Appendix 4E

Preliminary Final Report
to the Australian Securities Exchange

COMPANY DETAILS AND REPORTING PERIOD

Name of Entity	Dubber Corporation Limited
ABN	64 089 145 424
Year Ended	12 months ended 30 June 2026
Previous Corresponding Reporting Period	12 months ended 30 June 2025

RESULTS FOR ANNOUNCEMENT TO THE MARKET

	$'000	Percentage increase /(decrease) over previous corresponding period
Revenue from continuing operations[1]	35,070	(17%)
Loss from continuing activities after tax attributable to members[2]	(8,152)	(78%)
Net loss attributable to members	(8,152)	(78%)

Dividends (distributions)	**Amount per security**	**Franked amount per security**
Final Dividend	Nil	Nil
Interim Dividend	Nil	Nil
Record date for determining entitlements to the dividends (if any)	Not Applicable	

NET TANGIBLE ASSETS

	Current period	Previous corresponding period
Net tangible assets per ordinary share	(0.05)	(0.09)

1. Revenue from continuing operations of $35,070k for FY26 decreased 17% on pcp. This decline was primarily due to the non-renewal of the VirginMedia O2 (VMO2) mobile voice recording contract in the EMEA region, as announced to the market on 20 May 2025 and 5 June 2025. FY25 included a full year of revenue from this customer, whereas FY26 reflects only a partial contribution following the contract transition.
2. Loss from continuing activities after tax attributable to members and net loss attributable to members for FY26 includes non-cash impairment of goodwill of $1,054k (FY25: goodwill $10,587k, software and customer assets $6,928k). Excluding these impairments loss after tax for FY26 is ($8,152k), a reduction in loss of 78% on pcp.

COMMENTARY ON RESULTS

This Appendix 4E should be read in conjunction with Dubber Corporation Limited's Annual Report for the year ended 30 June 2026, which follows this Appendix 4E and contains the remaining information required under ASX Listing Rule 4.3A.
The financial report for the year ended 30 June 2026 has been audited by Ernst & Young.

Chairman's Letter

For personal use only

FY26 has been a transitional year for Dubber Corporation Ltd (Dubber or Company) as the Board and management focused on resetting the structure, governance and operating models of Company. After a period of disruption and transition, the business enters its next phase leaner, more focused and built around a clear strategy for sustainable, profitable growth.

Throughout FY26 the Company was strongly supported by its major independent shareholders, whose continued backing reflected their confidence in the underlying business.

Formal actions have been taken against parties who had caused disruption of prior years, and we have been supported by the actions of the corporate regulator. We remain committed to pursuing these proceedings against the relevant parties including our previous auditor and previous executives and advisers as circumstances permit. Please note the outcome of the ongoing recovery processes and any claims filed is uncertain, and success cannot be guaranteed.

FY26 did present some operational challenges that management met with common-sense and practicality. The non-renewal of the VMO2 mobile voice recording contract reduced reported revenue as those services transitioned during the year. Pleasingly the Company has retained a continuing partnership with VMO2 through their use of our Wholesale SIP service. Encouragingly, our other CSP partner relationships have remained strong and stable, with significant opportunities for growth.

Our CEO and Managing Director, Matthew Bellizia, realigned the organisation to match cost with revenue and the benefits of his cost-reduction and restructuring programme were realised as a result. We exited surplus property, including underutilised premises in the United Kingdom, and consolidated our technology footprint, together delivering meaningful annualised savings. These actions have reset the Company's cost base and materially improved underlying cash performance, with Dubber delivering positive underlying operating cashflow in the 2nd half of the year as the programme took effect and progressing towards sustainable run-rate cashflow breakeven.

Financial strength remains central to how we manage the business. The Company ended FY26 well-capitalised, supported by available working capital of approximately $15.2 million, cash reserves and an undrawn finance facility, providing the flexibility to fund our forward plans.

Matt will continue to improve operations, pursue intense customer engagement and drive product innovation concentrating resources on the markets where Dubber can win. The Company will continue to invest in our platform and has released significant new artificial intelligence capabilities. These include agentic AI features and our new Insights Agent, 'Dubber Notes' which allows customers to ask questions of their conversations and receive precise, verifiable answers linked to the underlying interactions. Built on an API-first, cloud-native architecture, these capabilities deepen the value we deliver to our Communications Service Provider (CSP) partners and position Dubber to capture growing demand for conversation intelligence.

As we look ahead the Board and management are focused on converting this stronger foundation into profitable growth. Our priorities for the FY27 year ahead are:

- Driving revenue growth through our industry vertical sales strategy
- Expanding and activating our base of more than 245 CSP partners
- Improving our CSP partners' ability to sell and cross-sell Dubber services
- Continuing the evolution of our product and AI roadmap
- Completing deployment of our new recorder across the customer base
- Accelerating adoption and monetisation of our new Dubber Notes, AI and Insights products
- Embedding a results-driven, accountable performance culture
- Maintaining cost and productivity discipline

Taken together, these steps have repositioned Dubber to pursue sustainable growth, sharpen its strategic focus and rebuild long-term value for shareholders.

In closing, on behalf of the Board I thank our shareholders, partners, customers and staff for their support and commitment through a period of significant change. FY26 has reset the business on cost, on structure and, with renewed product offerings and a disciplined operating model.

The Board renewal completed in the prior year has provided stable and experienced oversight throughout FY26, and I thank my fellow directors for their contribution and counsel during the year.

Ted Pretty
Non-Executive Chairman

About Dubber

Voice Recording with Powerful AI Insights

At Dubber, we believe conversations are one of the most valuable and underutilised assets in any organisation. In a world where every customer interaction, sales call, or internal discussion carries potential insight, Dubber exists to unlock that value, transforming conversations into a strategic advantage.

We are a trusted partner across 245+ Communications Service Providers (CSPs) to reimagine how conversations are captured, understood, and used. Our cloud-native platform enables CSPs to offer differentiated, high-margin services at scale, capturing, storing, and analysing conversations across voice, video, and text across the major unified communication (UC) platforms, collaboration platforms, native mobile networks and contact centre (CCaaS) platforms.

For personal use only

World's Leading Multi Channel Call Recording

Dubber was born in the cloud. Our approach eliminates the need for hardware or complex infrastructure, enabling rapid deployment, cost-effective scalability, and secure delivery across geographies and vertical industries.

As businesses increasingly operate in hybrid and dynamic environments, capturing valuable content from everyday interactions has become more complex. Dubber simplifies this by enabling CSPs to provide conversation capture capabilities that evolve with their customers' needs, whether supporting compliance, customer service, or sales.

The result is a platform that helps CSPs quickly launch new services, increase Average Revenue Per User (ARPU), reduce churn, and drive long-term customer value. With flexible deployment and no hidden costs, Dubber is designed to grow with both partners and their customers.

Key benefits of Dubber's voice recording include:

- **Instant Deployment:** Launch quickly with zero downtime and no infrastructure overhead.
- **Effortless Scalability:** Seamlessly grow with your business, no disruptions, no limits.
- **Optimised Cost Efficiency:** Eliminate the expenses of traditional hardware and maintenance.
- **Enterprise-Grade Security:** Cloud-native architecture ensures built-in compliance and end-to-end data protection.

Powerful AI Insights

Conversations are more than interactions; they're a rich source of untapped intelligence. Dubber's patented AI, Dubber Moments, transforms conversations into real-time insights that can enhance employee coaching, improve customer experience, and reveal hidden opportunities.

Unlike many competitors, Dubber doesn't rely solely on third-party AI. Our conversation intelligence capabilities are developed in-house, giving us full control over innovation, intellectual property, and performance. This enables us to deliver reliable, context-aware insights that go beyond transcription, identifying trends, tracking sentiment, and surfacing the information that matters most.

Built for scale, Dubber AI operates across eight global regions, delivering sovereign data capabilities, precision-engineered orchestration, and enterprise-grade reliability. It is trusted by the world's largest technology providers to power millions of workflows every day.

Why Dubber's AI is different:

- **Industry-Tuned Precision:** Purpose-built in-house to deliver accurate, reliable outcomes tailored to sector-specific needs.
- **Trusted, Actionable Insights:** Delivering relevant intelligence that drives smarter, faster decisions.
- **Adaptive Intelligence:** Continuously learns from your business—no manual configuration required.
- **Effortless Traceability:** From insight to source in just three clicks, ensuring full transparency and efficiency.

Vertical Solutions That Drive Differentiation

To help CSPs go further, Dubber delivers targeted solutions designed around the unique needs of industry verticals. These tailored offerings enable partners to address specific customer challenges and unlock new sources of revenue by becoming strategic enablers in sectors such as retail, healthcare, finance, and more.

From enhancing compliance in financial services to streamlining delivery operations in logistics, Dubber helps turn vertical pain points into differentiated value propositions.

Here's how we bring industry value to life:

- **Retail:** Capture insights from customer feedback, reduce churn, and refine product strategies.
- **Financial Services:** Support compliance with regulations and enable personalised portfolio management.
- **Healthcare:** Enhance telehealth experiences and ensure secure, compliant interactions.
- **Travel & Hospitality:** Identify service gaps, personalise guest experiences, and monitor quality at scale.
- **Utilities & Energy:** Improve transparency, resolve issues proactively, and promote energy literacy.
- **Transportation:** Handle disputes, optimise logistics, and support delivery satisfaction.
- **Technology & IT:** Refine sales strategies and support sales coaching through conversation analytics.
- **Pharma & Healthcare Sales:** Ensure regulatory adherence and improve training effectiveness.
- **Insurance:** Personalise offerings, monitor claims, and enable proactive retention strategies.
- **Manufacturing & Distribution:** Detect churn risk, accelerate sales cycles, and improve customer engagement.
- **Professional Services:** Strengthen client relationships, identify expansion opportunities, and improve service delivery.
- **Media:** Improve bundle personalisation, track team performance, and support retention strategies.

Each of these solutions is underpinned by our commitment to delivering practical, scalable, and outcome-oriented products that reflect the specific needs of businesses across sectors.

A Platform for Growth and Innovation

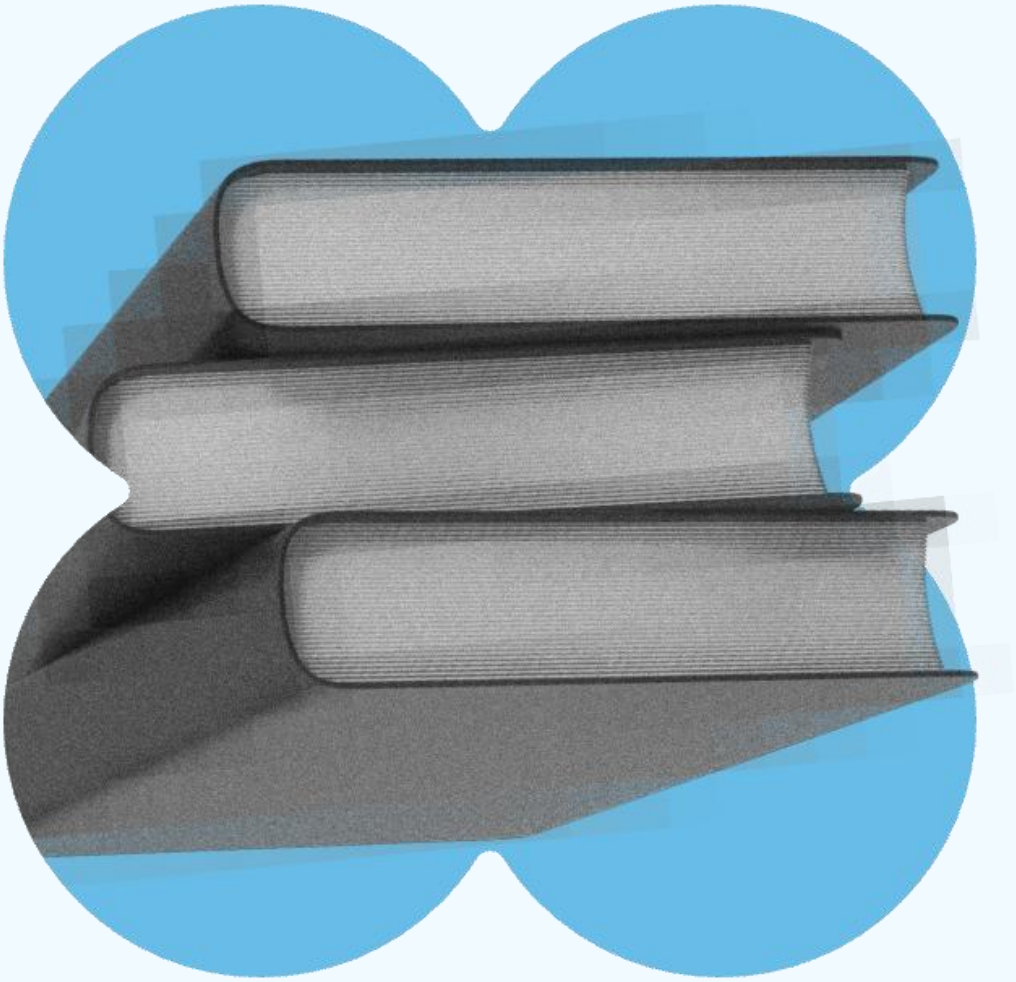

Dubber is more than a product, it's a platform for innovation and growth. Our substantial investments in platform redevelopment over the past 12 months have enabled us to deliver a new standard in conversation capture and intelligence. With out-of-the-box integrations, flexible deployment models, and deep AI capabilities, we equip CSPs to lead in a competitive market.

At Dubber, we capture more than conversations, we capture insight, opportunity, and the power to transform how the world communicates.

Directors' Report

For personal use only

Your directors present their report of Dubber Corporation Limited and its controlled entities (the Group) for the financial year ended 30 June 2026.

Directors

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

Ted Pretty	Non-Executive Chairman
Matthew Bellizia	Managing Director and CEO
John Selak	Non-Executive Director (Resigned 07 July 2026)
Simon Crowther	Non-Executive Director
Jeremy Davis	Non-Executive Director

For personal use only

Corporate structure

Dubber Corporation Limited is a limited liability company that is incorporated and domiciled in Australia. Dubber Corporation Limited has prepared a consolidated financial report incorporating the entities that it controlled during the financial year as follows:

Dubber Corporation Limited	parent entity
Medulla Group Pty Ltd	100% owned controlled entity
Dubber Pty Ltd	100% owned controlled entity
Dubber Ltd	100% owned controlled entity
Dubber USA Pty Ltd	100% owned controlled entity
Dubber, Inc	100% owned controlled entity
Pinch Labs Pty Ltd	100% owned controlled entity
CallN Pty Ltd	100% owned controlled entity
Aeriandi Ltd	100% owned controlled entity
Pinch Labs, Inc	100% owned controlled entity
Dubber Asia Pty Ltd	100% owned controlled entity
Dubber Japan K.K.	100% owned controlled entity
Dubber UK Holdings Ltd	100% owned controlled entity

Principal activities

The principal continuing activities of Dubber Corporation Limited and its controlled entities consisted of the provision of unified call recording and conversation Artificial Intelligence services to the global telecommunications industry.

Operating and Financial Review

Review of Operations

The group has three main operating segments, specifically for the provision of subscription services in Europe, United States of America ('Americas') and Rest of World (including Australia). The Group runs a single integrated technology platform which is predominantly developed and maintained in Australia and used by all three regions to provide services to customers. The Europe segment contains the acquired Aeriandi technology platform that provides support for legacy products provided to a subset of European customers. The Group's head office is in Melbourne, Australia, and provides management and back-office services for the Group. Each segment operates a sales function addressing the region.

Revenue

Overall, revenue declined 17% in FY26 to $35,070,061 (FY25: $42,191,878).

	Europe $	Americas $	Rest of World $	Total $
FY26 Revenue	20,119,257	11,614,487	3,336,317	**35,070,061**
Growth/(Decline) on FY25	*(25)%*	*(3)%*	*2%*	***(17)%***

Europe Revenues declined 25% in FY26 to $20,119,257 (FY25: $26,945,844), predominantly reflecting the anticipated roll-off of the VMO2 revenue and the non-renewal of certain legacy contracts, unfavourable FX movements and relatively flat end user volumes at major CSP partners who provide compliance recording services to large enterprises which make up a significant proportion of the European customer base. There continued to be volume growth across a range of CSP partners in the UK who are increasingly making Dubber's AI enabled recording services part of their go to market strategy in their core sales activities to their end users. This was partly offset by some long-term contracts for legacy recording and archive services being renewed at lower rates during the year but with the inclusion of the latest AI enabled products in the renewed contracts giving opportunities for future growth.

Americas Revenues declined 3% in FY26 to $11,614,487 (FY25: $11,982,482), which is almost stable given the loss of CISCO platform fee which has been offset by growth of other customers and Tier 1 telco customer signed during the year. The region benefited from increasing orders for services from a range of existing large CSPs as they included Dubber products as part of their standard end customer telecommunications offerings. Microsoft Teams calling and recording products also showed a good uptick in volumes this year, including sales made through the Microsoft marketplace.

Rest of World Revenues were up 2% to $3,336,317 (FY25: $3,263,552). This reflects stable and small volume growth across a number of reseller and CSP partners in the region.

For personal use only

Operating Expenses

Direct costs decreased by 15% to $10,664,307 (FY25: $12,479,769) reflecting the efficiencies and optimisations delivered to the core Dubber Platform in FY26. This led to gross margins of 70% for FY26, broadly in line with 70% in FY25.

Salaries and related expenses were $18,277,051 (FY25: $24,759,556), down 26.0% on FY25. This reflected lower average headcount across FY26 than FY25 because of the ongoing efficiency programme and optimisations to the Group's operations. This also reduced other staff related costs such as travel and amenities that are linked to headcount. Employee share-based payments decreased 80% to $955,093 (FY25: $4,774,411), reflecting the non-recurrence of the long-term incentive equity awards issued to the incoming CEO in the prior year.

General and administration costs decreased 22% to $8,335,295 (FY25: $10,709,901) reflecting a reduction in a variety of overhead areas in FY26, including exit of UK leases, lower marketing, consultant and travel costs, as well as the non-recurrence of the one-time legal costs related to the investigation into the misuse of funds identified in FY24.

The Group's net foreign exchange losses on operations were $1,413,470 in FY26 (FY25: $617,081 gain).

As a result, the Group recorded a loss before depreciation, amortisation, impairment, interest and tax of $3,311,353 (FY25: $9,753,915), a reduction in loss of 66% on FY25.

Other Income and Expenses

Other income increased 686% to $1,263,802 (FY25: $160,763) principally reflecting the one-off net gains on the exit of the Group's UK leased office space in Europe and associated disposal of leasehold improvements and office equipment.

Finance income decreased 53% to $119,769 (FY25: $256,472) due to lower average cash balances on deposit in FY26.

Finance costs decreased 62% to $615,712 (FY25: $1,604,324) principally reflecting the lower interest charges on the Group's outstanding statutory tax liabilities that were largely repaid during FY26 as well as borrowing arrangement costs for a bridging loan facility provided by the Thorney Group.

Depreciation and amortisation was down 54% to $3,040,445 (FY25: $6,635,319) reflecting the exit of a number of property leases which reduced right-of-use asset depreciation and the associated leasehold improvements.

The Group recognised goodwill impairment charges of $1,052,554 in respect of the Europe segment at 30 June 2026, principally reflecting modest level of unexpected customer non-renewals and reduction in customer activities identified during the second half of the year and the delay of the migration of customers from Aeriandi platform to Dubber platform until late FY27. In FY25, impairment charges of $17,515,373 were recognised in respect of the same segment, comprising $10,587,705 against goodwill and $6,927,668 against customer and technology intangible assets.

As a result, the Group recorded a loss before income tax of $7,900,295 (FY25: $35,970,814), a reduction in loss of 78% on FY25.

FY26 Income tax expense was $252,372 (FY25: $2,664,693 income tax benefit) primarily reflecting the tax payable in US.

Cashflows

The Group recorded operating cash receipts from customers of $43,859,375 (FY25: $44,345,338), down 1% on FY25, consistent with the group revenue decrease on FY25. Net cash outflows used in operating activities were significantly lower than FY25 at $20,484 (FY25: $21,760,194) reflecting the

For personal use only

lower cash based expenses (excluding non-cash share based payments) incurred in the year.

The Company raised $815,000 of capital during the year from directors' subscription of shares in the company as previously announced to the market which was approved at the 2025 AGM.

The Group had $10,211,461 of cash at 30 June 2026 (30 June 2025: $10,863,888). Total working capital available to the Group at 30 June 2026 including a committed loan facility of $5,000,000 with an expiry date of 31 January 2027 was $15,211,461 (30 June 2025: $15,863,888).

Recovery of misused Company funds identified in FY24

As set out in the FY24 Annual Report, on 27 February 2024 the Board uncovered that Company funds, which were supposed to have been held by a trustee in a term deposit on behalf of the Company, may have been misused by either or both the Company's former Managing Director and CEO, Steve McGovern and the third party trustee. As at the date of this report, $26.6 million of the funds remain unaccounted for.

During the Financial Year ASIC commenced proceedings against BDO Audit (WA) Pty Ltd, and the Victorian Legal Services Board Fidelity Fund declined our claim. ASIC also continues proceedings against BDO, former CEO Steve McGovern and associates in Federal court. The Company continues to assist ASIC with its investigation into this matter.

However, the process of recovering funds is in its early stages and may prove time consuming and costly. In addition, the outcome of the ongoing recovery process and any claims filed is uncertain, and success cannot be guaranteed. No amounts are recorded in the financial statements in respect of potential future recoveries at 30 June 2026.

FY27 outlook and focus areas

The Group achieved underlying run-rate cashflow breakeven* in H2 FY26, excluding non-recurring items, a pivotal step in its transition towards sustainable profitability. This was underpinned by continued cost discipline, transition and the restructuring of the business. The Group exited FY26 with June 2026 annualised recurring revenue of approximately $29 million, a debt-free balance sheet and working capital of $15.2 million, providing the flexibility to invest in growth without reliance on further equity capital.

Building on this operational progress, in FY27 the Company is focused on translating breakeven into accelerating revenue growth while maintaining cost and productivity discipline. The Company's key focus areas for FY27 are:

- Launching our new suite of AI-powered products, including Compliance Recording enhancements, Dubber Notes, AI for Business and Payment Solutions
- Introducing new pricing and go-to-market models to broaden our addressable market and accelerate customer acquisition
- Growing revenue from our base of more than 245 CSP partners through deeper penetration and cross-sell
- Delivering the anticipated Tier 1 compliance recording launch in the second quarter of FY27
- Expanding our Payment Solutions business globally following its migration to Amazon Web Services
- Continuing to evolve our product and AI roadmap, including completing deployment of our new recorder across the customer base
- Driving a results-oriented, accountable performance culture
- Maintaining cost and productivity discipline to sustain underlying operating cashflow breakeven or better

*Underlying run-rate cashflow is defined as revenue less cash based costs (direct costs, salaries and related costs and G&A costs incurred on an income statement basis and the cash lease payments for leases for the stated period. It excludes, share-

For personal use only

based payment expenses, FX gains and losses, impairment, and non-recurring costs associated with the investigation into the alleged misappropriation of funds and their recovery, restructuring costs and equity capital raisings.

Dividends

No dividends were paid or declared during the year. No recommendation for payment of dividends has been made.

Significant changes in the state of affairs

Significant changes in the state of affairs of the Company during the financial year are detailed in the review of operations.

In the opinion of the directors, there were no other significant changes in the state of affairs of the Company that occurred during the financial year under review not otherwise disclosed in this report or in the financial statements.

Events subsequent to reporting date

The Company issued 26,500 shares to satisfy option exercises under the Company's ESOP plan between 1 July 2026 and the date of this report.

The Company has $5,000,000 loan facility from the Thorney Investment Group which expires on 31 January 2027. The facility remains undrawn at the date of this report.

John Selak resigned as a Non-Executive Director on 7 July 2026.

Aside from the above, no other matters or circumstances have arisen since the end of the financial year.

Likely developments and expected results of operations

The Group will continue to pursue its principal activity of rolling out and developing its cloud-based call recording and AI solutions platform.

Material business risks

The Company and Group are subject to risks of both a general nature and ones that are specific to its business activities including, but not limited to the following:

Growth and Profitability (dependent on increasing market penetration)

The Company continues to trade in a loss-making position, incurring operating cash outflows as it strives to achieve positive operating cash flows through growth.

Dubber's future growth and ability to achieve positive operating cash flows, and ultimately profitability, is dependent on its ability to grow revenue and reduce or maintain its operating costs.

Dubber's ability to increase revenue in turn depends on its ability to increase the usage of its products across a wide range of Communications Service Providers and end-users. A failure to successfully market its service offerings, including failure to continue to innovate and add new functionality to its platforms, and to operate its platforms at a standard that will retain clients and attract new clients could lead to Communications Service Providers and end-users not renewing their engagement with the platform or entering into new engagements which could adversely impact Dubber's ability to generate financial performance and/or operations.

If the Company is not able to achieve its operating cost targets, either at all or in the timeframe intended, this will impact its ability to achieve positive operating cash flows in the time frame required. Failure to do this may require the Company to source additional equity or debt financing to fund its operations (which may not be available on favourable terms or at all) or may require the Company to reduce the

For personal use only

scope of its operations which may prevent it from progressing the commercialisation of its technology.

Reliance on third party platforms and operating systems

The Company's products and services are intended for use across a number of internet access platforms, mobile and desktop devices and software operating systems. The Company depends on the ability of its products and services to operate on such platforms, devices and operating systems however it cannot control the maintenance, upkeep and continued supply of effective service from external suppliers in these areas. Any changes in such platforms, operating systems or devices that adversely affect the functionality of the Company's products and services or give preferential treatment to competitive products and services could adversely affect usage of the Company's products and services.

Reliance on access to and confidence in telecommunications and the internet

The Company generally depends on the ability of the end consumer and its customers to access a deployed solution over telecommunications and internet access and to feel confident in the utilisation of the Company's platform. A failure in either of these services, which may be beyond the control of the Company, is likely to have adverse operating and financial consequences for the Company.

Hosting provider disruption risk

The Company relies on its primary hosting providers Amazon Web Services and Microsoft Azure, to store all data gathered from its customers. Should Amazon Web Services or Microsoft Azure suffer outages, for example due to catastrophic destruction following a natural disaster, service to the Company's products and services will also be disrupted. If Amazon Web Services or Microsoft Azure ceased to offer its services to the Company (for example as a result of default by the Company of its obligations to Amazon Web Services or Microsoft Azure) and no replacement service is uncovered quickly, this could lead to a disruption of the Company's products and/or services and significant damage to the company's reputation and ability to generate revenue.

Continued and uninterrupted provision of products and services

The Company employs a team of technicians and engineers along with automated redundancy capability for the continued and uninterrupted operation of the Company's products and services. A failure in the continued delivery of products and services (whether, among other events, because of a disaster, failure of the Company's technology, disruptions caused by upgrading technology or failure by the Company's suppliers to meet required service levels) could lead to the Company being in breach of contractual obligations and covenants to its clients and customers, which may lead to significant penalties or contract termination, that in turn could lead to significant claims against the Company, lost revenue and significant losses and damage to the Company's brand and reputation.

Satisfying increasing demand for products and services

As the Company and demand for its products and services grow, there is a risk that the Company will not be able to satisfy the requirements of all of its clients and customers and deliver promised outcomes.

This may lead to customer dissatisfaction and significant penalties or contract termination, which in turn could lead to significant claims against and losses for the Company and substantial damage to the Company's brand and reputation.

For personal use only

Inability to execute on sales targets

There is a risk Dubber does not achieve its sales targets due to inadequate execution of its strategy or as a consequence of reputational harm suffered due to the events surrounding the alleged misappropriation of funds. Furthermore, if Dubber fails to innovate and add new functionality to its platforms, and to operate its platforms at a standard that will retain clients and attract new clients, then there is a risk that the sales targets will not be achieved. This inability to execute on sales targets could negatively impact upon the Company's revenues, cash flows and profitability and may require the Company to raise additional funds in order to support its operations.

Alleged misappropriation of funds

The Company is exposed to various risks arising out of the loss of control by the Company of trust funds that have been used for purposes which were not for the company's benefit (misappropriation of funds or misappropriated identified funds) in FY24. For example, there is no guarantee the Company will be able to recover any or all of the funds, and attempts to do so may result in management's time being diverted away from operating the business or the incurrence of substantial costs which may not be recouped or which may otherwise have been better invested in operating and growing the Company's business.

The misappropriation of funds has, and may continue to have, created a perception of instability or other reputational harm with existing and potential customers, causing them to divert their business to competitors, or delay entering into new contracts or acquiring new services from the Company that they otherwise would have entered into or acquired earlier, impacting the Company's ability to generate revenue. Media reporting surrounding the matter (whether factually true or otherwise) and any legal proceedings could also adversely impact the Company's reputation. Damage to the Company's reputation may also impact its relationship with suppliers.

Further, the Company, its directors and management team may be subject to legal and/or regulatory action, including as a result of historical errors with the Company's financial statements which reflected the misappropriated funds. This includes the risk of the Company and its directors being subject to a class action brought by shareholders and former shareholders of the Company. If the Company becomes involved in a class action suit (or it, its directors and/or management team become subject to any other legal or regulatory action), this could divert the attention of senior management, require significant expenditure for legal costs, and could have a material adverse effect on the Company's operations and financial condition.

The Company has referred the matter to, and is co-operating with, ASIC, which has commenced its own investigation into the Company's former Managing Director and CEO, Steve McGovern and Mark Madafferi, the principal of law firm Christopher William Legal. Legal proceedings have been commenced by ASIC in the Federal Court of Australia against these individuals and interim travel restraints have been imposed on them by that Court.

Regulatory and compliance risk

The Company has referred the matter of the alleged misappropriation of funds to ASIC. Notwithstanding the referral to ASIC and the Company's ongoing co-operation with ASIC in its investigation into the matter, there is a risk that ASIC may take regulatory action and commence proceedings against the Company and/or its current and former directors, and significant penalties (financial and other) may be imposed. There can be no assurance that significant litigation, claims or penalties will not arise in the future involving the Company or any other person, which may or may not be covered by the Company's relevant insurance policies (where such policies are in place). Any defences filed, public hearings and judgements delivered may also involve further releases of adverse information about the Company and could have an adverse impact on the Company's financial performance, financial position, reputation and prospects.

For personal use only

The Company is required to be in compliance with a number of regulatory requirements, including with respect to financial reporting, tax, work health and safety, environmental, workplace industrial relations, public and product liability, modern slavery, privacy and security, financial, anti-money laundering, critical infrastructure and industry codes of conduct. Any regulatory breach could have a material negative impact on the operational performance, reputation or financial results of the Company.

The Company operates in a complex regulatory environment and in jurisdictions that have varying degrees of enactment and implementation of regulations and are constantly evolving to meet challenges associated with new technology, including the General Data Protection Regulation (EU) 2016/679, or GDPR, in the European Union and similar laws and regulations in the United Kingdom. A failure to comply with, or adjust to variations of, regulatory requirements both in Australia and overseas may result in the Company facing regulatory investigation and/or significant claims, and/or being required to adapt or withdraw certain products, which may adversely affect the Company's revenues and/or increase costs.

A number of the Company's clients and customers operate in the financial services sector in a number of jurisdictions (both in Australia and overseas) that are subject to stringent and complex regulations. A failure of the Company to comply with the requirements of these clients and customers could lead to significant claims against the Company by both customers and regulators, which may lead to significant losses and damage to the Company's brand and reputation.

In addition, the Company's platforms and products are, or will, be offered in many different jurisdictions, many of which are developing nations that may not have a well-developed or enforced regulatory structure in the relevant sectors. Changes to laws and regulations or the way such laws and regulations are interpreted, implemented or enforced may affect the Company's platforms or products in those jurisdictions or the ability of the Company or its partners to conduct business in those jurisdictions.

The Company has implemented additional internal processes and controls to manage and monitor compliance in areas such as financial management and corporate crime (e.g. fraud, embezzlement, bribery). However, there is a risk that these additional internal processes and controls may not be complied with or sufficient. Any breakdown in internal processes and controls could have a material negative impact on the operational performance, reputation or financial results of the Company or its stakeholders.

Data loss, theft or corruption

The Company stores data with a variety of third party service providers and cloud computing service providers. Hacking or exploitation of some unidentified vulnerability in its network could lead to loss, theft or corruption of data.

Although the Company has strategies and protections in place to try and minimise security breaches and to protect data, these strategies might not be successful. In that event, it could negatively impact upon the Company's revenues and profitability.

Misuse of the Company's products and services

Users of the Company's call recording and related products and services are subject to standard terms and conditions of use which state that a user must protect the privacy and details contained within a recording and is liable if the products and services are used unlawfully.

Although Dubber has strategies and protections in place to minimise misuse of recordings, there is no guarantee these strategies will be successful in the event a person uses the Company's products and services in an unlawful manner. In the event of misuse, this may result in adverse publicity, litigation, regulatory enquiries in respect of applicable privacy and surveillance legislation or a reduction in the use of the Company's products or services. If any of these events occur, this may negatively affect the Company's revenues and profitability.

For personal use only

Cybersecurity breaches

The Company, its hosting providers, and networks are required to adhere to their own and customers' security and compliance standards. If adequate safeguards and measures to mitigate breaches are not provided and maintained, it could negatively impact upon the Company's reputation, revenues and profitability. If the Company's security measures are breached, or if its products are subject to cyber-attacks that expose or restrict customer access to the platform or their data, its solutions may be perceived as less secure than competitors and customers may stop using the Dubber platform.

Taxation risk

As at the date of this document, the Company has a potential exposure to historical payroll tax liability relating to prior periods of approximately $1.0 million, together with potential estimated interest of approximately $0.4 million. The Company has previously disclosed the relevant amounts to relevant authorities and is awaiting further correspondence in relation to the matter.

Growth and inability to integrate new acquisitions

There is a risk that the Company may be unable to manage its anticipated future growth successfully. Dubber's growth strategy may in the future include the targeted acquisition of complementary businesses to integrate into its existing operations. Such acquisitions can create integration risk, pricing risk, reputational risk and a variety of other issues including disaffected clients, directors and employees of the acquired business.

Depending on the nature of the acquisition, acquisitions can also represent illiquid or mid-to-long-term investments before a return is realised, if at all.

These issues can potentially have adverse consequences from a strategic, financial and/or operational perspective.

Potential future funding issues

Dubber's ability to effectively implement its business strategy over time may also depend in part on its ability to raise additional funds. There can be no assurance that any such equity or debt funding will be available to the Company on favourable terms or at all. If adequate funds are not available on acceptable terms, the Company may not be able to take advantage of opportunities or otherwise respond to competitive pressures.

Intellectual property

The Company's business relies on its ability to protect its intellectual property and any improvements to it. The intellectual property may not be capable of being legally protected, may be the subject of unauthorised disclosure or use, may be unlawfully infringed or the Company may incur substantial costs in protecting its intellectual property rights.

In addition, the Company utilises open-source software in a number of its products and will use other open-source software in the future. The terms of many open-source software licenses to which the Company will be subject have not been interpreted by Australian or foreign courts, and there is a risk that open-source software licenses could be construed in a manner that imposes unanticipated conditions or restrictions on the Company's ability to provide or distribute its products.

Competition

The Company operates in an industry which is very competitive and subject to rapid and significant change. Competitors may be pursuing the development of products that target the same customers as the Company. The Company's products may compete with existing products already available to

For personal use only

customers. The Company may face competition from competitors with substantially greater resources. Competing products may be superior to the Company's products, which would adversely impact the commercial viability of the Company's products and the Company's ability to generate revenue and reach profitability.

Major shareholder

Thorney Investment Group currently holds approximately 22% of the shares in the Company. Thorney Investment Group is entitled to nominate up to two Directors to the Company, provided Thorney Investment Group holds at least 20% of the Shares on issue. If Thorney Investment Group holds at least 15% but less than 20% of the Shares on issue, Thorney Investment Group will be entitled to nominate one Director. Consequently, Thorney Investment Group may have a significant influence over matters that require approval by shareholders or the Board.

Thorney Investment Group may have interests that differ from other shareholders and may vote in a way other shareholders disagree with and which may be adverse to their interests.

Further, Thorney Investment Group owns 31,706,541 Options to subscribe for fully paid ordinary shares in the Company. While the exercise of such options by Thorney Investment Group will be subject to the constraints under the takeover provisions in the Corporations Act, Thorney Investment Group may exercise such options to continue to increase its shareholding and shareholders will be diluted when such options are exercised. The options may also be transferred with the prior approval of the Company to third parties that are not subject to such restrictions. Either Thorney Investment Group or the third-party transferee may decide to exercise these options and sell the underlying Dubber shares (or Thorney Investment Group may sell other shares and replenish them through the exercise of options), which would dilute shareholders and may adversely impact the market price of Dubber shares.

Dependence upon key personnel

The Company depends on the talent and experience of key personnel to deliver on its business strategy. If key personnel leave, it may be difficult to replace them, or to do so in a timely manner or at a comparable expense. Furthermore, it may impact the relationship the Company has with customers and other key stakeholders. Key personnel leaving to work for a competitor may have a particularly adverse impact on the Company. Additionally, increases in recruitment, wages and contractor costs may adversely impact upon the financial performance of the Company.

International business risks

The Company has operations internationally, notably in the USA, UK, Europe, Australia and New Zealand. Wherever the Company sets up operations it is exposed to a range of multi-jurisdictional risks such as risks relating to labour practices, environmental matters, difficulty in enforcing contracts, changes to or uncertainty in the relevant legal and regulatory regime (including in relation to taxation and foreign investment and practices of government and regulatory authorities) and other issues in foreign jurisdictions in which the Company operates. Businesses that operate across multiple jurisdictions face additional complexities from the unique business requirements in each jurisdiction.

Foreign currency

The Company is exposed to movements in certain currencies given it operates globally, including in relation to overseas customers and suppliers. Unfavourable movements in these exchange rates may adversely affect the Company's revenues and/or profitability.

Litigation or other disputes

The Company may, from time to time, be subject to litigation and other claims or disputes in the ordinary course of its business or otherwise, including intellectual property disputes, contractual disputes,

For personal use only

indemnity claims, claims under data protection and privacy legislation, occupational health and safety claims and employment disputes.

The Company and its directors are also exposed to class actions brought by current and former shareholders of the Company. There can be no assurance that significant class action litigation will not arise in the future, which may or may not be covered by the Company's relevant insurance policies (where such policies are in place), and that the outcome of such litigation will not have an adverse impact on the Company's financial performance, financial position or prospects.

If the Company is subject to litigation or proceedings (regulatory or otherwise), it may be required to pay fines, damages or other amounts and this may adversely affect its financial position, performance and reputation. Even if the Company is ultimately successful in any dispute, the matter may be time consuming and costly and divert management's attention from operating the business. It may also divert the Company's funds away from investment in the business and may require the Company to raise additional funds before the Company can reach cashflow breakeven.

Insurance coverage

The Company currently has in place what it believes are adequate levels of insurance for directors' and officers' liability, professional liability and indemnity, commercial general liability and property damage, cyber and workers' compensation to protect the Company from potential losses and liabilities. However, there is a possibility that events may arise which are not adequately covered by the Company's existing insurance policies and the Company cannot guarantee that the Company's existing insurance will be available or offered in the future. An inability of the Company to maintain such cover in the future could limit the ability of the Company to conduct its business, which could have a negative impact on the financial results and prospects.

Meetings of directors

The numbers of meetings of directors and the relevant committee meetings held during the year and the numbers of meetings attended by each director were as follows:

	Board Meetings		Audit Committee Meetings	
Director	**Number eligible to attend**	**Attended**	**Number eligible to attend**	**Attended**
Ted Pretty	11	11	*	*
Matthew Bellizia	11	11	*	*
John Selak	11	11	2	2
Simon Crowther	11	11	2	2
Jeremy Davis	11	11	2	2

* Reflects not a member of that Committee

Effective 9 December 2024, the Company resolved that the full functions of the Remuneration and Nominations Committee, as outlined in the Remuneration and Nomination Committee Charter, would be undertaken and fulfilled by the Board, with no separately operating committee. In the absence of the Committee, the Board considers succession issues and the requirements to ensure that the board has the appropriate balance of skills, knowledge, experience, independence and diversity to enable it to discharge its duties and responsibilities effectively. These matters are considered regularly at Board meetings.

Environmental, Social and Governance

The Group recognises the importance of integrating ESG considerations into our operations and decision-making processes. Our approach to sustainability underpins how we operate to ensure we meet increasing societal and investor expectations, play our part in mitigating global warming and provide a framework to drive forward the company's progress in this area.

Dubber's sustainability strategy includes key environmental, social and governance actions and plans. The plan covers all our operations, regions and facilities directly owned or managed by Dubber. The plan and progress in achieving the plan is reviewed annually. In addition to ensuring long-term value creation for our stakeholders, our ESG strategy is an expression of our commitment to sustainability, social responsibility, and ethical practices.

For personal use only

Stakeholder Engagement and Materiality Analysis

Dubber has a number of key stakeholder groups. These are our shareholders/investors, customers and business partners, employees, suppliers, governments and regulators and nongovernmental organisations (NGOs). We have considered the expectations and interests of stakeholders in the development of our sustainability framework and will continue to do so when reporting in the future against our significant economic, environmental, and social impacts.

In order to define our key environment, social and governance (ESG) and sustainability objectives, the Company undertook a detailed materiality analysis for the business in 2023. The materiality assessment process included a review of both internal and external stakeholder issues of importance, and an evaluation of their business impact on an ongoing basis. The outcomes from this analysis which are reviewed annually shapes the ambition and focus of the sustainability strategy.

Dubber's ESG Strategy aligns with, and supports delivery of the aspirations of key ESG Frameworks. These include: UN Sustainable Development Goals, The UN Global Compact, Sustainability Accounting Standards Board (SASB), Task Force on Climate-Related Financial Disclosure (TCFD), ASX Corporate Governance Principles and Recommendations, Science-Based Target Initiative (SBTi) & The Climate Pledge.

Through our materiality analysis, and in consultation with key stakeholders, we have identified seven key pillars underpinning our ESG strategy. These pillars are aligned with the ESG frameworks indicated above and include: Information Security and Data Privacy, Ethical Artificial Intelligence (AI), Equity, Diversity and Inclusion (EDI), Employee Engagement, Community Engagement, Climate Change & Governance and Reporting.

The information presented in this Environmental, Social and Governance section has been prepared on a voluntary basis and does not constitute climate-related financial disclosures made in accordance with AASB S2 Climate-related Disclosures. This information has not been subject to audit or assurance.

FY26 Highlights

During FY26, the Company made progress in a number of key ESG areas, as set out below.

Information Security and Data Privacy

Protecting the data of our customers, suppliers, partners, and our people remains Dubber's highest priority. We are committed to embedding data privacy and security into every aspect of our business. During FY26, Dubber continued to strengthen its Trust, Security, Privacy and Resilience posture through the following key initiatives:

ISO 22301 Business Continuity Certification: Achieved ISO 22301:2019 certification, the international standard for business continuity management systems. This independent validation recognises Dubber's continued focus on operational resilience, continuity planning, and maintaining effective practices to respond to and recover from disruption.

ISO 27001 and Information Security Management: Maintained Dubber's ISO/IEC 27001 certification, reinforcing our ongoing alignment with internationally recognised information security management practices and our commitment to continuous improvement of our security controls.

GovRAMP Progressing Snapshot Program: Continued to mature Dubber's security posture in support of United States state government and public sector opportunities through participation in the GovRAMP Progressing Snapshot programme. This reflects Dubber's ongoing journey toward stronger cloud security assurance and increased alignment with public sector expectations.

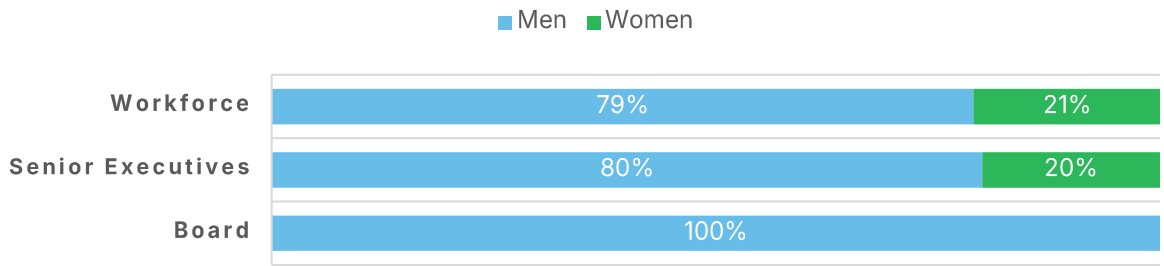

Assurance, Compliance, and Trust Centre Transparency: Retained and maintained Dubber's broader security, privacy, and compliance commitments, with assurance information and compliance resources made available through Dubber's Trust Centre (https://trust.dubber.net/) to support customer, partner, and stakeholder due diligence.

Cyber Control Uplift, Secure-by-Design, and Emerging Risk Governance: Continued to uplift cyber controls across detection, response, cloud protection, application security, web application protection, and container security. These improvements were supported by ongoing secure-by-design practices, governance enhancements, responsible AI governance, and management of emerging technology and software supply chain risks.

Equity, Diversity and Inclusion

As a global technology company, we recognise the importance of embedding equity, diversity and inclusive values into everything we do, to ensure a diverse and skilled workforce and a workplace characterised by inclusive practices and behaviours for the benefit of all staff. We aspire to have diversity throughout the business but have a particular focus on supporting the representation of women at the senior level of Dubber.

Gender Diversity

For personal use only

Employee Engagement

Culture is at the forefront of what we do at Dubber and our commitment to ensuring that Dubsters are engaged can be seen through multiple avenues of engagement and employee support. We are clear that engagement links directly to performance and above all else we want to ensure Dubber is a great place to work. To support this, and given the engagement issues faced this year, we have co-authored Company values with our employees. We have also rolled out a formal performance review process.

Governance & Reporting

Our Board recognises the importance of maintaining high standards of corporate governance and is committed to fostering a culture of integrity across our business. The Board is committed to continually improving the standards of Governance, ensuring accountability and appropriate controls are implemented across the organisation and upholding strong ethical standards in the organisation.

Climate Change

As a software company with limited physical resources, our overall environmental impact is low. Regardless, we recognise the societal and environmental risks of climate change and are committed to measuring and mitigating our impacts in this area.

The majority of the Group's platform operates with cloud platform environments from 3rd party suppliers which have a lower carbon footprint than an equivalent in house hosted platform. The Group relies on those 3rd party suppliers to minimise the carbon footprint and the Group actively seeks opportunities to optimise the Dubber platform and reduce the usage of cloud infrastructure. The Group has active policies and procedures in place to reduce the emissions of the business, including minimising carbon intensive travel, putting in place energy efficient equipment and fixtures in office spaces and offering recycling facilities.

Remuneration Report

For personal use only

The remuneration report details the key management personnel remuneration arrangements for the consolidated entity, in accordance with the requirements of the Corporations Act 2001 and its Regulations. The information provided in the remuneration report on pages 23 to 36 has been audited in accordance with 300A of the Corporations Act 2001.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The following persons were directors of Dubber Corporation Limited during the financial year:

Matthew Bellizia	Managing Director and CEO
Ted Pretty	Non-Executive Chairman
John Selak	Non-Executive Director (Resigned 07 July 2026)
Simon Crowther	Non-Executive Director
Jeremy Davis	Non-Executive Director

Other persons that fulfilled the role of a key management person during the year, are as follows:

Andrew Demery	Chief Financial Officer (KMP until resigned, 06 November 2025)
Prasad Kasinadhuni	Acting Chief Financial Officer (appointed 06 November 2025)

For personal use only

Overview of Remuneration Policies

The Board is responsible for setting remuneration policies and packages for directors and executives of the Consolidated Entity, and it approves remuneration policies and arrangements.

Key management personnel have authority and responsibility for planning, directing and controlling the activities of the Company and the Consolidated Entity, including directors of the Company and other executives.

Remuneration levels for key management personnel are competitively set to attract and retain appropriately qualified and experienced directors and executives, while variable incentives reward the achievement of strategic objectives. During FY27, the Board intends to review the Company's remuneration framework to ensure it remains aligned with the Company's strategic direction, market practice and governance expectations. Any material changes arising from this review will be implemented following Board approval and, where required, communicated to shareholders. No remuneration consultants were engaged during the year.

Relationship Between The Remuneration And Company Performance

The remuneration policy has been tailored to increase goal congruence between shareholders, directors and executives. Two methods have been applied to achieve this aim, the first being a performance-based rights subject to performance based vesting conditions, and the second being the issue of options or shares to key management personnel to encourage the alignment of personal and shareholder interests.

Summary Of Remuneration Policies For FY26

Remuneration packages for Executive KMPs can consist of fixed remuneration (including base salary, employer contributions to superannuation funds), non-cash benefits, and variable incentives including short-term and long-term incentives payable in cash or equity.

The Company has a variable remuneration package for executive KMPs, which includes fixed fees as well as short-term incentives (STI) and long-term incentives (LTI). STIs are broadly linked to the delivery of annual operational objectives while LTI’s focus on the delivery of strategic objectives and creation of sustainable shareholder value.

Short-term incentives and associated performance targets are typically set annually by the Board.

For FY26, there was no STI set for CEO or other Executive KMPs

No LTIs were granted to CEO or other Executive KMPs in FY26

Long-term incentive remuneration is payable in equity only in the form of LTI ZEPOS (Zero exercise price options) and options.

Non-Executive Directors

Total remuneration for all non-executive directors, last voted upon by shareholders at the 2014 Annual General Meeting, is not to exceed $500,000 per annum and has been set at a level to enable the Company to attract and retain suitably qualified directors. The Company does not have any scheme relating to retirement benefits for non-executive directors. Where appropriate non-executive Directors are invited to take part of their fee in equity for a period of time to ensure alignment of incentives with that of shareholders.

Non-Executive Directors may be invited from time to time to participate in the Company’s equity incentive scheme to align their interests with those of the Company and its shareholders. The Board believes that the future success of the Company will depend in large measure on the skills and

For personal use only

motivation of the people engaged in and overseeing the management of the Company's operations. It is therefore important that the Company is able to attract and retain people of the highest calibre, including at a Board level.

The Board considers that the most appropriate means of achieving this is to provide Non- Executive Directors, as well as Executive KMPs and employees generally, with an opportunity to participate in the Company's future growth and provide an incentive to contribute to that growth. An issue of securities as part of the remuneration packages of company directors is a well established practice of publicly listed companies and, in the case of the Company, has the benefit of conserving cash whilst properly rewarding the non-executive directors.

Fixed Remuneration

Fixed remuneration consists of base remuneration (which is calculated on a total cost basis and includes any FBT charges related to employee benefits including motor vehicle), as well as employer contributions to superannuation funds.

Remuneration levels are reviewed annually by the Board through a process that considers individual, segment and overall performance of the Consolidated Entity. The Board has regard to remuneration levels external to the Company to ensure the directors' and executives' remuneration is competitive in the marketplace.

Executive directors are employed full time or part time and receive fixed remuneration in the form of salary and statutory superannuation or consultancy fees, commensurate with their required level of services.

Non-Executive directors, unless otherwise specified by any non- executive and consultancy service agreement in place, receive a fixed monthly fee for their services. Where non-executive directors provide services materially outside their usual Board duties, they are remunerated on an agreed retainer or daily rate basis.

There were no increases to fixed remuneration for any KMP during FY26.

Service Agreements

It is the Company's policy that service agreements for key management personnel are unlimited in term but capable of termination on up to 6 months' notice and that the Company retains the right to terminate the service agreements immediately, by making payment equal to 6 months' pay in lieu of notice.

The service agreement outlines the components of compensation paid to key management personnel but does not prescribe how remuneration levels are modified year to year. Remuneration levels are reviewed annually on a date as close as possible to 30 June of each year to take into account key management personnel's performance. Certain key management personnel will be entitled to bonuses as the Board may decide in its absolute discretion from time to time.

For personal use only

A summary of key service agreement terms are as follows:

Ted Pretty	**Non-Executive Chairman**
Agreement type:	Letter of appointment
Agreement commenced:	31 January 2025
Term of Agreement:	No fixed term
Remuneration:	Annual fee of $120,000 (inclusive of superannuation) and reimbursement of all reasonable expenses incurred in performing the Non-Executive Chairman's duties. 50% of first year fee is payable in cash, remaining 50% in shares. 100% of second year fee is payable in shares subject to shareholders approval at 2026 AGM.
Termination notice:	None specified

e) Appointed 31 January 2025

f) Appointed 9 December 2024

g) Appointed 1 January 2025

h) Ceased being a KMP on 6 June 2025 when role was made redundant

i) Resigned 14 August 2024

j) The FY25 comparative amount disclosed as STI paid in ZEPOs has been revised from $200,000 to $109,580. The proposed issue of 6,087,570 ZEPOs remained subject to shareholder approval at the November 2025 AGM and as such the expense to 30 June 2025 has been measured using the 30 June 2025 share price of $0.018. Following shareholder approval at the November 2025 AGM, the award was measured using a share price of $0.015

Additional Information

We aim to align our executive remuneration to our strategic and business objectives and the creation of shareholder wealth. The Group operating revenue declined over the last financial year. As outlined in the operating and financial review, growth in revenue and increase in Earnings before depreciation, amortisation, impairment, interest and tax are a key focus of the Group. The table below shows measures of the group's financial performance over the last five years as required by the Corporations Act 2001.

These are not necessarily consistent with the measures used in determining the variable amounts of remuneration to be awarded to KMPs and Directors. As a consequence, there may not always be a direct correlation between the statutory key performance measures and the variable remuneration awarded.

The earnings of the consolidated entity for the five years to 30 June 2026 are summarised below:

	2026 $'000	2025 $'000	2024 $'000	2023 $'000	2022 $'000
Sales revenue	35,070	42,192	38,659	29,765	16,317
Loss before depreciation, amortisation, impairment, interest and tax	(3,311)	(9,754)	(24,216)	(60,153)	(75,885)
Loss after income tax	(8,153)	(33,306)	(40,724)	(72,509)	(84,104)

The factors that are considered to affect total shareholders return ('TSR') are summarised below:

	2026	2025	2024	2023	2022
Share price at financial year end ($)	0.01	0.02	0.04	0.20	0.65
Total dividends declared (cents per share)	-	-	-	-	-
Basic loss per share (cents per share)	(0.30)	(1.67)	(8.76)	(23.60)	(28.22)

Short Term Incentives For FY26

No short-term incentives were awarded in relation to FY26.

Long Term Incentives For FY26

Other than the election of certain KMP to receive some or all of their remuneration in equity described in "Other Remuneration for FY26", no long-term incentives were awarded.

Other Remuneration for FY26

E Pretty, J Selak, S Crowther, J Davis and M Bellizia agreed to receive some or all their fixed cash remuneration fees in equity for the second year of their appointment. Shareholder approval is required to issue the equity which is expected to be obtained at the upcoming AGM in November 2026.

The Board has set the pricing mechanism as the Volume Weighted Average (VWAP) Share price of DUB shares traded on the ASX and Cboe, between Wednesday 26 November 2025 and Thursday 26 February 2026 (inclusive).

A summary of the equity arrangement is set out below.

	Proportion to be received as shares	Annual Equity award in lieu of cash fee	Estimated grant date fair value*	Period covered	Pro-rata share entitlement at 30 June 2026	Pro-rata expense recognised in the year to 30 June 2026*
E Pretty	100%	6,939,625	$76,336	01 Feb26-31Jan27	2,832,888	$57,047
John Selak	100%	5,783,021	$63,613	09 Dec25-08Dec26	3,216,310	$55,040
S Crowther	30%	1,301,179	$14,313	09 Dec25-08Dec26	723,669	$12,384
J Davis	100%	4,337,265	$47,710	01 Jan26-31Dec26	2,138,925	$39,332
M Bellizia	24%	6,939,625	$76,336	01 Jan26-31Dec26	3,422,281	$62,931

*At 30 June 2026, the issuance of any shares is contingent on receiving shareholder approval. The share price as at 30 June 2026 of $0.011 per share has been used as the fair value for each proposed equity award. An expense for fees paid in equity is recognised based on this estimated fair value, for the pro-rata share entitlement at 30 June 2026, based on the shares entitlement accruing continuously throughout the year as services are provided, with no other entitlement conditions. The expense for these amounts is included within share-based payments in the remuneration table. In the event that shareholder approval is not obtained at the AGM, the Company will be required to pay these fees as cash.

Details of Incentive Compensation Securities Issued to Key Management Personnel

An overview of the share based incentive plans operated by the Company are set out as follows:

Options

The Company operates an Employee Incentive Plan ("EIP") for executives and employees of the Consolidated Entity. In accordance with the provisions of the EIP, executives and employees may be granted options to purchase ordinary shares at an exercise price to be determined by the Board when it resolves to offer the options. The options may only be granted to eligible persons after the Board considers the person's seniority, position, length of service, record of employment, potential contribution and any other matters which the Board considers relevant.

Each employee share option converts into one ordinary share of the Company on exercise. No amounts are paid or payable to the Company by the recipient on receipt of the option. The options carry neither right to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of their expiry.

The number of options granted is determined by the Board. Typically, options granted under the EIP expire within thirty-six months of their issue. The options are not exercisable until the vesting date provided the participant is an employee at the relevant vesting date.

Shares

The directors, at their discretion, may issue shares to participants under the Employee Share Plan ("ESP") at any time, having regard to relevant considerations such as the participant's past and potential contribution to the Company, and their period of employment with the Company. Directors of the Company, full- time employees and part-time employees of the Group who hold a salaried employment or office in the Group, are eligible to participate in the ESP.

Plan shares may be issued at an issue price to be determined by the Board, which may be a nominal or nil issue price if so determined by the Board. The number of plan shares issued is determined by the Board.

The plan shares are issued on the same terms as the fully paid ordinary shares of the Company and rank equally with all of the Company's then existing shares.

For personal use only

Shares, options awarded, vested and lapsed during the year

The table below discloses the number of shares, options granted, vested or lapsed during the year. Share options do not carry any voting or dividend rights, and can only be exercised once the vesting conditions have been met.

Key Management Personnel	Financial year	Type of award	Award date	Fair value per option/share at award date (a) $	Vesting date	Exercise price $	Options/shares awarded during the year No.	Options vested/shares entitled during the year No.	Value of options/shares granted in the year $

a) Determined at the time of grant per AASB 2. For details on the valuation of the options, including models and assumptions used refer to note 23.

b) Vested in full on date of resignation as KMP reflecting status as a good leaver.

c) ZEPOs granted in respect of the FY25 STI which vest on achieving underlying operating cashflow breakeven by the end of FY25, which was achieved in June 25 and was approved at 26 November 2025 AGM and share price was based on AGM date.

d) These remuneration shares were approved at the 26 November 2025 AGM and hence the AGM date share price of $0.015 has been used as the fair value of the award.

e) Relates to shares awarded in lieu of fixed cash remuneration as set out on page 32. The shares awarded in the table reflects the total amount to be awarded assuming a full year of service is completed.

f) Shares are entitled based on achievement of performance or time based service conditions under the terms of the awards are approved by shareholders at the AGM in 26 November 2025 and therefore are vested and granted as at 30 June 2026.

g) Shares are entitled based on achievement of performance or time based service conditions under the terms of the awards but are subject to shareholder approval at the upcoming AGM in November 2026 and therefore are not exercisable at 30 June 2026. Should shareholder approval not be received these options will lapse.

h) These awards are considered to vest monthly over the 12-month period from their award date.

Option Holdings

The number of options over ordinary shares in the Company held during the financial year by each director and other members of key management personnel of the Company, including their personally related parties, is set out below:

Key Management Personnel	Balance at Start of Year(d)	Received as Remuneration	Options Exercised (a)	Intrinsic Value	Options Expired/ Lapsed	Balance at end of Year	Number vested and exercisable (b)	Unvested
M Bellizia	103,333,333	6,087,570(c)	(6,087,570)	121,751	-	103,333,333	70,000,000	33,333,333
E Pretty	4,500,000(d)	-	-	-	-	4,500,000	3,000,000	1,500,000
J Selak	-	-	-	-	-	-	-	-
S Crowther	-	-	-	-	-	-	-	-
A Demery	3,350,400	-	(3,350,400)	67,008	-	-	-	-
Total	**111,183,733**	**6,087,570**	**(9,437,970)**	**188,759**	**-**	**107,833,333**	**73,000,000**	**34,833,333**

a) All options exercised in FY26 had nil exercise price.

b) Average exercise price for all vested and exercisable options was nil for all individuals with the exception of M Bellizia where the average exercise price is $0.014.

c) 6,087,570 ZEPOs were granted as STI for FY25.

d) Instruments totalling 1,500,000, 5,000,000 and 1,500,000 included in the closing balance at 30 June 2025 in the 2025 Remuneration Report for E Pretty, J Selak and S Crowther, respectively, have been reclassified from the Option Holdings table to the Shareholdings table to reflect shares issued in lieu of directors' fees. The remaining 4,500,000 instruments held by E Pretty remain appropriately classified as options. The reclassified instruments were previously disclosed as zero exercise price options in FY25 and represented equity interests of substantially the same economic substance as ordinary shares. Accordingly, the reclassification does not affect the remuneration amounts, ownership interests, vested interests or any other disclosures in the Remuneration Report.

The Shareholdings and Options Holdings tables in the Remuneration Report reflect the relevant interests of Key Management Personnel as at the date of this Directors' Report.

This concludes the remuneration report, which has been audited.

Other Directors Report Disclosures

Share Options And Ordinary Shares

There were 230,162,938 unissued ordinary shares of Dubber Corporation Limited under option outstanding at 30 June 2026 with further details set out in Note 23 to the financial statements. A further 26,500 shares were issued from 1 July 2026 to the date of this report and no additional share options were granted for a total of 230,136,438 unissued ordinary shares of Dubber Corporation Limited under option outstanding at the date of this report.

No person entitled to exercise the options had or has any right by virtue of the option to participate in any share issue of the Company or of any other body corporate. The directors' interests in equity and other holdings are outlined in the remuneration report and the amounts shown and numbers held are the same at 30 June 2026 and the date of the Directors' report.

Indemnity And Insurance Of Officers

The Group has during the financial year, in respect of each person who is or has been an officer of the Group or a related body corporate, made a relevant agreement for indemnifying against a liability incurred as an officer, including costs and expenses in successfully defending legal proceedings.

Since the end of the financial year, the Group has paid premiums to insure all directors and officers of the Group, against costs incurred in defending any legal proceedings arising out of their conduct as a director or officer of the Group, other than for conduct involving a wilful breach of duty or a contravention of sections 232(5) or (6) of the Corporations Act 2001, as permitted by section 241A (3) of the Corporations Act 2001. Disclosure of the premium amount is prohibited by the insurance contract.

Indemnity And Insurance Of Auditor

To the extent permitted by law and professional regulations, the Company has agreed to indemnify its auditors, EY, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit but excluding any claims which are finally determined to have resulted from EY's negligent, wrongful or wilful acts of omissions. No payment has been made to indemnify EY during or since the financial year.

Proceedings On Behalf Of The Company

No person has applied for leave of Court to bring proceedings on behalf of Dubber Corporation Limited or intervene in any proceedings to which Dubber Corporation Limited is a party for the purpose of taking responsibility on behalf of Dubber Corporation Limited for all or any part of those proceedings.

Dubber Corporation Limited was not a party to any such proceedings during the year.

Environmental Regulations

The Group is not currently subject to any specific environmental regulation under Australian Commonwealth or State law.

Corporate Governance Statement

The directors and management are committed to conducting the business of Dubber Corporation Ltd in an ethical manner and in accordance with the highest standards of corporate governance. Dubber Corporation Ltd has adopted and has substantially complied with the ASX Corporate Governance Principles and Recommendations (Fourth Edition) ('Recommendations') to the extent appropriate to the size and nature of the Group's operations.

The Corporate Governance Statement, which sets out the corporate governance practices that were in

For personal use only

operation during the financial year and identifies and explains any Recommendations that have not been followed, which is approved at the same time as the Annual Report can be found at: https://www.dubber.net/investors/investor-centre

Rounding of amounts

The Company is of a kind referred to in Corporations Instrument 2026/183, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

Non-Audit Services

There were no amounts paid or payable to the auditor for non-audit services provided during the year as set out in Note 18 to the financial statements.

Auditor's Independence Declaration

The auditor's independence declaration for the year ended 30 June 2026, as required under section 307C of the Corporations Act 2001, has been received and is included within the financial report.

Auditor

Ernst and Young continues in office in accordance with section 327 of the Corporations Act 2001.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

Auditor's independence declaration to the directors of Dubber Corporation Limited

As lead auditor for the audit of the financial report of Dubber Corporation Limited for the financial year ended 30 June 2026, I declare to the best of my knowledge and belief, there have been:

a. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit;

b. No contraventions of any applicable code of professional conduct in relation to the audit; and

c. No non-audit services provided that contravene any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Dubber Corporation Limited and the entities it controlled during the financial year.

Notes to the Consolidated Financial Statements

1. Summary of Significant Accounting Policies

Corporate Information

Dubber Corporation Limited ("Company" or "Parent Entity") is a company limited by shares, incorporated and domiciled in Australia. These consolidated financial statements and notes represent those of Dubber Corporation Limited and controlled entities ("Group" or "Consolidated Entity"). The nature of the operations and principal activities of the Group are described in the Directors' Report.

Basis Of Preparation

The financial report is a general-purpose financial report that has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*. Dubber Corporation Limited is a for-profit entity for the purpose of preparing financial statements.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions. The financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of this financial report are presented below and have been consistently applied unless otherwise stated.

The financial report has been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

The separate financial statements of the parent entity, Dubber Corporation Limited, have not been presented within this financial report as permitted by the Corporations Act 2001. See Note 24 for further details on the parent company's financial information.

These financial statements are presented in Australian dollars, rounded to the nearest dollar.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

New Australian Accounting Pronouncements

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's financial statements are disclosed below. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective. The Group will continue to assess the impact of these new standards.

AASB 18 Presentation and Disclosure in Financial Statements **Effective for annual reporting periods beginning on or after 1 January 2027**	AASB 18 has been issued to improve how entities communicate in their financial statements, with a particular focus on information about financial performance in the statement of profit or loss. The key presentation and disclosure requirements established by AASB 18 are: ▶ The presentation of newly defined subtotals in the statement of profit or loss ▶ The disclosure of management-defined performance measures (MPM) ▶ Enhanced requirements for grouping information (i.e. aggregation and disaggregation) AASB 18 is accompanied with limited consequential amendments to the requirements in other accounting standards, including AASB 107 Statement of Cash Flows. AASB 18 introduces three new categories for classification of all income and expenses in the statement of profit or loss: operating, investing and financing. Additionally, entities will be required to present subtotals for 'operating profit or loss', 'profit or loss before financing and income taxes' and 'profit or loss'. For the purpose of classifying income and expenses into one of the three new categories, entities will need to assess their main business activity, which will require judgement. There may be more than one main business activity. AASB 18 also requires several disclosures in relation to MPMs, such as how the measure is calculated, how it provides useful information and a reconciliation to the most comparable subtotal specified by AASB 18 or another standard. AASB 18 will replace AASB 101 Presentation of Financial Statements. The Standard is effective for the Group from 1 July 2027. It is not expected to materially impact the recognition or measurement of amounts reported in the financial statements but will result in changes to presentation and disclosure. The Group is assessing the detailed impact of the Standard.
AASB 2024-3 Amendments to AASs – Annual Improvements Volume II- Amendments to AASB 9 **Effective for annual reporting periods beginning on or after 1 January 2026**	The AASB has made the following narrow-scope amendments to AASB 9: ▪ **Derecognition of lease liabilities** - clarified that, when a lessee has determined that a lease liability has been extinguished in accordance with AASB 9, the lessee is required to apply AASB 9 and recognise any resulting gain or loss in profit or loss. However, the amendment does not address how a lessee distinguishes between a lease modification as defined in AASB 16 and an extinguishment of a lease liability in accordance with AASB 9. ▪ **Transaction price** – to avoid confusion, replaced the reference to 'transaction price as defined by AASB 15 *Revenue from Contracts with Customers*' with 'the amount determined by applying AASB 15'. AASB 2024-3 applies to all entities using AASB 9, its effect is purely editorial and has no operational impact on Dubber's financial reporting at this time.
Classification and Measurement of Financial Instruments - Amendments to IFRS 9 and IFRS 7 **Effective for annual periods beginning on or after 1 January 2026.**	The AASB has issued Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7), which: • Clarifies that a financial liability is derecognised on the 'settlement date', i.e., when the related obligation is discharged, cancelled, expires or the liability otherwise qualifies for derecognition. It also introduces an accounting policy option to derecognise financial liabilities that are settled through an electronic payment system before settlement date if certain conditions are met • Clarified how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features • Clarifies the treatment of non-recourse assets and contractually linked instruments • Requires additional disclosures in IFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income This amendment is not expected to have a material impact on the financial statements when adopted.

Going Concern

The financial statements for the period ended 30 June 2026 have been prepared on the basis that the entity is a going concern. During the period the Group recorded a loss before depreciation, amortisation, impairment, interest and tax of $3,311,353. The Group also recorded operating cash receipts from customers of $43,859,375 (FY25: $44,345,338), down 1% on FY25, reflecting the reduced Group revenue on FY25 offset by improvements in collections. Net cash outflows used in operating activities were substantially lower than FY25 at $20,484 (FY25: $21,760,194) reflecting the lower cash based expenses (excluding non-cash share based payments) incurred in the year.

The Company raised $815,000 of capital from Directors as approved by shareholders at the 2025 AGM.

The Group has access to a committed working capital facility with the Thorney Group for $5,000,000 with an expiry of 31 January 2027. The Group had $10,211,461 of cash at 30 June 2026 (30 June 2025: $10,863,888) such that total cash and debt facilities available to the Group at 30 June 2026 was $15,211,461 (30 June 2025: $15,863,888).

The Group's ability to continue as a going concern is dependent upon its ability to continue to improve its operating cash flows in the short term. The Group expects to see further reductions in cash expenses resulting from cost reduction activities undertaken during the period to 30 June 2026. The Group is also undertaking further cost reductions in FY27 whilst continuing to pursue revenue growth.

Based on management's forecast of operating cashflows the Directors are satisfied there are reasonable grounds to believe the Group will be able to pay its debts as and when they become due and payable for a period of not less than 12 months from the date of approval of these financial statements.

Revenue Recognition

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control over a service to a customer.

Group revenues consists of service income, being subscription fees from retail or reseller customers.

Subscription Service Revenue

Subscription service revenue is recognised and measured in the accounting period in which the services are provided based on the amount of the expected transaction price allocated to each performance obligation.

The performance obligations are the provision of cloud-based call recording services (Dubber Platform) over a specified period; the provision of services represent a series of distinct services that are substantially the same with the same pattern of transfer to customer.

Provision of services relating to initial establishment and configuration is not distinct from the subscription usage (i.e. call recording services), as the customer cannot benefit from the establishment and configuration alone and hence are regarded as one performance that is satisfied over time. For professional services considered distinct performance obligations revenue is recognised as the performance obligation is satisfied.

Platform Access Revenue

Platform access revenue is recognised over the period of access provided to the customer.

For personal use only

Basis Of Consolidation

Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Dubber Corporation Limited ("Company" or "parent entity") as at 30 June 2026 and the results of all subsidiaries for the year then ended. Dubber Corporation Limited and its subsidiaries together are referred to in these financial statements as the Group or the consolidated entity.

Subsidiaries are all entities (including special purpose entities) over which the Group has control. The Group has control over an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity, and has the ability to use its power to affect those returns.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases. The acquisition method of accounting is used to account for business combinations by the Group.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. Refer to the 'business combinations' accounting policy for further details. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Contract Liabilities

Contract liabilities represent the consolidated entity's obligation to transfer services to a customer and are recognised when a customer pays consideration, or when the consolidated entity recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the consolidated entity has transferred the services to the customer.

Fair Value Measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

For personal use only

Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the CEO.

Foreign Currency Translation

Functional and presentation currency

The consolidated financial statements are presented in Australian dollars, which is the functional and presentation currency of Dubber Corporation Limited.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities, denominated in foreign currencies, are recognised in profit or loss.

Foreign operations

The assets and liabilities of foreign operations are translated to the presentation currency as exchange rates at the reporting date. The income and expenses of foreign operations are translated to Australian dollars at exchange rates at the dates of the transactions.

Foreign currency difference is recognised in other comprehensive income and presented in the foreign currency translation reserve in equity.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities are recognised in other comprehensive income. When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income and are presented in the translation reserve in equity. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Finance Income

Finance income comprises interest income earned on funds invested in bank accounts and call deposits. Interest is recognised on an accrual basis in the consolidated statement of profit or loss and other comprehensive income, using the effective interest method.

Income Tax

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the end of the reporting period. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred tax expense (income) is charged or credited directly to equity instead of the profit

For personal use only

or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at the end of the reporting period. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current assets and liabilities are offset where a legally enforceable right of setoff exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of setoff exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Provisions

Provisions are recognised when a Group company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Cash And Cash Equivalents

Cash and short-term deposits in the statement of financial position comprise cash at banks and on hand and short-term highly liquid deposits with a maturity of three months or less, that are held for the purpose of meeting short-term cash commitments and are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

Trade Receivables

Trade receivables are initially recognised at transaction price, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Financial Instruments

Recognition and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument.

Financial assets are recognised when the contractual rights to the cash flows from the financial asset

For personal use only

expire, or when the financial asset and substantially all the risk and rewards are transferred. A financial liability is recognised when it is extinguished, discharged, cancelled or expires.

Classification and initial measurement of financial assets

Financial assets are classified according to their business model and the characteristics of their contractual cash flows and are initially measured at fair value adjusting for transaction costs (where applicable).

Subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets, other than those designated and effective as hedging instruments, are classified into the following four categories:

- Financial assets at amortised cost
- Financial assets at fair value through profit or loss (FVTPL)
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Equity instruments at FVTOCI

Financial assets at amortised cost

Financial assets with contractual cash flows representing solely payments of principal and interest and held within a business model of 'hold to collect' contractual cash flows are accounted for at amortised cost using the effective interest method. The Group's trade and other receivables fall into this category of financial instruments.

Impairment

The Group makes use of a simplified approach in accounting for trade receivables and contract assets and records the loss allowance at the amount equal to the expected lifetime credit losses. In using this practical expedient, the Group uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses using a provision matrix.

The Group considers a financial asset in default when contractual payments are more than 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

Property, Plant And Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated, less, where applicable, any accumulated depreciation and impairment losses.

Plant and Equipment

Plant and equipment are measured on the cost basis.

Depreciation

The depreciable amount of all fixed assets including buildings and recognised leased assets, but excluding freehold land, is depreciated on a straight-line basis over the asset's useful life to the Company commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

For personal use only

The estimated useful lives used for each class of depreciable assets are:

Property, Plant and Equipment	Useful Life
Furniture, Fixtures and Fittings	5 years
Computer Equipment	5 years
Office Equipment	5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of profit or loss and other comprehensive income. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

Property, plant and equipment is recognised and removed from the statement of financial position on disposal or when no future economic benefits are expected. Gains and losses from derecognition are measured as the difference between the net disposal proceeds, if any, and the carrying amount and are recognised in the statement of profit or loss and other comprehensive income.

Subsequent costs are included in the property, plant and equipment's carrying value or recognised as a separate asset when it is probable that future economic benefits associated with the item will be recognised and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in the statement of profit or loss and other comprehensive income.

Rights Of Use Assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

Right of use asset	Useful Life
Melbourne (AU) office	5 years

For personal use only

Lease Liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated entity's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Impairment Of Assets

At each reporting date, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information including, dividends received from subsidiaries, associates or jointly controlled entities deemed to be out of preacquisition profits. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of profit or loss and other comprehensive income.

Where an impairment loss on a revalued asset is identified, this is debited against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset.

Non-financial assets, other than inventories, deferred tax assets, assets from employee benefits, and contract assets, are assessed for any indication of impairment at the end of each reporting period. Any indication of impairment requires formal testing of impairment by comparing the carrying amount of the asset to an estimate of the recoverable amount of the asset. An impairment loss is calculated as the amount by which the carrying amount of the asset exceeds the recoverable amount of the asset.

Intangible assets with an indefinite useful life and intangible assets not yet available for use are tested for impairment annually regardless of whether there is any indication of impairment.

The recoverable amount is the greater of the asset's fair value less costs to sell and its value in use. The asset's value in use is calculated as the estimated future cash flows discounted to their present value using a pre-tax rate that reflects current market assessments of the time value of money and the risks associated with the asset.

Assets that cannot be tested individually for impairment, are grouped together into the smallest group of assets that generates cash inflows (the asset's cash generating unit).

Impairment losses are recognised in the statement of profit or loss and other comprehensive income. Impairment losses are allocated first, to reduce the carrying amount of any goodwill allocated to cash-generating units, and then to other assets of the group on a pro-rata basis.

Assets other than goodwill are assessed at the end of each reporting period to determine whether previously recognised impairment losses may no longer exist or may have decreased. Impairment losses recognised in prior periods for assets other than goodwill are reversed up to the carrying amounts that would have been determined had no impairment loss been recognised in prior periods.

For personal use only

Trade And Other Payables

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the Company during the reporting period which remain unpaid. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

Goods And Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Contributed Equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

Earnings Per Share

Basic earnings per share is calculated by dividing the profit attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the financial year.

Current And Non-current Classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Share-based Payment Transactions

Employees of the Company receive remuneration in the form of share based payment transactions, whereby employees render services in exchange for equity instruments ("equity settled transactions").

When the goods or services acquired in a share based payment transaction do not qualify for recognition as assets, they are recognised as expenses.

The cost of equity settled transactions and the corresponding increase in equity is measured at the fair value of the goods or services acquired. Where the fair value of the goods or services received cannot be reliably estimated, the fair value is determined indirectly by the fair value of the equity instruments using an appropriate option valuation technique.

Equity settled transactions that vest after employees complete a specified period of service are

For personal use only

recognised as services received during the vesting period with a corresponding increase in equity.

Intangible Assets

Intangible assets acquired as part of a business combination are brought in at fair value at acquisition. Intangible assets with finite useful life are amortised over a straight-line basis in the profit or loss over the estimated useful life.

Customer relationships

Customer relationships acquired as part of a business combination are recognised separately from goodwill. The customer relationships are carried at fair value at the date of acquisition less accumulated amortisation and any impairment losses. These are amortised over on a straight line basis over the period of their expected benefit, being their finite life of 7 years. Following the loss of a major customer contract the Company has reassessed the useful life to 2 years which will be applied from 1 July 2025.

Technology

The technology acquired in a business combination for proprietary software solutions are recognised separately from goodwill. This technology is carried at fair value at the date of acquisition less accumulated amortisation and any impairment losses. Technology related assets are amortised over on a straight line basis over the period of their expected benefit, being their finite life of 5 to 7 years. Following the loss of a major customer contract the Company has reassessed the useful life to 1 year which will be applied from 1 July 2025.

Research & Development Costs

Research costs are expensed when incurred. Development costs are capitalized when they meet all the relevant criteria in AASB138 Intangible Assets.

Goodwill

Goodwill is measured as described in Business Combination policy. Goodwill on acquisition of subsidiaries is included in intangible assets. Goodwill is not amortised, but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, being the operating segments (Note 20).

Employee Provisions

Short-term employee benefit obligations

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled wholly within 12 months after the end of the reporting period are recognised in other liabilities in respect of employees' services rendered up to the end of the reporting period and are measured at amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when leave is taken and measured at the actual rates paid or payable.

Other long-term employee benefit obligations

Liabilities for long service leave and annual leave not expected to be settled wholly within 12 months after the end of the reporting period are recognised as part of the provision for employee benefits and

For personal use only

measured as the present value of expected future payments to be made in respect of services provided by employees to the end of the reporting period. Consideration is given to expected future salaries and wages levels, experience of employee departures and periods of service. Expected future payments are discounted using national government corporate bond rates at the end of the reporting period with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Regardless of when settlement is expected to occur, liabilities for long service leave and annual leave are presented as current liabilities in the statement of financial position if the entity does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period.

Business Combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree and the amount of any non-controlling interest in the acquiree. All acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the consolidated entity assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the consolidated entity's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre- existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition- date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value.

Parent Entity Financial Information

The financial information for the parent entity, Dubber Corporation Limited, disclosed in Note 24 has been prepared on the same basis as the consolidated financial statements.

Critical Accounting Estimates And Judgements

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

Carrying value of goodwill and other intangible assets

The Group tests annually whether the carrying value of goodwill and other intangibles exceed its recoverable amount to determine potential impairment requirements. The recoverable amount of

For personal use only

goodwill and other intangibles has been calculated using a number of assumptions as disclosed in Note 8. An impairment of $1,052,554 has been recognised in respect of goodwill.

Share-based payment transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined using a binomial option pricing or Black-Scholes method. The related assumptions are detailed in Note 23. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact expenses and equity.

The following key judgements have been applied in relation to:

Revenue from contracts with customers

The Group applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

- The Group determined that revenue from its software service is to be recognised over time because the customer simultaneously receives and consumes the benefits provided by the Group.
- The Group has determined that it is the principal in its agreements with its customers because it has control over the service before delivering it to the customer, it is primarily responsible for fulfilling the promise to deliver the service, and it is responsible for establishing the price for the service to be delivered.
- When recognising revenue from contracts with customers, the Group determines that it is probable that the Group will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. This is determined based upon the credit worthiness of the customer and the Group makes reference to credit ratings, historical payment default rate and financial capacity to meet obligations in determining these judgements.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and tax losses only if the Group considers it probable that future taxable amounts will be available to utilise those temporary differences and losses. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits, together with future tax planning strategies.

*** Disaggregation of revenue from contracts with customer**

Revenue is recognised when or as the Group transfers services to a customer at the amount to which the group expects to be entitled over time.

Contracts with customers are based on identified performance obligations being the provision of subscription services or access to technology platforms transferred over time. For the financial year ended 30 June 2026, revenue recognised was $35,070,061 (2025: $42,191,878). Disaggregation of revenue by geographical regions is as disclosed in Note 20 - Operating Segments.

Impairment Testing

Carrying amount of Goodwill allocated to the following cash-generating units subject to impairment testing:

	2026	2025
Europe		
Goodwill	**6,612,222**	8,365,795

Carrying amounts for each CGU are calculated based on specifically identified assets and liabilities used by the CGU including net working capital. The Group's CGUs comprise; Aeriandi and Dubber UK (which together form the Europe Segment); North and Latin America and Rest of World. Goodwill is tested for impairment based on segments being the lowest level within the Group at which goodwill is monitored for internal management purposes. Segments are Europe, North and Latin America and Rest of World. Corporate assets and liabilities are contained within the Rest of World segment.

Europe Group of CGUs

The recoverable amount of the Europe Group of CGUs (comprising the Aeriandi and Dubber UK CGUs) of $7,041,610 ($9,561,000 as at 30 June 2025) has been determined based on a fair value less cost of disposal calculation using cash flow projections from financial budgets approved by senior management covering a one-year period, and then projected forward to cover a further seven-year period up to FY34. The projected cash flows have been updated to reflect the expected demand for the CGU's products and services, together with the unexpected customer non-renewals and reductions in customer activity identified during the second half of the year and the delay of the migration of customers from the Aeriandi platform to the Dubber platform until late FY27. The most significant assumption is the use of a declining revenue growth over the eight-year projection period of FY27 to FY34 with a Cumulative Annual Growth Rate (CAGR) of approximately 2.8% after removing the impact of the non-renewal of the VMO2 and other customer contracts (30 June 2025: 3.3%).

These projections reflect management's view of future market growth for services together with relationships developed with potential customers. The cash flows also reflect intragroup charges for the use of the Group's platform for which the maintenance and development costs and IP reside in the Rest of World CGU. The post-tax discount rate applied to cash flow projections is 16.0% (30 June 2025: 15.5%) and cash flows beyond the eight-year period are extrapolated using a 2.5% (30 June 2025: 2.5%) growth rate. The calculation requires the use of assumptions that are unobservable inputs categorised as Level 3 within the fair value hierarchy.

As a result of this analysis, the recoverable amount of $7,041,610 was lower than the carrying amount of the CGU's assets of $8,094,164 and a goodwill impairment of $1,052,554 was recognised at 30 June 2026 (in the year 30 June 2025, an impairment of $10,587,705 was recorded against goodwill and $6,927,668 was recorded against the value of customer and technology assets). The impairment charge

For personal use only

is recorded within impairment expense in the statement of profit or loss.

Sensitivities to changes in assumptions

Europe

Noting the Europe CGU has recorded an impairment in the year ended 30 June 2026 any adverse change in assumptions would cause further impairment. The calculation of recoverable amount of the Europe CGU is most sensitive to the following assumptions:

- Revenue growth rates
- Discount rates

Revenue growth rates

A reduction in the revenue CAGR (for the period from FY27 to FY34) of 1% for the projection period, with no changes to any other assumption (including the rate of growth applied to costs), would result in an additional impairment of $296,408 in the Europe Group of CGUs. Management anticipate the Group would also reduce costs in the event of any reduction in projected revenue and have disclosed these sensitivities solely to demonstrate the relationship to future growth.

Discount rates

A rise in the post-tax discount rate by 0.5% to 16.5% in the Europe CGU would result in an additional impairment of $268,148.

9. Leases

(i) Amounts recognised in the consolidated statement of financial position shows the following amounts relating to leases:

Right of use assets	**2026 $**	2025 $

Balance at the beginning of the year	7,835,312	41,780	**7,877,092**
Additions	-	-	**-**
Disposals	(4,332,331)	(28,951)	**(4,361,282)**
Interest	230,916	615	**231,531**
Payments	(1,461,607)	(12,250)	**(1,473,857)**
Foreign exchange	(146,907)	(1,194)	**(148,101)**
Carrying amount at the end of the year	**2,125,383**	**-**	**2,125,383**

The total cash outflow for leases in 2026 was $1,416,611 (2025: $2,446,966).

10. Trade and Other Payables

Current	2026 $	2025 $
Trade payables and accruals	**4,190,626**	5,946,648
Employee related taxes and other statutory liabilities*	**2,543,527**	2,827,074
Other payables	**158,533**	43,213
Total	**6,892,686**	8,816,935

*Other statutory liabilities include $1,408,909 provision for historical taxes.

All trade and other payables are expected to be settled within 12 months. Risk management policies in regard to liquidity and currency risk are outlined in Note 17.

For personal use only

11. Provisions

Current	2026 $	2025 $
Employee benefits	**473,811**	918,892
Non-Current		
Employee benefits	**474,968**	564,024
Total	**948,779**	1,482,916

Employee benefits represent annual leave and long service leave entitlements of employees within the Group and is non-interest bearing.

12. Contract Liabilities

	2026 $	2025 $
Current	**3,606,431**	4,064,617
Non-current	**3,557,026**	843,641
Total	**7,163,457**	4,908,258

Reconciliation	2026 $	2025 $
Reconciliation of the values at the beginning and end of the current and previous financial year are set out below:		
Opening balance	**4,908,258**	4,666,044
Payments received in advance	**11,245,162**	11,701,089
Transfers to revenue – performance obligations satisfied	**(8,989,963)**	(11,458,875)
Total	**7,163,457**	4,908,258

Unsatisfied performance obligations

The aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied was $7,163,457 as at 30 June 2026 ($4,908,258 as at 30 June 2025). These are expected to be recognised as revenue in future periods ranging from 1 – 60 months with the majority to be recognised in the next 36 months.

13. Issued Capital

Authorised and issued paid up capital	2026 $	2025 $
2,711,777,542 (2025: 2,625,029,971) Ordinary shares – fully paid	**373,365,588**	370,121,458

Capital Risk Management

The group's objectives when managing capital are to safeguard the ability to continue as a going concern, so that benefits to stakeholders and an optimum capital structure are maintained.

In order to maintain or adjust the capital structure, the Company may return capital to shareholders, cancel capital, issue new shares or options or sell assets.

14. Reserves

	2026 $	2025 $
Option reserve	**14,837,994**	16,312,031
Performance rights reserve	**2,663,035**	2,663,035
Foreign currency reserve	**2,235,813**	2,089,857
Total	**19,736,842**	21,064,923

Option Reserve

The option reserve is used to accumulate amounts received on the issue of options and records items recognised as expenses on valuation of incentive-based share options and loan funded shares.

Movement in option reserve:

	2026 $	2025 $
Balance at the beginning of the year	**16,312,031**	18,275,829
Allocation of incentive-based share options values over vesting period – employees and key management personnel	**531,301**	4,397,187
Allocation of incentive-based options values over vesting period – directors	**423,792**	377,224
Transfers to issued capital on exercise of options*	**(2,309,130)**	(5,916,547)
Securities issued during the year*	**(120,000)**	(821,662)
Balance at the end of the year	**14,837,994**	16,312,031

* Movement in reserve relating to securities issued during the year in 2026 relates to share based payment expenses transferred to share capital on issuance of equity shares where services were received in prior periods.

Performance Rights Reserve

The performance rights reserve is used to record the value of performance rights issued as share based payments until the performance rights are converted into fully paid ordinary shares upon achievement of performance based milestones.

Movement in performance rights reserve:	**2026 $**	2025 $
Balance at the beginning of the year	**2,663,035**	2,663,035
Balance at the end of the year	**2,663,035**	2,663,035

For personal use only

Foreign Currency Reserve

The foreign currency reserve is used to record exchange differences arising from the translation of the financial statements of foreign operations.

Movement in foreign currency reserve:	2026 $	2025 $
Balance at the beginning of the year	**2,089,857**	113,237
Currency translation differences	**145,956**	1,976,620
Balance at the end of the year	**2,235,813**	2,089,857

15. Accumulated Losses

	2026 $	2025 $
Balance at the beginning of the year	**(360,376,151)**	(327,070,030)
Loss attributable to owners of Dubber Corporation Limited	**(8,152,667)**	(33,306,121)
Balance at the end of the year	**(368,528,818)**	(360,376,151)

16. Earnings per Share (EPS)

The earnings and weighted average number of ordinary shares used in the calculation of basic earnings per share are as follows:

	2026 $	2025 $
Earnings attributable to the owners of Dubber Corporation Limited used to calculate EPS		
Loss for the year	**(8,152,667)**	(33,306,121)
Weighted average number of ordinary shares used as the denominator in calculating basic EPS	**2,676,470,062**	1,992,151,803
Basic EPS (cents)	**(0.30)**	(1.67)

As the consolidated entity is in a loss position diluted EPS is the same as basic EPS.

For personal use only

17. Financial Risk Management

Financial instruments consist mainly of deposits with banks and accounts receivable and payable.

The totals for each category of financial instruments, measured in accordance with AASB 9 as detailed in the accounting policies to these financial statements, are as follows:

Financial Assets	Weighted Average Interest Rate (%) 2026	2025	Note	2026 $	2025 $
Cash and cash equivalents	**0.29**	2.31	**4**	**10,211,461**	10,863,888
Trade and other receivables (including Other Assets)	**0.99**	0.07	**5, 7**	**5,182,593**	8,364,909
Total Financial Assets				**15,394,054**	19,228,797
Financial Liabilities					
Trade and other payables*	**4.41**	3.38	**10**	**6,892,686**	8,816,935
Lease liability	**6.99**	6.47	**9**	**2,125,383**	7,877,092
Total Financial Liabilities				**9,018,069**	16,694,027

*Trade and other payables include employee related taxes and other statutory liabilities.

The carrying amounts of these financial instruments approximate their fair values.

Financial Risk Management Policies

Exposure to key financial risks is managed in accordance with the Group's risk management policy with the objective of ensuring that the financial risks inherent in technological activities and new business reviews are identified and then managed or kept as low as reasonably practicable.

The main financial risks that arise in the normal course of business are market risk (including currency risk and interest rate risk), credit risk and liquidity risk. Different methods are used to measure and manage these risk exposures. Liquidity risk is monitored through the ongoing review of available cash and future commitments for research expenditure. Exposure to liquidity risk is limited by anticipating liquidity shortages and ensures capital can be raised in advance of shortages. Interest rate risk is managed by limiting the amount of interest-bearing loans entered by the Company. It is the Board's policy that no speculative trading in financial instruments be undertaken to limit exposure to price risk.

Primary responsibility for identification and control of financial risks rests with the CEO and Managing Director, under the authority of the Board. The Board is apprised of these risks from time to time and agrees to any policies that may be undertaken to manage any of the risks identified.

Details of the significant accounting policies and methods adopted, including criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each financial instrument are disclosed in Note 1 to the financial statements. The carrying values less the impairment allowance for receivables and payables are assessed to approximate fair values due to their short-term nature. Cash and cash equivalents are subject to variable interest rates.

For personal use only

Specific Financial Risk Exposures And Management

a) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has a strict code of credit, including obtaining agency credit information, confirming references and setting appropriate credit limits. The consolidated entity obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired include:

a. significant financial difficulty of the customer;
b. a breach of contract;
c. it is probable that the customer will enter bankruptcy or other financial reorganisation.

Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery. However, financial assets may still be subject to enforcement activities, taking into account legal advice where appropriate. Any recoveries made are recognised in the profit or loss.

Trade receivables

The Group has adopted the simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due.

The expected loss rates are based on the payment profiles of contracts and corresponding historical credit losses. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

On that basis, the loss allowance as at 30 June 2026 was determined as follows for trade receivables:

	Current	More than 30 days past due	More than 60 days past due	Total
Expected loss rate	1%	13%	30%	**7%**
Gross carrying amount – trade receivables	4,004,898	257,357	924,379	**5,186,634**
Loss allowance	51,582	33,797	275,901	**361,280**

For personal use only

Generally, trade receivables are written off when there is no reasonable expectation of recovery. Indicators of this include the failure of a debtor to engage in a repayment plan, no active enforcement activity and a failure to make contractual payments for a period greater than 1 year.

Loss allowance as at 30 June 2025 was determined as follows for trade receivables:

	Current	More than 30 days past due	More than 60 days past due	Total
Expected loss rate	1%	22%	46%	**7%**
Gross carrying amount – trade receivables	4,911,467	51,848	669,838	**5,633,153**
Loss allowance	46,270	11,156	310,548	**367,974**

The Company believes that the Group's credit risk on liquid funds is limited because the majority of cash and deposits are held with Westpac Banking Corporation, NAB and HSBC Bank plc, all of which are long-term AA- or better credit rated banks.

For personal use only

b) Liquidity risk

Liquidity risk arises from the possibility that the Company might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities.

Prudent liquidity risk management implies maintaining sufficient cash reserves to meet the ongoing operational requirements of the business. It is the Company's policy to maintain sufficient funds in cash and cash equivalents. Furthermore, the Company monitors its ongoing research and development cash requirements and raises equity funding as and when appropriate to meet such planned requirements. Trade and other payables are due within 3 months.

The tables below reflect an undiscounted contractual maturity analysis for financial liabilities.

Cash flows realised from financial assets reflect management's expectation as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates.

On 31 January 2025, the Group entered into an unsecured loan facility agreement with Thorney Investment Group of $5m which expires on 31 January 2027. The loan is provided on commercial terms including a 1% establishment fee, a 3% line fee and an additional 8% interest rate on drawn funds, with no equity issuance or conversion options. There are no penalties for early payment or termination. The Group has not drawn down on this facility to date.

Financial Liability And Financial Asset Maturity Analysis

	Within 1 Year		1 to 5 Years		Total Contractual Cash Flow

*Trade and other payables include employee related taxes and other statutory liabilities.

For personal use only

c) Market risk

i. Interest rate risk

The Company's cashflow interest rate risk primarily arises from cash at bank and deposits subject to market bank rates. The Company does not have any borrowings or enter into hedges. An increase/(decrease) in interest rates by 0.5% during the whole of the respective periods would have led to a decrease/(increase) in loss after tax of less than $100,000.

ii. Foreign currency risk

The consolidated Group undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations.

Foreign exchange risk arises from future commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting.

The carrying amount of the consolidated entity's foreign currency denominated financial assets and financial liabilities which are different to the functional currencies of the entities in the group at the reporting date were as follows:

	Assets		Liabilities	
Consolidated	**2026 $**	2025 $	**2026 $**	2025 $
Euros	**139,453**	534,530	**3,107**	2,388
US dollars	**40,408**	27,890	**1,164,913**	1,261,759
British pounds	**-**	7,590	**-**	-
Canadian dollars	**163,495**	118,344	**-**	-
Others	**-**	-	**6,719**	723
Total	**343,356**	688,354	**1,174,739**	1,264,870

The consolidated entity had net financial liabilities denominated in foreign currencies of $831,383 (assets of $343,356 less liabilities of $1,174,739) as at 30 June 2026 (2025: $576,516 net liability consisting of assets of $688,354 less liabilities of $1,264,870). In addition, the group has intercompany loan balances which are denominated in foreign currencies different to the functional currencies of the entities in the group, which have been eliminated on consolidation.

Based on this exposure, had the Australian dollar weakened by 10% / strengthened by 5% against these foreign currencies with all other variables held constant, the consolidated entity's equity and loss before tax for the year would have been $83,138 higher / $41,569 lower (2025: $57,652 higher / $28,826 lower).

The percentage change is the expected overall volatility of the significant currencies, which is based on management's assessment of reasonable possible fluctuations taking into consideration movements over the last 6 months each year and the spot rate at each reporting date. The actual foreign exchange loss for the year ended 30 June 2026 was $1,413,470 (2025: $617,081 gain), which includes foreign exchange impact due to intercompany loan balances.

For personal use only

d) Fair value measurement

Financial instruments recognised at fair value in the statement of financial position are classified using a fair value hierarchy reflecting the significance of the inputs used in making the measurements. The fair value hierarchy consists of the following levels:

Level 1: Quoted prices in active markets for identical items (unadjusted)

Level 2: Observable direct or indirect inputs other than Level 1 inputs

Level 3: Unobservable inputs (i.e. not derived from market data)

The classification of an item into the above levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfers of items between levels are recognised in the period they occur.

As at 30 June 2026, there are no financial instruments recognised at fair value in the statement of financial position.

18. Auditors' Remuneration

Services provided by the auditors of the parent entity and the auditor's related practices, as well as non-EY audit firms are categorised as below:

- Category 1: Fees paid or payable to the auditor of the parent entity for auditing the statutory financial report of the parent covering the group, and for auditing statutory reports of any controlled entities.
- Category 2: Fees paid or payable for assurance services that are required by legislation and are required by that legislation to be provided by the auditor of the parent entity.
- Category 3: Fees paid or payable for other assurance and agreed-upon procedures services that are required by legislation by the auditor of the parent or another non-EY audit firm; and
- Category 4: Fees paid or payable for other services (including tax compliance).

During the year, the following fees were paid or payable for services provided by the auditor of the parent entity and its related practices, as well as non-EY audit firms, split for the categories described above:

	EY Australia		Non-EY audit firms	
	2026	2025	**2026**	2025
Category 1 fees	489,649	595,270	103,919	93,232
Category 4 fees	-	-	50,532	13,119
Total Auditors' Remuneration	**489,649**	595,270	**154,451**	106,351

19. Commitments

The Consolidated entity has no material commitments for the acquisition of property, plant and equipment or intangibles assets as at reporting date (2025: Nil).

20. Operating Segments

Identification of reportable operating segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the CEO (chief operating decision maker) in assessing performance and determining the allocation of resources.

The group has three main operating segments, specifically for the provision of subscription services in Europe, United States of America ('Americas') and Rest of World.

Intersegment transactions

An internally determined transfer price is set for all inter-segment transactions. This price is based on what would be realised in the event that the transaction occurred with an external party at arm's length. All such transactions are eliminated on consolidation.

Intersegment receivables, payables and loans

Segment assets are clearly identifiable on the basis of their nature and physical location.

Liabilities are allocated to segments where there is a direct nexus between the incurrence of the liability and the operations of the segment. Segment liabilities includes trade and other payables.

Unallocated items

Any items noted below as 'Other' are not allocated to operating segments as they are not considered part of the core operations of any segment in particular.

For personal use only

Revenues by country/region

The consolidated Group's revenues are derived from the following countries in descending order of significance:

Country	United Kingdom	United States	Australia	Luxembourg	Denmark	Other	Total
Revenue (2026)	**19,370,180**	**10,844,137**	**3,314,692**	**608,540**	**501,783**	**430,729**	**35,070,061**

21. Related Party Transactions

The Group's transactions with related parties are set as follows:

Subsidiaries

The consolidated financial statements include the financial statements of Dubber Corporation Limited and the subsidiaries listed in the following table:

	Country of Incorporation	Class of Shares	2026 (%)	2025 (%)
Medulla Group Pty Ltd	Australia	Ordinary	**100**	100
Dubber Pty Ltd	Australia	Ordinary	**100**	100
Dubber Ltd	England	Ordinary	**100**	100
Dubber USA Pty Ltd	Australia	Ordinary	**100**	100
Dubber, Inc	United States of America	Ordinary	**100**	100
CallN Pty Ltd	Australia	Ordinary	**100**	100
Aeriandi Ltd	England	Ordinary	**100**	100
Dubber UK Holdings Ltd	England	Ordinary	**100**	100
Dubber Asia Pty Ltd	Australia	Ordinary	**100**	100
Dubber Japan K.K.	Japan	Ordinary	**100**	100
Pinch Labs, Inc	United States of America	Ordinary	**100**	100
Pinch Labs Pty Ltd	Australia	Ordinary	**100**	100

Parent Entity

Dubber Corporation Limited is the ultimate Australian parent entity and ultimate parent of the Group.

Key Management Personnel

Refer to the Remuneration Report contained in the Directors' Report for details of the remuneration paid or payable to each member of Dubber Corporation Limited's key management personnel for the year ended 30 June 2026.

The totals of remuneration paid to key management personnel of the Company during the year are as follows:

	2026 $	2025 $
Short-term employee benefits	**1,103,775**	1,664,428
Long-term benefits	**34,798**	21,054
Post-employment benefits	**76,398**	302,529
Share-based payments	**440,827**	1,630,523
Total	**1,655,798**	3,728,114

For personal use only

Other Transactions With Associated Entities

Thorney Investment Group owns approximately 22% of the Group shareholdings and Jeremy Davis (Director) is associated with Thorney Investment Group.

On 31 January 2025, the Group entered into an unsecured loan facility agreement with Thorney Investment Group (associated with Mr Jeremy Davis) of $5m which expires on 31 January 2027. The loan is on commercial terms and the conditions include a 1% establishment fee, a 3% line fee and an additional 8% interest rate on drawn funds, with no equity issuance or conversion options. There are no penalties for early payment or termination. In 2026, the Group paid $108,436 for the facility line and establishment fees which are included in finance costs. Trade and other payables at 30 June 2026 include $74,384 accrued line fees in relation to the loan facility.

22. Cash Flow Information

Reconciliation of loss for the year to net cash flows from operating activities:

	2026 $	2025 $
Loss before tax	**(7,900,295)**	(35,970,814)
Non-cash flows in loss:		
Depreciation and amortisation	**3,040,445**	6,635,319
Impairment expense	**1,052,554**	18,233,728
Share based payments	**955,093**	4,774,411
Gain on lease terminations, net	**(871,311)**	51,389
Net exchange differences	**1,413,470**	(617,081)
Changes in assets and liabilities:		
Decrease/(Increase) in trade and other receivables	**2,492,747**	(2,463,049)
Increase/(Decrease) in payables and contract liabilities	**330,950**	(12,116,390)
Increase/(Decrease) in provisions	**(534,137)**	(287,707)
Net cash outflows from operating activities	**(20,484)**	**(21,760,194)**

23. Share Based Payments

Value Of Share Based Payments In The Financial Statements

Expensed – directors and other key management personnel remuneration:	**2026 $**	2025 $
Employee options	**17,036**	1,708,817

*Forfeited options are a result of performance and/or vesting conditions not being satisfied.

For personal use only

Share Based Payments expense includes the effects of reassessed probabilities of achievement of non-market vesting conditions as at 30 June 2026 for options issued in prior years in accordance with the requirements of AASB 2 Share-based payment.

During the year, the Company has granted options to employees and KMPs as well as for services rendered by consultants and shareholders. The fair value of the options is determined using the Black Scholes model, except for those options that are subject to a market based vesting condition which used a binomial option pricing model. The details of the assumptions and inputs to the model for all options granted during the year are as follows:

Zero exercise price options granted to Employees and Consultants during the year ended 30 June 2026:

Zero exercise price options (ZEPOs)	**Employees**	**Employees**
Grant date	**16 September 2025**	**4 November 2025**
Number of options	8,000,000	3,250,000
Vesting date	30 September 2025	11 November 2025
Expense recognised in FY26 ($)	168,000	58,500
Dividend yield (%)	-	-
Expected volatility (%)	99	98
Risk-free interest rate (%)	3.402	3.667
Expected life of options (years)	3.04	2.99
Expiry date	30 September 2028	31 October 2028
Underlying share price ($)	0.021	0.018
Option exercise price ($)	0.00	0.00
Fair value of option ($)	0.021	0.018

The various deferred vesting options listed above are subject to milestones or vesting dates. Probability of achieving these milestones or vesting dates have been assessed at 100% unless otherwise stated.

The weighted average remaining contractual life of share-based payment options that were outstanding as at 30 June 2026 was 1.29 years (2025: 2.30 years).

The weighted average fair value of share-based payment options granted during the year was $0.00 (2025: $0.01).

In addition to the above, a number of Directors agreed to take part of their base non-executive director fees in equity for the first 12 months after appointment. The following remuneration shares were issued which were approved at the 2025 AGM and share price was used as of AGM date 26 November 2025.

Remuneration Shares	Directors
Grant date	**19 December 2025**
Number of shares	8,000,000
Value per ordinary share ($)	$0.015
Expense reversed in FY26 ($)	(1,706)

In addition to the shares issued above, the directors agreed to receive some or all of their fixed cash remuneration fees in equity for the second year of their appointment. Shareholders approval is required to issue the equity which is expected to be obtained at the upcoming AGM in November 2026.

24. Parent Entity Disclosures

Summary Financial Information

The individual financial statements for the parent entity show the following aggregate amounts:

Statement of financial position	2026 ($)	2025 ($)
Current assets	644,812	583,363
Non-current assets	9,770,293	17,589,085
Total assets	**10,415,105**	18,172,448
Current liabilities	1,304,655	2,119,247
Non-current liabilities	1,426,041	2,132,174
Total liabilities	**2,730,696**	4,251,421
Net assets	**7,684,409**	13,921,027
Equity		
Issued capital	356,476,385	353,232,255
Reserves	19,736,842	21,064,923
Accumulated losses	(368,528,818)	(360,376,151)
Total equity	**7,684,409**	13,921,027
Loss for the year	**(8,152,667)**	(33,304,769)
Total comprehensive loss	**(8,152,667)**	(33,304,769)

The parent entity had no capital commitments or contingent liabilities at 30 June 2026 or 30 June 2025.

For personal use only

At 30 June 2026, the parent entity had a net current liability position of $659,843. The Directors consider that the parent entity will be able to meet its obligations as and when they fall due, having regard to the Group's net current asset position and the availability of funds held within wholly owned subsidiaries to meet the parent entity's obligations, as required.

25. Events Subsequent to Year End

The Company issued 26,500 shares to satisfy option exercises under the Company's ESOP plan between 1 July 2026 and the date of this report.

John Selak resigned as a Non-Executive Director on 7 July 2026.

Aside from the above, no other matters or circumstances have arisen since the end of the financial year.

Directors' Declaration

The directors of the Company declare that:

1. The financial statements and notes are in accordance with the Corporations Act 2001, and:
   i. comply with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
   ii. give a true and fair view of the financial position of the Company as at 30 June 2026 and of its performance for the financial year ended on that date; and
   iii. the consolidated entity disclosure statement required by Section 295(3A) of the Corporations Act is true and correct.
2. The Managing Director and Acting Chief Financial Officer have each declared that:
   i. the financial records of the Company for the financial year have been properly maintained in accordance with section 286 of the Corporations Act 2001;
   ii. the financial statements and notes for the financial year comply with the accounting standards; and
   iii. the financial statements and notes for the financial year give a true and fair view.
3. In the opinion of the directors there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
4. Note 1 confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the Board of Directors.

Independent auditor's report to the members of Dubber Corporation Limited

Report on the audit of the financial report

Opinion

We have audited the financial report of Dubber Corporation Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 30 June 2026, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

a. Giving a true and fair view of the consolidated financial position of the Group as at 30 June 2026 and of its consolidated financial performance for the year ended on that date; and

b. Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to audits of the financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the financial report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

Revenue recognition

Why significant	How our audit addressed the key audit matter
The Group recognised $35.1m of revenue for the year ended 30 June 2026. Customer contracts involve judgement regarding the period in which revenue from services should be recognised. We considered revenue recognition to be a Key Audit Matter given its significance to the financial report and being a key performance measure for the Group.	Our audit procedures included the following: ▪ We evaluated the appropriateness of the Group's revenue recognition accounting policies as set out in Note 1 of the financial report. ▪ We assessed the accuracy and completeness of customer invoices through customer confirmation or review of transaction documents. ▪ We examined service period dates on invoices and the terms of customer contracts to conclude revenue has been appropriately recorded in the correct period. ▪ We recalculated the accuracy and completeness of the deferred revenue and accrued revenue recorded. ▪ Performed data analysis procedures over the revenue transactions and the relationship of these transactions against the contract liability, trade receivables, accrued revenue and cash accounts. ▪ We considered the adequacy of the disclosures in respect of revenues as set out in Note 1 of the financial report.

Impairment assessment of goodwill and intangible assets

Why significant	How our audit addressed the key audit matter
The Group recognised an impairment expense of $1.05m in relation to goodwill. As outlined in Note 8 of the financial report, impairment testing is performed by the Group annually to support the carrying value of goodwill and for other finite life intangibles where there are indicators of impairment. The recoverable amount of each of the Europe cash generating units (CGUs) and the group of Europe CGUs was primarily determined using a fair value less cost of disposal approach that used cash flow projections from financial budgets approved by the Board, and reflected the future restructure of the Aeriandi business and projected forward a further 7 year period. As this process involved estimates and significant judgments regarding forecast future cash flow projections, discount rates, growth rates and terminal values, as well as the material balances of the assets assessed, we considered this to be a Key Audit Matter.	Our audit procedures included the following: ▪ Assessed the Group's identification of indicators of impairment for each CGU. ▪ Evaluated whether the Group's determination of its Cash Generating Units (CGUs) was in accordance with Australian Accounting Standards. ▪ Assessed the allocation of assets to the relevant CGUs. ▪ Assessed the appropriateness of the methodology applied to estimate recoverable amount. ▪ Assessed the key inputs and assumptions including board approved cash flows, discount rates and growth rates adopted in the estimated recoverable amount. ▪ Compared the cash flows used in the assessment to the actual and budgeted financial performance of the underlying CGUs. ▪ Performed a crosscheck to the implied Fair Value Less Cost of Disposal of the Group based on multiples derived from observable external market data of comparable listed entities, where available. ▪ Assessed the reasonableness of the Group's sensitivity analysis around the key assumptions to determine whether any reasonably possible changes would result in an impairment where no impairment had been recognised. ▪ Assessed the Group's allocation of impairment to relevant assets. ▪ Assessed the adequacy of the disclosures made in the financial report. Our valuation specialists were involved in the conduct of these procedures where appropriate.

Going concern

Why significant	How our audit addressed the key audit matter
At 30 June 2026, the Group had cash and cash equivalents of $10.2m and had an undrawn $5.0m debt facility with an expiry of 31 January 2027. For the year ended 30 June 2026 the Group has incurred a loss after income tax expense of $8.2m and net cash outflows used in operating activities of $0.02m. As disclosed in Note 1 to the financial report, the directors concluded that there are reasonable grounds to believe the Group can continue as a going concern. The Group's financial statements were accordingly prepared on a going concern basis. In making this assessment the Directors gave consideration to forecast cash flows reflecting expected customer activity and planned operating cost reductions. Given the historical results of the Group, considerable audit effort was directed to assessing the cashflow forecasts that supported the Directors' going concern assessment. Accordingly, we considered this to be a Key Audit Matter.	Our audit procedures included the following: ▪ We agreed the cashflow model used to support the going concern assessment to the Board approved budget for the year ending 30 June 2027 and management forecasts for the period after 30 June 2027. ▪ We assessed key assumptions against actual performance and supporting evidence to inform our sensitivity analysis and considered a range of sensitivities in the cash flow model to assess impact on available cash and debt facilities. ▪ We considered whether management's assessment includes relevant information obtained throughout the audit. ▪ We considered actual performance for the month of July 2026 and cash available at 31 July 2026 against forecast. ▪ We checked the existence and term of the debt facility and that it was excluded from available funds from its termination date of 31 January 2027. ▪ We enquired of management as to the existence of relevant events or conditions beyond the going concern period that could be relevant to the going concern assessment. ▪ We considered the adequacy of the disclosures made in Note 1 of the financial report.

Information other than the financial report and auditor's report thereon

The directors are responsible for the other information. The other information comprises the information included in the Company's 2026 Annual Report other than the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of:

- The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- The consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001;* and

for such internal control as the directors determine is necessary to enable the preparation of:

- The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- The consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

A member firm of Ernst & Young Global Limited
Liability limited by a scheme approved under Professional Standards Legislation

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

- Plan and perform the Group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial report. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the audit of the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2026.

In our opinion, the Remuneration Report of Dubber Corporation Limited for the year ended 30 June 2026, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
