Trading Update – Q1 FY27

For personal use only

Reece Limited ("Reece" or "the Group") today announces its first quarter trading update[1] for FY27. Reece delivered sales revenue of A$2,510 million for the first quarter, up 4.3% on the same period last year, and up 8.7% on a constant currency basis[2].

ANZ sales were up 12.8%, driven by continued momentum in volumes and a mid single digit contribution from inflation. US sales were up 5.6%, driven by network expansion and low single digit inflation, with like for like sales increasing 2.4%.

Peter Wilson, Chairman & CEO, said: "We have seen a strong Q1 in ANZ as the existing pipeline of activity supported ongoing momentum in the region. The US has remained soft, with the subdued residential new construction market continuing to impact our business.

"Looking ahead, we're expecting a strong first half for ANZ and a continuation of the challenging environment in the US. We take a long term view, with a clear plan to deliver our 2030 vision and build a successful business in the US."

"Given the complexity of the current macro economic environment we remain cautious on the second half of FY27."
