

## MT BOGGOLA

### ACCESS TRACK & DRILL PAD EARTHWORKS COMPLETED

### AHEAD OF IMMINENT DRILLING

### COPPER - GOLD – SILVER

**TechGen Metals Limited** (“TechGen” or the “Company”) is pleased to announce that earthworks for access tracks and drill pads has now been completed at the 100% owned Mt Boggola Project. The Mt Boggola Project is located in the Proterozoic-aged Ashburton and Edmund Basins in Western Australia. The project is located 60km south of Paraburdoo on Exploration Licences E08/2996, E08/3269 and E08/3830 covering a combined area of 394km<sup>2</sup>.

#### STRATEGIC HIGHLIGHTS

- Drill pads and site access tracks have now been completed for the imminent RC/Diamond drill program with the assistance of heritage monitors.
- Historic Newcrest drill pads (PB7, PB11, PB12 & PB13) have been re-opened for drill access to test well beyond historic drilling depths targeting IP targets MB1, MB2, MB3 and MB4.
- The Company remains fully funded for its exploration programs across four core projects during 2026.

**TechGen’s Managing Director, Ashley Hood, commented:** “*The completion of earthworks for the imminent RC and Diamond program is the final piece of preparation prior to the arrival of a UDR or Universal Drill Rig that has the capability to drill both RC and diamond core holes. We have the benefit of the historic Newcrest drill logs and data to allow RC pre-collars to be drilled before switching over to diamond core tails to test the priority IP targets. The Company looks forward to updating the market once drilling commences*”.

#### Authorisation

For the purpose of Listing Rule 15.5, this announcement has been authorised for release by the Board of Directors of TechGen Metals Limited.

#### Competent Person Statement

The information in this announcement that relates to Exploration Results is based on and fairly represents information compiled and reviewed by Andrew Jones, a Competent Person who is a member of the Australasian Institute of Mining

## ASX Announcement | ASX: TG1

and Metallurgy (AusIMM). Andrew Jones is employed as a Director of TechGen Metals Limited. Andrew Jones has sufficient experience that is relevant to the style of mineralisation and type of deposits under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 edition of the Australasian Code of Reporting of Exploration Results, Mineral Resources and Ore Reserves. Andrew Jones consents to the inclusion in this announcement of the matters based on his work in the form and context in which it appears.

### Previously Reported Information

Any information in this announcement that references previous exploration results is extracted from previous ASX Announcements made by the Company.

### Cautionary statement

Certain information in this announcement may contain references to visual results. The Company draws attention to the inherent uncertainty in reporting visual results. Visual estimates of mineral abundance should never be considered a proxy or substitute for laboratory analyses where concentrations or grades are the factor of principal economic interest. Visual estimates also potentially provide no information regarding impurities or deleterious physical properties relevant to valuations.

### Forward Looking Statements

Certain information in this document refers to the intentions of TechGen, however these are not intended to be forecasts, forward looking statements, or statements about the future matters for the purposes of the Corporations Act or any other applicable law. Statements regarding plans with respect to TechGen's projects are forward looking statements and can generally be identified using words such as 'project', 'foresee', 'plan', 'expect', 'aim', 'intend', 'anticipate', 'believe', 'estimate', 'may', 'should', 'will' or similar expressions. There can be no assurance that the TechGen's plans for its projects will proceed as expected and there can be no assurance of future events which are subject to risk, uncertainties and other actions that may cause TechGen's actual results, performance, or achievements to differ from those referred to in this document. While the information contained in this document has been prepared in good faith, there can be given no assurance or guarantee that the occurrence of these events referred to in the document will occur as contemplated. Accordingly, to the maximum extent permitted by law, TechGen and any of its affiliates and their directors, officers, employees, agents and advisors disclaim any liability whether direct or indirect, express or limited, contractual, tortious, statutory or otherwise, in respect of, the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).
