Financial performance

- Sales were up +4.0% driven by ‘Big Moment’ focus, strong ‘famous for’ categories performance and good returns from in-store fixture investment.
 - Gross margin improved throughout Q2 to finish the half -170bps lower than PCP (Q1 down -300bps) with higher sales contribution (mix %) from key promotional events (Linen Lover event, Black Friday, Boxing Day) contributing to the lower margin across the period.
 - Total CODB % declined -50bps with improved store and warehouse operational efficiency offset by higher delivery costs for online orders (Q1 clearance activity), rents and key investments in people to support design and planning capability.
 - Underlying EBIT¹ of \$18.6m (down -10.0%), with >100% of this decline incurred in Q1.
- Sales up +1.9% with refurbished stores continuing to outperform other stores in the portfolio.
 - Gross margin broadly in-line with PCP at 51.0%, with the introduction of new product at higher margins, helping to offset the impact of the weaker AUD and elevated promotional activity.
 - CODB% increased due to negative LFL sales growth, combined with costs associated with new stores and new distribution centre/office.
 - Underlying EBIT¹ of \$5.8m (down -31.7%).
- Outstanding sales growth of +29.8%, cycling a strong period last year (+12.4%).
 - Australia sales +44.5% (LY: +27.5%)
 - New Zealand sales +8.2% (LY: -3.5%)
 - Gross margin improved in both markets, with new product innovation enabling higher initial margins and a reduction in the depth and frequency of promotional activity.
 - Results from the “shop-in-shop” trial in NZ continue to be positive – sales contribution in the period was \$1.2m.
 - Underlying EBIT¹ increased +45.5% to \$5.6m and Underlying EBIT margin increased +170bps to 15.3%.

Operations & Inventory

- Linen Lover members continue to contribute >80% of sales with more than 1 million members (net increase +1.3% since June 2025).
- Inventory closed down -9.5% on LY, with improved stock turn and quality.
- Warehouse efficiencies continue to drive improved customer service at a lower cost.
- ERP project on track for H1 FY27 go-live – key initiative to drive business improvements and value for FY27 and beyond.

- Progress made on improving the customer offer with the introduction of “made to order” and extended finance options.
- New warehouse and customer support office operating well.
- Inventory is up on last year due to the timing of shipments, new ranges and customer deliveries.

- Warehouse efficiencies continue to drive improved customer service.
- Inventory closed up +5.3% on LY and stock turnover increased supported by continued strong sales growth.
- Committed to open first standalone retail store in Queensland in May 2026. Second store open in Victoria (1H FY27).

Leadership

- Matt Edmonds appointed new Group CFO (ex Coles, Tesco), commenced February 2026.
- New Head of Merchandise Planning commenced January 2026.

- Leadership transition completed with new CEO Candice Deale (ex Freedom, Fantastic Furniture), commenced November 2025.
- New leaders in Retail Operations, Marketing & Digital, and Product.

- New Head of Merchandise Planning commenced February 2026.

Note: All reported movements are versus 1H FY25, unless stated otherwise.

Strong execution of ‘Big Moments’ and disciplined inventory management delivered record sales in 1H. Margin improved throughout the half after deep clearance activity in Q1.

For personal use only

- Total sales of \$229.4m, up +4.0% (+4.2% on a like-for-like basis).
 - Store sales up +0.6% and Online sales up +13.5% (28.9% of total sales).
 - Strong execution of ‘Big Moment’ events (Linen Lover events, Black Friday, Christmas gifting, Boxing Day) delivered solid growth across all key categories
 - Linen Lover membership increased by ~1.3% in the half and the program continues to contribute >80% of sales with more than 1 million members.

Gross margin declined -170bps in the half after a -300bps decline in Q1 as a result of elevated clearance activity.

Inventory quality was good at the end of the half and the brand is well placed to continue to improve gross margins in 2H.

Total CODB % declined -50bps with warehouse and store productivity improvements offsetting higher customer delivery costs (Q1 clearance activity), higher rents and key investments in design and planning capability.

Underlying EBIT of \$18.6m, down -\$2.0m (-10.0%) on 1H FY25, with >100% of the profit decline incurred in Q1.

Adairs – a tale of two quarters (Q1 v Q2)

After aggressive clearance activity in Q1, where gross margin declined -300bps on the prior year, Q2 benefited from improved inventory quality and higher margins. The improved margins through Q2 are expected to continue into 2H FY26.

Q1 FY26: “Clean house” and “test & learn”

Context

- ▶ Entered Q1 with excess stock carried-over of ~\$4m.
- ▶ Aggressive clearance activity implemented in July/August to reset stock levels and clear poor performing lines.
- ▶ Successfully executed an additional Linen Lover event in August.
- ▶ Undertook critical ‘test and learn’ promotions (ie, spend and save, bundles, etc.) to understand customer response to different types and cadence of promotional offers.
- ▶ Clearance activity increased variable costs with higher volumes and delivery costs at lower selling prices.

Results

- ▶ LFL Sales +4.3%, driven by the incremental Linen Lover event and higher clearance volumes at lower average selling price and margins.
- ▶ Gross profit adversely impacted by clearance activity with gross margin down -300bps on PCP.
 - ▶ Q1 Underlying EBIT down -\$3.0m on PCP¹.
 - ▶ With excess inventory cleared, the business exited Q1 with a better stock position.

Q2 FY26: Normalise promotions and execute in peak trading period

Operational reset

- ▶ Increased representation from new product ranges that started to arrive in-store for the peak trading period.
- ▶ More consistent and normal promotional cadence reflecting Q1 learnings.
- ▶ Strong execution through peak trade periods – sales from Big Moments exceeded plan and were well ahead of the prior year.
- ▶ Achieved market share growth in December – key strategic objective to increase market share leading up to Christmas.
- ▶ Increased throughput and productivity at the National Distribution Centre (NDC).

Results

- ▶ LFL Sales +4.0% with pleasing results from key seasonal categories and promotional events.
- ▶ Margins improved +260bps on Q1 but -90bps lower than PCP due to outperformance from key promotional events.
- ▶ Improved operational cost ratios from stores and NDC.
- ▶ Underlying EBIT +\$1.0m up on PCP¹.
- ▶ Improved quality of inventory and margin health heading into H2.

(1) Based on management accounts

After another challenging result in 1H FY26, the business is now resetting for improved performance under new leadership .

- ▶ Total sales of \$63.1m up +1.9%, (LFL sales -3.3%) with good results over Black Friday and Boxing Day promotional periods, but generally softer at other times

Refurbished stores continued to outperform other stores

Gross margin was down -20bps to 51.0%. New product and negotiations with suppliers enabled some product cost reductions which offset most of the higher promotional activity and the weaker AUD.

Key customer conversion initiatives launched in Q2, including ‘Made-to-Order’ and additional finance options through Latitude Finance. Both of these initiatives are assisting the store team to convert customers and deliver incremental growth. These options will be available for the whole second half.

Warehouse costs increased in the half following the relocation of the Victorian distribution centre and customer support office in May 2025. While other costs were actively managed, the weaker sales outcome led to a -31.7% decline in Underlying EBIT to \$5.8m.

Inventory is up on last year due to the timing of shipments, new ranges and customer deliveries.

Momentum maintained with sales up +29.8% and EBIT up 45.5%. Standalone retail stores to open in CY26 with two Australian stores confirmed.

- ▶ Record sales of \$36.5m, up +29.8%, driven by product innovation and continued growth in brand awareness and traffic.
 - Australia sales up +44.5% to \$24.1m, cycling strong PCP growth (1H FY25: +27.5%)
 - Brand awareness and traffic increased, with new customers responding to on-trend, great-value product.
 - Record Black Friday and Boxing Day sales at higher margin.
 - New Zealand trading improved, with sales up +8.2% (cycling -3.5% decline in PCP).
 - New ranges resonated well, but customers remain value-conscious.
 - Shop-in-shop store sales reached \$1.2m in New Zealand, providing insights for the upcoming standalone retail store launch.

Gross margins increased by +50bps to 60.1%. Whilst New Zealand continued to rely on offers to convert sales, new product at higher margins combined with less promotional activity in Australia supported overall margin improvement.

Operational costs were well managed, with total CODB declining by -110bps as a result of productivity improvements at the warehouse more than offsetting the higher customer delivery and marketing costs to support the sales growth.

Underlying EBIT increased by +45.5% to \$5.6m (15.3% of sales; +170bps v PCP).

Inventories

- ▶ Inventories across the Group declined with improved stockturns and active clearance strategies throughout the period.

Capital and project expenditure

- ▶ Group capital expenditure of \$6.4m included investment in new and refurbished stores and continued investment in digital initiatives across the Group.
- ▶ Project expenditure on cloud computing projects (largely reflecting the Adairs technology upgrade) of \$6.6m was also expensed during the year and has been excluded from underlying earnings (refer to Appendix 1).

Net debt

- ▶ Net debt decreased by \$14.0 million to \$53.6 million since June 2025. Approximately 0.8x Net debt / LTM Underlying EBITDA.

Dividend and Dividend Reinvestment Plan

- ▶ Fully franked final dividend declared of 5.5 cps (Record date: 11 March 2026; Payment date: 7 April 2026).

1

Key Seasonal Events

Playing to win in the moments that matter

- ▶ Create new reasons to shop Adairs to grow share and attract new customers at peak times eg Christmas gifting, Mothers Day.
- ▶ Curated seasonal ranges to drive incremental sales and engage new customers.
- ▶ Strong front of store product statements to showcase key products at big moments.

2

Elevating the Adairs Brand

Storytelling and experience to inspire customers.

- ▶ Enhanced Adairs' design handwriting with a signature style and elevated taste level to amplify product quality across core ranges.
- ▶ Clear customer style profiles to ensure balanced range and appeal to broad customer segments, including introducing premium, design-led ranges in our largest categories (eg bedlinen, bathroom, soft furnishings).
- ▶ New store fixtures will continue to be rolled out to enhance display capability and increase stock density – supporting the in-store execution of the Big Moments strategy.
- ▶ Our first New Concept Store will open in May 2026 at Bondi Junction, showcasing our next-generation customer experience.

For personal use only

3

Linen Lover Program

Delivering even greater value to Linen Lover members

- ▶ More than 1 million paid Linen Lover members contributing more than 80% of sales.
- ▶ New exclusive member events.
- ▶ Partnership with Qantas Frequent Flyer commenced in July 2025.
 - ▶ A key new element of the Linen Lover value proposition.
 - ▶ This new partnership is driving acquisition of new Linen Lover members with more than 20% of new members tagging their QFF number in their first transaction.
 - ▶ QFF tagged average transaction value is higher.
- ▶ Investing in data initiatives to improve customer insights and deliver more personalised communications.

4

Business Optimisation Program

Reducing CODB% and lifting productivity

Over the next 12 months we will progress a focused set of initiatives to structurally reduce CODB% and simplify operations, including:

- ▶ End to end value chain review to reduce costs and complexity throughout the supply chain.
- ▶ Reducing the width of the SKU range.
- ▶ Disciplined store portfolio optimisation—streamlining the network, simplifying operations and improving contribution margins. As leases expire, we will close smaller stores and use the Linen Lover program to retain customers and shift sales to nearby stores or online, strengthening overall profitability.

For personal use only

1 New leadership

- ▶ New CEO (Candice Deale, ex Freedom Furniture and Fantastic Furniture) appointed in November 2025.
- ▶ New leaders in Store Operations, Marketing/Digital and Product – experienced furniture executives to lead the next phase of growth.

2 New stores and store refresh program

- ▶ 6 of the top 15 stores have now been refurbished. This cohort have outperformed the rest of the store portfolio.
- ▶ Over the next 12 months, 3-5 stores will be refurbished, and one new store is confirmed to open in March (Tuggerah, NSW).
- ▶ Continued focus on new stores in Queensland and New South Wales.
- ▶ Market entry into Western Australia in 2027 under review.

For personal use only

3

Product strategy Design-led, accessible value

- ▶ Strengthening product range appeal through curation and adding more trend-driven furniture options in evolving colours, shapes and finishes.

Example - The Sofa Collective: rationalising the assortment to a narrower, deeper focus across our best-selling sofa ranges, with expanded configuration options.
- ▶ Improved range assortment planning to maximise sales of best sellers and retain in stock position and short delivery times – a key competitive point of difference.

4

Improved Marketing and Visual merchandising More aspirational, elevated customer communication

- ▶ Targeted marketing to expand customer reach and drive increased traffic online and into stores – as well as supporting new stores and new catchments.
- ▶ Increased marketing sophistication in the channels most relevant to customers.
- ▶ Using AI to produce high quality content for all channels at low cost.

1

Product Innovation

Mocka's product strategy delivered strong momentum in 1H FY26, with the successful introduction of new categories—outdoor, sofas/large items, youth and lighting—and continual 'newness' in existing categories driving sales and margin growth.

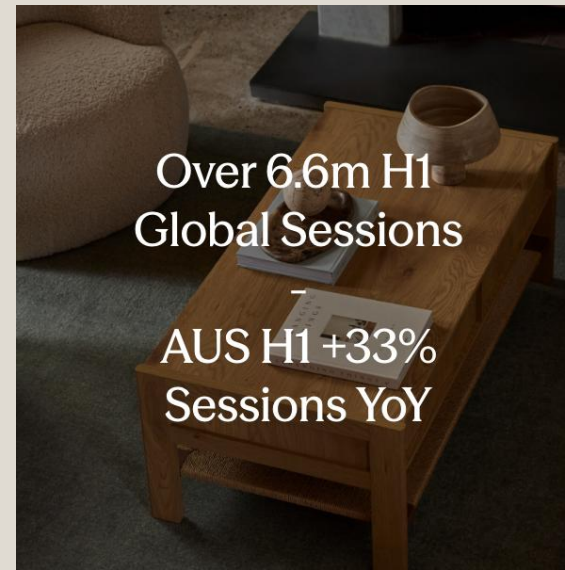

For personal use only

2

Brand Investment:

Mocka continued to strengthen its brand through targeted marketing and PR activity, improving awareness among core customer groups, refining the position of the brand and investing for further growth.

3 Retail store strategy

- ▶ Mocka's first standalone store will open in Maroochydore, Queensland in May 2026.
- ▶ Second store will open in Mornington, Victoria in Q2 FY27
- ▶ Targeting annual sales of \$2+ million p.a. per store
- ▶ Further roll out will be considered after the initial trading from the first two stores has been assessed

4 New Zealand market

- ▶ Shop-in-Shop (Tower Junction, NZ) has served as an effective omnichannel lab, delivering strong in-store results while generating insights now guiding Mocka's standalone store trial.

Notes:

- (1) **AASB 16 impact:** Under AASB 16, lease expenses are removed from occupancy expenses (COBD) and replaced with depreciation of lease assets and interest on lease liabilities over the relevant lease term.
- (2) **SaaS cloud computing project costs:** Non-recurring development costs associated with software-as-a-service (SaaS) projects that are not eligible for capitalisation as the Group does not control the SaaS.
- (3) **WMS transition costs:** Costs associated with the transition and implementation of the Adairs brand warehouse management system ("WMS").

The Adairs business unit's investments in technology will deliver material improvements in process efficiency and customer experience. At the centre of the technology upgrade program is a new ERP system, which has commenced and will be delivered in waves between FY27 and FY28.

Background

- Adairs implemented to Microsoft Dynamics AX (AX) in 2011 as its ERP and point of sale (POS) and has operated with various systems and integrations since, which have been heavily customised and are progressively becoming (or have become) unsupported, expensive to maintain, inefficient and legacy.
- A new Warehouse Management System (WMS) and Customer Engagement and Digital Marketing Platform were implemented in FY25. Both are performing well but not optimised due to the legacy AX system.
- Over the next 2 years Adairs will replace the legacy systems with a new, modern retail technology platform (Microsoft Dynamics 365), which will include POS, dynamic order management, loyalty management and a new data platform to create a single view of customer and product data.

Cost and phases of implementation

Total Cost:

Est. total project cost \$25-\$30m, across FY25-FY28.

The spend and benefits will roll out over 3 phases:

- 1 Replace legacy ERP with new, modern retail technology platform - Microsoft Dynamics 365**
- 2 Leverage new functionality to increase sales and margin and improve process efficiency**
Examples: Ship from store, flexible delivery options, tokenised payments, dynamic order management, mobile POS
- 3 Extend applications to drive growth**
Examples: Channel expansion (marketplaces, drop ship, international), smart inventory allocations, dynamic pricing and promotions

The data and technology upgrade will enable operational efficiency across the business whilst facilitating better decision-making and enhancing customer experience in stores and online. It will be easier to access and connect to emerging new technology and drive sales and margin growth through new functionality as outlined below:

For personal use only

Management:

Better data and insights to make faster and more informed decisions

Inventory productivity / merch planning:

Smart, AI enabled inventory allocations and replenishment. Merchandise planning and demand forecasting

Marketing effectiveness:

Better enable personalisation and segmentation. Loyalty management system.

Artificial Intelligence:

Simultaneous with these major projects, Adairs is implementing AI into everyday work practices and experimenting to unlock opportunities for greater productivity and better, faster decision-making.

In-store operations:

Mobile POS for roaming checkout and peak trade periods. Improved pricing engine for dynamic implementation (“smart pricing”), RFID for stock control

Customer Order Fulfilment:

Ship from store for online orders – greater online stock availability; flexible delivery options; drop ship and marketplaces

Digital channel:

AI enabled search engine optimisation; AI enabled website search and merchandising, including dynamic product recommendations

Risk:

Cyber security, more data control & visibility and internal process controls
