8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Yes.

The Company continues to review its operational expenditure run rate for opportunities to reduce expenditure.

The Company estimates it has funding capacity more than two quarters, with modest exploration activity (noting that one of its main exploration projects is under joint venture and therefore requires no expenditure from the Company for at least the following two quarters).

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
The Company maintains a shareholding in EG1, worth ~$137,000 (before brokerage) and is looking at divestment options for some of its other non-core assets. Furthermore, the Company is in discussions regarding several new joint venture/farm-in arrangements to further the strategic exploration initiatives of the Company while preserving its capital. The Company retains flexibility to manage expenditure in line with available funding. Should further capital be required, based on prior support from existing major shareholders and market conditions, the Directors have a reasonable expectation that additional funding could be secured in the near future.	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Yes (as outlined above).	

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
