# Directors' Report

## For the six months ended 31 December 2025

The directors present their report together with the consolidated interim financial statements of the Carnaby Resources Limited (the "**Company**" or "**Carnaby**") Group, being the Company and its subsidiaries, for the six months ended 31 December 2025 (the "**period**") and the auditor's review report thereon.

### Directors

The directors of the Company at any time during or since the end of the period are as set out below. Directors were in office for the entire period unless otherwise stated.

Mr Peter Bowler	Independent Non-Executive Chairman
Mr Robert Watkins	Managing Director
Mr Greg Barrett	Independent Non-Executive Director
Mr Paul Payne	Independent Non-Executive Director

### Financial performance

The Group's net loss after tax attributable to the shareholders for the half year to 31 December 2025 was \$4,552,422 (31 December 2024 loss: \$4,367,476). The Group's net assets increased by \$12,823,720 (31 December 2024 increased: \$8,606,346). The Group's cash position as at 31 December 2025 was \$15,975,586 (31 December 2024: \$14,755,629).

### Corporate

During the period, the Group completed the acquisition of a 100% interest in the three mining leases, ML90128, ML90125 and ML90183, which contain the Trekelano Prospect from Chinova Resources Osborne Pty Ltd (**Chinova**) (**the Trekelano Acquisition**) (see ASX release 19 August 2025). Completion of the Trekelano Acquisition allowed the Group to commence exploration focussed drilling at Trekelano, immediately targeting direct lode extensions to the Inheritance and Trek 1 deposits with have both yielded positive results. The Group paid cash consideration to Chinova constituting \$5.7 million upon completion of the Trekelano Acquisition in addition to the \$3 million cash deposit paid upon signing the Asset Sale Agreement in late 2024 (see ASX release 28 November 2024 for full transaction details). The Group also placed a \$1.3 million environmental bond with Queensland Treasury as part of the registered transfer of Trekelano.

The Group also acquired the remaining 17.5% interest in the Greater Duchess Copper Gold Joint Venture (**JV**) from joint venture partner Latitude 66 Limited during the period (ASX: LAT) (**Latitude 66**) (**the JV Buyout**) (see ASX release 16 October 2025). The JV Buyout has granted the Group full exposure to the significant value of the former JV tenure's exploration and production potential and is allowing the Group the flexibility to rapidly progress the necessary permitting applications required for the development of the tenure's copper gold deposits. The Group paid total consideration to Latitude 66 comprising;

- (a) Cash consideration of \$2 million; and
- (b) 9,852,217 fully paid ordinary shares in the Company at a fair value of A\$0.50 per share (see ASX release dated 31 July 2025 for full transaction details).

The Group entered into a Subscription Agreement during the period with the QIC Critical Minerals and Battery Technology Fund (**QCMBTF**) and completed a \$12.5 million placement via the issue of approximately 37.9 million new fully paid ordinary shares (see ASX releases dated 15 October 2025 & 28 October 2025). The placement shares were issued under the Company's placement capacity in accordance with ASX Listing Rule 7.1 and 7.1A.

## Review of operations

In conjunction with the significant corporate activity conducted during the period, the Group continued to progress exploration and development across its Greater Duchess Copper Gold Project in Queensland, which includes significant and ongoing feasibility assessments as the Group targets a potential near term copper production scenario.

### Greater Duchess Copper Gold Project, QLD

The Greater Duchess Copper Gold Project lies approximately 70 km southeast of Mount Isa, Queensland on a land holding of approximately 1,946 km<sup>2</sup>. The Project's footprint encompasses multiple undeveloped copper rich Iron Oxide Copper Gold (IOCG) deposits and targets over a 100 km corridor as well as the Devoncourt Farm-in Project.

Subsequent to the period's end, the Group announced an update to Greater Duchess Project's Mineral Resource Estimate (MRE) which is serving as the basis for the upcoming Pre-Feasibility Study (PFS) to be released in Q1 CY2026. The total MRE increased by 10% to 29.2Mt @ 1.3% Cu, 0.2g/t Au, 1.5% CuEq for contained 380,300t Cu, 230,200koz Au and 440,500kt CuEq. The Indicated MRE increased by 49% to 17.0Mt @ 1.5% Cu, 0.3g/t Au, 1.7% CuEq for contained 249,600t Cu, 145,700oz Au and 288,100t CuEq and now represents 65% of the total resource by CuEq tonnes (Table 1) (see ASX release 27 January 2026). Importantly, near term upside to this updated MRE exists as it is yet to include the recently discovered very high grade Trek 1 extension announced in late 2025. The following table summarises the Greater Duchess MRE:

Reference 1: Refer to Table A for individual deposit CuEq calculations and cut-off grades.

The Group conducted its first exploration drilling campaigns at Trekkelano during and subsequent to the end of the period, which yielded exciting expansionary results, particularly at the Trek 1 deposit where drilling remains ongoing. Drilling programs at the Mount Hope, Lady Fanny and Burke & Wills deposits, primarily targeting resource definition and

The Greater Duchess PFS is nearing completion and will be reported in the current quarter. Key production scheduling works have been completed, with the finalisation of financial modelling and report compilation underway.

Definitive feasibility works have already commenced with potential existing to fast track production through base case toll treatment at a third-party processing facility. Carnaby anticipates a potential FID in H1 2026 and targeting first ore production in H2 2026.

<sup>1</sup> Metal equivalents for exploration results in this release have been calculated using the formula  $CuEq = Cu\% + (Au\_ppm * 0.85)$  and is based on December 2024 consensus forecast prices of US\$8,505/t for copper, US\$2,520/oz for gold and an AUD:USD exchange rate of 0.63. Exploration results are set out in Appendix 1 of this announcement. Metal recoveries of 95% for copper and 85% for gold have been applied as demonstrated in preliminary metallurgical test work carried out in 2023 and allowances for including the Trekelano deposits into the PFS. It is the Company's opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.

## Yilgarn Margin Projects, WA

### *Malmac Project*

No work was conducted at the Malmac Project during the period however, the Group plans to progress early-stage exploration results with further low-cost soil sampling, mapping and rock chip sampling and will consider using geophysics to further refine drill targets during the 2026 field season.

The Malmac project lies on the northern margin of the Earraheedy Basin and comprises a package of rocks variously termed the 'Troy Creek Beds' or 'Troy Creek Schist'. The Troy Creek package has been affiliated with the Bryah Group (host to the DeGrussa, Monty and Horseshoe Lights Cu-Au massive sulphide deposits), Yerrida Group (host to the epithermal-style Thaduna Copper Deposit) and the Earraheedy Group (host to the recent Chinook Zn-Pb discovery by Rumble Resources Limited).

### *Throssel Project*

First pass soil sampling has previously been completed across the tenement with results outlining several coherent low order gold anomalies of interest which require follow up.

## Pilbara Projects, WA

Due to the ranking of priority projects in Queensland, no on ground field work was completed at the Company's Pilbara Projects during the period.

## Subsequent events

There are no events subsequent to the period to be reported.

## Lead auditor's independence declaration

The Lead auditor's independence declaration is set out on page 21 and forms part of the directors' report for the six months ended 31 December 2025.

This report is made with a resolution of the directors:

## Competent Persons Statement

The information in this document that relates to all exploration results is based upon information compiled by Mr Robert Watkins. Mr Watkins is a Director and shareholder of the Company and a Member of the AusIMM. Mr Watkins consents to the inclusion in the report of the matters based upon the information in the form and context in which it appears. Mr Watkins has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which is undertaken to qualify as a Competent Person as defined in the December 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (JORC Code).

The Information in this report that relates to Mineral Resources is based on information compiled by Mr Paul Payne, a Competent Person who is a Fellow of the Australasian Institute of Mining and Metallurgy. Mr Payne is a full-time employee of Payne Geological Services and is a Director and shareholder of Carnaby Resources Limited. Mr Payne has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Payne consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

## Metal Equivalents

Metal equivalents for exploration results have been calculated using the formula  $CuEq = Cu\% + (Au\_ppm * 0.85)$  is based on a December 2024 consensus forecast prices of US\$8,505/t for copper, US\$2,520/oz for gold and an AUD:USD exchange rate of 0.63. Metal recoveries of 95% for copper and 85% for gold have been applied as demonstrated in preliminary metallurgical test work carried out in 2023 and allowances for including the Trekelano deposits into the PFS. It is the Company's opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.

Metal equivalents for Mineral Resource Estimates (**MRE**) at Mount Hope, Trekelano, Nil Desperandum, Lady Fanny and Mohawk have been calculated using the formula  $CuEq = Cu\% + (Au\_ppm * 0.85)$  and is based on review of consensus forecast prices of US\$8,505/t for copper and US\$2,520/oz for gold, exchange rate of 0.63 and recovery of 95% copper and 85% gold as demonstrated in preliminary metallurgical test work carried out in 2023. Metal equivalents for MREs at Duchess and Mount Birnie have been calculated using the formula  $CuEq = Cu\% + (Au\_ppm * 0.7)$  and is based on September 2023 spot prices of US\$8,500/t for copper and US\$1,950/oz for gold, exchange rate of 0.67 and recovery of 95% copper and 90% gold as demonstrated in preliminary metallurgical test work carried out in 2023. Individual mineral resource estimate grades for the metals are set out at Table A of this announcement. It is the Company's opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.

# Notes to the consolidated interim financial statements

## 1. Reporting entity

Carnaby Resources Limited (the "Company") is a for profit company limited by shares and incorporated in Australia, whose shares are publicly traded on the Australian Securities Exchange.

The consolidated interim financial statements of the Company as at and for the period from 1 July 2025 to 31 December 2025 comprise the Company and its subsidiaries (together referred to as the "Group" and individually as "Group entities"). The nature of the operations and principal activities of the Group are as described in the Directors' Report, which is not part of these financial statements.

## 2. Statement of compliance

The consolidated interim financial statements are a general-purpose financial report which has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. The consolidated interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the consolidated annual report of the Group as at and for the year ended 30 June 2025 and public announcements made by the Group during the half year in accordance with continuous disclosure requirements arising under the Australian Securities Exchange Listing Rules and the Corporations Act.

The consolidated interim financial statements were approved by the Board of Directors on 5 March 2026.

## 3. Basis of preparation

### a) Accounting policies

The accounting policies applied by the Group in these consolidated interim financial statements are the same as those applied by the Group in its consolidated annual financial report as at and for the year ended 30 June 2025.

### b) New standards and interpretations not yet adopted

Certain new accounting standards, amendments to accounting standards and interpretations have been published that are not mandatory for 31 December 2025 reporting periods and have not been early adopted by the group.

## 4. Segments

### Operating segments

The Group identifies its operating segments based on the internal reports that are reviewed and used by the Managing Director (chief operating decision maker) in assessing performance and determining the allocation of resources.

The Group operates in one segment being 'Australian mineral exploration' which is the Group's strategic business unit.

### Geographical segments

In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of activities earning revenue. Segment assets are based on the geographical location of assets. The Group conducts all its activities within Australia and accordingly has assessed its sole geographical segment to be Australia.

## 9. Loss per share

### Basic loss per share attributable to ordinary shareholders

The basic loss per share for the period is \$0.019 (2024 loss per share: \$0.025). The calculation of basic earnings per share at 31 December 2025 was based on the consolidated loss attributable to ordinary shareholders of \$4,552,422 (2024 loss: \$4,367,476) and a weighted average number of ordinary shares outstanding of 246,042,382 (2024: 178,044,309) calculated as follows:

	Dec 2025	Dec 2024
	\$	\$
Loss for the period	(4,552,422)	(4,367,476)
Loss attributable to ordinary shareholders	(4,552,422)	(4,367,476)

# Notes to the consolidated interim financial statements

## *Basic weighted average number of ordinary shares*

Weighted average effects	\$	\$
Opening balance	228,388,862	171,937,249
Effect of shares issued	17,653,520	6,107,060
Weighted average number of ordinary shares at the end of the period	246,042,382	178,044,309

## *Diluted losses per share attributable to ordinary shareholders*

The Group does not have any potential ordinary shares whose conversion to ordinary shares would have a dilutive effect on basic loss per share and as such diluted loss per share is equal to basic loss per share. Potential ordinary shares of the Company consist of 5,295,000 share options.

In accordance with AASB 133 'Earnings per Share' these options and performance rights have been excluded from the calculation of diluted loss per share due to the anti-dilutive effect.

## **10. Subsequent events**

There are no events subsequent to the period to be reported.

# Independent Auditor's Review Report

To the Members of Carnaby Resources Limited

Report on the half-year financial report

## Conclusion

We have reviewed the accompanying half-year financial report of Carnaby Resources Limited and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half year ended on that date, including material accounting policy information, other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Carnaby Resources Limited does not comply with the *Corporations Act 2001* including:

- a giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the half year ended on that date; and
- b complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

## Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

**Directors' responsibility for the half-year financial report**

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

**Auditor's responsibility for the review of the financial report**

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
