Changes in controlled entities

The Group incorporated two new entities during the period namely Northern Star (Alaska Range) Pty Ltd and Northern Star Surface Mining Pty Ltd, and acquired another entity namely Mt Roe Mining Pty Ltd. Also during the period, the Group wound up Northern Star (Beyondie) Pty Ltd, Northern Star (Domain Mining) Pty Ltd and Northern Star (Winterwhite) Pty Ltd which were acquired as part of the De Grey Mining Ltd acquisition in the prior period.

APPENDIX 4D: HALF YEAR REPORT FOR THE PERIOD ENDED 31 DECEMBER 2025

Associate and joint venture entities

Associates are all entities over which the Group has significant influence but not control or joint control. Investments in associates are accounted for using the equity method of accounting after initially being recognised at cost.

The Group's interests in Joint Ventures are included in the table below.

Joint Ventures	Principal Activities	31 December 2025	31 December 2024
Kalbara JV	Exploration	75.46 %	75.29 %
Zebina JV	Exploration	80.00 %	80.00 %

Alaska Range JV ⁽²⁾	Exploration	15.00 %	— %
Farno JV	Exploration	75.00 %	— %

The joint arrangements listed above (excluding Alaska Range Joint Venture which is incorporated) are classified as joint operations and are not separate legal entities. They are contractual arrangements between participants for the sharing of costs and outputs and do not themselves generate revenue and profit. The joint operations are accounted for in accordance with the Group's accounting policy set out in the notes to the consolidated annual financial report as at 30 June 2025.

Audit

This Appendix 4D is based on the attached half year financial report which has been reviewed by the Group's auditors, Deloitte Touche Tohmatsu. A copy of Deloitte's unqualified review report can be found on page 34.

- (1) During the half year ended 31 December 2025, the Group established a joint venture with Zenith Energy (EGP JV) Pty Ltd to provide reliable and sustainable power to the KCGM Operations in Kalgoorlie, Western Australia. The power solution comprises a 120MW thermal generation facility, together with a 132kV transmission network and associated substations, to be developed, owned and operated through the joint venture, as well as a contracted renewable power solution integrating 256MW of wind generation, 138MW of solar photovoltaic capacity, and a 138MW/300MWh battery energy storage system. The thermal generation component is expected to be commissioned in FY28, with the renewable generation facilities expected to be commissioned in FY29.
- (2) During the half year ended 31 December 2025 the Group entered into an incorporated joint venture with PolarX providing the company an earn-in right into the Alaska Range Project.

DIRECTORS' REPORT

REVIEW OF OPERATIONS AND RESULTS

OVERVIEW OF THE GROUP'S PRINCIPAL ACTIVITIES

The Group's principal continuing activities during the period consisted of:

- exploration, development, mining and processing of gold deposits and sale of gold derived from the:
 - Kalgoorlie Production Centre in Western Australia,
 - Yandal Production Centre in Western Australia; and
 - Pogo Production Centre in Alaska; and
- exploration of gold deposits in Western Australia and Alaska.

MINE OPERATIONS REVIEW

Mined ore has been sourced from the KCGM, Carosue Dam, Kalgoorlie Operations, Jundee, Thunderbox Operations and Pogo gold mines. During the period, a total of 729,116 (1H FY25: 804,140) ounces of gold was sold at an average price of A\$4,670 (1H FY25: A\$3,562) per ounce, with an all-in sustaining cost for the period of A\$2,720 (1H FY25: A\$2,105) per ounce sold.

EXPLORATION REVIEW

During the half year ended 31 December 2025, \$102.5 million was invested in exploration related activities as focus continues on significant life-of-mine extensions and in-mine growth.

Included in Exploration is the Hemi Development Project located in the Pilbara region of Western Australia. Northern Star acquired control of the Hemi project by way of a scheme of arrangement on 5 May 2025. During the half year, the Group continued its evaluation of the Mineral Resources and Ore Reserves estimates for the Hemi Development Project and intends to report estimates for the Hemi Development Project in the Annual Mineral Resources and Ore Reserves Statement for the 12 months ending 31 March 2026.

(1) Net profit after tax is statutory profit (NPAT). EBITDA, underlying EBITDA and Cash Earnings are non-GAAP measures and have been reconciled to NPAT in the tables below. Cash Earnings is defined as Underlying EBITDA less sustaining capital, net interest paid and corporate income tax paid.

(2) Underlying net profit after tax is calculated as Net profit after tax, plus: impairment charges (\$77.6 million) less: profit on disposal of property, plant and equipment (\$2.7 million), foreign exchange on net unhedged USD Senior Unsecured Notes (\$8.6 million) and insurance proceeds received (\$1.5 million) and the associated tax on the above adjustments at the Australian corporation tax rate of 30% (\$19.4 million).

(3) Free cash flow is calculated as operating cash flow less investing cash flow as outlined in the Group's Cash Flow Statement.

(4) Underlying free cash flow is calculated as Free cash flow plus movement in bullion (\$86.8 million) less payments for equipment financing and leases for operating assets (\$135.7 million), less maturation of term deposits (\$105.1 million).

DIRECTORS' REPORT

Income Statement & Cash Earnings

The results and commentary below relate to the six months ended 31 December 2025 during which the Group reported a statutory profit after tax of \$714.4 million, a forty-one percent increase from the prior year (1H FY25 \$506.4 million), primarily driven by the increase in the average realised gold price during the period. This was partially offset by higher cost of sales driven by additional activity in both underground and open pit operations across the Group and increases to input costs, royalties and depreciation and amortisation.

Revenue increased nineteen percent to \$3,414.3 million primarily due to a thirty-one percent increase in average realised gold price (1H FY26: \$4,670 per ounce; 1H FY25: \$3,562 per ounce). Gold sold was lower at 729,116 ounces compared with 804,140 ounces for the period ended 31 December 2024. The main contributors to the lower gold sold compared to the prior half year were Jundee, Thunderbox operations and Pogo. At Jundee this was predominantly due to the impact of the localised structural failure in the crushing circuit which occurred in early October and had an impact on production during the second quarter. At Thunderbox operations, gold sales were adversely impacted by lower mined grades from the open pit and unplanned processing downtime associated with carbon-in-leach tank failures. At Pogo, gold sales were adversely affected by lower mined grades resulting from underground mining dilution.

Cost of sales increased nine percent to \$2,182.4 million (1H FY25: \$1,996.9 million) from the prior half year driven by higher mining activity across the Group at both underground and open pit operations, inflationary factors experienced across labour and contractor rates, higher maintenance costs across the Group's processing facilities, increased amortisation, depreciation and royalties (from higher realised gold prices during the period).

Non-cash impairment charge of \$77.6 million was recognised in respect of exploration and evaluation assets.

Corporate, technical and projects cost increased fifteen percent compared to the prior comparative period to \$96.4 million (1H FY25: \$83.9 million) driven by additional staff and administration costs to support the Company's growth portfolio following acquisition of the Hemi project.

Finance costs were \$70.5 million for the six months ended 31 December 2025, being \$6.8 million higher than the prior comparative period, primarily from additional investment in equipment fleet, which has been financed, to underpin execution of the Group's organic growth plans and an increase in accretion costs for the period following the increase in rehabilitation provisions recorded at 31 December 2024.

As a result of the activities outlined above, the Group recorded a forty-one percent increase in net profit after tax for the half year ended 31 December 2025 compared to the prior half year ended 31 December 2024.

The Group recorded a four percent decrease in Cash Earnings for the half year ended 31 December 2025 (\$1,100.4 million) compared to the prior half year ended 31 December 2024 (\$1,145.9 million) primarily due to higher revenue, driven by the increase in realised average gold price, offset by a \$397.0 million increase in corporate tax payments and an increase of \$123.4 million in sustaining capital spend during the six-month period ended 31 December 2025.

Balance Sheet

Current assets as at 31 December 2025 were \$2,362.3 million (30 June 2025: \$2,973.4 million) with Cash and cash equivalents of \$865.0 million (30 June 2025: \$1,585.1 million), Receivables and other assets of \$570.6 million (30 June 2025: \$602.8 million) and Inventories of \$870.9 million (30 June 2025: \$627.8 million). The decrease in Cash and cash equivalents was due to higher income tax payments totalling \$437.4 million, an increase in capital investment and the \$415.5 million of dividends paid to shareholders (net of dividend reinvestment program) (1H FY25: \$279.9 million) during the period. The decrease in Receivables and other assets was due to a reduction in prepayments relating to deposits paid to secure open pit mining equipment which was delivered in the period, partially offset by higher bullion awaiting settlement compared to the prior period (increase of \$86.8 million). The increase in current inventories relates primarily to an increase in the value of short term stockpiles at KCGM.

Non-current assets increased by five percent to \$18,335.3 million (30 June 2025: \$17,459.0 million) primarily due to capital investment in property, plant and equipment driven by the continuation of the KCGM Mill Expansion Project, investment in

DIRECTORS' REPORT

mine and processing infrastructure across the Group and additions to underground and open pit fleet. At 31 December 2025, non-current inventories were \$1,362.7 million (30 June 2025: \$1,280.0 million) predominantly held at KCGM.

The Group's current liabilities have decreased \$277.8 million to \$1,356.1 million at 31 December 2025 (30 June 2025: \$1,633.9 million) due to the FY25 income tax balancing payment being made during the period. Current and non-current borrowings increased consistent with the increased investment in equipment fleet financed during the period. Landholder duty obligations arising from the acquisition of De Grey and Saracen are classified within current provisions.

At the end of the reporting period, the Group had \$1,500.0 million (30 June 2025: \$1,500.0 million) in undrawn corporate facilities (maturity dates of December 2027 and December 2028 across two equal tranches) and US\$600.0 million notes drawn, maturing in April 2033.

Cash Flow

Cash inflows from operating activities for the half year ended 31 December 2025 were \$1,031.2 million, a decrease of \$222.7 million when compared to the previous corresponding period. Receipts from customers were \$3,332.1 million, up eighteen percent compared to the prior period, due to a thirty-one percent increase in average realised gold price. Payments to suppliers and employees increased twenty-two percent due to increased underground and open pit mining activity, inflationary factors experienced across labour and contractor rates, and higher crushing and maintenance costs across the Group's processing facilities and royalties (due to higher realised gold prices) during the period. Corporate tax payments were higher in 1H FY26, totalling \$437.4 million, with \$275 million relating to FY25 income tax paid during the period, and the Company's monthly Australian income tax instalment obligations normalising after prior periods where the Company was utilising tax losses.

Cash outflows from investing activities increased by forty percent to \$1,197.1 million. The Group continues to invest in organic capital projects, with outflows including payments for plant and equipment (including the KCGM Mill Expansion Project) of \$671.9 million, investment in mine properties of \$519.7 million and payments for exploration assets of \$113.4 million. Offsetting these investments was \$105.1 million of cash inflows from term deposits which matured.

Cash outflows from financing activities were \$551.2 million for the half year ended 31 December 2025, compared to an outflow of \$494.5 million for the half year ended 31 December 2024. The Company continued to deliver substantial returns to shareholders in line with the dividend policy of twenty to thirty percent payout of Cash Earnings, with \$415.5 million of dividends paid to shareholders (net of dividend reinvestment plan) (1H FY25: \$279.9 million). In addition, \$135.7 million of repayments of equipment financing and leases were made (1H FY25: \$109.4 million).

DIRECTORS' REPORT

Dividends Paid

Dividends paid to members during the financial period were as follows:

	31 December 2025	31 December 2024
	\$M	\$M
Final ordinary fully franked dividend for FY25 of 30.0 cents (HY25: unfranked dividend for FY24 of 25.0 cents) per fully paid ordinary share paid on 25 September 2025 (HY25: 26 September 2024)	429.0	287.3
	429.0	287.3

Dividends recommended but not yet paid

In addition to the above dividends, since the end of the financial period the Directors have recommended the payment of an interim ordinary fully franked dividend of \$357.7 million (25 cents per fully paid share) to be paid on 26 March 2026 out of retained earnings at 31 December 2025.

Significant changes in the state of affairs

The financial position and performance of the Group was particularly affected by the following events and transactions during the reporting period:

- As announced in the Operational Update to the ASX on 2 January 2026, the Group's gold sales had been impacted a number of isolated negative events at the Groups operations;
 - At KCGM reduced throughput in the processing plant because of a primary crusher failure, which impacted production;
 - At Jundee recovery works took longer than planned to remediate the localised structural failure in the crushing circuit which occurred in early October, with a return to normal operations expected during the March quarter.
 - At Thunderbox operations, gold sales were impacted by continued lower mined grades from the Orelia open pit and unplanned processing downtime associated with carbon-in-leach tank failures.
 - At Pogo gold sales were affected by lower mined grades due to underground mining dilution (both development and stoping areas).
 - At South Kalgoorlie, in early October 2025, a wall slip occurred in the historic open pit, temporarily affecting infrastructure for the underground mine.
- During the year half year ended 31 December 2025, the Group benefited from a higher average realised gold price of \$4,670 per ounce (1H FY25: \$3,562 per ounce).
- The Group announced a positive final investment decision for the KCGM Mill Expansion Project located in Kalgoorlie, Western Australia, on 22 June 2023. During the half-year ended 31 December 2025, Northern Star advanced structural, mechanical, electrical and piping works for the Mill Expansion. The capacity of KCGM's processing circuit, centred on the Fimiston Processing Plant, will increase the overall capacity to 27Mtpa by FY29. The cost of this work has been capitalised during the period to capital works in progress within the property, plant and equipment balance in the Consolidated Statement of Financial Position with the cash flows being recorded within payments for property, plant and equipment within the Consolidated Statement of Cash Flows.

There were no other significant changes in the state of affairs of the Group that occurred during the period under review.

DIRECTORS' REPORT

Matters subsequent to the end of the half year

Subsequent to the period ended 31 December 2025 the Company announced an interim fully franked dividend of 25 cents per share, with a record date of 5 March 2026 and a payment date on 26 March 2026.

On 5 February 2026, the Group completed its divestment of Northern Star (Tanami) Pty Ltd, which held its 50% interest in the Central Tanami Project Joint Venture, to MGX Resources Limited for cash consideration of \$50 million.

No other matter or circumstance has arisen since 31 December 2025 that has significantly affected, or may significantly affect, the Group's operations, results or state of affairs, or may do so in future years.

Performance in relation to environmental Regulation

The Group's exploration, mining and processing operations are subject to Commonwealth of Australia, Western Australian, State of Alaska and Federal US legislation which regulates the environmental aspects of the Group's activities, including discharges to the air, surface water and groundwater, and the storage and use of hazardous materials. The Group is not aware of any material breach of environmental legislation and regulations applicable to the Company's operations during the 6 months to 31 December 2025 which have not been notified to the regulators. The Group continues to comply with environmental regulations in all material respects.

Auditor's Independence Declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 11.

Rounding of Amounts

The Company is of a kind referred to in ASIC Legislative Instrument 2016/191 as amended on 27 June 2022 by ASIC Corporations (Amendment) Instrument 2022/519, relating to 'rounding off' of amounts in the financial statements. Amounts in the financial statements have been rounded off in accordance with the instrument to the nearest million dollars.

This report is made in accordance with a resolution of Directors under section 306(3) of the *Corporations Act 2001* dated 11 February 2026 and authorised for release by the Board of Directors.

NOTES TO THE FINANCIAL STATEMENTS

1. Corporate information

The financial report of Northern Star Resources Ltd (referred to as 'Northern Star', the 'Company' or the 'Group') for the half year ended 31 December 2025 was authorised for issue in accordance with a resolution of the Directors on 11 February 2026. Northern Star is a for-profit entity, incorporated and domiciled in Australia where its shares are publicly traded.

2. Basis of preparation of half year report

These condensed consolidated interim financial statements for the half year reporting period ended 31 December 2025 have been prepared in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. Compliance with AASB 134 ensures compliance with International Financing Reporting Standard IAS 34 *Interim Financial Reporting*. These condensed consolidated interim financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2025 and any public announcements made by Northern Star during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*. The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period. The condensed consolidated financial statements have been prepared on the basis of historical cost, except for the revaluation of financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

(a) New and amended standards adopted by the Group

The Group has adopted all the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are relevant to its operations and effective for an accounting period that begins on or after 1 July 2025. Set out below are the new and revised Standards and amendments thereof effective for the current half-year that are relevant to the Group:

Pronouncement	Impact
AASB 2023-5 Amendments to Australian Accounting Standards – Lack of Exchangeability	Specifies how to assess whether a currency is exchangeable and how to determine the exchange rate when it is not. The Group does not currently operate in a location where in any jurisdiction where the currency is not exchangeable at the measurement date. The Group operates in Alaska, United States of America (USA) which uses the United States Dollar.

3. Segment information

(a) Description of segments and principal activities

The Group's Executive Committee is the Group's Chief Operating Decision Maker, consisting of the Managing Director and Chief Executive Officer, Chief Financial Officer, Chief Operating Officer, Chief Technical Officer and Chief Geological Officer, examine the Group's performance and have identified seven reportable segments relating to the operations of the business.

The Group's reportable operating segments are:

- 1) KCGM, WA Australia - Mining and processing of gold
- 2) Kalgoorlie Operations, WA Australia - Mining and processing of gold
- 3) Carosue Dam, WA Australia - Mining and processing of gold
- 4) Pogo, Alaska USA - Mining and processing of gold
- 5) Jundee, WA Australia - Mining and processing of gold
- 6) Thunderbox, WA Australia and Bronzewing, WA Australia - Mining and processing of gold
- 7) Exploration - Exploration and evaluation of gold mineralisation, including the Hemi Development Project acquired during the year ended 30 June 2025

NOTES TO THE FINANCIAL STATEMENTS

An operating segment is a component of the Group that engages in business activities from which it may earn revenues or incur expenses.

The Executive Committee has determined the Group to have seven operating segments (Kalgoorlie Operations, Jundee, Pogo, KCGM, Thunderbox (including Bronzewing), Carosue Dam, and Exploration). As in the prior year, Kanowna Belle and South Kalgoorlie are considered as one and have been presented as one reporting segment (Kalgoorlie Operations) and Bronzewing operations have been included in the Thunderbox operating segment.

Exploration comprises all projects in the exploration and evaluation phase of the Group including the Hemi Development Project. These include the Group's regional prospects as well as ongoing exploration programmes at the Group's respective sites. Where related exploration assets are transferred to mine properties from the exploration segment in the future, these will be incorporated into the relevant operating segment.

An analysis of segment revenues is presented in note 4(a).

NOTES TO THE FINANCIAL STATEMENTS

(c) Segment EBITDA

Segment EBITDA is a non-IFRS measure, being earnings before interest, tax, depreciation and amortisation and is calculated as follows: profit before income tax plus depreciation, amortisation, impairment, share based payments, corporate, technical services, projects and finance costs, less interest income.

Interest income, corporate related finance costs and acquisition costs are not allocated to the operating segments as this type of activity is driven by the central treasury function which manages the cash position of the Group.

Segment EBITDA reconciles to profit before income tax from continuing operations for the half year ended 31 December 2025 as follows:

	31 December 2025	31 December 2024
	\$M	\$M
Segment EBITDA	1,959.1	1,490.4
Other income and expense	20.0	7.3

Amortisation	(492.6)	(415.6)
Impairment of assets	(77.6)	(24.7)
Profit before income tax	1,035.6	733.9

(d) Segment Assets

Segment assets are measured in the same way as in the financial statements. These assets are allocated based on the operations of the segment and the physical location of the asset.

Reportable segments' assets are reconciled to total assets as follows:

	31 December 2025	30 June 2025
	\$M	\$M
Segment assets	19,311.3	19,035.1
Unallocated:		
Financial assets	32.1	15.8

(i) Acquisitions

During the current period, the Company acquired additional mining tenements located in the vicinity of its Hemi Development Project through the acquisition of Mt Roe Mining Pty Ltd from Mantle Minerals Limited for consideration of \$13.5 million.

During the year ended 30 June 2025 the Company implemented the acquisition of De Grey Mining Ltd by way of a court-approved Scheme of Arrangement. Refer to the 2025 Annual Report for further transaction details.

(ii) Impairment

At each reporting date, the Group undertakes an assessment of the carrying amount of its exploration and evaluation assets. During the period the Group identified indicators of impairment on certain exploration and evaluation assets under AASB 6 *Exploration for and Evaluation of Mineral Resources*. As a result of this review, an impairment loss of \$77.6 million (31 December 2024: \$24.7 million) has been recognised in the statement of profit or loss and other comprehensive income in relation to areas of interest where no substantive future exploration and evaluation activities are expected.

Total borrowings		168.9	1,234.1	1,403.0	128.2	1,133.5	1,261.7

(i) US\$600 million Guaranteed Senior notes (Unsecured loans)

On 12 April 2023 Northern Star issued USD\$600 million Guaranteed senior notes ("Notes") due for repayment 12 April 2033 with an interest coupon of 6.125%. The notes were issued by Northern Star Resources Ltd, are unsecured and have been guaranteed by certain subsidiaries of Northern Star Resources Ltd. The interest on the notes is payable semi-annually on 12 April and 12 October.

The fair value of the US\$600 million Notes as at 31 December 2025 is A\$950.6 million based upon a level 2 fair value input, and the carrying value of the notes is included within Unsecured loans in the disclosure above.

(ii) Secured asset financing

Secured asset financing amounts are interest-bearing borrowings secured over Group owned plant and equipment. The term of the borrowings is between three to five years. The interest rates are either fixed or variable and payable from the inception of the borrowings. These liabilities are secured by assets classified as equipment with a written down value of A\$542.2 million (30 June 2025: A\$382.1 million)

The fair value for Secured asset financing is not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short-term nature.

(iii) Financing arrangements

On 1 December 2023 the Group refinanced its corporate bank facilities with maturity dates of 1 December 2027 and 1 December 2028 across two equal tranches totalling A\$1,500.0 million. At the end of the reporting period, the facilities remained fully undrawn (30 June 2025: \$1,500.0 million undrawn). Capitalised borrowing costs relating to the refinance have been recognised as a non-current prepayment.

As at the end of the reporting period, the Group had:

- Revolving credit facility limit of A\$1,500.0 million which was undrawn at 31 December 2025;
- A\$50 million contingent instrument facilities, drawn down by A\$42.5 million; and
- US\$99.5 million contingent instrument facilities, drawn down by US\$95.7 million.

As at the end of the prior reporting period, the Group had:

- Revolving credit facility limit of A\$1,500.0 million which was undrawn at 30 June 2025;
- A\$50 million contingent instrument facilities, drawn down by A\$42.5 million; and
- US\$99.5 million contingent instrument facilities, drawn down by US\$95.7 million.

These facilities are subject to financial covenants which are tested semi-annually on 30 June and 31 December each year. The covenants measure the Group's leverage ratio, net worth ratio and Guarantor's coverage tests. The Group has complied with the covenants at 31 December 2025 (and 30 June 2025). The Group expects to remain in compliance with the covenants in the next 12 months.

18. Commitments

(a) Capital commitments

	31 December 2025	30 June 2025
	\$M	\$M
Property, plant and equipment	649.1	830.1

The property, plant and equipment capital commitments included:

- \$176.6 million (30 June 2025: \$242.8 million) in relation to mining fleet updates across the Group.
- \$368.8 million (30 June 2025: \$412.0 million) in relation to the KCGM Mill Expansion Project and Operational Readiness.
- \$38.4 million (30 June 2025: \$108.8 million) in relation to the Hemi Development Project. Further details on the acquisition of De Grey Mining Ltd is included in the 2025 Annual Report.

(b) Gold delivery commitments

Australian dollar gold delivery commitments as at 31 December 2025 were as follows:

	Gold for physical delivery (Ounces)	Weighted average contracted sales price (A\$)	Value of committed sales (A\$M)
Within one year	610,000	3,232	1,972
Later than one year but not later than five years	507,500	3,456	1,754
Total	1,117,500	3,334	3,726

There were no US dollar gold delivery commitments as at 31 December 2025.

(c) Other Commitments

During the half year ended 31 December 2025, the Group entered into a long-term 25 year electricity supply agreement to provide reliable and sustainable power to the KCGM Operations in Kalgoorlie, Western Australia. The power solution comprises a 120MW thermal power facility, together with a 132kV transmission network and associated substations, to be developed, owned and operated through a joint venture with Zenith Energy (EGP JV) Pty Ltd, as well as a contracted renewable power solution integrating 256MW of wind generation, 138MW of solar photovoltaic capacity, and a 138MW/300MWh battery energy storage system.

The thermal generation component is expected to be commissioned in FY28, with the renewable generation facilities expected to be commissioned in FY29. Each component is subject to the satisfaction of conditions precedent and conditions subsequent, including environmental and regulatory approvals.

The electricity supply agreement has been determined to contain a lease under AASB 16 Leases. A right of use asset and corresponding lease liability will be recognised when the relevant assets are commissioned and KCGM begins to receive electricity. Once fully commissioned, the annual minimum cost to the Group under the arrangement is forecast to be approximately \$131 million.

In relation to the thermal power facility and associated transmission infrastructure, the Group's future expected expenditure is A\$155 million across FY26 and FY27. As at 31 December 2025, the Group's share of committed expenditure was \$21 million as included within note 18 (a) above. These commitments relate primarily to the procurement of long lead items, including high efficiency dual fuel generators and associated auxiliary equipment and control systems.

Independent Auditor's Review Report to the Members of Northern Star Resources Ltd

Conclusion

We have reviewed the half-year financial report of Northern Star Resources Ltd (the "Company") and its subsidiaries (the "Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2025, and the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of cash flows and the condensed consolidated statement of changes in equity for the half-year ended on that date, notes to the financial statements, including material accounting policy information and other explanatory information, and the directors' declaration as set out on pages 12 to 33.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- Complying with Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Half-year Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional and Ethical Standards Board ("the Code") that are relevant to our audit of the annual financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibilities for the Half-year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410

INDEPENDENT AUDITOR'S REPORT

Deloitte.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
