DIRECTORS' REPORT

The Directors of Sultan Resources Limited ("SLZ" or "the Company") present their report, together with the financial statements on the Company consisting of Sultan Resources Limited and its controlled entities ("the Group") for the half-year ended 31 December 2025 ("the Period").

It is recommended that the Directors' Report be read in conjunction with the annual financial statements for the year ended 30 June 2025 and considered together with any public announcement made by the Company during the Period and up to the date of this report.

DIRECTORS

The names of the Company's Directors who held office during the Period and until the date of this report are set out below. Directors were in office for this entire Period unless otherwise stated.

| Director | Position |
|---------------|------------------------|
| Lincoln Liu | Non-Executive Chairman |
| Jeremy King | Non-Executive Director |
| Mark Mitchell | Non-Executive Director |

PRINCIPAL ACTIVITIES

During the financial half-year the principal continuing activities of the consolidated entity consisted of mineral exploration.

REVIEW OF OPERATIONS AND FINANCIAL RESULTS

The Company is pleased to provide shareholders with the following update on activities for the half-year. The new management at Sultan continued to review the existing portfolio and has been seeking new opportunities in growth commodities and raised capital to fund the realigned project commitments within the current market conditions. During the period Sultan withdrew from the Kondinin - Lake Grace and Thaduna Project.

Sultan remained active in pursuing potential acquisitions in the Critical Minerals and Precious Metals sectors.

Sultan had previously withdrawn any commitment to spend further funds on the Canadian Ruddy and Kember projects, the Ruddy project has CAD\$135,498 in expenditure credits which Sultan is looking to on-sell to interested parties.

The proposed deal to acquire Aldoro Resources Limited's surplus projects Namibian and Western Australian projects did not pass at the 26 November 2025 Annual General Meeting.

The Group has recorded an operating loss of \$962,286 for the half-year ended 31 December 2025 (2024: loss of \$283,664).

NSW PROJECTS LACHLAN FOLD BELT PROJECT, NSW (EL8734, EL8735, EL9070)

During the period the review of existing and new datasets over its Lachlan Fold Belt (LFB) tenements continued examining a number of Gold and Copper geochemical soil anomalies, anomalous rock chip samples, with underlying geophysical evidence suggesting significant potential for porphyry Au-Cu mineralisation.

For personal use only

DIRECTORS' REPORT

Sultan's three LFB tenements (EL8735, EL9070 and EL8734) cover 165 km², including parts of the northern portion of the Late Ordovician to Early Silurian Molong and Rockley-Gulgong Volcanic Belts of the Macquarie Arc, which is broadly recognised as Australia's premier porphyry Au-Cu province and host to Alkane Resources' recent major Boda-Kaiser discovery (323Mt @ 0.26g/t Au and 0.15% Cu ASX: ALK 10 July 2024) and Newmont's world-class Cadia East Au-Cu mine further to the south.

The Company has identified the Ringaroo, Gowans Green and Razorback-Wattle Ridge Au-Cu targets in EL8735 for further exploration (Figure 1).

For personal use only

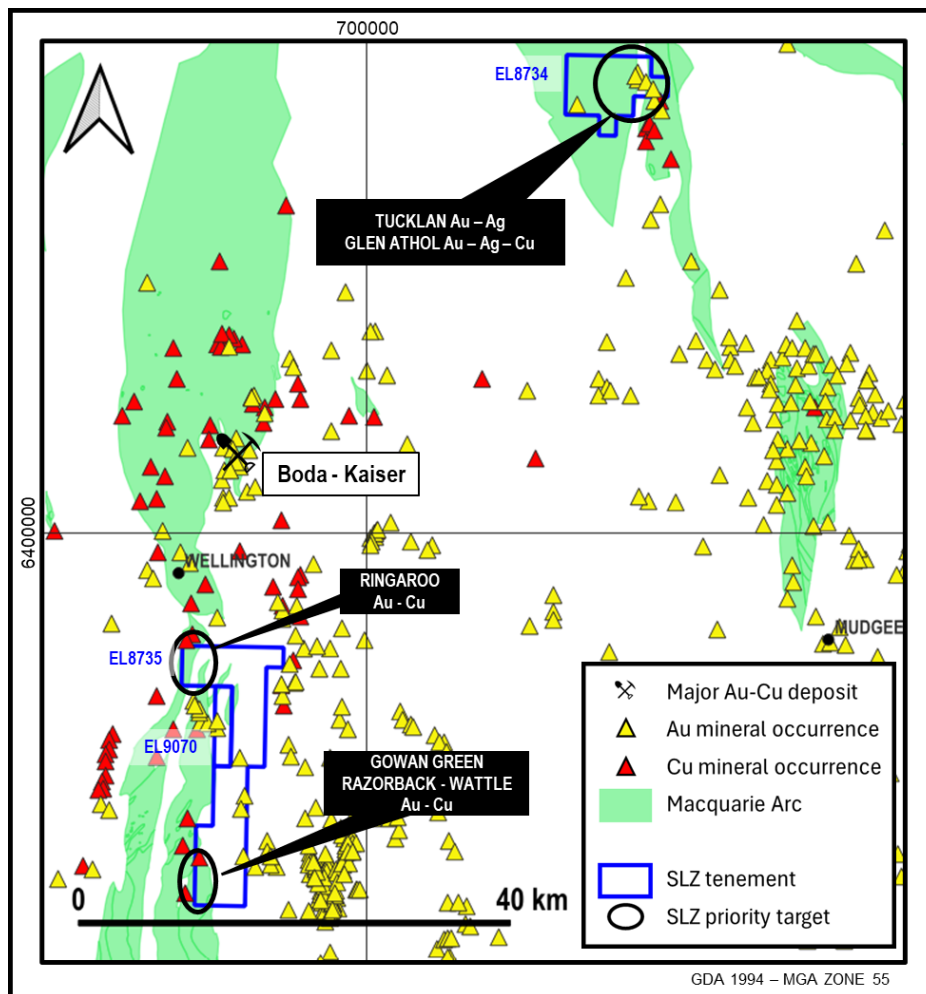

Figure 1: SLZ's LFB tenements and priority target areas relative to the mapped exposures of the Macquarie Arc, gold and copper mineral occurrences from the Geological Survey of NSW database and the Boda-Kaiser porphyry Au-Cu deposit.

Ringaroo

Au-Cu The Ringaroo porphyry Au-Cu target lies within the Molong Volcanic Belt at the northern end of EL8735, immediately south of Impact Minerals' Aspley porphyry prospect.

Key features of Ringaroo are summarised in Figure 2 and include:

- A 1km x 0.4km >3.1ppb Au-in-soil anomaly, which is spatially associated with the Ringaroo magnetic high, interpreted to represent a magnetite-bearing (oxidised) volcanic and intrusive complex.

DIRECTORS' REPORT

- The anomaly is open to the NW, SE and NE, towards Impact Minerals (ASX:IPT) Apsley porphyry Au-Cu prospect. Impact reports high-grade copper rock chip results of up to 7.73% Cu immediately adjacent to Sultan's northern tenement boundary (ASX: IPT 14 January 2020 and 23 April 2020).
- The Au in soil anomaly also overlies a 900m x 300m IP chargeability anomaly (>9 mV/V and up to 30 mV/V) overlying a 1000 m wide resistivity anomaly (ASX: SLZ 10 November 2020).
- A smaller >3.1ppb Au-in-soil anomaly lies on the NE end of another magnetic high and is open along strike to the SW.

Sultan's proposed work program for Ringaroo will focus on extending the soil sampling coverage to close off the soil anomalies, and additional IP lines over areas highlighted by the soil data to test for additional conductors and generate potential porphyry targets for drill testing.

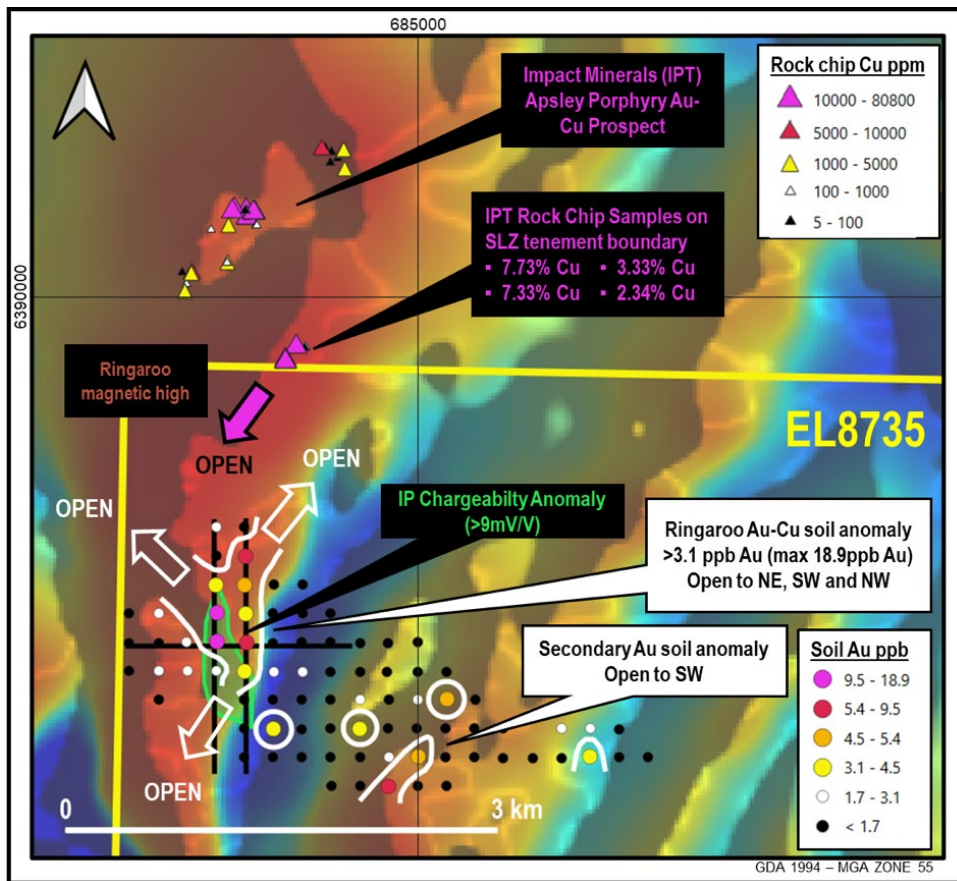

Figure 2: Total magnetic intensity (TMI) image over Ringaroo showing soil sample coverage and gold results, IP lines (black) and the IP chargeability anomaly, and Impact Minerals rock chip results from the Apsley porphyry prospect (ASX: IPT 14/01/2020 & 23/04/2020) immediately north of EL8735 (ASX: SLZ 9 July 2020).

Gowan Green and Razorback-Wattle Ridge Au-Cu

The Gowan Green and Razorback-Wattle Ridge porphyry Au-Cu targets (Figure 3) are hosted within the Molong Volcanic Belt and are located in the southwest corner of EL8735. The two targets lie at either end of a 6km (N-S) by 1km (E-W) soil survey undertaken in 2020 over the Big Hill porphyry prospect (ASX: SLZ 2 June 2020), overlying a NE-trending magnetic ridge, considered to represent a portion of the Molong Volcanic Belt.

For personal use only

DIRECTORS' REPORT

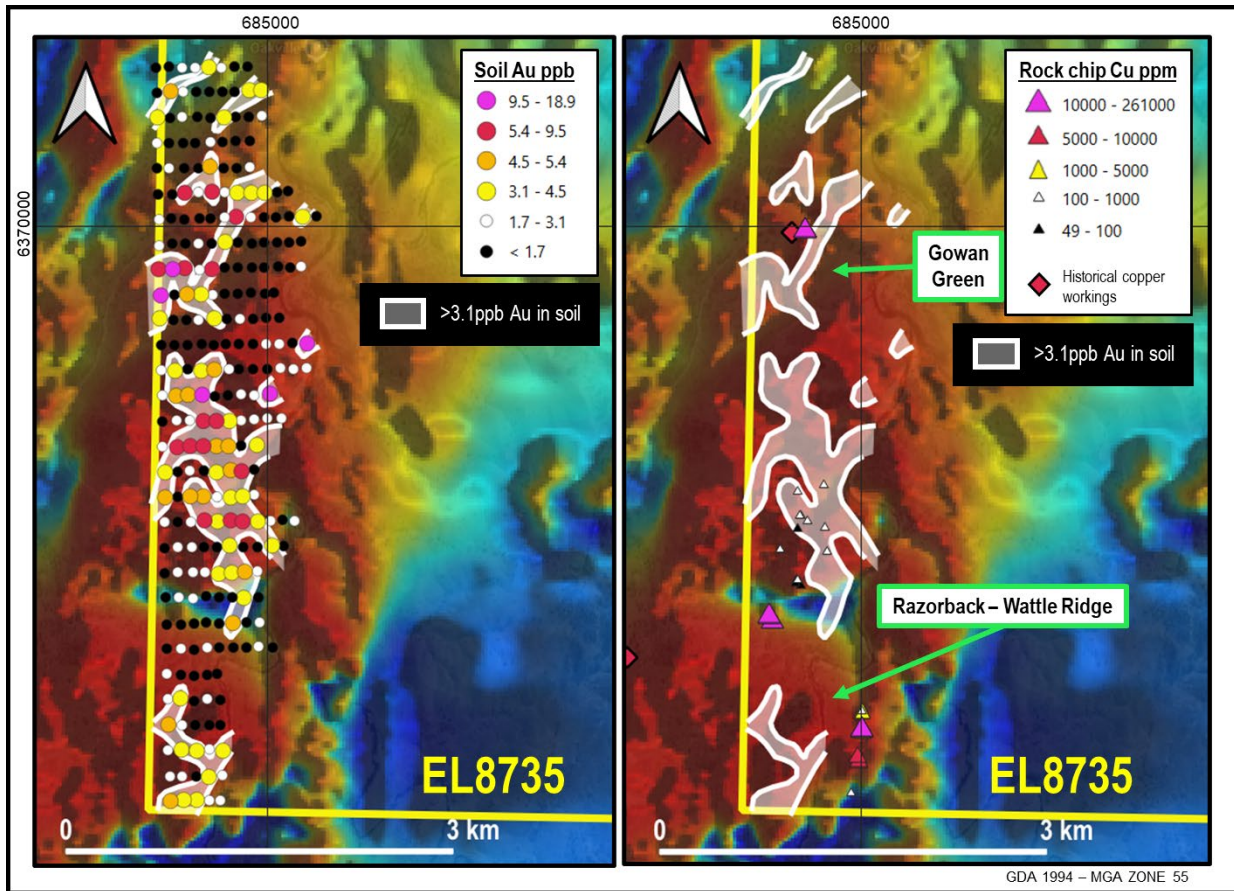

Figure 3: Total magnetic intensity (TMI) image over the Big Hill area, showing (left) gold-in-soil results, with anomalous >3.1ppb Au values contoured; and (right) rock chip copper values relative to the anomalous soils, the location of the historical workings at Gowan Green, and the locations of the Gowan Green and Razorback-Wattle Ridge targets. The central portion of the soil anomaly corresponds to the Big Hill target. Note that due to the narrow focus of the soil survey, most of the anomalous zones remain at least partially open to the east. The magnetic high corresponding to the Molong Volcanic Belt is clearly visible (ASX: SLZ 30 September 2020).

Key features of the Gowan Green Au-Cu porphyry target are summarised in Figure 4 and include:

- Multiple gold-in-soil anomalies, with associated Cu and pathfinder elements (ASX: SLZ 2 June 2020), associated with a magnetic high, correlating with mapped volcanic and intrusive rocks of the Molong Volcanic Belt. The anomalies are mostly open to the NE, due to limited soil sample coverage.
- The soil anomalies are proximal to and appear to border multiple discrete IP chargeability anomalies.
- Samples of oxidized mullock collected from historic Cu-Au workings (Table 1 and Figure 5) contain up to 24.6 g/t Au, 26.1% Cu and 65.5g/t Ag, supporting the presence of a base and precious metal rich mineralising system.
- Lithogeochemical studies of multi-element whole rock data confirm that the Gowan Green rocks are calc-alkaline basalts, with a volcanic arc tectonic signature consistent with being part of the Molong Volcanic Belt of the Macquarie Arc, recognised as Australia's premier porphyry Au-Cu province.
- Outcropping silica-limonite skarns and chlorite-altered mafic volcanics have been mapped in the area, supporting the presence of a large-scale hydrothermal system.

For personal use only

DIRECTORS' REPORT

For personal use only

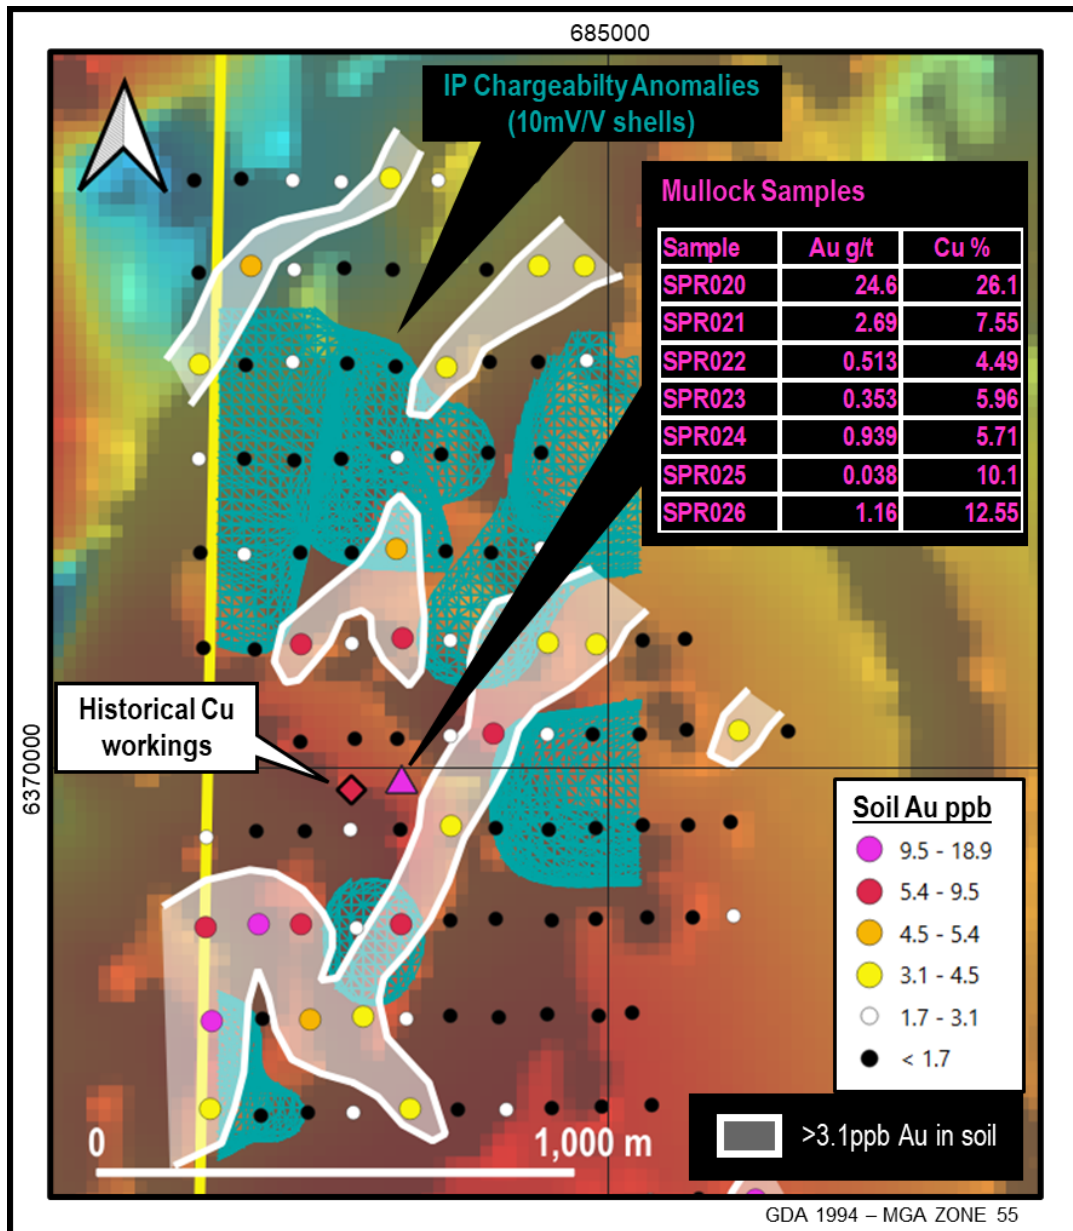

Figure 4: Total magnetic intensity (TMI) image over Gowan Green, showing Au-in-soil results and IP chargeability anomalies. Copper and gold values for mullock samples collected from the historical copper workings are also shown. Further analytical results for these samples are provided in Table 1 (Refer ASX: SLZ 20 May 2020).

Table 1: Assay results for mullock samples collected from Gowan Green (ASX: SLZ 20 May 2020).

DIRECTORS' REPORT

Figure 5: Mullock sample of malachite veined gossan with limonitic boxwork after sulfide (Sample SPR020) (ASX: SLZ 20 May 2020).

The Company plans to investigate expanding the soil geochemical survey to the north and east to close off open anomalies and look to integrate this data with reinterpreted IP and magnetics to define potential porphyry Au-Cu drill targets.

Key features of the Razorback-Wattle Ridge Au-Cu porphyry targets are summarised in Figure 6 and Table 2 which include:

- Surface mapping of propylitic alteration, pyrite and chalcopyrite mineralisation, a ~1km long skarn breccia, diorite and monzodiorite mapped at surface, providing confidence that all the required components of a porphyry Au-Cu system are present.
- Anomalous Au, Cu and pathfinder elements in soil sampling, although the sampling once again failed to cover the full width of the target and is open to the east, and multiple Au- and Cu-mineralised outcrop and float samples, collected across the length of the target.
- A large underlying IP chargeability anomaly which has not been drill tested. Previous drilling focused on the skarn breccia, which shows evidence of copper and gold mineralisation.
- Although the results of previous drilling into the skarn were disappointing, the holes reported sericite alteration, elevated Au-Cu-Ag-Mo-W values, zones of quartz carbonate veining, and hydrothermal breccias with infill disseminated pyrite and minor chalcopyrite and bornite blebs (ASX: SLZ 15 March 2022). These results are consistent with proximity to porphyry-style mineralisation.
- Drill results also suggest that alteration intensity and Cu and Au grades increase with depth, towards an interpreted source that is broadly coincident with the untested IP anomaly, shown as a porphyry target on Figure 6.

For personal use only

DIRECTORS' REPORT

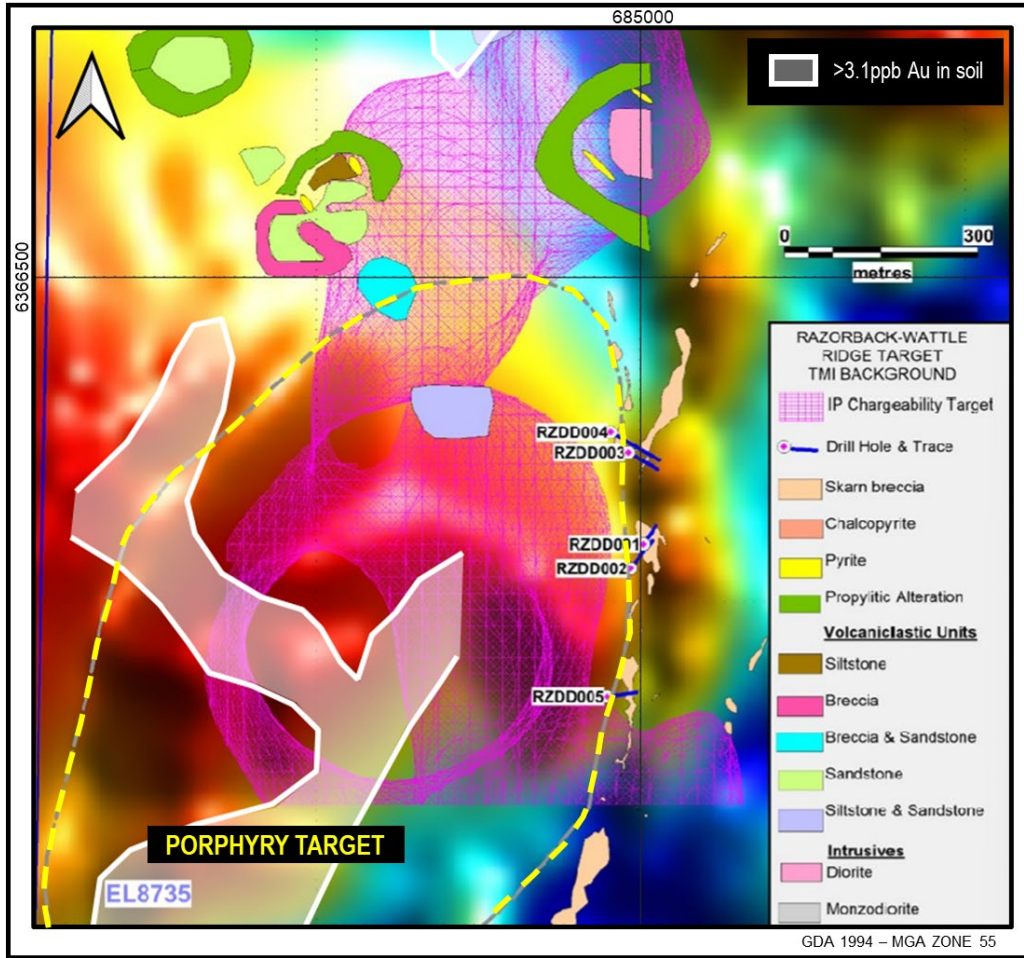

Figure 6: Total magnetic intensity (TMI) image over Razorback-Wattle Ridge, showing mapped surface lithology and alteration, IP chargeability wireframe (10 mV/V), 3.1ppb Au in soils (again open to the east) and previous drilling, which focused on the mapped surface skarn breccia. The dashed yellow line shows an interpreted porphyry target based on the IP, magnetics and previous drilling results, with the skarn breccia located along its eastern margin. (Refer to ASX: SLZ 3 February 2022 and ASX: SLZ 15 March 2022).

Table 2: Assay results for outcrop and float rock chip samples from the Razorback-Wattle Ridge prospect. (Refer to ASX: SLZ 30 September 2020 and 20 May 2020).

For personal use only

DIRECTORS' REPORT

Figure 7: Samples of mineralised chalcopyrite- and malachite-bearing skarn breccia from Razorback-Wattle Ridge. Both samples were collected close to the collar location of RZD001. The sample locations are provided in Table 2.

The review also recommended to expand the soil grid at Razorback-Wattle Ridge to fully cover the IP anomaly there. In addition, surface mapping and rock chip sampling should be undertaken in order to better understand the distribution of intrusive rocks, alteration and mineralisation to select the best possible locations for drill testing of the porphyry Au-Cu target.

Tucklan Project

Located in the Rockley-Gulgong Volcanic Belts of the Macquarie Arc and the Mudgee Fault corridor that has undergone limited exploration. Past exploration included the identification of the Tucklan open ended silver anomaly where the drilling a chargeability IP anomaly with coincident surface gold-in-soil and gold bearing rock chip hit a broad zone of silver mineralisation, TRC001 88m@4.1g/t Ag from 200m. Four other targets have been identified in the licence for investigation, Figure 8. These five areas are currently under review.

For personal use only

DIRECTORS' REPORT

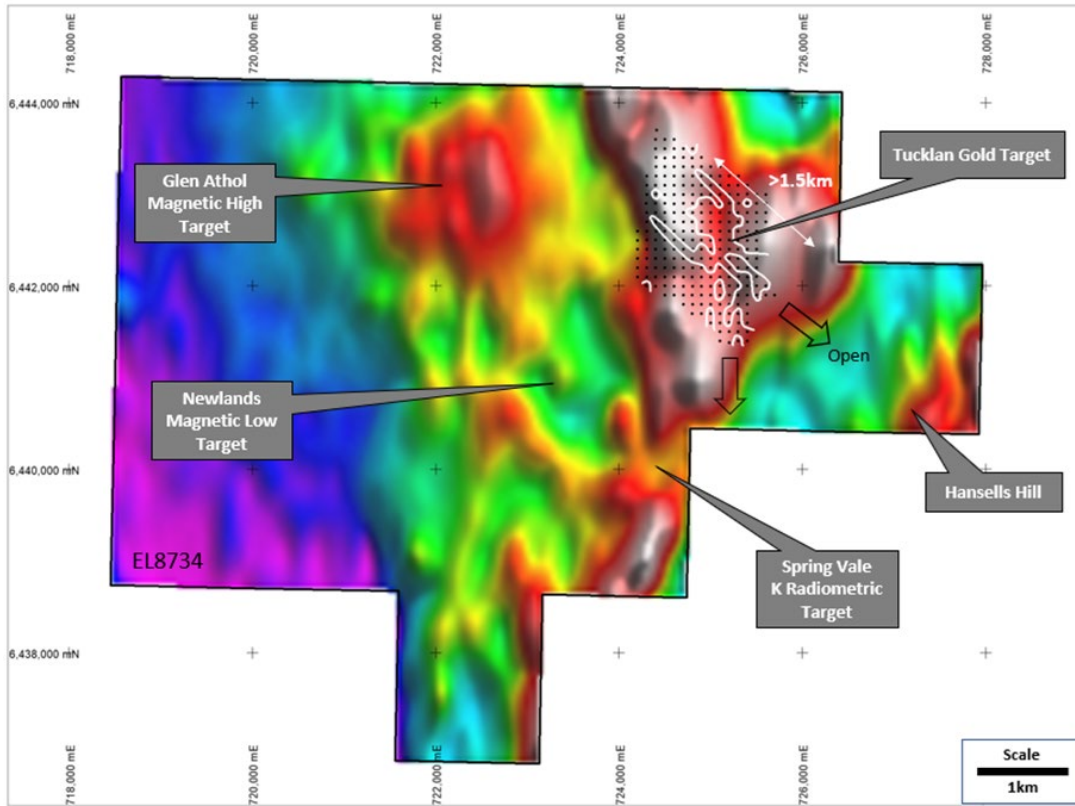

Figure 8: The five target areas at Tucklan currently under review.

Next Steps

Proceeds from the current capital raising are intended to support early-stage exploration across Sultan's targets in the Lachlan Fold Belt. This includes fieldwork, geophysics, and preparatory activities aimed at refining drill targets.

WA PROJECTS

THADUNA PROJECT (E52/3481)

During the half-year Sultan withdrew from the Thaduna tenement E52/3481.

OTHER POTENTIAL PROJECTS

During this reporting period Sultan undertook to potentially acquire Aldoro Resources Limited's (ASX:ARN) surplus Namibian and West Australian assets. At the 26 November 2025 Annual General Meeting, shareholders rejected the proposal to acquire the projects.

For personal use only

DIRECTORS' REPORT

NEW OPPORTUNITIES

The Company continues to review acquisition or joint venture opportunities which are complementary to Sultan's existing asset base, and which have the potential to enhance shareholder value. The Board is focused on ensuring any new project will deliver significant upside to all shareholders but there can be no guarantee that any transaction will meet such requirements and be concluded.

COMPETENT PERSONS STATEMENT

The information in this report that relates to Exploration Targets and Exploration Results is based on historical and recent exploration information compiled by Mr Mark Mitchell, who is a Competent Person and a Member of the Australian Institute of Geoscientists and a Director of Sultan Resources Limited. Mr Mitchell has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for the reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Mitchell consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

DISCLAIMER

In relying on the above mentioned ASX announcements and pursuant to ASX Listing Rule 5.23.2, the Company confirms that it is not aware of any new information or data that materially affects the information included in the above-mentioned announcements.

CORPORATE

During the half-year, the Company successfully completed its pro-rata non-renounceable entitlement offer as announced to ASX on 2 June 2025. The Company received valid applications for 29,613,653 new fully paid ordinary shares, raising a total of \$148,068 (before costs) and successfully placed all of the Shortfall shares available under the Shortfall Offer and issued 201,856,257 shares to raise a total of \$1,009,281 before cost's.

The Company completed a further placement of \$1.1m before costs through the issue of 122,222,222 Placement shares at an issue price of \$0.009. Additionally, participants of the Placement were issued one (1) free-attaching SLZO option for every two (2) new Placement Shares subscribed and issued (up to 61,111,111 SLZO options). Placement securities were settled in two tranches with Tranche 1 being 73,380,679 shares issued and Tranche 2 being 48,841,543 ordinary shares and all placement options, issued following the receipt of shareholder approval at the Company's Annual General Meeting ("AGM").

The Board of Sultan Resources remains committed to pursuing opportunities which are potentially highly value-accretive. Sultan will continue to actively evaluate strategic acquisition and joint venture opportunities that align with the Company's Critical Minerals and Precious Metals focus, the Company's vision and which will complement its existing asset base - with the goal of seeking to deliver significant value for all shareholders.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There were no significant changes in the state of affairs of the consolidated entity during the half-year.

Notes to the Consolidated Financial Statements

NOTE 1 MATERIAL ACCOUNTING POLICY INFORMATION

(a) Basis of preparation

These general purpose interim financial statements for half-year reporting period ended 31 December 2025 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2025 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The financial statements are presented in Australian dollars, which is Sultan Resources Limited's functional and presentation currency.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

(b) Significant accounting judgements and key estimates

The preparation of the interim financial report requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim financial report, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial report for the year ended 30 June 2025.

New and amended Accounting Standards that are effective for the current period

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board that are mandatory for the current reporting period. Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

(c) Going concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, the Group incurred a loss for the half year of \$962,286 and had net cash outflows from operating and investing activities of \$747,411 and \$14,639 respectively for the half year ended 31 December 2025. As at that date, the Group had net current assets of \$1,328,489 including cash and cash equivalents of \$1,338,319. The Group has prepared a cashflow forecast that indicates it will need to issue additional shares under the *Corporations Act 2001* to raise further working capital to fund its planned exploration activities.

For personal use only

Notes to the Consolidated Financial Statements

NOTE 1 MATERIAL ACCOUNTING POLICY INFORMATION

(c) Going concern (continued)

These factors indicate a material uncertainty which may cast significant doubt as to whether the Group will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The directors believe that there are reasonable grounds to believe that the Group will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after consideration of the following factors:

- The Group's ability to issue additional shares under the *Corporations Act 2001* to raise further working capital; and
- The Group has the ability to scale down its operations in order to curtail expenditure, so as to ensure that the cash available is sufficient to meet projected expenditure.

Accordingly, the Directors believe that the Group will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report.

The financial report does not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the Group does not continue as a going concern.

NOTE 2 SEGMENT INFORMATION

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

On this basis, the Group's reportable segments under AASB Operating Segments are the Group's activities in Australia and Canada. Information regarding the Group's reportable segments is presented below.

| Period ended 31 December 2025 | Australia \$ | Other \$ | Total \$ |
|----------------------------------|------------------|------------------|------------------|

Notes to the Consolidated Financial Statements

NOTE 8 LOSS PER SHARE

| | 31-Dec-25 | 31-Dec-24 |
|-----------------------------------------------------------------------|------------------|------------------|
| | \$ | \$ |
| Net loss for the half-year | (962,286) | (283,664) |
| Weighted average number of ordinary shares for basic and diluted loss | 398,958,567 | 208,726,244 |

Options on issue are not considered dilutive to the earnings per share as the Company is in a loss-making position. Consequently, the dilutive earnings per share is equivalent to the basic earnings per share.

Continuing operations

| | | |
|--------------------------------------------|---------------|---------------|
| - Basic and diluted loss per share (cents) | (0.24) | (0.14) |
|--------------------------------------------|---------------|---------------|

NOTE 9 DIVIDENDS

No dividend has been declared or paid during the half-year ended 31 December 2025. The Directors do not recommend the payment of a dividend in respect of the half-year ended 31 December 2025.

NOTE 10 CONTINGENT LIABILITIES & ASSETS

There have been no changes to the contingent liabilities or assets since 30 June 2025.

NOTE 11 COMMITMENTS

Tenement commitments have been reduced as a result of surrender of E52/3841 and are now \$124,000 not longer than 1 year and \$496,000 more than 1 year but not longer than 5 years.

NOTE 12 EVENTS SUBSEQUENT TO THE REPORTING PERIOD

There has been no other matter or circumstance has arisen since the end of the half-year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in subsequent financial periods.

NOTE 13 RELATED PARTY TRANSACTIONS

During the half year, the Group issued 25,000,000 performance rights to Mr Lincoln Liu (refer to Note 4 for further details).

For personal use only

DIRECTORS' DECLARATION

In the Directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the financial half-year ended on that date; and
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

On behalf of the Directors

Lincoln Liu
Non-Executive Chairman
13 March 2026

INDEPENDENT AUDITOR'S REVIEW REPORT

To the Members of SULTAN RESOURCES LIMITED

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Sultan Resources Limited (the Company) and its subsidiaries (the Consolidated Entity) which comprises the consolidated statement of financial position as at 31 December 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising material accounting policy information and other explanatory information, and the directors' declaration of the Consolidated Entity comprising the Company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Sultan Resources Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Consolidated Entity's position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Sultan Resources Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Material Uncertainty Related to Going Concern

We draw attention to Note 1(c) of the half-year financial report, which indicates that the Consolidated Entity incurred a loss of \$962,286 and had net cash outflows from operating and investing activities of \$747,411 and \$14,639 respectively for the half year ended 31 December 2025. As stated in Note 1(c), these events or conditions, along with other matters as set forth in Note 1(c), indicate that a material uncertainty exists that may cast significant doubt on the Consolidated Entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Directors' Responsibility for the Half-Year Financial Report

The directors of Sultan Resources Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Half-Year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2025 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
