Forward-looking statements

Petroleum exploration and production operations rely on the interpretation of complex and uncertain data and information which cannot be relied upon to lead to a successful outcome in any particular case. Petroleum exploration and production operations are inherently uncertain and involve significant risk of failure. All information regarding reserve and contingent resource estimates and other information in relation to Karoon's assets is given in light of this caution.

Oil and gas Reserves and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates that were valid when originally calculated may alter significantly due to new information or when new techniques become available. Additionally, by their nature, Reserves and resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. As further data becomes available through, for instance, production, the estimates are likely to change. This may result in alterations to production plans, which may in turn, impact the Company's operations. Reserves and resource estimates are by nature forward looking statements and are the subject of the same risks as other forward-looking statements.

This announcement may contain certain "forward-looking statements" with respect to the financial condition, results of operations and business of Karoon and certain plans and objectives of the management of Karoon. Forward-looking statements can generally be identified by words such as 'may', 'could', 'believes', 'plan', 'will', 'likely', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties, which may include, but are not limited to, the outcome and effects of the subject matter of this announcement. Indications of, and guidance on, future earnings and financial position and performance, well drilling programs and drilling plans, estimates of Reserves and contingent resources and information on future production are also forward-looking statements.

You are cautioned not to place undue reliance on forward-looking statements as actual outcomes may differ materially from forward-looking statements. Any forward-looking statements, opinions and estimates provided in this announcement necessarily involve uncertainties, assumptions, contingencies and other factors, and unknown risks may arise (including, without limitation, in respect of imprecise reserve and resource estimates, changes in project schedules, operating and reservoir performance, the effects of weather and climate change, the results of exploration and development drilling, demand for oil, commercial negotiations and other technical and economic factors) many of which are outside the control of Karoon. Such statements may cause the actual results or performance of Karoon to be materially different from any future results or performance expressed or implied by such forward-looking statements. Forward-looking statements including, without limitation, guidance on future plans, are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. Such forward-looking statements speak only as of the date of this announcement. Karoon disclaims any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or results or otherwise.

Letter from the Chair

Dear Shareholder

On behalf of the Board of Karoon Energy Limited, it is a pleasure to invite you to attend our 2026 Annual General Meeting (AGM), scheduled for:

Date: **Thursday 21 May 2026**

Time: **10:00 am (AEST)**

Location: The Langham Hotel, 1 Southgate Avenue, Southbank, Victoria, 3006

The AGM is a key opportunity for the Board to engage with shareholders, discuss the Company's performance, and address matters of governance and strategy.

Ms Carri Lockhart, Karoon's new CEO & Managing Director, and I will deliver a brief presentation at the AGM before moving on to the formal items of business, as set out in the Notice of Meeting (NOM). We will address the most frequently asked shareholder questions either during these presentations or ahead of the relevant resolutions. Our aim is to cover as many relevant questions as possible during the meeting.

Overview of 2025

During 2025, Karoon delivered a shareholder return of 16%, based on share appreciation and dividends paid. In line with the capital returns policy formalised in 2024, Karoon returned US\$80.4 million by way of dividends and buybacks in 2025. Since our buyback commenced in 2024 and as of 1 April 2026, we have acquired more than 12% of issued capital at an average price of A\$1.66 share. This has enhanced our earnings per share and represents a value accretive use of cash, given the Board's view that the present share price does not reflect the core value of our assets, during this period of volatility.

Karoon strengthened its business significantly by acquiring the Baúna FPSO in Brazil. The purchase provided the Company with much greater control over Baúna safety and reliability outcomes, with zero Lost Time Injuries in 2025 and an improvement in FPSO efficiency from 84% in 2024 to 95% in 2025, with a long term target of 90-95% FPSO efficiency. In addition, a forecast lower cost structure allowed us to extend the Baúna field life by seven years and book extra Reserves and Resources. In the US, Who Dat continued to provide high margin, low carbon emission production, as well as diversifying the Company's portfolio. Maturation of Karoon's organic growth opportunities helped drive a 34% increase in 2C Contingent Resources, representing material potential upside if these assets, including Neon and Who Dat East, prove to be commercial. Collectively, for the period from 31 December 2022 to 31 December 2025, we delivered a three-year average reserves replacement ratio of 160%.

Karoon's 2025 underlying NPAT was US\$107.5 million, down from US\$214.0 million in 2024, primarily due to lower average realised oil prices. Despite lower NPAT, our operating assets continued to generate strong cash flows, reflecting the Company's low-cost, high margin (66% gross margin) business. Karoon is set to deliver further cost reductions once the transition of operatorship of the Baúna FPSO is complete. All capital expenditure over 2025 was funded from operating cash flow and cash, with no further debt drawn down.

Karoon ended 2025 with a robust balance sheet, with net debt of US\$143.9 million and liquidity of US\$546.1 million.

Karoon continued to implement the relocation of key corporate roles from Melbourne to Houston during 2025. This change, which includes simplifying Karoon's structure, is increasing efficiency and facilitating collaboration between the business units in Brazil and the USA, which are in similar time zones. It will also reduce duplication and allow the Company to source high quality, local talent in our operational locations. The Board made targeted adjustments to Karoon's remuneration approach, informed by independent external experts and balanced with Australian remuneration expectations, to allow Karoon to attract and retain employees in the United States.

Outlook for 2026

The Middle East conflict led to a dramatic shift in the oil price environment over March. Karoon is highly leveraged to oil price movements, given more than 95% of its production is oil and liquids, notwithstanding the unexpected windfall tax the Brazilian Government has recently levied on oil exports. While our low cost, high margin business is currently benefiting from higher oil prices, the

focus on capital discipline, cost control, restoring production and operational efficiency remains unchanged.

As highlighted in our 2025 Annual Report, Karoon has commenced a comprehensive program in Brazil to further enhance the performance of the Baúna Project. This includes completion of the FPSO operatorship transition, a shutdown for essential inspections and maintenance, and undertaking repairs on two production wells. Work is also underway on restoring production at Who Dat following a riser issue. Approximately 85% of 2026 planned capital expenditure will be spent in the first half of 2026. On successful completion, we anticipate improved production and cost performance in the second half of 2026, as we reap the rewards from this investment.

Items of business

At this year's AGM, shareholders will have the opportunity to vote on several agenda items. This Notice of Meeting and Explanatory Memorandum provides important detail on each resolution and I encourage shareholders to read this information carefully.

I would like to highlight the two directors seeking re-election and one recent appointee, Mr Fernando Borges, who is seeking election to the Board. The Board believes each provides complementary attributes which contribute to the Karoon Board having the right mix of capabilities, corporate memory, fresh perspectives and geographic expertise to oversee our corporate governance and strategy to deliver value- accretive growth.

We are also seeking approval of two remuneration related resolutions, the 2025 Remuneration Report and the remuneration for CEO/MD Ms Carri Lockhart. Our remuneration framework remains aligned with the Company's objectives that are targeted to deliver strong shareholder returns, underpinned by our top strategic priorities of safety and improving the base business performance. In line with this approach, remuneration outcomes in 2025 have been carefully considered by the Board to clearly align to Karoon's performance and incentivise our employees and executives to continue to deliver for Karoon and its shareholders. For 2026, the corporate scorecard will maintain its focus on driving a safe, reliable and highly cost competitive business. Together with sensible, capital efficient and value accretive growth opportunities, we are confident our 2026 strategy, supported by our remuneration structure, will continue to deliver robust returns to shareholders.

Participation in the Meeting

The AGM will include:

- Adoption of the financial report.
- Consideration of the election of Mr Fernando Borges, who was appointed by the Board as an independent Non-Executive Director of the Company in March 2026.
- Consideration of the re-election of Ms Melissa Holzberger and Ms Joanne Palmer as independent Non-Executive Directors of the Company.
- Consideration of several remuneration matters. These include approval of the remuneration structure and the issuance of performance rights associated with long term incentives to Ms Carri Lockhart, the CEO/MD.
- Amendment of the Company's constitution, to reflect developments in law and the ASX Listing Rules, corporate governance principles and general corporate and commercial practice for ASX-listed entities since the Constitution was first adopted.

I encourage all shareholders to participate in the AGM, either in person or online. If you are unable to attend, I strongly encourage you to lodge your proxy vote in advance and submit any questions. Please note that your proxy must be received by our share registry provider, Computershare, no later than 10.00am (AEST) on Tuesday, 19 May 2026, to be valid for the AGM.

On behalf of the Karoon Board and leadership team, I thank you for your continued support and engagement.

Yours sincerely

Peter Botten AC, CBE

4. FINANCIAL REPORTS

To receive and consider the Financial Report of the Company, together with the Directors' Report and the Independent Auditor's Report, for the calendar year ended 31 December 2025, in accordance with the *Corporations Act 2001* (Cth) (the "**Corporations Act**").

Section 317 of the *Corporations Act* requires the Company's Financial Reports, Directors' Report and Independent Auditor's Report for the financial year ended 31 December 2025 to be laid before the Meeting. The Financial Report, the Directors' Report and the Independent Auditor's Report are contained in the Company's 2025 Annual Report, a copy of which has been made available to Shareholders with this Explanatory Memorandum and the accompanying Notice of Meeting, and it is also available on request to the Company.

While no resolution is required to be put to Shareholders in relation to this item, Shareholders should consider these documents and raise any matters of interest with the Directors of the Company when this item is being considered. In accordance with the *Corporations Act*, Shareholders will be given an opportunity to ask questions about and make comments on the reports.

5. ADOPTION OF REMUNERATION REPORT

To consider and, if thought fit, to pass the following resolution as a non-binding advisory resolution:

"That, for the purposes of section 250R(2) of the Corporations Act and for all other purposes, the Remuneration Report for the calendar year ended 31 December 2025, as contained within the Directors' Report, be adopted."

This resolution is subject to voting exclusions as set out at section 5 in the Explanatory Memorandum.

Section 250R(2) of the *Corporations Act* requires the Company to propose a resolution that the Remuneration Report be adopted. The Remuneration Report may be found within the Directors' Report on pages 54 to 69 in the Company's calendar year 2025 Annual Report.

A vote on this resolution is advisory only and does not bind the Directors or the Company. However, the Board will take the outcome of the vote into direct consideration when reviewing the remuneration practices and policies of the Company.

Karoon's guiding principles for its remuneration framework are as follows:

- **Prioritising safety, culture and ethics:**
 - » ensuring that clear vesting gateways exist based on the prior achievement of appropriate safety and ethical gateways.

- » if outcomes do not meet the relevant standards, these gateways will block “at-risk” remuneration payments, specifically the STI.
- **Generating Shareholder value is paramount:**
 - » remuneration outcomes (particularly incentive-based outcomes) are designed to take account of share price movements across the performance period and therefore, the value delivered to Shareholders;
 - » a close alignment is created between operational performance, delivery of corporate objectives, rewards and sustained shareholder returns;
 - » ensuring there is strong focus on operational excellence and capital management priorities in the design of “at-risk” remuneration;
 - » Our approach needs to be fit for purpose, reflect the markets we operate in and drive the right internal behaviours to maximise efficiencies and productivity
- **Attracting and retaining the best people:**
 - » our remuneration structures are designed to attract, motivate and retain high calibre executives capable of managing Karoon’s diverse international operations;
 - » we encourage our people to hold equity in Karoon which builds a culture of viewing management decisions as an owner, thereby helping to further align executives’ and Shareholders’ interests. Minimum shareholding policies apply to our executives and Directors; and
 - » remuneration and people issues are considered by the People and Culture Committee (PCC) of the Board and environmental and social issues by the Sustainability and Operational Risk Committee (SORC) of the Board. Nonetheless, all relevant decision-making and associated discussions remain the responsibility of the Board.
- **Linking Environment, Social and Governance (ESG) measures to remuneration:**
 - » ESG considerations are directly integrated into our **remuneration** structures via our 2025 STI Corporate Scorecard.
- **Ensuring transparency:**
 - » remuneration measures, outcomes and reporting are as simple and transparent as possible for our Shareholders and other stakeholders.

In respect of CY25, it is noted that:

- **Fixed remuneration:**
 - » Fixed cost of living remuneration increases of circa 2.6 to 4.6% were provided to KMP to ensure that Karoon’s remuneration levels remain competitive with the markets in which we operate, given we compete for talent globally. The current CEO/MD (Ms Carri Lockhart) did not receive an increase having only joined Karoon on 3 November 2025.
- **Short Term Incentive (STI):**
 - » The Board assessed performance for the financial year based on the pre-determined scorecard set at the start of the period, commencing 1 January 2025. The Board determined that 83.2% of the corporate scorecard component of the STI was achieved in 2025.
- **Long Term Incentive (LTI):**
 - » The Board assessed a partial 2023 LTI award vested at 50% in respect of the three-year performance period 1 July 2022 to 30 June 2025. The Karoon share price at the start of the performance period on 1 July 2022 was A\$1.66 and on 30 June 2025, the last trading day of the performance period, was A\$1.91. The Relative Total Shareholder Return measure was achieved but not the Absolute Total Shareholder Return measure.

Summary

In determining the 2025 remuneration outcomes for employees and executives, the Board has considered both the overall performance of Karoon as well as individual performance outcomes (where applicable) having regard to the

specific objectives set at the beginning of 2025. We have also considered the Shareholder returns over the 2025 financial year.

Voting exclusion statement with regards to Resolution 5

A vote must not be cast on Resolution 5 by a KMP, or a closely related party of a KMP, acting as proxy, if their appointment does not specify the way the proxy is to vote on Resolution 5. However, this voting exclusion does not apply if the KMP is the Chair of the AGM acting as proxy and their appointment expressly authorises the Chair of the AGM to exercise the proxy even if Resolution 5 is connected directly or indirectly with the remuneration of a member of the KMP of the Company.

If you appoint the Chair of the AGM as your proxy, and you do not direct your proxy how to vote on Resolution 5 on the proxy form, you will be expressly authorising the Chair of the AGM to exercise your proxy even if Resolution 5 is connected directly or indirectly with the remuneration of a member of the KMP of the Company, which includes the Chair of the AGM.

The Chair of the AGM intends to vote undirected proxies able to be voted in favour of Resolution 5.

Board recommendation: Noting that each Director has a personal interest in their own remuneration from the Company (as described in the Remuneration Report), the Board unanimously recommends that Shareholders vote in favour of the adoption of the Remuneration Report.

SPECIAL BUSINESS

6. AMENDMENTS TO CONSTITUTION

Resolution 6 seeks Shareholder approval for the Company to amend the Constitution.

Background to the amendments

Under section 136(2) of the Corporations Act, a company may modify or repeal its Constitution, or a provision of its Constitution, by special resolution. A special resolution requires the approval of 75% of the votes cast by the shareholders present and eligible to vote (in person, by proxy or corporate representative) in order to be passed.

Since the Constitution was first adopted, there have been a number of developments in law and the ASX Listing Rules, corporate governance principles and general corporate and commercial practice for ASX-listed entities. The proposed amendments reflect the current requirements under the Corporations Act and ASX Listing Rules.

Most of the proposed amendments are largely administrative and minor in nature. A summary of the material changes in the amended Constitution is set out below. The summary does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of shareholders under the amended Constitution.

A copy of Karoon's current Constitution showing the proposed amendments is available at <https://www.karoonenergy.com.au/investors/#annual-meetings>

Summary of proposed material amendments

Topic	Proposed amendment
Restricted Securities	The ASX Listing Rules now require the constitution of a listed company to include provisions regarding "restricted securities". These are securities which are subject to escrow arrangements for particular reasons (for example, because they are issued to related parties or substantial holders). The provisions relate to limitations on disposal of those restricted securities for a particular time period.

For personal use only

Sale of non-marketable parcels	This provision enables the Company to sell unmarketable parcels of Shares on the ASX provided there is no objection to the sale by the Shareholder. A non-marketable parcel is currently \$500. The Company may only do this once every 12 months.
Approval of Proportional Takeover Bids	This provision provides for the Shareholders to vote on whether a proportional takeover bid proceeds, being a bid where the bidder seeks a certain percentage of each shareholder's parcel (rather than 100% of all shares on issue). This article is only valid for 3 years and must be refreshed every 3 years.
Proxies	Proxies will remain valid even if a Shareholder attends a meeting but does not vote at that meeting.
Direct Voting	This provision enables the Directors to authorise "direct voting" at a Shareholder meeting. This would allow a Shareholder to vote prior to a Shareholder meeting without appointing a proxy or attending the meeting in person.
Dividends	This provision updates the dividend provisions of the Constitution to reflect the current law which enables Directors to declare or pay any dividend and to rescind such a decision.
General	References to facsimile have been deleted.

Board recommendation: The Board unanimously recommends that Shareholders vote in favour of this resolution.

7. ISSUE OF PERFORMANCE RIGHTS TO MS. CARRI LOCKHART

Resolution 7 seeks Shareholder approval for the Company to grant to Ms Carri Lockhart:

- (a) 48,287 Short-term Incentive (**Deferred CY25**) Performance Rights, which will only vest subject to completion of a one-year employment retention condition ending 31 December 2026.
- (b) 2,094,398 Long-term Incentive (**CY26 LTI**) Performance Rights, which are "at risk" remuneration and will only vest under and in accordance with the Performance Rights Plan, and otherwise on the terms and conditions set out in this Explanatory Memorandum.

It should be noted that Ms Lockhart did not receive any equity or cash sign-on bonus at the time of her appointment in November 2025.

Why is Shareholder approval being sought?

Listing Rule 10.14 requires Shareholder approval in order for a Director to be issued equity securities in the Company under an employee incentive scheme, subject to certain exceptions. Ms Carri Lockhart is a director of the Company.

Ms Lockhart's remuneration structure

Ms Lockhart's total current maximum remuneration package comprises US\$800,000 as total fixed remuneration (**TFR**) and variable remuneration comprising both:

- a short-term incentive (equal to a maximum amount of 120% of TFR or A\$91,498), assessed against the Karoon group corporate scorecard and delivered 50% cash and 50% performance rights, subject to a service condition; and
- a long-term incentive (equal to a maximum amount of 350% of TFR or A\$3,968,674), subject to the conditions of grant set out below.

The AUD equivalent of Ms Lockhart's variable remuneration has been calculated using an AUD/USD exchange rate of 0.7055, being the volume weighted average price over the 20 trading days following the release of the Company's CY25 full-year results.

For the 2026 financial year onwards, in addition to the base short term incentive opportunity (set out above), an outperformance element of 1.5 times (up to 180% maximum of TFR) will be offered for "stretch targets" which will be set annually by the Board and will be targets that create material shareholder value.

As an international Company now headquartered in Houston, USA, Karoon now operates in a competitive global landscape for the best people. It is critical that Karoon's remuneration approach, particularly for its most senior leaders, is informed by local practice, to enable us to compete for the people needed to deliver Karoon's corporate and commercial goals.

As a US-based MD/CEO, Ms. Lockhart's overall remuneration package is necessarily of a different structure and higher overall than the package applying to the previous CEO/MD. The package reflects current US executive remuneration market practice, including a service component within the Long-Term Incentive structure, which the Board considers appropriate and consistent with accepted US market standards.

Ms Lockhart brings over 32 years of international oil and gas experience spanning senior executive roles at Marathon Oil and Equinor ASA — where she served as Executive Vice President and member of the Corporate Executive Committee, together with non-executive director experience at Williams Companies, Innovex and Ascent Resources. Her technical depth in reservoir engineering, large-scale production asset management, and proven organizational and people leadership across diverse international operating environments is directly supportive of Karoon's current strategic priorities.

The external benchmarking data mentioned was based on companies of a similar size and operational profile, including US-listed oil and gas producers with international operations, with the Board also considering the complexity of Karoon's multi-jurisdictional operating environment, the scarcity of executive talent with the requisite technical and international leadership credentials, and the geographic market in which Ms Lockhart is based.

The Board does however remain cognisant of the Company's listing in Australia and the remuneration expectations of the Australian market. Ms Lockhart's remuneration remains heavily weighted to the equity-based and at-risk components with 82.5 % of the total package "at-risk" (CY25). It should also be noted that 70% of the total LTI grant remains subject to challenging shareholder-linked measures - reinforcing a clear alignment between reward and sustainable shareholder outcomes. The service-based element of the LTI grant supports executive stability and continuity of leadership, which the Board considers absolutely critical given the operational complexity of the Company's asset portfolio, the need for executive stability and its long-term investment horizons.

Further details of Ms Lockhart's remuneration package are set out in the Remuneration Report on pages 54 to 69 of the 2025 Annual Report.

Deferred CY25 STI Performance Rights Allocated

The Deferred CY25 STI Performance Rights to be granted to Ms Lockhart will be subject to a one-year retention period and become exercisable from 1 January 2027. These rights relate to the assessed performance of the company and the CEO/MD for the financial year ended 31 December 2025.

The allocation price of Deferred CY25 STI Performance Rights to be issued to Ms Lockhart is equivalent to the VWAP of the Company's Shares traded on the ASX in the 20 trading days following the release of the Company's 2025 financial results on 26 February 2026, which is A\$1.8949. In respect of CY25, the number of Performance

Rights granted under the Deferred CY25 STI outcome for Ms Lockhart was 48,287, rounded to the nearest whole number, or A\$91,498 divided by A\$1.8949, being the 20 trading day VWAP as set out above.

Linking STI outcomes to financial and operational performance, achievement of project objectives and strategic objectives develops an essential alignment between the Company's year-to-year inherent value growth and the reward provided to those who establish that value.

The Board recognises the risks associated with offshore operations and considers operational and workforce safety as paramount at all times. Safety will therefore continue to be used as a gateway for STI vesting conditions. Subject to the safety and ethical gateways, the MD/CEO's deferred CY25 STI Performance Rights will have a retention period ending 1 January 2027 before they become exercisable and convertible into fully paid ordinary Shares. The Performance Rights will expire after a further 12 months if not exercised before. The terms of the Performance Rights are set out in the PRP and are summarized in Annexure "A" in this Explanatory Memorandum.

Rationale for the granting of LTI Performance Rights

The Company uses an LTI plan to align the interests of its CEO/MD with those of Shareholders' by linking rewards to various conditions such as the Company's performance and the retention of key staff over the longer term.

Conditions of grant

For the CY26, the long term incentive granted to the CEO/MD will be structured as follows:

- 70% of the CY26 LTI Performance Rights to be granted will be assessed over a three-year performance period (1 January 2026 to 31 December 2028) against the following two performance conditions (allocated evenly between each):
 - » 50% relative Total Shareholder Return (TSR) subject to variable outcomes as set out in Table 2 and tested against a closely comparable and representative industry peer group of companies whose business models and/or regions of operations are similar to those of Karoon (Industry Peer Group), as set out in Table 1; and
 - » 50% absolute TSR (based on a compound annual growth rate (CAGR)), which is set at a range of 14% to 18% per annum resulting in a vesting of Performance Rights when Absolute TSR achieves between 14% per annum and 18% per annum or higher, as set out in Table 3; and
- 30% of the CY26 LTI Performance Rights to be granted to Ms. Lockhart will be subject to a service condition (being employed and having not resigned on the vesting date) of one, two and three years, vesting (in thirds) at 31 December 2026, 2027 and 2028 respectively. If Ms Lockhart ceases employment or resigns before a vesting date, all unvested CY26 LTI Performance Rights subject to the service condition will immediately lapse on that date.

Table 1 Industry Peer Group

This group has been carefully selected by the Board to include those companies which have similar business models, geological footprints and operations to the Company, as well as companies that Shareholders may consider when looking to invest in the energy sector.

Table 2 (Relative TSR Vesting Schedule)

Vesting of the relative TSR performance CY26 LTI Performance Rights will occur in accordance with Table 2 below.

Performance Against Industry Peer Group	Proportion of Performance Rights vesting
Less than 50 th percentile	Nil
At 50 th percentile	50%
Between 50 th and 75 th percentile	50% plus 2% linearly correlated on a straight line basis for each additional percentile ranking above 50 th percentile
At or above 75 th percentile	100%

In the event of the delisting, merger or acquisition of any of the peer companies listed in Tables 1 and 2, the Board retains the discretion to vary the Peer Group including, but not limited to, assessing the relative performance of that entity by:

- normalising its performance over the testing period in the case of delisting; or
- substituting the performance of the new entity from the day of acquisition in the case of merger or acquisition.

Table 3 (Absolute TSR (CAGR) Vesting Schedule)

Vesting of the Absolute TSR (CAGR) performance CY26 Performance Rights will occur in accordance with Table 3.

Absolute TSR (CAGR)	Proportion of Performance Rights Vesting
Less than 14%	Nil
At 14%	50%
Between 14.01% and 17.99%	50% plus 12.5% linearly correlated on a straight-line basis for each additional percentile ranking above the 14% threshold
At or above 18.00%	100%

The terms of the Performance Rights to be issued to Ms Lockhart are summarised in Annexure A of this Explanatory Memorandum.

The number of CY26 LTI Performance Rights to be issued to Ms Lockhart is considered reasonable by the Board having regard to the totality of her responsibilities and achievements to date. The Board considers it appropriate that the relevant performance measures relate to the overall market performance of the Company both in terms of its Absolute TSR (CAGR), and Relative TSR performance against the select group of local and global exploration and production companies, which may be of investment interest.

CY26 LTI Performance Right Allocated

The allocation price of the CY26 LTI Performance Rights to be issued to Ms Lockhart is equivalent to the VWAP of the Company's shares traded on the ASX in the 20 trading days following the release of the Company's CY25 financial results on 26 February 2026, which is A\$1.8949. This results in 2,094,398 Performance Rights granted

under the CY26 LTI plan, rounded to the nearest whole number. 628,319 CY26 LTI Performance Rights are subject to a service condition, whilst 1,466,079 CY26 LTI Performance Rights are subject to performance conditions.

Other details

Listing Rule 10.15 requires the following further information to be disclosed in relation to Performance Rights to be granted to Ms Lockhart under the 2025 PRP:

- approval is being sought for the grant of the following number of Performance Rights to Ms Lockhart:
 - » 48,287 Short-term Incentive (Deferred CY25) Performance Rights, which will only vest subject to completion of a one-year employment retention ending 31 December 2026.
 - » 2,094,398 Long-term Incentive (CY26 LTI) Performance Rights, which are “at risk” remuneration and will only vest under and in accordance with the PRP and otherwise on the terms and conditions set out in this Explanatory Memorandum.
- Ms Lockhart, as CEO/MD, is an eligible employee for the purposes of the PRP and therefore is eligible to participate in the PRP; Ms Lockhart falls under Listing Rule 10.14.1 as the CEO/MD of the Company;
- Ms Lockhart’s CY26 remuneration package is set out on page 13;
- Performance Rights granted to Ms Lockhart are set out in Table 4 below. Ms Lockhart has not paid any consideration for the grant of such Performance Rights;
- the terms of the Performance Rights to be issued to Ms Lockhart are summarised in Annexure B in this Explanatory Memorandum;
- the Performance Rights will be granted to Ms Lockhart following the Meeting and in any case within 12 months of the Meeting;
- The Performance Rights will be issued for nil consideration;
- there is no loan applicable in relation to the acquisition of Performance Rights or the shares underlying them because Ms Lockhart is not required to make any payment for the Performance Rights or the shares underlying them;
- details of any securities issued under the PRP will be published in the annual report for the Company relating to the period in which the securities were issued, along with a statement that approval for the issue was obtained under Listing Rule 10.14; and
- any additional persons covered by Listing Rule 10.14 who become entitled to participate in an issue of Performance Rights under the PRP after this resolution is approved, and who were not named in the Notice of Meeting will not participate in the PRP until approval is obtained under that Listing Rule.

If Resolution 7 is not passed, Karoon will not proceed with the issue of Performance Rights to Ms Lockhart pursuant to the exception in ASX Listing Rule 10.14. Karoon would need to determine an alternative method (such as a cash payment) to appropriately incentivise Ms Lockhart, and to align her interests with those of Shareholders.

Ms Lockharts' interest in Shares

Ms Lockhart has not previously been granted awards of Performance Rights under various PRPs in relation to the CY26 Long-Term Incentive and in respect of the deferred component of STI awards.

As at the date of this Notice of Meeting, Ms Lockhart has an interest in no shares and no Performance Rights. If Shareholders approve Resolution 7, and all the Performance Rights are granted as contemplated by this Notice of Meeting, Ms Lockhart will have an interest in 2,142,685 Performance Rights.

If all of the Performance Rights proposed to be granted under Resolution 7 vest and are satisfied in shares, Ms Lockhart would acquire 2,142,685 shares. If these were newly issued shares, Ms Lockhart would have an interest in 0.3003% of the total issued shares in the Company (based on the total number of issued shares in the Company as of 8 April 2026).

Voting exclusion statement with regards to Resolution 7

A vote must not be cast on Resolution 7 by a KMP, or a closely related party of a KMP, acting as proxy, if their appointment does not specify the way the proxy is to vote on Resolution 7. However, this voting exclusion does not apply if the KMP is the Chair of the AGM acting as proxy and their appointment expressly authorises the Chair of the AGM to exercise the proxy even if Resolution 7 is connected directly or indirectly with the remuneration of a member of the KMP of the Company.

If you appoint the Chair of the AGM as your proxy, and you do not direct your proxy how to vote on Resolution 7 on the proxy form, you will be expressly authorising the Chair of the AGM to exercise your proxy even if Resolution 7 is connected directly or indirectly with the remuneration of a member of the KMP of the Company, which includes the Chair of the AGM.

The Chair of the AGM intends to vote undirected proxies able to be voted in favour of Resolution 7.

The Company will also disregard any votes cast in favour of resolution 7 by or on behalf of:

- a Director of the Company who is eligible to participate in the CY26 LTI; and
- an associate of that Director of the Company who is eligible to participate in the CY26 LTI.

However, this does not apply to a vote cast in favour of a resolution by:

- a person as proxy or attorney for a person who is entitled to vote on the resolution, in accordance with directions given to the proxy or attorney to vote on the resolution in that way; or
- the Chairman of the AGM as proxy or attorney for a person who is entitled to vote on the resolution, in accordance with a direction given to the Chairman to vote on the resolution as the Chairman decides; or
- a holder acting solely in a nominee, trustee, custodial or other fiduciary capacity on behalf of a beneficiary provided the following conditions are met:
 - the beneficiary provides written confirmation to the holder that the beneficiary is not excluded from voting, and is not an associate of a person excluded from voting, on the resolution; and
 - the holder votes on the resolution in accordance with directions given by the beneficiary to the holder to vote in that way.

Board recommendation: The Non-Executive Directors of the Company unanimously support the resolution. The CEO/MD of the Company makes no recommendation in relation to Resolution 7 on the basis that the resolution relates to the CEO/MD's remuneration.

A participant has no right to any variation in the offer price or the number of securities to be granted in an offer of shares upon the occurrence of a new issue of shares or other securities to holders of shares, unless the participant has validly exercised their Performance Rights in accordance with the 2025 PRP prior to the record date for the new issue.
- K. In respect of a participant who has accepted an offer of Performance Rights, if there is a bonus issue to the Company's Shareholders prior to the time at which the Right has been exercised, that participant will be entitled, upon later issue of the relevant ordinary shares, to receive an issue of so many additional shares as would have been issued to a Shareholder who, on the record date for determining entitlements under the bonus issue, held ordinary shares equal in number to the shares comprised in the offer of Performance Rights.
- L. In the event of any reorganisation of the issued capital of the Company other than a bonus issue, then the number of Performance Rights which each Participant is entitled will be adjusted in a manner determined by the Board (in accordance with the Listing Rules), in order to minimise or eliminate any material advantage or disadvantage to a participant.

Takeover

- M. If the Board determines that there has been a change of control of the Company, the replacement of a majority of the Board is imminent or that a bidder who did not have a relevant interest in more than 50% of the Company's issued shares has acquired (or become entitled to acquire) a relevant interest in more than 50% of the Company's issued shares, then the Board may resolve that the Company notify each participant in writing that some or all of the participant's unvested Performance Rights have vested on the basis of a pro-rated achievement of any vesting conditions applying to those unvested Performance Rights.

Termination or suspension

- N. Subject to the Listing Rules, the 2025 PRP may be amended at any time by a resolution of the Board.

ANNEXURE B

THE PERFORMANCE RIGHTS PROPOSED TO BE GRANTED UNDER RESOLUTION 7

The Board may from time to time make offers to 'Eligible Employees' subject to any performance conditions and any additional conditions the Board determines.

Each Performance Right entitles the holder to subscribe for or acquire and be issued or transferred one fully paid ordinary share (**Share**) in the Company.

There is no amount payable for the grant of the Performance Rights.

The Performance Rights cannot be exercised until 1 January 2029 (in the case of CY26 LTI Performance Rights), (**Exercise Date**) except in the circumstances set out below.

There is no exercise price to be paid on exercise of the Performance Rights.

A Performance Right (which has not otherwise lapsed) will vest in a holder on any date after the first anniversary of the grant date provided that the performance conditions notified to the holder by the Board are satisfied or waived by the Board.

The Performance Rights will lapse at 5.00 pm (AEST) 12 months after the relevant Exercise Date (**Expiry Date**). Any Performance Rights which have not been exercised on or before 5.00pm (Melbourne Time) on the Expiry Date lapse automatically.

The Performance Rights are not transferable and the Company will not seek official quotation of any Performance Rights. Once the Performance Rights are exercised, the Company will apply for official quotation of the Shares issued on exercise of those Performance Rights (except quotation of Shares is not guaranteed).

In the event of a takeover of the Company or a change of control, the Board may notify the holder that a percentage of his Performance Rights have vested.

Performance Rights may only be exercised after meeting the performance conditions and any other conditions by notice in writing (**Exercise Notice**) delivered to the registered office of the Company. The Exercise Notice must specify the number of Performance Rights being exercised and must be accompanied by the certificate for those Performance Rights, for cancellation by the Company.

A holder of Performance Rights has no entitlement to participate in a new issue of Shares or other securities in the Company unless those Performance Rights have vested and have been exercised in accordance with the PRP prior to the record date for the relevant new issue.

If the Company makes (whether before or after the Performance Rights have vested) a pro-rata or bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu or in satisfaction of dividends or by way of dividend reinvestment) and no Share has been acquired in respect of a Performance Right before the record date for determining entitlements to the bonus issue, then the number of Shares the subject of the Performance Right shall be:

- increased by the number of Shares which the holder would have received if the holder had exercised the Performance Right prior to such record date; or
- adjusted in a manner determined by the Board and in accordance with the Listing Rules, in order to minimise or eliminate any material advantage or disadvantage to a holder.

In the event of any reorganisation of the issued capital of the Company on or prior to the Expiry Date, then the number of Performance Rights to which a holder is entitled will be adjusted in a manner determined by the Board and in accordance with the Listing Rules to minimise or eliminate any material advantage or disadvantage to the holder. Any further Performance Rights issued on such an adjustment will be subject to the same terms and conditions as the original Performance Rights.

Appointing a second proxy: You are entitled to appoint up to two proxies to attend the meeting and vote on a poll. If you appoint two proxies you must specify the percentage of votes or number of securities for each proxy, otherwise each proxy may exercise half of the votes.
