Resmed Inc. Announces Results for the First Quarter of Fiscal Year 2027

- Q1 revenue increased by 6% to $1.4 billion; up 7% on a core constant currency basis
- Q1 GAAP diluted earnings per share up 23% to $2.92; non-GAAP diluted EPS up 14% to $2.91
- Returned more than $1.0 billion to shareholders through share repurchases and dividends during Q1

Note: A webcast of Resmed's conference call will be available at 4:30 p.m. ET today at http://investor.resmed.com

SAN DIEGO, October 29, 2026 – Resmed Inc. (NYSE: RMD, ASX: RMD) today announced results for its quarter ended September 30, 2026.

“We began fiscal year 2027 with a strong first quarter, driven by continued global demand for our sleep and breathing health solutions and ongoing execution across our business," said Resmed's Chairman and CEO, Mick Farrell. "Year over year, we grew core constant currency revenue 7%, expanded non-GAAP gross margin by 50 basis points, and increased non-GAAP earnings per share by 14%. Our strong free cash flow and the proceeds from our divestiture of MatrixCare enabled us to both invest in innovation and return more than $1 billion to shareholders during the quarter.”

"Looking ahead to the rest of fiscal year 2027, we will continue to build our core sleep and breathing health businesses by extending the reach of our digital health ecosystem and connecting more of the people worldwide who need care with life-saving treatment delivered right in their own home.”

Other Business and Operational Highlights

- Closed the previously announced divestiture of the MatrixCare business.
- Announced the U.S. launch of the AirTouch F40, the newest addition to Resmed’s growing portfolio of fabric CPAP masks.
- Partnered with Eight Sleep to connect its technology with Resmed sleep insights for people in the U.S. and Australia, and with 23XI Racing NASCAR driver Tyler Reddick, following his sleep apnea diagnosis, to help others recognize the signs and seek treatment.
- Announced appointment of Carol Burt as Lead Director, effective November 15, 2026, after the planned retirement of Director Ron Taylor.

A. In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, we provide certain financial information on a "constant currency basis," which is in addition to the actual financial information presented. In order to calculate our constant currency information, we translate the current period financial information using the foreign currency exchange rates that were in effect during the previous comparable period. However, constant currency measures should not be considered in isolation or as an alternative to U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with U.S. GAAP. Revenue growth on a core constant currency basis, which also excludes the impact of the Noctrix acquisition and the divestiture of the MatrixCare business, was 7%.

B. See the reconciliation of non-GAAP financial measures in the table at the end of the press release.

C. Free cash flow is equal to operating cash flow less purchases of property, plant and equipment.

D. During the first quarter of fiscal year 2027, we revised the presentation of restructuring expenses and amortization of acquired intangibles. Restructuring expenses, which were previously presented as a separate line item within operating expenses, are now classified within cost of sales, research and development expenses, and selling, general and administrative expenses based on the function of the associated costs. Amortization of acquired intangibles relating to cost of sales is no longer presented as a separate line item within cost of sales. Amortization of acquired intangibles relating to operating expenses are now classified within selling, general and administrative expenses. Prior-period amounts have been reclassified to conform to the current-period presentation. See reconciliation of reclassification of prior-period amounts at the end of the press release.

Discussion of First Quarter Results

All comparisons are to the prior year period unless otherwise noted

- Strong revenue growth: Revenue increased 6% (7% in core constant currency) to approximately $1.4 billion, primarily driven by strong demand across sleep devices and masks and accessories.
- Global momentum: On a core constant currency basis, Americas Sleep and Breathing Health revenue grew 7%, Rest of World Sleep and Breathing Health grew 8%, and Residential Care Software revenue increased 5%.
- Healthy profitability: GAAP gross margin of 61.5%. Non-GAAP gross margin increased 50 basis points to 62.5%, predominantly from productivity pipeline execution.
- Robust earnings growth: GAAP operating margin of 32.0% and GAAP diluted earnings per share of $2.92. Non-GAAP operating margin of 35.8% and non-GAAP diluted earnings per share of $2.91, up 14% year-over-year, predominantly attributable to strong revenue growth and gross margin improvement.
- Strong cash generation: Operating cash flow totaled $422 million and free cash flow totaled $374 million. Proceeds from the sale of MatrixCare and strong cash flows supported $1.0 billion returned to shareholders through dividends and share repurchases while maintaining investment in innovation and growth initiatives.

Dividend program

The Resmed board of directors today declared a quarterly cash dividend of $0.66 per share. The dividend will have a record date of November 12, 2026, payable on December 17, 2026. The dividend will be paid in U.S. currency to holders of Resmed's common stock trading on the New York Stock Exchange. Holders of CHESS Depositary Interests ("CDIs") trading on the Australian Securities Exchange will receive an equivalent amount in Australian currency, based on the exchange rate on the record date, and reflecting the 10:1 ratio between CDIs and NYSE shares. The ex-dividend date will be November 11, 2026, for common stockholders and for CDI holders. Resmed has received a waiver from the ASX's settlement operating rules, which will allow Resmed to defer processing conversions between its common stock and CDI registers from November 11, 2026, through November 12, 2026, inclusive.

Reconciliation of Non-GAAP Financial Measures
(Unaudited; $ in millions, except for per share amounts)

In addition to financial information prepared in accordance with GAAP, we use certain non-GAAP financial measures, such as non-GAAP core constant currency basis, non-GAAP gross profit, non-GAAP gross margin, non-GAAP income from operations, non-GAAP operating margin, non-GAAP net income, and non-GAAP diluted earnings per share, in evaluating the performance of our business. We believe that these non-GAAP financial measures, when reviewed in conjunction with GAAP financial measures, can provide investors better insight when evaluating our performance from core operations and can provide more consistent financial reporting across periods. For these reasons, we use non-GAAP information internally in planning, forecasting, and evaluating the results of operations in the current period and in comparing it to past periods. These non-GAAP financial measures should be considered in addition to, and not superior to or as a substitute for, GAAP financial measures. We strongly encourage investors and shareholders to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure. Like all non-GAAP measures, non-GAAP earnings are subject to inherent limitations because they do not include all the expenses that must be included under GAAP. Non-GAAP financial measures as presented herein may not be comparable to similarly titled measures used by other companies.

The non-GAAP financial measures included in this release and the accompanying tables (including within the tables that provide our detailed reconciliations to the corresponding GAAP financial measures) are adjusted for the impact of acquisitions and divestitures, amortization of acquired intangibles, restructuring and business transformation expenses, acquisition and divestment-related expenses, gains on divestment of subsidiaries, and associated tax effects, in addition to the tax effect of interest and penalties on tax refunds.

We have not included a reconciliation of forward-looking non-GAAP financial measures where we are unable to provide a meaningful or accurate calculation or estimation of reconciling items, and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the occurrence and the financial impact of various items that have not yet occurred, are out of our control, or cannot be reasonably predicted. For the same reasons, we are unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures provided without the most directly comparable GAAP financial measures may vary materially from the corresponding GAAP financial measures.

Non-GAAP measures are reconciled to their most directly comparable GAAP financial measures below (in millions, except percentages):

A. In order to provide a framework for assessing how our underlying businesses performed excluding the impact of the Noctrix acquisition and the divestiture of the MatrixCare business and the effect of foreign currency fluctuations, when applicable, we provide certain financial information on a “core constant currency basis,” which is in addition to the actual financial information presented. In order to calculate our constant currency information, we translate the current period financial information using the foreign currency exchange rates that were in effect during the previous comparable period. However, constant currency measures should not be considered in isolation or as an alternative to U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with U.S. GAAP.

Reclassification of Prior-period Amounts
(Unaudited; $ in thousands)

During the first quarter of fiscal year 2027, we revised the presentation of restructuring expenses and amortization of acquired intangibles in our condensed consolidated statements of operations. Restructuring expenses, which were previously presented as a separate line item within operating expenses, are now classified within cost of sales, research and development expenses, and selling, general and administrative expenses based on the function of the associated costs. In connection with this change, we renamed "restructuring expenses" as "restructuring and business transformation expenses" to reflect the broader nature of the costs included within this category. Amortization of acquired intangibles relating to cost of sales is no longer presented as a separate line item within cost of sales. Amortization of acquired intangibles relating to operating expenses are now classified within selling, general and administrative expenses.

Prior-period amounts have been reclassified to conform to the current-period presentation. The reclassifications had no effect on previously reported income from operations, income before income taxes, net income, earnings per share or cash flows. The following table reconciles previously reported amounts to the revised presentation (in thousands):
