

ASX RELEASE (ASX: AHE)

Commencement of US Legal Proceedings by Mindsprint Pte. Ltd

Melbourne, Australia, Friday, 31 July 2026 – Adheris Health Limited (ASX: AHE) ("Adheris Health" or "the Company") advises that its wholly owned US subsidiary, Adheris LLC ("Adheris"), has been named as defendant in proceedings commenced by Mindsprint Pte. Ltd. ("Mindsprint") in the United States District Court for the Southern District of New York (the "Proceedings").

Mindsprint and Adheris were parties to a Master Services Agreement dated 15 August 2025 and related statements of work under which Mindsprint provided certain information technology development and managed services to Adheris. In May and June 2026, Adheris terminated the relevant statements of work and the Master Services Agreement for cause.

Mindsprint alleges breach of contract and related claims, seeks a declaratory judgment that the terminations should be treated as terminations for convenience rather than terminations for cause, and claims damages of not less than US\$2.3 million plus costs.

Adheris disputes Mindsprint's claims in their entirety, considers the terminations to be valid terminations for cause, and intends to vigorously defend the Proceedings. Adheris reserves all of its rights.

The matter is at an early stage and the Company does not consider it possible to reliably quantify any potential financial impact arising from the Proceedings. The Proceedings are not expected to impact the Company's operations. As the matter is now before the court, the Company does not propose to comment further on the substance of the claims. The Company will keep the market informed of any material developments in accordance with its continuous disclosure obligations under ASX Listing Rule 3.1.
