial efforts continue. Sales growth in the twelve months to 31 December 2025 was 24% up on the prior year. This is three times the industry growth rate of ~8% estimated by Marketscope⁽¹⁾.

Regional Performance Summary (US\$'000s)⁽²⁾

US\$'000's (unaudited)	Q2FY25 (3 mths to Dec 24)	Q2FY26 (3 mths to Dec 25)	H1FY25 (6 mths to Dec 24)	H1FY26 (6 mths to Dec 25)	Growth on Qtr PCP	Growth on Half PCP
USA	3,333	4,498	6,476	8,559	35%	32%
Germany	512	503	870	877	-2%	1%
Direct	3,845	5,001	7,346	9,436	30%	28%
ROW	210	469	329	816	123%	148%
Sales (excl China)	4,055	5,470	7,675	10,252	35%	34%
China	350	603	710	603	72%	-15%
Group	4,405	6,073	8,385	10,855	38%	29%

ABOUT NOVA EYE MEDICAL

Nova Eye Medical Limited is a medical technology company that develops, manufactures and sells a portfolio of proprietary ophthalmic treatment technologies and devices. Used by eye surgeons globally, these technologies include iTrack™ Advance, a minimally invasive consumable glaucoma surgical device that restores the eye's natural outflow pathway to lower pressure inside the eye and to eliminate patient reliance on anti-glaucoma medications for mild-moderate glaucoma. The Molteno3® glaucoma drainage device platform is designed to enhance surgical utility and optimize clinical outcomes for long-term IOP control in cases of severe glaucoma. It also offers the benefit of a simplified and faster surgical procedure. With its sales headquarters based in Fremont, California, Nova Eye Medical is supported by a global network of distribution partners. Manufacturing facilities are located in Fremont, California and Dunedin, New Zealand.
