CHAIRMAN AND MANAGING DIRECTOR'S REPORT

Dear Shareholders,

InvestSMART's vision is to help all Australians grow and protect their wealth. We have built a digital ecosystem with a client facing platform to help all Australians. On 20 May 2026 we announced a proposed transaction to sell the Intelligent Investor business (collectively: Intelligent Investor) to Teaminvest Private Group (TIP) (ASX: TIP) for $16 million less subscriptions in advance and other contractual liabilities associated with Intelligent Investor.

The sale of Intelligent Investor does not change our vision. The sale allows us to focus on our core strengths to amplify our services including through personal financial advice.

Our key performance measure, Funds Under Management (FUM) will continue to remain a key performance measure. Below is our progress in growing FUM:

Intelligent Investor is a solid business. Intelligent Investor was established in 1998 as an Australian listed equities research newsletter specialising in value investing. Intelligent Investor has consistently delivered original, relevant, expert, timely commentary and financial recommendations. InvestSMART acquired Intelligent Investor in 2014 and since that date has sought to maintain the high standards of the newsletters and recommendations. We have expanded the subscription offering with international equities coverage. We purchased Eureka Report in 2016 and delighted in welcoming Alan Kohler and his team back in 2018. The Intelligent Investor and Eureka Report brands merged in 2021 to provide a clearer connection between stock analysis and the broader macro-economic themes

affecting different industries. We have also provided retail access to the expertise of the Intelligent Investor team through the issuance of four ASX listed Active Exchange Traded Funds. It is not without a sense of pride and appreciation that we take the proposed sale to shareholders. Importantly the sale of Intelligent Investor to TIP excludes the key regulatory license that allows us to issue and manage funds as a Responsible Entity. The price offered for Intelligent Investor is considered by the Board to be of sufficient value to take to shareholders to vote on. The proposed transaction remains subject to a number of conditions precedent at the date of this report.

The Professionally Managed Accounts platform is at the heart of our digital advice offering. Professionally Managed Accounts (PMA) is our simple, low-cost funds management product designed to service people who want a digital experience to achieve their financial goals. Professionally Managed Accounts was launched in 2018 and contains many innovative features. PMA investment accounts focus on investing into our selection of preferred ETFs which provide a balance between performance returns, cost efficiency and risk diversification. The investor portfolio is registered under the investor's name in a unique HIN, giving the investor legal and beneficial ownership of the underlying securities. We believe that there is a large addressable market of underserviced retail clients who will benefit from a digital product to help grow their wealth. We have purposefully chosen portfolios of ETFs to deliver that solution at scale. At the time of design we believed that PMA is a unique offering – a client facing investment platform. We have come to realise that this can be expanded, and plan on expanding this for use by financial advisors. The arrival of sophisticated artificial intelligence allows us to integrate several aspects of the personal advice journey into the platform. Artificial intelligence also enables a seamless advisor and client experience within the platform. The supply demand imbalance between advice/advisors and the Australian population is well known. The sale of Intelligent Investor allows InvestSMART to accelerate our aspiration in this area and, hence, accelerate our vision of helping all Australians grow and protect their wealth.

We have developed new features to the PMA platform, notably the ability to include white label products and custom portfolios, launched in July 2025.

We will continue to leverage our core strengths of content, calculators, technology, ambassadors, search engine optimisation and expertise in an ecosystem for Australians. We have developed an ecosystem that attracts people to our website to help them improve their financial future. A digital ecosystem is complex, however we believe that we have the architecture, expertise, products, tools and ambassadors to simplify the complex.

FINANCIAL RESULTS

Below is the Operating Profit/(Loss) for InvestSMART Group (The Group) for the financial year ended 30 June 2026.

	2026 $	2025 $
Management fees - funds	4,241,179	3,692,979

Management fees increased by 15% during the financial year to $4.24m, fuelled by:

- 24% growth in FUM on the PMA platform from $386 million at 30 June 2025 to $479 million at 30 June 2026.
- A change in the PMA fee structure in April 2025. We introduced an administration fee of 0.10%, decreased portfolio fees to 0.40% (from 0.50%) and increased the management fee cap to $800 per annum. The administration fee is uncapped. All fees quoted are exclusive of GST.

The change in PMA fee structure in April 2025 is more affordable for new accounts and rewards investors for ongoing contributions to help them reach their financial goals sooner.

Intelligent Investor FUM decreased from $301 million at 30 June 2025 to $274 million at 30 June 2026. Intelligent Investor FUM was particularly affected by the sell off in quality stocks outside the market's largest stocks in January and February 2026 and by large distributions of taxable income at 30 June 2026 ($15.2 million net of dividend reinvestment plan participation as estimated at 30 June 2026).

We did not post a material performance fee in 2026. The Intelligent Investor Select Value Share Fund (ASX: IISV) is our only fund that includes a performance fee. This fund, for the first time, did not outperform its benchmark (ASX 200 Accumulation Index) in FY26.

We forecast low single digit growth in subscription revenue which we have achieved in FY26. We increased prices at 1 July 2025 and have managed to maintain retention at 77% annually. The challenge remained attracting new subscribers. Value investing is at a low point in the cycle, we do not know when this will turn, but history rhymes with investing styles. As an example, post the dot com bust, the Midcap Value Index (Russel Mid Value) posted a total return of 155% from 2000 to 2006 compared to the S&P 500 Index return of 8.1%.

Commissions income from insurance products decreased by 10% during FY26. Management have forecast a decline of ~ 8% since the abolition of several trailing commissions on 1 January 2021. Commissions on insurance income remain allowable after the first round of legislation from the Delivering Better Financial Outcomes review (aka Levy Review) was released. We have the infrastructure to distribute life insurance to new clients and see this as part of our vision to help all Australians grow and protect their wealth.

Our operating expenses increased by 4%. We have a well-developed, mature, majority fixed cost ecosystem that is built to scale. Marketing, has, and will continue to be content focussed. Content forms the bedrock for digital retargeting, search engine optimisation and media coverage. Our number of employees is stable at 34. We utilise an Employee and Directors Share Plan (EDSP) to incentivise staff for the long term. EDSP tranche 1 loans were extended for existing employees to 30 November 2028 (previously 30 November 2025) concurrent to shareholder approval for the extension of loans to two directors. We are thankful for the support shown by our shareholders for the realisation of value for all stakeholders.

We are well capitalised and debt free with $7.8m in cash at bank and Net Tangible Assets of $4.2m at 30 June 2026.

CORPORATE GOVERNANCE

Please refer to the Corporate Governance Statement in this report and the required Appendix 4G for detail on how we meet our corporate governance requirements and standards.

The Board and its sub-committees meet regularly and, in addition, there are other sub-committees within the Group for oversight and governance, for example the Investment Committee and the Responsible Entity Compliance Committee. Regular Board meetings include standing items on strategy, performance, compliance and cybersecurity.

SUMMARY AND OUTLOOK

InvestSMART faced a massive challenge when the government repealed trailing commissions on funds management products as announced in February 2019. Commissions income from funds management products was 40% of our revenue in FY19, whilst funds management fees was 7% of our revenue. We faced the challenge with determination and a plan to increase revenue through issuing and distributing our own funds, including through leveraging the expertise of the Intelligent Investor team. We take the proposed sale of Intelligent Investor to shareholders with a coordinated plan to service the advice needs of all Australians.

In March 2025 the government released draft legislation on Tranche 2 of Delivering Better Financial Outcomes. Whilst the enactment of the Tranche 2 has been frustratingly slow, the signal from government that Australians are under advised is telling. The number of financial advisers remains around 15,000 in Australia, down from 21,500 in 2018 prior to FASEA and the Hayne Royal Commission. At the same time the Australian population is growing, advice needs are increasing and Artificial Intelligence (AI) is growing at an unforeseen rate. InvestSMART is committed to harnessing technological power to solve the advice needs of all Australians. We remain on the front foot with platform architecture, a content-based marketing approach and a plan to acquire financial advisors and utilise our technology skills to better service all Australians. As a digital-first company with a unique, developed ecosystem and hundreds of thousands of do-it-yourself investors, we have a head start in the race.

The Board remains confident in InvestSMART's long term strategy to be Australia's #1 digital wealth platform for all Australians looking to take control of their investments to meet their financial goals.

The Board would like to thank our staff, shareholders and clients for their continued contribution to our business. We look forward to a new journey over the coming years.

^ Accounts for the extension of Employee and Director Share Plan (EDSP) tranche 1 loans on 30 November 2025. EDSP tranche 1 loans were extended for existing employees to 30 November 2028 (previously 30 November 2025). The extension of loans to directors Paul Clitheroe and Ron Hodge was approved by shareholders at the Annual General Meeting held on 20 November 2025.

Management fees - funds increased by 15% compared to the prior year. Total funds under management increased from $687 million at 30 June 2025 to $753 million at 30 June 2026. Funds under management consists of Professionally Managed Accounts (portfolios of exchange traded funds on the InvestSMART platform) and Intelligent Investor ASX listed Active Exchange Traded Funds. Performance fees – funds are dependent on the Intelligent Investor Select Value Share Fund outperforming its benchmarks during a financial year. IISV did not outperform the ASX 200 Accumulation Index during the year. Subscription income increased by 2% compared to the prior year. Average Revenue per User (ARPU) increased from $586 at 30 June 2025 to $686 at 30 June 2026. The total number of paying subscribers decreased from 7,561 at 30 June 2025 to 6,742 at 30 June 2026. Commissions income – insurance has decreased due to attrition of insurance policies.

Employee costs increased by 5% compared to the prior year. The increase is due to an increase in leave provisions during the year and additional incentive payments paid in September 2025.

For personal use only

Cash and cash equivalents is $7.8 million at 30 June 2026 compared to $8.3 million at 30 June 2025.
The Net Tangible Assets of the Group is 3.83c per fully paid ordinary share at 30 June 2026 (2025: 4.07c).

On 20 May 2026 a proposed sale of the Intelligent Investor Business, comprising the Intelligent Investor website and management rights to its four Intelligent Investor exchange traded funds (collectively Intelligent Investor) to Teaminvest Private Group Limited (TIP) (ASX:TIP) was announced. The total sale consideration is $16 million less subscriptions in advance and other contractual liabilities associated with Intelligent Investor. Post transaction, InvestSMART will focus on the InvestSMART branded proprietary investor wealth platform, digital and personal investment advice and Professionally Managed Accounts. The transaction will be subject to INV shareholder approval. InvestSMART assessed that classification of Intelligent Investor as a disposal group held for sale in the financial statements was not applicable at 30 June 2026.

The Group has substantial realised capital tax losses that have not been recognised in the financial statements as the Directors believe that at 30 June 2026 the conditions for recognising a deferred tax asset related to capital losses being utilised with the proposed sale of Intelligent Investor have not been met. The Directors believe that at 30 June 2026 there are negligible other opportunities to utilise those losses in the medium term.

Employee and Director Share Plan (EDSP) shares are equity-settled share-based payments to employees and Directors. A non-recourse loan is provided to participants to acquire the shares at the respective prices issued. The loans for EDSP shares on issue have not been repaid and are not included in fully paid ordinary share capital. EDSP 1, 2 and 3 shares were approved by shareholders at the Annual General Meeting on 11 November 2020. EDSP 1 shares were issued with a maturity date of 30 November 2025. The maturity date for EDSP 1 was extended to 30 November 2028 on 30 November 2025. Shareholders approved the extension of the shares to Paul Clitheroe and Ron Hodge (as Directors) at the AGM held on 20 November 2025. EDSP 4 shares were issued in lieu of cash bonus in September 2021. EDSP 5 shares were issued in lieu of cash bonus in September 2022. EDSP 9 shares were issued lieu of cash bonus in September 2023. Ron Hodge's EDSP 4, 5 and 9 shares were approved at the Annual General Meeting in November of the year in which they were issued. EDSP shares have no performance conditions in order to vest. The directors believed that the issue prices for the EDSP shares better aligned the interests of Paul Clitheroe and key management personnel with the shareholders. Refer to Note 15 for a full list of EDSP shares issued including issue date, price, vesting date, maturity date and number of shares.

The EDSP shares issued are dependent on the relevant director or employee not resigning or being dismissed for cause before each tranche vests.

Key management personnel transactions concerning dividends and ordinary shares are on the same terms and conditions applicable to ordinary shareholders.

All Directors must have a commitment to good corporate governance. The primary role of the non-executive Directors is the protection and enhancement of sustainable shareholder value through:

(a) ensuring the control and accountability framework is in place so that all significant issues relating to the operation and performance of the Company and its subsidiary entities are brought to the attention of the Board;
(b) monitoring governance policies, practices and systems to ensure they are effective and appropriate; and
(c) monitoring risk policies, practices and systems to ensure they are effective and appropriate.

The Directors agree the remuneration each Director receives (other than any Managing Director or Director who is a salaried officer), subject to the sum determined by the Company in general meeting. No option or bonus plans are in place for Directors other than those listed below.

Under ASX Listing Rule 10.17, the maximum fees payable to Directors may not be increased without prior approval from the Company at a general meeting. Directors will seek approval from time to time as deemed appropriate.

The Directors will be entitled to receive the following benefits:

(a) the maximum total remuneration of the Directors of the Company (excluding the Managing Director) has been approved by shareholders at $400,000 per annum to be divided amongst them in such proportions as they agree. Directors are not required to allocate the entire amount.
(b) Paul Clitheroe is eligible to participate in the EDSP and received 4,000,000 shares divided into three equal tranches and a corresponding limited recourse loan on 9 December 2020, as approved by shareholders at the Annual General Meeting on 11 November 2020. The EDSP shares replaced the 4,000,000 LTIP shares previously issued. Paul's shares have no performance conditions. The first tranche is issued at 15 cents and vested immediately. The second tranche is issued at 20 cents and vested on 30 November 2021. The third tranche is issued at 30 cents and vested on 30 November 2022. The loan relating to each tranche is repayable 5 years after each tranche vests. The loan relating to the first tranche was extended by 3 years to 30 November 2028, as approved at the AGM on 20 November 2025.
(c) Ron Hodge, as Managing Director, is eligible to participate in the EDSP and received 4,566,665 shares divided into three equal tranches and a corresponding limited recourse loan on 9 December 2020, as approved by shareholders at the Annual General Meeting on 11 November 2020. The EDSP shares replaced the 4,566,665 LTIP and ESOP shares previously issued. Ron's shares have no performance conditions. The first tranche is issued at 15 cents and vested immediately. The second tranche is issued at 20 cents and vested on 30 November 2021. The third tranche is issued at 30 cents and vested on 30 November 2022. On 8 December 2021 Ron received 210,000 EDSP shares at a price of 25c in lieu of cash as part of the Group's short-term incentive plan (STI) as approved by shareholders at the Annual General Meeting on 17 November 2021. The shares vested immediately. On 8 December 2022 Ron received 120,000 EDSP shares at a price of 34c in lieu of cash as part of the Group's short-term incentive plan (STI) as approved by shareholders at the Annual General Meeting on 23 November 2022. The shares vested immediately. On 6 December 2023 Ron received 166,667 EDSP shares at a price of 14.5c in lieu of cash as part of the Group's short-term incentive plan (STI) as approved by shareholders at the Annual General Meeting on 22 November 2023. The shares vested immediately. The loan relating to each tranche of shares is repayable 5 years after each tranche vests. The loan relating to the first tranche was extended by 3 years to 30 November 2028, as approved at the AGM on 20 November 2025.

On 20 May 2026 a proposed sale of the Intelligent Investor Business, comprising the Intelligent Investor website and management rights to its four Intelligent Investor exchange traded funds (collectively Intelligent Investor) to Teaminvest Private Group Limited (TIP) (ASX:TIP) was announced. Total sale consideration is $16 million less subscriptions in advance and other contractual liabilities associated with Intelligent Investor. Post transaction, InvestSMART will focus on the InvestSMART branded proprietary investor wealth platform, digital and personal investment advice and Professionally Managed Accounts.

The Group's remuneration policy is designed to offer a remuneration structure that aligns management incentives with the interests of shareholders and attracts and retains employees and Directors who have extensive experience in the financial services industry and are knowledgeable in investment management best practice. Remuneration is reviewed at least annually by the Nomination and Remuneration committee, which consists of non-executive directors.

Key management personnel may receive fixed remuneration as cash, shares through the Group's EDSP and cash or shares through the Group's short-term incentive plan (STI). Fixed remuneration is reviewed at least annually. The Group aims to position executives and staff at or near the median for comparable roles in a similar industry. Consideration is also given to capability, experience, performance and other elements of remuneration.

All staff and executives are entitled to participate in the STI scheme as part of their total remuneration subject to Group and employee specific indicators. The Group performance indicator is budgeted revenue for the financial year. The total STI pool is determined by the Group's relative performance against budget. The total value of the STI pool increases at a predetermined rate as outperformance against budget increases. Executives and employees receive an STI from this bonus pool where they achieve individual key performance indicators. The STI may be received in cash or shares, subject to restrictions of a cap on cash amount and availability of shares to be issued. The performance conditions were chosen to incorporate overall performance of the company against budget and individual qualitative and quantitative assessments. Ron Hodge, Nigel Poole, Alastair Davidson and Andrew Ward were eligible for and received cash bonuses under the STI in September 2025 after approval by the Nomination and Remuneration Committee. The amounts are disclosed in the remuneration tables and represent 100% of the bonus granted for the year. There are no service or performance criteria in future financial years in relation to bonuses granted and paid in September 2025. In addition to the performance criteria above the KMP were required to be employed for the full duration of the financial year. Where an employee is not employed for the full year that amount will be prorated. Zero % of the bonus was

forfeited by any KMP in the financial year. The percentage of remuneration that is performance based is the amount received as a bonus under the STI scheme. The amounts received as a percentage of total remuneration for each eligible KMP for the year ended 30 June 2026 is:

Ron Hodge	2.0% (2025: 2.2%)
Nigel Poole	1.7% (2025: 2.1%)
Alastair Davidson	1.5% (2025: 2.5%)
Andrew Ward	1.8% (2025: 2.1%)

The Group has linked performance with compensation in relation to the performance of the InvestSMART Group share price through the Group's Employee and Director Share Plan (EDSP). The EDSP is an equity-settled share-based payment to employees and Directors. A non-recourse loan is provided to participants to acquire the shares at the respective prices issued. The loans for EDSP shares on issue have not been repaid and are not included in fully paid ordinary share capital. On 9 December 2020 all shares issued under the company's previous equity-settled share-based payment plans, the Long-Term Incentive Plan (LTIP) and the Employee Share Ownership Plan (ESOP) were bought back and new shares issued under the new EDSP plan. The market price of InvestSMART Group on this date was 9.1 cents. A total of 31,424,614 EDSP shares are on issue at 30 June 2026. Refer to Note 15 of the Consolidated Financial Statements for a breakdown of the terms of each tranche on issue.

This concludes the Remuneration Report which has been audited.

Environmental regulation
The Group is not subject to any particular or significant environmental regulation under Australian Commonwealth or State Law.

Insurance of Directors
During the financial year, the Company has given indemnity and paid insurance premiums to insure Directors and officers against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Directors or officers of the Company or subsidiaries, other than conduct involving a wilful breach of duty in relation to the Company or subsidiaries. Details of the nature of the liabilities covered and the amount of premiums paid have not been disclosed as disclosure is prohibited under the terms of the contract.

Indemnification of auditors
The company has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify an auditor of the company or of any related body corporate against a liability incurred as such auditor.

Non-Audit Services
A network firm, BDO Services Pty Ltd, received $34,755 for non-audit services (taxation services). The Directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act. No other non-audit services have been provided by the auditor or by another person on the auditor's behalf during the year. This statement has been made in accordance with advice provided by the Company's audit committee and has been endorsed by a resolution of that committee.

Proceedings on behalf of the Group
No proceedings have been brought or intervened in on behalf of the Group with leave of the Court under section 237 of the Corporations Act 2001.

Notes to the Consolidated Financial Statements

1. Reporting Entity

InvestSMART Group Limited (the "***Company***") is domiciled in Australia and is the parent entity of the group which includes the entities listed in Note 10 (the "***Group***") and is a for profit company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange. The consolidated financial statements of the Group are presented for the year ended 30 June 2026. The Group is primarily involved in operating businesses delivering financial services to retail investors in Australia, primarily in wealth and funds management.

The separate financial statements of the parent entity, InvestSMART Group Limited, have been presented within this financial report.

2. Summary of material accounting policy information

Basis of Preparation

This general purpose financial report has been prepared in accordance with Australian Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001.*

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The financial report has been prepared on an accruals basis, and is based on historical cost, with the exception of the valuation of financial assets as described below.

The financial statements were authorised for issue by the Directors on the date the Directors' declaration was signed. The directors and shareholders have the power to amend these financial statements after issue.

The following material accounting policies have been adopted in the preparation and presentation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

Adoption of New and Revised Accounting Standards

The Group has adopted all of the new and revised standards and interpretations issued by the Australian Accounting Standards Board that are relevant to its operations and effective for the current reporting period. The adoption of these did not have a material impact on the financial statements of the Group.

Any other new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The AASB has issued AASB 18 Presentation and Disclosure in Financial Statements to improve how entities communicate in their financial statements, with a particular focus on information about financial performance in the statement of profit or loss. AASB 18 applies to annual reporting periods beginning on or after 1 January 2027. AASB 18 will replace AASB 101 Presentation of Financial Statements.

For personal use only

Based on the entity's assessment, it is expected that the first-time adoption of these amendments for the year ending 30 June 2028 will have a material impact on presentation and disclosure within the financial statements as follows:

- the presentation of the statement of comprehensive income to be amended such that transactions are classified as one of five categories – operating, investing, financing, income taxes, and discontinued operations.
- presentation and additional disclosure of certain management-defined performance measures utilised in communications with stakeholders by management.
- Disclosure of the nature of externally imposed capital requirements and how those requirements are incorporated into the management of capital.

Current versus non-current classification

The Group presents assets and liabilities in the Statement of Financial Position based on liquidity and not on a current versus non-current classification. The expected period of recovery or settlement of amounts are disclosed in the relevant notes.

Revenue Recognition

Revenue from contracts with customers

Under *AASB 15 Revenue from Contracts with Customers* an entity recognises revenue by applying the following steps:

Step 1: Identify the contract(s) with a customer
Step 2: Identify the performance obligations in the contract
Step 3: Determine the transaction price
Step 4: Allocate the transaction price to the performance obligations in the contract
Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

The Group derives revenue from retail customers in Australia. Contract duration is long-term except for subscription revenue which is typically between one month and one year.

The Group has a performance obligation to service customers who have purchased subscriptions in advance for the Intelligent Investor newsletter and recognises revenue when that subscription service has been delivered on a straight-line basis. Where a transfer of services has not occurred a contract liability is recognised for subscriptions in advance. During the year the Group recognised $3,049,129 of revenue that was included in the opening balance of contract liabilities (2025: $3,017,712).

Commission income is derived from trailing commissions on insurance products under a contract to distribute products to the InvestSMART client base. Commissions are recognised when the Group has satisfied its performance obligations, which occurs when control of the goods or services are transferred to the customer. When the performance obligation has been satisfied, the Group will recognise as revenue the amount of the transaction price that is allocated to the performance obligation after excluding any estimates of variable consideration that are constrained.

Management fees – funds are recognised based on net assets under management at the end of each day. Revenue is recognised as the performance obligation is satisfied. Performance fees - funds are recognised when the right to receive payment has been established. The Group's entitlement to a performance fee is dependent on outperformance of the Intelligent Investor Select Value Share Fund over the S&P ASX 200 Accumulation Index and the RBA cash rate over each 12-month period ending 30 June subject to a high-water mark. The high-water mark is the net asset value per Unit at the end of the most recent Calculation Period where there was an entitlement to a performance fee, less any intervening income or capital distribution.

For personal use only

Management and performance fees are variable consideration and are not recognised unless the Group assesses it is probable that a significant reversal in the cumulative amount of revenue will not occur. The performance fee measurement period is the year ending 30 June each year.

Investment and interest revenue

Fundlater fees are recognised in the Consolidated Statement of Comprehensive Income using the effective interest method. Fundlater clients are provided with a non-recourse, asset-backed loan repayable over a fixed period at fixed rate instalments. An effective interest method adjustment is calculated to recognise fees from the date a Fundlater loan is granted to the final instalment at the rate that discounts estimated future cash receipts.

Realised and unrealised gains on investments measured at fair value through profit and loss are recognised in the Statement of Comprehensive Income. Realised gains and losses are calculated as the difference between the consideration received and the fair value at the previous period end.

Dividends and distributions are recognised on the applicable ex-dividend date.

Interest income is recognised as it accrues using the effective interest method.

Other income

Other income is recognised when it is received or the right to receive payment is established.

Investments at Fair Value

The Group's investments are all measured at fair value in accordance with AASB 13: Fair Value Measurement.

The fair values of the Group's listed investments are determined from the amount quoted on the primary exchange of the country of domicile. If a listed investment is measured at fair value and has a bid price and an ask price, fair value is based on a price within the bid-ask spread that is most representative of fair value and allows the use of mid-market pricing or other pricing conventions that are used by market participants as a practical expedient for fair value measurement within a bid-ask spread.

Changes in the fair value of investments are recognised in the Statement of Comprehensive Income. Transaction costs directly attributable to the acquisition of the investments are expensed in the Statement of Comprehensive Income as incurred.

Loans receivable

Loans receivable consist of Fundlater loans. Fundlater clients are provided with a non-recourse loan repayable over a fixed period at fixed rate instalments consisting of principal and facility fee payments. At initial recognition loans are measured at fair value which is the transaction price.

Subsequently loans are measured at fair value through other comprehensive income (FVOCI) where loans are held within a business model whose objective is achieved by both collecting contractual flows and selling the assets. Loans are measured at amortised cost where loans are held solely to collect contractual cash flows of principal and facility fees. An effective interest method adjustment is calculated to recognise loans receivable at the rate that discounts estimated future cash receipts.

Loss allowances under FVOCI are determined using an allowance for expected credit losses (refer to the accounting policy for impairment of financial assets).

For personal use only

For personal use only

Fundlater fees are recognised in the Consolidated Statement of Comprehensive Income using the effective interest method.

When loans receivable at FVOCI are derecognised the cumulative gain or loss recognised in other comprehensive income is reclassified to Other Income in the Statement of Comprehensive Income. Loans receivable are derecognised only when the Group assess that it has transferred the contractual rights to receive cash flows for the asset and substantially all the risks and rewards of ownership of the loan have been transferred.

Principles of Consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of the Group as at 30 June 2026 and the results of all subsidiaries for the period from 1 July 2025 to 30 June 2026. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary.

Subsidiaries are all entities (including special purpose entities) over which the Company has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group, or when they are established.

Associates

An associate is an entity over which the Group exercises significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies. Investments in associates are accounted for using the equity method of accounting. The equity method is a method of accounting whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the investor's share of the investee's net assets. The investor's profit or loss includes its share of the investee's profit or loss and the investor's other comprehensive income includes its share of the investee's other comprehensive income. Dividends or distributions received or receivable from an associate reduce the carrying value of the investment. Where an associate was previously a controlled entity of the Group, the deemed cost for applying the equity method is the fair value on the date that the Group ceased to have a controlling interest.

Intercompany transactions and balances

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated on consolidation. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

If the ownership interest in a jointly-controlled entity or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

When the Group ceases to have control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, jointly controlled entity or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

For personal use only

Impairment of financial assets

The Group assesses at each reporting date an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Under the general approach for credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. Trade receivables consist of commissions, funds management fees receivable and subscription fees due from merchants which are generally received in the month following recognition.

The Group considers a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Share-based Payments to Employees and Directors

Employees (including executive directors) of the Group may receive remuneration in the form of share-based payments, where employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made or a grant is modified using an appropriate valuation model. The cost is recognised, together with a corresponding increase in other capital reserves in equity, over the period in which the performance and/or service conditions are fulfilled in the employee benefits reserve.

The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. This cost is reversed in the event that an employee forfeits any share-based payment, when leaving the Group or other circumstances.

The expense in the consolidated statement of comprehensive income for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Income Tax

The Group has formed a tax consolidated group and has executed tax-sharing agreements with each controlled entity. The head entity and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The Group has applied the Group allocation approach in determining

the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, the Group also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group. The income tax expense (revenue) for the year comprises current income tax expense and deferred tax expense or benefit.

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities are measured at the amounts expected to be paid to the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year. Current and deferred income tax expense is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit and loss. No deferred income tax is recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised only to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective assets and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Cash and cash equivalents
Cash and cash equivalents include cash on hand, deposits held at call with bank and term deposits which are convertible to a known amount of cash within 3 months and subject to insignificant risk of changes in value.

Long service and Annual leave provisions
The Group does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period for long service leave which has qualified for utilisation and annual leave. However, the Group does not expect its long service leave benefits to be settled wholly within 12 months of each reporting date. The Group recognises a liability for long service leave measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method.

Expenses
The Group records all expenses on an accruals basis. This includes accounting, audit, legal and administrative fees, management fees, employee costs, marketing and advertising costs, director's fees, travel and accommodation expense, rent expenses, commission rebates, other expenses, market data costs, software and website costs.

Property, Plant and Equipment
All property, plant and equipment is carried at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, when it is probable that the future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred. Depreciation on assets is calculated using the straight-line method to allocate their cost, net of residual value, over the estimated useful lives as follows:

Computer and office equipment	2-4 years
Network and production equipment	3-4 years
Leasehold improvements	shorter of the expected fitout life or lease term (approximately 3-5 years)

Goods and Services Tax (GST)
Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the Statement of Financial Position are shown inclusive of GST where the receivable or payable has been invoiced before year end. Cash flows are included in the Consolidated Statement of Cash Flows on a gross basis. The GST component of cash flows arising from financing activities which are recoverable from, or payable to the taxation authority, is presented as operating cash flows.

Earnings/loss per share
Basic earnings/loss per share is calculated by dividing profit/(loss) attributable to members of the Company by the weighted average number of ordinary shares outstanding during the year, adjusted for any bonus element. Diluted earnings/(loss) per share is calculated by dividing profit attributable to members of the Company by the total number of ordinary shares that would be outstanding if all the EDSP shares had vested.

Share capital
Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Functional and presentation currency
The functional and presentation currency of the Group is Australian dollars.

Leases
At the commencement of a contract, the Group assesses whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. For identified leases the Group recognises a right-of-use asset and a lease liability at the lease commencement date. No assets or liabilities are recognised if the lease is short term (less than 12 months) or of low value.

Assets and liabilities arising from a lease are initially measured on a present value basis. The measurement includes non-cancellable lease payments (including inflation-linked payments) and includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease. Interest expense on the lease liability and depreciation expense (using the straight-line method) on the right-of-use asset is recognised in the statement of profit or loss.

Comparatives
Where necessary, comparative information has been reclassified to be consistent with the current reporting period.

Rounding of amounts
The amounts in the consolidated financial statements and Directors' Report have been rounded to the nearest dollar under the option available to the Company under ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2026/183.

Critical accounting estimates and judgements
Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectation of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

The Group has not recognised deferred tax assets relating to carried forward realised capital and revenue losses on the basis that it does not expect to derive sufficient future capital gains to utilise the current losses within a 3 to 5-year time period.

The weighted average lessee's incremental borrowing rate applied to lease liabilities recognised in the statement of financial position at the date of initial application is 4.8%. Refer to Note 9 for further information.

The Eureka Asset-Backed Loan Fund (EABL) purchases loans from the Group on a regular basis. The Group may be required to repurchase Fundlater loans at fair value where they are delinquent within one month of sale to EABL. Refer to Note 6 for further information.

An employee benefit expense is recorded in the statement of comprehensive income to recognise the effects of unvested employee and director share plan (EDSP) shares granted and the modification of the terms under which EDSP tranche 1 shares were granted. Refer to note 15 for further information.

On 20 May 2026 a proposed sale of the Intelligent Investor Business, comprising the Intelligent Investor website and management rights to its four Intelligent Investor exchange traded funds (collectively Intelligent Investor) to Teaminvest Private Group Limited (TIP)(ASX:TIP) was announced. The Group has assessed that held-for-sale and discontinued operation classification under AASB 5 is not supportable as the sale is not considered highly probable at 30 June 2026 based on the criteria in AASB 5. A number of conditions precedent to the sale remain on foot at 30 June 2026. Refer to Note 25 - Events occurring after reporting date for further information.

Further information on the fair value determination and the risk exposures of financial assets held at fair value is provided in Note 14.

6. Loans receivable

	2026 $	2025 $
Loans receivable	53,615	288,158

Loans receivable consists of Fundlater loans. Subject to a minimum investment of $4,000 a client will receive a non-recourse loan of up to $6,000 to fund a new Professionally Managed Account (minimum investment is $10,000). Professionally Managed Accounts is a scheme issued by InvestSMART Funds Management Ltd. A $6,000 loan is repayable over 20 equal monthly instalments of $325 each. The $325 payments are split into $300 for principal repayment and $25 for the administration fee.

Loans receivable are measured at fair value through other comprehensive income (FVOCI) at 30 June 2026 as the loans are held to collect contractual flows and sell the assets. The Eureka Asset-Backed Loan Fund (EABL) purchases loans from the Group on a regular basis. EABL is issued by InvestSMART Funds Management Limited. The fair value of the loans which were sold to EABL that the Group has derecognised and has continuing involvement in is $863,125 at 30 June 2026.

The Group may be required to repurchase Fundlater loans where they are delinquent within one month of sale to EABL. The fair value at 30 June 2026 of loans that were sold within one month of 30 June 2026 is $60,711 (2025: $89,250). This amount represents the Group's maximum exposure to loss from its continuing involvement in derecognised loans and the undiscounted cash flows that would be required to repurchase the loans. The amount was determined by summing all loans that were sold within one month of 30 June 2026. The maturity of the undiscounted cash flows that would be required to repurchase the derecognised loans is less than 1 month from 30 June 2026.

The greatest amount of transfers of loans that took place during the reporting period is loans with a fair value of $211,453 transferred in November 2025.

The Group assesses at each reporting date an allowance for expected credit losses (ECLs). The allowance for ECLs at origination and at 30 June 2026 is assessed as zero. The equity within client's accounts (the $4,000 deposit and subsequent principal repayments) is considered adequate to cover outstanding payments if a client closes their account. Based on a range of possible outcomes the probability that a clients account will be closed with insufficient equity to cover outstanding repayments is remote.

The $25 administration fee is recognised in the Consolidated Statement of Profit and Loss under Other Income and within Other Income as Fundlater Fees (Refer Note 3). The $25 administration fee is adjusted for the requirements of AASB 9 to be recognised under the effective interest method.

14. Financial risk management

The Group's financial instruments consist mainly of deposits with banks, accounts receivable and accounts payable.

AASB 7 Financial Instruments: Disclosures identifies three types of risk associated with financial instruments (i.e. the Group's investments, receivables and payables).

For personal use only

For personal use only

(i) Credit risk

AASB 7 defines this as the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. There are no other material amounts of collateral held as security at 30 June 2026.

Receivables are non-interest bearing and unsecured and will be received within 3 months. The credit risk exposure of the Group in relation to receivables is the carrying amount. The credit risk exposure of the Group in relation to cash is the carrying amount and any accrued unpaid interest. Cash investments are held with a number of banks all of which are rated AA- by Standard and Poor's. None of these assets are over-due or considered to be impaired.

(ii) Liquidity risk

AASB 7 defines this as the risk that an entity will encounter difficulty in meeting obligations associated with liabilities. Senior management monitors the Group's cash-flow requirements daily taking into account upcoming dividends, tax payments and investment activity.

The Group's inward cash-flows depend upon the level of funds management fees, subscription revenue and commissions received. If these decrease by a material amount, the Group will amend its outward cash-flows accordingly. As the Group's major cash outflows are the cost of employees and rebates of trail commissions, the level of both of these is managed by the Board and senior management. The tangible assets of the Group are largely in the form of cash and short-term receivables.

The table below analyses the Group's non-derivative liabilities in relevant maturity groupings based on the remaining period to the earliest possible contractual maturity date at the year-end date. The amounts in the table below are contractual undiscounted cash flows, except for subscriptions in advance which represent the undiscounted value of subscription services to be delivered.

Subscriptions received in advance	-	983,956	2,065,173	1,117,982	4,167,111

(iii) Market risk

AASB 7 defines market risk as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Movements in the ASX All Ords have been used to calculate a "reasonably possible" change in market prices as the data is readily observable.

A general fall in market prices of 7.5 per cent and 15 per cent would lead to a reduction in the Group's equity and increase the reported loss by $5,945 and $11,890 respectively (2025: $4,878 and $9,787 respectively). The sensitivity analysis assumes all investments have a delta of 1 and are spread evenly across all investments.

The Group is not directly exposed to currency risk as all its operations are conducted in Australian dollars. The Group is engaged in activities conducted solely in Australia.

Interest rate risk

The Group's cash balances and term deposits expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows.

Sensitivity analysis - interest rate risk

An increase of 75 basis points in interest rates at year end would have increased the Group's profit by $62,833 (2025: $53,158). A decrease of 75 basis points would have an equal but opposite effect.

At 30 June 2026, the Group's exposure to interest rate risk and the effective weighted average interest rate for each class of financial asset and liability is set out in the table below:

	Weighted average interest rate	Floating interest rate	Non-interest bearing	Total

Fair value hierarchy

AASB 13 requires the Group to classify fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Directors. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The table below sets out the Group's financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 30 June 2026. Financial assets are separated between those classified as Fair Value through Profit and Loss (FVTPL) and those classified as Fair Value through Other Comprehensive Income according to AASB 9.

Investment in Professionally Managed Account	65,045	-	-	65,045
Financial assets held at FVOCI				
Loans receivable	-	288,158	-	288,158

During the reporting period ending 30 June 2026 there were no transfers between Level 1 and Level 2 fair value measurements.

Financial instruments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, certain unlisted unit trusts and exchange traded derivatives.

Investments classified within level 2 have inputs based on quoted and unquoted prices. Loans receivable are classified within level 2. The loans are valued using a discounted cash flow approach which reflects the terms of the instrument and the timing of cash flows. The rate used to discount future cash flow is derived from observable data for similar loans.

15. Employee benefit reserve

Employee benefit shares are issued under the Employee and Director Share Plan (EDSP). The majority of EDSP shares (EDSP tranches 1, 2 and 3) were approved at the company's AGM on 11 November 2020, replacing the Long-Term Incentive Plan and Employee Share Option Plan.

The number of shares outstanding and employee benefit reserve at the beginning and the end of the year ended 30 June 2026 is as follows:

Nigel Poole	1,488,888 shares
Alastair Davidson	1,488,888 shares
Andrew Ward	300,000 shares

The fair value at grant date of the modified EDSP shares is determined using a Binomial model. The inputs used include:

For personal use only

- the share price at grant date
- vesting price
- vesting period
- expected volatility (55%)
- expected dividends (1% yield)
- risk free interest rate (3.73%)
- expected life of the option

Expected volatility is based on historic volatility and the implied volatility of comparable exchange traded options. The cost of the EDSP shares is recognised over the applicable vesting period through the statement of comprehensive income.

The cost of EDSP shares issued are amortised over the applicable vesting period through the statement of comprehensive income.

16. Issued capital

	2026		2025	
Fully paid ordinary share capital	Shares	$	Shares	$
Balance at the beginning of the year	110,822,537	58,554,082	110,882,537	58,561,295

Balance at the end of the year	110,714,524	58,542,318	110,822,537	58,554,082

An additional 31,424,614 shares are issued, as part of the EDSP detailed in Note 15 and the Directors Report. The shares have a non-recourse loan outstanding.

Under the EDSP, the director or employee can repay the loan by forfeiting the shares issued under the plan. The shares vest after certain time periods and may be forfeited prior to the loan repayment date and have therefore not been included in the issued share capital total.

All shares have no par value.

(a) Terms and conditions

The Company has ordinary shares on issue. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at shareholder meetings.

(b) Capital Management

The Group's policy is to maintain a strong capital base so as to maintain investor and market confidence. To achieve this the Directors monitor the monthly performance of the operating entities, the Group's management expenses, and share price movements. Capital relates to equity attributable to investors. The Group maintains liquid capital to meet its responsibilities as a responsible entity.

The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios to support its business and maximise shareholder value. The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust any dividend payment to investors, capital returns or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the years ended 30 June 2026 and 30 June 2025.

17. Related party information

2025	1,234,957	131,490	18,500	(13,950)	7,290	1,378,285

Detailed remuneration disclosures are provided in the remuneration report contained in the Directors' Report.

The Directors' remuneration excludes insurance premiums paid and payable by the Group in respect of Directors' liability insurance. Apart from the details disclosed in this note and the Directors' Report, no key management personnel have entered into a material contract with the Group during the financial year.

The Directors of InvestSMART Group Limited are responsible for determining and reviewing compensation arrangements for the Managing Director and key management personnel. The Directors also assess the appropriateness of the nature and amount of emoluments of each Director on a periodic basis by reference to workload and market conditions. The overall objective is to ensure maximum stakeholder benefit from the retention of a high-quality board whilst constraining costs.

Fundlater loan amounts outstanding to Directors at the beginning and end of the reporting period are:

	Balance at 30 June 2025 ($)	**New Loans $**	**Repayments made $**	**Fees charged $**	**Balance at 30 June 2026 ($)**
Paul Clitheroe	-	6,000	(1,300)	100	4,800

Total	5,675	12,000	(8,795)	700	9,580

The Fundlater loans are held by Eureka Asset-Backed Loan Fund, a Fund issued by InvestSMART Funds Management Limited. The loans are issued at arms-length on the same terms as are made to an unrelated person.

Eureka Asset-Backed Loan Fund commenced operations on 6 April 2022. The assets of the Fund consist of Fundlater loans receivable at 30 June 2026. During the year Eureka Asset-Backed Loan Fund purchased loans of $1,894,178 (2025: $1,089,540) from InvestSMART Financial Services Pty Ltd at fair value. The Group may be required to repurchase Fundlater loans where they are delinquent within one month of sale to EABL. Refer to Note 6 and Note 20 for further disclosure.

Investments in associates are disclosed in Note 10 (b). The Group owned 3 units in Professionally Managed Accounts, a scheme issued by InvestSMART Funds Management Limited, at 30 June 2026 (2025: 2 units). The Group received management fees from managed investment schemes classified as investments in associates of $1,307,213 for the year ended 30 June 2026 (2025: $803,279). The Group held receivables for management fees from managed investment schemes classified as investments in associates at 30 June 2026 of $128,427 (2025: $106,490).

The accounting policies of the parent entity, InvestSMART Group Limited, used in determining the financial information shown above, are the same as those applied in the Group's consolidated financial statements, as detailed in Note 2.

24. Segment information

The Group has only one reportable segment. The Group is engaged solely in retail financial services conducted in Australia, deriving revenue from commissions, subscriptions and funds management fees. The entity's operations are merged across subsidiaries, management, location and presentation of reporting. The operating segment identification is based on the internal reports that are reviewed and used by the Board of Directors in assessing performance and in determining the allocation of resources. There is no single customer that represents more than 10% of revenue.

25. Events occurring after reporting date

On 20 May 2026 a proposed sale of the Intelligent Investor Business, comprising the Intelligent Investor website and management rights to its four Intelligent Investor exchange traded funds (collectively Intelligent Investor) to Teaminvest Private Group Limited (TIP) (ASX:TIP) was announced. The proposed transaction is subject to a number of conditions precedent. The Group has assessed that held-for-sale and discontinued operation classification under AASB 5 is not supportable at 30 June 2026. At the date of this report the proposed sale remains subject to all conditions precedent in the original term sheet, with the exception of ASX confirmation that it will not exercise its discretion to require InvestSMART to meet the requirements in chapters 1 and 2 of the Listing Rules.

There have been no other significant events since 30 June 2026 up to the date of this report.

INDEPENDENT AUDITOR'S REPORT

To the members of InvestSMART Group Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of InvestSMART Group Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2026, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

(i) Giving a true and fair view of the Group's financial position as at 30 June 2026 and of its financial performance for the year ended on that date; and

(ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to audits of the financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of

BDO Audit Pty Ltd ABN 33 134 022 870 is a member of a national association of independent entities which are all members of BDO International Ltd, a UK company limited by guarantee, and form part of the international BDO network of independent member firms. Liability limited by a scheme approved under Professional Standards Legislation.

our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of Share-Based Payments

Key audit matter	How the matter was addressed in our audit
Note 16 of the financial report discloses an employee benefits expenses in relation to the share-based payments. The valuation of the share-based payments is a key audit matter due to the complexity in the technical accounting treatment and the degree of judgement and estimation in inputs for the fair value of the option.	To address the matter, our audit procedures included, amongst others: • Reviewed the terms of new and modified employee share option arrangements, including the modification approved during FY26, and assessed the appropriate accounting treatment under AASB 2 Share-based Payment; • Obtained management's share-based payment worksheets and calculations and assessed whether the accounting treatment adopted was consistent with the requirements of AASB 2; • Assessed management's methodology for determining the fair value of share options at grant date and/or modification date, including assessing key valuation inputs and assumptions applied; • Involved internal valuation specialists where required to assess the appropriateness of the valuation methodology and key inputs used; • Assessed whether vesting conditions were appropriately considered in the valuation and expense recognition calculations; • Recalculated the share-based payment expense recognised during the year and assessed whether the expense was recognised over the appropriate vesting period; and • Evaluated whether the related disclosures in the financial report were appropriate and compliant with AASB 2, including disclosures relating to key judgements, valuation assumptions and accounting policies adopted.

Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2026, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of:

a) the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and

b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*; and

for such internal control as the directors determine is necessary to enable the preparation of:

i) the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and

ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (http://www.auasb.gov.au/Home.aspx) at:
