

ASX ANNOUNCEMENT

Fomer CEO Legal Action Initiated

20 MAY 2026

Melbourne, Australia – Vitura Limited (ASX: VIT) advises that it has been notified that its former Chief Executive Officer, Mr Geoff Cockerill, has commenced proceedings against the Company in the Federal Circuit and Family Court of Australia (**Proceedings**). The Proceedings relate to the cessation of Mr Cockerill's employment with the Company and related matters.

Mr Cockerill's employment with the Company terminated in January 2026 in accordance with the terms of his contract. All contractual and statutory entitlements, including payment in lieu of notice, were provided in full.

The Proceedings concern allegations that the Company has contravened the general protections provisions in the *Fair Work Act 2009*.

The Company is confident that its actions in relation to the termination of Mr Cockerill's employment were lawful, appropriate, aligned with shareholder expectations, and consistent with its contractual and statutory obligations.

Vitura will seek to have the Proceedings dealt with expeditiously and reserves all rights in relation to the matter.

About Vitura Health Limited (ASX: VIT)

- www.vitura.com.au

Vitura Health Limited is diversified digital health business listed on the ASX (ASX: VIT) and, via its subsidiaries, operates the following businesses:

- www.burleighheadscannabis.com

Burleigh Heads Cannabis operates the market leading prescriber, patient, pharmacy, and supplier online ecosystem, Canview, which sells and distributes roughly 600 therapeutic product and device SKUs within Australia from roughly 70 international and domestic brands.

- www.canview.com.au

Canview was developed to be a complete end-to-end healthcare ecosystem designed to provide doctors, pharmacists, and patients with a simple and cost-effective way to facilitate the treatment of patients with increased efficiency and compliance. The Canview system is based on a medicines wholesaling platform which seamlessly brings together several disparate SAAS (software-as-a-service) providers including inventory control, invoicing, customer management, reporting and analytics, all linked together through customised integration software owned and operated by Vitura. Underpinning the suite of SAAS elements are several bespoke, internally generated operating procedures and intellectual property assets, supported by the Canview customer support and infield customer engagement teams. Through the in-

house integration of the different elements which together make up Canview, the platform provides the best user experience in the industry.

Canview provides Australian doctors with the ability to integrate their patient management systems directly with the platform and to use their patient information to generate electronic prescriptions within the Canview platform, without the need to input the patient's details. Prescriptions are then sent directly to the Canview patient app where patients can manage their treatment and submit the prescription and subsequent repeats to one of the roughly 4,700 Australian pharmacies with accounts on Canview for dispensing.

While the Company's current operations focus on the sale and distribution of medicinal cannabis products, Vitura is fully licensed and equipped, via its two state-of-the-art distribution centres in Melbourne and the Gold Coast, to distribute all products under Schedules 2, 3, 4, 8 and 9. The establishment during the year of the Company's joint venture to distribute psychedelic products, including MDMA and Psilocybin, is a timely example of the many opportunities that the Company believes can be seamlessly integrated into its existing digital health platform business.
