

Dexus (ASX: DXS)

ASX release

6 July 2026

Portfolio valuation update

Dexus announces that its 175¹ assets, comprising 27 office properties and 148 industrial properties, have been externally valued as at 30 June 2026. The draft external independent valuations² have resulted in an estimated decrease of circa \$24 million³ or 0.2% on book values across the stabilised portfolio and development assets for the six months to 30 June 2026.

The value of the office portfolio decreased circa 0.4% driven by marginally higher capitalisation rates and discount rates, partially offset by market rental growth. The industrial portfolio increased by circa 0.5%, driven by market rental growth and a slightly firmer discount rate, partially offset by a marginally softer capitalisation rate.

Ross Du Vernet, Dexus Group CEO and Managing Director said: "The valuations reflect a stabilising market that is being driven by fundamentals. Capitalisation rates were slightly softer in both the office and industrial portfolios, with rental growth and capex assumptions generally driving valuation outcomes across the stabilised portfolios."

During the period, the weighted average capitalisation rate of both the office and industrial portfolios expanded by 3 basis points (to 6.22% for the stabilised office portfolio, 5.58% for the stabilised industrial portfolio, and 6.06% for the stabilised total portfolio).

Valuations will be finalised and details relating to individual property valuations will be available in Dexus's FY26 results announcement which will be released to the Australian Securities Exchange on 20 August 2026.
