REVIEW OF OPERATIONS

Beacon Minerals Limited (ASX:BCN) (Beacon or the Company) is pleased to present its review of operations for the half-year ended 31 December 2025.

PRODUCTION

- 14,194 ounces of gold produced in the six months ended 31 December 2025
- 456,110 dry tonnes milled in the six months ended 31 December 2025
- Gold sales for the six months were 13,900 ounces at an average sale price of \$5,927/oz for cash sale receipts of \$82 million
- Beacon had cash and term deposits of \$36.14 million and 4,706 ozs of gold in bullion on hand and in transit at the end of the period

FINANCIAL AND CORPORATE

- 3,640,559 Listed Options exercised during the six months, raising \$4.35 million
- A fully franked dividend of \$0.04 per share and a fully franked special dividend of \$0.01 per share was paid on 18 December 2025
- 40:1 consolidation of the issued capital of the Company was completed
- On-market share buy-back with Beacon able to buy back up to 9,391,920 fully paid ordinary shares in the Company
- Beacon advised that it has reviewed and elected to cancel its on-market share buy-back program
- Holding in Astral Resources (AAR) sold for \$6.76 million, Beacon has no holding in AAR
- Acquired Wealth of Nations tenements
 - Cash consideration of \$1,500,000 payable to Corinthian and Blue Tiger
- Sale of Timor Leste concessions to Tivan Ltd (ASX: TVN) ("TVN")
 - Cash consideration of \$250,000 paid to Beacon on settlement
 - Beacon issued \$250,000 in fully paid ordinary shares in TVN
- Sale of Mt Dimer tenements - M77/965, M77/957, M77/958 and E77/2518
 - Cash consideration of \$50,000 payable to Beacon
- Sale of Mt Dimer pre-emptive rights on M77/0427, M77/0428, L77/0083, L77/1035, L77/0147 and L77/0329 should the Company propose to sell or receive a bona fide offer for these tenements.
 - Cash consideration of \$150,000 payable to Beacon
- Subsequent to the period end Beacon announced that it had entered into a binding Heads of Agreement to sell 100% of the shares in MacPhersons Reward Pty Ltd to Forrestania Resources Limited (ASX: FRS)

JAUARDI MILL EXPANSION

- Construction Manager appointed
- Revised capital budget of \$11.5m approved and long lead items identified and ordered
- Civil works commenced
- Pay back of capital expenditure is less than 3 years reflecting improved recoveries and greater throughput

- **Lady Ida Iguana Resource Development Drill Program**
 - **5 Year Resource Development plan**
 - **Primary focus on converting Inferred Mineral Resource to Indicated Resources**
 - 200,000 metres of Reverse Circulation (RC) drilling
 - 10,000 metres of Diamond (DD) drilling
 - **Increasing personnel at Beacon to facilitate the development strategy**
 - **FY 2026 Resource Development plan**
 - 40,000 metres of RC commenced early October 2025
 - 2,000 metres of DD commenced early October 2025
 - Results for the Resource Development drill program were released in the ASX announcement on 9 December 2025 titled *“First Batch of Iguana Resource Development Assays Received”*

- **Iguana Deposit Laterite**
 - Mineral Resource for Iguana Laterite deposit of 1.2 million tonnes @ 0.92 g/t Au for 36,000 ounces of gold
 - Ore Reserve for Iguana Laterite deposit of 972k tonnes at 0.94 g/t for 29,400 ounces of gold

PRODUCTION UPDATE FOR THE SIX MONTHS ENDED 31 DECEMBER 2025**Iguana Operation**

Mining operations at the Iguana open pit commenced during Q2 25/26. 68,000 BCM of waste material was removed from the pit during Q2 25/26 with clearing of vegetation, removal of topsoil and preparation of the workshop pad being the main focus.

Hodari North Operation

Mining at the Hodari North pit commenced during Q2 25/26 under the Lady Ida Joint Venture Agreement with Lamerton and Geoda. For more information please see ASX release dated 6 December 2023 "Beacon Acquires Interest in the Lady Ida Gold Project". Hodari North is a small lateritic ore deposit located 500m southwest of the Lizard pit on tenement M16/264.

Figure 3: Hodari North Pit on 5 January 2026

MacPhersons Operation

Mining operations continued at the MacPhersons open pit during the half year ended 31 December 2025. As the project approaches designed mining depth the pit floor continued to remain under geological control with considerable grade increases in and around the ultramafic contacts.

Mining production rates were lower than previous quarters due to tight and confined working areas in the bottom of the MacPhersons pit. Ore volumes remained constant with the strip ratio reducing to 2:1

Quarterly mined ore volume totalled 40,000 bcm. Road haulage of ore to the Jaurdi mill continued at levels to maintain ore stocks

MacPhersons pit was completed in early February 2026.

Figure 4: MacPhersons Pit 5 January 2026

On 16 February 2026 Beacon announced that it had entered into a binding Heads of Agreement to sell 100% of the shares in MacPhersons Reward Pty Ltd to Forrestania Resources Limited. The proposed transaction forms part of the Company's strategy to rationalise its asset portfolio by monetising non-core assets, reducing ongoing holding costs and focusing on core projects located north of Coolgardie, including Lady Ida, Geko, Black Cat, Wealth of Nations and Mt Dimer.

The transaction provides for total consideration comprising \$5.0 million in cash and 36 million Forrestania shares, enabling Beacon to retain exposure to the future exploration potential of the MacPhersons Reward Project while strengthening the Company's balance sheet. Proceeds from the sale are intended to support working capital requirements and the continued development and expansion of the Jaurdi processing plant.

Iguana Deposit – Stage 2 Grade Control Drill program

Drilling and Resource efforts throughout the quarter have been focused on Iguana where Beacon completed its largest RC program to date, with 298 holes for 16,506m of drilling. Results from drilling were spectacular and continue to prove up the Iguana deposit as a corner stone asset for the business.

**Stage 2 Grade Control First batch**

Results for the Stage 2 Grade control was released on 11 August 2025 titled “*Stage 2 Grade Control Program Completed at Lady Ida Iguana Deposit*”. Significant high-grade intersections include:

Lady Ida Iguana Resource Development Drill Program

During the quarter Beacon's Board committed to a five year resource development strategy for the Iguana Deposit

- **5 Year Resource Development plan**
 - Primary focus on converting Inferred Mineral Resource to Indicated Resources
 - 200,000 metres of Reverse Circulation (RC) drilling
 - 10,000 metres of Diamond (DD) drilling
 - Increasing personnel at Beacon to facilitate the development strategy
- **FY 2026 Resource Development plan**
 - 40,000 metres of RC drilling
 - 2,000 metres of DD drilling

Beacon has engaged local Kalgoorlie drillers Raglan Drilling for the initial 10,000 RC metre program. Raglan brings over 20 years of exploration knowledge to the table. Boulder based Terra Drilling have been engaged for the 2,000-metre diamond program.

Iguana Deposit Lateritic Mineralisation

The Lateritic material occurs in bands of Iron Pisolites located near surface in the heavily oxidised unit. This mineralisation style provides relatively distinct beds of gold mineralisation which has been weathered from the primary in-situ material. Successful mining of Laterite material at Iguana is well recorded by prior owners.

Drilling was conducted in two stages due to the unknown extent of the Laterite mineralisation east of the known Iguana Mineralised Zone. Both drill programs have confirmed this mineralisation is extensive, with further potential along strike and yet to be tested.

Figure 7: Exposed Laterite Cross Sections annotated with material type

This photo is provided as a visual representation of the geological setting and style of mineralisation being targeted within the tenement. No visible mineralisation is reported in this image, and the photo does not represent any grade or resource estimate.

Iguana Deposit Laterite Mineral Resource Estimate

An updated Mineral Resource estimate was released in August 2025. For details of the Mineral Resource estimate, please see ASX release dated 5 August 2025 titled “Updated Laterite Mineral Resource for Iguana Deposit”.

A summary of the Mineral Resource is provided in Table 1 and details of the Mineral Resource inside the Iguana laterite pit are presented in Table 2.

Deposit	Cut-Off Grade	Mineral Resource Category	Tonnes (kt)	Grade (g/t Au)	Ounces (koz Au)
Iguana Deposit – Laterite	0.5 g/t	Measured	666	1.04	22

Table 2: Iguana Laterite Mineral Resource Estimate (contained in Iguana Laterite Pit)

Iguana Deposit Laterite Ore Reserve Estimate

The classification of Ore Reserve has been carried out in accordance with the recommendations of the JORC Code 2012. It is based on the density of drilling, estimation methodology and the mining method to be employed.

All Proved and Probable Ore Reserves have been derived from Measured and Indicated Mineral Resources.

The Ore Reserve was estimated based on extraction using owner operated conventional, open pit mining equipment and off-site milling at the Jaurdi CIP processing plant. Modifying factors for mining dilution and mining recovery have been applied. Contemporary in-house mining, processing and site costs have been utilised.

For personal use only

The Pre-Feasibility Study was conducted as of September 2025. The Study, prepared with an accuracy of +/- 15%, considered all relevant mining modifying factors, allowing an Ore Reserve to be estimated in accordance with the JORC Code. Classification of the estimate is shown in Table 3.

Deposit	Cut-Off Grade	Ore Reserve Category	Tonnes (kt)	Grade (g/t Au)	Ounces (koz Au)
Iguana Deposit – Laterite	0.53 g/t	Proved	608	1.02	19.9
		Probable	364	0.81	9.5
		Total	972	0.94	29.4

Table 3: Iguana Laterite Ore Reserve Estimate

Iguana Laterite February 2025 Ore Reserve Estimate

Beacon announced on 24 February 2025 the Pre-Feasibility Study for the Iguana Deposit on a 100% basis. Beacon engaged external consultants Minecomp Pty Ltd to undertake the Study for the Iguana Deposit which forms part of the Lady Ida Project. The Laterite proportion consisted of:

Deposit	Cut-Off Grade	Ore Reserve Category	Tonnes (kt)	Grade (g/t Au)	Ounces (koz Au)
Iguana Deposit – Laterite	0.55 g/t	Proved	180	1.56	9.1
		Probable	-	-	-
		Total	180	1.56	9.1

*Rounding errors may occur

Table 4: Iguana Laterite February 2025 Ore Reserve

Iguana Laterite Pre-Feasibility Study

The Pre-Feasibility Study was undertaken independently by Minecomp and is based on the following material modifying factors:

- Ore Reserves are situated on an approved mining tenement
- Key mining approvals have been granted
- Pit design gold price of A\$4,500/oz
- The Jaurdi processing facility utilizes conventional CIP methods
- The Jaurdi processing facility is located 43 kilometres by road
- An average metallurgical recovery of 82.5% has been applied
- The mining fleet was assumed to be owner operated and comprised of dozer rip and push, 90t haul trucks, 120t class excavator and matching ancillary equipment
- Mining dilution of 5% at 0.00g/t was applied to laterite ore
- Mining recovery of 95%
- No minimum mining widths were utilised
- Ore Reserve cut-off grade was 0.53 g/t gold (undiluted)
- Inferred Resources were assumed to be waste material
- Project implementation and management by Beacon’s own team in conjunction with contractors

The key study outcomes for the Iguana Laterite Project are included in Table 5 below. The estimated Ore Reserve, which constitutes 95% of the production target, has been prepared by competent persons in accordance with JORC Code 2012.

WEALTH OF NATIONS

On 22 August 2025 the Company advised that it had exercised the option on the Wealth of Nations tenements.

As part of this agreement Beacon has acquired the following tenements:

- M16/301
- M16/425
- M16/486
- P16/2627 (live – awaiting conversion)
- M15/570 (pending)

The Wealth of Nations tenements are located 10km’s NW of Beacon’s Jaurdi Gold Processing Plant and are accessed via existing haul roads.

For details on the key terms of the acquisition please see ASX release dated 22 August 2025 titled “*Beacon Exercises Wealth of Nations Option Agreement*”.

Pre-purchase drilling at the Wealth of Nations project comprised 11 targeted reverse circulation (RC) holes aimed at confirming and upgrading the existing non-JORC compliant resource. The drilling program returned positive results, providing confidence in the mineralisation and supporting the Company’s decision to exercise the option to acquire the project.

Work is well underway regarding further drill planning and database reviews with the outlook of having the Wealth of Nations project on Beacon’s Resource and Reserves by end of the 2026 financial year.

Beacon plans to conduct a more extensive drill program in early February 2026 with aims of extending the resource at depth.

EXPLORATION UPDATE

During the period Beacon commenced an extensive drill out of the Iguana deposit, utilising both Diamond and RC drilling to further the geological understanding, and resource size. Drilling results have been regularly released to the ASX and has demonstrated that the Iguana deposit is of significant size and scale.

Drilling efforts are planned to continue into the near future with an updated Reserve planned in Q3 2026 and a full update of both the Resource and Reserve at the end of the 2026 financial year.

Figure 8 – Two RC Rigs in Operation at Iguana.

During the period Beacon Minerals has maintained primary focus in the Ida region, with exploration targets on the 100% Beacon held tenure being conducted in parallel with the current extensive Resource Definition drill program ongoing at Iguana.

The Iguana project remains Beacon's primary focus, with the period seeing extensive drilling both by RC and Diamond Rig targeting mineralisation within, below and adjacent to the current declared Reserve Pit Shell. This work has facilitated an updated Resource and Reserve to be conducted. Results of this drilling have been regularly released on the ASX, demonstrating an increased mineralisation zone of the Iguana deposit. At current the deposit remains open at depth, strike and to the east.

The exploration work conducted on adjacent prospects were focused on auger soils program in-filling areas of low resolution, along with follow up AC drilling on known areas of gold anomalism. Results of this work have been promising and continued to demonstrate the extensive potential that the Ida region contains.

Work at Mt Dimer have remained on hold awaiting PoW approval from the Department. These are expected to be approved early 2026 and will facilitate drilling of known gold targets outside of Beacon's current resource later in the year.

GEKO PROJECT

The Geko project remains a mining project for Beacon's near future. Recent work on the Geko project has revolved around ore stockpile identification, with Beacon recently completing a mineralised waste dump drill-out with the aim to provide a JORC compliant Reserve on this stockpile for the end of year Resource and Reserve statement.

TIMOR-LESTE

On 5 November 2025 BCN entered into a binding term sheet with Tivan Ltd (ASX: TVN) ("TVN") for the sale of six concessions owned by Beacon.

On 13 February 2026 the Company advised that it had completed the sale of the six Timor Leste concessions to Tivan. At the reporting date, no costs had been capitalised in relation to the Timor Leste concessions.

MT DIMER

Work at the Mt Dimer project have been restricted by permitting, with work instead focused on desktop studies to identify new potential resources on the core tenements.

Beacon is confident of obtaining approval in the coming weeks for drilling, and plans to execute a targeted program on a number of zones of known mineralisation outside of Beacon's current resources later this year.

On 24 December 2025, the Company entered into a binding Tenement Sale Agreement with Forrestania Resources Limited (ASX: FRS) for the sale of the non-core Mt Dimer tenement package (note 10).

LADY IDA PROJECT

The Lady Ida Project consists of M16/262, M16/263, M16/264, L15/224, L16/58, L16/62, L16/103 and applications L16/138 and L16/142 (Lady Ida Project), which will become the ground subject to the Earn-In, JV and Tenement Transfer Agreement with Lamerton Pty Ltd (Lamerton) and Geoda Pty Ltd (Geoda).

Details of the Earn-In, JV and Tenement Transfer Agreement with Lamerton and Geoda which include:

- (a) the Company's wholly owned subsidiary Beacon Mining Pty Ltd (ACN 603 853 916) (Beacon Mining) will earn up to 50% beneficial ownership as a tenant in common of an undivided share in the Lady Ida Project;
- (b) Lamerton, Geoda and Beacon Mining will form an unincorporated joint venture to mine and develop the Lady Ida Project; and
- (c) Lamerton and Geoda will transfer 100% legal and beneficial ownership of the Lady Ida Project to Beacon Minerals once 72,500 ounces of gold have been recovered from the Lady Ida Project and verified in accordance with the terms and conditions of the Earn-In, JV and Tenement Transfer Agreement.

Entry into the Earn-In, JV and Tenement Transfer Agreement was approved by the Company's shareholders at a general meeting held on 9 August 2024.

During the six months 882 ounces of gold and 89.954 ounces of silver were owed to GL for the ore stockpiles and laterites, as detailed in Earn-In, JV and Tenement Transfer Agreement. GL incurred 50% of the costs in relation to the above and were paid to Beacon post 31 December 2025.

Consolidation

On 6 June 2025 the Company announced its intention to consolidate the issued capital of the Company at a ratio of 40:1 (**Consolidation**), with shareholder approval received on 7 July 2025.

The Company proposed the Consolidation for the following reasons:

1. The Company had 4.226 billion Shares and 0.533 billion Listed Options on issue, which represented a very large number when compared to its ASX-listed peer groups; and
2. It was anticipated that the Consolidation will result in a more appropriate and effective capital structure for the Company and a share price more appealing to a wider range of investors.

On 17 July 2025 the Company announced that the Consolidation was completed.

On Market Buy Back

For personal use only

Beacon announced on 21 July 2025 that it intended to undertake an on-market share buy back (**On Market Buy-Back**) of up to 9,391,920 fully paid ordinary shares in the Company (**Shares**). Beacon made available \$12.0 million towards the purchase of Shares via the On Market Buy-Back.

On 20 October 2025 Beacon advised that it has elected to cancel its on-market share buy-back program. The decision follows a sustained period of strong share price performance, during which the Board determined that the buy-back was no longer required.

NOTE 1: BASIS OF PREPARATION OF THE HALF-YEAR FINANCIAL REPORT

This Interim Financial Report ('2025 Half Year Report') for the half year ended 31 December 2025 has been prepared in accordance with AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

The Interim financial report is intended to provide users with an update on the latest financial statements of Beacon Minerals Limited ("Beacon" or "Parent") and its consolidated entities ("Company" or "Group" or "Consolidated Entity").

The 2025 Half Year Report does not include all of the information and notes required within the Annual Report for the year ended 30 June 2025. It is recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2025, together with any public announcements made during the half-year ended 31 December 2025.

The 2025 Half Year Report is presented in Australian Dollars (AUD), the predominant functional currency of the Group's operations. In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instruments 2016/191, amounts in the 2025 Half Year Report and Directors' report have been rounded off to the nearest dollar, unless otherwise stated.

The preparation of the consolidated interim financial statements in conformity with AASB 134 *Interim Financial Reporting* requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported revenue and expense during the reporting period. All adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The estimates and assumptions used in preparing its consolidated financial statements are reasonable; however, actual results could differ from those estimates. Operating results for the half year ended 31 December 2025 are not necessarily indicative of the results that may be expected for the year ended 30 June 2026.

Accounting Policies

There have been no material changes in the critical accounting policies compared to those applied to the Group's consolidated financial statements as at, and for the year ended 30 June 2025.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards. Beacon Minerals Limited has adopted all new and revised Standards issued by the Australian Accounting Standards Board (the AASB) that are relevant to their operations and effective for the current half year.

**New or Amended Accounting Standards and Interpretations Adopted**

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period, there was no changes to the financial statements arising from new standards. There was no impact arising from the application of those standards.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Reporting Basis and Conventions

The half-year report has been prepared on an accruals basis and is based on historical costs, except for forward sale agreements which are reported at fair value through profit and loss.

NOTE 2: OPERATING SEGMENTS

The Consolidated Entity operates in predominantly one business and geographical segment, which involves the exploration, development and sale of minerals in Australia.

Major Customers

When there are gold sales, the Group sells to a single external customer, Perth Mint, who accounts for 100% of the external revenue. The Company does not view this as a significant concentration of risk as the Perth Mint is wholly-owned by the Government of Western Australia.

Site Rehabilitation

In accordance with the Group's environmental policy and applicable legal requirements, a provision for site rehabilitation is recognised for the first time in respect of the estimated cost of rehabilitation and restoration of the areas disturbed by mining activities up to the reporting date, but not yet rehabilitated. The Group's accounting policy is as follows.

When the liability is initially recorded, the estimated rehabilitation is capitalised by increasing the carrying amount of related mining assets. At each reporting date the provision is reviewed and is re-measured to reflect any changes in discount rates and timing or amounts to be incurred. Additional disturbances or changes in rehabilitation costs are recognised as additions or changes to the corresponding asset and rehabilitation provision prospectively from the date of change. For closed sites, or where the carrying value of the related asset has been reduced to nil either through depreciation and amortisation or impairment, changes to estimated costs are recognised immediately in the statement of profit or loss and other comprehensive income.

The Group will conduct a detailed estimation of the rehabilitation provision for the 30 June 2026 financial year end.

**Unwinding of Discount on Provisions**

The unwinding of discount on provisions represents the cost associated with the passage of time. Rehabilitation provisions are recognised at the discounted value of the present obligation to restore, dismantle and rehabilitate each mine site with the increase in the provision due to the passage of time being recognised as a finance cost.

**INDEPENDENT AUDITOR'S REVIEW REPORT
TO THE MEMBERS OF
BEACON MINERALS LIMITED****Report on the Half-Year Financial Report****Conclusion**

We have reviewed the half-year financial report of Beacon Minerals Limited and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 31 December 2025, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, condensed notes comprising a summary of material accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that causes us to believe that the accompanying half-year financial report of Beacon Minerals Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of Group's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* has been given to the directors of the Company on 27 February 2026.

Responsibility of the Directors for the Financial Report

The directors of Beacon Minerals Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
