1.5 Investment highlights

Tanami is an emerging gold development and exploration company with a 50% interest in the highly prospective Central Tanami Project, encompassing approximately 2,110 km² in the proven Tanami Region of the Northern Territory. The project is strategically located around 650 km northwest of Alice Springs and 850 km southwest of Darwin, with direct access via the Tanami Road. Positioned within one of Australia's most significant and productive gold provinces, the Company is well placed to capitalise on substantial near-term development and exploration upside.

The Central Tanami Project Joint Venture (**CTPJV**) is a 50:50 joint venture between Tanami and ASX-listed MGX Resources Limited (ASX: MGX). The Company's major shareholder, APAC Resources Limited, is the major shareholder of MGX Resources Limited (holding approximately 38%). The primary objective of the CTPJV is to develop and mine the Groundrush Gold Deposit (refer the Company's ASX announcement dated 7 November 2025), while continuing to identify and advance additional gold deposits across the extensive joint venture tenure.

The Groundrush Gold Deposit is located approximately 45km northeast of the Central Tanami Mill site, providing a clear pathway for development.

The project is supported by significant existing infrastructure, including a 1.2 Mtpa Carbon-in-Leach processing facility currently on care and maintenance, established haul roads, a bore field, gravel airstrip, and accommodation village. Planning for mill replacement/upgrades and infrastructure refurbishment is actively underway, positioning the project for an efficient and accelerated restart.

In April 2026, Macmahon Holdings Limited (ASX: MAH), a leading Australian mining services contractor with a 60-year track record across surface and underground gold operations, was selected via a subsidiary to undertake development of the exploration decline at the Groundrush project. The scope of works comprises approximately 3,500 metres of decline development, including portal establishment, primary ventilation, power reticulation and mine dewatering infrastructure.

A summary of the key focus areas for the CTPJV for 2026/2027 are as follows:

Resource Development and Exploration Programs

- Resource definition drilling focused on the free-milling assets at Groundrush (and also at Ripcord and Jims);
- Groundrush exploration decline to support underground drilling and data collection; and
- Near-mine exploration targeting extensions and additional opportunities surrounding Jims.

Studies Ongoing

- Ongoing Mineral Resource estimate updates incorporating results from active drill programs;
- Assessing airstrip and camp upgrades to support expanded exploration and development activities;
- Continued metallurgical and geotechnical testwork focused on the free-milling assets at Groundrush, Ripcord and Jims;
- Mine optimisation, design and scheduling studies to support development planning;

- Updates to local, environmental and government approvals, with supporting studies underway; and
- Engineering studies and commencement of processing facility construction.

Further details of the CTPJV objectives and investment highlights are outlined in the Investor Presentation released on 8 May 2026 available on the Company's website at www.tanami.com.au or on the ASX's website at www.asx.com.au.

1.6 Risk factors

Eligible Investors should be aware that an investment in the Company is subject to investment and other known and unknown risks, including possible loss of income and the principal invested. Investors should carefully read the section on risk factors set out in more detail in section 4 of this Offer Document and also as summarised in Appendix A of the Investor Presentation, available on the Company's website at www.tanami.com.au or on the ASX's website at www.asx.com.au. The Company is in the exploration and development phase of its Central Tanami Project in conjunction with its joint venture partner and an investment of this kind involves a number of risks, a number of which are specific to the Company and the industry in which it operates.

Some of these key risks include:

- (a) capital requirement risk;
- (b) key personnel risk;
- (c) permit and approvals risk;
- (d) operational risk;
- (e) uncertainty of project development and exploration risk;
- (f) commodity risk;
- (g) contractual and joint venture risk;
- (h) underwriting risk;
- (i) international conflict risk;
- (j) share market risk;
- (k) financial solvency risk; and
- (l) cyber risk.

However, these risks should not be taken to be exhaustive of the risks faced by the Company or its shareholders. Those risk factors referred to in section 4 of this Offer Document and also summarised in Appendix A of the Investor Presentation, and others not specifically referred to, may materially affect the financial performance of the Company and the value of its Shares in the future.

The Company has implemented strategies, actions, systems and safeguards for known risks. However, some risks are beyond its control. Consequently, the prevailing price or value of New Shares issued under the Offer may be more or less than the Issue Price.

The New Shares offered under this Offer carry no guarantee of profitability, dividends, return of capital or the price at which they may trade on ASX. The past performance of the Company should not necessarily be considered a guide to their future performance.

1.7 **New Share terms**

Each New Share will rank equally with all existing Shares then on issue. Full details of the rights and liabilities attaching to the Shares are set out in the Company's constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

1.8 **Entitlement trading**

Entitlements are renounceable, which means that Eligible Shareholders may sell or transfer all or any part of their Entitlement in order to realise the value which may attach to their Entitlement. Entitlement trading is expected to commence on 12 May 2026 (on a deferred settlement basis) and conclude on 20 May 2026.

It is the responsibility of all purchasers of Entitlements to inform themselves of and comply with the securities laws applicable to them in relation to the acquisition and exercise of any Entitlements they acquire. If the purchaser of the Entitlements does not meet the securities law requirements applicable to them, they will not be able to exercise their Entitlements and will not be able to subscribe for New Shares in relation to their Entitlements (and, in such circumstances, the Entitlements they acquired will lapse).

There is no guarantee that there will be a liquid market in traded Entitlements. A lack of liquidity may impact your ability to sell your Entitlement on the ASX and the price you may be able to achieve.

See sections 2.1 for further details on trading your Entitlement.

Eligible Investors

Other investors (none of whom need to be an existing Shareholder), are also able, provided that they are permitted under the securities law applicable to them, to acquire Entitlements (either on-market or by way of private transfer) and to exercise those Entitlements to subscribe for a corresponding number of New Shares. All such investors, along with all Eligible Shareholders, are together defined (and referred to in this Offer Document) as **Eligible Investors**.

It is the responsibility of all purchasers of Entitlements to inform themselves of and comply with the securities laws applicable to them in relation to the acquisition and exercise of any Entitlements they acquire. If the purchaser of the Entitlements does not meet the securities law requirements applicable to them they will not be able to exercise their Entitlements and will not be able to subscribe for New Shares in relation to those Entitlements (and, in such circumstances, the Entitlements they acquired will lapse).

1.9 **Acceptance of Entitlement to New Shares**

The number of New Shares to which each Eligible Shareholder is entitled is calculated as at the Record Date and is shown on the personalised Entitlement and Acceptance Form accompanying this Offer Document. This Offer Document is for the information of Eligible Shareholders who are entitled and may wish to apply for the New Shares. Fractional entitlements will be rounded up to the nearest whole number.

Entitlements to New Shares can be accepted in full or in part by following the instructions on the personalised Entitlement and Accepted Form which can be accessed online at <https://portal.automic.com.au/investor/home> and by making payment of Application Money by BPAY® or EFT (or if you are an overseas shareholder, by EFT only) in accordance with the

instructions set out on the Entitlement and Acceptance Form. Application Money should be rounded up to the nearest cent.

Subscription moneys for the New Shares must be received by the Company at its Share Registry by the Closing Date. Please refer to the timetable for the important dates of the Offer.

1.10 Joint Lead Managers

The Company has entered a mandate dated 1 May 2026 with the Joint Lead Managers pursuant to which the Joint Lead Managers have been appointed the joint lead managers and bookrunners to the Offer (**Mandate Agreement**).

The Joint Lead Managers will provide a number of services to the Company in respect of the Offer including lead managing the Offer and other services and assistance customarily provided in connection with such an Offer.

The Company has agreed to pay the Joint Lead Managers:

- (a) a management fee of 2% of the gross proceeds raised in connection with the Offer (**Management Fee**); and
- (b) an underwriting fee of 3% of the gross underwritten proceeds raised in connection with the Offer (**Underwriting Fee**).

The Joint Lead Managers have confirmed under the Mandate Agreement that any fee payable to sub-underwriters of the Offer will be paid by the Underwriter (this sub-underwriting fee is clarified further in the Underwriting Agreement, described below). Additionally, no Underwriting Fee will be payable on proceeds from APAC Resources Limited, Metals X Limited and Everbright Securities Investment Services (HK) Ltd under the Offer who have provided firm commitments to take up their full Entitlement.

The Joint Lead Managers will split the above fees after payment by the Joint Lead Managers of any agreed selling fees to Sub-Underwriters based on the following percentages:

- (a) Bell Potter Securities Limited: 60%; and
- (b) Evolution Capital Pty Ltd: 40%.

The Company has agreed to reimburse the Joint Lead Managers in respect of all reasonable out-of-pocket expenses (including GST) incurred by the Joint Lead Managers in connection with the Offer (other than any payments made in relation to the appointment by the Joint Lead Managers of other brokers to the Offer).

The Joint Lead Managers must obtain the written consent of the Company prior to incurring any individual expense (excluding legal fees, which may be reimbursed by the Company up to \$40,000 (excluding GST), plus additional applicable fees associated with foreign offering legal advice) greater than \$2,000 (excluding GST).

The Mandate Agreement has immediate effect and will remain in place until the earlier of completion of the Offer and 24 months after the date of the Mandate Agreement, unless terminated in accordance with the Mandate Agreement. The Mandate Agreement may also be terminated with or without cause by the Company or Joint Lead Managers by giving 14 days' prior written notice to the other parties, at any time. In the event of termination, provisions of the Mandate Agreement that are capable of having effect after expiry or termination (including but not limited to those relating to fees, expenses, indemnification, limitation of liability and confidentiality) will survive and any rights accrued by a party prior to the date of expiry or termination will continue.

Other than due to termination by the Company for cause due to the Joint Lead Managers' fraud, recklessness, wilful misconduct or gross negligence, where the Company terminates the

Mandate Agreement and subsequently announces the Offer or a similar equity capital raising within 12 months from the date of termination, the Company must pay the Joint Lead Managers within 7 days of the settlement date for that capital raising an amount equal to the fees stated in the Mandate Agreement.

The Company agrees to offer the Joint Lead Managers the right of first refusal to act as Lead Manager in any equity capital raising undertaken by the Company within 24 months following completion of the Offer which must be accepted by the relevant Joint Lead Manager within 7 days of it being advised in writing of the Company's proposed course of action and if not accepted, the Company may appoint another joint lead manager.

The Mandate Agreement contains other terms and conditions that are standard for an agreement of its nature. This includes, but is not limited to, clauses in relation to representations and warranties, indemnities, and confidential information.

1.11 Underwriting

As the Offer is underwritten, the Directors, in conjunction with the Underwriter, shall allot and issue any Shortfall from Entitlements not taken up under the Offer in accordance with the Underwriting Agreement as set out in section 2.3.

Shareholders should be aware that to the extent that they do not accept their Entitlements in full, a Shortfall will arise and that Shortfall will be taken up (either directly or as procured by the Underwriter to sub underwriters and/or institutional investors pursuant to the Underwriting Agreement (and sub-underwriting arrangements), in which case their interest in the Company may be significantly diluted (see section 3.3 for further details). Further, the Offer is not being extended to Shareholders with registered addresses outside of Australia, New Zealand, Hong Kong, Mauritius, the British Virgin Islands, Singapore, European Union (excluding Austria and France) and Taiwan and the holdings of those Shareholders in the Company will be diluted by the Offer. Given the terms of the Offer, the interests of a Shareholder in the Company may be diluted by up to 50% as a consequence of the Offer in the event that they are not eligible to participate or elect not to accept their Entitlement in full.

Acceptance of Entitlements or the take up of Shares by the Underwriter or sub underwriters and/or institutional investors pursuant to the Underwriting Agreement may result in those parties significantly increasing their interest in the Company or obtaining a substantial interest in the Company. However, Shares will only be issued to the extent that such issue is in compliance with the takeover provisions of the Corporations Act, which restrict a person and

their associates from having a relevant interest in the Company of not more than 20%, subject to a number of exemptions.

1.14 **ASX listing**

On the same date as announcing the Offer, the Company applied to the ASX for the New Shares to be issued pursuant to this Offer Document to be listed for official quotation by the ASX. If granted, quotation of the New Shares will commence as soon as practicable after allotment of the New Shares to Applicants. It is the responsibility of the Applicants to determine their allocation of New Shares prior to trading.

The CHESS statements, which are similar in style to bank account statements, will set out the number of New Shares allotted to each successful Applicant pursuant to this Offer Document. The statement will also advise holders of their holder identification number. Further statements will be provided to holders which reflect any changes in their holding in the Company during a particular month.

1.16 **Overseas Shareholders**

This Offer Document and accompanying forms do not, and are not intended to, constitute an offer of New Shares in any place in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Offer or that Form.

The distribution of this Offer Document and the accompanying form in jurisdictions outside of Australia is restricted by law and persons who come into possession of this Offer Document and the accompanying form should seek advice on and observe those restrictions. Any failure to comply with those restrictions may constitute a violation of applicable securities laws.

The Company has decided that it is unreasonable to make offers under the Issue to Shareholders with registered addresses outside of Australia, New Zealand, Hong Kong, Mauritius, the British Virgin Islands, Singapore, the European Union (excluding Austria and France) and Taiwan (**Ineligible Shareholders**) having regard to the number of Shareholders in those places, the number and value of the New Shares they would be offered and the cost of complying with the legal and regulatory requirements in those places. Accordingly, the Offer is not being extended to, and does not qualify for distribution or sale by, Ineligible Shareholders and no New Shares will be issued to Ineligible Shareholders.

In particular this Offer is not made in the United States or to persons (including nominees or custodians) acting for the account or benefit of a person in the United States, or to any person

who is ineligible under applicable securities laws in any country to receive an offer under the Offer Document without any requirement for a prospectus to be lodged or registered.

Nominees and custodians may not distribute any part of this document in the United States or in any other country outside of Australia, New Zealand, Mauritius, the British Virgin Islands and Singapore, except to beneficial Shareholders in another country (other than the United States) where the Company may determine it is lawful and practical to make the Offer. Any person in the United States with a holding through a nominee may not participate in the Offer.

In addition, nominees, trustees and custodians must not apply on behalf of any beneficial holder that would not itself be an Eligible Shareholder. The Company is not required to determine whether or not a registered holder or investor is acting as a nominee, trustee or custodian or the identity or residence of any beneficial holder of Shares. Where any person is acting as a nominee, trustee or custodian for a foreign person, that person, in dealing with its beneficiary, will need to assess whether indirect participation in the Offer by the beneficiary complies with applicable laws. By applying for New Shares under this Offer Document, by making a payment using BPAY®, a nominee, trustee or custodian represents and warrants this is the case. Company reserves the right to reject any Acceptance which it believes comes from a person who is not an Eligible Shareholder.

While the Company believes that it is extremely unlikely that in the Offer period the electronic version of the Offer Document will be tampered with or altered in any way, the Company cannot give any absolute assurance that it will not be the case. Selling all or part of your Entitlement on ASX

The Entitlements under the Offer are renounceable which means that all or part of an Eligible Shareholder's rights to subscribe for Shares under the Offer may be traded on ASX.

If you wish to sell all or part of your Entitlement on ASX, provide instructions to your stockbroker regarding the Entitlement you wish to sell on ASX. Trading of Entitlements will commence on 12 May 2026 (on a deferred settlement basis) and conclude on 20 May 2026.

Please note that the price obtainable for Entitlements may rise and fall over the Entitlements trading period and will depend on numerous factors including the supply of and demand for Entitlements and the prevailing price of Shares relative to the Issue Price. There is no guarantee that an Eligible Shareholder will be able to sell all or part of their Entitlement on ASX or that any particular price will be paid for the Entitlements sold on ASX.

The Company will have no responsibility and disclaims all liability (to the maximum extent permitted by law) to persons who trade their Entitlements (whether on the basis of confirmation of the allocation provided by the Company, the Share Registry, the Joint Lead Managers or otherwise) before they receive their Entitlement and Acceptance Form or who trade or purport to trade their Entitlements in error.

Taking up a proportion of your Entitlement and selling the balance on ASX

If you wish to take up only part of your Entitlement, complete the accompanying personalised Entitlement and Acceptance Form for the number of Shares you wish to take up and make

payment using the methods set out under “Take up your Entitlement in full” above. Remember, if you pay by BPAY® or EFT there is no need to return the Entitlement and Acceptance Form.

Subsequently, provide instructions to your stockbroker regarding the proportion of your Entitlement you wish to sell on ASX.

Please note that the price obtainable for Entitlements may rise and fall over the Entitlements trading period and will depend on numerous factors including the supply of and demand for Entitlements and the prevailing price of Shares relative to the Issue Price. There is no guarantee that an Eligible Shareholder will be able to sell all or part of their Entitlement on ASX or that any particular price will be paid for the Entitlements sold on ASX.

The Company will have no responsibility and disclaims all liability (to the maximum extent permitted by law) to persons who trade their Entitlements (whether on the basis of confirmation of the allocation provided by the Company, the Share Registry, the Joint Lead Managers or otherwise) before they receive their Entitlement and Acceptance Form or who trade or purport to trade their Entitlements in error.

Taking up a proportion of your Entitlement and allowing the balance to lapse

If you wish to take up only part of your Entitlement, complete the accompanying personalised Entitlement and Acceptance Form for the number of Shares you wish to take up and make payment using the methods set out under “Take up your Entitlement in full” above. Remember, if you pay by BPAY® or EFT there is no need to return the Entitlement and Acceptance Form.

If you take no further action, the balance of your Entitlement will lapse and you will have forfeited any potential benefit to be gained from taking up or selling that part of your Entitlement.

Selling all or a proportion of your Entitlement other than on ASX

You may elect to transfer all or a proportion of your Entitlement to an Eligible Investor other than on ASX.

If you are a Shareholder on the issuer sponsored sub-register and you wish to transfer all or a proportion of your Entitlement to an Eligible Investor other than on ASX, forward a completed standard renunciation and transfer form, obtainable from the Share Registry by calling the Share Registry Information Line on 1300 288 664 (within Australia) or +61 2 9698 5414 (outside Australia) between 8:30am (AEST) and 7:00pm (AEST) Monday to Friday.

If you wish to transfer all or a proportion of your Entitlement to or from an Eligible Investor in the CHESS sub-register you must engage your CHESS controlling participant (usually your stockbroker). If the Eligible Investor wants to exercise some or all of the Entitlement, you should follow your stockbroker’s instructions as to the most appropriate way to take up the Entitlement on their behalf. The Application Money for Shares the Eligible Investor of the Entitlement wants to acquire must be received by the Share Registry in accordance with the payment methods described under “Take up your Entitlement in full” above.

If you transfer your Entitlement, you may receive a higher or lower amount than Shareholder who sells their Entitlements at a different time or who sells them on-market. You may only transfer your Entitlements to a purchaser who qualifies as an Eligible Investor.

Allowing all or part of your Entitlement to lapse

Shareholders should be aware that their Entitlement may have value. Entitlements are renounceable, which enable Eligible Shareholders who do not wish to take up part or all of their Entitlement to seek to sell or trade all or some of their Entitlement on ASX.

If you do not wish to accept or trade any part of your Entitlement, you are not obliged to do anything. If you do not take up your Entitlement or dispose of your Entitlement by the Closing Date, the Offer to you will lapse.

Exercise of Entitlements acquired

If you acquired your Entitlements on-market (and provided that you are an Eligible investor) you will be able to exercise the Entitlements that you acquired to subscribe for a corresponding number of New Shares by completing a standard entitlements acceptance form (available from the Share Registry) and paying the subscription monies that correspond to the number of New Shares you wish to subscribe for.

If you acquired your Entitlements off-market (and provided that you are an Eligible Investor) you must ensure that the seller of those Entitlements forwards a completed standard renunciation and transfer form together with the standard entitlements acceptance form and payment (ie. the payment that corresponds to the number of Shre Shares that you wish to subscribe for) to the Share Registry before the Closing Date.

General

If you have any queries concerning your Entitlement, please contact the Share Registry Information Line on 1300 288 664 (within Australia) or +61 2 9698 5414 (outside Australia) between 8:30am (AEST) and 7:00pm (AEST) Monday to Friday until the Closing Date of the Offer or contact your stockbroker or professional adviser.

Entitlement and Acceptance Forms may be lodged and payment of the Application Money made at any time before the Closing Date. Applications and payment received after the Closing Date may not be accepted. The Company will not be responsible for postal or delivery delays.

The Issue Price of \$0.06 per New Share is payable in full on acceptance of part or all of your Entitlement.

Where payment is to be made using BPAY®, the Eligible Shareholder must make payment of the Application Money from their cheque or savings account. Refer to the Entitlement and Acceptance Form for the biller code and customer reference number. Eligible Shareholders who have multiple holdings will have multiple customer reference numbers.

Payment will only be accepted in Australian currency and BPAY® payments must be drawn on an Australian bank.

No stamp duty, brokerage or handling fees are payable by Eligible Investors who participate in the Entitlement Offer. Entitlement and Acceptance Forms will not be accepted at the Company's registered office or at the Share Registry.

The amount payable on acceptance will not vary during the period of the Offer and no further amount is payable on allotment. Application Money will be held in trust in a subscription account until allotment of the New Shares. The subscription account will be established and kept by the Share Registry on behalf of the Applicants. Any interest earned on the Application Money will be retained by the Company irrespective of whether allotment takes place.

2.2 Binding effect of Entitlement and Acceptance Form

A payment made through BPAY® or by EFT in response to your personalised Entitlement and Acceptance Form constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Offer Document and, once paid, cannot be withdrawn. If such payment is not completed correctly or received by 5.00pm (Sydney time) on the Closing Date or such later date as the Directors determine it may still be treated as a valid application for New Shares. The Directors' decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

By making a payment by BPAY® or EFT in response to your personalised Entitlement and Acceptance Form, you will also be deemed to have acknowledged, represented and warranted on behalf of each person on whose account you are acting that:

- (a) you are an Eligible Shareholder and are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States and are not otherwise a person to whom it would be illegal to make an offer or issue New Shares under the Offer;
- (b) you acknowledge that the New Shares have not been, and will not be, registered under the US Securities Act or under the laws of any other jurisdiction; and
- (c) you have not and will not send any materials relating to the Offer to any person in the United States or to any person (including nominees or custodians) acting for the account or benefit of a person in the United States.

2.3 Allotment and allocation under underwriting

- (a) Allocation and allotment of any New Shares not taken up pursuant to Entitlements will be made in accordance with the following:
 - (1) the Company reserves the right to allocate the New Shares in accordance with the terms of the Underwriting Agreement; and
 - (2) the Company will call on the Underwriter to subscribe for or procure the subscription for the New Shares in accordance with its underwriting obligations under the Underwriting Agreement. These remaining New Shares may be allocated by the Underwriter to Sub-Underwriters to the Offer. It is expected that all New Shares offered under the Offer will be issued at the same time.
- (b) The Company will not allocate or issue New Shares, where it is aware that to do so would result in a breach of the Corporations Act, the Listing Rules or any other relevant legislation or law (including the *Foreign Acquisitions and Takeovers Act 1975* (Cth)). Subscribers must consider whether any application would breach the Corporations Act or the Listing Rules or any other relevant legislation or law (including the *Foreign Acquisitions and Takeovers Act 1975* (Cth)) having regard to their own circumstances.

3. ASX Control issues arising from the Offer on the Company

3.1 Present position

At the date of this Offer Document the Company is of the view that there is no one entity who controls the Company.

The only Shareholder who holds a substantial interest in more than 5% of the Shares prior to the date of this Offer Document is APAC Resources Limited and its related bodies corporate who has a relevant interest in the Shares as follows:

Name	Shares	%
APAC Resources Mining Limited	509,851,522	43.39
Metals X Limited	34,430,000	2.93
Everbright Securities Investment Services (HK) Ltd	34,169,922	2.91

At the date of this Offer Document, APAC Resources Limited, Metals X Limited and Everbright Securities Investment Services (HK) Ltd have provided firm commitments to take up their full Entitlement. On the expectation that the above Eligible Shareholders apply for their Entitlements, and the Offer is fully subscribed, there is no change expected in the relevant interest of the above Eligible Shareholders. No Underwriting Fee will be payable on proceeds from the acceptance of these Entitlements.

3.2 Capital structure

Assuming full subscription under the Offer, the share capital structure of the Company immediately following the Issue will be as follows:

Shares		
	Number	%
Ordinary Shares on issue prior to the Offer	1,175,097,046	50
Maximum number of New Shares under the Offer Document	1,175,097,046	50
Total:	2,350,194,092	100

3.3 Potential effect of the Offer

The Offer is a pro rata offer so that if all Eligible Shareholders take up their Entitlements and participate in the Offer, the voting power of all Eligible Shareholders would remain the same.

If an Eligible Shareholder does not take up their Entitlement in full it will result in their percentage holding in the Company being diluted as a result of the Offer. Given the terms of the Offer, which is fully underwritten, the dilution to an Eligible Shareholder's interest in the Company if they do not accept any of their Entitlement would be 50%.

Additionally, the Offer is not being extended to Shareholders with registered addresses outside of Australia, New Zealand, Hong Kong, Mauritius, the British Virgin Islands, Singapore, the European Union (excluding Austria and France) and Taiwan and the holdings of those Shareholders in the Company will be diluted by a maximum of 50% as a consequence of the Offer.

While the final percentage interests held by Shareholders of the Company is entirely dependent on the extent to which they are Eligible Shareholders and to the extent to which the

other Shareholders take up their Entitlements, the Company expects that the potential effect of the issue of Shares under the Offer on the control of the Company will be minimal and that no Shareholder will increase their interest in the Company to greater than 20% as a result of applying for New Shares under the Offer, noting that the Offer represents a total of a 50% interest in the Company upon its completion.

If no Eligible Shareholders take up their entitlements, the Underwriter or any Sub-Underwriters pursuant to the Underwriting Agreement will receive up to 1,175,097,046 New Shares under the Offer. Again, this represents a maximum of 50% interest in the Company upon its completion. Pursuant to the sub-underwriting agreements between the Joint Lead Managers and the Sub-Underwriters, the New Shares under the Offer will be allocated between the Joint Lead Managers and the Sub-Underwriters, such that no party will obtain a controlling interest in the Company (and is in compliance with the takeover provisions of the Corporations Act, which restrict a person and their associates from having a relevant interest in the Company of not more than 20%, subject to a number of exceptions).

APAC Resources Limited and Metals X Limited have provided firm commitments to participate in the Offer to their full Entitlement and will not be participating in any sub-underwriting arrangements to the Offer. Having regard to this and the above statements, the voting power in the Company held by APAC Resources Limited (which includes an interest in the Metals X Limited holding) and its related bodies corporate will remain at 49.23% assuming full subscription of the Offer.

4. Risk factors

4.1 Introduction

The activities of the Company, as in any business, are subject to risks which may impact on its future performance. The Company has appropriate actions, systems and safeguards for known risks, however, some are outside its control.

Prior to making any decision to accept the Offer, Eligible Investors should carefully consider the risk factors which the Company has previously disclosed (many of which are listed below), as well as those risks of which the Eligible Investor is aware, or should be aware of through their own knowledge and enquiries.

Some of the risks may be mitigated by the Company using safeguards and appropriate systems and taking certain actions. However, as noted above and previously, some of the risks are outside the control of the Company and are not capable of mitigation. There are also general risks associated with any investment in shares.

The risks listed below (and previously disclosed by the Company) should not be taken as exhaustive of the risks faced by the Company. Factors other than those listed may in the future materially affect the financial performance of the Company and the value of the New Shares. Eligible Investors should read this Offer Document in its entirety and consult their stockbroker, accountant or other professional advisor without delay before deciding whether to accept the Offer.

4.2 General risks

The New Shares that are to be issued pursuant to the Offer are speculative because of the nature of the mining industry generally. The value of shares can go up as well as down and a dividend may or may not be paid in the future, depending on the Company's operating successes. As the holding of the Company's securities can involve certain risks, Eligible Investors in doubt as to the course they should follow should consult their stockbroker, accountant or other professional advisor without delay.

A summary of the major general risks are described below:

(a) Nature of investment

Any potential investor should be aware that subscribing for New Shares involves risks. The New Shares to be issued pursuant to this Offer carry no guarantee with respect to the payment of dividends, return on capital or the market value of those New Shares. An Applicant may not be able to recoup his or her initial investment. More specifically, the risks are that:

- (1) the price at which the Applicant is able to sell the New Shares is less than the price paid due to changes in market circumstances;
- (2) the Applicant is unable to sell the New Shares; and
- (3) the Company is placed in receivership or liquidation making it reasonably foreseeable that Shareholders could receive none, or only some of their initial investment.

(b) Dilution

Eligible Shareholders should be aware that to the extent that they do not accept their Entitlements in full, a Shortfall will arise and all or part of any Shortfall will be subscribed for by the Underwriter (or Sub Underwriters) or other third parties, in which

case, their interest in the Company may be diluted. Further, the Offer is not being extended to Shareholders with registered addresses outside of Australia, New Zealand, Hong Kong, Mauritius, the British Virgin Islands Singapore, the European Union (excluding Austria and France) and Taiwan and the holdings of those Shareholders in the Company will be diluted by the Offer.

(c) **Share market**

The market price of listed securities can be expected to rise and fall in accordance with general market conditions and factors specifically affecting the Australian resources sector and exploration companies in particular.

The New Shares carry no guarantee in respect of profitability, dividends, return on capital, or the price at which they may trade on the ASX. There are a number of factors (both national and international) that may affect the share market price and neither Tanami nor its Directors have control of those factors.

(d) **Economic factors**

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions including the levels of consumer confidence and spending, business confidence and investment, employment, inflation, interest rates, exchange rates, access to debt and capital markets, fiscal policy, monetary policy and regulatory policies. A prolonged deterioration in any number of the above factors may have a material adverse impact on the Company's business and financial performance.

(e) **Management actions**

The Directors will, to the best of their knowledge, experience and ability (in conjunction with their management) endeavour to anticipate, identify and manage the risks inherent in the activities of the Company, but without assuming any personal liability for same, with the aim of eliminating, avoiding and mitigating the impact of risks on the performance of the Company and its securities.

(f) **International conflict**

The ongoing military conflict between Russia and Ukraine, Israel and Gaza, and the recent conflict between the United States and Iran are having a material effect on the global economy.

These hostilities have created uncertainty for capital markets around the world, and this uncertainty may lead to adverse consequences for Tanami's business operations. Measures taken by governments around the world to end these conflicts (such as imposing tariffs on exports and other economic sanctions) may cause disruptions to Tanami's supply chains and adversely impact commodity prices. Such events may affect the financial performance of Tanami, including post-completion of the Offer. Further, there is no certainty that similar conflicts which impact global markets will not arise in the future.

(g) **Cyber risk**

Like other entities Tanami may be exposed to the risk of cyber attacks on its systems and operations. Such attacks may involve a denial of service, corruption of data, exposure of private data in breach of regulations or request for payment of monies. The Company believes it has appropriate data security mitigations in place, however there is no guarantee that this will be sufficient to prevent a successful attack will be given.

(h) **Unforeseen expenses**

While the Company is not aware of any expenses that may need to be incurred that have not been taken into account, if such expenses were subsequently incurred, the expenditure proposals of the Company may be adversely affected.

4.3 Risks specific to an investment in the Company

In addition to the general risks noted in section 4.2, Eligible Investors should be aware of risks specific to an investment in the Company, which may include, but are not limited to the following:

(a) **Regulatory risk and government policy**

The availability and rights to explore and mine, as well as industry profitability generally, can be affected by changes in government policy that are beyond the control of Tanami.

The relevant government departments in the jurisdiction(s) in which Tanami has interests do conduct reviews from time to time of policies in connection with the granting and administration of mining tenements. Whilst Tanami remains confident that the required appointments will be made, no assurance can be given as to the timing or outcome.

Changing attitudes to environmental, land care, cultural heritage or traditional religious artefacts and indigenous land rights issues, together with the nature of the political process, provide the possibility for future policy changes. There is a risk that such changes may affect the Company's exploration plans or, indeed its rights and/or obligations with respect to the tenements.

(b) **Uncertainty of project development and exploration risk**

Mineral exploration and development are high risk undertakings and involve significant risks. Tanami's performance depends on the successful exploration and/or acquisition of resources or reserves and commercial production therefrom. There can be no assurances that Tanami's (or the CTPJV's) exploration programs described in this presentation and in the Offer documents or those relating to any projects or tenements that Tanami may acquire in the future, will result in the discovery of a significant base metal and/or precious metal deposit, and even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

Tanami's potential future earnings, profitability and commercialisation of base metal and/or precious metal reserves and resources will be dependent on the successful discovery and subsequent extraction of those resources to the extent that may be required to fulfil commercial obligations. Successful commodity development and production is dependent on obtaining all necessary consent and approvals and the successful design, construction and operation of efficient gathering, processing and transportation facilities.

No assurance can be given that Tanami (or the CTPJV) will be able to obtain all necessary consents and approvals in a timely manner, or at all. Delays or difficulties in obtaining relevant approvals, or obtaining conditional or limited approvals, may interfere with mining operations of Tanami (and the CTPJV) which could materially impact the business, financial position and performance of Tanami.

(c) **Operational risks and costs**

Prosperity for Tanami and its subsidiary (and the CTPJV) will depend largely upon an efficient and successful implementation of all the aspects of exploration, developments, business activities and management of commercial factors.

Exploration has been and will continue to be hampered on occasions by unforeseen weather events, accidents, unforeseen cost changes, environmental considerations, natural events and other incidents beyond the control of Tanami.

By its nature, the business of exploration is a highly speculative endeavour and involves significant risks. The Company's performance depends on the successful exploration and/or acquisition of resources or reserves, competent operational management and efficient financial management. Further, the nature of exploration can sometimes result in industrial accidents and other incidents beyond the control of the Company.

The exploration and mining activities of the Company may be affected by a number of factors, including but not limited to geological conditions, seasonal weather patterns, technical difficulties and failures, continued availability of the necessary technical equipment, plant and appropriately skilled and experienced technicians, adverse changes in government policy or legislation and access to the required level of funding.

(d) **Key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of Tanami depends substantially on Tanami Board and executive team. There can be no assurance given that there will be no detrimental impact on Tanami if one or more of its directors or key executives no longer works with Tanami.

(e) **Environmental regulations and risks**

National and local environmental laws and regulations affect nearly all of the operations of the Company. These laws and regulations set various standards regulating certain aspects of health and environmental quality, provide for penalties and other liabilities for the violation of such standards and establish, in certain circumstances, obligations to remediate current and former facilities and locations where operations are or were conducted. The Company will minimise the potential impact of these laws and regulations by taking steps to ensure compliance occurs and, where possible, by carrying appropriate insurance.

Significant liability could be imposed on the Company for damages, clean up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous owners of properties acquired by the Company or non-compliance with environmental laws or regulations.

(f) **Sovereign risks**

Any future material adverse changes in government policies or legislation in Australia or any other jurisdiction in which the Company undertakes or may undertake operations that affect foreign ownership, mineral exploration, development or mining activities, may affect the viability and profitability of the Company and its projects.

(g) **Permits and approvals**

Companies engaged in the development and operation of mining facilities are subject to increased costs, production and other scheduling delays resulting from the requirement to comply with applicable environmental and planning laws, regulatory requirements and permitting. Tanami can give no assurance that relevant approvals and permits required to commence construction, development or operation of future expansions will be obtained. Additionally, future business plans and budgets are underpinned by the assumption that relevant regulatory approvals are obtained in a timely manner.

(h) **Commodity risk**

Tanami expects to derive its revenue mainly from the sale of gold and/or associated minerals. Consequently, Tanami's potential future earnings, profitability and growth are likely to be closely related to the demand for and price of gold and associated minerals. Gold is a traded commodity in Australia and its long-term price may rise or fall. Additionally, Tanami's prospects and perceived value will be influenced from time to time by the prevailing short-term prices of the commodities targeted in its exploration programs. Commodity prices fluctuate and are affected by factors including supply and demand for mineral products, hedge activities associated with commodity markets, the costs of production and general global economic and financial market conditions. These factors may cause volatility which in turn, may affect Tanami's ability to finance its operations and/or bring Tanami's products to market.

(i) **Title Risk**

The exploration and prospecting permits and claims in which the Company has now, or may, in the future, acquire an interest (either directly or via the CTPJV), are subject to applicable local laws and regulations. There is no guarantee that any claims, applications or conversions in which the Company has a current or potential interest will be granted.

All of the projects in which the Company has an interest in will be subject to application for claim renewal from time to time. Renewal of the term of each claim is subject to applicable legislation. If the claim is not renewed for any reason, the Company may suffer significant damage through loss of the opportunity to develop and discover any mineral resources on that claim.

Although the Company has taken steps to verify the title to the resource properties in which it has or has a right to acquire an interest in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee title. Title to resource properties may be subject to unregistered prior agreements or transfers, and may also be affected by undetected defects or the rights of indigenous peoples.

(j) **Feasibility and development risks**

Given the early stage of the Company's projects, there will be a complex, multidisciplinary process to be undertaken to complete a feasibility study to support any development proposal. There is a risk that the feasibility study and associated technical works will not achieve the results expected. There is also a risk that even if a positive feasibility study is produced, the CTP may not be successfully developed for commercial or financial reasons.

(k) **Climate risk**

There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:

- (a) the emergence of new or expanded regulations associated with the transition to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and

- (b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

(l) **Capital requirements**

Tanami capital requirements, including in relation to the development of the CTPJV, will depend on numerous factors, including the degree of success of its planned production activities, its ability to generate income from its operations, prevailing commodity prices, market conditions and possible acquisitions or other corporate opportunities. Ramp up and production costs will reduce Tanami cash reserves.

Those cash reserves may not be replaced if future or existing operations or other acquisition opportunities prove unsuccessful or perform below expectations. Tanami would then be dependent on seeking additional capital elsewhere, through equity, debt or joint venture financing, to support long-term evaluation and development of its projects. No assurance can be given that Tanami will be able to procure funding (if required) in a timely manner on terms acceptable to it.

Any additional equity financing will dilute shareholdings and debt financing, if available, and may involve restrictions on financing and operating activities. If Tanami is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations which may adversely impact Tanami, or it may not be able to secure opportunities to acquire new projects or other corporate opportunities.

Specifically, undertaking the CTPJV will require significant capital investment and whilst Tanami is actively engaged with its joint venture partner, there is no assurance that satisfactory arrangements will be entered into to enable the progression of Tanami's project(s).

(m) **Contractual and joint venture risk**

Tanami shares financial responsibility for ongoing joint venture (CTPJV) activities. There is a risk that Tanami may not be able to fund its share of the CTPJV's approved program and budget, particularly if exploration expenditure escalates or if access to external capital is constrained. Insufficient funding could result in dilution of Tanami interest in the CTPJV, delay progress, or breach partnership agreements.

Tanami's ability to efficiently conduct its operations in a number of respects depends upon its joint venturer and other third parties and contracts have, in some circumstances, been entered into by Tanami and its subsidiary in this regard. As in any contractual relationship the ability for Tanami to ultimately receive benefits from these contracts are dependent upon the relevant third party complying with its contractual obligations.

To the extent that such third parties default in their obligations, it may be necessary for Tanami to enforce its rights under any of the contracts and pursue legal action. Such legal action may be costly and no guarantee can be given by Tanami that a legal remedy will ultimately be granted on appropriate terms. The CTPJV and any other future joint ventures entered into by, or interests in joint ventures assigned to Tanami, could be affected by the failure or default of any of the joint venture participants.

Additionally, failure by contractors to perform in accordance with required timelines, may expose any project in which Tanami, its subsidiaries or companies it has an interest in, to risk of forfeiture under applicable laws.

(n) **Underwriting risk**

Tanami has or expects to enter into an Underwriting Agreement in respect of the Offer to which only the Underwriter and Tanami are a party (refer to section 1.11). Prior to settlement of the Offer, there are certain events which, if they were to occur, may affect the obligations of the Underwriter to underwrite the Offer. If certain conditions are not satisfied or certain events occur under the Underwriting Agreement, the Underwriter may terminate the Underwriting Agreement which may require Tanami to search for alternative financing.

The ability of the Underwriter to terminate the Underwriting Agreement in respect of some events will depend (amongst other things) on whether the event has or is likely to have a material or adverse effect on the success, settlement or marketing of the Offer, or could reasonably be expected to give rise to a contravention by, or a liability of, the Underwriter under applicable law. If the Underwriting Agreement is terminated for any reason, then Tanami may not receive the full amount of the proceeds expected under the Offer, Tanami's financial position might change and it might need to take other steps to raise capital. Refer to section 1.11 of this Offer Document for a summary of the termination events set out in the Underwriting Agreement.

(o) **Financial solvency**

Tanami seeks to maintain an adequate cash balance to provide sufficient liquidity to operate, given the business has a substantial working capital requirement owing to the pattern of commodity sales and variability of commodity prices. Maintaining sufficient liquidity to operate the business is impacted by various operational and financial risk factors. Liquidity and solvency will also be dependent on the business operations performing as forecast in FY26 and beyond.

The Board and management monitors solvency at all times and aims to manage the business with an acceptable level of working capital to mitigate solvency risk. For example, Tanami ordinarily manages the timing of payment of creditors in line with its working capital fluctuations. Failure to maintain liquidity could lead to a material adverse effect in the ability to continue to operate as a going concern.

Shareholders should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for the New Shares.

5. Additional information

5.1 Section 708AA of the Corporations Act

As noted below, TAM is a disclosing entity and therefore subject to regular reporting and disclosure obligations under the Corporations Act. Under those obligations, the Company is obliged to comply with all applicable continuous disclosure and reporting requirements in the Listing Rules.

This Offer is being undertaken pursuant to section 708AA of the Corporations Act. This section enables disclosing entities to undertake a rights issue in relation to securities in a class of securities which has been quoted by ASX at all times during the 12 months before the date of the Offer. Apart from formal matters a notice under section 708AA(2)(f) need only:

- (a) contain information that is excluded information as at the date of the Offer Document pursuant to section 708AA(8) and (9); and
- (b) state:
 - (1) the potential effect the issue of the New Shares will have on the control of the Company; and
 - (2) the consequences of that effect.

A notice under section 708AA(2)(f) was lodged with the ASX on 8 May 2026.

5.2 Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of the Corporations Act and its Shares are enhanced disclosure securities quoted on ASX and the Company is subject to regular reporting and disclosure obligations under the Corporations Act and the Listing Rules.

Specifically, the Company is required to notify ASX of information about specific events and matters as they arise for the purposes of the ASX making that information available to the securities markets conducted by the ASX. In particular, the Company has an obligation under the Listing Rules (subject to certain exceptions) to notify the ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of its securities.
