

Annual Review 2026

Life. Well lived.

For personal use only

In 2026, Challenger is unlocking the next stage of retirement.

This year's result reflects the successful execution of our strategy and the growing momentum across our business. We have delivered strong financial and strategic outcomes and strengthened our leadership in retirement income through major partnerships and new innovative income solutions to retail and institutional customers.

We enter 2027 with strong momentum and focus on our growth trajectory, with the strategic investments and partnerships we have established during recent year's positioning Challenger to capitalise on the growing retirement opportunity and deliver sustainable long-term value for shareholders.

Challenger acknowledges the Traditional Owners of Country throughout Australia and pays respect to Elders past and present. We recognise the continuing connection of Aboriginal and Torres Strait Islander peoples to Country, culture and community, and acknowledge their enduring contribution to Australia's social, cultural and economic fabric.

Challenger Limited ACN 106 842 371

Message from the Chair

Australia's retirement system is entering an important new phase.

Years of policy and regulatory reforms are beginning to reshape the retirement landscape, making it easier for more Australians to access retirement advice, a broader range of retirement income solutions and build greater financial confidence throughout retirement.

For Challenger, it has been a year of disciplined execution. The business made further progress against its strategy, strengthened its market position and continued to invest in the capabilities that will support future growth.

The Board believes Challenger is well placed to benefit from the significant long-term opportunity created by Australia's and Asia's ageing populations and growing demand for retirement income solutions.

At the same time, the business has continued to expand its support for institutional investors looking for income solutions, providing access to high-quality investment opportunities across public and private markets.

Focus on shareholder outcomes

The Board remains focused on delivering sustainable long-term value for shareholders.

This year, the business delivered a pleasing result. Normalised net profit after tax increased 3% to \$468 million, and normalised return on equity (ROE) was 11.6%, which is above target. Statutory earnings increased by 163% supported by positive asset and liability experience.

Strength in Challenger's capital position was maintained with over \$1.1 billion in excess capital, providing the business with appropriate capital flexibility and support for future growth.

Reflecting the strong capital position and confidence in the future of the business, the Board has determined a full-year ordinary dividend of 31.5 cents per share, fully franked, up 7% on last year, representing a dividend payout ratio of 46.3%.

In light of the APRA capital changes, Challenger is undertaking additional capital management initiatives that are delivering returns for shareholders. The Board has determined a special dividend of 1.5 cents per share, fully franked. Challenger's on-market share buy-back of up to \$150 million, announced in February 2026, continues with the purchase of approximately \$90 million in ordinary shares completed to date, and an additional \$300 million on-market share buy-back, subject to regulatory approval, was announced on 18 August 2026.

Opportunity for long-term growth

During the year, Challenger delivered a number of strategic initiatives that position the business for long-term, sustainable growth.

The proposed merger of Challenger's multi-affiliate funds business, Fidante, with Channel Capital increases our exposure to the future growth of a leading active investment management platform, and enables Challenger to focus on its core purpose as a retirement income business.

In addition to significant retirement partnerships established during the year, the business launched innovative product solutions including a first of its kind ASX-listed notes backed by public and private credit (LiFTS), a Challenger Annuity-Backed Notes program, and the expansion of its offshore reinsurance platform. Further detail is included in the CEO's message.

Corporate governance

Strong governance remains fundamental to Challenger's long-term success.

The Board is committed to maintaining the right mix of skills, experience and diversity to oversee the business and support management in delivering its strategy. I am confident in the diverse range of skills and insights represented across the Board and the commitment of directors to Challenger's success.

The Board continues to ensure Challenger's remuneration framework remains aligned with shareholder outcomes, supports prudent risk management and rewards the delivery of long-term sustainable performance.

Challenger also continues to benefit from its strategic relationship with Mitsui Sumitomo Primary Life, reflecting the value of long-term partnerships in supporting the growth of the retirement income business.

Sustainability

Long-term business success depends on operating in a way that is sustainable for customers, communities and shareholders.

Challenger's 2026 Sustainability Report outlines our approach to assessing and managing climate-related risks and opportunities, in accordance with AASB S2.

The 2026 Sustainability Supplement provides additional insight into how sustainability priorities are integrated across our business and investment activities. This includes strengthening responsible investment practices, maintaining net zero Scope 1 and Scope 2 emissions and continued investment in initiatives that promote financial wellbeing, inclusion and a resilient retirement income system.

Looking ahead

The Board remains confident in Challenger's outlook.

Australia's retirement system continues to present a significant long-term opportunity, and Challenger enters the next period as a strong, well-capitalised business with a clear strategy.

The Board's focus remains on working with the management team as it executes that strategy, maintains financial discipline and continues to create sustainable value for customers and shareholders.

I would like to thank Nick and the Leadership Team for their commitment to realising the strategic opportunities we have. There is still a lot to do and your Board will continue to do everything we can to make sure Challenger's potential is realised. I would like to thank my fellow Directors for their commitment throughout the year and acknowledge the dedication of Challenger's employees in delivering for customers every day.

Finally, I would like to thank you, our shareholders along with our customers and business partners for your continued trust and support.

Duncan West

Independent Non-Executive Director and Chair

Message from the CEO

For personal use only

Success is rarely defined by a single decision or a single year. More often, it is the result of years of investment, deliberate choices and capabilities built well before the opportunity fully emerges.

Over recent years, we have deliberately prepared Challenger for the next stage of unlocking Australia's retirement system.

We simplified the business, strengthened our balance sheet, invested in technology, expanded our investment capabilities and built new partnerships that extend our reach. Much of that work happened behind the scenes, guided by a clear view of where we believed Australia's retirement system was heading.

During 2026, those efforts began to come together.

APRA announced a new capital framework for longevity products. We secured retirement and advice technology partnerships that significantly expand our potential customer reach. We established new institutional funding and international reinsurance channels, continued to strengthen our asset origination capabilities and announced the proposed merger of Fidante with Channel Capital, creating a more focused Challenger centred on retirement while positioning Fidante for its next phase of growth.

Individually, each of these developments is important. Together, they have fundamentally strengthened Challenger's position, and at a time when Australia's retirement system is reaching a demographic inflection point.

A record number of Australians are entering retirement, life expectancies are higher and governments, regulators, superannuation funds and advisers are increasingly focused on helping people convert their retirement savings into sustainable income.

Embedding Challenger in the retirement ecosystem

For 40 years, Challenger has provided specialist expertise in lifetime income. What has changed is the scale of the opportunity. Helping more Australians achieve financial security in retirement depends on making our capabilities available wherever people seek retirement advice and guidance.

During the year, we entered strategic retirement partnerships with Insignia, BT and Colonial First State. These partnerships reflect our focus on product and technology innovation that is integrating our specialist retirement capabilities into some of Australia's largest financial institutions.

We've made lifetime income easier to incorporate into retirement advice. Through our integration with Iress Xplan and Informed Financial Future, advisers can for the first time, model guaranteed lifetime income within the tools they already use, helping advisers deliver retirement advice at scale. Together, our partnerships and integrations are embedding Challenger's capabilities across the broader retirement ecosystem.

In FY26, we made significant progress re-platforming Life's core customer technology. The first phase of the program was completed, with the new core registry, ALIP, moving into production and the first of Challenger's products migrated. While the development of customer portals has been delayed by technical complexities, we have adapted the program to deliver for our strategic retirement partnerships which were announced in FY26. Work to complete the customer and advisor portal replacement is ongoing and an area of key focus.

Investing for long-term growth

One of the most significant developments during the year was APRA's new capital standards for providers of longevity products. The new standards introduced 1 July 2026 reduce capital volatility and provide a stronger foundation for innovation and growth across Australia's retirement income market.

As part of our growth strategy, we established the Challenger Annuity-Backed Notes (CABN) program, creating a new institutional funding channel. The inaugural \$750 million issuance in July 2026 attracted an oversubscribed order book of more than \$1.75 billion, demonstrating strong investor demand and providing another platform to support future annuity growth.

In August 2025, we launched the first in a series of listed unsecured investment notes, growing our listed retail presence with institutional grade income solutions.

At the same time, we expanded our offshore reinsurance platform through the establishment of Calix Re. With regulatory approval in Bermuda, an AM Best assigned Financial Strength Rating of "A-" (Excellent), and our longstanding relationship with Mitsui Sumitomo Primary Life, we are well positioned to participate in selected international retirement markets over time.

Our investment excellence remains central to Challenger's competitive advantage. We welcomed Group Chief Investment Officer Damian Graham, who has combined our investment capabilities into one team, driving continued focus on asset origination across public and private markets strategies.

Looking ahead

Our focus remains on disciplined execution. We will continue to strengthen our retirement partnerships, broaden our retirement and income solutions, invest in the capabilities that support our long-term growth and maintain the financial strength that underpins our business.

The structural opportunity in retirement continues to grow, and Challenger is well positioned to capture it. The investments we have made will strengthen our business and leave us well placed to deliver sustainable long-term growth for our customers and shareholders.

Thank you to our team for their commitment throughout the year. I also thank our customers for the trust they place in us, our partners for their ongoing support and our shareholders for their continued confidence in Challenger.

Nick Hamilton

Life business

For personal use only

Our Life business is Australia’s largest provider of annuities¹ and a trusted leader in retirement income solutions.

Life’s 2026 financial performance

Value of assets managed by Life
Driven by Life book growth and higher retained earnings in FY26

Preferred measure of business performance
FY26 earnings driven by growth in average investment assets

Our products are designed to meet the evolving needs of retirees, offering security, predictability and confidence to spend throughout retirement.

Lifetime annuities provide customers with guaranteed³ income for life, helping protect against longevity risk – the possibility of outliving one’s savings. With flexible payment options, retirees can choose income streams that are fixed, indexed to inflation, linked to RBA cash rate movements or indexed to investment market performance.

The income payments we make to customers are backed by a high-quality investment portfolio, primarily invested in investment-grade fixed income assets, ensuring reliability and sustainability.

Our products are widely accessible through independent financial advisers, superannuation funds, leading investment and administration platforms, and directly.

We are actively building new institutional partnerships, helping superannuation funds and platforms deliver more comprehensive retirement income solutions to their members. Additionally, we are well positioned to support defined benefit pension de-risking, offering tailored solutions to sponsors and fund trustees seeking stability and risk mitigation.

Internationally, we maintain a strategic annuity reinsurance relationship with Mitsui Sumitomo Primary Life Insurance Company Limited (MS Primary) in Japan, covering AUD, USD and JPY-denominated annuities. This partnership supports our global diversification and capital efficiency.

1 Plan For Life - March 2026 - based on annuities under administration.
2 Normalised net profit after tax (NPAT).
3 The word 'guaranteed' means payments are guaranteed by Challenger Life Company Limited (CLC) from assets of either its relevant statutory fund or shareholder fund.

Diversifying our range of income solutions

Providing a suite of high-quality income solutions that meet different customer needs

FY26 was a year of innovation for Challenger, where we delivered first-of-their-kind income solutions to investors.

In July 2026, we announced the first issuance under a new \$6 billion Challenger Annuity-Backed Notes (CABN) program that will support annuity book growth, expand our customer channels, and add further diversification to our range of income solutions.

The inaugural issuance of \$750 million AUD-denominated wholesale 3-year notes saw significant investor demand, with the notes being heavily oversubscribed and a final order book in excess of \$1.75 billion.

This builds on our experience of providing innovative income solutions to customers, after launching our unique-to-market Challenger IM LiFTS1 Note on the ASX in September 2025, which combines the features of a fixed-income investment with the accessibility of a listed security.

Establishing offshore reinsurance platform

Providing access to the Asian market while diversifying our distribution channels

In FY26, we delivered record offshore annuity sales of \$1.2 billion. Building on the expertise gained throughout our longstanding relationship with MS Primary, we established a Bermuda-based reinsurance platform Calix Re, licensed as a Class E long-term insurer and obtaining an AM Best 'A-' (Excellent) credit rating.

This will enhance our competitive positioning in international markets and create opportunities for new strategic reinsurance partnerships with offshore insurers in Asia. Designed as a scalable platform, Calix Re will support broader product innovation, while delivering more diversified earnings to Challenger.

Establishing partnerships across the retirement market

Making retirement income more accessible to Australians

In FY26, we continued to strengthen our future growth through new retirement partnerships with superannuation funds, wealth managers and platforms that will further embed us into the Australian retirement ecosystem.

As the largest provider of longevity protection in Australia with decades of experience, we are well-placed to support superannuation funds develop their retirement income propositions, a requirement under the Retirement Income Covenant.

In July 2025, Challenger and TAL established a key retirement partnership with Insignia Financial to launch MLC Retirement Boost, the first of a range of innovative retirement solutions.

Building on this momentum, Challenger announced a new partnership with BT in February 2026 to broaden the range of retirement income solutions on the BT Panorama platform, including market-linked and guaranteed lifetime income options.

In May 2026, Colonial First State (CFS) announced an expanded partnership with Challenger to integrate Challenger's suite of lifetime income solutions across the First Choice and Edge platforms. The expanded offering includes lifetime annuities, CPI-linked and investment-linked annuities, fixed-term products and CarePlus, together with the introduction of a Challenger-backed innovative retirement income solution (IRIS).

These partnerships reinforce our position as a leading provider of retirement income solutions and demonstrates growing industry recognition of the role lifetime income products can play in improving retirement outcomes for more Australians.

Funds Management business

For personal use only

Multi-affiliate manager specialising in equities, fixed income and alternatives

Our Funds Management business is one of Australia’s largest active fund managers¹ with funds under management (FUM) of \$109 billion, which has grown more than four-fold over the last 15 years (up from \$24 billion as at 30 June 2011).

Funds Management comprises Fidante and Asset Management, with operations in Australia, the United Kingdom, Europe and Japan.

Fidante operates a stable of high-quality, active managers by taking minority equity interests in independently branded affiliate investment managers. This model allows investment managers to focus exclusively on performance, while we provide strategic guidance, distribution services and business support, and operational platforms.

In June 2026, we announced the merger of Fidante and Channel Capital to create a more diversified active funds management platform with a global footprint, and market leading capabilities across public and private strategies.

Asset Management is a leading fixed income originator in Australia, with deep expertise in public and private credit markets. Since 2005, it has delivered consistent income-focused strategies with disciplined credit underwriting, managing capital for Challenger Life and a growing base of institutional and retail investors.

In Japan, Challenger Kabushiki Kaisha (CKK) manages Japanese real estate for Challenger Life, MS Primary and other institutional clients, further diversifying the platform’s geographic and asset exposure.

We have partnered with State Street to provide investment administration and custody services, supporting operational scale and efficiency.

FUNDS MANAGEMENT NPAT² (\$M)

FY24	38
FY25	53
FY26	53

Preferred measure of business performance

Expanding our asset origination capabilities

Our Asset Management team enjoyed a record year for origination across corporate lending and securitised markets

\$10bn

Total origination volumes¹

Since 2005, our Asset Management team has been an active investor in public and private credit markets, managing over \$18 billion² in fixed income assets and delivering strong, risk-adjusted returns through disciplined and innovative investment strategies.

¹ As at 30 June 2026.

² As at 30 June 2026 and excludes ~\$0.8bn of FUM relating to Japanese real estate holdings managed by Challenger Kabushiki Kaisha (CKK).

As part of our wider suite of private credit capabilities, our Asset Management team has established a platform that will help originate and service large scalable pools of whole loans for Challenger Life and institutional investors.

In April 2026, we announced a strategic capital partnership with Bank of Queensland comprising a whole-of-loan sale and forward flow arrangement for equipment finance assets.

Building on the strong momentum, we also announced a strategic partnership with New Zealand lender Finbase in May 2026, providing access to NZD\$150 million through a forward-flow arrangement focused on residential mortgages in New Zealand.

We also announced a committed receivables financing facility with Spark New Zealand Limited (ASX:SPK) to acquire interest-free payment receivables with regular ongoing acquisitions under the facility in December 2025.

These long-term partnerships deliver us predictable and resilient assets and cash flows that are attractive for our balance sheet, and will improve returns.

Merger of Fidante and Channel Capital

Creating one of Australia's leading active funds management businesses

In June 2026, we announced a merger of our multi-affiliate funds management business, Fidante, with Channel Capital. Under the agreement, Fidante will continue to operate as a standalone brand and become part of a newly formed entity.

The merger ensures we remain strategic holders of a more diversified active funds management platform with a global footprint, and market leading capabilities across public and private strategies.

Subject to regulatory approvals and separation activities, the merger is expected to take effect in late 1H27.

Sustainability

Through our contemporary and unique business, Challenger supports customers throughout their working lives and retirement, helping to provide them with financial security for a better retirement. Challenger has the country's largest guaranteed retirement income business, providing customers with reliable and secure income streams, for either a fixed term or for life. We also provide investment products to customers through our investments division.

Our Sustainability Strategy

Challenger's sustainability strategy reflects our most material environmental, social and governance opportunities.

For personal use only

Challenger's materiality assessment

Challenger assesses its material sustainability issues on an annual basis to help identify the ESG topics with the most potential impact to our business and stakeholders, including our customers and clients, advisers, employees, shareholders and investors.

Following a desktop review in 2026, Challenger's list of material topics was revised from ten to nine. 'Employee wellbeing, diversity and inclusion' and 'Talent development' have been integrated into a singular topic covering 'Workforce wellbeing, inclusion and capability.' The change reflects that talent development is an integral component of workforce wellbeing, inclusion and sustainability rather than a standalone ESG issue.

Sustainable Development Goals

Organisations like Challenger have a role to play in progressing the United Nations Sustainable Development Goals (SDGs), which provide a global blueprint for a more sustainable future.

Challenger has focused its efforts on the areas where it can have the greatest impact through its business activities. Our five priority SDGs have been identified based on how the goals align with our material topics, as well as our policies, processes, initiatives and the way our strategy, products and customer focus contribute to sustainable outcomes.

Gender equality

Climate action

Decent work and economic growth

Partnerships for the goals

Reduce inequalities

For personal use only

Our nine most material topics

Sustainable retirement income system and adequacy

- › Designing products with the wellbeing of individuals in mind and contributing to discussions that improve the sustainability of Australia's retirement income system.

Customer experience

- › How we're building a customer-centric business.
- › Delivering a high-quality service to customers, improving processes and responding to customer feedback.

Representation of products and investment strategies

- › Acting in customers' best interests, including transparency, accuracy and clarity of marketing statements, advertising and labelling of products and investment strategies.

Digital technology, AI and innovation

- › Using digital technology and AI responsibly and driving innovation to make it easier to do business with us.

Data privacy, cyber security and AI

- › Strengthening our cyber security capabilities to protect our business and customers and minimise the risk of evolving threats.

Workforce wellbeing, inclusion and capability

- › Promoting a diverse and inclusive workplace, in a psychologically safe and fair environment.
- › Attracting, developing and retaining talent to ensure Challenger continues to meet customer, regulatory and business expectations.

Accountable and transparent business

- › Maintaining high standards of corporate governance, conduct and compliance, as well as how we manage risks surrounding ethical conduct of business.

Investing responsibly

- › Incorporating ESG considerations into our investment process to drive long-term value and engaging with companies to improve their ESG performance where we can make a difference.

Climate change

- › How Challenger identifies and manages climate-related risks and opportunities through its investment decisions and own operations.

computershare.com.au

Unless otherwise specified, all amounts are in Australian dollars.

The information, including all amounts, in this Annual Review are current as at 30 June 2026, and unless stated otherwise, any comparison is based on the prior corresponding period.

This Annual Review is not financial product advice, investment advice or a recommendation to acquire Challenger's securities and has been prepared without taking into account your objectives, financial situation or needs. This document is not, and should not be considered as, an offer or an invitation to acquire securities in Challenger or any other financial products.

¹ Comprising the previously announced \$150 million share on-market buy-back announced in February 2026, and an additional \$300 million announced in August 2026 subject to market conditions and regulatory approval.
