Capital management

Frances Summerhayes – Chief Financial Officer

15 September 2026

Disclaimer

The information in this presentation is current as at 15 September 2026. It is in summary form and is not necessarily complete. It should be read together with the Evolution results for the year ended 30 June 2026.

Forward-looking statement

These materials prepared by Evolution Mining Limited ('Evolution' or 'the Company' or 'the Group' or 'EVN') include forward looking statements. Often, but not always, forward looking statements can generally be identified by the use of forward-looking words such as 'may', 'will', 'expect', 'intend', 'plan', 'estimate', 'anticipate', 'continue', and 'guidance', or other similar words and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production or construction commencement dates and expected costs or production outputs.

Forward looking statements inherently involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance and achievements to differ materially from any future results, performance or achievements. Relevant factors may include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, including the risks of obtaining necessary licenses and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the Company operates or may in the future operate, environmental conditions including extreme weather conditions, recruitment and retention of personnel, industrial relations issues and litigation.

Forward looking statements are based on the Company and its management's good faith assumptions relating to the financial, market, regulatory and other relevant environments that will exist and affect the Company's business and operations in the future. The Company does not give any assurance that the assumptions on which forward looking statements are based will prove to be correct, or that the Company's business or operations will not be affected in any material manner by these or other factors not foreseen or foreseeable by the Company or management or beyond the Company's control.

Although the Company attempts and has attempted to identify factors that would cause actual actions, events or results to differ materially from those disclosed in forward looking statements, there may be other factors that could cause actual results, performance, achievements or events not to be as anticipated, estimated or intended, and many events are beyond the reasonable control of the Company. Accordingly, readers are cautioned not to place undue reliance on forward looking statements. Forward looking statements in these materials speak only at the date of issue. Subject to any continuing obligations under applicable law or any relevant stock exchange listing rules, in providing this information the Company does not undertake any obligation to publicly update or revise any of the forward-looking statements or to advise of any change in events, conditions or circumstances on which any such statement is based.

Non-International Financial Reporting Standards (IFRS) financial information

Investors should be aware that financial data in this presentation includes 'non-IFRS financial information' under ASIC *Regulatory Guide 230: Disclosing non-IFRS financial information* published by ASIC and also 'non-GAAP financial measures' within the meaning of Regulation G under the U.S. *Securities Exchange Act* of 1934. Non-IFRS/non-GAAP measures in this presentation include gearing, sustaining capital, major product capital, major mine development, and production cost information such as All-in Sustaining Cost (AISC) and All-in Cost (AIC). Evolution believes this non-IFRS/non-GAAP financial information provides useful information to users in measuring the financial performance and conditions of Evolution. The non-IFRS financial information do not have a standardised meaning prescribed by the Australian Accounting Standards (AASBs) and, therefore, may not be comparable to similarly titled measures presented by other entities, nor should they be construed as an alternative to other financial measures determined in accordance with AASBs. Investors are cautioned, therefore, not to place undue reliance on any non-IFRS/non-GAAP financial information and ratios included in this presentation. Non-IFRS financial information in this presentation has not been subject to audit or review by the Company's external auditor.

This presentation has been approved for release by Evolution's Board of Directors.

All amounts are expressed in Australian dollars unless stated otherwise.

All production and financial information in this presentation represents Evolution's share unless otherwise stated.

Key messages

Quality high-margin portfolio driving cash generation and shareholder value

Balance sheet supports strategy through the cycle

Disciplined capital allocation delivering high returns

Rewarding our shareholders

Banking the upside from a high-margin portfolio

High-margin portfolio; all assets cash generative

Underlying EBITDA margin (%)

Group AISC margin (%)

Group cash flow margin (\$/oz)

Operating mine cash flow (\$B)^{2,3}

FY27 cash flow sensitivities (\$M)

1. FY25 actual based on Group achieved gold price A\$4,300/oz & copper price A\$14,470/t.
2. FY26 actual based on Group achieved gold price A\$6,023/oz & copper price A\$18,051/t.
3. FY27 cash flow estimate based on Group guidance midpoint at ~A\$6,200/oz (gold) & ~A\$20,500/t (US\$6.60/lb) (copper).

Balance sheet underpins strategic flexibility through the cycle

Balance sheet flexibility

- ✓ **Net cash** position
- ✓ **Liquidity** of \$1.9B at June 2026
- ✓ **No debt** repayments due until FY29
- ✓ **Low fixed debt cost** at average rate of 4.47%
- ✓ **Investment Grade** rating
- ✓ **Access** to attractive long-term capital

Fully unhedged gold and copper portfolio

Rapid deleveraging; net cash¹

Low cost and long tenor debt

1. Net debt/cash position calculated using cash and cash equivalents, term loans and USPP balance at hedge values of A\$1,329M.

Disciplined capital allocation delivering sustained high returns

Balance sheet supports strategy in all aspects through the cycle

Accretive deals¹ ~\$250M

Unlocking Northparkes via the Triple Flag Agreement Amendment

Acquisition of Carnaby Resources²

Strategic investment in Arizona Gold & Silver Inc.

Strategy to own up to 8 assets in tier 1 jurisdictions

Value is not just “bought” ... it is delivered after the acquisition

Return on investment 18%⁴

Organic growth FY26 \$850M

- Cowal**
 - OPC extends open pits by ~10 yrs
 - Multiple exploration opportunities
- Mungari**
 - Expansion and ramp up complete, returned to major cash contributor
 - Exploration opportunity for grade displacement
- Ernest Henry**
 - Bert increases production
 - Regional exploration
- Northparkes**
 - E22 development to increase production
 - CPF increases production via higher recoveries
- Red lake**
 - Tailings reprocessing study

High quality portfolio
Average Group Ore Reserve life ~17 years³

Shareholder returns FY26 \$833M

Delivering record returns:

27th consecutive dividend

21cps (\$427M)
final dividend (fully franked)

\$2.5B+
total dividends declared to date

Improved policy targeting 60%
of annual Group cash flow

1. Accretive deals refers to the approximate value of transactions completed, or in the process of completing, up to 19 August 2026.

2. Acquisition of Carnaby Resources remains subject to customary conditions, including Carnaby shareholder, court and regulatory approvals. For more information see the ASX announcement titled 'Evolution agrees to acquire Carnaby Resources' dated 27 July 2026.

3. Reserve life is calculated as contained metal of the gold Ore Reserve at 31 December 2025 / FY26 gold production for each site. See the appendix of this presentation for more information on Evolution's Mineral Resources and Ore Reserves.

4. Evolution Group average of 18% is the historical portfolio average ROI.

Disciplined allocation of capital rewarding shareholders

Equity used for accretive deals, not for balance sheet or hedge book refinancing

For personal use only

Compound Annual Growth Rate (CAGR)

Northparkes	64%
Mungari	29%
Cowal	29%
Mungari (Kundana)	30%
Ernest Henry	22%

1. Ernest Henry equity raise refers to the acquisition of Ernest Henry economic interest.
2. EVN Share price used for CAGR calculation as at 8th September 2026.

Portfolio enhancement through high return investment

For personal use only

Improving portfolio quality delivers higher shareholder returns

1. OPC IRR calculated using a base case gold price of A\$3,300/oz and upside gold price of A\$6,500/oz.
2. E48, E22, Coarse Particle Flotation Project and Bert IRRs calculated using base case metal prices of A\$14,350/t (~US\$4.55/lb) copper and A\$4,000/oz gold and January 2026 upside metal prices of A\$18,000/t (~US\$5.70/lb) copper, and A\$6,500/oz gold.
3. Evolution Group average of 18% is the historical portfolio average Return on investment (ROI).
All reported metrics are Evolution's attributable share post stream unless otherwise noted.

Rewarding our shareholders

Dividend policy sustainable through the cycle

Shareholder returns

- ✓ Policy targeting **60% payout** of annual **Group cash flow**
- ✓ 27 consecutive dividends
- ✓ **Record final dividend** 21cps fully franked (up 62%)
- ✓ **Record annual dividend** 41cps fully franked (\$833M)

Annualised Total Shareholder Return

Building Momentum in Shareholder Returns

Dividends per share & gearing

Dividends (\$M)

Summary

Quality high margin portfolio driving cash generation and shareholder value

Balance sheet supports strategy through the cycle

Disciplined capital allocation delivering high returns

Rewarding our shareholders

- AISC Guidance is based on a gold price A\$5,700/oz and copper price of A\$18,000/t (US\$5.72/lb)
- Group production weighted to H2 linked to Cowal underground ramp up and new mining areas at Red Lake
- Mine development ramps up for previously approved projects ensuring ore delivery in FY28-30 and beyond
 - Northparkes (E22);
 - Ernest Henry (Bert); and
 - Cowal (E42)
- Guidance aligns to details included in the June 2026 Quarter Report

1. AISC includes C1 cash cost, plus royalties, sustaining capital, general corporate and administrative expense, calculated per ounce sold.
 2. Depreciation and amortisation for Ernest Henry and Northparkes on a gold equivalent basis is \$590 – \$652/oz and \$632 – \$699/oz respectively.
