InteliCare Holdings Limited (ASX: ICR) ("InteliCare" or the "Company"), an Australian technology company commercialising its AI-powered care platform for aged care & retirement living, is pleased to announce it has received firm commitments to raise approximately A\$2.05 million before costs through a placement of 93,000,000 new fully paid ordinary shares at an issue price of \$0.022 per share ("Placement").

The Placement was strongly supported by new and existing sophisticated and professional investors and provides InteliCare with additional working capital to support the Company's scale up plans for broader commercial deployment.

The Placement follows a period of significant commercial progress for InteliCare, including the signing of a five-year Master Subscription Agreement with MECWA Limited ("mecwacare") to deploy InteliCare across 22 residential aged care facilities, with a projected total contract value of approximately \$8.8 million upon full deployment. The Company also has a commercial agreement in place with Hardi Aged Care which has a total contract value of approximately \$2.9 million over three years on completion and recently completed its first deployment in the retirement village segment with Warrigal.

Angus Cameron, Chief Executive Officer said "InteliCare is now moving into a different phase of its development, with large-scale contracts signed, deployments underway and revenue beginning to materially grow.

The aged care sector is facing structural pressures from workforce shortages, rising compliance requirements and increasing demand for better care outcomes. InteliCare's platform has been designed to address these pressures by combining real-time monitoring, data-driven insights, compliance reporting and operational support in a single system.

The support received for this Placement strengthens our balance sheet as we progress the mecwacare deployment, continue the rollout across Hardi Aged Care, and advance a number of near term opportunities within our commercial pipeline across the residential aged care & retirement living sectors. We believe the Company is well positioned to build on its recent commercial momentum."
