## Principal activities

The principal activities of the Group during the half-year were debt purchase and collection as well as consumer lending.

## Review of operations

### Overview

The directors of the Group report a net profit after tax (NPAT) for the first half of the 2026 financial year (FY26) of \$44.1 million. This was in line with the prior comparative period (pcp).

The highlights include the following:

- US collections 23 per cent higher than the pcp
- Record lending volume and 7 per cent loan book growth over the half
- Recovery in AU/NZ debt ledger investment pipeline to \$120 million

NPAT in line with the pcp reflected the deferral of earnings into the second half arising from strong loan book growth during the period and disruptions to AU/NZ purchased debt ledger (PDL) purchasing only remedied late in the half.

## US debt buying

US operational performance continued to improve. Productivity as 41 per cent higher than the same period in the prior year and the book of payment arrangements (including litigated payers) ended the half 5 per cent higher than the pcp.

While the US business is already competitive, there remains room for further operational improvement. A key focus area is the outsourced legal collections channel. Over the past 12 months significant changes have been made to the composition and management of the third-party collection attorney network. While there will be a lead time to realising the benefits of these changes, recent data points are showing signs of improvement.

Additional forward flow volume has been secured during the current re-tendering period, increasing the investment pipeline to \$A157 million. Full year US investment is now likely to be in the range of A\$160-180 million.

Despite recent changes in the approach to the collection of Federal student loans, as well as generally mixed economic data, Credit Corp has not experienced any deterioration in collection performance. Debt collection outcomes, including payment arrangement delinquency, have not shown any deterioration since mid-2023 despite a modest increase in unemployment over the same period.

## AU/NZ consumer lending

Refreshed marketing and improved operational execution have produced record half-year loan volumes. New customer volume grew by 25 per cent over the same period in the prior year. While RBA statistics indicate a modest recovery in unsecured credit demand, more granular credit bureau data suggests that credit impaired segment demand has remained flat. Accordingly, Credit Corp's market leading Wallet Wizard product has succeeded in growing its share of the credit impaired market segment.

While the Wallet Wizard component of the loan book grew to \$442 million, gross of provisions, the Company also progressed initiatives to sustain longer-term lending segment growth. The Wizit digital credit card acquired more than 4,000 new customers over the half, with the book reaching \$17 million in December. In the UK, we are presently engaged in building systems and processes and remain on track to commence lending late in the second half.

### AU/NZ debt buying

The AU/NZ debt buying business suffered from disruptions to forward flow purchasing arrangements during the half, with several issuers temporarily suspending debt sale. While much of this was remedied with the receipt of backlog files during December, it did impact collections.

The receipt of backlog files has been supplemented with several one-off purchases in December and January. These included a large run-off credit card book which brought the AU/NZ FY26 investment pipeline to \$120 million. This has increased FY26 investment expectations to a range of \$120-150 million. This additional purchasing will produce stronger collections and earnings in the AU/NZ debt buying segment over the second half.

While the AU/NZ debt buying market remains competitive as buyers attempt to secure volume in a diminished post-COVID market, there are some early signs of increasing supply. Interest bearing credit card balances grew +12 per cent over the half year. In time, this growth will likely be reflected in charge-offs and sale volumes.

### Capital management

An interim dividend of 32 cents per share (cps) has been declared in respect of the period. This is in line with the FY25 interim dividend and consistent with the long-standing practice of paying out approximately 50 per cent of earnings.

As at period-end, net gearing of financial assets was 32 per cent, similar to June 2025. Gearing remains very conservative relative to other debt buyers and specialty financial services operators both domestically and offshore.

Credit Corp is on track to achieve a Return on Equity (ROE) of 13 per cent in FY26 (utilising 40 per cent pro-forma gearing). This would be an increase from the 11 per cent ROE achieved in FY25 and reflects improved US performance. Continued improvement in US segment performance will drive ROE back to the hurdle level in the medium-term.

### Humm acquisition

Pursuant to Credit Corp's non-binding, indicative offer (NBIO) for Humm Group Ltd (Humm), negotiations on a suitable confidentiality agreement are ongoing and due diligence has not yet commenced.

Humm fits with Credit Corp's existing strategic plan to grow its consumer lending business and delivers a point-of-sale distribution platform. The established Humm UK business is consistent with Credit Corp's own expansion into UK lending.

Humm's commercial leasing business is a segment leader and Credit Corp would seek to retain and grow this business.

We also anticipate synergies particularly in back-office support functions and IT systems.

Regardless of whether Humm can be acquired at a sensible price, Credit Corp has substantial organic growth opportunities within its existing businesses which provide the Company with a strong growth outlook.

### Outlook

All elements of Credit Corp's initial guidance for FY26, issued in August 2025, remain unchanged. It should be noted that an increased proportion of purchased debt ledger (PDL) investment is now expected in AU/NZ with an offsetting smaller component in the US.

### Auditor's independence declaration

The auditor's independence declaration, as required under section 307C of the *Corporations Act 2001*, is set out on page 4.

**INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF  
CREDIT CORP GROUP LIMITED AND CONTROLLED ENTITIES**

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
