Notices & Cautionary Statements

Cautionary Statements
This Presentation has been prepared as a summary only and does not contain all information about Turaco Gold Limited's ("TCG", "Turaco" or the "Company") assets and liabilities, financial position and performance, profits and losses, prospects and rights. The information in this Presentation and made to you verbally is subject to updating, completion, revision, further verification and amendment without notice.
The information contained in this Presentation or subsequently provided to the Recipient of this Presentation whether orally or in writing by or on behalf of the Company or its employees, agents or consultants ("Information") is provided to the Recipients on the terms and conditions set out in this notice. The purpose of this Presentation is to provide Recipients with Information relating to the Company. The Presentation has been prepared by the Company and each Recipient must make his/her own independent assessment and investigation of the Company and its business and assets and should not rely on any statement or the adequacy and accuracy of any Information contained in this Presentation.
The Company makes no representation or warranty (express or implied) as to the accuracy, reliability or completeness of the Information. The Company and its directors, employees, agents and consultants shall have no liability (including liability to any person by reason of negligence or negligent misstatement) for any statements, opinions, information or matters (express or implied) arising out of, contained in or derived from, or for any omissions from the Presentation, except liability under statue that cannot be excluded.
The performance and operations of the Company may be influenced by a number of factors, many of which are outside the control of the Company. No representation or warranty, express or implied, is made by the Company or any of its directors, officers, employees, advisers or agents that any intentions, expectations or plans will be achieved either totally or partially or that any particular rate of return will be achieved. This Presentation does not constitute in any way an offer or invitation to subscribe for securities in the Company pursuant to the Corporations Act.

References in this announcement may be made to the "study" ('PFS' or "Study'). The Study is considered to have a level of accuracy of +/-25%. The Study includes assumptions about the availability of funding. While Turaco considers the material assumptions to be based on reasonable grounds, there is no certainty that they will prove correct or that the range of outcomes indicated by the Study will be achieved. Investors should note that there is no certainty that Turaco will be able to raise that amount of funding when needed. It is possible that such funding may only be available on terms that may be dilutive to or otherwise affect the value of Turaco's existing shares. Given the uncertainties involved, investors should not make any investment decisions based solely on the results of the Study.

Benchmarking Data
Information presented in this announcement contains references to peer project benchmarking data which has been sourced from contemporary publicly available project studies. Benchmarking has been presented in relation to capital and operating costs and key project and financial metrics for a group of African domiciled gold projects which exhibit similar scale, operating environments and development characteristics to the Afema Project. Full benchmarking data sources are included at Appendices One, Two and Three.

Previously Reported Information
References in this announcement may have been made to certain ASX announcements, including Exploration Results, Mineral Resources, Ore Reserves, Production Targets and Forecast Financial Information. For full details, refer to said announcement on said date. The Company is not aware of any new information or data that materially affects this information. Other than as specified in this announcement and other mentioned announcements, the Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement(s), and in the case of estimates of Mineral Resources, Ore Reserves, production targets and forecast financial information, that all material assumptions and technical parameters underpinning the estimates in the relevant announcement continue to apply and have not materially changed other than as it relates to the content of this announcement. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original announcement.

For further information specifically regarding Mineral Resources, Ore Reserves, Production Targets and Forecast Financial Information included in this announcement, refer to the Company's ASX announcements:

Forward Looking Statements
This announcement contains certain forecasts, projections and forward-looking statements. Forward looking statements may generally be identified by the use of forward-looking terminology, including, without limitation, the terms "believes", "estimates", "anticipates", "expects, "predicts", "intends", "plans", "goals", "targets", "aims", "outlook", "guidance", "forecasts", "may", "will", "would", "could" or "should" or, in each case, their negative or other variations or comparable terminology. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which because of their nature may cause the actual results or performance of Turaco to be materially different from the results or performance expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding Turaco's present and future operations and the political and economic environment in which Turaco will operate in the future and are not guarantees or predictions of future performance. Although Turaco believes that its expectations, estimates and forecast outcomes are based on reasonable assumptions it cannot give any assurances that these will be achieved. Unless stated otherwise, forward-looking statements speak only as at the date of this announcement or the Study (as applicable). To the maximum extent permitted by applicable laws, Turaco and its related bodies corporate and their respective officers, directors, employees, agents and advisers ("Related Parties") make no representation and can give no assurance, guarantee or warranty, expressed or implied as to, and take no responsibility and assume no liability for the authenticity, validity, accuracy, suitability or completeness of, or any errors in or omissions from, any information, statement or opinion contained in this announcement and without prejudice, to the generality of the foregoing, the achievement or accuracy of any forecasts, projections or other forward-looking statements contained or referred to in this announcement. Except as required by applicable laws, Turaco and its related bodies corporate and their respective Related Parties disclaim any obligation update or revise any forward-looking statement in this announcement. Investors should make and rely upon their own enquiries before deciding to deal in Turaco's securities.

While the Company has concluded that it has a reasonable basis for providing forward looking statements included in this announcement and believes that it has a reasonable basis to expect that it will be able to fund its stated objectives for the Project, there can be no assurance that the Company's plans for development and or sale of its mineral properties will proceed as currently expected. There can also be no assurance that the Company's mineral deposits will prove to be economic or that a mine will successfully be developed on any of the Company's mineral properties.

Afema Operating Cost Benchmarking

Robust Operating Cost Estimates

- Mining Cost | Mining schedule provided to contractors operating in country to provide mining costs
- Processing Costs | Processing costs estimated from current supplier costs
- General & Administration Costs : estimated at US$14M pa based first principles
- Short ore haulage distances of high-grade satellite pits (7km to 13km) at 20-23 cents t/km

Refer Appendix One & Three for further information

For personal use only

Location Advantage | Low Capital Intensity Development

Nearby Power & Transmission Lines

32kms from Ayame hydro and existing high-voltage transmission lines. Reliable low-cost renewable grid power, limiting on-site power generation

Limited Resettlement Action Plan

Small, dispersed settlements with no communities on the planned open-pit deposits keep resettlement minimal, reducing social capex and timeline risk

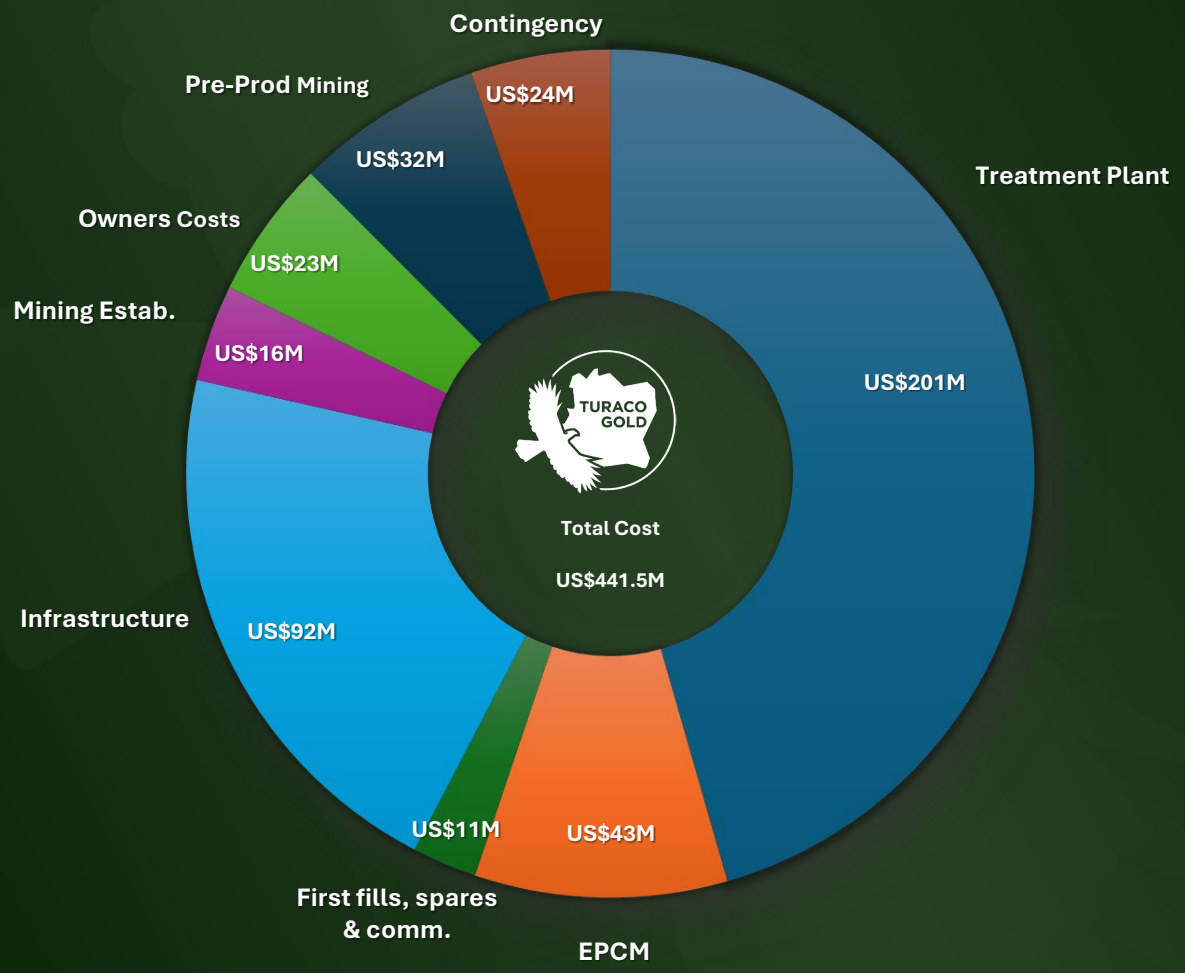

Contract Mining

Minimal pre-strip and benefit from existing 1.4Mt crushed stockpile.

Contract-mining model shifts the mining fleet and mobilization capital to an experienced regional contractor

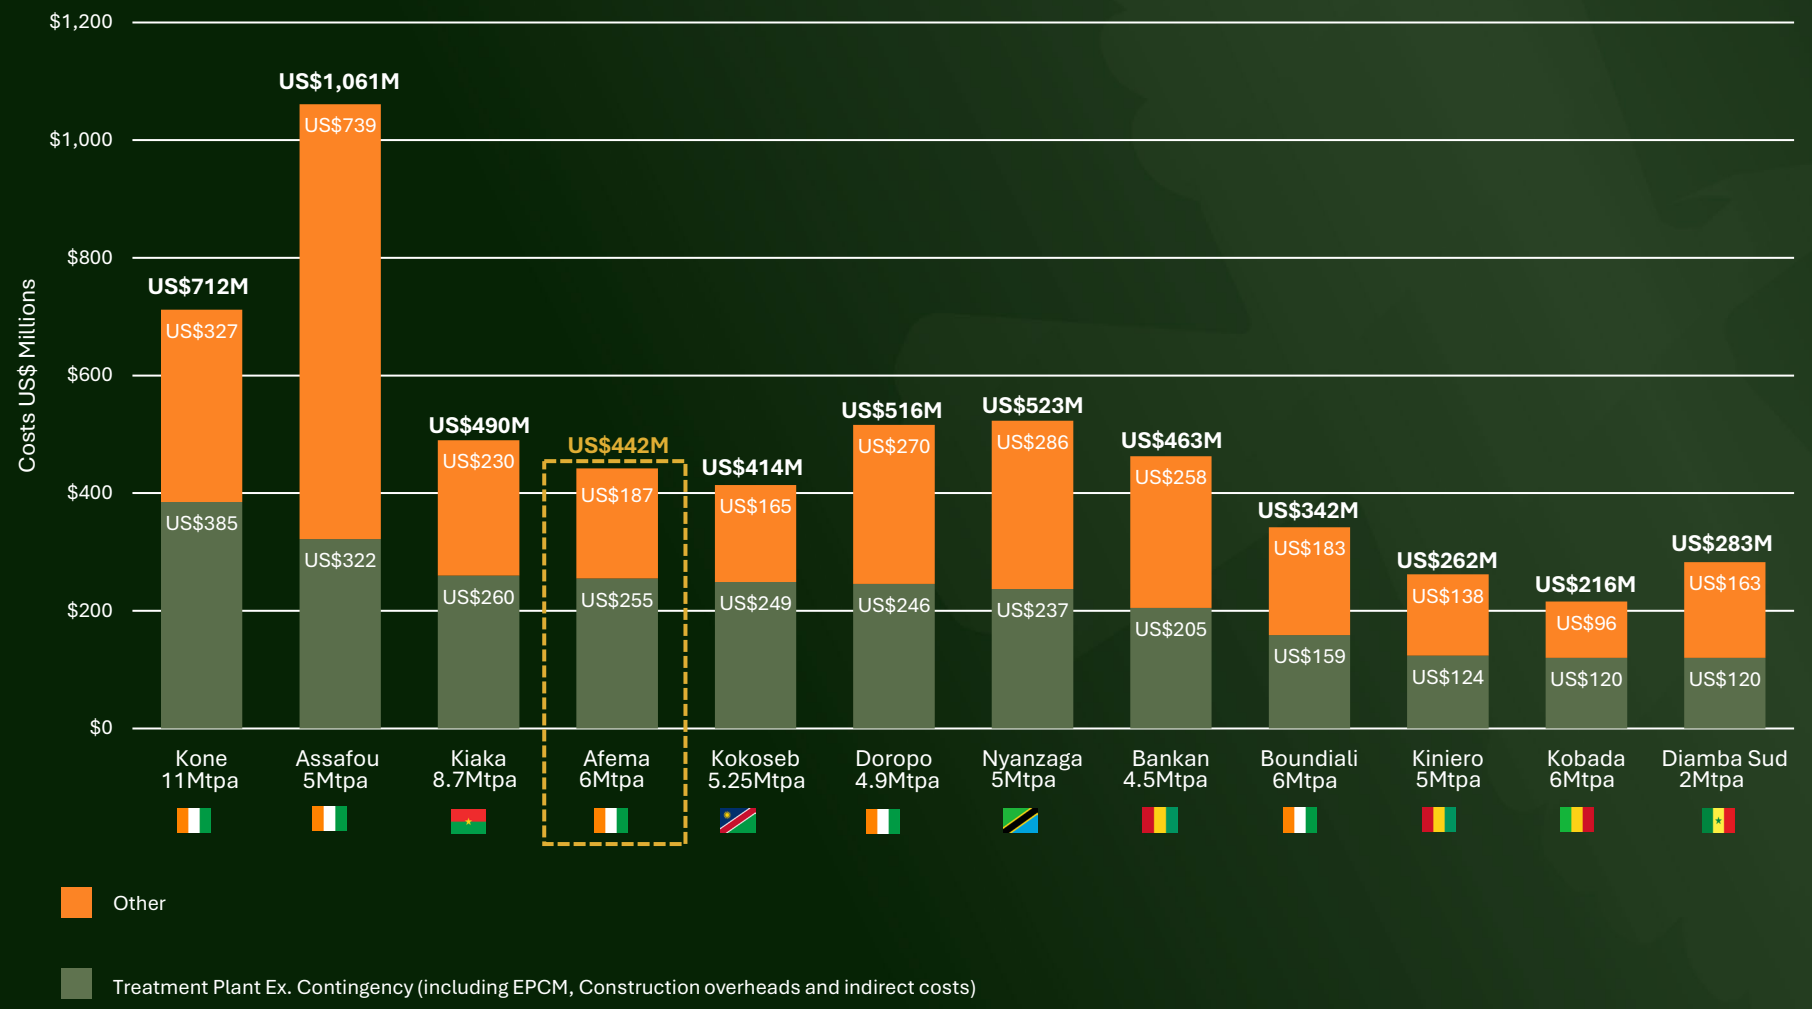

Nearby Access Roads

New sealed Abidjan–Ghana highway crosses the site, just ~120km (≈2h) from Abidjan and its port, requiring negligible new road capex

Cote d'Ivoire

Without question, **Cote d'Ivoire is a premier jurisdiction of West Africa**

- **West African gold production more than doubled in past 10 years to 17Moz pa** (Aust. 10Moz pa) to be ~15% of global production
- **West African discovery scale & grade** | 67Moz at 1.5g/t discovered in last 10yrs from 15 discoveries (Aust. 19Moz at 0.9g/t)
  - **Cote d'Ivoire the key contributor** to this growth & discoveries with **production up +500% in past 10yrs to ~1.8Moz pa**
  - Remains significantly **underexplored** despite >**34% of West Africa's Birimian greenstone**
- **Nine operating gold mines** (*Endeavour, Perseus, Fortuna, Tietto, Allied Gold*) and **five gold projects at construction & feasibility stage** (*Montage, Resolute, Endeavour, Aurum & Turaco*)
- **Rapid permitting & low capex per ounce**
- **Excellent infrastructure** | HV transmission lines - 74% gas / 23% hydro (exporter of electricity), bitumen roads, skilled workforce
- **Highest rated sovereign in sub-Sahara Africa** (S&P Global Rating BB-/positive)
- **Economic growth 6.0% pa in 2024** | Second largest economy in West Africa with **highest GDP/capita**
- **Key exports | Cocoa 19%, Gold 12%, Rubber 12%, Petroleum 11%**
- **Low security risk**
- **+14 years political stability | National election held 25 October 2025 (5-year term)**

March 2026 Herman JORC 2012 Mineral Resource Estimate[1]

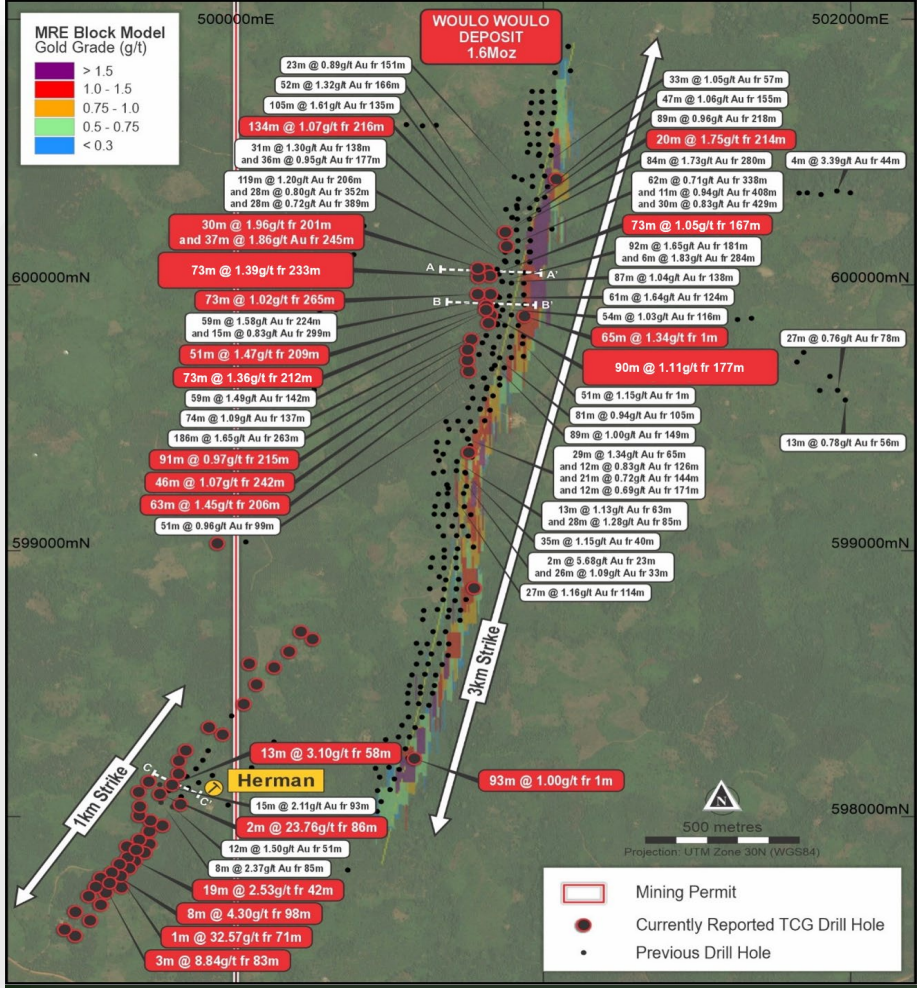

Cut-Off	Classification	Tonnes	Gold Grade	Ounces
Open Pit 0.5g/t	Indicated	-	-	-
	Inferred	2.0Mt	1.6g/t	100,000
	Total	**2.0Mt**	**1.6g/t**	**100,000**

(figures may not add up due to appropriate rounding)

- **LoM open pit schedule of 1.5Mt @ 1.6g/t for 77Koz ounces**
- **~80% conversion of MRE**
- **OPEN** in all directions
- MRE limited by drilling to a **depth of just 110m**
- Immediately adjacent (~500m) to Woulo Woulo
- Narrower widths at **higher grades to Woulo Woulo**

Herman Cross Sections

Woulo Woulo and Herman Drill Plan

Additional eastern structures | 'Scout' drilling returned:[2]

- **4m @ 82.01g/t gold from 64m**
- **32m @ 0.72g/t gold from 104m**
- **27m @ 0.76g/t gold from 78m**
- **23m @ 0.63g/t gold from 120m**

Afema Shear

Multi Million Ounce Gold System

- The Afema Shear is a **multi-million ounce gold system**
- **+35kms of the eastern margin of the extension of the Sefwi Gold Belt in Ghana** - a truly worldclass gold belt
- Multiple structures across a **2-3km width**
- Fifteen known drilled deposits along the Afema Shear of which only two have been tested with deeper drilling and only five included in JORC MRE of 4.65Moz
- Three sub-parallel structures:
  - **Jonction & Toilesso**
  - **Anuiri**
  - **Begnopan & Asupiri**
- **Significant drilled mineralisation along Afema Shear excluded from 4.65Moz MRE**
- **New discovery potential**
  - Several positions along Afema Shear untested with drilling
    - +5kms of untested prospective geology between Jonction and Anuiri with high tenor gold-in-soils
    - +15kms northern extension of Afema Shear

The Right Address

Target Rich Environment

- Geochemical evidence of Afema being **a major, highly mineralised gold district** | ongoing **new discovery potential**
- **Widespread +100ppb gold anomalism (background ~2ppb gold) | Multiple undrilled anomalies**, each extending over several kilometres, **within 20km project radius**
- **Strong correlation of gold-in-soils to drilled high grade gold mineralisation**
- Northern and southern extent of Afema Shear, Niamienlessa Shear, targets within Sefwi belt | largely untested with drilling
- **Four drill rigs operating double-shift**

"Hallmarks of another major West African with gold camp scale potential similar to other major Ghanian gold camps"

The Right Address

Further Discoveries

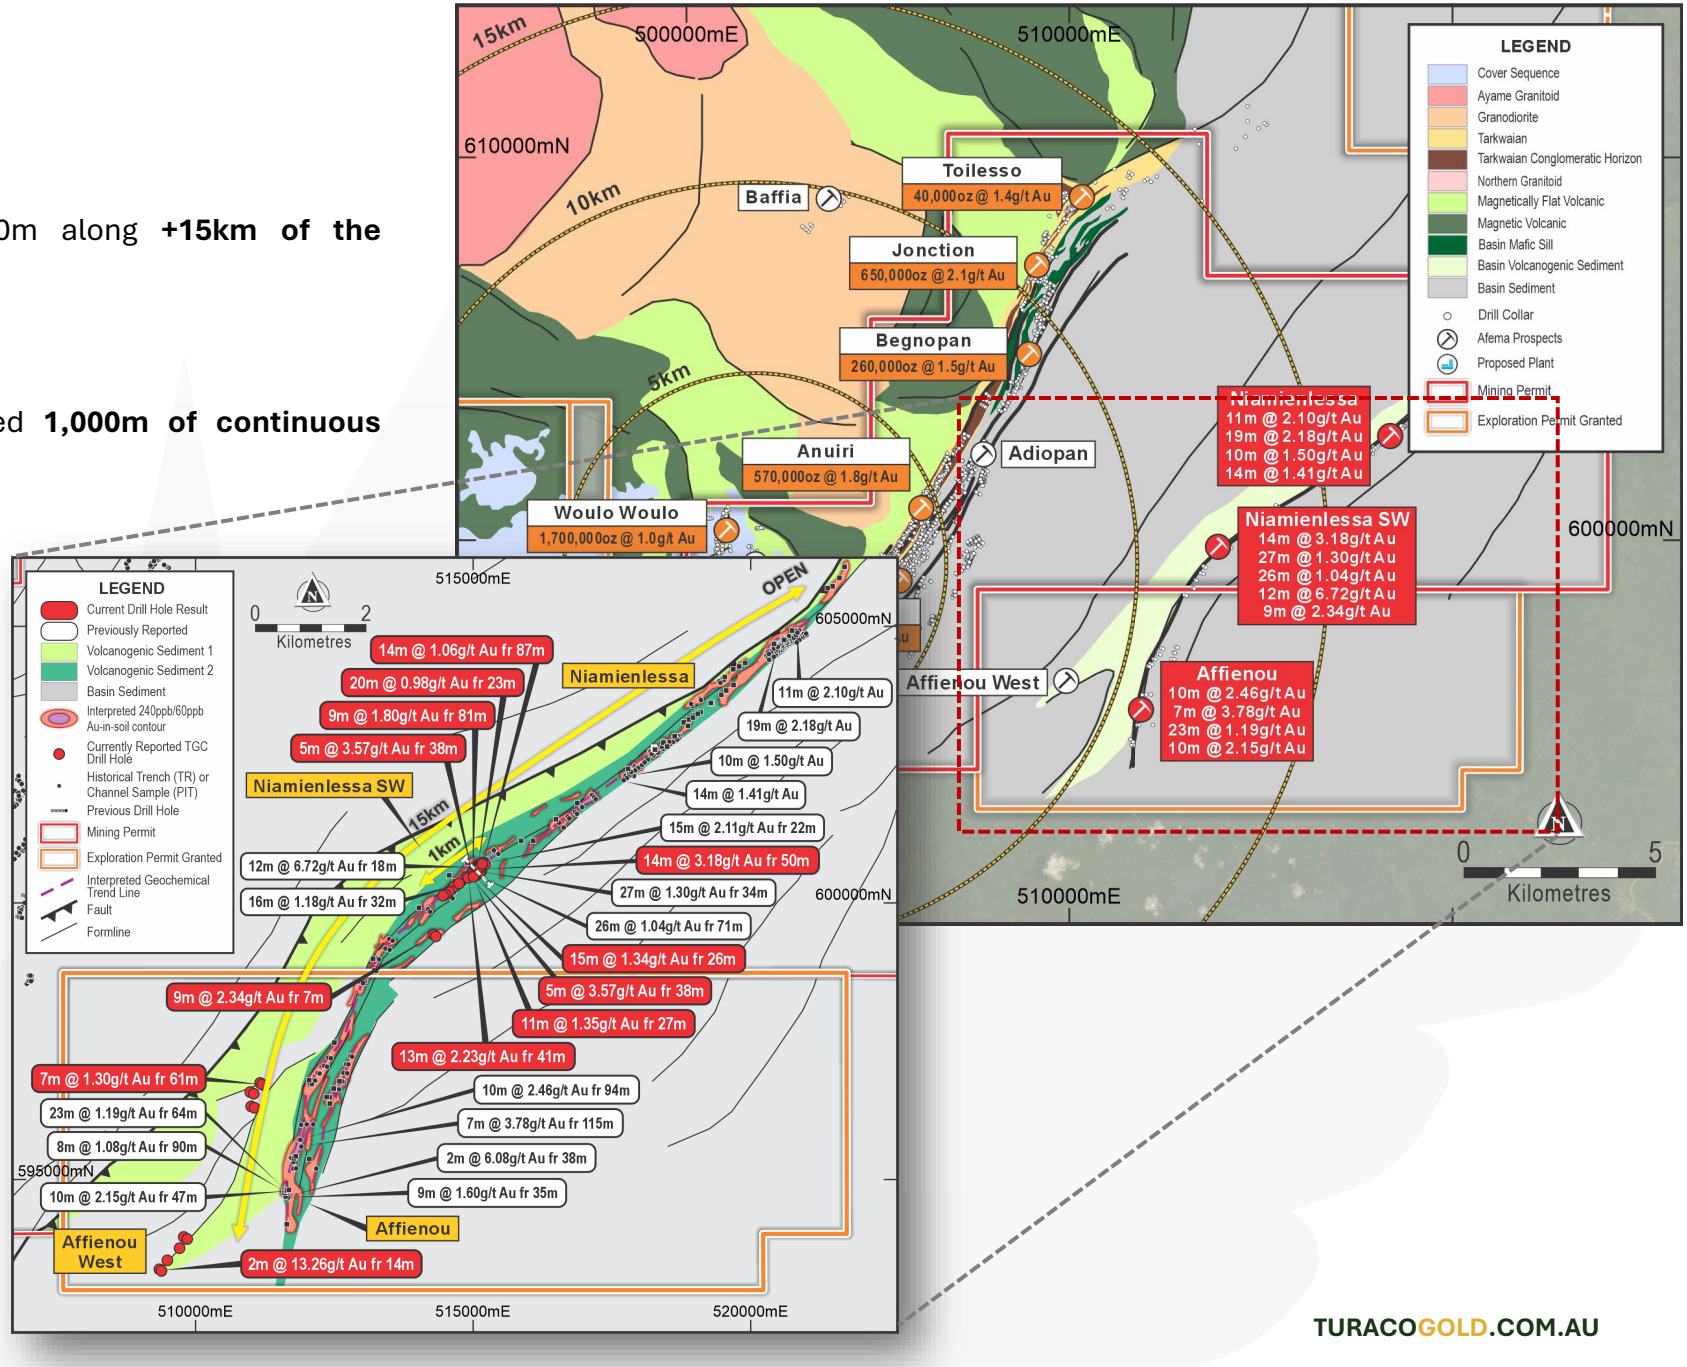

- IP survey along **35km of Afema Shear strike** | defines continuity of controlling structures between deposits (Anuiri, Jonction-Toilesso, Asupiri-Begnopan)
- **Several position outside the 4.65Moz MRE with highly encouraging initial drilling results[1]:**
  - **Bergerie | 20m @ 2.28g/t gold from 91m**
  - **Sikasso | 21m @ 2.29g/t gold from 66m**
  - **Jonction South | 7m @ 1.56g/t gold from 126m**
  - **Jonction North | 8m @ 1.69g/t gold from 70m, 9m @ 1.48g/t gold from 32m, 6m @ 1.95g/t gold from 13m**
- **Many kilometres of undrilled strike across multiple structures (i.e. Jonction - Anuiri)**
- **Regional structural jog in the north** to a north-south orientation, analogous to other major Ghanian gold deposits (Chirano, c.70Moz Obuasi)
- **Multiple rigs drilling along the Afema Shear**

Niamienlessa Shear

- Deeper weathering with oxide gold to 80m along **+15km of the Niamienlessa Trend**
- Moderate dipping mineralisation
- Drilling **at 'Niamienlessa SW'** has delineated **1,000m of continuous mineralisation** including[1]:
  - **12m @ 6.72g/t gold from 18m**
  - **14m @ 3.18g/t gold from 50m**
  - **27m @ 1.30g/t gold from 34m**
  - **13m @ 2.23g/t gold from 41m**
  - **15m @ 2.11g/t gold from 22m**
  - **26m @ 1.04g/t gold from 71m**
  - **9m @ 2.04g/t gold from 7m**
- Located within 15kms of Woulo Woulo
