Improved profitability as turnaround strategy progresses

Articore continues to execute its turnaround strategy, delivering a material improvement in profitability while strengthening the foundations for sustainable growth.

1H FY26 highlights

- MPR trend improving, with the decline moderating to -3.2% in 2QFY26 (from -6.6% in 1QFY26), reflecting improved paid marketing effectiveness, data-driven pricing and more targeted promotional strategies
- Material margin expansion, with gross profit up 6.0% and GPAPA up 8.9% on 1H FY25, driven by supply-chain synergies and artist fee changes designed to strengthen marketplace dynamics
- Operating expenses (opex) down 4.3%, reflecting lower employee and software costs and continued cost discipline
- EBIT increased materially to \$12.1 million, the highest level in five years and representing a \$14.3 million uplift on 1H FY25
- FY26 EBIT guidance upgraded to \$6 million to \$10 million, previously \$2 million to \$8 million and underlying cash flow guidance tightened to the top end of its previous range, now \$8 to \$12 million

FY26 guidance and outlook

The Group delivered a solid performance against its FY26 priorities in the first half. In the second half, the Group will build on this momentum to accelerate its return to MPR growth. Key areas of focus include growing revenue through both acquiring new customers and increasing our repeat customer base, further leveraging AI across the Group to unlock operational efficiencies, and advancing the progression of its outsourced engineering capability to enhance scalability and performance.

Following the strong first-half performance, the Group now expects to deliver EBIT between \$6 and \$10 million in FY26, previously \$2 to \$8 million, and has tightened its underlying cash flow guidance to the top end of its previous range, now \$8 to \$12 million, previously \$5 to \$12 million.⁴

The Group continues to expect to deliver a GPAPA margin between 27% and 29%.⁴

Group CEO and Managing Director remarks

Vivek Kumar, Group CEO and Managing Director of Artcore, said, "Our first-half performance validates our turnaround strategy. We materially improved profitability, generating a \$14 million uplift in EBIT, expanded margins, and strengthened our marketplace revenue trajectory, while continuing to invest in platform capability and customer experience.

"With growing confidence in the momentum of our turnaround, we have raised FY26 EBIT guidance to \$6 to \$10 million, alongside underlying cash flow of \$8 to \$12 million. We enter the second half focused on disciplined execution and accelerating the improvements already underway to support future growth."

Endnotes

1. All references to dollar amounts or figures are in AUD unless stated otherwise.
2. Marketplace revenue is total revenue less creator revenue.
3. Underlying cash flow defined as operating EBITDA plus net interest earned, less lease related expenses (excluding the impact of lease impairments), payments for capitalised development costs and property, plant and equipment (PPE)
4. Our ability to achieve this aim is highly dependent on various factors including consumer demand, foreign exchange rates, geographic and product mix
5. Non-IFRS measures are presented to provide readers a better understanding of Articore's financial performance. Non-IFRS measures include gross profit, GPAPA, operating EBITDA, EBITDA, EBIT, opex and underlying cash flow. The non-IFRS measures are unaudited, however, they have been derived from the audited financial results. Prior year comparative figures have been restated to ensure consistency with current period reporting. As a result, these figures may differ from those presented in the statutory financial statements.
6. Constant currency. Reflects the underlying growth before translation to Australian dollars for reporting purposes. Redbubble sources about 87% of its marketplace revenue in currencies other than Australian dollars. TeePublic sources about 91% of its marketplace revenue in US dollars.
