In accordance with ASX Listing Rule 3.14, with effect today, the Company advises that its registered office and principal place of business will change to:

C/- Bio101 Financial Advisory Pty Ltd
Suite 1.01
117 Camberwell Road
Hawthorn East VIC 3123

This announcement was authorised for release by the Board of Ceryvyn Therapeutics Ltd.

About Ceryvyn Therapeutics (ASX: CYV)

Ceryvyn Therapeutics Ltd (ASX: CYV) is a clinical-stage biopharmaceutical company developing innovative therapies by translating advances in human biology into transformative medicines for patients with serious diseases. The Company seeks to identify biological mechanisms that drive disease and develop targeted therapies capable of addressing significant unmet medical need.

Ceryvyn's current focus is lymphangioleiomyomatosis (LAM) - a rare, chronic and progressive systemic disease that predominantly affects women and primarily involves the lungs, where it leads to progressive loss of lung function. Despite currently available therapies, there remains no cure and significant unmet medical need.

The Company's lead development program, CYV-101, is a first-in-class fusion protein designed to selectively bind and neutralise VEGF-C and VEGF-D, key signalling proteins involved in pathological lymphangiogenesis. By targeting a fundamental biological pathway believed to drive disease progression, CYV-101 has the potential to offer a differentiated therapeutic approach for patients with LAM.

Ceryvyn is committed to building a biotechnology company grounded in scientific excellence, rigorous clinical development and a relentless focus on improving the lives of patients while creating sustainable long-term value for shareholders.
