- **Visage 7 platform to be implemented in the cloud.**
- **Transaction-based model with potential upside.**

Leading health imaging company Pro Medicus Limited [ASX: PME] today announced its wholly-owned U.S. subsidiary, Visage Imaging, Inc., has signed a 7-year, A\$16M contract with TidalHealth.

TidalHealth provides a unified network of care, including 3 hospitals serving the communities of Delmarva across Delaware, and the eastern shores of Maryland and Virginia.

The new Visage contract will be implemented in the cloud and includes the 'Full Stack' (Visage 7 Viewer, Visage 7 Workflow and Visage 7 Open Archive) plus Visage 7 Cardiology Imaging.

Planning for the rollout is to commence immediately and will be based on Visage's proven cloud-based implementation process, with go-live targeted for Q1 in the 2027 calendar year.

"We are very pleased to add TidalHealth to the global family of Visage customers," said Dr Sam Hupert, Pro Medicus CEO. "TidalHealth provides differentiated care across multiple Mid-Atlantic states. They join an ever growing list of Visage 7 clients to opt for our fully cloud-based platform, which as a result of our CloudPACS strategy, is becoming the standard in the North American healthcare IT market."

Dr Hupert continued, "Notably, they have also opted for our cardiology offering, which will provide TidalHealth with a truly unified enterprise imaging solution, a trend we see continuing as more and more healthcare enterprises look to consolidate their disparate imaging systems."
