Chair's Report

Dear Shareholders,

I am pleased to present this report of WCM Global Growth Limited (**WQG** or the **Company**) for the year ended 30 June 2026 (**FY2026**).

Results and Performance

The Company achieved a net operating profit after tax for FY2026 of $66,719,000 (30 June 2025: $69,525,000). After-tax profit for the period is primarily attributed to an increase in the value of the Company's investment portfolio and the investment performance of the Company's investment advisor, WCM Investment Management, LLC (**WCM**).

For FY2026, the pre-tax net tangible asset (**NTA**) value per share of the Company has increased from $2.03 as at 30 June 2025 to $2.18 as at 30 June 2026. The Company's after-tax NTA per share increased from $1.80 to $1.94 over the same period. The higher NTA was after the payment of four quarterly dividends during the financial year totalling 8.52 cents per share (**cps**).

The Investment Advisor and Investment Portfolio

WCM is a California-based investment management firm specialising in active global and emerging market equities. Founded in 1976, WCM is majority employee owned and manages A$197.7 billion (as at 30 June 2026) on behalf of institutional and retail investors around the world including Australia.

WCM's two key criteria for any company to be considered for inclusion in the WCM Quality Global Growth Strategy are:

- a rising competitive advantage (or expanding economic moat); and
- a corporate culture that supports the expansion of this moat.

WCM believes the direction of a company's economic moat is of more importance than its absolute width or size. Its research is therefore focused on identifying those companies with a positive moat trajectory as measured by a rising return on invested capital as opposed to those with a large but static or declining moat. WCM also strongly believes that corporate culture is a key determinant of a firm's ability to achieve a consistently growing moat. WCM has developed a proprietary approach to analysing corporate culture and has investment team members solely dedicated to this part of its process.

Excellent Long-term Performance

The Company's portfolio achieved a return of 16.58% in FY2026, compared with the MSCI All-Country World Index (ex-Australia) (**Benchmark**), which delivered a return of 18.26%. The portfolio has delivered returns in excess of the Benchmark over three, five years and since inception.

The strong investment performance since inception is a direct reflection of both the quality and expertise of WCM and its unique investment strategy as detailed above.

Historical returns of the WQG portfolio versus its Benchmark are shown below to 30 June 2026:

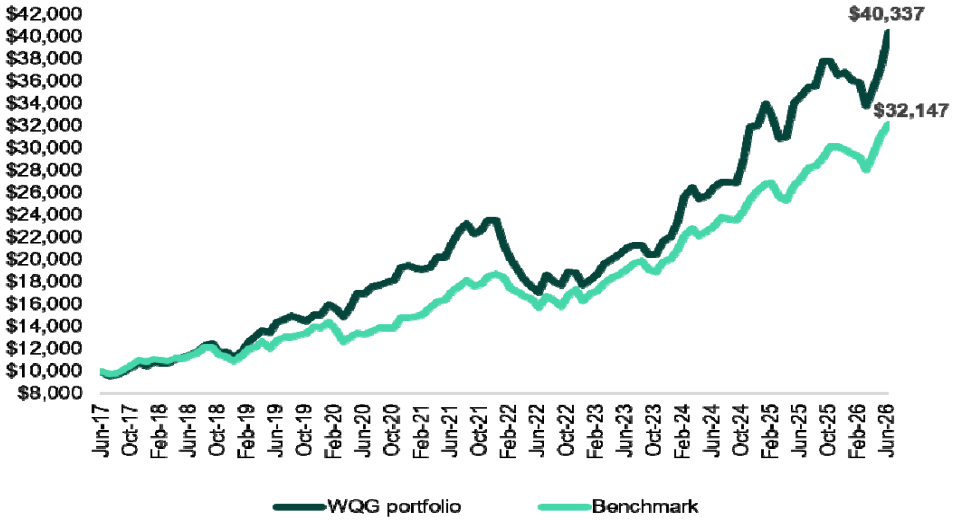

Data as at 30 June 2026 in AUD. Performance presented is net of fees and includes the reinvestment of all dividends and income. Past performance is not indicative of future results. Inception date of WCM Global Growth Limited is 21 June 2017.

The long-term performance of the Company's investment portfolio remains strong. Since inception in June 2017, the WQG portfolio has returned 16.71% per annum after all fees compared with the Benchmark of 13.81%. This is consistent with the longer-term performance of the WCM Quality Global Growth Strategy Composite, on which WQG's portfolio is based, which has returned 14.98% per annum since inception in 2008.

Chair's Report (continued)

Since listing on the ASX in June 2017, the Company's underlying portfolio, assuming an initial base of $10,000, has grown to $40,337 as at 30 June 2026, as shown in the chart below.

Data as at 30 June 2026 in AUD. Value presented based on the portfolio return in AUD and calculated before expenses and taxes and after investment management and performance fees. Portfolio value includes the reinvestment of dividends and income. Past performance is not indicative of future results.

Increased fully franked final dividend and upward revision to progressive quarterly dividend intention

The Board had previously advised of its intention to pay a fully franked final dividend with respect to FY2026 of 2.24 cps in line with the Company's progressive quarterly dividend policy.

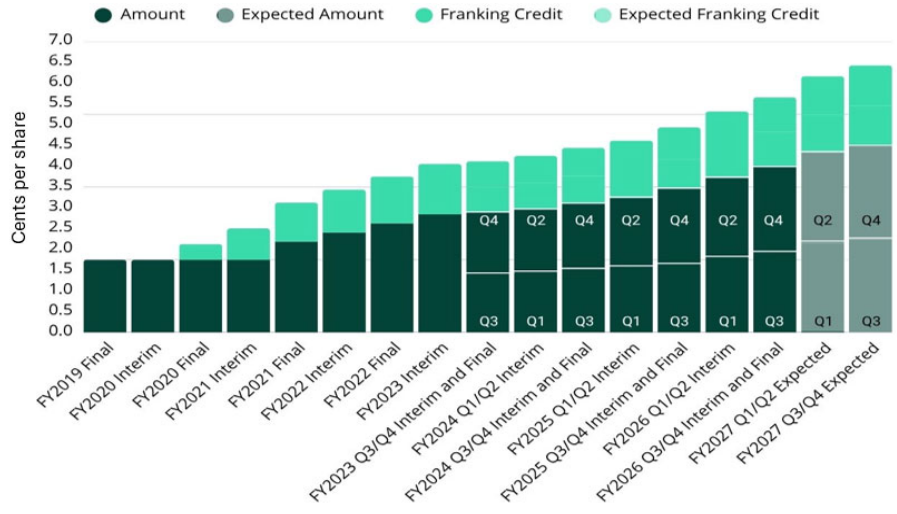

However, based on the strong financial results of the Company over the past year and its dividend reserves, **the Board is pleased to announce an increased final dividend for the quarter ended 30 June 2026 (Q4 FY2026) of 2.35 cps, fully franked at a 30% tax rate.** The final dividend will be paid on 30 September 2026, with a record date of 14 September 2026.

The Company's strong financial position has also enabled the Board to revise upwards its previously announced future dividend intentions.

Following payment of the increased FY2026 final dividend of 2.35 cps on 30 September 2026, the Board's present intention is to pay the following quarterly dividends, fully franked at a 30% tax rate[1]:

- 2.45 cps for the quarter ending 30 September 2026, to be paid in December 2026;
- 2.50 cps for the quarter ending 31 December 2026, to be paid in March 2027;
- 2.55 cps for the quarter ending 31 March 2027, to be paid in June 2027; and 2.60 cps for the quarter ending 30 June 2027, to be paid in September 2027.

The chart below shows the increasing dividend payments and forecast dividends in line with the Company's progressive dividend policy.

[1]Future dividends are subject to having sufficient profit reserves and franking credits and corporate, legal and regulatory considerations.

Chair's Report (continued)

Completion of Successful Entitlement Offer, Shortfall Offer and Placement

In March 2026, the Company successfully completed an Entitlement Offer, Shortfall Offer and Placement (**Capital Raising**) which raised approximately $84.8 million before costs from eligible WQG shareholders, as well as professional and sophisticated investors. Approximately 48.5 million new shares were issued in the Capital Raising.

The Board of the Company was pleased with participation in the Capital Raising, and believes the initiative provided a number of benefits for new and existing shareholders such as:

- a larger market capitalisation of the Company which should lead to increased liquidity;
- increased size and relevance of the Company in the marketplace;
- a more diverse shareholder base through the introduction of new investors and financial planning groups to the Company; and
- economies of scale on some operating costs.

The Company has invested the proceeds from the Capital Raising in accordance with the Company's investment strategy managed on behalf of WQG by WCM.

Vale Michael Liu

The Board was deeply saddened by the unexpected passing of Non-Executive Director Michael Liu in January 2026. A founding director at the time of WCM Global Growth Limited's ASX listing in 2017, Michael provided steady leadership and played a pivotal role as Chair of the Audit and Risk Committee. He was widely respected for his thoughtful judgement, professionalism and integrity, and his insights made a lasting contribution to the Company's governance and success. Michael will be remembered not only for his dedication to WQG, but also for the warmth and respect he showed to colleagues. He is greatly missed, and we extend our sincere condolences to his family and loved ones.

Outlook

Over the past 12 months, AGP International Management Limited, as investment manager of WQG, has made excellent progress in continuing to raise the Companys' market profile and increase its relevance in the marketplace, which have led to improved share price performance and increased liquidity. In FY2025, WQG traded at an average post-tax NTA discount of -1.9% (based on the month end values). In contrast, for FY2026, WQG traded at an average post-tax NTA premium of 3.1% (based on the month end values).

The increased final dividend for the quarter ended 30 June 2026 and the progressive dividend policy outlined above will continue to add further shareholder value in FY2027.

The Board is pleased with the investment performance of the Company in FY2026. Additionally, the completion of the Capital Raising has contributed to the significantly increased size of the Company with total assets rising to $604 million as at 30 June 2026, up 31% since 30 June 2025, and the total number of shareholders growing by 32% to 6,547 over the same period.

The Company's investment approach remains sound and the portfolio remains well placed for continued long-term growth.

We thank shareholders for their ongoing investment in the Company.

Yours faithfully,

Valentina Stojanovska Cal
Chair

Directors' Report (continued)

Company overview and principal activities

The principal activity of the Company during the financial year was investment into a diversified portfolio of globally listed quality high growth companies sourced from developed and emerging markets outside of Australia, with the primary objective of providing long-term capital growth.

Results

The Company's net operating profit after tax for FY2026 was $66,719,000 (30 June 2025: $69,525,000). Basic earnings per share amounted to 27.8 cents per share for FY2026 (FY2025: 33.5 cents per share).

Review of operations

The Company's investment portfolio generated positive returns during FY2026, with fair value gains and investment income contributing to the Company's financial performance.

The Company continued to invest funds in accordance with its stated investment strategy and in accordance with the provisions of its Constitution.

The Company's policy is to maintain an unhedged portfolio, that is, its value is exposed to foreign currency movements. A rise in the Australian dollar detracts from the portfolio's value and a fall increases the value in Australian dollar terms if all other factors are unchanged.

For FY2026, the pre-tax net tangible asset (**NTA**) value per share of the Company has increased from $2.03 as at 30 June 2025 to $2.18 as at 30 June 2026. The increase in NTA was after the payment of a 2.06 cents per share final dividend (100% franked) for FY2025 on 30 September 2025, a 2.09 cents per share interim dividend (100% franked) for FY2026 paid on 31 December 2025, a 2.16 cents per share interim dividend (100% franked) for FY2026 paid on 15 April 2026 and a 2.21 cents per share interim dividend (100% franked) for FY2026 paid on 30 June 2026.

Refer to the Chairman's Report on page 1 for further information on the Company's results, strategy and future outlook.

Significant changes in the state of affairs

There have been no significant changes in the state of affairs of the Company that occurred during the year under review other than as noted in the Chair's Report and this report.

Dividends paid, recommended and declared

The final dividend for FY2025 of 2.06 cents per share (100% franked at the corporate tax rate of 30%) was paid on 30 September 2025, with a Record Date of 12 September 2025.

An interim dividend of 2.09 cents per share (100% franked at the corporate tax rate of 30%) was paid on 31 December 2025, with a Record Date of 11 December 2025.

An interim dividend of 2.16 cents per share (100% franked at the corporate tax rate of 30%) was paid on 15 April 2026, with a Record Date of 27 March 2026.

An interim dividend of 2.21 cents per share (100% franked at the corporate tax rate of 30%) was paid on 30 June 2026, with a Record Date of 11 June 2026.

On 20 August 2026, the Board of WCM Global Growth Limited declared a final dividend of 2.35 cents per share (100% franked at the corporate tax rate of 30%). The dividend is to be paid on 30 September 2026, with a Record Date of 14 September 2026.

Refer to Note 6 of the financial statements for further information on dividends.

Events after the reporting date

On 18 August 2026, the Company advised the ASX that its pre-tax and post-tax NTA per share was $2.11 and $1.90 respectively as at 14 August 2026.

Other than as disclosed elsewhere in this report, no other matters or circumstances have arisen since the end of the financial year that have significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future years.

Likely developments

The Company will continue to pursue its operating strategy to create shareholder value by investing in companies listed on global stock exchanges.

Directors' Report (continued)

Environmental regulation

The Company's operations are not subject to any significant environmental regulations under a law of the Commonwealth or of a state or territory of Australia.

Indemnification and insurance of directors, officers and auditors

During the financial year, the Company has paid insurance premiums insuring all the Directors and the officers which indemnifies them against any claim made against them subject to the conditions contained within the insurance policy. Further disclosure required under section 300(9) of the *Corporations Act 2001* is prohibited under the policy terms. To the extent permitted by law and professional regulations, the Company has agreed to indemnify its auditors, Ernst & Young (**EY**), as part of the terms of its engagement against claims by third parties arising from the audit (for an unspecified amount). No payment has been made by the Company to EY in this respect during or since the financial year ended 30 June 2026.

Proceedings on behalf of the Company

No person has applied for leave of court to bring proceedings on behalf of the Company.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* in relation to the audit for the financial year is provided with this report.

Non-audit and other assurance services provided by auditor

The Company's auditor is EY (2025: EY). Non-audit services are approved by the Audit and Risk Committee.

The Board of Directors, in accordance with advice from the Audit and Risk Committee, is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001.* The Directors are satisfied that the services disclosed in Note 16 did not compromise the external auditor's independence for the following reasons:

- all non-audit services are reviewed and approved to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- the nature of the services provided does not compromise the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

1. Statement of material accounting policies

The following is a summary of material accounting policies adopted by the Company in the preparation and presentation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

(a) Basis of preparation of the financial report

This financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*.

The financial report covers the activities of WCM Global Growth Limited. The Company is limited by shares, incorporated and domiciled in Australia. The Company is a for-profit entity for the purpose of preparing the financial statements.

The financial report was authorised for issue by the Directors on 20 August 2026.

(i) Compliance with IFRS

The financial statements of the WCM Global Growth Limited also comply with International Financial Reporting Standards (**IFRS**) as issued by the International Accounting Standards Board (**IASB**).

(ii) Historical cost convention

The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets as described in the accounting policies.

The Statement of Financial Position has been presented in order of liquidity. The financial report is presented in Australian Dollars which is the functional currency of the Company.

(iii) Critical accounting estimates

The preparation of the financial report requires the use of certain estimates and judgements in applying the entity's accounting policies. Those estimates and judgements significant to the financial report are disclosed in Note 2.

(b) Accounting for profits and losses

At the conclusion of each calendar month, the Company records profits earned to Retained Earnings with the intention of transferring undistributed Retained Earnings to a Dividend Reserve subject to Board approval. Losses incurred at the end of each calendar month must be recouped before a transfer to the Dividend Reserve can occur. Losses incurred at the end of each financial year are transferred to Accumulated Losses. The above process enables the Directors to declare or determine to pay dividends from the Dividend Reserve to shareholders at a future date.

(c) Going concern basis

This financial report has been prepared on a going concern basis.

(d) Revenue

Dividend income is recognised on the ex-dividend date with any related withholding tax recorded as an expense.

Interest income is recognised in the Statement of Profit or Loss and Other Comprehensive Income using the effective interest rate method for all financial instruments that are not held at fair value through profit or loss.

Net gains/(losses) on financial assets and financial liabilities held at fair value through profit or loss arising on a change in fair value are calculated as the difference between the fair value at the end of the reporting period and the fair value at the previous valuation point. Net gains/(losses) do not include interest or dividend income.

All revenue is stated net of the amount of goods and services tax (**GST**).

(e) Expenses

All expenses, including the Investment Manager's fees, are recognised in the Statement of Profit or Loss and Other Comprehensive Income on an accruals basis.

(f) Trade and other receivables

Trade and other receivables may include amounts for dividends, interest and amounts due from brokers. Dividends are accrued when the right to receive payment is established in accordance with the policy set out in Note 1(d) above. Interest is accrued at the reporting date from the time of last payment in accordance with the policy set out in Note 1(d) above. Trade and other receivables also include such items as Reduced Input Tax Credits (**RITC**).

For personal use only

1. Statement of material accounting policies (continued)

(g) Trade and other payables

Trade and other payables are recognised when the Company becomes obliged to make future payments resulting from the purchase of goods and services. Payables include liabilities, amounts due to brokers and accrued expenses owed by the Company which are unpaid as at the end of the reporting period.

(h) Foreign currency translation

Transactions in foreign currencies are brought to account at the prevailing exchange rates at the date of the transaction. Foreign currency monetary items are translated at the exchange rate existing on reporting date. Non-monetary assets and liabilities carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. The differences arising from these foreign currency translations are recognised in profit/(loss) on the Statement of Profit or Loss and Other Comprehensive Income in the period in which they arise.

(i) Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks, short-term deposits with an original maturity of three months or less held at call with financial institutions, and bank overdrafts.

(j) Income tax

Current income tax expense or benefit is the tax payable or receivable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities.

Deferred tax balances

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are recognised for temporary differences at the applicable tax rates when the assets are expected to be recovered or liabilities are settled. No deferred tax asset or liability is recognised in relation to temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

(k) New standards adopted as at 1 July 2025

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2025 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

(l) Financial instruments

(i) Classification and measurement

Financial assets

The Company classifies its investments based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets.

For equity securities, the contractual cash flows of these instruments do not represent solely payments of principal and interest. Consequently, these investments are measured at fair value through profit or loss. The Company's portfolio of financial assets is managed and performance is evaluated on a fair value basis in accordance with the Company's documented investment strategy. The Company's policy is to evaluate the information about these financial assets on a fair value basis together with other related financial information.

A financial asset is measured at amortised cost only if both of the following conditions are met:

- the asset is held with a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate (**EIR**) method and are subject to impairment.

For personal use only

1. Statement of material accounting policies (continued)

(l) Financial instruments (continued)

(i) Classification and measurement (continued)

Financial liabilities

Classification of financial liabilities remains unchanged for the Company. Financial liabilities continue to be measured at either amortised cost or fair value through profit or loss.

(ii) Recognition/derecognition

The Company recognises financial assets and financial liabilities on the date that it becomes party to the contractual agreement (trade date) and recognises changes in the fair value of the financial assets and financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments has expired or the Company has transferred substantially all the risks and rewards of ownership.

(iii) Impairment

Impairment of financial assets is recognised based on the lifetime expected credit loss which is determined when the credit risk on a financial asset has increased significantly since initial recognition. In order to determine whether there has been a significant increase in credit risk since initial recognition, the entity compares the risk of default as at the reporting date with the risk of default as at initial recognition using reasonable and supportable data, unless the financial asset is determined to have low credit risk at the reporting date.

For trade and other receivables, the simplified approach is used, which requires recognition of a loss allowance based on the lifetime expected credit losses. As a practical expedient, the Company uses a provision matrix based on historical information and adjusted for forward-looking estimates in order to determine the lifetime expected credit losses. See Note 3(c) for further details

Any change in expected credit losses between the previous reporting period and the current reporting period is recognised as an impairment gain or loss in profit or loss. There is no impairment during the year ended as at 30 June 2026 (30 June 2025: Nil).

(m) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the Statement of Financial Position are shown inclusive of GST.

Cash flows are presented in the Statement of Cash Flows on a gross basis, except for the GST component of investing and financing activities, which is disclosed as operating cash flows.

(n) Rounding of amounts

In accordance with *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2026/183*, the amounts in the Directors' Report and in the financial statements have been rounded to the nearest thousand dollars ($000's), or in certain cases, to the nearest dollar (where indicated).

(o) Standards issued but not effective

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below, except for those standards which, in the opinion of the Board, will clearly not impact the Company. The Company intends to adopt these standards, if applicable, when they become effective.

AASB 18 *Presentation and Disclosure in Financial Statements*

In June 2024, the AASB issued AASB 18 *Presentation and Disclosure in Financial Statements* to improve how entities communicate in their financial statements, with a particular focus on information about financial performance in the income statement. AASB 18 will replace AASB 101 *Presentation of Financials Statements*.

The key presentation and disclosure requirements established under AASB 18 include the presentation of newly defined subtotals in the income statement and enhanced requirements for aggregating information.

AASB 18 applies to for-profit entities for annual reporting periods beginning on or after 1 January 2027.

The Company is yet to assess fully the disclosure impacts of applying AASB 18, however it expects this will not materially affect the Company's financial statements.

There are no other standards or interpretations that are issued but not yet effective and that are expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

For personal use only

2. Significant accounting estimates and judgements

Certain accounting estimates include assumptions concerning the future, which, by definition, will seldom represent actual results. Estimates and assumptions based on future events have a significant inherent risk, and where future events are not as anticipated there could be a material impact on the carrying amounts of the assets and liabilities discussed below:

(a) Income tax

Deferred tax assets and liabilities are based on the assumption that no adverse change will occur in the income tax legislation and the anticipation that the Company will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

Deferred tax assets are recognised for deductible temporary differences as management considers that it is probable that future taxable profits will be available to utilise those temporary differences.

(b) Fair value measurements

Certain financial assets and liabilities are measured at fair value. Fair values have been determined in accordance with fair value measurement hierarchy. Refer to Note 3(e) for the details of the fair value measurement key assumptions and inputs.

3. Financial risk management

(a) Objectives, strategies, policies and processes

The Company's activities may expose it to a variety of financial risks: market risk (including price risk, interest rate risk and currency risk), credit risk, liquidity risk and risk relating to fair value.

The Company's overall risk management programme focuses on ensuring compliance with the Company's Investment Management Agreement **(IMA)** and seeks to maximise the returns derived for the level of risk to which the Company is exposed. Financial risk management is carried out by an Investment Manager under policies approved by the Board of Directors of the Company.

The Company uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate and price risks, and ratings analysis for credit risk.

(b) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: price risk, interest rate risk and currency risk. Market risk is managed and monitored using sensitivity analysis and minimised through ensuring that all investment activities are undertaken in accordance with established mandates and investment strategies.

The sensitivity of the Company's equity and profit/(loss) before income tax to price risk is measured by the reasonably possible movements approach. This approach is determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in interest rates, historical correlation of the Company's investments with the relevant benchmarks and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Company invests. As a result, historic variations in the risk variables are not a definitive indicator of future variations in the risk variables.

(i) Price risk

Equity price risk is the risk that the fair value of equities will fluctuate because of changes in market prices, whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

Equity price risk exposure arises from the Company's investment portfolio. The investments are classified on the Statement of Financial Position at fair value through profit or loss. All securities investments present a risk of loss of capital.

The Investment Adviser mitigates this price risk through diversification and a careful selection of securities and other financial instruments within specified limits set by the Board.

The Company's overall market positions are monitored on a daily basis by the Company's Investment Manager and are reviewed on a monthly basis by the Board of Directors.

The Company’s net assets include investments in equity securities.

At 30 June 2026, the Company’s overall market exposures are set out on the following page:

For personal use only

3. Financial risk management (continued)

(b) Market risk (continued)

(i) Price risk (continued)

	30 June 2026 $'000	30 June 2025 $'000
Securities at fair value through profit or loss	**567,011**	442,704

At 30 June 2026, the Company's market risk is affected by changes in market prices. If the exposure of financial assets and liabilities had increased by 10% with all other variables held constant, this would have increased net assets attributable to shareholders and net profit after tax by approximately $39,691,000 (2025: $30,989,000). Conversely, if the exposure of financial assets and liabilities at 30 June 2026 had decreased by 10% with all other variables held constant, this would have decreased net assets attributable to shareholders and net profit after tax by approximately $39,691,000 (2025: $30,989,000).

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company's interest bearing financial assets and financial liabilities expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The Company has established limits on investments in interest bearing assets, which are monitored on a daily basis.

In accordance with the Company's policy, the Investment Manager monitors the Company's overall interest sensitivity on a daily basis and the Board of Directors reviews it on a quarterly basis. Compliance with the Company's policy is reported to the Board on a monthly basis.

At 30 June 2026, cash and cash equivalents to the value of $34,199,000 (2025: $17,859,000) are the only financial instrument subject to interest rate risk. The Company is not subject to significant amounts of interest rate risk due to fluctuations in the prevailing levels of market interest rates.

(iii) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company invests in securities and other investments which are denominated in foreign currencies and other assets and liabilities denominated in foreign currencies recorded in the normal course of business.

The table below demonstrates the impact of a reasonably possible 5% movement in currency rate as at the end of each reporting period for non-hedged foreign currency denominated securities and cash.

Currency	Change in Currency Rate %			Effect on comprehensive Income ($'000)	
			30 June 2026		30 June 2025
USD	5/(5)	**21,730**	**(21,730)**	13,754	(13,754)
GBP	5/(5)	**3,062**	**(3,062)**	2,851	(2,851)
EUR	5/(5)	**2,175**	**(2,175)**	2,630	(2,630)
KRW	5/(5)	**1,667**	**(1,667)**	-	-
SEK	5/(5)	**700**	**(700)**	1,050	(1,050)
CHF	5/(5)	**522**	**(522)**	-	-
JPY	5/(5)	**103**	**(103)**	680	(680)
HKD	5/(5)	**-**	**-**	840	(840)
DKK	5/(5)	**-**	**-**	330	(330)

Foreign currency exposure related to non-hedged monetary items is made up predominantly of United States Dollar (**USD**) cash deposits which are held at call with a major financial institution.

The above analysis calculates the effect of a reasonably possible movement in the currencies for non-hedged foreign currency denominated securities and cash disclosed above against the Australian Dollar (**AUD**) on the Statement of Profit or Loss and Other Comprehensive Income and the Statement of Financial Position.

Notwithstanding that investments in non-monetary items do not give rise to currency risk under the accounting standards, the Investment Manager monitors its exposure to each currency with both monetary and non-monetary financial instruments as a percentage of net assets attributable to shareholders in order to ensure that its risk to adverse currency movements remains within its mandate limits.

(b) Market risk (continued)

(iii) Currency risk (continued)

The table below sets out the Company's exposures to foreign exchange rates at the reporting date:

Currency	% of net assets	
	30 June 2026	30 June 2025
USD	**73**	62
GBP	**10**	13
EUR	**7**	12
KRW	**6**	-
SEK	**2**	5
CHF	**2**	-
HKD	**-**	4

DKK	**-**	1
	100	100

(c) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss to the other party by failing to discharge an obligation.

Credit risk arises from cash and cash equivalents, and deposits with banks and other financial institutions.

The Investment Manager manages credit risk by diversifying the exposure among counter parties and operating in liquid markets. The Company does not have any significant concentration of credit risk on an industry basis.

With respect to credit risk arising from the financial assets of the Company, the Company's exposure to credit risk arises from default of the counterparty, with the current exposure equal to the fair value of these investments as disclosed in the Statement of Financial Position. This does not represent the maximum risk exposure that could arise in the future as a result of changes in values, but best represents the current maximum exposure at the reporting date.

The Company holds no collateral as security or any other credit enhancements. There are no financial assets that are past due or impaired, or would otherwise be past due or impaired as at the reporting date and no amounts have been written off in the period.

(d) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial liabilities. This risk is controlled through the Company's investment in financial instruments, which under normal market conditions are readily convertible to cash. In addition, the Company maintains sufficient cash and cash equivalents to meet normal operating requirements.

In accordance with the Company's policy, the Investment Manager monitors the Company's liquidity position on a daily basis, and the Board reviews it on a quarterly basis.

Maturity analysis for financial liabilities

The table below analyses the Company's financial liabilities, excluding gross settled derivative financial liabilities, into relevant maturity groupings based on the remaining period at the Statement of Financial Position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

3. Financial risk management (continued)

(e) Fair values of financial assets and financial liabilities

The amounts of the Company's investments in the Statement of Financial Position are carried at fair value.

For the years ended 30 June 2026 and 2025, the Company did not have any financial assets and financial liabilities that were determined using valuation techniques. The fair values of the Company's financial assets and liabilities at fair value through profit or loss for the years then ended were determined directly, in full, by reference to quoted prices from the relevant global securities exchanges or by input other than quoted prices that were observable. The quoted market price used for financial assets and liabilities held by the Company is the closing price at the balance date. Financial assets and liabilities measured and recognised at fair value have been determined by the following fair value measurement hierarchy:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data.

The Company held $567,011,000 of Level 1 financial assets as at 30 June 2026 (30 June 2025: $442,704,000).

For all other financial assets and liabilities, the Directors consider that the carrying amounts approximate their fair values as all financial assets and financial liabilities not fair valued are short-term in nature.

(c) Rights of each type of share

Ordinary shares participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of shares held. At shareholders' meetings each ordinary share gives entitlement to one vote when a poll is called.

(d) Capital management

The Board of Directors is committed to prudent capital management and a conservative approach to protect shareholder value in all market conditions. The Company is not subject to any externally imposed capital requirements.

The Company's capital consists of issued capital, accumulated losses and a dividend reserve to preserve the Company's capacity to pay future dividends as per the dividend policy.

Independent auditor's report to the members of WCM Global Growth Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of WCM Global Growth Limited (the Company), which comprises the statement of financial position as at 30 June 2026, the statement of profit or loss and comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the *Corporations Act 2001*, including:

a. Giving a true and fair view of the Company's financial position as at 30 June 2026 and of its financial performance for the year ended on that date; and

b. Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the financial report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

1. Investment existence and valuation

Why significant	How our audit addressed the key audit matter
The Company has an investment portfolio consisting primarily of listed offshore equities. As at 30 June 2026, the financial assets made up approximately 93.9% of the total assets of the Company. As detailed in the Company's accounting policy, disclosed in Note 1(l) of the financial report, these financial assets are measured at fair value through profit or loss in accordance with the requirements of Australian Accounting Standards. Pricing, exchange rates and other market drivers can have a significant impact on the value of these financial assets. Accordingly, existence and valuation of the investment portfolio was considered a key audit matter.	Our audit procedures included the following: • Obtained and reviewed the assurance report on the relevant controls of the Company's administrators for the period 1 July 2025 to 30 June 2026, and assessed the external auditor's competence, objectivity, and findings. • Agreed all investment holdings, including cash accounts, to third party confirmations at 30 June 2026. • Assessed the fair value of all investments in the portfolio held at 30 June 2026 to independent market price sources. • Assessed the adequacy and appropriateness of the disclosures included in Note 4 and Note 9 to the financial report.

Information other than the financial report and auditor's report thereon

The directors are responsible for the other information. The other information comprises the information included in the Company's 2026 Annual Report other than the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of:

- The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- The consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001;* and

for such internal control as the directors determine is necessary to enable the preparation of:

- The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and

- The consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.]

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the audit of the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 8 to 9 of the directors' report for the year ended 30 June 2026.

In our opinion, the Remuneration Report of WCM Global Growth Limited for the year ended 30 June 2026, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
