ASX Announcement

Nasodine Throat Spray Product Launch in Fiji

- **Order for Nasodine® Throat Spray received from Fiji licensee, Makans Ltd**
- **Promotion to doctors and pharmacies in Fiji to start in February**

Firebrick Pharma Limited (ASX:FRE) (Company or Firebrick) is pleased to announce that following the launch of Nasodine® Throat Spray in Singapore (see announcement 21 January 2026), the Company's licensee in Fiji and South Pacific, Makans Ltd, has placed their first order for Nasodine Throat Spray.

The initial order is for 216 units (6 shippers) and is currently being shipped to Fiji from the Company's Australian manufacturer, Probiotec Ltd. This initial stock will be used to initiate promotion activities to doctors and pharmacists in the local market, which are currently expected to start in February.

Makans CEO, David Huttley, stated:

"Makans is excited for the February launch of Nasodine Throat Spray into Fiji, and the South Pacific market. Not only is Nasodine Throat Spray an obvious extension to the brand, it's action complements that of Nasodine Nasal Spray and positions the combination as the most simple and effective treatment to inactivate viruses (including Covid), and kill associated bacteria that cause respiratory infection, including all cold and flu viruses and respiratory bacteria. We look forward to educating our HCPs and pharmacy with the support of Firebrick to build Nasodine into a trusted household name in Fiji and the South Pacific."

This announcement was authorised for release by Dr Peter Molloy, Executive Chairman, Firebrick Pharma Ltd.

About Firebrick (ASX:FRE)

Firebrick Pharma is developing and commercialising novel formulations and uses of povidone-iodine (PVP-I). The Company has successfully developed and manufactured Nasodine® Nasal Spray (0.5% PVP-I), which so far has been introduced into the United States, Singapore, and Fiji & South Pacific. The Company is pursuing approval in other markets, including the Philippines. Nasodine® Throat Spray is the first follow-on product, now available in Singapore.
