ASX Announcement

Results of Share Purchase Plan

Lotus Resources Limited (ASX: LOT, OTCQX: LTSRF) (Lotus or the Company) announces the results of its non-underwritten Share Purchase Plan (**SPP**) which closed at 5.00pm (AEDT) on Monday, 2 March 2026. The SPP complements Lotus' successful non-underwritten A\$76 million placement to new and existing investors (**Placement**) announced on 6 February 2026.

The Company received a total of 171 valid applications under the SPP, representing a total valid application value of A\$3,031,000. A\$720,311.45 was received from ineligible shareholders or invalid applications and those applications have been rejected.

A total of 1,409,660 new fully paid ordinary shares (**SPP Shares**) will be issued. The issue price of the SPP Shares is \$2.15, being the same price paid by investors in the Placement. The SPP Shares will rank equally with existing fully paid ordinary shares in the Company.

The SPP Shares were issued today and commence trading on the ASX today. Holding statements for shares issued will be despatched in accordance with ASX listing rules.

This release has been authorised by the Company Secretary.

Yours sincerely,

Hayden Bartrop
Company Secretary

¹ See ASX announcement dated 15 February 2022 entitled "Kayelekera mineral resource increases by 23%" for information on the Kayelekera Mineral Resource Estimate. The competent person for that announcement was David Princep.

² The Kayelekera Mineral Resource Estimate is inclusive of the Kayelekera Ore Reserves.

³ See ASX announcement dated 9 June 2022 entitled "Uranium Resource Increases to 51.1Mlbs" for information on the Livingstonia Mineral Resource Estimate. The competent person for that announcement was David Princep.

⁴ See ASX Announcement dated 6 December 2024 for information on the Letlhakane Mineral Resource Estimate.

⁵ Lotus confirms that it is not aware of any new information or data that materially affects the information included in the respective Mineral Resource announcements of 15 February 2022, 6 June 2022 and 6 December 2024 and that all material assumptions and technical parameters underpinning the Mineral Resource Estimates in those announcements continue to apply and have not materially changed. Lotus confirms that the form and context in which the Competent Persons' findings are presented have not been materially modified from those market announcements.

⁶ RoM stockpile has been mined and is located near mill facility.

⁷ Low-grade stockpiles have been mined and placed on the medium-grade stockpile and are considered potentially feasible for blending or beneficiation, with initial studies to assess this optionality already completed.

⁸ Ore Reserves are reported based on a dry basis. Proved Ore Reserves are inclusive of RoM stockpiles and are based on a 200ppm cut-off grade for arkose and a 390ppm cut-off grade for mudstone. Ore Reserves are based on a 100% ownership basis of which Lotus has an 85% interest. Except for information in the Accelerated Restart Plan announced on the ASX on 8 October 2024, Lotus confirms that it is not aware of any new information or data that materially affects the information included in the announcement of 11 August 2022 and that all material assumptions and technical parameters underpinning the Ore Reserve Estimate in that announcement continue to apply and have not materially changed. Lotus confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the 11 August 2022 announcement.
