NOTE 1 BASIS OF PREPARATION OF HALF-YEAR REPORT

Statement of compliance

The half-year consolidated financial report is a general-purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. The consolidated half-year report does not include all the disclosures and notes of the type normally included in an annual financial report and shall be read in conjunction with the 30 June 2025 annual financial statements and any public announcements made by Black Cat during the period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

Basis of preparation

The consolidated financial statements have been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The consolidated half-year financial report was approved by the board of directors on 26th February 2026.

New, revised or amending accounting standards and interpretations not yet adopted

From 1 July 2025 the accounting standards applied in the Interim Financial Statements, were the same as those applied in the Group's last annual financial statements for the year ended 30 June 2025. The Group did not have to change its accounting policies or make retrospective adjustments. The Group has not elected to early adopt any new accounting standards, interpretations or amendments that have been issued but are not yet effective.

Significant estimates and assumptions

When preparing the interim condensed consolidated financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from these estimates.

The judgements, estimates and assumptions applied in the interim condensed consolidated financial statements including the key sources of estimation uncertainty, were the same as those applied in the Group's last annual financial statements for the year ended 30 June 2025.

The Group has prepared the financial report on the basis that it will continue to operate as a going concern which contemplates the realisation of assets and the settlement of liabilities in the ordinary course of business for at least 12 months beyond the date of signing the financial report. The Directors are satisfied this is appropriate having regard to the positive cashflows generated from operations over the last 12 months.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 2 SEGMENT INFORMATION

Operating segments are identified, and segment information disclosed, where appropriate, on the basis of internal reports reviewed by the Company's board of directors, being the Group's Chief Operating Decision Maker, as defined by AASB 8.

The Group has identified four reportable segments of its business:

- Total operations: mining and processing of gold;
- Mine development;
- Exploration: exploration and evaluation of gold mineralisation; and
- Other: corporate expenditures supporting the business during the period, adjustments and eliminations processed on consolidation and other items that cannot be directly attributed to the reportable operating segments are identified as 'Other' balances. The Group has formed a tax consolidation group and therefore tax balances have been included in the 'Other' grouping.

During the half-year to 31 December 2025, there have been no changes from prior periods in the measurement methods used to determine operating segments and reported segment profit or loss.

The reportable segment is represented by the primary statements forming these financial statements.
