EXPLANATORY STATEMENT

Purpose of Information

This Explanatory Statement (**Statement**) accompanies and forms part of the Company's Notice of Meeting for the General Meeting to be held as a virtual only meeting at 2.00pm (AEDT) on Friday, 20 February 2026 accessible virtually through an online meeting platform.

The Notice incorporates, and should be read together, with this Statement.

ORDINARY BUSINESS

Background to Resolutions 1 to 5

On 23 December 2025, the Company announced that it had secured firm commitments to raise ~\$7.1million (before costs) via a placement to sophisticated and professional investors (**Placement**). The Placement will result in the issue of 88,830,864 fully paid ordinary shares (**Shares**) at an issue price of \$0.08 (8 cents) per Share.

The 79,330,864 Shares (the subject of Resolution 1) were agreed to be issued in a single tranche and were subsequently issued as such on 2 January 2026, which was within the Company's 15% placement capacity under ASX Listing Rule 7.1.

Morgans Corporate Limited acted as placement agent in respect of the Placement.

The Placement and associated Resolutions contained in this Notice of Meeting are summarised below:

- Resolution 1 to ratify the prior issue of 79,330,864 Shares under the Placement; and
- Resolutions 2 to 5 to approve the issue of 9,500,000 Shares under the Placement to Directors of the Company (and/or their respective nominee(s) or associates).

Resolution 1: Ratification of prior issue of 79,330,864 Shares

Background

The Company is seeking Shareholder approval pursuant to ASX Listing Rule 7.4 to ratify the prior agreement to issue, and the subsequent issue, of 79,330,864 Shares in the Company issued on 2 January 2026 at an issue price of \$0.08 (8 cents) per Share, raising approximately \$6.35million (before costs), on the terms as announced on 23 December 2025.

The Shares were agreed to be issued without shareholder approval out of the Company's 15% placement capacity pursuant to ASX Listing Rule 7.1 and were issued on 2 January 2026.

ASX Listing Rules requirements

ASX Listing Rule 7.1 allows the Company to issue or agree to issue new securities up to 15% of the existing capital of the Company in any 12-month period without the prior approval of Shareholders, subject to certain exceptions in ASX Listing Rule 7.2. The agreement to issue the Shares (and the subsequent issue of the Shares) was within the Company's available placement capacity under ASX Listing Rules 7.1.

Under ASX Listing Rule 7.4 an issue of, or agreement to issue, securities will be treated as having been made with the approval of Shareholders for the purposes of ASX Listing Rule 7.1 if the issue or agreement did not breach ASX Listing Rule 7.1 at the time and Shareholders subsequently approve it. The agreement to issue the Shares (and the subsequent issue of the Shares) was within the Company's ASX Listing Rule 7.1 placement capacity and the Company now seeks ratification from Shareholders pursuant to ASX Listing Rule 7.4 so as to refresh its capacity to make further issues or agreements (if required) without Shareholder approval under ASX Listing Rule 7.1.

If Resolution 1 is approved, the prior agreement to issue, and the subsequent issue, of 79,330,864 Shares may be treated by the Company as having been made with Shareholder approval under ASX Listing Rule 7.1. The Company will therefore have the flexibility, if required, to issue additional equity securities without the 79,330,864 Shares counting towards the 15% threshold for the purposes of ASX Listing Rule 7.1.

If Resolution 1 is not approved, the prior agreement to issue (and the subsequent issue) of 79,330,864 Shares will not be treated by the Company as having been made with Shareholder approval under ASX Listing Rule 7.1. The

Company will therefore have the 79,330,864 Shares as counting towards the 15% threshold for the purposes of ASX Listing Rule 7.1. This will limit the Company's placement capacity under the Listing Rule 7.1 over the relevant 12 month period.

ASX Listing Rule 7.5 requires that the following information be provided to Shareholders for the purpose of obtaining Shareholder approval pursuant to ASX Listing Rule 7.4:

- a) the Shares were issued to sophisticated and professional investors, who are not related parties of the Company. There were no participants in the Placement that were investors required to be disclosed under ASX Guidance Note 21;
- b) the number and class of securities issued was 79,330,864 fully paid ordinary shares in the Company;
- c) the Shares were issued on 2 January 2026;
- d) the Shares were issued at an issue price of \$0.08 (8 cents) per Share;
- e) the Shares were not issued under an agreement other than customary Placement confirmation letters; and
- f) proceeds from the Placement will be used to partially fund commencement of the HEALEY ALS Platform Trial. For further details, see the Company's ASX announcements dated 23 December 2025.

Board Recommendation

The Board recommends that Shareholders vote in favour of Resolution 1.

The Chair of the Meeting intends to vote undirected proxies in favour of this Resolution.

Voting Exclusions

Refer to Note 6 for voting exclusions on this Resolution.

Resolution 2, 3, 4 and 5: Approval to issue shares to the Company Directors, Mr Sergio Duchini, Mr Marcus Hughes, Dr Michael Thurn and Dr Katie MacFarlane (and/or their respective nominees and associates) in relation to the Placement

Background

The Company is seeking Shareholder approval to allow the Company's Directors, Mr Sergio Duchini, Mr Marcus Hughes, Dr Michael Thurn and Dr Katie MacFarlane (and/or their respective nominee(s) and associates), to participate in the Placement as announced on 23 December 2025 and pursuant to ASX Listing Rule 10.11 to allot and issue a total of 9,500,000 Shares at an issue price of \$0.08 (8 cents) per Share to the Directors (and/or their respective nominee(s) and associates). The issue price of \$0.08 (8 cents) per Share is same as the issue price at which the Shares were offered to sophisticated and professional investors under the Placement as announced on 23 December 2025.

The details of the Shares proposed to be issued under Resolutions 2, 3, 4, and 5 are as follows:

Resolution	Name of the Director (and/or their respective nominee(s) and associates)	Number of Shares	Issue Price per Share	Funds Raised
Resolution 2	Mr Sergio Duchini	1,875,000	\$0.08	\$ 150,000.00
Resolution 3	Mr Marcus Hughes	7,000,000	\$0.08	\$ 560,000.00
Resolution 4	Dr Michael Thurn	500,000	\$0.08	\$ 40,000.00
Resolution 5	Dr Katie MacFarlane	125,000	\$0.08	\$ 10,000.00
	Total	9,500,000		\$760,000.00

ASX Listing Rules requirements

Listing Rule 10.11 provides that unless one of the exceptions in Listing Rule 10.12 applies, a listed Company must not issue or agree to issue Equity Securities to:

- a) a related party;
- b) a person who is, or was at any time in the six (6) months before the issue or agreement, a substantial (30%+) holder in the Company;

- c) a person who is, or was at any time in the six (6) months before the issue or agreement, a substantial (10%+) holder in the Company and who has nominated a Director to the Board of the Company pursuant to a relevant agreement which gives them a right or expectation to do so;
- d) an associate of a person referred to in Listing Rules 10.11.1 to 10.11.3; or
- e) a person whose relationship with the Company or a person referred to in Listing Rules 10.11.1 to 10.11.4 is such that, in ASX's opinion, the issue or agreement should be approved by its Shareholders,

unless it obtains the approval of its Shareholders.

Directors of the Company are related parties of the Company and therefore Shareholder approval for the participation of the abovenamed Directors of the Company in the Placement is required under ASX Listing Rule 10.11.

Resolutions 2, 3, 4 and 5 seek the required Shareholder approval to the issue under and for the purposes of Listing Rule 10.11.

If Resolutions 2, 3, 4 and 5 are passed, the Company will be able to proceed with the issue of the Shares and each of Mr Sergio Duchini, Mr Marcus Hughes, Dr Michael Thurn and Dr Katie MacFarlane (and/or their respective nominee(s) and associates) will receive a respective amount of Shares in the Company specified in the table above at an issue price of \$0.08 per Share. The willingness of the Directors to subscribe for Shares under the Placement is confirmation of their faith in the Company and its business.

If all or any of Resolutions 2, 3, 4 and 5 are not passed, the Company will not proceed with the issue of the Shares to the applicable Director(s), and the applicable Director(s) (or their nominee(s) or associates) will not receive the Shares as described above. As detailed in the Company's investor presentation dated 23 December 2025, existing cash holdings, the Placement, the Research & Development Tax Rebate and the committed funds through the Convertible Note Facility (the subject of Resolutions 6 and 7) provide the Company with adequate secured funding for Neurizon to commence the HEALEY ALS Platform Trial. If an element of such funding strategy was not to be implemented (for example, if Shareholder approval was not obtained in respect of Resolutions 2, 3, 4 and 5), the Company would need to seek to secure alternative funding arrangements, and there can be no assurance that appropriate funding, if and when needed, will be able to be secured on terms acceptable to the Company, or at all. This may result in the Company not being able to continue the HEALEY ALS Platform Trial, or its involvement in the HEALEY ALS Platform Trial being delayed.

If approvals are given under ASX Listing Rule 10.11, approvals are not required under ASX Listing Rule 7.1 and exception 14 in Listing Rule 7.2 will operate such that the issue of the Shares to the applicable Director(s) will be excluded from the calculation of the number of Equity Securities that the Company can issue without Shareholder approval under Listing Rule 7.1.

The following information is given under ASX Listing Rule 10.13 in respect of the proposed issues of Shares to each Director under Resolutions 2, 3, 4 and 5 (respectively):

- a) the proposed recipients are Mr Sergio Duchini, Mr Marcus Hughes, Dr Michael Thurn and Dr Katie MacFarlane, each of whom is a Director of the Company, and/or their respective nominee(s) (each of which would be an associate of the respective Director);
- b) each of the proposed recipients are related parties of the Company as each of them is a Director of the Company and thus fall into Listing Rule 10.11.1;
- c) a total of 9,500,000 Shares are proposed to be issued to Directors. The amount of Shares to be issued to each Director is outlined in the table above;
- d) the Shares will be issued no later than one month after the date of the Meeting. The Company however expects to issue the Shares on or around 27 February 2026;
- e) the issue price of the Shares is \$0.08 (8 cents) per Share; and
- f) proceeds from the Placement will be used to partially fund commencement of the HEALEY ALS Platform Trial. For further details, see the Company's ASX announcements dated 23 December 2025.

Board Recommendation

The Board (with the respective Director abstaining in relation to the relevant Resolution regarding their own proposed Share issuance) recommends that Shareholders vote in favour of Resolutions 2, 3, 4 and 5.

The Chair of the Meeting intends to vote undirected proxies in favour of the Resolutions.

Voting Exclusions

Refer to Note 6 for voting exclusions on Resolutions 2, 3, 4 and 5.

Background to Resolutions 6 and 7

On 23 December 2025, the Company announced that it had entered into a convertible securities and share placement agreement with New York-based investment manager, Obsidian Global GP, LLC (**Obsidian**) to establish a convertible note facility which will provide up to \$20 million in aggregate funding over a two-year period from date of first purchase (the **Convertible Note Facility**). Obsidian is a New York-based alternative investment firm with a strong track record of funding growth-stage biotech companies listed on Nasdaq and ASX.

The investment by Obsidian in the Company follows an extensive and considered review of funding options available to the Company. Following a period of due diligence, the investment reflects Obsidian's confidence in the Company's lead clinical asset and its potential to progress through accelerated regulatory pathways. The financing terms have been structured to support the Company's participation in the HEALEY ALS Platform Trial while maintaining financial flexibility.

The Convertible Note Facility has been deliberately structured to allow the Company to draw capital progressively, aligning funding access with clinical and regulatory milestones while minimising unnecessary dilution for Shareholders and option holders. Importantly, the Convertible Note Facility preserves the Company's ability to actively pursue alternative sources of funding, including non-dilutive grant funding, regional licensing and partnering deals, rather than requiring full utilisation of the Convertible Note Facility upfront. This optionality enables the Company to optimise its capital structure as the clinical program matures and additional value inflection points are achieved.

The Board considers the Convertible Note Facility to be an efficient and pragmatic funding solution that supports execution certainty while maintaining balance sheet discipline. The structure provides funding certainty over two years, ensures the Company remains well-capitalised to deliver its near-term objectives, and positions the Company to maximise long-term shareholder and option holder value as the HEALEY ALS Platform Trial progresses.

The initial drawdown under the Convertible Note Facility will be A\$5 million. The initial drawdown is subject to a number of conditions, including Shareholder approval. Any subsequent drawdowns under the Convertible Note Facility (up to the aggregate A\$20 million Commitment Limit) will also require shareholder approval.

The terms of the Convertible Note Facility will also, subject to Shareholder approval, require the Company to initially place 10,000,000 Shares with Obsidian which, in accordance with the terms of the Convertible Note Facility, are to be paid for by Obsidian during the term of the Convertible Note Facility or to be set off against the Company's obligation to issue Shares under the Convertible Note Facility, and with any Shares still held by Obsidian, at the time when the Convertible Note Facility has ended and there are no Convertible Notes on issue, to either be acquired by Obsidian or sold and the proceeds remitted to the Company. A further 15,000,000 Shares may be issued over the term of the Convertible Note Facility, subject to certain conditions being satisfied, and on the terms described above in respect of the initial placement of 10,000,000 Shares. The Company will also enter into a general security agreement with Obsidian in respect of the Convertible Note Facility prior to the initial drawdown under the Convertible Note Facility.

A summary of the material terms of the Convertible Note Facility (and the Convertible Notes) is set out in Schedule 1 to this Explanatory Statement.

The Resolutions contained in this Notice of Meeting relating to the Convertible Note Facility are summarised below:

- Resolution 6 to approve the issue of a number of Convertible Notes to Obsidian resulting in the payment by Obsidian to the Company of A\$5,000,000; and
- Resolution 7 to approve the issue of 10,000,000 Shares under the Convertible Note Facility to Obsidian.

Resolution 7 is subject to Resolution 6 being passed.

Resolution 6: Approval to issue Convertible Notes to Obsidian Global GP, LLC (and/or its nominee(s))

Background

The Company is seeking Shareholder approval pursuant to ASX Listing Rule 7.1 to approve the proposed issue of the number of Convertible Notes to Obsidian (and/or its nominee(s)) that results in the payment to the Company by Obsidian (and/or its nominee(s)) of A\$5,000,000 (**Relevant Convertible Notes**), such number of Convertible Notes being calculated in accordance with the terms and conditions of the Convertible Note Facility (a summary of the material terms of which is set out in Schedule 1 (Summary of the material terms of the Convertible Note Facility (and the Convertible Notes)) to this Explanatory Statement) and as described below.

The issue of the Relevant Convertible Notes will constitute the initial drawdown under the Convertible Note Facility of A\$5 million. Any subsequent drawdowns under the Convertible Note Facility (up to the aggregate A\$20 million Commitment Limit) will also require shareholder approval.

ASX Listing Rules requirements

A summary of ASX Listing Rule 7.1 is set out above, see “Background to Resolutions 1 to 5” of this Explanatory Statement.

The proposed issue of the Relevant Convertible Notes does not fit within any of the exceptions set out in Listing Rule 7.2 and exceeds the 15% limit in Listing Rule 7.1. It therefore requires the approval of Shareholders under Listing Rule 7.1.

Accordingly, Shareholder approval is being sought for the issue of the Relevant Convertible Notes, being such number of Convertible Notes to be issued to Obsidian that would result in the payment by Obsidian to the Company of A\$5,000,000. The number of Relevant Convertible Notes that would be issued will be calculated in accordance with the terms and conditions of the Convertible Note Facility (a summary of the material terms of which is set out in Schedule 1 (Summary of the material terms of the Convertible Note Facility (and the Convertible Notes)) to this Explanatory Statement). The Company will issue Obsidian the number of Convertible Notes which is the same as the number which is the actual amount paid in US\$ (converted at the exchange rate proposed to be charged by Obsidian’s bank in respect of the transfer of fund to the Company and agreed by the Company) by Obsidian so as to procure the transfer of the A\$5,000,00 to the Company, rounded upwards to the nearest whole number.

Pursuant to the Convertible Note Facility, each Relevant Convertible Note issued will have a face value of US\$1.11 (subject to adjustment in the event of an Unremedied Default as described in the summary of the material terms of the Convertible Note Facility set out in Schedule 1 (Summary of the material terms of the Convertible Note Facility (and the Convertible Notes)) to this Explanatory Statement) and the number of Shares that would be issued upon conversion of a Relevant Convertible Note will be determined in accordance with the terms of the Convertible Note Facility as follows:

- the face value of the Relevant Convertible Note will be converted into A\$ using the spot rate of exchange displayed on the Reserve Bank of Australia on the day the relevant conversion notice is issued;
- that A\$ amount will then be divided by the relevant Conversion Price to provide the number of Shares to be issued.

For illustrative purposes only, the table below sets out the number of Relevant Convertible Notes that would be issued if the proposed issue of Relevant Convertible Notes is approved by Shareholders at several indicative exchange rates (together with the aggregate Face Value of that number of Relevant Convertible Notes):

Amount to be received by Company	Relevant exchange rate	US\$ equivalent	Number of Relevant Convertible Notes to be issued	Aggregate Face Value of Relevant Convertible Notes to be issued
A\$5,000,000	0.67116693 ¹	3,355,500	3,355,500	3,724,605
	0.6446 ²	3,223,000	3,223,000	3,577,530
	0.6761 ³	3,380,500	3,380,500	3,752,355

¹ US\$:A\$ Exchange rate as at 13 January 2026

² Lowest A\$ value US\$:A\$ exchange rate in 3 months up to 13 January 2026.

³ Highest A\$ value US\$:A\$ exchange rate in 3 months up to 13 January 2026.

Obsidian will be able to elect to convert the Face Value of the Relevant Convertible Notes at either the Fixed Conversion Price or the Variable Conversion Price. In respect of the Relevant Convertible Notes:

- the Fixed Conversion price is A\$0.165; and
- the Variable Conversion Price is the price which is 94% of the average of the 5 lowest daily VWAPs during the 20 actual trading days of Shares prior to the date of the relevant conversion notice (rounded to the nearest A\$0.0001).

However, unless an event of default occurs, Obsidian may only give conversion notices specifying that a conversion of the Relevant Convertible Notes is to occur at the Variable Conversion Price as and from the day which is 60 days after the issue of the Relevant Convertible Notes. Shareholders should note that, as stated above, the Variable Conversion Price will be determined with reference to the trading price of Shares in advance of the applicable conversion date. There is no floor on the Variable Conversion Price, and any such conversion may be highly dilutive to existing Shareholders if the market price of Shares falls substantially over the period from when the Relevant Convertible Notes are issued to when they are converted.

For illustrative purposes only, the table below sets out the number of Shares that may be issued on conversion of the Relevant Convertible Notes proposed to be approved by Shareholders at various conversion prices, and assuming the number of Relevant Convertible Notes approved by Shareholders is determined using an exchange rate of 0.6711 (being the exchange rate on 13 January 2026, as per the table above). Obsidian is able to convert one or more Relevant Convertible Notes on issue to it at any time during 36-month period from their issue until their Maturity Date. Not all the Relevant Convertible Notes need to be converted at the same time.

Accordingly, the number of Shares that would be issued in respect of the Relevant Convertible Notes will depend on various factors, including whether or not (and how many of) the Relevant Convertible Notes are converted, the prevailing spot rate of exchange displayed on the Reserve Bank of Australia on the day the relevant conversion notice, and the price at which they are converted (which will be the average of the 5 lowest daily VWAPs during the 20 actual trading days up prior to the relevant conversion notice date (rounded to the nearest A\$0.0001))

For the purposes of illustrating the possible dilution impact of the Relevant Convertible Notes, the table below assumes all the Relevant Convertible Notes are converted by Obsidian within the relevant 36-month period until their Maturity Date and a single conversion price (representing the weighted average conversion price for all Relevant Convertible Notes converted by Obsidian over the relevant 36-month period) applies to the conversion of all Relevant Convertible Notes.

Conversion Price	Aggregate Face Value of Relevant Convertible Notes to be issued	Number of Shares issued on conversion of Relevant Convertible Notes ⁴	% dilution on existing share capital (Full Entitlement Offer take-up) ⁵	(No Entitlement Offer take-up) ⁶
Fixed Conversion Price (A\$0.165)	US\$3,724,605	33,726,824	3.86%	5.12%

⁴ Calculated by converting US\$ Face Value of Relevant Convertible Notes to A\$ using the spot rate of exchange displayed on the Reserve Bank of Australia on the day the relevant conversion notice is issued divided by the relevant Conversion Price. For the illustrative purpose of this table, the relevant spot rate of exchange displayed on the Reserve Bank of Australia is assumed to be 0.6711 (being the US\$:A\$ exchange rate as at 13 January 2026).

⁵ Calculated as at 13 January 2026 by expressing the number of Shares to be issued on conversion of the Relevant Convertible Notes under the relevant illustrative scenario presented in the table as a percent of the sum of:

- all Shares on issue on 13 January 2026 (615,119,964 Shares);
- Shares to be issued to Directors assuming such issuance is approved at the Meeting (9,500,000 Shares);
- Shares to be issued in the Entitlement Offer assuming full participation (214,315,640 Shares),

together, resulting in a total of 838,935,604 Shares; plus

- the Shares assumed to be issued on conversion of the Relevant Convertible Notes under the relevant illustrative scenario presented in the table.

Outstanding options and performance rights as at 13 January 2026 have been ignored for the purposes of this calculation.

⁶ Calculated as at 13 January 2026 by expressing the number of Shares to be issued on conversion of the Relevant Convertible Notes under the relevant illustrative scenario presented in the table as a percent of the sum of:

- all Shares on issue on 13 January 2026 (615,119,964 Shares);
- Shares to be issued to Directors assuming such issuance is approved at the Meeting (9,500,000 Shares),

together, resulting in a total of 624,619,964 Shares; plus

- the Shares assumed to be issued on conversion of the Relevant Convertible Notes under the relevant illustrative scenario presented in the table.
- It has been assumed that there is no participation in the Entitlement Offer and outstanding options and performance rights as at 13 January 2026 have been ignored for the purposes of this calculation.

Variable Conversion Price (A\$0.0754 – 13 January 2026 ⁷)	US\$3,724,605	69,388,105	8.09%	10.57%
Variable Conversion Price (assumed A\$0.10)	US\$3,724,605	55,649,260	6.22%	8.18%
Variable Conversion Price (assumed A\$0.15)	US\$3,724,605	37,099,507	4.23%	5.61%

If Resolution 6 is approved, and all other relevant conditions precedent under the Convertible Note Facility are satisfied or waived, the Company intends to issue the Relevant Convertible Notes and will receive A\$5,000,000 from Obsidian. In addition, as that issue will have been made with Shareholder approval under ASX Listing Rule 7.1, the Company will have flexibility, if required, to issue additional Equity Securities without the Relevant Convertible Notes counting towards the 15% threshold for the purposes of ASX Listing Rule 7.1.

If this Resolution is not approved, the Relevant Convertible Notes will not be issued and the Company will not receive A\$5,000,000 from Obsidian. This initial drawdown is also a condition precedent to subsequent drawdowns, and so no further drawdowns under the Convertible Note Facility will be possible unless that condition precedent is waived. As detailed in the Company's investor presentation dated 23 December 2025, existing cash holdings, the Placement (including the proposed issue of Shares the subject of Resolutions 2 to 5 (inclusive)), the Research & Development Tax Rebate and the committed funds through the Convertible Note Facility provide the Company with adequate secured funding for Neurizon to commence the HEALEY ALS Platform Trial. If an element of such funding strategy was not to be implemented (for example, if Shareholder approval was not obtained in respect of Resolutions 6 or 7), the Company would need to seek to secure alternative funding arrangements, and there can be no assurance that appropriate funding, if and when needed, will be able to be secured on terms acceptable to the Company, or at all. This may result in the Company not being able to continue the HEALEY ALS Platform Trial, or its involvement in the HEALEY ALS Platform Trial being delayed.

ASX Listing Rule 7.3 requires that the following information be provided to Shareholders for the purpose of obtaining Shareholder approval pursuant to ASX Listing Rule 7.3:

- the Relevant Convertible Notes will be issued to Obsidian (and/or its nominee(s));
- the class of securities to be issued are Convertible Notes, and the number of Relevant Convertible Notes to be issued will be determined on the basis described above. The number of Shares to be issued on conversion of the Relevant Convertible Notes will also be determined on the basis described above;
- a summary of the material terms of the Relevant Convertible Notes is set out in Schedule 1 (Summary of the material terms of the Convertible Note Facility (and the Convertible Notes)) to this Explanatory Statement;
- the Company intends to issue the Relevant Convertible Notes within 5 business days after receiving Shareholder approval (assuming all other conditions precedent under the Convertible Note Facility have been satisfied or waived) and, in any event, will not issue the Relevant Convertible Notes later than three months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the Listing Rules);
- the Company will receive A\$5,000,000 for the issue of the Relevant Convertible Notes;
- proceeds from the issue of the Relevant Convertible Notes will be used to partially fund commencement of the HEALEY ALS Platform Trial. For further details, see the Company's ASX announcements dated 23 December 2025;
- the Relevant Convertible Notes will be issued under the Convertible Note Facility, a summary of the material terms of which are set out above and in Schedule 1 (Summary of the material terms of the Convertible Note Facility (and the Convertible Notes)) to this Explanatory Statement.

The Board recommends that Shareholders vote in favour of Resolution 6.

The Chair of the Meeting intends to vote undirected proxies in favour of this Resolution.

Resolution 7: Approval to issue placement shares to Obsidian Global GP, LLC (and/or its nominee(s))

Background

As stated above, the terms of the Convertible Note Facility will, subject to Shareholder approval, require the Company to initially place 10,000,000 Shares with Obsidian (**Obsidian Placement Shares**), to be paid for by Obsidian during the term of the Convertible Note Facility or to be set off against the Company's obligation to issue shares under the Convertible Note Facility, and with any Shares still held by Obsidian, at the time when the Convertible Note Facility has ended and there are no Convertible Notes on issue, to either be acquired by Obsidian or sold and the proceeds remitted to the Company.

The Company is seeking Shareholder approval of the issue of the Obsidian Placement Shares.

ASX Listing Rules

A summary of ASX Listing Rule 7.1 is set out above, see "Background to Resolutions 1 to 5" of this Explanatory Statement.

The proposed issue of the Relevant Convertible Notes does not fit within any of the exceptions set out in Listing Rule 7.2 and exceeds the 15% limit in Listing Rule 7.1. It therefore requires the approval of Shareholders under Listing Rule 7.1.

If Resolution 7 is approved, and all other relevant conditions precedent under the Convertible Note Facility to the initial drawdown under the Convertible Note Facility of A\$5 million are satisfied or waived, the Company intends to issue Obsidian Placement Shares as part of the completion of that initial drawdown (and at the same time as the Company issues the Relevant Convertible Notes and receives A\$5,000,000 from Obsidian). As the issue of the Obsidian Placement Shares will have been made with shareholder approval under ASX Listing Rule 7.1, the Company will also therefore have the flexibility, if required, to issue additional equity securities without the Obsidian Placement Shares counting towards the 15% threshold for the purposes of ASX Listing Rule 7.1.

If Resolution 7 is not approved, a condition precedent under the Convertible Note Facility to the initial drawdown under the Convertible Note Facility of A\$5 million will have failed to have been satisfied, and that initial drawdown will not be able to be completed. As a result, the Relevant Convertible Notes will not be issued and the Company will not receive A\$5,000,000 from Obsidian. This initial drawdown is also a condition precedent to subsequent drawdowns, and so no further drawdowns under the Convertible Note Facility will be possible unless that condition precedent is waived. As detailed in the Company's investor presentation dated 23 December 2025, existing cash holdings, the Placement (including the proposed issue of Shares the subject of Resolutions 2 to 5 (inclusive)), the Research & Development Tax Rebate and the committed funds through the Convertible Note Facility provide the Company with adequate secured funding for Neurizon to commence the HEALEY ALS Platform Trial. If an element of such funding strategy was not to be implemented (for example, if Shareholder approval was not obtained in respect of Resolutions 6 or 7), the Company would need to seek to secure alternative funding arrangements, and there can be no assurance that appropriate funding, if and when needed, will be able to be secured on terms acceptable to the Company, or at all. This may result in the Company not being able to continue the HEALEY ALS Platform Trial, or its involvement in the HEALEY ALS Platform Trial being delayed.

ASX Listing Rule 7.3 requires that the following information be provided to Shareholders for the purpose of obtaining Shareholder approval pursuant to ASX Listing Rule 7.3:

- a) the Obsidian Placement Shares will be issued to Obsidian (and/or its nominee(s));
- b) the number and class of securities to be issued is 10,000,000 fully paid ordinary shares in the Company;
- c) the Company intends to issue the Obsidian Placement Shares within 5 business days after receiving Shareholder approval (assuming all other conditions precedent under the Convertible Note Facility to the initial drawdown under the Convertible Note Facility of A\$5 million are satisfied or waived) and, in any event, will not issue the Obsidian Placement Shares later than three months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the Listing Rules);
- d) in respect of price or other consideration to be received for the Obsidian Placement Shares, in accordance with the terms of the Convertible Note Facility, are to be paid for by Obsidian during the term of the Convertible Note Facility or to be set off against the Company's obligation to issue Shares under the Convertible Note Facility, and with any Shares still held by Obsidian, at the time when the Convertible Note Facility has ended and there are no Convertible Notes on issue, to either be acquired by Obsidian or sold and the proceeds remitted to the Company;
- e) the purpose of the issue of the Obsidian Placement Shares is to satisfy certain conditions precedent under the Conditional Note Facility relating to the initial drawdown under the Convertible Note Facility of A\$5 million

obligations of the Company under the Convertible Note Facility and any funds received in respect of the Obsidian Placement Shares under the Convertible Note facility will be used to partially fund commencement of the HEALEY ALS Platform Trial. For further details, see the Company's ASX announcements dated 23 December 2025; and

- f) the Obsidian Placement Shares will be issued under the Convertible Note Facility, a summary of the material terms of which are set out above and in Schedule 1 (Summary of the material terms of the Convertible Note Facility (and the Convertible Notes)) to this Explanatory Statement.

Security	The Convertible Note Facility is to be secured by a general security agreement over the Company's assets prior to the initial drawdown under the Convertible Note Facility (Security Document).
Face Value	US\$1.11 per Convertible Note (Face Value). If an Unremedied Default (set out below) occurs, the Face Value of all outstanding Convertible Notes will automatically increase by 5% in the first instance and afterward by an additional 1% for any further Unremedied Default.
Interest	No interest is payable on the Convertible Notes. If the Company fails to pay or repay any amount payable under the Convertible Note Facility when due, or any other event of default occurs, interest shall be payable on the relevant amount (on in the case of an event of default, on the amounts outstanding on the Notes) at a rate of 10% per annum, which interest shall accrue daily and shall be compounded monthly, from the date when the relevant amount payable was due, or the date of the event of default (as the case may be), until the Company pays that amount payable, or until the Company pays the amounts outstanding or otherwise remedies the event of default (as the case may be).
Maturity	In respect of Convertible Notes issued at a particular Purchase, the relevant Convertible Notes will mature 36 months after the relevant Purchase (Maturity Date).
Conversion prices	Obsidian may convert one or more Convertible Notes on issue to them at any time at: <ul style="list-style-type: none"> in respect of: <ul style="list-style-type: none"> Convertible Notes issued at the First Purchase: A\$0.165; Convertible Notes issued at a Subsequent Purchase: 150% of the 5 day VWAP for the 5 actual trading days of Shares immediately prior to the date on which the Subsequent Purchase occurs, (the Fixed Conversion Price); or subject to the limitations on conversions (set out below), a price of 94% of the average of the 5 lowest daily VWAPs during the 20 actual trading days of Shares prior to the conversion notice date rounded to the nearest A\$0.0001 (the Variable Conversion Price). See also "Effect of event of default" set out below.
Limitations on conversions	Unless an event of default occurs, Obsidian may only give conversion notices specifying that a conversion of Convertible Notes is to occur at the Variable Conversion Price as and from the day which is 60 days after the Purchase of those Convertible Notes. Obsidian must not give a conversion notice where the issue of Shares under that conversion notice would cause Obsidian to hold more than 9.99% of all Shares on issue at the relevant time.
Trading restrictions	Obsidian agrees not on any trading day to sell Shares in excess of the greater of: (i) 20% of the daily trading volume on that trading day on ASX and Chi-X (as reported by IRESS); and (ii) a value of A\$50,000. The requirements and restrictions above will cease to apply if: (i) there is any event of default; or (ii) the daily VWAP does not exceed a predetermined threshold for any 10 consecutive actual trading days of Shares, provided that, for the avoidance of doubt, at all times Obsidian must comply with Part 7.10 of the Corporations Act Obsidian is also restrained from short selling.

Inability to issue Shares	If a conversion notice is issued in respect of a Convertible Note by Obsidian at a time when Shares are unable to be issued by the Company, Obsidian shall have the option to: (i) cancel the relevant conversion notice; or, if the Company remains unable to issue the Shares after 60 days (ii) give notice to the Company requiring the Company to redeem the relevant Convertible Notes at the greater of the value calculated using the daily VWAP for the actual trading day immediately prior to the conversion notice date and the Redemption Amount (set out below).
Redemption	<ul style="list-style-type: none"> Unless an event of default occurs, the Company may at any time prior to the Maturity Date redeem some or all of the outstanding Convertible Notes at 110% of the aggregate total of the Face Values of the outstanding Convertible Notes to be redeemed (Redemption Amount) by giving notice to Obsidian (Early Redemption Notice). Subsequent to the Company giving an Early Redemption Notice, Obsidian may freely give conversion notices in respect of Convertible Notes the subject of an Early Redemption Notice, until the Company pays the Redemption Amount in respect of those Convertible Notes.
