3. Details of the Disposal

3.1 Summary

On 9 June 2026, following the Company's initial announcement on 17 March 2026 regarding the execution of a non-binding term sheet, the Company announced that it had entered into a binding sale and purchase deed (**SPD**) with Indigo Metals Limited (**Indigo**), an unrelated party of the Company, for the sale of the following assets (**Disposal**):

(a) 100% of the issued share capital of Mt Unicorn Holdings Pty Ltd (**Mt Unicorn**) (excluding the Buckland Gold Project), which is the sole holder of the Mount Unicorn Project;

(b) the Sandy Creek Project;

(c) the Tallandoon Project; and

(d) the Corryong Project,

(together, the **Sale Assets**) to Indigo in return for (together, the **Consideration**):

(e) the payment of a deposit of $200,000 in cash (**Deposit**), which has been paid;

(f) the payment of $3,600,000 in cash, less the Deposit (**Cash Consideration**);

(g) the issue of 17,500,000 fully paid ordinary shares in the capital of Indigo at a deemed issue price of $0.20 per share[1] (**Consideration Shares**); and

(h) the grant of a 2.5% Net Smelter Revenue Royalty on all antimony production from the Sandy Creek Project and the Tallandoon Project, and from any successor mineral tenements to those tenements (the **Royalty**).

The Disposal is conditional on the passing of Resolution 1, in addition to Indigo receiving from ASX a notice of its intent to admit Indigo to the official list of the ASX, subject only to usual/customary conditions (together, the **Conditions Precedent**).

Indigo intends to:

(a) acquire:

  (i) the Sale Assets; and

---

[1] While Indigo has not yet finalised the terms of its proposed listing on the ASX, including the proposed issue price, the Company determined that the deemed issued price for the Consideration Shares of $0.20 each is appropriate as it is based on the minimum issue price of Indigo shares in accordance with Listing Rule 2.1, Condition 2.

(ii) 100% of the shares in Hidden Dome No 1 Pty Ltd and Hidden Dome No 2 Pty Ltd, which together hold 100% of the Queensland mining licences ML 20496 and ML 20505; and

(b) undertake an initial public offer and seek admission to the official list of the ASX.

3.2 Key steps in the Disposal

The Disposal comprises of the following key steps:

(a) Shareholder approval being obtained for the Disposal (the subject of Resolution 1);

(b) Indigo receiving from ASX a notice of its intent to admit Indigo to the official list of the ASX, subject only to usual/customary conditions; and

(c) Completion of the SPD, including obtaining all necessary and incidental Government, regulatory and third-party consents for the transfer of the Sale Assets to Indigo.

3.3 Indicative timetable

Event	Date
Execution of SPD and announcement of Disposal	9 June 2026
This Notice of Meeting is despatched to the Company's Shareholders	10 July 2026
General Meeting	10 August 2026
Completion of the SPD	On or around 14 September 2026

Note: The dates shown in the table above are indicative only and may vary subject to the Corporations Act, the Listing Rules, and other applicable laws.

3.4 Rationale for the Disposal

The Company's primary focus continues to be mineral exploration and the examination of new resource opportunities. In addition to the Company's Sale Assets (being the subject of this Resolution), the Company holds interests in its flagship Triumph Gold Project and the Coonambula Antimony-Gold Project[2] located in central Queensland (together, the **Queensland Assets**) and suite of secondary projects across Victoria including the Rushworth and Walwa projects.

The recent activities undertaken by the Company include:

(a) **Completion of rock chip sampling at Triumph Gold Project**: As announced on 26 March 2026, the Company completed this sampling in December 2025 with the aim of further

[2] The project is a Farm-In Joint Venture agreement with Great Divide Mining (ASX:GDM), with the Company having rights to earn up to 51% interest in 6 tenements forming the Coonambula Antimony-Gold Project.

defining priority targets for resource growth in Triumph's Northern Corridor and areas adjacent to the Norton Mine. Refer to Company's quarterly report dated 30 April 2026 for further details.

(b) **Diamond drilling at the Coonambula Antimony-Gold Project**: The Company commenced diamond drilling at the Coonambula Antimony-Gold Project on 28 November 2025, with 4,100 metres of drilling being completed as at 4 June 2026. Refer to Company's quarterly report dated 30 April 2026, and recent announcements dated 4 and 10 June 2026 for further details.

(c) **Acquisition of Skarn Ridge Project**: As announced on 11 February 2026, the Company completed the acquisition of highly prospective, underexplored projects in the south-eastern region of Queensland which include an existing EPM (28873) and EMPA (28868).

(d) **Proposed sale of Buckland Gold Project**: As announced on 17 March 2026, the Company has entered into a binding sale and purchase term sheet with Daybreak Minerals Pty Ltd for the sale of the Company's 100% interest in the Buckland Gold Project located in north-east Victoria.

(e) **Proposed acquisition of seven highly prospective EL applications**: As announced on 29 May 2026, the Company has entered into a binding term sheet with Core Uranium Limited for the acquisition ~4,700km² in tenement applications as a package in the Pine Creek region of the Northern Territory, prospective for gold, copper, tungsten, tin, and uranium. Refer to the Company's announcement dated 29 May 2026 for further details.

(f) **Walwa Project under assessment**: As announced on 16 June 2026, in response to strong metal prices, the Company has commenced a review of its Victorian tin-tungsten projects in Northeast Victoria.

Further details in respect of the Company's projects are set out in the Company's quarterly report released to ASX on 30 April 2026.

Following a review by the Board and given the prospectivity of the Queensland Assets, the Board considers that the Company cannot reasonably prioritise resources to optimise the exploration potential of the Sale Assets and that the value of the Sale Assets is not being fully reflected in the Company's Share price. Accordingly, the Company determined that the Sale Assets should be considered a non-core asset and that alternatives to divest the Sale Assets should be explored.

3.5 Advantages and disadvantages of the Disposal

(a) **Advantages**

(i) The Board considers the Sale Assets to be non-core to its strategic objectives.

(ii) The Board will be able to focus on, and prioritise, the development of the Company's other projects, in particular the Queensland Assets.

(iii) The Disposal will provide the Company with an additional $3,600,000 in cash, which will be directed towards exploration and development of its existing projects.

(iv) The Company will retain an indirect interest in the Sale Assets by virtue of its shareholding in Indigo (followings its admission to the official list of ASX) and the Royalty, which may generate further value for Shareholders.

(v) The Board sees considerable underlying value in the Sale Assets that is not being valued by the market and, therefore, a dedicated fully funded vehicle may realise appropriate value for Shareholders.

(b) **Disadvantages**

(i) The Company will no longer directly hold and have control over the Sale Assets, which may not be consistent with the investment objectives of all Shareholders. The Sale Assets will be managed by Indigo following completion of the Disposal.

(ii) The Company will incur costs associated with the Disposal including, but not limited to legal, accounting, and advisory fees incurred in the preparation of documentation required to give effect to the Disposal and tax advice obtained in relation to any taxation consequences of the Disposal.

(iii) There is no guarantee that the market in Indigo shares upon admission to the official list of ASX will be liquid should the Company wish to realise its returns from the issue of the Consideration Shares in the future.

(iv) There is no guarantee that, for reasons outside of the Company's control, the Disposal will proceed to completion.

3.6 Effect of the Disposal on Shareholders

(a) **What will you receive?**

If the Disposal is implemented, the Company will receive the Consideration (including the Consideration Shares).

The Company intends to retain the Consideration Shares following completion of the SPD rather than undertaking an in-specie distribution to its Shareholders. On that basis, Shareholders will not receive any shares in the capital of Indigo because of the Disposal but will continue to retain an economic exposure to the Sale Assets via the Company for as long as the Company retains the Consideration Shares.

(b) **What is the impact on your shareholding?**

The number of Shares you hold will not change as a result of the Disposal. The rights attaching to your Shares will also not alter.

If the Disposal is completed, the value of your Shares may be affected. The removal of the Sale Assets from the Company's asset portfolio may reduce the value of your Shares, however this may be offset by the value of the Company's shareholding in Indigo by virtue of the Consideration Shares. The extent of any impact will be dependent on the value ascribed by the market to the Sale Assets and the Consideration Shares from time to time.

(c) **What is the effect of the Disposal on Options and Performance Rights?**

The Disposal will have no effect on the terms of the Options or Performance Rights of the Company currently on issue.

(d) **What are the taxation implications of the Disposal?**

No significant taxation ramifications are anticipated as a result of the Disposal.

3.7 Costs of the Disposal

The total approximate expenses of the Disposal are:

Disposal Costs	A$
Legal fees	25,000
Tax advice	1,000
Co Sec/Accounting/admin	10,000
Contingency	10,000
Total Disposal Costs	**46,000**

3.8 Overview of the Sale Assets

Details of the tenements which comprise the Sale Assets, together with any encumbrances (if any) are set out in Schedule 2.

(a) **Mount Unicorn Project**

The Mount Unicorn Project consists of one granted retention licence.

Mt Unicorn, a wholly owned subsidiary of the Company, currently holds 100% of the licence comprising the Mount Unicorn Project.

The Company has conducted extensive percussion and diamond drilling, geophysics, geochemistry, environmental, social, logistical and metallurgical studies culminating in a JORC Mineral Resource Estimate and Pre-Feasibility Study.

(b) **Sandy Creek Project**

The Sandy Creek Project consists of two granted exploration licences.

The Company currently holds 100% of the licences comprising the Sandy Creek Project.

The Company has conducted extensive soil and rock chip regional geochemistry, prospect mapping and limited RAB Percussion drilling at key prospects.

(c) **Tallandoon Project**

The Tallandoon Project consists of one granted exploration licence.

The Company currently holds 100% of the licence comprising the Tallandoon Project.

The Company has conducted limited regional rock chip sampling and prospect mapping.

(d) **Corryong Project**

The Corryong Project consists of one granted exploration licence.

The Company currently holds 100% of the licence comprising the Corryong Project.

The Company has undertaken compilation of past data, including regional and prospect scale soil and rock chip geochemistry previously undertaken by the Company under expired tenements over the area including focused percussion (RC & RAB) drilling at the Mountain View Gold Project culminating in the estimation of a small JORC Mineral Resource Estimate. 5 diamond drill holes were also completed at the North Mammoth Porphyry Project under expired EL4726 in the search for porphyry mineralisation north of the Saltpetre Gap Fault within the tenement.

4. Resolution 1 – Approval to dispose of the Sale Assets

4.1 General

The background to the Disposal is summarised in Section 3.1 above. Details of the Sale Assets are provided in Section 3.8 and Schedule 2.

Resolution 1 seeks Shareholder approval to dispose of the Sale Assets to Indigo under and for the purposes of Listing Rule 11.4.

4.2 Listing Rule 11.4

Listing Rule 11.4(a) relevantly provides that a listed entity must not dispose of a major asset if, at the time of disposal, it is aware that the person acquiring the asset intends to offer or issue securities with a view to becoming listed.

Listing Rule 11.4.1(a) and (b) provide exceptions to Listing Rule 11.4(a), namely:

(a) if all the securities in the spin-out vehicle are offered, issued or transferred pro rata to the holders of ordinary securities in the listed entity or in any other way that, in ASX's opinion, is fair and reasonable in all circumstances; or

(b) shareholders of the listed entity approve the spin-out.

ASX has confirmed that the Sale Assets represent a “major asset” of the Company for the purposes of Listing Rule 11.4. As Indigo is acquiring the Sale Assets for the purposes of a proposed listing on the ASX, the Disposal is regarded as a non-standard spin-out of a major asset for these purposes and paragraph (a) above does not apply, and therefore it is a requirement for the Disposal to be approved by the Shareholders of the Company under paragraph (b) above.

Resolution 1 seeks the required Shareholder approval of the Disposal for the purposes of Listing Rule 11.4.1(b).

If Resolution 1 is passed, the Company will be able to proceed with the Disposal and dispose of the Sale Assets to Indigo under and for the purposes of Listing Rule 11.4.1(b).

If Resolution 1 is not passed, the Conditions Precedent will not be satisfied and the Company will not be able to proceed with the Disposal under and for the purposes of Listing Rule 11.4.1(b), and the Company will continue to hold the Sale Assets. If this outcome were to eventuate, the Company may look to undertake alternative value realisation opportunities with the Sale Assets such as, without limitation, disposals to third parties or entering joint venture arrangements.

4.3 **Specific information required in accordance with Listing Rule 11.4 and Guidance Note 13**

The following information is provided in relation to the Disposal and in accordance with Listing Rule 11.4 and Guidance Note 13:

(a) The name of the 'spin out vehicle' is Indigo Metals Limited.

(b) As at the date of this Notice, Indigo's securities on issue comprise 9,062,500 fully paid ordinary shares.

(c) Indigo has not yet finalised the terms of its proposed listing on the ASX, including the proposed number of securities to be issued and the proposed issue price.

(d) Indigo's initial public offer will be conducted by way of a public prospectus lodged with ASIC, open to all investors including retail Company Shareholders on the same terms as institutional applicants. The initial public offer will not restrict participation to wholesale or sophisticated investors only, however it is not anticipated that there will be a priority offer to the Company's Shareholders. Accordingly, the Company cannot guarantee any application by a Company Shareholder for Indigo shares under the initial public offer will be successful and will otherwise be subject to Indigo's allocation policy.

(e) Details of the Disposal and how it is to be effected is detailed in Sections 3.1 to 3.3 (inclusive).

(f) Information regarding the assets the subject of the Disposal, being the Sale Assets, is described in Section 3.8 and Schedule 2. The accounting value of the Sale Assets as reflected in the Company's latest unaudited financial accounts (for the period ended 31 December 2025) is $1,842,615.

(g) The impact the Disposal will have on the Company's latest unaudited financial statements (being for the period ended 31 December 2025) assuming the Disposal took place on 31 December 2025 (including financial measures) is detailed in the pro-forma statement of financial position included in Schedule 3 and as follows:

   (i) 28.56% on consolidated total assets as at 31 December 2025; and

   (ii) 29.73% on consolidated total net assets as at 31 December 2025;

   (iii) 0% on total consolidated annual expenditure, assuming any expenditure on the Company's assets is capitalised;

   (iv) -664.45% on consolidated EBITDA, assuming the half-year results include the gain on the Disposal; and

   (v) -663.34% on consolidated loss/income (before tax), assuming the half-year results include the gain on the Disposal.

(h) The impact the Disposal will have on Shareholders is detailed in Section 3.6.

(i) The advantages and disadvantages, including the reasons why the Board consider that the Disposal is of the benefit to Shareholders is detailed in Sections 3.5(a) and 3.5(b) (respectively). ASX has advised that Listing Rule 11.4 applies to the Disposal and that the exception in Listing Rule 11.4.1(a) does not apply. Accordingly, the Company is seeking Shareholder approval under Listing Rule 11.4.1(b) for the Disposal.

(j) The material terms of the SPD pursuant to which the Sale Assets will be transferred to Indigo is detailed in Section 3.1. The SPD is otherwise on terms and conditions considered standard for an agreement of this nature, including relevant representations and warranties from the Company and Indigo.

(k) A voting exclusion statement is included in the Notice.

4.4 Additional information

Resolution 1 is an ordinary resolution.

The Board recommends that Shareholders vote in favour of Resolution 1.

5. Resolution 2(a) and (b) – Ratification of prior issue of Placement Shares

5.1 General

On 29 May 2026, the Company announced that it had received firm commitments from professional and sophisticated investors to raise approximately $1.3 million (before costs) through the issue of 52,427,155 Shares (**Placement Shares**) at an issue price of $0.025 per Placement Share (**Placement**).

Subject to passing Resolution 3, each participant in the Placement will be invited to apply for one free attaching Option for every Placement Share subscribed for under the Placement (**Placement Options**). Each Placement Option will have an exercise price of $0.051 each and expiry date 31 October 2028. The Placement Options will be the same class as the existing quoted options under the ASX code DTMOC. The terms and condition of the Placement Options are set out in Schedule 4.

Proceeds of the Placement have been and are intended to be directed towards:

(a) further advancing drilling on the Company's flagship Triumph Gold Project;

(b) cash consideration for the acquisition of the Core Uranium Tenement package;

(c) conduct metallurgical testing and resource calculations on the Coonambula Antimony-Gold JV Project with Great Divide Mining in Central Queensland;

(d) drilling and surface sampling at the Company's 100% owned Walwa Tin, Tungsten, Tantalum, Niobium Project in NE Victoria;

(e) various desktop and field activities related to the Core Uranium tenement package; and

(f) general working capital.

On 2 June 2026, the Company issued the Placement Shares as follows:

(a) 31,456,293 Placement Shares under Listing Rule 7.1 (the subject of Resolution 2(a)); and

(b) 20,970,862 Placement Shares under Listing Rule 7.1A (the subject of Resolution 2(b)).

Resolution 2(a) and (b) seek the approval of Shareholders pursuant to Listing Rule 7.4 to ratify the issue of 52,427,155 Placement Shares under Listing Rules 7.1 and 7.1A.

5.2 Listing Rules 7.1, 7.1A and 7.4

Broadly speaking, and subject to a number of exceptions, Listing Rule 7.1 limits the amount of Equity Securities that a listed company can issue without the approval of its shareholders over any 12-month period to 15% of the fully paid ordinary shares it had on issue at the start of that period.

Under Listing Rule 7.1A however, an eligible entity can seek approval from its members, by way of a special resolution passed at its annual general meeting, to increase this 15% limit by an extra 10% to 25%. The Company obtained this approval at its 2025 annual general meeting.

The issue of the Placement Shares does not fit within any of the exceptions to Listing Rules 7.1 and 7.1A and, as it has not yet been approved by Shareholders, effectively uses up part of the Company's 15% placement capacity under Listing Rule 7.1 and 10% placement capacity under Listing Rule 7.1A. This reduces the Company's capacity to issue further Equity Securities without Shareholder approval under those Listing Rules for the 12-month period following the issue of the Placement Shares.

Listing Rule 7.4 provides an exception to Listing Rules 7.1 and 7.1A. It provides that where a company in a general meeting ratifies the previous issue of securities made pursuant to Listing Rules 7.1 and 7.1A (and provided that the previous issue did not breach Listing Rules 7.1 and 7.1A), those securities will be deemed to have been made with shareholder approval for the purposes of Listing Rules 7.1 and 7.1A.

The effect of Shareholders passing Resolution 2(a) and (b) will be to allow the Company to retain the flexibility to issue Equity Securities in the future up to the 15% placement capacity set out in Listing Rule 7.1 and 10% additional placement capacity set out in Listing Rule 7.1A, without the requirement to obtain prior Shareholder approval.

If Resolution 2(a) is passed, 31,456,293 Placement Shares will be excluded in calculating the Company's 15% limit in Listing Rule 7.1, effectively increasing the number of Equity Securities it can issue without Shareholder approval over the 12-month period following the issue date.

If Resolution 2(a) is not passed, 31,456,293 Placement Shares will continue to be included in the Company's 15% limit under Listing Rule 7.1, effectively decreasing the number of Equity Securities the Company can issue or agree to issue without obtaining prior Shareholder approval, to the extent of 31,456,293 Equity Securities for the 12-month period following the issue of those Placement Shares.

If Resolution 2(b) is passed, 20,970,862 Placement Shares will be excluded in calculating the Company's 10% limit in Listing Rule 7.1A, effectively increasing the number of Equity Securities it can issue without Shareholder approval over the 12-month period following the issue date.

If Resolution 2(b) is not passed, 20,970,862 Placement Shares will continue to be included in the Company's 10% limit under Listing Rule 7.1A, effectively decreasing the number of Equity Securities the Company can issue or agree to issue without obtaining prior Shareholder approval, to the extent of 20,970,862 Equity Securities for the 12-month period following the issue of those Placement Shares (and assuming the Company's approval under Listing Rule 7.1A remains in force for this period).

The Company confirms that Listing Rules 7.1 and 7.1A were not breached at the time the Placement Shares were issued.

5.3 Specific information required by Listing Rule 7.5

Pursuant to and in accordance with Listing Rule 7.5, the following information is provided in relation to the ratification of the issue of the Placement Shares:

(a) The Placement Shares were issued to professional and sophisticated investors, none of whom are a related party of the Company or, other than as detailed below, a Material Investor (**Placement Participants**). The Placement Participants were identified through a bookbuild process, which involved the Company seeking expressions of interest to participate in the Placement from new and existing contacts of the Company.

The Company advises that:

(i) Aged Services Victoria Pty Ltd ATF The Heritage Lakes, which became a substantial Shareholder on 2 June 2026, was issued 13,000,000 Placement Shares; and

(ii) James Mellon, a substantial Shareholder, was issued 6,000,000 Placement Shares,

which, in each case, comprised more than 1% of the Company's issued capital at the time of the agreement to issue the Placement Shares. Accordingly, each of the abovenamed subscribers for Placement Shares is considered to be a Material Investor in accordance with paragraph 7.4 of ASX Guidance Note 21.

(b) A total of 52,427,155 Placement Shares were issued as follows:

(i) 31,456,293 Placement Shares under Listing Rule 7.1; and

(ii) 20,970,862 Placement Shares under Listing Rule 7.1A.

(c) The Placement Shares are fully paid and rank equally in all respects with the Company's existing Shares on issue.

(d) The Placement Shares were issued on 2 June 2026 at an issue price of $0.025 each.

(e) A summary of the intended use of funds raised from the Placement is set out in Section 5.1.

(f) There are no other material terms to the agreement for the subscription of the Placement Shares.

(g) A voting exclusion statement is included in the Notice.

5.4 Additional information

Resolution 2(a) and (b) are separate ordinary resolutions.

The Board recommends that Shareholders vote in favour of Resolution 2(a) and (b).

6. Resolution 3 – Approval to issue Placement Options

6.1 General

The background to the Placement, including the proposed issue of the Placement Options is set out in Section 5.1 above.

Resolution 3 seeks the approval of Shareholders pursuant to Listing Rule 7.1 for the issue of the Placement Options.

6.2 Listing Rule 7.1

A summary of Listing Rule 7.1 is set out in Section 5.2 above.

The proposed issue of Placement Options does not fall within any of the exceptions set out in Listing Rule 7.2 and exceeds the Company's 15% placement capacity. It therefore requires the approval of Shareholders under Listing Rule 7.1.

The effect of Shareholders passing Resolution 3 will be to allow the Company to retain the flexibility to issue Equity Securities in the future up to the 15% placement capacity set out in Listing Rule 7.1, without the requirement to obtain prior Shareholder approval.

If Resolution 3 is passed, the Company will be able to proceed with the issue of the Placement Options. In addition, the issue of the Placement Options will be excluded from the calculation of the number of Equity Securities that the Company can issue without Shareholder approval under Listing Rule 7.1.

If Resolution 3 is not passed, the Company will not be able to proceed with the issue of the Placement Options, which means Placement Participants will not receive the Placement Options to which they would otherwise be entitled.

6.3 Specific information required by Listing Rule 7.3

Pursuant to and in accordance with Listing Rule 7.3, the following information is provided in relation to the proposed issue of the Placement Options:

(a) The Placement Options will be issued to the Placement Participants. Refer to section 5.3(a) for further information about the Placement Participants.

(b) A maximum of 52,427,155 Placement Options will be issued in connection with Resolution 3.

(c) The Placement Options will be exercisable at $0.051 each and expire on 31 October 2028 and will otherwise be on the terms and conditions in Schedule 4. The Company will seek quotation of the Placement Options, which will be the same class as the existing quoted options under the ASX code DTMOC.

(d) The Placement Options will be issued no later than 3 months after the date of the Meeting.

(h) The purpose of the proposed issue of the Placement Options was to incentivise participation in the Placement.

(i) The Placement Options will be issued for nil cash consideration as they are free-attaching to the Placement Shares. Accordingly, no funds will be raised from the issue of the Placement Options.

(e) There are no other material terms to the agreement for the subscription of the Placement Options by Placement Participants.

(f) A voting exclusion statement is included in the Notice.

6.4 Additional information

Resolution 3 is an ordinary resolution.

The Board recommends Shareholders vote in favour of Resolution 3.

7. Resolution 4(a) and (b) – Approval to issue Broker Securities

7.1 General

Zerp Capital Pty Ltd (**Broker**) provided advisory services to the Company in relation to the Placement. As consideration for these services, the Company agreed to pay the following fees:

(a) a 3% selling fee and 3% management fee equal on the gross proceeds under the Placement; and

(b) subject to Shareholder approval, 5,242,716 Shares (**Broker Shares**) with one free attaching Option for every Broker Share (**Attaching Options**) and 26,213,578 Options (on the same terms as the Placement Options) (**Broker Options**) to the Broker (or its nominees) (collectively, the **Broker Securities**).

Resolution 4(a) and (b) seeks the approval of Shareholders pursuant to Listing Rule 7.1 for the issue of the Broker Securities to the Broker (or its nominees).

7.2 Listing Rule 7.1

A summary of Listing Rule 7.1 is set out in Section 5.2 above.

The proposed issue of the Broker Securities does not fall within any of the exceptions set out in Listing Rule 7.2 and exceeds the Company's 15% placement capacity. It therefore requires the approval of Shareholders under Listing Rule 7.1.

The effect of Shareholders passing Resolution 4(a) and (b) will be to allow the Company to retain the flexibility to issue Equity Securities in the future up to the 15% placement capacity set out in Listing Rule 7.1, without the requirement to obtain prior Shareholder approval.

If Resolution 4(a) is passed, the Company will be able to proceed with the issue of the Broker Shares and Attaching Options to the Broker (or its nominees). In addition, the issue of the Broker Shares and Attaching Options will be excluded in calculating the Company's 15% placement capacity under Listing Rule 7.1, effectively increasing the number of Equity Securities it can issue or agree to issue without Shareholder approval over the 12-month period following the issue date.

If Resolution 4(a) is not passed, the Company will not be able to proceed with the issue of the Broker Shares and Attaching Options to the Broker (or its nominees) and will be required to pay an amount in cash equivalent to the Black Scholes value of the Attaching Options and the market value of the Broker Shares based on a 15-day VWAP.

may need to renegotiate the terms of the Broker's engagement, which may include increasing the cash portion of the fees.

If Resolution 4(b) is passed, the Company will be able to proceed with the issue of the Broker Options to the Broker (or its nominees). In addition, the issue of the Broker Options will be excluded in calculating the Company's 15% placement capacity under Listing Rule 7.1, effectively increasing the number of Equity Securities it can issue or agree to issue without Shareholder approval over the 12-month period following the issue date.

If Resolution 4(b) is not passed, the Company will not be able to proceed with the issue of the Broker Options to the Broker (or its nominees) and will be required to pay an amount in cash equivalent to the Black Scholes value of the Broker Options.

7.3 Specific information required by Listing Rule 7.3

(a) The Broker Securities will be issued to the Broker (or its nominees), none of whom are a related party of the Company.

(b) A maximum of 5,242,716 Broker Shares, 5,242,716 Attaching Options and 26,213,578 Broker Options will be issued.

(c) The Broker Shares will be fully paid and rank equally in all respects with the Company's existing Shares on issue.

(d) The Attaching Options and Broker Options will be exercisable at $0.051 each and expire on 31 October 2028 and will otherwise be on the terms and conditions in Schedule 4. The Company will seek quotation of the Attaching Options and Broker Options, which will be the same class as the existing quoted options under the ASX code DTMOC.

(e) The Broker Securities will be issued no later than 3 months after the date of the Meeting.

(f) The issue price of the Broker Shares will be $0.00001 per Broker Share.

(g) The Attaching Options and Broker Options will be issued for nil cash consideration.

(h) Nominal funds will be raised from the issue of the Broker Securities, rather the Broker Securities are being issued as partial consideration for the provision of advisory services by the Broker with respect to the Placement.

(j) A voting exclusion statement is included in the Notice.

The terms and conditions of the Placement Options, the Attaching Options and the Broker Options (in this Schedule, referred to as **Options**) are as follows:

1. (**Entitlement**): Each Option entitles the holder to subscribe for one Share upon exercise of the Option.

2. (**Exercise Price**): The Options have an exercise price of $0.051 per Option.

3. (**Expiry Date**): The Options expire at 5.00pm (AEST) on 31 October 2028. An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

4. (**Exercise Period**): The Options are exercisable at any time and from time to time on or prior to the Expiry Date.

5. (**Quotation of the Options**): It is the Company's current intention to seek quotation of the Options. The quotation of the Options will be subject to the Company satisfying the quotation conditions set out in the Listing Rules.

6. (**Notice of Exercise**): The Options may be exercised by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

   The Options may be exercised in whole or in part, and if exercised in part, at least 100,000 must be exercised on each occasion (except for a final reduced rounding balance).

   Any Notice of Exercise received by the Company will be deemed to be a notice of the exercise of that Option as at the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Option being exercised in cleared funds (Ex**ercise Date**).

7. (**Timing of issue of Shares on exercise**): Within 5 Business Days after the Exercise Date the Company will:

   (a) allot and issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;

   (b) if required, give ASX a notice that complies with section 708A(5) of the Corporations Act; and

   (c) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.

8. (**Transferability**): The Options are freely transferable from the date of issue, subject to any restriction or escrow arrangements imposed by ASX or under Australian securities laws and paragraph 9 below.

9. (**Restrictions on transfer of Shares**): If the Company is required but unable to give ASX a notice under paragraph 7(b), or such a notice for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, Shares issued on exercise of Options may not be traded and will be subject to a holding lock until 12 months after their

issue unless the Company, at its sole discretion, elects to issue a prospectus pursuant to section 708A(11) of the Corporations Act.

10. (**Shares issued on exercise**): Shares issued on exercise of the Options will rank equally with the then Shares of the Company.

11. (**Quotation of Shares on exercise**): If admitted to the official list of ASX at the time, application will be made by the Company to ASX for quotation of the Shares issued upon the exercise of the Options in accordance with the Listing Rules.

12. (**Reconstruction of capital**): If at any time the issued capital of the Company is reconstructed, all rights of any Option holder are to be changed in a manner consistent with the Corporations Act and the Listing Rules at the time of the reconstruction.

13. (**Participation in new issues**): There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.

14. (**Change in exercise price**): There will be no change to the exercise price of the Options or the number of Shares over which the Options are exercisable in the event of the Company making a pro-rata issue of Shares or other securities to the holders of Shares in the Company (other than a bonus issue).

15. (**Adjustment for bonus issues of Shares**): If the Company makes a bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu or in satisfaction of dividends or by way of dividend reinvestment):

    (a) the number of Shares which must be issued on the exercise of an Option will be increased by the number of Shares which the Option holder would have received if the Option holder had exercised the Option before the record date for the bonus issue; and

    (b) no change will be made to the Exercise Price.
