March 2026—Funds under Management update¹

Funds under Management ('FUM')—quarter-ended 31 March 2026			
FUM by segment (A\$m)	31 Mar 26	31 Dec 25	30 Sep 25
L1 Long Short	7,610	7,530	5,573
L1 International (incl. Platinum Int.)	2,775	3,310	688
L1 Affiliates ²	3,418	3,362	3,128
Platinum	3,160	3,437	7,561
L1 Group FUM	16,963	17,639	16,950

During the March 2026 quarter, investment performance was impacted by the war in Iran, which caused global markets to fall sharply. In March, the ASX200 index fell 7.1% and the MSCI World fell 6.4%.

While L1 Group experienced a 3.8% reduction in FUM during the quarter, performance has since rebounded. As of Friday 10 April 2026, the L1 Group FUM was circa \$17.9 billion.

Net client flows to L1 Long Short and L1 Affiliates were positive in the quarter. Net outflows in Platinum strategies, including Platinum International, have pleasingly seen a material slow-down during the March quarter (\$308 million) relative to the December quarter (\$854 million).

The L1 Gold Fund Limited (ASX:LGF) is expected to commence trading on the ASX on 24 April 2026. Upon the closure of the existing L1 Wholesale Gold Fund, L1 Group expects to earn a performance fee. The quantum of the performance fee^{3,4} will be determined by the fund's performance up to and including 17 April 2026. L1 Group will provide an update to the ASX on this matter in the week commencing 20 April 2026.

¹ Funds under Management are approximate, rounded, and have not been audited.

² L1 Affiliates includes L1 Gold (\$477 million) which will be reported separately from June 2026. Other than L1 SS20, the L1 Affiliates have shared equity ownership.

³ There were no management fees associated with the L1 Wholesale Gold Fund.

⁴ The costs of the L1 Gold Fund Limited IPO are expected to be approximately A\$20 million, which is anticipated to be more than offset by the performance fee. These costs will be treated as one-off and therefore recognised below the line.
