IMDEX™

2026 Full Year Results Presentation

Delivering the strongest financial year in IMDEX history

For personal use only

Forward Looking Statements

This presentation may contain certain 'forward-looking statements' & projections provided by or on behalf of IMDEX limited (IMDEX). Forward-looking statements can generally be identified by the use of forward-looking words such as, 'expect', 'anticipate', 'likely', 'intend', 'should', 'could', 'may', 'predict', 'plan', 'propose', 'will', 'believe', 'forecast', 'estimate', 'target' 'outlook', 'guidance' & other similar expressions within the meaning of securities laws of applicable jurisdictions. These forward-looking statements reflect various assumptions made by or on behalf of IMDEX.

You are cautioned not to place undue reliance on forward looking statements. The statements, opinions & estimates in this presentation are based on assumptions & contingencies subject to change without notice, as are statements about market & industry trends, projections, guidance estimates.

The forward-looking statements contained in this presentation are not guarantees or predictions of future performance & involve known & unknown risks & uncertainties & other factors, many of which are beyond the control of IMDEX, may involve significant elements of subjective judgement & assumptions as to future events which may or may not be correct. The forward looking statements are subject to significant business, economic & competitive uncertainties & contingencies associated with the mining – technical services industry which may be beyond the control of IMDEX which could cause actual results or trends to differ materially, including but not limited to retention of key business relationships, environmental impacts & claims, operational & executional risks, research & development & intellectual property risks, an inability to meet customer demand, price & currency fluctuations, operating results, legislative, fiscal & regulatory developments, economic & financial market conditions in various countries, approvals & cost estimates, environmental risks, ability to meet funding requirements & share price volatility. Accordingly, there can be no assurance that such statements projections will be realised. IMDEX makes no representations as to the accuracy or completeness of any such statement of projections or that any forecasts will be achieved.

A number of important factors could cause actual results, achievements or performance to differ materially from the forward-looking statements, including the risks & uncertainties set out above. Investors should consider the forward-looking statements contained in this presentation in light of those matters. The forward-looking statements are based on information available to IMDEX as at the date of this presentation. Except as required by law or regulation (including the ASX listing rules), IMDEX undertakes no obligation to provide any additional or updated information whether as a result of new information, future events or results or otherwise. Indications of & guidance or outlook on, future earnings or financial position or performance are also forward-looking statements.

FY26 Financial Highlights

Record revenue growth converted into margin expansion

$520m	**Group Revenue** Up 21% on FY25 (up 23% on a constant currency basis)	FY25 $431m
$179m	**EBITDA Reported** Up 38% on FY25 (up 42% on a constant currency basis)	FY25 $130m
$163m	**EBITDA Normalised[1]** Up 29% on FY25 (up 33% on a constant currency basis)	FY25 $126m
31%	**EBITDA Normalised[1] Margin** Up 2% on FY25	FY25 29%
$59m	**NPAT Normalised[1]** Up 37% on FY25 (up 40% on a constant currency basis)	FY25 $43m

1. Normalised to exclude individually significant items - see slide 30.

For personal use only

FY26 Financial Highlights

Strong cash generation continues to fund growth, innovation and deliver superior shareholder returns

83%	Cash Conversion[1] Normalised[2]	Strong working capital discipline maintained during growth phase	FY25 95%
$199m	Net Debt[3]	$186m increase in net debt, after drawing down to fund acquisitions	FY25 $13m
1.3x	Leverage Ratio[4]	Robust balance sheet with capacity for continued investment	FY25 0.1x
3.4cps	Full Year Dividend	1.75cps final dividend resulting in 3.4cps full year dividend, fully franked, 30% payout of NPAT normalised	FY25 2.5cps

1. Cash conversion normalised: (operating cashflow less cash from individual significant items) / EBITDA normalised.
2. Normalised to exclude individually significant items - see slide 30.
3. Net debt: cash less external borrowings excluding lease liabilities.
4. Leverage ratio: Presented on a pre-IFRS16 basis. (Net debt excluding lease liabilities / Normalised EBITDA, after deducting operating lease costs as opex).

IMDEX's Integrated Physical-to-Digital Platform

Connecting the orebody from data generation through to decision intelligence

One Platform, Two Growth Engines

Drill Site Technologies (DST) & Digital Earth Knowledge (DEK)

Physical Technologies

Platform Connected Sensors

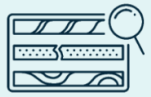

Integrated On-Site Services

Fluids & Equipment

Tools, sensors, fluids and integrated on-site services that generate critical data at the drill site

Digital Technologies

Core Logging Solutions

Geophysics Solutions

Geological Domaining and Model Ready Data

Connects, sensor geological and operational data into workflows that improve visibility, productivity and customer outcomes

Decision Intelligence

Digital Drill Rig

Connected Fleet

EarthNET

Connects equipment, workflows and operational data to improve visibility, productivity and customer outcomes

For personal use only

FY26 Strategic Highlights

DST and DEK unifying and compounding value for customers

The global reach of our customer service network ensures our customers are supported anywhere in the world, both on-site and online

Scaling growth, technology and value for customers

- Record share of wallet[1] - $2.40[2] per $100, up from $2.20
- Platform revenue 47% of group revenue, up from 43% (previously HUB-IQ connectable and software revenue)
- Integrated on-site services revenue +20%, with average number of global sites up 42%
- IMDEX mining technologies revenue +32%, with strong performance in sensors underground
- Record tools on hire, next generation tools 12% of fleet up from 6%
- Completed acquisitions of Earth Science Analytics (ESA), Datarock, ALT and Mount Sopris Instruments and Krux
- Krux trading revenue[3] +19%, Datarock trading revenue[3] +34%
- Acquisition of foundational technologies and geoscience capabilities to build integrated expert informed AI platform

Market share growth across our portfolio of data originating sensors is leading to growth in AI-enabled geoscience software and advisory offerings

Research & Development

- 8% of revenue across DST and DEK
- Investment focused on future growth, AI capability and technology leadership

Transformation

- Investment in functional transformation and internal systems has commenced

Integration

- Integration of 5 acquisitions on plan
- Leveraging IMDEX's global network to accelerate growth

1. Share of wallet = IMDEX exploration revenue / estimated FY26 global exploration spend (calculated 50% CY25 S&P Global data, 50% FY26 IMD internal market estimates). Unadjusted for inflation and unadjusted for the rise in non-drilling costs within total exploration budgets.
2. Share of wallet of $2.40 includes revenue from acquisitions. Organic share of wallet of $2.30, up from $2.20 in FY25.
3. Trading revenue assumes full financial year ownership of Datarock and Krux

For personal use only

FY26 Sustainability Highlights

Strengthening governance, enhancing productivity and preparing for climate disclosures

Strong Foundations

Strengthening ESG governance & controls

- Implemented new governance & training standards for channel partners
- HQ predominantly powered by solar energy
- New Human Rights Policy
- Local content increased to 79%

Product Leadership

Innovating for sustainable impact

- Sustained investment in R&D to preserve technology leadership
- ESG incorporated into innovation and project management processes
- ESG innovation events expanded to include global operations

Sustainable Customer Solutions

Measurable customer sustainability outcomes

- DeviDrill technology proven to deliver 166% improvement in drilling productivity[1]
- Customer water savings through Ultra Lightweight SRU saved ~40,000m^2[2]

Workforce of the Future

Safe, inclusive workforce for tomorrow

- LTIFR of zero; TRIFR down to 1.09 (FY25: 1.18)
- Increase in total female workforce participation
- 50% female Board representation
- Industry leading parental leave policy launched
- Employee engagement has increased year on year over past six years

AASB S2 Progress

Progressing compliance readiness

- Climate risk assessment and scenario analysis completed
- Material climate risks and opportunities identified
- Climate governance framework enhanced
- Progressed emission data capture, automation and reporting readiness

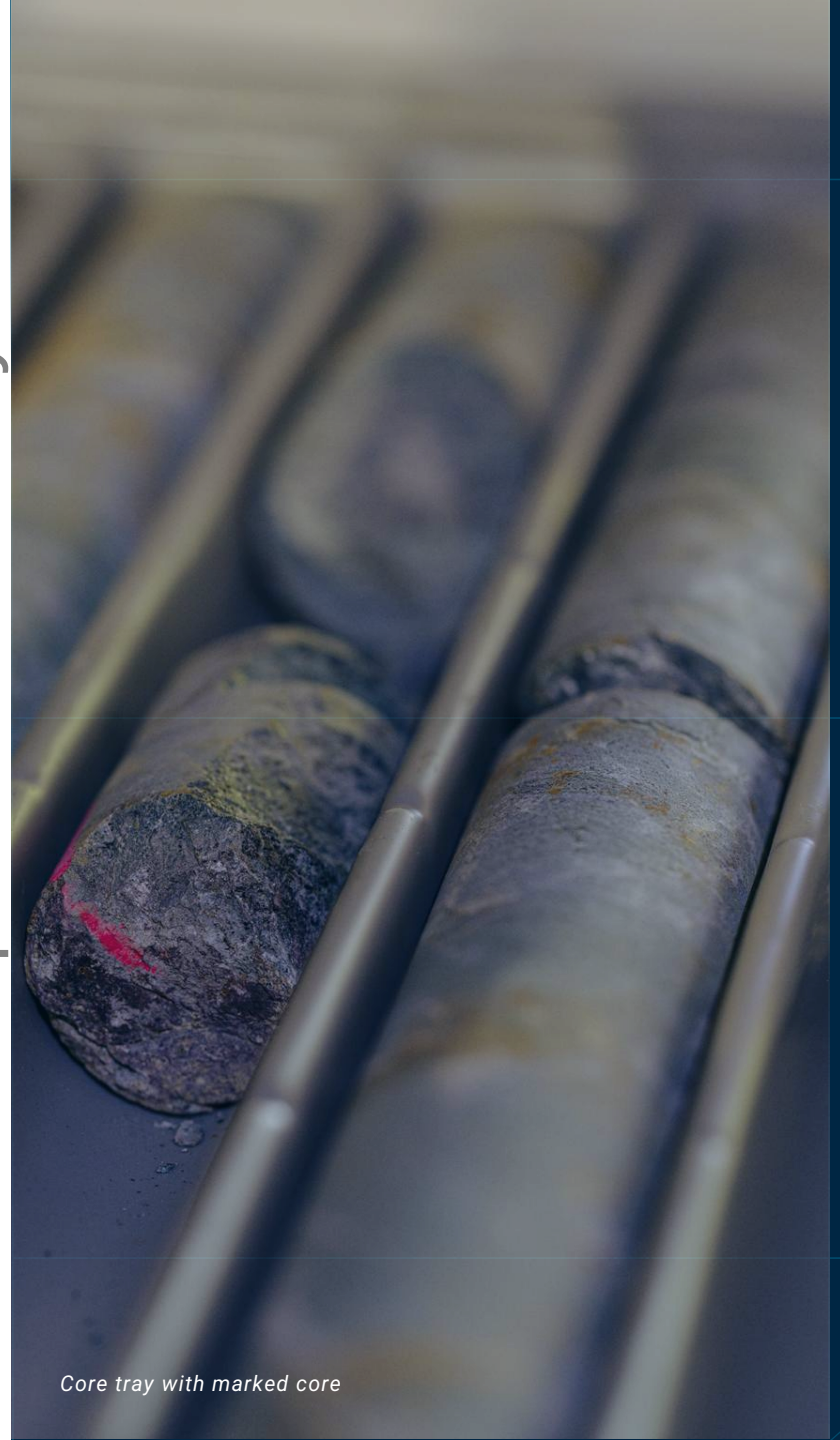

DeviDrill DCD, IMDEX Test Drill Site, Trondheim

1. Imdex Case Study - Doubling drilling productivity with DeviDrill
2. IMDEX Case Study - Ultra Lightweight SRU™: 40,000m³ of water saved annually

FY26 Financial Performance

Key Performance Metrics

Record financial performance creates capacity to invest, grow and deliver sustainable returns

Revenue	*EBITDA Reported*	*EBITDA Normalised*
$520m	$179m	$163m
▲ FY25 $431m	▲ FY25 $130m	▲ FY25 $126m
NPAT Reported	*NPAT Normalised*	*NPATA Normalised*
$79m	$59m	$70m
▲ FY25 $55m	▲ FY25 $43m	▲ FY25 $52m
EPS Reported	*EPS Normalised*	*EPSA Normalised*
15.5c	11.5c	13.8c
▲ FY25 10.8c	▲ FY25 8.4c	▲ FY25 10.2c

Performance demonstrates the scalability and continued improvement in earnings

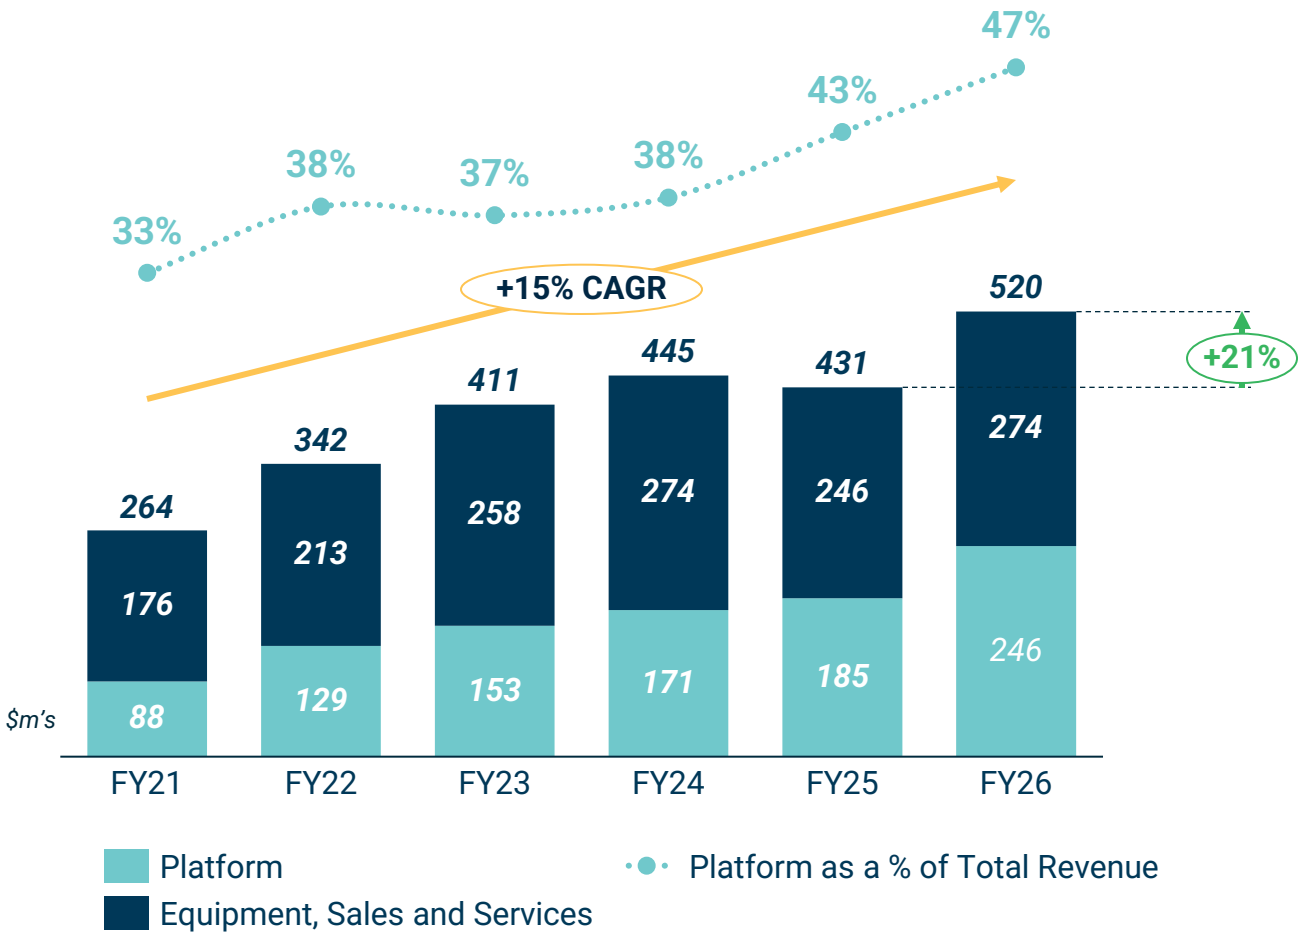

- Record revenue of $520m, up 21% on FY25
- EBITDA normalised of $163m, up 29% after funding growth and innovation
- NPAT normalised of $59m, up 37% demonstrating strong earnings conversion
- EPS normalised of 11.5c, up 37% delivering superior shareholder returns

1. Normalised to exclude individually significant items on slide 30.
2. NPATA Normalised is calculated as NPAT normalised adjusted for the after-tax amortisation of acquired intangible assets.
3. EPSA Normalised is calculated as NPATA normalised divided by the weighted average number of ordinary shares on issue.

For personal use only

Revenue Performance (1)

Revenue growth demonstrated strong market share gains

Unlocking growth from five years of fleet connectivity strategy

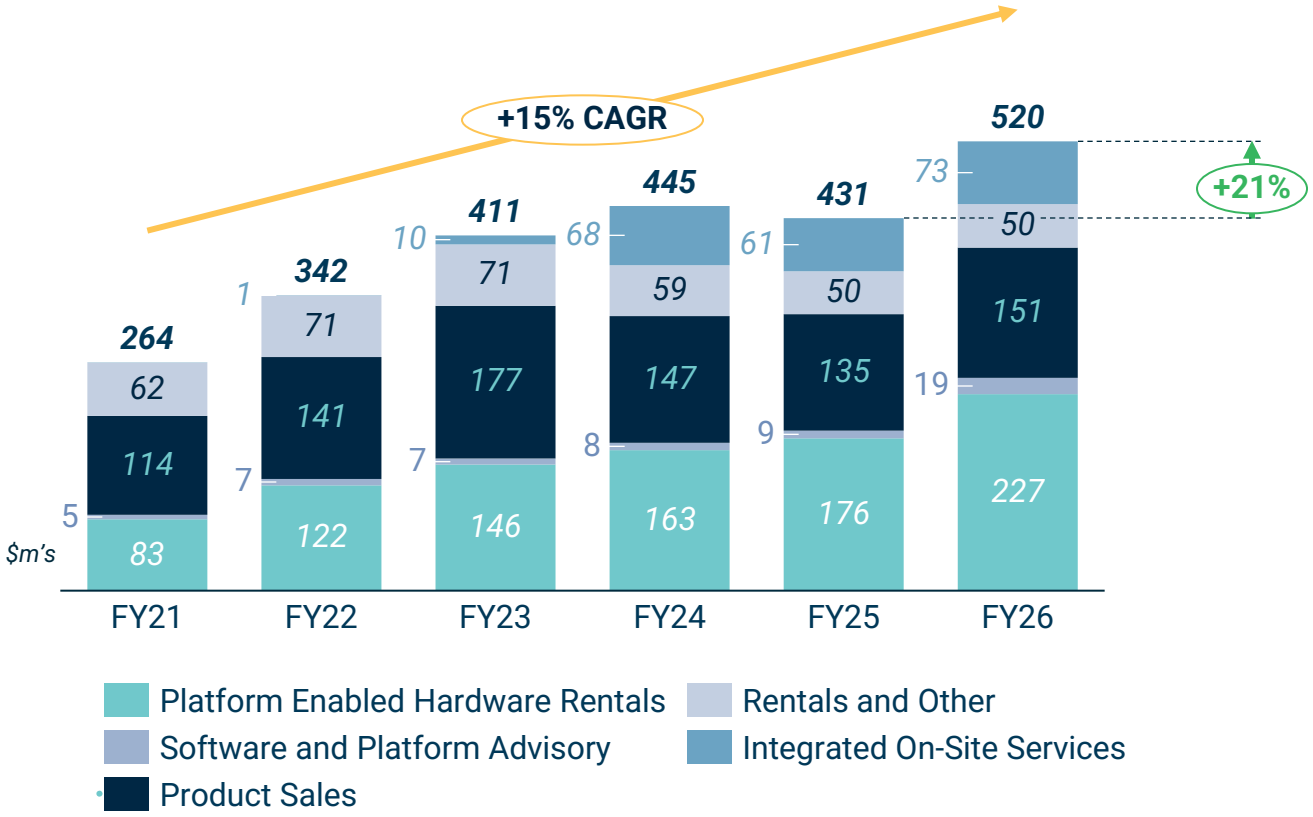

- Revenue growth of 15% 5-year CAGR relative to exploration budgets[1] growth of 6%
- Platform revenue[2] increased from 33% to 47% of group revenue over 5 years
- Equipment, sales and services[3] revenue, including fluids, up 11% and represents 53% of group revenue
- These categories reflect how customers increasingly engage with IMDEX's integrated physical-to-digital platform

1. Exploration budget CAGR calculation uses calendar year 2020 – 2025 exploration data from S&P Global and 2H26 IMD internal market estimates. Unadjusted for inflation and unadjusted for the rise in non-drilling costs within total exploration budgets.
2. Platform revenue comprises connectable sensors, software, platform advisory across DST and DEK
3. Equipment, sales and services revenue comprises fluids, instruments, and services with limited or no digital enablement.

For personal use only

Revenue Performance (2)

Multiple growth levers deliver 15% 5-year revenue CAGR

Expanded technology portfolio enhancing customer productivity and decision intelligence

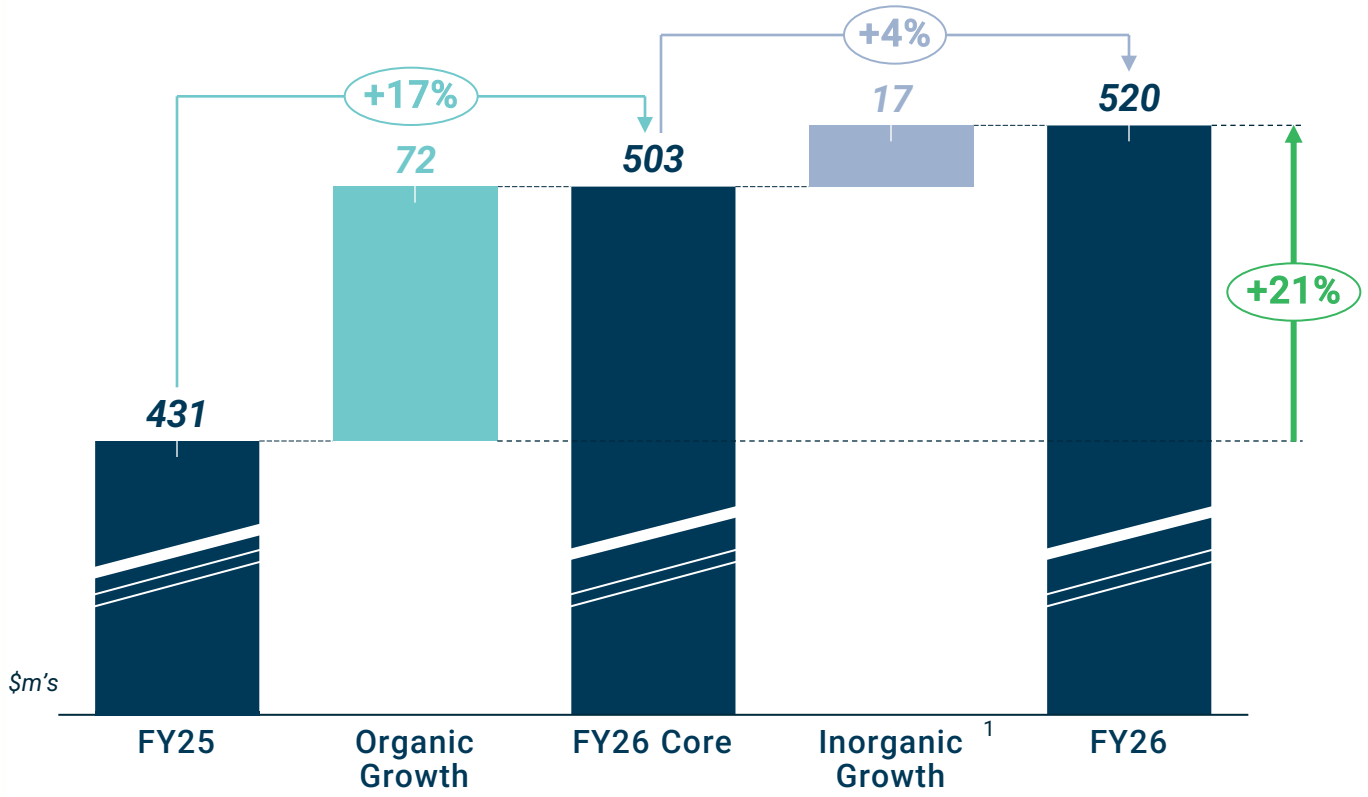

- **Platform enabled hardware** demonstrates five years of digitising the fleet translating into stronger growth from platform-enabled revenue streams
- **Software and platform advisory revenue** is poised for growth supported by capability delivered from recent acquisitions
- **Integrated on-site services**[1] 20% yoy growth demonstrates increasing adoption of full-solution offerings across the drill site
- **Product sales** especially fluids is most connected to exploration activity and the strongest reflection of our global network
- **Rentals and other** is expected to progressively transition to platform-enabled technologies as next generation sensors are adopted

1. Integrated On-Site Services - includes Directional Core Drilling and IMDEX Managed Services

For personal use only

Acquisition Revenue Contribution

Strong organic growth complimented by targeted acquisitions

Acquisitions contributed $17m revenue

~$51m

Full year equivalent[2] contribution from acquisitions

- Acquisitions expanded IMDEX's technology portfolio, digital capability and market reach
- Acquired technologies are being leveraged through IMDEX's global network
- 17% organic growth in core business, demonstrating strong underlying momentum

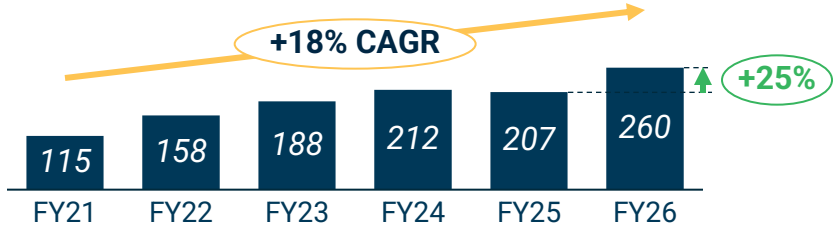

1. Acquisition revenues contribution from ALT & MSI $10m (4 months) , Datarock $4m (5 months), ESA $1m (10 months) and Krux $2m (3 months)
2. Full year equivalent assumes full financial year ownership of all acquisitions (ALT & MSI, Datarock, ESA and Krux)

For personal use only

Revenue by Segment

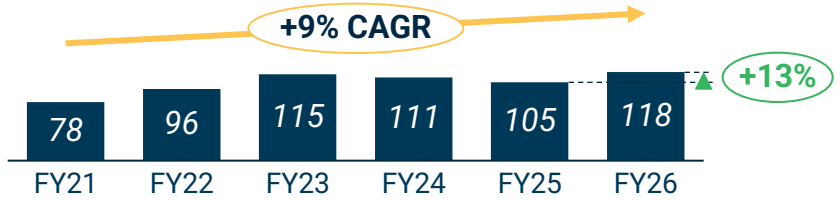

All segments outperforming market activity

DST - Americas

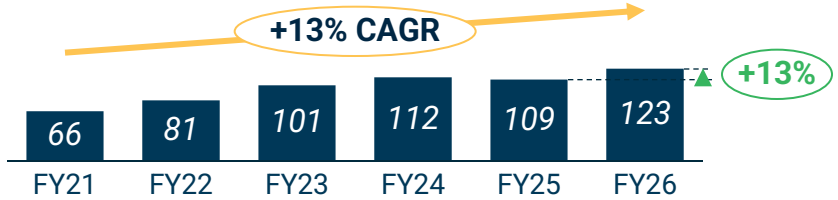

- Activity is at all time highs underpinned by copper demand and strong gold prices
- Market share gains from adoption of advanced technologies led by ACTx
- Favourable weather conditions supported longer drilling seasons
- FY26 revenue is 50% of group revenue, 20% USMX, 16% Canada and 14% South America

DST - APAC

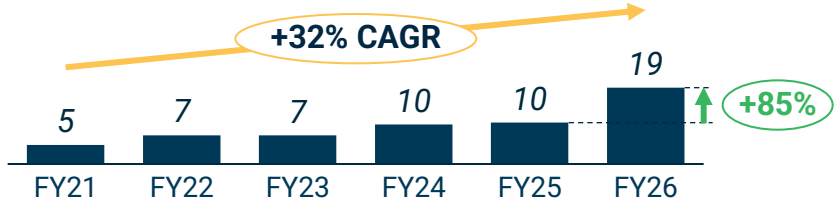

- Strong market share gains through new product introduction
- APAC exploration activity led by majors
- Elevated gold prices drove increased drilling activity in WA supporting strong sensor revenue growth
- FY26 revenue is 23% of group revenue, 19% Australia and 4% Asia

DST - EMEA

- Strong result against a backdrop of geopolitical challenges
- Infrastructure market reported strong growth across Europe, especially Germany
- Increase in sensor rental revenue across both Europe and MEA, with a growing demand for next gen tools becoming evident
- FY26 revenue is 23% of group revenue, 10% Europe and 13% MEA

DEK - Global

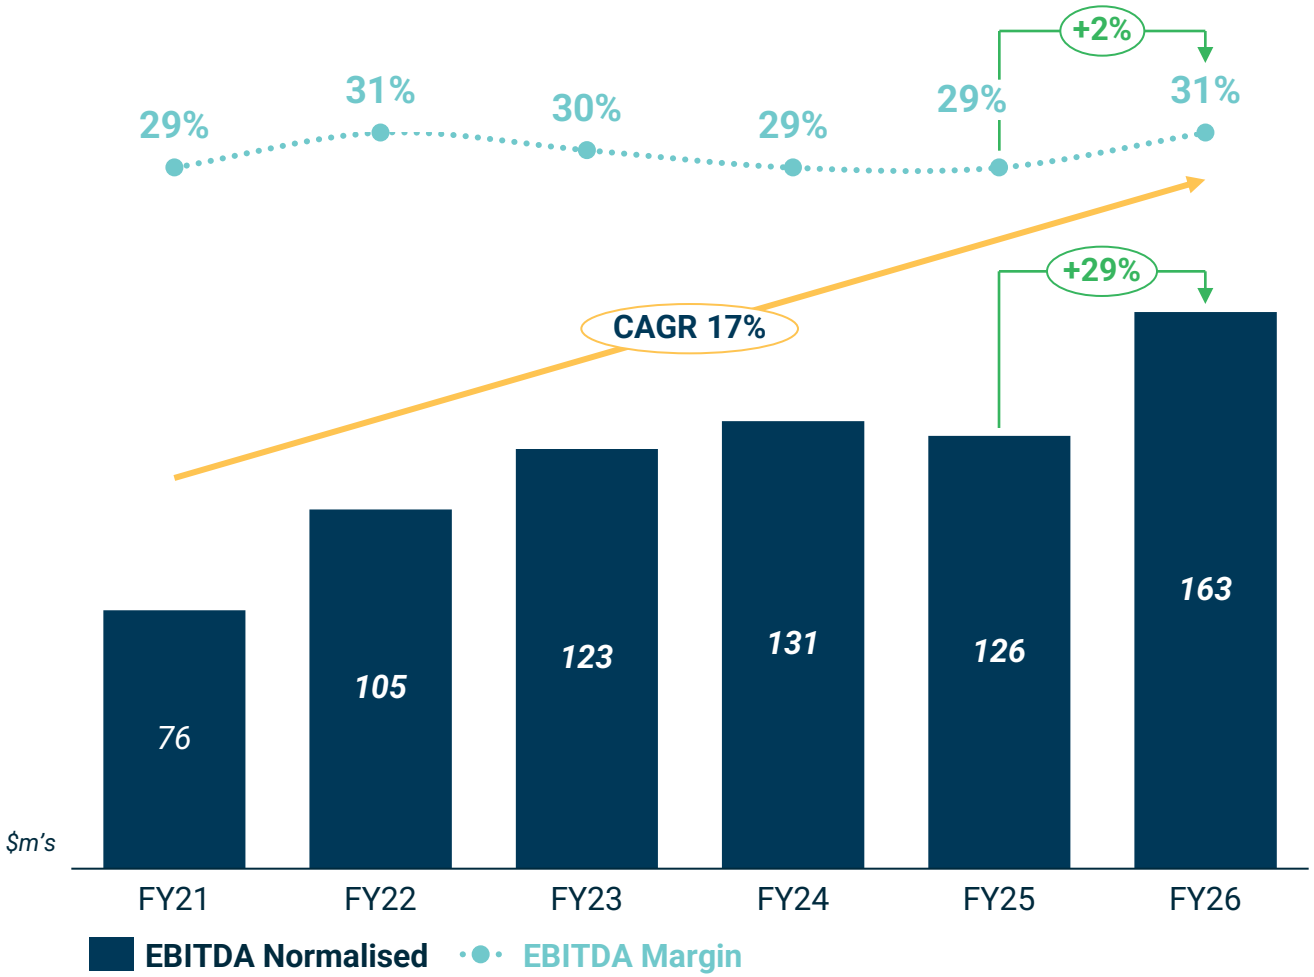

- 85% uplift in revenue including contributions from newly acquired businesses
- H2 focus has been on the formation of DEK business unit
- Commercial momentum accelerating with low customer churn rate
- IMDEX global network improving reach for newly acquired businesses

1. Acquisition revenues are allocated based on location DST Americas (ALT & MSI $6m and Krux $2m), DST EMEA (ALT & MSI $2m) and DEK (ALT & MSI $2m, Datarock $4m, ESA $1m)

For personal use only

EBITDA Normalised

Margin expansion highlights the leverage in the IMDEX business model

- **EBITDA normalised increased 29% exceeding revenue growth of 21%**
- EBITDA normalised margin expanded to 31%, reflecting operating leverage
- Growth in platform enabled revenue is increasing the quality of earnings
- Investment in R&D, transformation and integration has been maintained alongside profitability and strategic growth

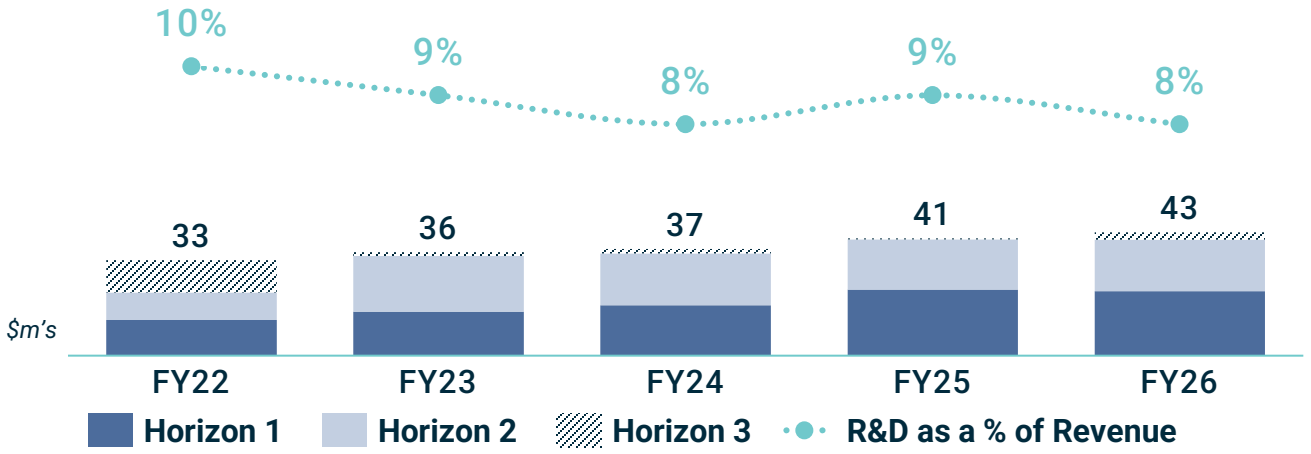

1. Normalised to exclude individually significant items on slide 30.

IMDEX FY26 Results Presentation

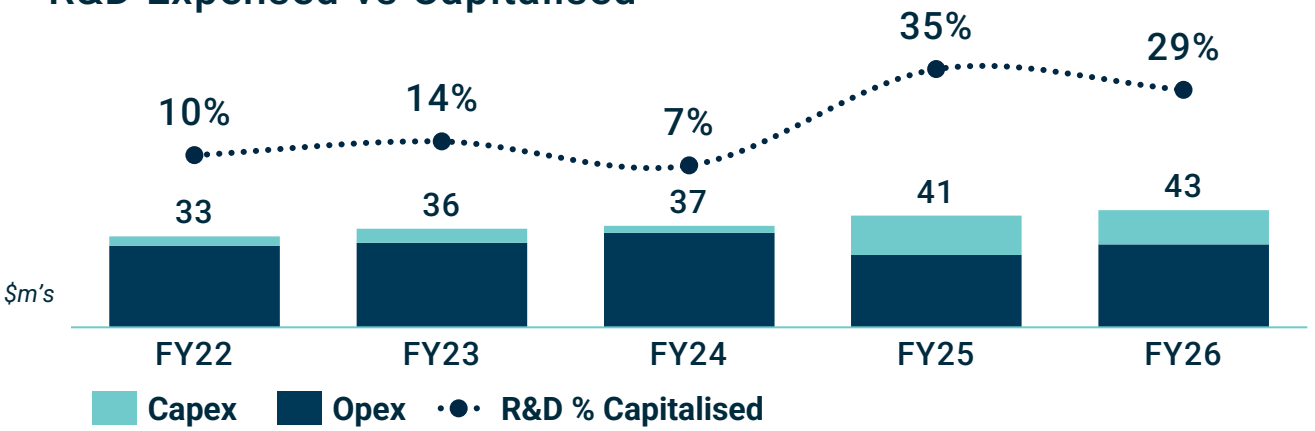

Research and Development (R&D)

Investing through the cycle to strengthen technology leadership and future growth

R&D Investment across Horizons[1]

R&D Expensed vs Capitalised

FY26 Investment in R&D maintained within 8-10% of revenue

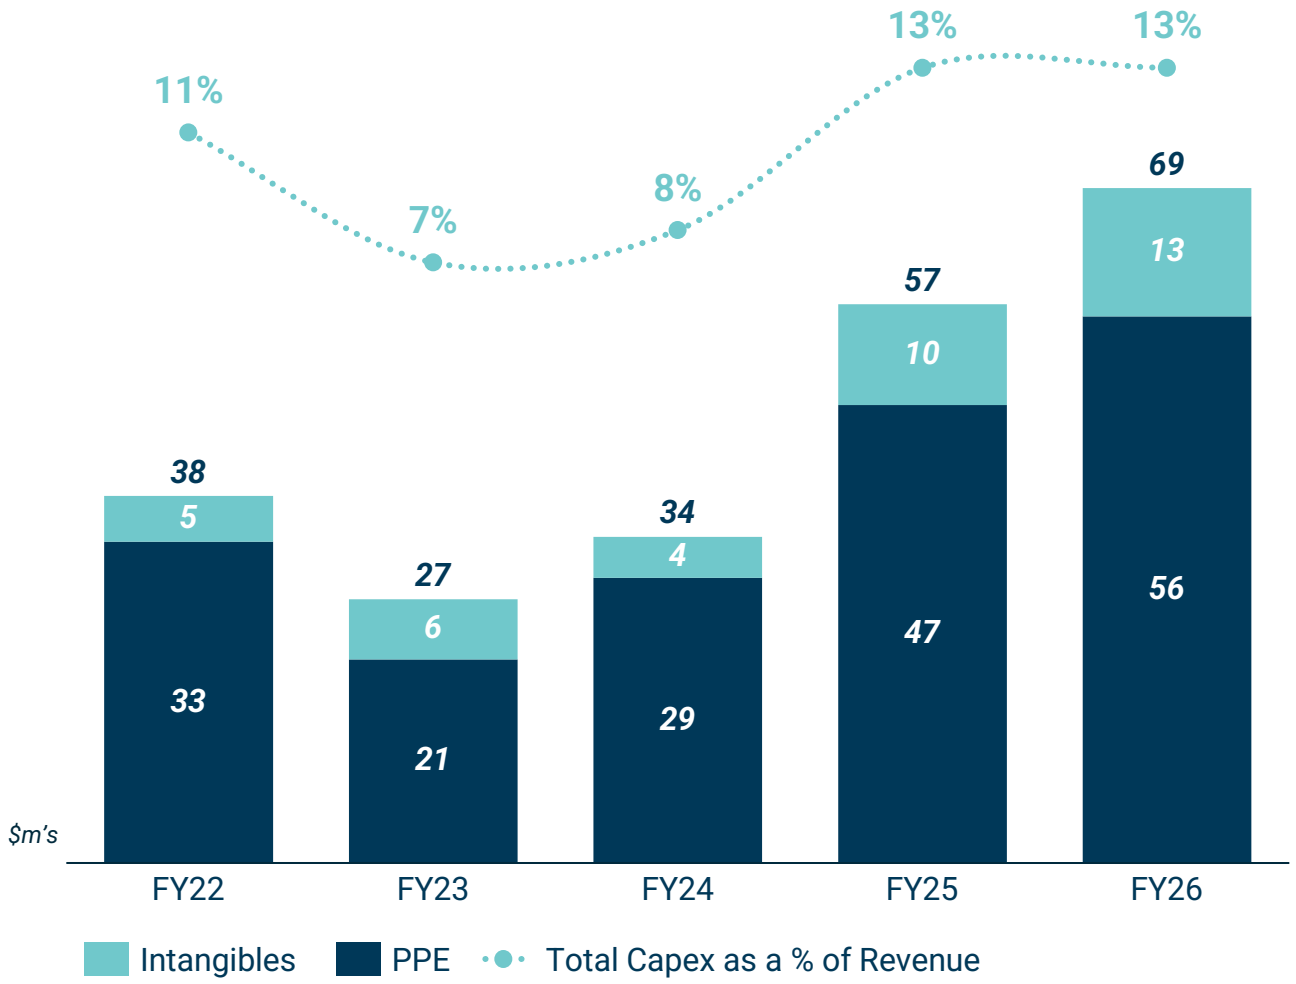

- R&D investment maintained IMDEX's commitment to investing through the cycle
- Investment is increasingly focused on AI, digital platforms and next-generation technologies
- The innovation pipeline supports future revenue growth, market share gains and expanding platform revenue opportunities
- Committed investment supports a larger, more diversified earnings base

1. Horizons defined as follows
   - Horizon 1 – Next gen core technologies impacting revenue in current year
   - Horizon 2 – New core technologies impacting revenues 2-3 years
   - Horizon 3 – Transformative technologies impacting revenues 3-5 years

IMDEX FY26 Results Presentation
For personal use only

Capital Expenditure

Meeting customer demand for next-generation technologies

Capital expenditure on target

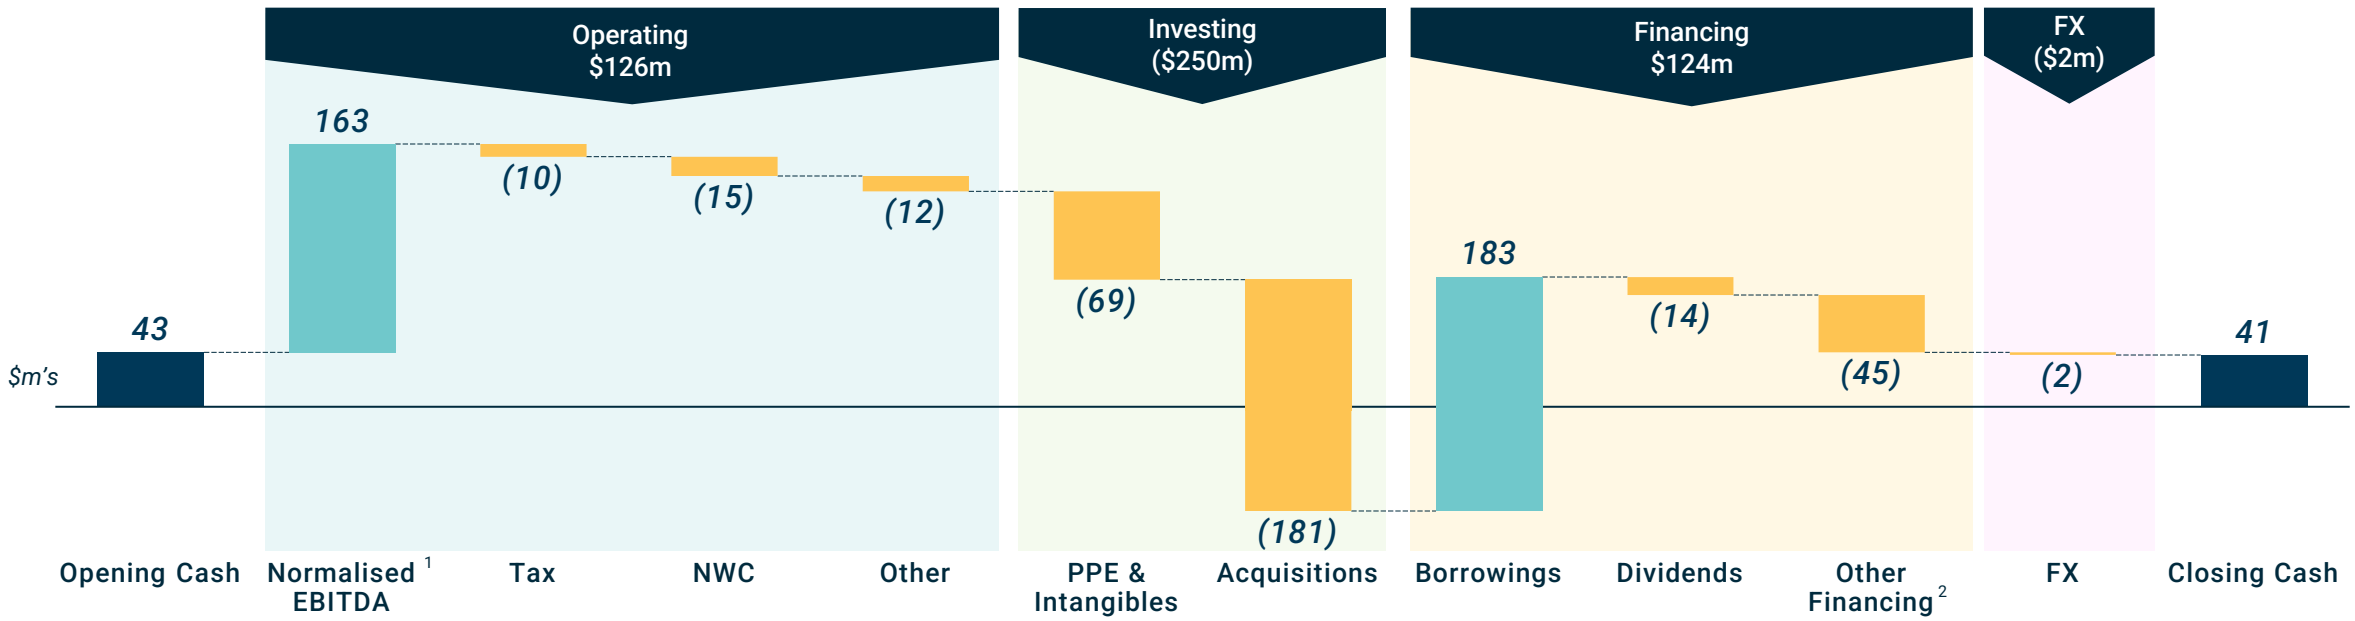

- Capital expenditure increased to $69m, supporting long-term growth forecast
- Current investment is building a larger, more diversified earnings platform
- Capital expenditure is driven by customer demand

1. Capital expenditure excludes impacts of acquisitions

For personal use only

Cash Flow

Strong operating cash flow continues to support growth

Strong operating cash flow

- 83% EBITDA normalised to operating cash flow conversion
- Investment in working capital to support next generation technologies and meet customer demand

Capital allocation discipline

- Acquisitions funded through debt facility
- Dividends at 30% of NPAT normalised
- Managing debt and leverage, using balance sheet for growth

1. Excludes individually significant items.
2. Includes interest and other costs of finance paid, cash paid due to settlement of performance rights and payment of lease liabilities.

For personal use only

Balance Sheet

Funding strategic growth whilst maintaining balance sheet discipline

$m (unless indicated otherwise)	30 JUN 2026	30 JUN 2025
Cash	41	43
Receivables	132	100
Inventory	67	59
Fixed assets	147	116
Intangibles	648	412
Investment in associates	-	8
Other Assets	97	92
Total Assets	**1,132**	**830**
Payables	89	55
Borrowings	240	56
Other liabilities / deferred tax	119	90
Total Liabilities	**448**	**201**
Total Equity	**684**	**629**
ROE Normalised[2] (%)	8.9%	7.2%
ROCE Normalised[3] (%)	9.8%	9.9%

Balance sheet deployed to expand IMDEX's technology capability through targeted acquisitions

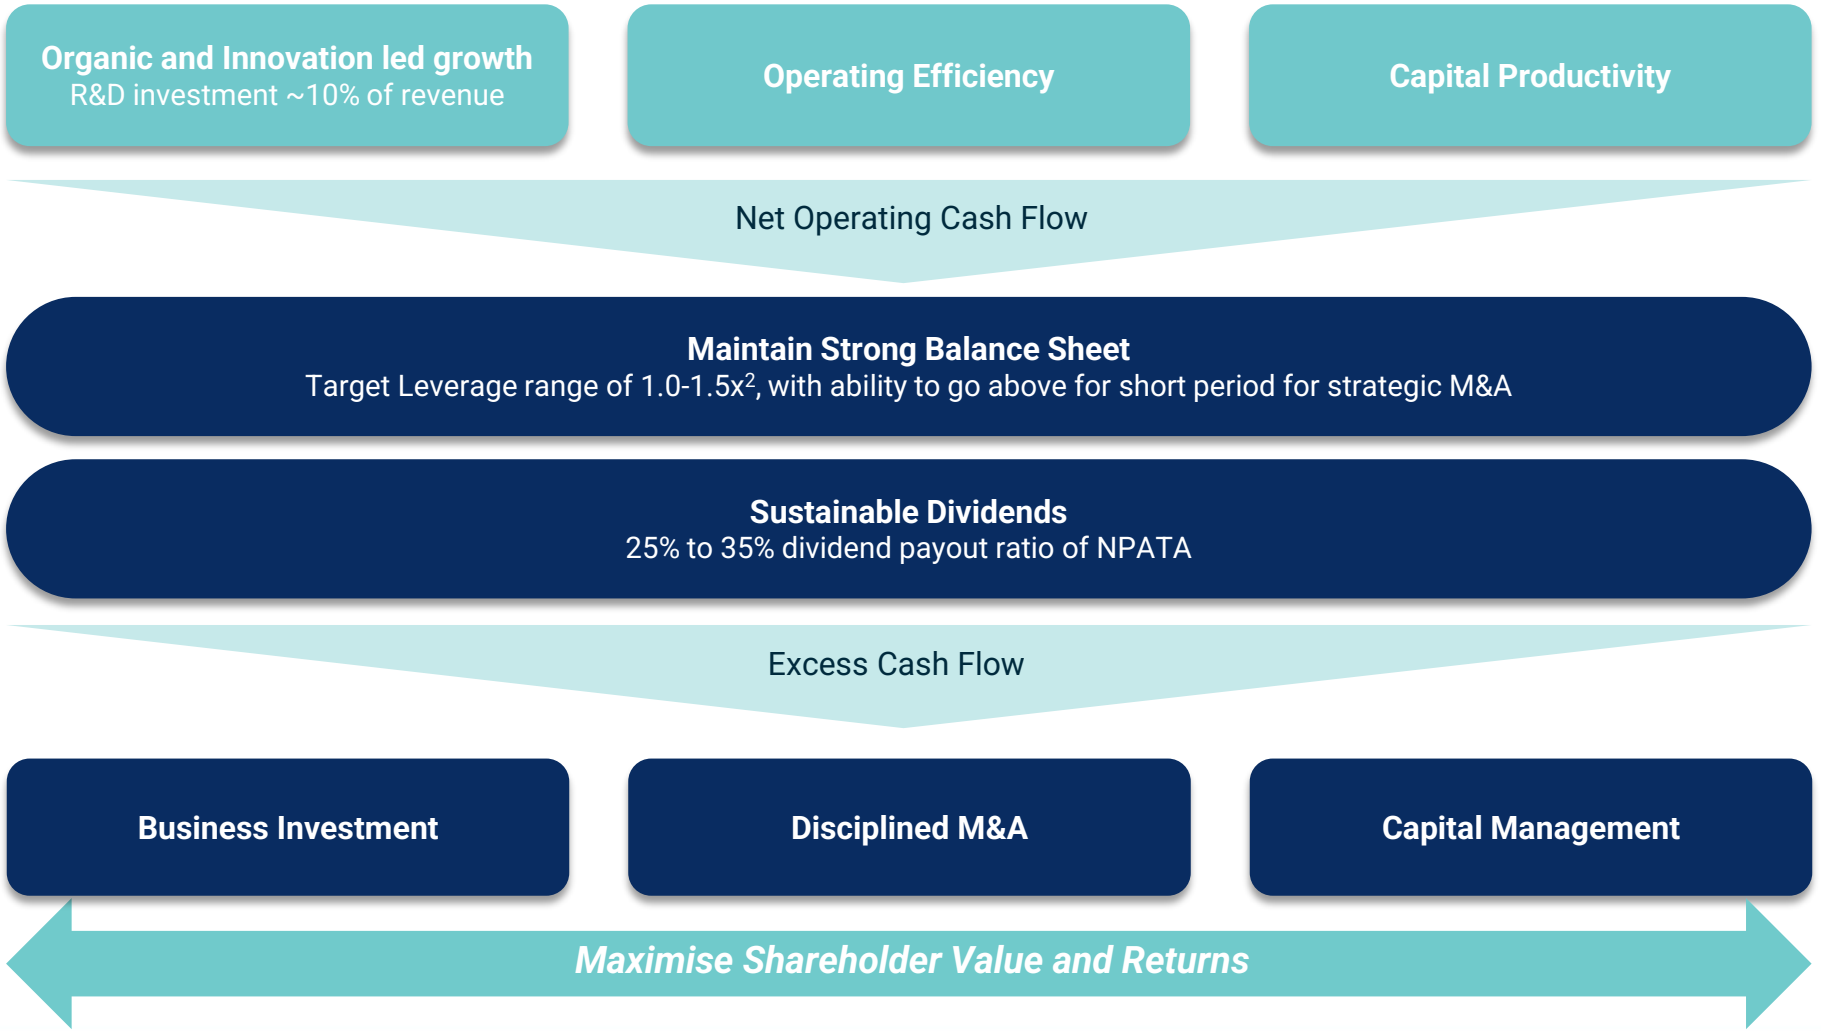

- A strong equity base of $684m provides capacity to continue to invest through the cycle
- Net debt increased following acquisition activity with leverage remaining disciplined at 1.3x[1]
- Improving ROE and stable ROCE reflects stronger earnings generation and disciplined capital allocation

1. Leverage ratio: Presented on a pre-IFRS16 basis. (Net debt excluding lease liabilities / Normalised EBITDA, after deducting operating lease costs as opex).
2. ROE Normalised: NPAT Normalised / Average Equity.
3. ROCE Normalised: EBIT Normalised / (Total Assets – Current Liabilities).

For personal use only

Capital Management

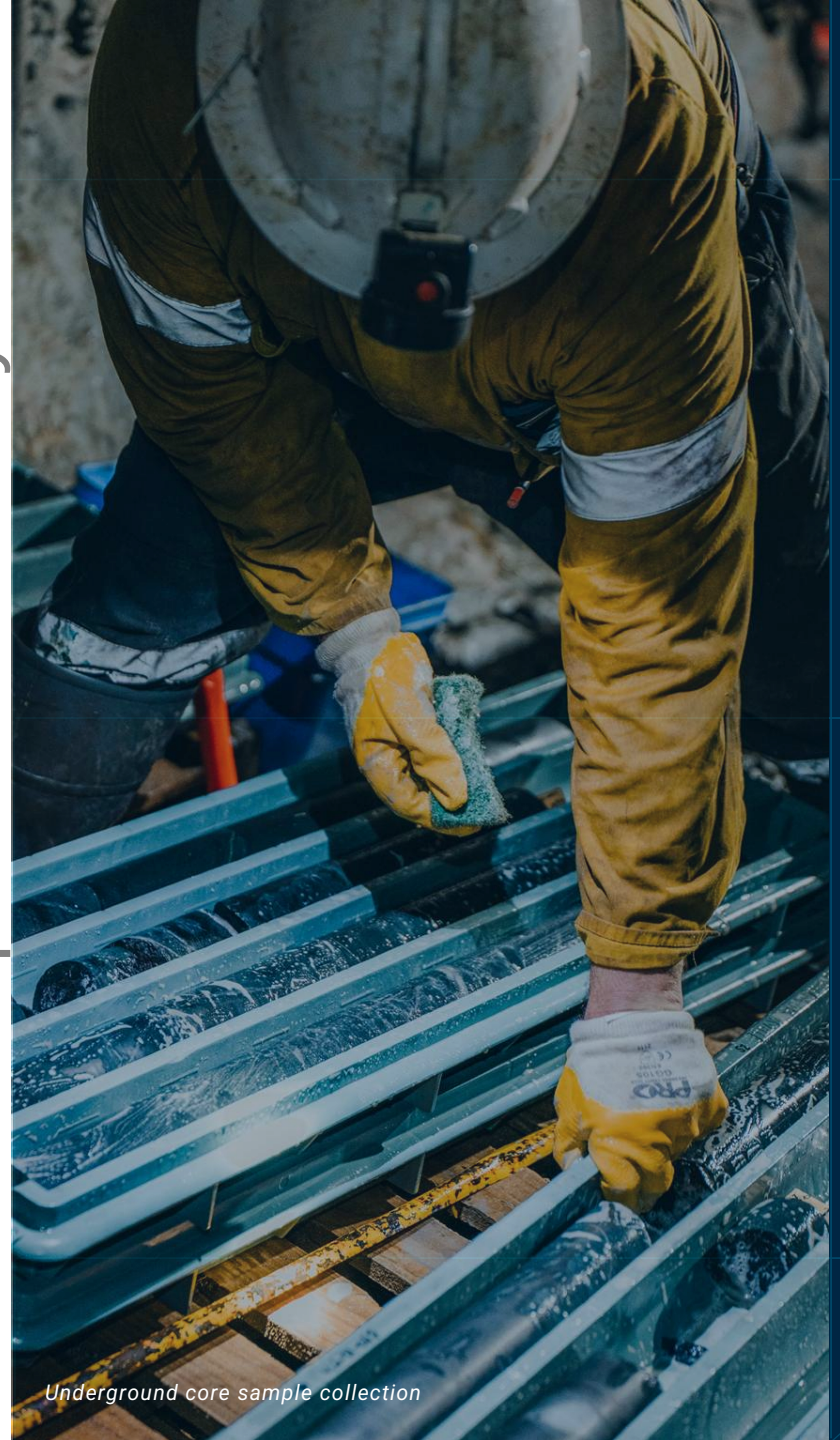

Refreshed capital management[1] optimising growth and shareholder returns

1. Effective 1 July 2026.
2. Leverage is calculated on a pre-IFRS 16 basis

Underground core sample collection

FY27 Outlook & Corporate Strategy

FY27 Industry Macro Update

Structural industry drivers continue to strengthen IMDEX's opportunity set

Commodity Prices
STRONG

Gold and copper prices remain at attractive levels, supporting investment across exploration, development and production activity

IMDEX *Stronger commodity prices support increased capital allocations by customers and drilling activity*

Supply & Demand
STRUCTURAL DEFICIT

Declining reserves, lower discovery rates and increasingly complex orebodies continue to drive the need for new mineral supply

IMDEX Deeper and *more complex orebodies will require more accurate sensors, connected software and solutions that improve productivity*

Exploration Budgets
INVESTMENT GROWING

Global exploration budgets in 2026 are expected to increase by double digits versus 2025[1], supporting future drilling activity

IMDEX *Sustained investment supports drilling activity and opportunities to expand share of wallet*

Capital Raisings
FUNDING IMPROVING

Junior and intermediate financing increased 145% YoY to approximately US$27bn over the last 12 months[2], supporting project advancement and drilling activity

IMDEX *Well-funded customers are positioned to convert capital into new drilling programs*

Government Policy
CRITICAL MINERALS FOCUS

Governments globally continue to prioritise critical mineral supply chains, resource security and domestic mining investment

IMDEX *Policy support provides a long-term tailwind for drilling, resource definition and mine development activity*

Productivity
INCREASING FOCUS

Increasing drill site complexity, labour shortages and inflation is driving demand for technologies that improve productivity and decision-making

IMDEX *Our solutions can improve productivity across the mining lifecycle, from resource definition to production*

Global Exploration Activity

Collectively, these tailwinds continue to drive exploration activity, customer investment and technology adoption, providing a favourable backdrop for IMDEX's growth strategy

1. Source: S&P Global - Annual Exploration Budgets Trends
2. Source: S&P Global – Exploration Financings. June 2026

For personal use only

FY27 Outlook

External tailwinds favourable; Internal growth levers significantly expanded

IMDEX GROWTH LEVERS

Trusted Advisory
Integrated physical and digital solutions continue to deepen IMDEX's role in customer workflows and decision-making

Technology Portfolio Breadth
Extend new technologies into IMDEX global sales network

Scalable Platform Growth
DST and DEK provide multiple pathways to expand recurring, higher-value and technology-enabled revenue streams

MARKET TAILWINDS REMAIN FAVOURABLE

Productivity led demand
Customers are increasingly investing in technologies that improve productivity in response to rising costs

Exploration Budgets
Global Exploration budgets are expected to rise, supporting increased drilling activity

Capital Raisings
Junior and intermediate financing increased 145% year-on-year, providing a strong pipeline of funding for future exploration activity

DEMAND SIGNALS REMAIN BROAD-BASED ACROSS REGIONS

AMERICAS

Integrated field solutions continue to gain traction, supported by increasing activity and improving junior funding conditions in Canada.

APAC

Strong gold and copper activity, combined with tight drilling capacity, continues to drive demand for productivity-enhancing technologies.

EMEA

Major miner activity and critical minerals investment continue to support demand for higher-value technology solutions

For personal use only

FY27 Strategic Priorities

Disciplined Execution

Invest in IMDEX's Integrated Physical-to-Digital Platform

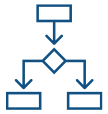

Capture Market Growth

Meet the market where it is

Deepen Customer Relationships

Strengthen trusted adviser status

Accelerate Acquisition Value

Realise commercial synergies

Scale DEK across IMDEX

Accelerate software and advisory growth.

Expand geotechnical capability

Leverage ALT and Datarock

Broaden earth science exposure

Expand beyond exploration

Research & Development

- Invest in next generation product roadmaps including newly acquired technologies
- Increase investment in Horizon 3 research for visibility into emerging technologies

Transformation

- Enterprise transformation initiatives to deliver scale, leveraging emerging AI solutions

Integration

- Embed ways-of-working to establish a unified culture
- Deliver revenue and operating synergies

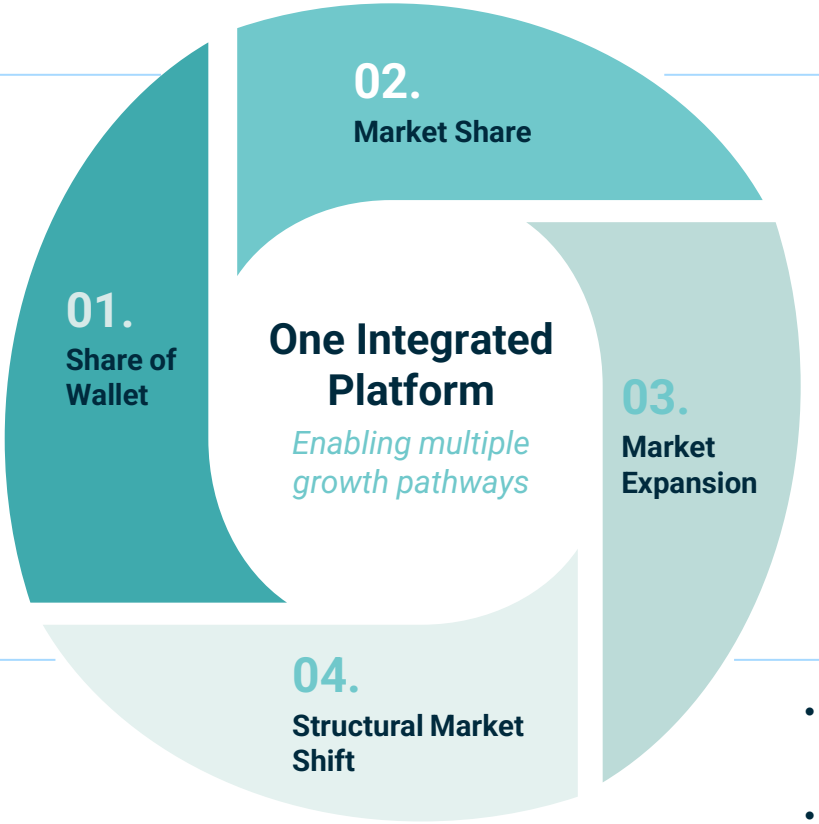

For personal use only

IMDEX Long-Term Growth Strategy

Multiple growth levers support continued expansion across exploration, production and adjacent markets

Share of Wallet

- Expand customer value through a broader technology portfolio
- Integrated on-site solutions increasing customer penetration
- Scale higher-value recurring revenue streams across the customer base

Market Share

- Maintain technical leadership by investing in next generation technology
- Expand directional drilling offering globally
- Accelerate growth of acquired technologies through our global sales and service network

Structural Market Shift

- Twin forces of productivity and global supply chains are increasing demand for technology
- Underlying exploration demand expected to grow[1]
- Declining reserves and strong commodity prices are driving exploration budgets, capital raising[2] and global exploration activity in turn

Market Expansion

- Increase minerals presence from exploration downstream into mining production
- Diversify into new earth science end markets, including civil, infrastructure, water and energy
- Scale our customer reach through channel partners and technology collaborations

2. Source: S&P Global – Exploration Financings. June 2026

For personal use only

IMDEX is building a high-quality, more diversified earnings platform

Integrated Physical-Digital Platform	• Market leading portfolio spanning sensors, software, analytics and AI-enabled solutions • Integrated physical to digital platform embeds IMDEX deeper into customer operations and decision making • Increasing customer value delivered by integrated offerings and share of wallet
High Quality Earnings	• Platform revenue increased from 33% to 47% of Group revenue over the past 5 years supporting earnings quality • Growing exposure to technology-enabled, recurring and higher-margin revenue streams • Strong cash generation and operating leverage support sustainable earnings growth
Disciplined Capital Allocation	• Consistent investment in R&D, digital capability and AI to sustain technology leadership • Strong balance sheet provides flexibility to fund growth and value accretive opportunities • Disciplined capital allocation supports long-term value creation while delivering superior shareholder returns
Multiple Growth Engines	• DST continues to grow through market share gains, technology adoption and market expansion • DEK is scaling as a differentiated high growth platform with increasing recurring revenue opportunities • Leveraging structural industry drivers, including declining ore grades, workforce shortages and increasing demand for productivity enhancing technologies
