Notes to the Condensed Consolidated Financial Statements

The interim report of Forrestania Resources Limited for the period ended 31 December 2025 was authorised for issue in accordance with a resolution of the directors on 12 March 2026.

1.1. Basis of Preparation

These interim consolidated financial statements are general purpose financial statements prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including AASB 134 'Interim Financial Reporting', Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

This condensed interim financial report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial report.

The interim report has been prepared on a historical cost basis, except for the revaluation of certain financial instruments to fair value. Cost is based on the fair value of the consideration given in exchange for assets. The company is domiciled in Australia and all amounts are presented in Australian dollars, unless otherwise noted.

1.2. Basis of Measurement

The financial report has been prepared on a historical cost basis.

1.3. Functional and Presentation Currency

The financial report is presented in Australian dollars.

1.4. Compliance with IFRS

The interim financial statements comply with Australian Accounting Standards, which include Australian equivalents to International Financial Reporting Standards (AIFRS). Compliance with AIFRS ensures that the financial report, comprising the interim financial statements and notes thereto, complies with International Financial Reporting Standards (IFRS).

The following is a summary of the material accounting policies adopted by the entity in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

The financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

1.5. Going Concern

This report is prepared on the going concern basis which assumes the continuity of normal business activity and the realisation of assets and settlement of liabilities in the normal course of business.

For the 6 months ending 31 December 2025, the Group incurred an operating loss of \$9,141,790 and a net cash outflow from operating activities amounting to \$1,705,883. The company has a deferred consideration of \$39,540,492 which is non-cash related and associated to the Kula transaction which was legally complete post 31 December 2025.

The company has a number of listed and unlisted options which are in the money. The board is confident that a number of these options will be exercised over the next 12 months. The board will undertake necessary capital raisings in line with its acquisition ambitions.

Subsequent to year end the Company completed the capital raising of \$18,764,190 and Share purchase plan of \$5,000,000. Post year end the Company received numerous option exercise.

The group's ability to continue as a going concern is dependent upon it maintaining sufficient funds for its operations and commitments. In particular, given the Company's history of raising capital to date, the directors are confident of the Company's ability to raise additional funds as and when they are required.

Should the Company be unable to raise sufficient funds, there is material uncertainty whether it would continue as a going concern and therefore whether it would realise its assets and extinguish its liabilities other than in the normal course of business and at amounts different to those stated in the financial statements. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts or classification of liabilities that might result should the Company be unable to continue as a going concern and meet its debts as and when they fall due.

Notes to the Condensed Consolidated Financial Statements

1.6. Significant Judgements and Estimates

In preparing this condensed interim financial report, management has applied accounting policies consistent with those applied in the Group's most recent annual financial report.

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities. Actual results may differ from these estimates.

Significant judgements and estimates applied during the period include:

(a) Classification of acquisitions

The Group completed several acquisitions during the period, including the acquisition of Kula Gold Limited. The directors assessed whether these transactions constituted business combinations under AASB 3 or asset acquisitions. The directors concluded that the acquisitions represented asset acquisitions as substantially all of the fair value was attributable to mineral tenements and the transactions did not include substantive processes or workforce capable of generating outputs.

(b) Measurement of deferred consideration

Deferred consideration recognised in relation to the Kula Gold acquisition has been measured at fair value based on the number of shares expected to be issued and the Group's share price at reporting date. Judgement was applied in determining the appropriate measurement basis and classification.

(c) Exploration and evaluation expenditure

Exploration and evaluation expenditure is capitalised in accordance with AASB 6. The directors assess at each reporting date whether there are indicators of impairment. No impairment indicators were identified during the period.

(d) Share-based payments

The fair value of options and performance rights granted during the period has been determined using option pricing models which incorporate assumptions including expected volatility, risk-free interest rate and expected life.

Closing balance	86,978,314	6,373,934

The directors assessed each area of interest for impairment indicators and determined no impairments were present at the date of the financial report.

Asset Acquisition of Tenements

Tenement 1 -

The Company has secured a 12-month option over E 15/1972 for the payment of an option fee of \$15,000 to Amery Holdings Pty Ltd ("Amery"). At the end of the option period, the Company can acquire 100% of the tenement for a consideration of \$35,000, payable in shares based on a 5-day VWAP price at the time. The tenement covers 3 graticular blocks and is currently held by Amery. Total value at measurement date was \$57,523 for the tenement. The Company has viewed the transaction as an Asset acquisition.

Tenement 2 -

The Company has signed a binding head of agreement with Dianne Elizabeth Allen (the "Vendor") to acquire the Vendor's rights, title and interest in exploration license E77/3046 (the "Tenement"). Forrestania Resources has agreed to pay the Vendor a combination of \$20,000 cash consideration and 96,293 fully paid ordinary shares (issued at a deemed price of \$0.2077 per share). Total value was \$66,480. The Company has viewed the transaction as an Asset acquisition.

Tenement 3 -

The Company has entered into a binding head of agreement with Joseph Robert Bradley (the "Seller") to acquire all of the Seller's rights, title and interest in mineral license applications E15/2016, E15/2024 and P15/6878 (the "Tenements"). Under the agreement, Forrestania Resources has agreed to pay the Seller cash consideration of \$20,000. The Company has viewed the transaction as an Asset acquisition.

Tenement 4 -

The Company acquired the tenements E77/2756, E77/2766, E77/3234 and E77/3237 ("the Tenements") from Kula Gold Ltd (ASX: KGD) comprises the payment at settlement of \$500,000 cash and a further \$1,000,000 cash on reporting an Inferred Mineral Resource in accordance with the JORC of 100,000 ounces of gold or equivalent. The cash consideration was paid and the top up consideration was not satisfied as at the end of the reporting period. Remains contingent and it is of the view if payable this will be eliminated at the consolidated level.

Asset Acquisition of IMD Gold Pty Ltd

IMD is the holder of mining lease M77/1256 which contains the longstanding British Hill resources and the strategic exploration lease E77/1965 containing the Parker Dome Gold prospect Both prospect's tenures are regionally located near existing Forrestania tenure in the area.

The Company has entered into a binding head of agreement to acquire 100% of the fully paid ordinary shares in IMD Gold Proprietary Limited, from the shareholders of IMD ("Shareholders").

Consideration Under the Agreement:

a) The Company agrees to issue to the Shareholders a total number of shares equal to \$3.825 million divided by the 20-day volume weight average price ("VWAP") over the 20 days in which trading in FRS occurred ending on 24 July 2025.

The 20-day VWAP has been calculated to be \$0.11

Notes to the Condensed Consolidated Financial Statements

b) Where, over the period of three months commencing on the date of the agreement, the 20-day VWAP of FRS does not reach a price of \$0.174 or more on the ASX, the Company agrees to either (at its sole election): i. make a cash payment equal to \$6 million cash, less the value of the Consideration Shares on the date that is 3 months after issue; or ii. issue additional fully paid ordinary shares in FRS so that the total sum of issued shares under this transactions equals \$6 million when divided by the 20 day VWAP ending on the date that is 3 months after the settlement date. Should the Company elect to settle any deferred consideration in cash, it intends to do so using existing cash reserves. The Company issued 34,772,727 shares with a value of \$8,693,182 and the deal completed on 18 September 2025. The company notes that section B was not met and no additional consideration was payable as 3 months has lapsed.

Total Exploration Assets	8,773,500

The acquisition of IMD Gold Pty Ltd on the ASX is appropriately classified as an asset acquisition because the transaction involved the purchase of mineral tenements only, rather than an integrated set of activities and processes capable of generating outputs. Substantially all of the value acquired was concentrated in the tenements, with no substantive workforce, operating processes, or revenue-generating activities transferred. Accordingly, the acquisition does not meet the definition of a business under IFRS 3 / AASB 3, and the consideration paid is allocated directly to the tenements acquired rather than recognising goodwill.

Asset Acquisition of North Iron Cap Pty Ltd

North Iron Cap Pty Ltd holds the gold rights over tenement M77/544 and the North Ironcap deposit, an advanced open pit gold project situated on an approved mining lease with adjacent misc lease held by.

The Company has entered into a binding heads of agreement to acquire 100% of the fully paid ordinary shares in North iron Cap Pty Ltd, from the shareholders of NIC ("Shareholders"). Consideration Under the Agreement:

- The Company agrees to issue to the Shareholders 42,140,398 fully paid ordinary shares in Forrestania Resources Limited at a deemed issue price of \$0.11 per share (Consideration Shares); and
- pay the shareholders \$2,781,266 in cash (Cash Consideration).

The deal was completed on 4 November 2025

Notes to the Condensed Consolidated Financial Statements

The acquisition of North Iron Cap Pty Ltd on the ASX is appropriately classified as an asset acquisition because the transaction involved the purchase of mineral tenements only, rather than an integrated set of activities and processes capable of generating outputs. Substantially all of the value acquired was concentrated in the tenements, with no substantive workforce, operating processes, or revenue-generating activities transferred. Accordingly, the acquisition does not meet the definition of a business under IFRS 3 / AASB 3, and the consideration paid is allocated directly to the tenements acquired rather than recognising goodwill.

Asset Acquisition of First Western Gold Pty Ltd

First Western Gold Pty Ltd is the holder of 7 exploration licenses and 1 exploration license application in WA, within which sit the Burracoppin Gold Project.

The Company has entered into a Binding head of agreement (“Agreement”) with Askari Metals Limited (ASX:AS2) (“Askari”) to acquire 100% of the issued ordinary shares of First Western Gold Pty Ltd (“FWG”).

Subject to the terms and conditions of this Agreement, in consideration for the acquisition, Forrestania agrees to:

- Pay to Askari the amount of \$250,000 cash
- Issue to Askari a number of fully paid ordinary shares (“Shares”) equal to \$450,000 divided by the 5-day volume weighted average price of the Forrestania Shares trading on ASX over the 5-days immediately prior to the date of execution of this agreement. The VWAP has been calculated to be \$0.2024. The Company will issue 2,223,321 Shares at completion utilising its existing capacity under Listing Rule 7.1. Shareholder approval is not required for the issue.

The deal completed on 16 October 2025.

As at 31 December 2025, the Group recognised deferred consideration of \$39,540,492 in relation to the acquisition of Kula Gold Limited. The deferred consideration is measured as financial liability and at fair value. The liability will be remeasured at each reporting date until settlement. The remaining share consideration value was associated to shares already held by Forrestania.

The deferred consideration represents the fair value of Forrestania shares to be issued under the takeover offer in exchange for Kula shares accepted prior to reporting date but not yet settled.

The liability has been measured at fair value based on the Forrestania share price at 31 December 2025 and the number of Kula shares validly accepted under the offer at reporting date.

Settlement is expected to occur shortly after finalisation of the compulsory acquisition process and is therefore classified as a current liability.

The directors have determined that the arrangement gives rise to a financial liability under AASB 9 as the number of shares to be issued varies based on acceptances received. The liability will be extinguished upon issue of the shares.

The Company has accounted for the acquisition as an asset acquisition and not a business combination in accordance with AASB 3. The directors have determined the fair values of the assets and liabilities as at the date of the acquisition and these are disclosed in the above table.

Accounting Policy:

When an asset acquisition does not constitute a business combination, the assets and liabilities are assigned a carrying value amount based on their relative fair values in an asset purchase transaction and no deferred tax will arise in relation to the acquired assets and assumed liabilities as the initial recognition exemption for deferred tax under AASB 112 applied. No goodwill will arise on the acquisition and transaction costs of the acquisition will be included in the capitalised costs of the assets and expensed in accordance with the consolidated entity's accounting policy.

Hyden -

The Company has entered into a Binding Option Agreement (“Agreement”) with private company Hyden Resources Pty Ltd (“Hyden”) to acquire 100 % of the issued ordinary shares of Hyden Project Holdings Pty Ltd (“HPH”). The Company had agreed to pay Consideration for the acquisition of the HPH in cash, with an election to pay some of the consideration in FRS shares (at the Company’s election).

The Consideration is:

1. A nominal option fee for the grant of the options; and
2. Upon notice of exercise of the Option, the Company must make the following payments to complete the acquisition. The total consideration for the acquisition is \$15,200,000 payable in three tranches as set out below:
 - (a) Tranche 1 paid and issued on or before the Completion Date as follows \$2,450,000 in cash and Consideration Share Value of \$2,750,000 at an issue price of 13.29 cents per share.
 - (b) Tranche 2 paid and issued on or before 31 May 2026 as follows \$2,500,000 in cash and Consideration Share Value of \$2,500,000 calculated on a 20-day VWAP.
 - (c) Tranche 3, paid and issued on or before 31 March 2027 as follows \$2,500,000 in cash and Consideration Share Value of \$2,500,000 calculated on a 20-day VWAP.

3. Options and Royalty

- (a) Options are to be granted being 10,000,000 options exercisable at 22 cents per share with a 3-year expiry date; and 5,000,000 options exercisable at 32 cents per share with a 3-year expiry date.
- (b) there are Royalties in place over the Tenements which will remain - a 1% Net Smelter Royalty over all the tenements, and a 1.5% royalty over E77/2219-1.

Forrestania Resources Limited (ASX: FRS) (“FRS” or “the Company”) is pleased to announce that it has extended its option to acquire Hyden Project Holdings Pty Ltd (“HPH”) from Hyden Resources Pty Ltd. Under the new agreement, the Company may at its sole election, give written notice at least five business days prior to the then applicable option expiry date to extend the option expiry date by a further 1-month period. An option extension fee of \$60,000 shall be payable each month or part thereof after 31 October

Notes to the Condensed Consolidated Financial Statements

2025. 50% of any option extension fee paid by the Company prior to exercise of the option will be deducted from the payable Tranche 1 consideration cash. The Company will be responsible for the minimum expenditure commitments on the Hyden Project during the option period, the costs of which will also be deductible from the Tranche 1 cash consideration.

During the period provided a loan of up to \$1m to Hyden, with \$450,000 of the loan traded for listed investments, prepayment and forgiven. The Company received \$221,380 worth of listed of investment, prepaid \$86,085 and forgiven the remainder amount of \$142,535. This has amounted to the loan being \$550,000 has been determined to be recoverable as the confident in completing the acquisition of the Hyden project.

Lake Johnston Project-

The Company has entered into a Binding head of agreement (“Agreement”) with Poseidon Nickel Pty Ltd, a wholly owned subsidiary of Horizon Minerals Limited (ASX: HRZ) the sale assets making up the Lake Johnston Project for total consideration value of \$35 million. The consideration comprises of:

- a) \$2 million non-refundable cash consideration paid on execution of the HOA, which amount has been paid;
- b) \$14 million upfront cash consideration on execution of the full form agreement;
- c) \$14 million cash on completion; and d) \$5 million of FRS fully paid ordinary shares to be issued on completion at \$0.175 per share, being the same price as the capital raising.

The Company paid \$10 million as at period end. It was noted that subsequent to period end the deal was completed. The prepayment represents a non-refundable deposit & progress payment under the binding agreement and will be applied against total consideration once completed.

Accounting Policy - FVTPL

Investments classified as Level 1 are measured at fair value in accordance with AASB 13 and AASB 9.

Level 1 investments comprise financial assets for which fair value is determined using quoted (unadjusted) prices in active markets for identical assets that the entity can access at the reporting date. These typically include listed equity securities and exchange-traded funds.

Financial assets are initially recognised at fair value on the trade date. Transaction costs are expensed for assets classified at fair value through profit or loss (FVTPL).

Subsequent to initial recognition, Level 1 investments are measured at fair value at each reporting date using closing market prices:

For assets classified at FVTPL, changes in fair value are recognised in profit or loss.

For equity instruments designated at fair value through other comprehensive income (FVOCI), changes in fair value are recognised in other comprehensive income and are not reclassified to profit or loss on disposal.

As the fair value is based on quoted prices in active markets, no valuation techniques or significant judgments are applied in determining fair value.

5.2 Share Based Payments

Share Based Payments- Options

The fair value of share options granted is determined at the grant date using the Black-Scholes option pricing model. The model takes into account the exercise price, expected term of the option, current share price, expected volatility, risk-free interest rate, and expected dividends. The fair value determined at grant date is expensed over the vesting period on a straight-line basis, with a corresponding credit to equity. The expense is adjusted for expected forfeitures but is not subsequently remeasured for changes in market conditions.

5.3 Performance Rights (PR)

Those with market-based conditions the Company used the Hoadley's Parisian Model was first used to generate an implied barrier price that factors in the number of consecutive calendar days for which the underlying asset price must remain above or below the barrier. The implied barrier price (usually higher than the price target for 'up' barrier options) is then input into Hoadley's Barrier1 Model to calculate the value of the Performance Rights.

The fair value of performance rights subject to non-market vesting conditions is determined at grant date based on the market value of the Company's shares. No adjustment is made for non-market performance conditions in determining fair value; instead, the number of rights expected to vest is reassessed at each reporting date.

6. Non – Controlling Interest

On 23 December 2025, the Group obtained control of Kula Gold Limited following the takeover offer becoming unconditional. As at 31 December 2025, the Group held 82.04% of the issued share capital of Kula Gold Limited.

The remaining 17.96% interest is recognised as a non-controlling interest (“NCI”). The acquisition has been accounted for as an asset acquisition. The NCI has been recognised based on the proportionate share of the fair value of the identifiable net assets of Kula Gold Limited at the date control was obtained.

	31-Dec-25 \$
NCI percentage	17.96%
Non-controlling interest recognised	8,296,237

As control was obtained late in the reporting period and the subsidiary had not generated material profits or losses post-acquisition, the profit or loss attributable to the non-controlling interest for the period ended 31 December 2025 was not material.

Subsequent to reporting date, the Group completed the compulsory acquisition of the remaining shares in Kula Gold Limited and now holds 100% ownership.

7. Commitments and Contingencies

As at 31 December 2025 the Company held granted tenements with a combined minimum expenditure commitment of \$3,203,994 for the next 12 months.

8. Segment Reporting

Management has determined the operating segments based on the reports reviewed by the Board of Directors that are used to make strategic decisions. The Group operates in a single reportable segment being mineral exploration in Western Australia. The Group does not have any customers and all its’ assets and liabilities are primarily related to the mining industry and are located within Western Australia. The Board of Directors review internal management reports on a regular basis that is consistent with the information provided in the statement of profit or loss and other comprehensive income, statement of financial position and statement of cash flows. As a result, no reconciliation is required because the information as presented is what is used by the Board to make strategic decisions.

9. Related Parties Transactions

The Company has acquired the Hyden agreement option from David Geraghty for \$300,000. The directors not associated to the transaction reviewed and determined that the arrangement was conducted on arm's length and in accordance with normal commercial conditions.

It was noted that a number of options and performance rights were provided to the Directors in note 5.2.

10. Other Items

10.1. Events occurring after the reporting period

Subsequent to the end of the financial period the following events occurred:

On 9 January 2026 the Company issued 6,325,000 based on the vesting of the performance rights.

On 12 January 2026, Forrestania Resources has entered into a Binding Heads of Agreement to acquire 100% of the fully paid ordinary shares in Mantis Resources Pty Ltd ("Mantis"), for consideration of \$235,000.

On 13 January 2026 Forrestania Resources has entered into a Binding Sale Asset Swap Agreement with Catalina Resources Limited.

Director's Declaration

In accordance with a resolution of the directors of Forrestania Resources Limited, I state that:

- (1) In the opinion of the directors:
 - (a) the financial statements, notes and the additional disclosures included in the directors' report designated as audited, of the Group are in accordance with the *Corporations Act 2001* including:
 - (i) giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the period ended on that date; and
 - (ii) complying with Accounting Standard AASB 134 – interim Financial Reporting, and
 - (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- (2) This declaration has been made after receiving the declarations required to be made to the directors in accordance with section 295A of the *Corporations Act 2001* for the half-year ended 31 December 2025.

On behalf of the Board,

David Geraghty
Chairman
12 March 2026

To the Board of Directors,

AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001

As lead audit director for the review of the financial statements of Forrestania Resources Limited and its controlled entities for the period ended 31 December 2025, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- any applicable code of professional conduct in relation to the review.

Yours Faithfully

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF FORRESTANIA RESOURCES LIMITED

Conclusion

We have reviewed the accompanying half-year financial report of Forrestania Resources Limited ("the Company") and Controlled Entities ("the Consolidated Entity") which comprises the condensed consolidated statement of financial position as at 31 December 2025, the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, a summary of material accounting policies and other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Forrestania Resources Limited and Controlled Entities does not comply with the *Corporations Act 2001* including:

- a. Giving a true and fair view of the Forrestania Resources Limited financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134: *Interim Financial Reporting* and *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Material Uncertainty Related to Going Concern

We draw attention to Note 1.5 in the financial report, which indicates that the Consolidated Entity incurred a net loss of \$9,141,790 during the half year ended 31 December 2025. As stated in Note 1.5, these events or conditions, along with other matters as set forth in Note 1.5, indicate that a material uncertainty exists that may cast significant doubt on the Consolidated Entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibility of the Directors for the Financial Report

The directors of the Forrestania Resources Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
