

TRADING UPDATE H1 FY27

Melbourne, 13 October 2026

PointsBet Holdings Limited (ASX:PBH) (the **Company** or **PointsBet**) announces that PointsBet expects its H1 FY27 group revenue (covering the period 1 April 2026 to 30 September 2026) to be approximately \$113m.

This is a decline of approximately 16% relative to PointsBet group revenue in the PCP (covering the period 1 April 2025 to 30 September 2025), which was approximately \$135m.

The decline in group revenues was attributable to the Australian business, reflecting a continuation of two key themes identified at our FY26 AGM:

1. Continued strengthening of our compliance standards. A sustained trend of double digit turnover and revenue declines vs PCP throughout H1 from our highest value client cohort can be attributed to proactive compliance actions.
We believe these have been important decisions to make in the context of an increasingly complex regulatory environment in Australia.
2. A deliberate choice to accelerate growth in mass market sports actives, which can lead to short term volatility in Net Win margins. Consistent gains in mass market sports Actives, Turnover and structural Net Win margin vs PCP were eroded by negative variance in actual Net Win margin throughout the half, in particular adverse results for key sports in August and September – primarily AFL.

Consequently, PointsBet expects its H1 FY27 Normalised EBITDA to be in the range of \$(6m) – \$(8m).

PointsBet will release its H1 FY27 results on 30 October 2026.

This announcement has been authorised for release by the Board.
