Site clearing commences at Manna Lithium Project as Global Lithium strengthens project team

Australia's next lithium producer, Global Lithium Resources Limited ("ASX: GL1", "Global Lithium" or "the Company") is pleased to announce that clearing and grubbing works has commenced at its 100%-owned Manna Lithium Project in Western Australia.

The early works cover the grade control area, with approximately 54 hectares included in the contracted scope. Activities include clearing vegetation within the approved work area and managing cleared material, subject to the Project's environmental and heritage controls.

The commencement of physical site works follows the Company's previously announced receipt of its Native Vegetation Clearing Permit¹. It marks a further step in preparing Manna for development, while the Company continues to progress the Project during the binding scheme of arrangement with Titan Australia Mining Pty Ltd².

¹ GL1 ASX Announcement, 20 August 2026, "Manna Clearing Permit and Groundwater Licence secured"

² GL1 ASX Announcement, 22 September 2026, "Global Lithium enters into binding SID with Titan"

Global Lithium Managing Director Dr Dianmin Chen said:

“Starting site clearing is another important and very visible milestone for Manna. We are continuing to advance the Project safely and responsibly during the SID process with Titan, supported by a growing team with the experience to deliver the next phase of work.”

To support continued work at Manna and the Nova processing facility, GL1 is pleased to announce four senior management appointments:

- **Guy Simpson** has been promoted to GM – Manna Operations. Guy joined Global Lithium in May 2026 as General Manager – Technical Services. A mining engineer with more than 30 years’ international experience, he will lead the Company’s mining function as Manna progresses towards development and operations;
- **Glen Fraser** has been appointed Senior Project Manager. Glen brings more than a decade of project experience, most recently on the Havieron Gold Mine development at Greatland Gold;
- **James Tut** has been appointed Project Manager. James brings more than a decade of project experience across Roy Hill, Fortescue, BHP and Rio Tinto; and
- **Scott Dassira** has been appointed People & Culture Manager. Scott brings experience in workforce planning and organisational transitions across resources and other sectors, most recently at Pfizer’s Perth site.

These appointments strengthen Global Lithium’s operational, project delivery and workforce capabilities as work at Manna and Nova progresses.

Approved for release by the Board of Global Lithium Resources Limited

Global Lithium – Mineral Resources (June 2025)*

Project Name	Category	Million Tonnes (Mt)	Li ₂ O %	Ta ₂ O ₅ ppm
Marble Bar	Indicated	3.8	0.97	53
	Inferred	14.2	1.01	50
	Total	18.0	1.00	51
Manna	Indicated	32.9	1.04	52
	Inferred	18.7	0.92	50
	Total	51.6	1.00	52
Combined Total		69.6	1.00	52

*The above Mineral Resource Estimates include the Marble Bar Lithium Project, which is subject to the proposed divestment as announced by the Company on 22 April 2026.

MLP – Ore Reserve Estimate (Sept 2026)*

Source	Category	Million Tonnes (Mt)	Li ₂ O %	Cont. Li ₂ O (t)
Open Cut	Proved			
	Probable	14.7	0.91	133,770
	Subtotal	14.7	0.91	133,770
UG	Proved			
	Probable	6.2	0.83	51,460
	Subtotal	6.2	0.83	51,460
Combined Total		20.9	0.89	185,230

*This above Ore Resource Estimate is updated as part of the Manna-Nova Integration Study announced by the Company on 16 September 2026.

Competent Persons Statements

Ore Reserve

The information in this announcement that relates to the Ore Reserve estimates for the Manna Lithium Project has been extracted from the Global Lithium's previous ASX announcement released to the ASX on 16 September 2026. A copy of that announcement is available at www.asx.com.au (ASX GL1).

Global Lithium confirms that it is not aware of any new information or data that materially affects the information in the relevant market announcement, that all material assumptions and technical parameters underpinning the Manna Ore Reserve estimate in the original market announcements continue to apply and have not materially changed and that the form and context in which the Competent persons findings are presented have not been materially modified from the original announcements.

Mineral Resources

The information in this announcement that relates to the Mineral Resource estimates for the Manna Lithium Project has been extracted from the Global Lithium's previous ASX announcement released to the ASX on 12 June 2024. A copy of that announcement is available at www.asx.com.au (ASX GL1).

Global Lithium confirms that it is not aware of any new information or data that materially affects the information in the relevant market announcement, that all material assumptions and technical parameters underpinning the Manna Mineral Resource estimate in the original market announcements continue to apply and have not materially changed and that the form and context in which the Competent persons findings are presented have not been materially modified from the original announcements.

The information in this announcement that relates to the Mineral Resource estimates for the Marble Bar Lithium Project has been extracted from an ASX announcement released on 15 December 2022. A copy of that announcement is available at www.asx.com.au (ASX GL1).

Global Lithium confirms that it is not aware of any new information or data that materially affects the information in the relevant market announcements, that all material assumptions and technical parameters underpinning the Marble Bar Mineral Resource estimate in the original market announcements continue to apply and have not materially changed and that the form and context in which the Competent persons findings are presented have not been materially modified from the original announcements.
