LETTER TO ACCENT SHAREHOLDERS

FRASERS GROUP PLC
Unit A
Brook Park East
Shirebrook NG20 8RY
UNITED KINGDOM

15 June 2026

Dear Accent Shareholder,

Offer to acquire 100% of Accent Group Limited for consideration of \$0.65 cash per share

On behalf of Frasers Group plc (**Frasers**), I am pleased to present this unconditional offer (the **Offer**) to acquire all of your shares in Accent Group Limited (**Accent**) for \$0.65 per Accent Share in cash (the **Offer Price**). The Offer provides you with certain and immediate value for Your Accent Shares at a price equal to the last closing price of Accent Shares on 12 June 2026.

Frasers and its Associates currently control the largest holding of Accent Shares with a combined Relevant Interest in and Voting Power of approximately 22.90% of the total number of Accent Shares on issue.

Frasers is a great believer in the strength of the brands sold through Accent's retail network and has very successful commercial relationships with most of the brand owners through its existing global business. Frasers is highly confident in the long-term potential of the brands in the Australian market.

However, Frasers has significant concerns regarding Accent's strategic direction and performance under its chairman, Lawrence Myers, and the incumbent management team. In forming this view, Frasers has had regard to matters including Accent's recent financial performance, approach to capital management, which has seen Accent continue to prioritise shareholder distributions during a period of declining earnings, increased borrowings and ongoing growth investment obligations, and the Accent Board's approach to executive compensation as well as the level of goodwill reported on Accent's balance sheet as at 29 June 2025. In particular, Frasers has significant concerns with the following:

- In H1 FY26, Accent reported \$106 million of cash from operations. After payment of lease liabilities of \$78 million, capital expenditure (property, plant, equipment and intangibles) of \$17 million, and TAF store acquisitions of \$16 million, Accent had a net cash outflow of approximately \$5 million before financing activities and dividend payments. Accent paid \$9 million of dividends during the half (the FY25 final dividend) and drew \$80 million of net borrowings, ending H1 FY26 with used bank loans of \$172 million, an increase of \$32 million year-on-year. At its H1 FY26 results announcement on 25 February 2026, Accent declared an interim dividend of 3.25 cents per share (\$19.5 million in aggregate), notwithstanding the 40.5% year-on-year decline in net profit after tax during the half. This was followed by a further earnings downgrade announced by Accent on 4 May 2026, within 10 weeks of the dividend being declared. In Frasers' view, these decisions raise serious questions about the Accent Board's capital allocation priorities at a time of material earnings pressure, increased borrowings and ongoing growth investment obligations, including under the Sports Direct retail agreement.

- At Accent's annual general meeting on 21 November 2025, approximately 82% of votes cast were against Accent's remuneration report, which Frasers considers to be indicative of significant shareholder dissatisfaction with the Accent Board's approach to executive compensation.
- Accent, as at 29 June 2025, carried approximately \$341 million of goodwill. Based on Accent's interim results and in an environment of declining earnings and rising interest rates, Frasers considers there is a risk of a write-down, given that, based on Accent's own sensitivity disclosure in its report for the half year ended 28 December 2025, Accent's goodwill impairment headroom is only 45 basis points. A goodwill impairment, if it occurs, would be expected to significantly reduce Accent's reported net assets and earnings, and, in Frasers' view, would compound the financial deterioration already evident in the business and further undermine shareholder value.
- Frasers also notes with concern Accent's ASX announcement on 4 May 2026 in relation to Accent's earnings outlook and an ASIC investigation into potential insider trading by key personnel of Accent, including the Chief Executive Officer. This announcement reinforces Frasers' concerns about the effectiveness of Accent's corporate governance.

Frasers believes that Mr Myers has failed to provide the leadership necessary to steer Accent effectively through its recent period of poor financial performance and should step down. Frasers has made repeated attempts to engage constructively with Mr Myers and the Accent Board in relation to a number of the above matters and has received no meaningful response.

Frasers is also concerned about Accent's ability to execute the initiatives outlined by Accent in its 2030 Strategic Growth Plan announced on 13 May 2026, specifically the following:

- The \$1.9 billion+ total sales target implies a FY25-FY30 revenue compound annual growth rate of approximately 5%, compared to Accent's own disclosed like-for-like trajectory of 0.7% in FY25, 0.9% in H1 FY26, and negative 1.0% in the first 18 weeks of H2 FY26, in a category (the Australian clothing, footwear and accessories sales category) that Accent's own strategy day presentation shows as having grown at 0.9% per annum between FY23 and the last 12-months to March 2026.
- The 9%+ EBIT margin target represents a step-up of over 140 basis points from the FY25 margin of 7.6%, against the backdrop of two FY26 earnings downgrades in nine months by Accent, from an implied approximate \$120 million EBIT in August 2025 to \$79.5 million-\$84.5 million EBIT in May 2026.

- Accent also asserts that it has sufficient capital and projected future cash flows to fund its growth strategy to 2030, but does not substantiate these statements, which Frasers considers directly relevant to any assessment of Accent's standalone prospects, especially in the context of the Accent Board's capital allocation decisions during a period of sustained earnings deterioration.

Given that Accent has downgraded earnings guidance, including decreasing its FY26 EBIT guidance twice in nine months (moving from an implied approximate \$120 million in August 2025 down to \$85 million-\$95 million in November 2025, then to \$79.5 million-\$84.5 million in May 2026), this raises significant questions, in Frasers' opinion, as to the achievability of these forward-looking targets.

As such, Frasers feels it is necessary to increase its ownership of Accent and achieve greater influence over Accent's strategic direction in order to protect its investment. As Frasers' interest exceeds 20% and it has utilised the '3% creep' exception under the Corporations Act, Frasers is currently restricted from acquiring additional Accent Shares on market. Frasers is therefore seeking to do so through a takeover offer to all Accent Shareholders.

Frasers currently has one nominee director on the Accent Board. Under the terms of the Subscription Agreement entered into by Frasers and Accent in April 2025, upon Frasers having a Relevant Interest in at least 26% of the Accent Shares on issue, Frasers has a right to request the appointment of an additional nominee director to the Accent Board. If Accent does not agree to that request (despite Frasers engaging in good faith), Frasers then has a right to requisition a general meeting of Accent or to propose a resolution to be voted on at a general meeting of Accent in respect of the appointment of an additional nominee director to the Accent Board. The objective of the Offer is therefore to at least reach this ownership level, seek the additional board influence and effect the necessary changes to protect against any further destruction in the value of Frasers' investment in Accent which Frasers considers to be reasonably likely for the reasons outlined above.

In making the Offer, Frasers is offering to acquire all of the outstanding shares in Accent which may increase Frasers' interest in Accent to up to 100%. However, Frasers does not expect to achieve more than 90% and in such a case is comfortable with a shareholding of less than 90% if it achieves representation on the Accent Board proportionate to its ownership and is able to effect the changes it considers necessary. However, if Frasers does achieve greater than 90% ownership and becomes entitled to compulsorily acquire the remaining Accent Shares, it intends to exercise that right.

Frasers believes that the Offer delivers certain and immediate value for Accent Shareholders in the form of cash consideration against an increasingly uncertain outlook for Accent, and an additional source of liquidity for Accent Shareholders. The Offer is made at \$0.65 per Accent Share (being the same price as the last closing price of Accent Shares on 12 June 2026), is unconditional, is available for acceptance by all Accent Shareholders, and is scheduled to close at the close of trading on the ASX (4:00pm, Sydney time) on 30 July 2026, unless extended or withdrawn in accordance with the Corporations Act. Notwithstanding the Offer not being formally available for acceptance until the Offer Period starts, you can sell Your Accent Shares **immediately** on and from the Announcement Date, being 15 June 2026 and receive cash two Trading Days (T+2 Basis) after your acceptance.

Background to the Offer

Frasers is a long-established retailer operating with a diverse portfolio of sports, fitness, premium lifestyle and luxury goods in over 20 countries and with operations in physical stores and e-commerce. It provides consumers with access to some of the world's best sports, premium and luxury brands with a vision to build the planet's most admired and compelling brand ecosystem. Frasers is headquartered in the UK and is listed on the Main Market of the London Stock Exchange with a market capitalisation as at the Last Practicable Date of approximately £3.49 billion.

In August 2024, Frasers announced it had made a strategic investment in Accent to enable Frasers to grow its presence in Australia and New Zealand, a key market in Frasers' ambition to become a leading global sports retailer. In April 2025, Accent and members of the Frasers Group entered into a long-term strategic retail agreement to launch and operate Sports Direct across Australia and New Zealand, including a commitment by Accent to use all reasonable commercial endeavours to meet the initial roll-out plan for Accent to open at least 50 Sports Direct stores over the following six years. This plan was revised down in the 2030 Strategic Growth Plan announced by Accent on 13 May 2026, with the target now being 8 stores by December 2026 and 30 stores within three years, with the 50-store target deferred to an undefined time frame. Frasers considers that, based on Accent's own disclosures, Accent has not used all reasonable commercial endeavours to launch and operate the Sports Direct business in accordance with the initial roll-out plan.

Frasers continues to believe in the sports retail market in Australia as a positive opportunity for growth, and Frasers remains strongly committed to, and supportive of, the brands sold through Accent's retail network. Frasers is keen to work collaboratively with those brand partners to enhance their presence and performance in Australia and to drive long-term, mutually beneficial growth.

However, in light of Accent's recent financial performance and the other concerns of Frasers articulated in this letter, Frasers does not consider that reversing the current downward trend in Accent's performance will be a quick process.

Frasers believes there is significant work to be done over the next five years or more to turn Accent's business around, including generating sufficient capital to fund the level of investment that will be required to successfully open the agreed number of Sports Direct stores.

In light of the above, Frasers believes that the Offer provides Accent Shareholders with the opportunity to realise liquidity for their shareholding and achieve certainty in value in the form of cash consideration. By **ACCEPTING** the Offer, you will receive a simple cash exit from your investment in Accent.

Offer to Accent Shareholders

The Offer is at a price of \$0.65 per Accent Share:

- (a) being the same price as the last closing price of Accent Shares;
- (b) representing a **5.9%** premium to \$0.614, being the 5-trading day volume weighted average price (VWAP) of Accent Shares; and
- (c) representing a **12.5%** premium to \$0.578, being the 1-month volume weighted average price (VWAP) of Accent Shares,

in each case by reference on or up to and until 12 June 2026 (being the Last Practicable Date).

The Offer is an unconditional on-market offer. You are permitted to sell Your Accent Shares for 100% cash consideration at the Offer Price per Accent Share on-market and you will be paid cash on a T+2 Basis, being two Trading Days after your acceptance. Full details of the Offer and instructions on how to sell Your Accent Shares are set out in this Bidder's Statement.

Reasons to accept the Offer

Frasers believes that there are a number of reasons for Accent Shareholders to ACCEPT the Offer including:

- (a) the Offer represents an opportunity to immediately realise liquidity for Your Accent Shares at a 12.5% premium to the 1-month volume weighted average price of Accent Shares up to the Last Practicable Date and to avoid any potential future decline in the value of Accent Shares, noting the share price of Accent has fallen by 64.0% over the past 12 months;
- (b) the Offer is unconditional and the Offer Price will be paid to Accent Shareholders in cash two Trading Days (T+2 Basis) after their acceptance of the Offer, providing Accent Shareholders with certain and immediate value for their Accent Shares;
- (c) Accent has continued to prioritise shareholder distributions during a period of material earnings pressure, increased borrowings and ongoing growth investment obligations, including under the Sports Direct retail agreement, an approach which Frasers considers is neither sustainable nor prudent;
- (d) if you retain Your Accent Shares and do not accept the Offer, you may remain exposed to the risks and uncertainties associated with a continued investment in Accent, which include potential exposure to risks associated with any future equity dilution resulting from any issue of securities that Accent may decide to make or any increased debt funding that Accent may decide to obtain in response to its recent subdued financial performance and future capital and operational expenditure requirements;
- (e) the trading price of Accent Shares may fall if the Offer is unsuccessful; and
- (f) as far as Frasers is aware, there is no competing takeover proposal for Accent as at the date of this Bidder's Statement, and Frasers considers that the likelihood of a competing proposal eventuating is low, given Frasers' current material shareholding in Accent.

Further information on these reasons can be found in Section 2 of this Bidder's Statement.

2. REASONS WHY YOU SHOULD ACCEPT THE OFFER

2.1 THE OFFER REPRESENTS AN OPPORTUNITY TO IMMEDIATELY REALISE LIQUIDITY FOR YOUR ACCENT SHARES AT A PRICE EQUAL TO THE LAST CLOSING PRICE ON 12 JUNE 2026

The Offer is at a price of \$0.65 per Accent Share:

- (a) being the same price as the last closing price of Accent Shares;
- (b) representing a **5.9%** premium to \$0.614, being the 5-trading day volume weighted average price (VWAP) of Accent Shares; and
- (c) representing a **12.5%** premium to \$0.578, being the 1-month volume weighted average price (VWAP) of Accent Shares,

in each case by reference on or up to and until 12 June 2026 (being the Last Practicable Date).

The share price of Accent has fallen significantly over the past 12 months. On 12 June 2025, the closing price of Accent Shares on the ASX was \$1.805, whereas the closing price of Accent Shares on the ASX on 12 June 2026 was \$0.650, a decline of 64.0%. Furthermore, since 26 February 2026 the share price of Accent has fallen by 44.2%.

Accent's last published annual financial statements are for the financial year ended 29 June 2025, as lodged with the ASX on 20 October 2025 (**2025 Financial Statements**). The 2025 Financial Statements show a subdued financial performance in FY25, including a decrease in Accent's EBITDA and earnings per share when compared with the results for the previous financial year.

In addition, Accent released its financial statements for the half year ended 28 December 2025 on 25 February 2026 (**HIFY26 Financial Statements**). The HIFY26 Financial Statements show a decrease in Accent's EBIT of 29.9% and a reduction in net profit after tax of 40.5% when compared with the half-year results for the previous year.

Given this performance, Frasers believes there is a risk that the market price of Accent Shares will continue to decline until Accent's business performance is improved.

Frasers believes that the Offer represents an opportunity for Accent Shareholders to immediately realise liquidity for their shareholding at a price equal to the last closing price on 12 June 2026 and thereby avoid any potential future decline in the value of Accent Shares.

2.2 THE OFFER IS UNCONDITIONAL, WITH ALL-CASH CONSIDERATION PROVIDING CERTAINTY AND IMMEDIATE VALUE

There are no conditions attached to the Offer and, although the Offer Period officially commences on 30 June 2026, you can sell some or all of Your Accent Shares **immediately** for 100% cash consideration at the Offer Price on-market and be paid cash on a T+2 Basis, being two Trading Days after your acceptance.

The Offer provides an opportunity to dispose of all or only some of Your Accent Shares, and to realise immediate, full and certain value for those Accent Shares. The certainty of Frasers' cash Offer should be compared to the risks and uncertainties of remaining an Accent Shareholder.

If Frasers becomes entitled to compulsorily acquire Your Accent Shares (due to acquiring a Relevant Interest in 90% or more of all Accent Shares) it intends to exercise that right. If you do not accept the Offer, but Frasers compulsorily acquires Your Accent Shares, you will still receive the Offer Price, but at a later time than you would have received it if you had accepted the Offer.

2.3 ACCENT'S ABILITY TO DECLARE DIVIDENDS TO ACCENT SHAREHOLDERS MAY BE LIMITED

The amount of dividends per share declared by Accent in recent years has been in steady decline.

Total dividends declared per share in FY23 were 17.50 cents per share, in FY24 they were 13 cents per share and in FY25 they were only 7 cents per share. In H1 FY26, Accent reported \$106 million of cash from operations. After payment of lease liabilities of \$78 million, capital expenditure (property, plant, equipment and intangibles) of \$17 million, and TAF store acquisitions of \$16 million, Accent had a net cash outflow of approximately \$5 million before financing activities and dividend payments. Accent paid \$9 million of dividends during the half (the FY25 final dividend) and drew \$80 million of net borrowings, ending H1 FY26 with used bank loans of \$172 million, an increase of \$32 million year-on-year. At its H1 FY26 results announcement on 25 February 2026, Accent declared an interim dividend of 3.25 cents per share (\$19.5 million in aggregate), notwithstanding the 40.5% year-on-year decline in net profit after tax during the half. This was followed by a further earnings downgrade announced by Accent on 4 May 2026, within 10 weeks of the dividend being declared.

In Frasers' view, these decisions raise serious questions about the Accent Board's capital allocation priorities at a time of material earnings pressure, increased borrowings and ongoing growth investment obligations, including under the Sports Direct retail agreement, an approach which Frasers considers is neither sustainable nor prudent. Given Accent's earnings downgrade announced on 4 May 2026, Frasers considers that Accent's ability to declare dividends will be further negatively impacted, and potentially to such an extent that dividends may not be payable at all.

2.4 THERE ARE ONGOING RISKS IN CONTINUING TO HOLD ACCENT SHARES

If you retain Your Accent Shares and do not accept the Offer you will remain exposed to the risks and uncertainties associated with a continued investment in Accent.

Given the capital and operational expenditure that Accent will be required to undertake in connection with the Sports Direct store roll-out, in Frasers' view, going forward Accent may require additional funding, including through increased borrowings or equity raisings.

If additional funds were required to be raised and they were raised by the issue of shares or other securities of Accent, Accent Shareholders may have their shareholding in Accent diluted to the extent they do not participate in the fundraising.

If additional funds were required to be borrowed, Accent Shareholders may be exposed to potential risks associated with Accent taking on additional debt, including refinancing risks, exposure to interest rate rises and risks associated with meeting borrowing covenants imposed by lenders.

The Offer provides an opportunity for Accent Shareholders to dispose of their Accent Shares ahead of any decisions Accent may make in relation to funding and any potential dilutive equity raising that Frasers believes Accent is potentially facing.

2.5 THE TRADING PRICE OF ACCENT SHARES MAY FALL IF THE OFFER IS UNSUCCESSFUL

While there are many factors that will influence the trading price of Accent Shares, if the Offer is unsuccessful and there is no other offer made for Your Accent Shares, the trading price of Accent Shares may fall and trade at levels lower than the prices immediately prior to the announcement of the Offer.

2.6 NO COMPETING TAKEOVER PROPOSAL

As far as Frasers is aware, the Offer is the only current takeover offer available for all of Your Accent Shares as at the date of this Bidder's Statement.

As at the date of this Bidder's Statement, Frasers believes that the likelihood of another bidder emerging with a superior proposal is low given Frasers' holding of approximately 22.90% of the Accent Shares on issue.

We are continuing to invest boldly in our Elevation Strategy—deepening brand partnerships, elevating our product mix, opening new Sports Direct stores internationally, and acquiring strategic properties to strengthen our portfolio. - (c) all Accent Shares in which Frasers and its Associates have a Relevant Interest are held by Frasers. No Associate of Frasers has a separate Relevant Interest in any Accent Shares.

5.5 Recent Accent Share performance

The last recorded sale price of Accent Shares on ASX on the Last Practicable Date was \$0.65 per Accent Share.

5.6 Consideration provided for Accent Shares during the previous four months

Neither Frasers nor any Associate of Frasers has provided, or agreed to provide, consideration for Accent Shares under any purchase or agreement during the four months before the date of this Bidder's Statement.

5.7 No inducing benefits given

Neither Frasers nor any Associate of Frasers, has, during the period of four months ending on the day immediately before the date of this Bidder's Statement, or in the period between the date of this Bidder's Statement and the date before the date of the Offer, given, offered or agreed to give, a benefit to another person which was likely to induce the other person, or an Associate of the other person, to:

- (a) accept the Offer; or
- (b) dispose of Accent Shares,

and which benefit is not being offered to all Accent Shareholders under the Offer.

5.8 No escalation agreements given

Neither Frasers, nor any Associate of Frasers, has entered into any escalation agreement that is prohibited by section 622 of the Corporations Act.

6. SOURCES OF BID CONSIDERATION

6.1 Total cash consideration under the Offer

The consideration payable by Frasers for the acquisition of Accent Shares to which the Offer relates will be satisfied by the payment of cash.

Based on the number of Accent Shares on issue as at the date of this Bidder's Statement, the maximum number of Accent Shares that could be issued upon exercise of all of the Performance Rights in existence as at the date of this Bidder's Statement and the number of Accent Shares already held by Frasers as at the date of this Bidder's Statement, the total number of Accent Shares which could be acquired by Frasers under the Offer is 485,805,020. The consideration payable under the Offer per Accent Share is \$0.65.

Accordingly, the maximum amount of cash that Frasers could be required to pay under the Offer is \$315,773,263 (**Maximum Offer Amount**), excluding transaction costs.

6.2 Sources of cash consideration

Frasers has access to sufficient funds to fund the Maximum Offer Amount including all costs, fees, stamp duty (if any) and expenses incurred by Frasers in connection with the Offer.

Frasers will satisfy its obligations under the Offer from its existing cash resources, including a combined term loan and revolving credit facility which Frasers entered into in July 2025 (as subsequently amended) with a syndicate of its banks and which provides it with access to borrowings for general purposes (including for the purposes of this Offer) of up to an aggregate amount of £3.3 billion (approximately A\$6.29 billion) over three years. Sufficient amounts are available to be drawn from Frasers' existing cash resources, including amounts available to be drawn under this facility, to enable Frasers to meet its financial commitments under the Offer in full.

The proportion of the Maximum Offer Amount to be funded from Frasers' existing cash or combined term loan and revolving credit facility will depend on Frasers' level of cash at the relevant time and the proportion of Accent Shareholders that accept the Offer. Frasers has no reason to believe that the prerequisites for drawdown under the combined term loan and the revolving credit facility will not be met which would prevent Frasers from meeting its financial commitments under the Offer.

On the basis of the cash resources outlined above, Frasers believes it has a reasonable basis for holding the view, and it does hold the view, that it will be able to satisfy its obligations to fund the Maximum Offer Amount as and when it is due and payable under the terms of the Offer and to meet all other obligations associated with the Offer.

7. FRASERS' INTENTIONS

7.1 Background

This Section 7 sets out Frasers' intentions in relation to the following:

- (a) the continuation of the business of Accent;
- (b) any major changes to be made to the business of Accent, including any redeployment of its fixed assets; and
- (c) the future employment of the present employees of Accent.

These intentions have been formed on the basis of facts and information concerning Accent, and the general business environment, which are known to Frasers at the time of preparing this Bidder's Statement. At the time of preparing this Bidder's Statement, no non-public due diligence has been undertaken by Frasers in respect of Accent. The intentions of Frasers may change in light of information, facts and circumstances not currently known to it. Accordingly, the statements set out in this Section 7 are statements of current intention only, which may change as new information becomes available to Frasers or as circumstances change.

7.2 Frasers' intentions upon acquisition of 90% or more of the Accent Shares on issue

This Section 7.2 describes Frasers' intentions if Frasers acquires a Relevant Interest in 90% or more of all Accent Shares under the Offer and so becomes entitled to proceed to compulsory acquisition of any outstanding Accent Shares in accordance with Part 6A.1 of the Corporations Act.

In that circumstance, Frasers' current intentions are as follows:

(a) Corporate matters

Frasers:

- (i) intends to proceed with compulsory acquisition of the outstanding Accent Shares in accordance with the provisions of Part 6A.1 of the Corporations Act. If it is required to do so under section 662A of the Corporations Act, Frasers intends to give notices to Accent Shareholders offering to acquire their Accent Shares in accordance with section 662B of the Corporations Act;

- (ii) if it becomes entitled to do so, does not intend to compulsorily acquire any existing Performance Rights unless it is required to do so by law in accordance with Chapter 6A of the Corporations Act. If it is required to do so under section 663A of the Corporations Act, Frasers intends to give notices to holders of Performance Rights in accordance with section 663B of the Corporations Act;
- (iii) will apply for termination of the official quotation of Accent Shares on the ASX and arrange for Accent to be removed from the official list of the ASX; and
- (iv) will replace some or all of the members of the Accent Board with nominees of Frasers. In particular, Frasers intends to remove the chairman, Lawrence Myers, from the Accent Board as Frasers believes that Mr Myers has failed to provide the leadership necessary to steer Accent effectively through its current period of poor financial performance and should step down. No decision has been made at this time as to which other board members Frasers may replace, or who it would select as a replacement chair or other replacement board members, as their identity will depend on the circumstances at the relevant time, including the priorities of Frasers' wider business operations.

In addition, if Frasers becomes entitled at some later time to exercise the general compulsory acquisition rights under Part 6A.2 of the Corporations Act, it may exercise those rights.

(b) General operational overview

Frasers has not had access to Accent's management or to Accent's non-public information or documentation, and therefore Frasers has only been able to undertake due diligence based on publicly available information on Accent. As a result, Frasers does not currently have a full understanding of Accent's business operations.

As detailed in this Bidder's Statement, Frasers is of the view that Accent's subdued financial performance and the downward trend of the trading price of Accent Shares is a result of the existing management's failure to take the necessary action to preserve the business and shareholder value.

In light of this, Frasers is of the view that there may be certain adjustments that need to be made, including to restructure Accent's cost base. However, it is not clear at present what changes will be required.

After the Offer Period, Frasers intends to undertake a general review of Accent's operations covering strategic, financial and operating matters. As part of this review, Frasers intends to evaluate the future operations of Accent. That review will inform Frasers' intentions for Accent's business, but it is likely that Frasers will be seeking in particular to review and improve Accent's cost structures and to increase efficiency by utilising Frasers' global shared services, including its back-office function and supply chain structure.

(c) **Impact on employees**

As part of its general review of Accent's general operations, Frasers will consider the staff operations and whether any restructure is required. Any changes that Frasers decides to make would only be implemented after due consideration of the outcome of the review, consultation with affected stakeholders where required, and in accordance with applicable employment, workplace health and safety, and industrial relations laws.

7.3 Intentions of Frasers for Accent if it acquires a Relevant Interest of more than 50% but less than 90% of the Accent Shares on issue

Set out below are Frasers' current intentions if Frasers acquires a Relevant Interest in more than 50% of the Accent Shares on issue, but less than 90% of the Accent Shares on issue, and is therefore not entitled to proceed to compulsory acquisition of the remaining Accent Shares in accordance with Part 6A.1 of the Corporations Act.

(a) **Corporate matters**

After the end of the Offer Period, Frasers:

- (i) intends (subject to the Corporations Act and the constitution of Accent) to seek to replace some members of the Accent Board, including the appointment of an additional nominee director of Frasers to the Accent Board. Frasers would consider the recommendations in the ASX Corporate Governance Guidelines when determining the composition of the board. In particular, Frasers intends to remove the chairman, Lawrence Myers, from the Accent Board as Frasers believes Mr Myers has failed to provide

the leadership necessary to steer Accent effectively through its current period of poor financial performance and should step down. No decision has been made at this time as to which other board members Frasers may replace, or who it would select as a replacement chair or other replacement board members, as their identity will depend on the circumstances at the relevant time, including the priorities of Frasers' wider business operations; and

- (ii) depending on Frasers' final Relevant Interest in Accent Shares, the level of trading in Accent Shares and the cost associated with maintaining Accent's ASX listing, Frasers intends to propose that the Accent Board apply for termination of the official quotation of Accent Shares on the ASX and arrange for Accent to be removed from the official list of the ASX, subject to satisfying ASX's requirements for removal under the ASX Listing Rules and any applicable requirements under the Corporations Act, as further described below.

ASX requirements

In this regard, ASX guidance indicates that the usual conditions that ASX would expect to be satisfied in order for it to approve the removal of Accent from the official list of the ASX in the context of a successful takeover bid include but are not limited to:

- (A) at the end of the Offer, Frasers owns or controls at least 75% of the Accent Shares on issue;
- (B) the Offer has remained open for at least two weeks after Frasers has attained ownership or control of at least 75% of the Accent Shares on issue;
- (C) Accent has applied for removal from the official list of ASX no later than one month after the close of the Offer; and
- (D) the number of Accent Shareholders (other than Frasers) having holdings with a value of at least \$500 is fewer than 150,

and, in such case where all of the above conditions are satisfied, the ASX will not usually require Frasers to obtain Accent Shareholder approval to remove Accent from the official list of the ASX.

In addition, ASX may, even if the above conditions are not satisfied, approve an application for Accent to be removed from the official list of the ASX within 12 months after close of the Offer, where Frasers has attained effective control of Accent and provided the removal is approved by a special resolution of Accent Shareholders (which must exclude any votes from Frasers and its Associates). Where such removal is sought later than 12 months after the close of the Offer, Frasers and its Associates, subject to the ASX's discretion, may be entitled to vote on the resolution approving the removal.

If Accent is removed from the official list of the ASX, there may be risks related to remaining as a minority shareholder in Accent. These include reduced or essentially no liquidity if Accent Shareholders wish to sell their Accent Shares, less frequent and less detailed information regarding Accent's financial position and operations, less stringent corporate governance requirements and reduced protections otherwise afforded under the ASX Listing Rules (including in relation to related party transactions, significant changes in the nature or scale of activities, and issues of securities).

It is possible that, even if Frasers is not entitled to proceed to compulsory acquisition of minority holdings after the end of the Offer Period under Part 6A.1 of the Corporations Act, it may subsequently become entitled to exercise rights of general compulsory acquisition under Part 6A.2 of the Corporations Act, for example, as a result of acquisitions of Accent Shares in reliance on the '3% creep' exception in item 9 of section 611 of the Corporations Act. If so, Frasers currently intends to exercise those rights and would then seek to have Accent removed from the official list of the ASX and implement the intentions referred to in Section 7.2.

(b) **General operational review**

At the time of preparing this Bidder's Statement, Frasers has not undertaken any non-public due diligence review of Accent's operations. As such, Frasers does not currently have a full understanding of Accent's business operations and it is not clear at present what changes will be required.

After the end of the Offer Period, Frasers intends to propose to the Accent Board that an immediate, broad-based review of Accent's operations be conducted on both a strategic and financial level. Frasers intends, subject to the approval of the Accent Board, to participate in this review.

That review will inform Frasers' intentions for Accent's business but it is likely that Frasers will be seeking in particular to review and improve Accent's cost structures and to increase efficiency by utilising Frasers' global shared services, including its back-office function and supply chain structure.

(c) **Dividends**

Given Accent's capital funding requirements and ongoing cash needs, including in respect of the Sports Direct store roll-out obligations, Frasers is not supportive of any dividend payments being made for the foreseeable future.

7.4 Intentions for Accent where Frasers obtains a Relevant Interest in at least 26%, but not more than 50%, of the Accent Shares on issue

Set out below are Frasers' current intentions if Frasers acquires a Relevant Interest in at least 26%, but not more than 50%, of the Accent Shares on issue, and is therefore not entitled to proceed to compulsory acquisition of the remaining Accent Shares in accordance with Part 6A.1 of the Corporations Act.

(a) **Accent Board composition**

In accordance with the terms of the Subscription Agreement, if Frasers obtains a Relevant Interest in at least 26% of the Accent Shares on issue, Frasers will seek the appointment of an additional nominee director of Frasers to the Accent Board. The identity of such additional nominee director has not yet been finalised. Frasers, as a substantial shareholder, also intends to propose a wider review, and changes to the composition, of the Accent Board.

(b) **General operational review**

Frasers intends to propose that the Accent Board conduct a review of Accent's operations on a strategic and financial level in an effort to improve Accent's cost structures.

(c) Dividends and funding

Given Accent's capital funding requirements and ongoing cash needs, including in respect of the Sports Direct store roll-out obligations, Frasers is not supportive of any dividend payments being made for the foreseeable future and Frasers intends to propose that the Accent Board review Accent's dividend policy in light of Frasers' position.

7.5 Intentions generally

Subject to the matters described in this Section 7 and elsewhere in this Bidder's Statement and, in particular, the completion of the strategic review of Accent's operations, it is the intention of Frasers, on the basis of the facts and information concerning Accent that are known to it and the existing circumstances affecting the assets and operations of Accent at the date of this Bidder's Statement, that all governance matters related to Accent will continue to be overseen by the Accent Board including:

- (a) the business of Accent will be conducted in substantially the same manner as at the date of this Bidder's Statement such that existing brands of Accent will continue to be offered to Accent's customers;
- (b) there will be no material redeployment of the fixed assets of Accent; and
- (c) the present employees of Accent will continue to be employed by Accent.

7.6 Limitations in giving effect to intentions

The intentions and statements of future conduct set out in this Section 7 must be read as being subject to:

- (a) the law (including the Corporations Act) and the ASX Listing Rules, including in particular the requirements in the Corporations Act and ASX Listing Rules in relation to conflicts of interests and 'related party' transactions given that, if Frasers obtains control of Accent but does not acquire all of the Accent Shares, it and Accent will be treated as related parties for these purposes; and
- (b) the legal obligations of the Accent directors at the time, including any nominees of Frasers, to act in good faith in the best interests of Accent and for proper purposes and to have regard to the interests of all Accent Shareholders.

Frasers will only make a decision on the courses of action set out in Sections 7.2, 7.3 and 7.4 following legal and financial advice in relation to these requirements.

8. AUSTRALIAN TAXATION CONSIDERATIONS

8.1 Introduction

The following is a general description of the Australian income tax, GST and stamp duty consequences for Accent Shareholders of disposing of Accent Shares under the Offer.

The description does not take into account your particular circumstances or needs. You should not rely on the description as advice for your own affairs. You should consult your taxation adviser for detailed taxation advice before making a decision as to whether or not to accept the Offer for Your Accent Shares.

Foreign shareholders will be paid the same cash consideration as stipulated under the Offer. However, the tax implications under the Offer for those foreign shareholders may be different from those relating to Australian resident shareholders.

This summary only applies to Accent Shareholders who hold their Accent Shares on capital account for Australian income tax purposes. In particular, it does not apply to Accent Shareholders who buy and sell shares in the ordinary course of business or who otherwise hold their Accent Shares as revenue assets (as defined in section 977-50 of the *Income Tax Assessment Act 1997* (Cth)) (**ITAA 1997**) or as trading stock (as defined in subsection 995-1(1) of the *ITAA 1997*) for Australian tax purposes.

In addition, this summary does not apply to (non-exhaustive):

- (a) Accent Shareholders prior to 20 September 1985, or are treated as having acquired their Accent Shares prior to 20 September 1985 under the *Income Tax Assessment Act 1936* (Cth) (**ITAA 1936**) or *ITAA 1997*, and are not otherwise treated as having acquired their Accent Shares after that date under *ITAA 1936* or *ITAA 1997*;
- (b) Accent Shareholders who are subject to special taxation rules (for example, insurance companies and tax-exempt organisations);
- (c) Accent Shareholders whose Accent Shares are subject to the "taxation of financial arrangements" rules in Division 230 of the *ITAA 1997*; or

- (d) non-Australian tax resident Accent Shareholders who have held their Accent Shares at any time in carrying on a business at or through a permanent establishment in Australia.

This summary also does not address Accent Shareholders that are partnerships or trusts, persons that are partners of such partnerships or persons that are beneficiaries of a trust that is an Accent Shareholder. If a partnership or a trust is an Accent Shareholder, the partners of such partnership or the beneficiaries of such trust should consult their own tax advisers with respect to the Australian taxation consequences to them of the partnership or the trust (as applicable) before accepting the Offer.

The information in this description is based upon Australian taxation law and practice in effect at the date of this Bidder's Statement. It is not intended to be an authoritative or comprehensive analysis of the taxation laws of Australia. The summary does not consider any specific facts or circumstances that may apply to particular Accent Shareholders.

The Australian government announced changes to the Capital Gains Tax (**CGT**) regime commencing 1 July 2027 as part of the 2026-27 Australian Federal Budget. On 28 May 2026, *Treasury Laws Amendment (Tax Reform No.1) Bill 2026* was introduced into Parliament to give effect to these measures. The Bill introduces significant CGT reforms for Australian resident individuals and certain trusts that will generally replace the 50% CGT discount with cost base indexation and impose a 30% minimum tax rate on certain capital gains of Australian resident individuals. If enacted in its current form, the new rules would apply to CGT events happening on or after 1 July 2027, with transitional rules generally limiting the changes to gains accruing on or after that date (including in respect of assets that were pre-CGT assets immediately beforehand). The summary below does not address these proposed changes on the basis that the Offer is expected to be completed before 1 July 2027, and the Bill remains subject to amendment before enactment.

You are advised to seek independent professional advice regarding the Australian tax consequences of disposing of Your Accent Shares according to your particular circumstances.

8.2 Accent Shareholders who are Australian residents for tax purposes

(a) CGT consequences of accepting the Offer or having the Accent Shares compulsorily acquired.

This Section applies to Accent Shareholders who are residents of Australia for Australian income tax purposes and hold their Accent Shares on capital account.

If you are an Australian resident for Australian income tax purposes, the disposal of Your Accent Shares pursuant to the Offer will constitute a CGT event.

The time of the CGT event is when you dispose of Your Accent Shares for CGT purposes. If you accept the Offer, you should be taken to have disposed of Your Accent Shares for CGT purposes when the contract to sell Your Accent Shares comes into existence by accepting the Offer to dispose of Your Accent Shares in accordance with Section 9.3. However, if you do not ultimately dispose of Your Accent Shares, then no CGT event should happen to Your Accent Shares.

If Frasers becomes entitled to compulsorily acquire any outstanding Accent Shares under the Corporations Act and Your Accent Shares are compulsorily acquired, you will be taken to have disposed of Your Accent Shares for CGT purposes on the earlier of:

- (i) when you received compensation from Frasers;
- (ii) when Frasers became the owner of Accent Shares;
- (iii) when Frasers entered it under that power; or
- (iv) when Frasers took possession under that power.

The disposal of Your Accent Shares will give rise to a capital gain or loss equal to the difference between:

- (i) the capital proceeds received for the disposal of Your Accent Shares (i.e. the cash received under the Offer); and
- (ii) the cost base (or, in the case of a capital loss, reduced cost base) of Your Accent Shares (which would generally include the amount paid to acquire Accent Shares plus any non-deductible incidental costs of acquisition, e.g. brokerage fees).

Each Accent Share constitutes a separate CGT asset and, as such, the CGT consequences relating to the disposal of Accent Shares acquired in different parcels at different times will need to be considered.

Your net capital gain for the income year is included in your assessable income for the income year. Broadly, your net capital gain for an income year is the total of all of the capital gains made during the income year less capital losses made in the income year and available net capital losses made in previous income years. That amount may be reduced further by other concessions, particularly under the discount capital gains tax rules discussed below.

If you make a capital loss from the disposal of Your Accent Shares, the capital loss may be used to offset capital gains made in the same or subsequent years of income (subject to satisfying any applicable carry forward loss conditions) but cannot be offset against ordinary income, nor carried back to offset net capital gains arising in earlier income years.

(b) Indexation for pre-21 September 1999 shares

If Your Accent Shares that you dispose of were acquired at or before 11.45am (Sydney time) on 21 September 1999, for the purpose of calculating a capital gain (but not a capital loss), you may choose that the cost base of those shares be indexed for inflation to 30 September 1999. If you choose indexation to apply, the discount capital gains tax provisions discussed below will not apply.

If you choose the indexation option, capital losses are applied after calculating the capital gain using the indexed cost base.

The choice to apply indexation rather than the discount capital gain provisions must be made by you on or before the day you lodge your income tax return for the income year in which the disposal occurs. The manner in which you complete your income tax return is generally sufficient evidence of your making of a choice.

If you do not choose to apply indexation, the discount capital gain provisions may apply, provided you have held Your Accent Shares for at least 12 months (as discussed further below).

(c) Discount capital gains

If you are an individual, or you hold Your Accent Shares as trustee of a trust or a complying superannuation fund, and have held Your Accent Shares for at least 12 months before disposal (and have not chosen for indexation to apply, should the choice be available), the discount capital gain provisions should apply as follows:

- (i) if you are an individual, one half of the capital gain (without any allowance for indexation in the cost base of the shares), after offsetting any applicable capital losses, will be included in your assessable income.
- (ii) if you are acting as a trustee of a trust (but not a superannuation fund), one half of the capital gain (without any allowance for indexation in the cost base of the shares), after offsetting any applicable capital losses, will be included in the "net income" of the trust. The discount capital gains provisions may also apply to capital gains to which beneficiaries in the trust (other than beneficiaries that are companies) are entitled. The CGT provisions applying to trustees and beneficiaries of trusts are complex and you should seek advice from your professional tax adviser in this regard.
- (iii) if you are a complying superannuation fund or a trustee of such an entity, two-thirds of the capital gain (without any allowance for indexation in the cost base of the shares) after offsetting applicable capital losses will be included in the fund's assessable income.

The discount capital gain provisions do not apply to companies.

Where the discount capital gain provisions apply, any available capital loss will be applied to reduce the nominal capital gain before discounting the resulting net amount by either one half or one third (as applicable) to calculate the net capital gain that is included in assessable income.

8.3 Accent Shareholders who are not Australian residents for tax purposes

This Section 8.3 applies to Accent Shareholders that are not Australian residents for tax purposes and hold their Accent Shares on capital account. It does not apply to Accent Shareholders who have held their Accent Shares at any time in carrying on a business at or through a permanent establishment in Australia.

If you are not a resident of Australia for Australian income tax purposes, you will generally not be subject to CGT on the disposal of Your Accent Shares unless Your Accent Shares are an "indirect Australian real property interest" at the time you dispose of Your Accent Shares for CGT purposes.

Broadly, Your Accent Shares should not be an indirect Australian real property interest as at that time unless the following conditions are satisfied:

- (a) you and your associates (as defined for tax purposes) together have held at least 10% or more of the issued shares in Accent at the time that you dispose of Your Accent Shares for CGT purposes or did so for at least 12 months during the 24 months before you disposed of Your Accent Shares for CGT purposes; and
- (b) the aggregate market value of Accent's assets which are taxable Australian real property (being direct and indirect interests in real property, including leases of land, situated in Australia and mining, quarrying or prospecting rights in respect of materials situated in Australia) exceeds the aggregate market value of Accent's assets which are not taxable Australian real property.

Note, on 10 April 2026, the Australian Federal Government released exposure draft legislation that proposes to clarify and broaden the types of assets that are taxable Australian real property to include assets with a close economic connection to Australian land and/or natural resources, to amend this test to a 365-day testing period (rather than a point-in-time test), and to require foreign residents disposing of membership interests exceeding \$20 million in value to notify the ATO prior to the transaction. The prospective amendments are proposed to commence on the first 1 January, 1 April, 1 July or 1 October after Royal Assent, with certain aspects of the broadened taxable Australian real property definition proposed to apply retrospectively to CGT events occurring on or after 12 December 2006. The exposure draft remains subject to amendment before enactment.

A foreign resident shareholder who has previously been an Australian tax resident and chose to disregard a capital gain or loss in respect of their Accent Shares from a CGT event on ceasing to be an Australian tax resident may be subject to Australian CGT consequences on disposal of their Accent Shares.

Foreign resident shareholders should seek their own independent tax advice as to the tax implications of the Offer, including tax implications in their country of residence.

8.4 CGT non-resident withholding tax

The CGT non-resident withholding tax regime (**CGT NRWT**) applies to transactions entered into on or after 1 July 2016. Under this regime buyers of securities in certain companies and trusts from foreign residents who are subject to CGT are generally required to pay 15% of the purchase price to the ATO as a pre-payment of the seller's tax liability.

Frasers does not expect to withhold any amount from the Offer Price in respect of CGT NRWT on the basis that the acquisition of the Accent Shares will occur through acceptance of the Offer which will result in the acquisition occurring on an approved stock exchange (being, the ASX or Cboe). The acquisition should therefore be an 'excluded transaction' for the purposes of the CGT NRWT regime.

Where Frasers considers that the provisions may be enlivened in respect of you, it will use reasonable endeavours to contact you so that you have the opportunity to provide a notice to Frasers that:

- (a) you are a resident of Australia; or
- (b) Your Accent Shares are not taxable Australian property.

If you do not provide such declaration or Frasers knows it to be false it will withhold 15% of the consideration offered by it and remit that to the ATO.

8.5 Goods and Services Tax

The disposal of Your Accent Shares in return for cash under the Offer should not attract GST. To the extent that you incur GST on acquisitions which you make in connection with the Offer (such as adviser fees), if you are registered for GST and the acquisitions are made in carrying on your enterprise, you should generally be entitled to input tax credits given the disposal of your shares should be treated as a GST-free supply to a non-resident (i.e. Frasers).

8.6 Stamp Duty

You should not be liable for any stamp duty on the disposal of Your Accent Shares in return for cash under the Offer. Any stamp duty payable on the disposal of Accent Shares pursuant to the Offer will be paid by Frasers.

9. TERMS OF THE OFFER
