# Balance Sheet

- For personal use only.
- All balances impacted by the consolidation of the Fredon balance sheet into the Group.
  - Financial debt increased to \$499.6 million due to the funding of the Fredon acquisition.
  - Working capital, balance increased to negative \$100.3 million, primarily due to the acquisition of Fredon, which runs a negative balance due to high level of upfront client payments and increased focus on customer collections across the Group.
  - Current tax liabilities decreased due to tax payments made to the ATO.
  - Intangibles and goodwill increased due to the Fredon acquisition.
  - Net debt increased to \$265.8 million, with leverage excluding AASB 16 increasing to 0.37x which remains well below targeted leverage levels.

# Cash Flow

For personal use only

Cash balances increased to \$319.7 million with operating cash conversion of 93.8%.

\$92.9 million tax payments reflects the resumption of normal monthly tax instalments paid to the ATO following utilisation of carry forward tax losses and the conclusion of the benefit of accelerated capital allowances during Covid period.

Capital expenditure flat at \$146 million.

Net bank drawdowns of \$201.3 million primarily related to the acquisition of Fredon.

Net asset financing paid down by \$91.3 million reflecting \$34.5 million of new drawdowns and lease repayments of \$24.7 million.

(1) Excludes capitalised facility fees of \$0.7 million.

- On 31 July 2026, the Group executed amendments to its senior banking facilities, increasing the total committed facility limits by \$300 million.
- The revised facilities were implemented to broaden the Group's banking facility capability and lender diversification.
- Refinancing completed on improved terms and pricing, comprising a \$500 million three year revolving facility, \$150 million four year revolving facility, and a \$50 million one year working capital facility, enhancing liquidity flexibility and extending debt maturity profiles.
- In addition, a \$100 million uncommitted accordion has been negotiated, which if exercised would take total available bank facilities to \$800 million.

# Strategic Sector Exposures

Our strategy has successfully created the most diversified Australian listed industrial service provider

This model provides comprehensive capabilities throughout the project lifecycle, spanning engineering, manufacturing, construction, operations, maintenance and the supply of OEM products.

## Civil

- Roads and bridges
- Public and defence infrastructure
- Rail formations
- Mine development
- Bulk earthworks
- Renewable energy projects
- Airstrips
- Commercial and residential subdivisions

## Mining

- Whole of mine management
- Mine development
- Load and haul
- Ore handling preparation plants
- Mine site rehabilitation
- Full scope drill and blast
- Explosives supply and management
- Maintenance services
- Mobile equipment maintenance
- Service vehicle manufacture and sales

## MET

- Apron, belt and hybrid feeders
- Materials handling specialists
- Build Own Operate
- Structural, mechanical and piping work
- Maintenance services
- Process controls
- E&I design and construction
- Full EPC capability
- Non-process infrastructure
- Routine preventative maintenance and shutdowns
- Offsite repairs and fabrication services
- Product support, spare parts and service
- Heat treatment
- Switchboard / panel manufacture

## EMIT

- Full service electrical design, installation and maintenance services
- Design, installation and maintenance of HVAC systems
- Design, installation and maintenance of electrical and ventilation systems on infrastructure projects (including tunnels, rail, industrial, water)
- Installation and services for audio visual, telecommunications and data system infrastructure

# Segment Financial Overview

| EMIT   | \$684.3M              | \$36.1M             |

For personal use only

# Civil

# Civil

- Civil revenue increased to \$862.5 million in FY26, up 4.7% from \$823.7 million in FY25, underpinned by the strong growth in the Urban business.
- Civil underlying EBITA increased slightly compared to FY25, demonstrating resilience despite a one-off project loss recognised in the first half of the financial year.
- In Western Australia, Civil is well positioned to benefit from continued sustaining capital investment in Pilbara iron ore and investment in the development of critical and precious metal projects. This strong resource driven momentum is complimented by continued Government and private investment in infrastructure projects including roads, ports and defence.
- In Queensland, the market is set to benefit from the Brisbane Olympics, investment in Government infrastructure projects including roads, water and wastewater, and migration driving demand for the Urban business.

|                        | FY26  | FY25  | Movement |

# Mining

# Mining

- The Mining segment delivered a strong FY26 performance, with underlying EBITA increasing 15.6% to \$139.9 million, supported by strong operational performance and no adverse weather impacts in Queensland.
- Revenue was broadly in line with FY25, reflecting increased activity at SWC and the Curragh South Mine project, partially offset by the impact of reduced scope at Golding’s South Australian operations.
- Looking forward the Mining business will benefit from the commencement of the Meandu project and the expansion of Castle Hill and is well positioned to benefit from continued investment in both existing operations and new resource developments.

|                   | FY26    | FY25    | Movement |

# Minerals, Energy & Technologies

For personal use only.

# Minerals, Energy & Technologies

- MET delivered a strong increase in revenue in FY26, with revenue rising 35.1% to \$1,259.2 million. Underlying EBITA increased 40.5% to \$96.0 million, reflecting the successful execution of a diversified portfolio of projects and continued strong demand across the segment’s core markets.
- The result included strong performances from DIAB and RCR and another record performance from Primero, which benefited from the significant construction and commissioning activity on the KCGM Fimiston Growth Project, together with strong operational execution across a number of major projects.
- MET outlook is positive with active tenders at a record \$2.2 billion across gold, critical minerals, power infrastructure and bulk commodities. MET is well positioned to benefit from positive market momentum driving demand for new resource projects and existing facility expansions and upgrades. The RCR parts, services and maintenance businesses continue to grow market share. Demand for RCR’s OEM Sealed Pan Feeder has seen broader uptake from major clients.
- The Primero business is continuing to develop options to commercialise Primero’s alternate lithium process technology, ALi. PMET Resources has also recently endorsed the process for their potential refining pathway.

# Electrical, Mechanical (HVAC), Infrastructure, Technology

# Electrical, Mechanical (HVAC), Infrastructure, Technology

- Fredon delivered a strong financial performance in its first nine months as part of the Group, contributing revenue of \$684.3 million and an underlying EBITA margin of 5.3%, exceeding the acquisition assumptions.
  - Since acquisition, Fredon has successfully completed several significant projects, including Westmead Hospital Paediatric Services Building, Geraldton Hospital and Victoria Cross Tower - Over Station, whilst continuing to build its order book. Fredon secured several notable contract awards, including four new data centre contracts awarded in December 2025 with a combined value of approximately \$150 million and an electrical works package on a major Commonwealth of Australia infrastructure project located in Northern Australia, valued at approximately \$110 million, with completion planned for mid-2028.
- In FY27 Fredon is expected to benefit from increasing investment in Australian Government-funded health and aged care projects, airports, defence, data centres and distribution infrastructure, while continuing to expand its presence across both public and private sector infrastructure. The opportunities for EMIT are significant as reflected in the \$3.1 billion of active tenders.

# Outlook

# Outlook & Guidance

The outlook remains strong for the enlarged group

## Outlook

Continued strong growth will be delivered in FY27 underpinned by:

- Growing Group pipeline currently \$29.1 billion.
- Current active tenders of \$11.1 billion.
- \$7.5 billion of work in hand including repeat business.

## FY27 Guidance <sup>(1)</sup>

- Full year revenue is expected to be between \$4.6 billion to \$4.8 billion, of which ~85% is secured.
- Underlying EBITA is expected to be between \$320.0 million to \$330.0 million.
- Cash conversion consistent with long-term averages.

The content should be read in conjunction with NRW's other periodic and continuous disclosure announcements lodged with the Australian Securities Exchange which are available at [www.asx.com.au](http://www.asx.com.au), and also available on NRW's website at [www.nrw.com.au](http://www.nrw.com.au).

## Future and Past Performance

- To the extent this Presentation contains certain “forward-looking statements” and comments about future events (including projections, guidance on future earnings and estimates) these statements are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. Such statements by their nature involve known and unknown risks, uncertainty and other factors, many of which are outside the control of NRW. As such, undue reliance should not be placed on any forward-looking statement and no representation or warranty is made by any person as to the likelihood of achievement or reasonableness of any forward-looking statements, forecast financial information or other forecast.
- Similarly, past performance should not be relied upon (and is not) an indication of future performance. It represents NRW's historical financial position at a specific date (and reference should be had to the full accounts released to ASX from which it is derived).
- NRW is under no obligation to update or correct the content of this Presentation after its date of release.

## Disclaimer

- No representation or warranty, express or implied, is made by NRW, its related bodies corporate, or respective officers, directors, employees, agents or advisers, as to the accuracy, reliability, completeness or fairness of the information, opinions and conclusions contained in this Presentation.
- To the maximum extent permitted by law, those same parties expressly disclaim any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss or damage arising from the use of information contained in this Presentation.

## No Offer or Recommendation

- This Presentation and any oral presentation accompanying it does not constitute an offer, invitation or recommendation to purchase, subscribe, hold or sell securities in NRW. It is not intended as advice to investors and does not seek to take into account the investment objectives, financial position or needs of a specific person or entity. Such persons or entities should seek their own independent advice before making any investment decision.
