Principal activities

The principal activity of the Group is the online sale of travel products, predominantly hotel rooms. The Group's principal activities remain unchanged from the previous financial year.

WebBeds

WebBeds, the Company's B2B travel business, is a global marketplace for the travel trade delivering simple, smart and flexible distribution solutions that make selling and buying accommodation and ground travel services easier. WebBeds sources inventory from hotels and travel suppliers, connects, unifies and aggregates that content in its technology platform (the WebBeds Marketplace) and distributes it to a global network of travel buyers, who sell to the travelling public. WebBeds is one of the few truly global B2B providers, offering extensive global reach for both hotel supply and travel buyer networks.

WebBeds helps suppliers take greater control of how and where their inventory is sold, reaching more buyers and optimising performance. WebBeds offers rooms at more than 500,000 hotels around the world. Our hotel supply partners include over 38,000 directly contracted independent properties, over 60,000 directly contracted chain properties and over 65 integrated third-party wholesalers. WebBeds also offers a wide range of ground and transfer services.

WebBeds provides its travel buyer network with simple, reliable access to global hotel room inventory. WebBeds distributes its products to a global network of more than 50,000 travel buyers across Large Language Models (LLMs) and Artificial Intelligence (AI) agents, retail, wholesale and emerging channels. Buyers can integrate directly via API for seamless automation or book online through one of WebBeds trade-only booking sites.

Backed by a team of 2,000+ people in 120+ cities across 50+ countries, speaking 40+ languages, WebBeds provides local expertise, service, and support to the global travel industry.

1. Total transaction value (TTV) is the gross transaction price on a booking. This is used by management as a performance indicator.
2. Share-based payments and non-operating expenses are excluded from the Underlying results to provide a better understanding of the financial performance and allow more representative comparison between financial periods.
3. EBITDA, represents earnings before interest, tax, depreciation and amortisation.
4. Underlying performance does not include $0.4 million (30 September 2025: $6.4 million) of interest relating to the Convertible Notes and $0.4 million in accrued finance cost related to the Spanish tax matter (30 September 2025: nil).
5. Underlying performance includes only the tax effects of the core financial performance of the Group, excluding the impacts of any one-off or non-recurring items.

Underlying results

Underlying results (which are not the Statutory results) and TTV are non-IFRS measures and are not subject to external audit procedures. Underlying results reflect the core financial performance of the Group adjusting for the impact of any one-off, non-recurring items, or non-cash items such as share-based payments, or the historical impact of the Spanish tax matter. These adjustments to statutory results are made to give investors a clearer and more consistent view of the Group's ongoing financial performance.

Underlying results for the half-year period ended 30 September 2026 continue to show transactional growth in the business. Revenue increased by $9.4 million or 5%, reflecting higher transaction volumes and improved margins. Revenue for the period also includes the impact of Spanish indirect tax relating to current period transactions of $7 million. Excluding the impact of Spanish tax, like-for-like revenue increased by 8%.

Operating expenses and corporate costs increased by $4.2 million and $1.5 million respectively, reflecting continued investment in the business and CPI driven increases.

Underlying EBITDA was up 5% to $85.4 million driven by revenue growth and operating leverage. Underlying EBITDA for the period also includes the impact of Spanish indirect tax relating to current period transactions of $7 million. Excluding the impact of Spanish tax, like-for-like EBITDA increased by 13%.

Depreciation and amortisation expense decreased by $1.9 million, primarily due to certain technology assets becoming fully amortised, partially offset by amortisation of development expenditure and acquired intangible assets brought into use during the period.

Underlying net finance costs increased by 16% to $8.6 million, primarily due to higher interest and facility expenses on the Revolving Credit Facilities compared to the Convertible Notes, partially offset by decreased hedging costs compared to the prior period.

Underlying net profit after tax was up 5% to $51.2 million. Statutory net loss after tax was $10.8 million, compared with a net profit of $26.9 million in the prior corresponding period. The statutory result was principally affected by provisions associated with the Spanish tax matter as well as higher share-based payment expense.

Additional commentary on performance is included in the ASX release and investor presentation lodged with the ASX on 25 November 2026.

Total equity	**559.2**	582.0	(4%)

Cash and cash equivalents decreased by $13.2 million from March 2026, mainly attributable to the settlement of the Convertible Notes, capital management initiatives and the acquisition of Pruvo Net Limited (Pruvo), offset partially by efficient cash collection and cash management.

Trade and other receivables increased by $94.7 million during the period due to higher seasonal trading volumes and continue to be managed effectively in line with the credit policy.

Goodwill and intangible assets increased by $14.8 million, primarily due to $28.8 million in goodwill and capitalised development relating to the Pruvo acquisition and other capital expenditure of $15.2 million, offset partially by amortisation and adverse exchange differences.

Other assets increased by $4.2 million, primarily due to the $6.8 million increase in the equity linked financial assets and increase in property, plant and equipment of $1.5 million, partially offset by decreased deferred tax assets of $4.1 million.

Trade and other payables increased by $122.3 million, driven by higher seasonal trading volumes and the timing of payments to suppliers.

The $47.0 million increase in other current liabilities is primarily driven by $57.0 million in provisions related to the Spanish tax matter, partially offset by a $11.3 million reduction in contract liabilities.

The movement in borrowings during the period is due to the settlement of Convertible Notes in April 2026, settled using a combination of existing cash and draw down of Revolving Credit Facilities.

The movement in issued capital reflects the share buy-back executed by the Group of $10.0 million partially offset by the issue of shares under employee share plans of $3.4 million.

The movement in accumulated losses reflects the net loss for the period, with the movement in reserves predominantly related to foreign currency translation differences and share-based payment expense.

Share buy-back

On 28 July 2026, the Group announced an on-market share buy-back program, up to a maximum of $90.0 million, to return surplus capital to shareholders and enhance capital efficiency. During the half-year and up to the date of this report, 2,767,958 Ordinary shares were repurchased for $10.0 million and cancelled at an average purchase price of $3.63 per share. Further information is provided in Note 12 to the financial statements.

Acquisition of Pruvo

During the half-year, the Group completed the acquisition of Pruvo. The acquisition expands the Group's technology capabilities in post-booking optimisation and is expected to support the Group's broader accommodation distribution offering. The provisional acquisition accounting resulted in the recognition of $25.5 million of identifiable intangible assets and goodwill of $3.3 million. Further information is provided in Note 10 to the financial statements.

Spanish tax matter

On 6 February 2026, the Group announced that the Spanish Tax Agency (STA) had initiated a tax audit (hereafter referred to as inspection or audit) of WebBeds SOL S.L. (the Group's Spanish service entity). The inspection covers direct tax for the financial years ended 31 March 2023 to 31 March 2025 and indirect tax for the period from 1 January 2022 to 31 December 2025. On 13 July 2026, WebBeds FZ LLC (the Group's UAE-based main trading entity) was formally notified that it was also subject to an inspection by the STA in relation to the same taxes and periods.

The inspections remain ongoing. The STA continues to obtain and analyse information and documentation in relation to the matters under review. As at the time of this report being published, no inspection report, proposed assessment, agreement or notice of quantification of any potential tax liability has been issued by the STA.

The Group has recognised a liability of $57 million impacting 'profit before income tax' for the half-year ended 30 September 2026. This amount relates to indirect and direct tax, associated penalties and interest charges which may arise from the STA's audit of prior periods and the ensuing period ended 30 September 2026. Further detailed information on the inspection can be found at Note 14 in the financial statements.

Class action

On 31 July 2026, the Group announced it had been served with class action proceedings filed in the Supreme Court of Victoria. The statement of claim alleges contraventions in relation to misleading or deceptive conduct and continuous disclosure obligations relating to Total Transaction Value margin representations. The matter remains ongoing and any potential outcome and costs associated with the matter remain uncertain. Further information can be found at Note 15 in the financial statements.

1. General information.

Statement of compliance
The half-year financial statements are general purpose financial statements prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting* (AASB 134). Compliance with AASB 134 ensures compliance with IFRS Accounting Standard IAS 34 *Interim Financial Reporting*. The half-year financial statements do not include notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the most recent Annual Report and any public announcements made by the Group.

Basis of preparation
The condensed consolidated financial statements have been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

These condensed consolidated financial statements are prepared on a going concern basis.

The accounting policies and methods of computation adopted in the preparation of the half-year financial statements are consistent with those adopted and disclosed in the most recent Annual Report. The accounting policies are consistent with Australian Accounting Standards and with IFRS Accounting Standards.

Rounding of amounts
The Company is a company of the kind referred to in *ASIC Corporations (Rounding in Financials/Directors' Reports)* Instrument 2026/183, and in accordance with that Corporations Instrument, amounts in the half-year financial report are rounded off to the nearest one hundred thousand dollars, unless otherwise indicated.

Key judgements
Refer to Note 14 Spanish tax matter for description of judgement applied by Management in making a best estimate of the liability.

Other key judgements and estimates have been consistently applied to all periods presented unless otherwise stated, refer to the FY26 Annual Report.

Adoption of new accounting standards
The following minor amendments to standards became effective and applicable to the Group from 1 April 2026:

- AASB 2024-2 *Amendments to Australian Accounting Standards – Classification and Measurement of Financial Instruments,*
- AASB 2024-3 *Amendments to Australian Accounting Standards – Annual Improvements Volume 11*; and
- AASB 2025-1 *Amendments to Australian Accounting Standards – Contracts Referencing Nature-dependent Electricity*

The application of the above standards and amendments has had no material impact on the disclosures or on the amounts recognised in the consolidated interim financial report.

The following standards become effective and applicable to the Group from 1 April 2027:

- AASB 18 *Presentation and Disclosure in Financial Statements* (AASB 18)

AASB 18 replaces AASB 101 *Presentation of Financial Statements* and is effective for reporting periods beginning on or after 1 January 2027. It will not change the recognition and measurement of items in the financial statements, but will affect presentation and disclosure in the financial statements, including introducing new categories and defined subtotals in the statement of profit or loss, requiring the disclosure of management-defined performance measures, and changing the grouping of information in the financial statements. The Group is currently assessing the impact of the standard on the presentation and disclosure of its financial statements.

2. Segment information.

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Managing Director.

The Managing Director considers that all members of the Group provide the same service, being Business to Business (B2B) Travel Bookings to the same class of customer. As such, it is considered that there is one reportable segment. Given the statement of profit or loss shows the detail of the one reportable segment, a statement of profit or loss for the segment has not been duplicated within this note.

The segment information provided to the Managing Director for the periods ended 30 September 2026 and 30 September 2025 and reportable under AASB 8 *Operating Segments* are set out in the tables below.

	6 months ended 30 September 2026 $m	6 months ended 30 September 2025 $m
Total transaction value[1]	**3,190**	3,170
Revenue[2]	**214.0**	204.6
Operating expenses	**(54.8)**	(56.6)
Employee benefits expense (excluding share-based payments)	**(73.8)**	(66.3)
Share-based payments expense	**(9.2)**	(3.6)
Other non-operating expenses	**(47.5)**	(5.5)
Statutory EBITDA	**28.7**	72.6
Depreciation and amortisation expense	**(13.6)**	(15.5)
Acquired amortisation[3]	**(6.4)**	(7.6)
Net finance costs	**(9.4)**	(13.8)
(Loss)/profit before tax	**(0.7)**	35.7
Income tax expense	**(10.1)**	(8.8)
Net (loss)/profit after tax	**(10.8)**	26.9

1. Total transaction value (TTV) is non-IFRS financial information, is not subject to external review procedures and does not represent revenue in accordance with Australian Accounting Standards. TTV represents the price at which travel products and services have been sold across the Group's operations.
2. The Group is considered an agent in providing travel services and only recognises net commission receivable as revenue.
3. Acquired amortisation represents amortisation on the additional intangible values recognised under AASB 3 *Business Combinations* (AASB 3) following a business combination.

3. Revenue.

3.1 Disaggregation of revenue

Revenue disaggregated by major revenue stream and timing of revenue recognition is as follows:

	Revenue recognition	6 months ended 30 September 2026 $m	6 months ended 30 September 2025 $m
Booking commission revenue	Point in time	**183.9**	177.3
Supplier rebates	Over time	**2.7**	3.1
Other ancillary revenue	Over time	**27.4**	24.2
Total revenue		**214.0**	204.6

3.2 Contract assets and contract liabilities

AASB 15 *Revenue from Contracts with Customers* (AASB 15) uses the terms 'contract asset' and 'contract liability' to describe what might more commonly be known as 'accrued revenue' and 'deferred revenue'. The Group has adopted the terminology used in AASB 15 to describe such balances. These balances are included in trade receivables and other assets and other liabilities in the condensed consolidated statement of financial position.

	Notes	As at 30 September 2026 $m	As at 31 March 2026 $m
Contract assets	7.1	**11.0**	12.4
Contract liabilities	7.3	**(42.0)**	(53.3)

Share-based payment expense[1]	**9.2**	3.6
Other employee benefits	**3.7**	3.0
Total employee benefit expenses	**83.0**	69.9

1. Refer to Note 13 for further details on the Group's share-based payment expense.

During the period, the Group revised the internal classification and mapping of employee benefits expenses to better reflect the nature and function of the balances. Comparative balances have been reclassified, where necessary. This change did not impact the total amount of expenses reported.

4.2 Operating expenses comprise:

	6 months ended 30 September 2026 $m	6 months ended 30 September 2025 $m

6. Operating cash flows reconciliation.

The Group considers the indirect method the more appropriate way to present cash flows for its business due to customers and suppliers who use the half-year financial report being more accustomed to the indirect method.

The Group has set out below cash flows from operating activities using the direct method.

Operating cash flow per the direct method

	6 months ended 30 September 2026 $m	6 months ended 30 September 2025 $m
Receipts from customers[1]	**3,088.2**	3,054.8
Payments to suppliers and employees[1]	**(2,981.2)**	(2,922.0)
Net finance costs paid	**(7.4)**	(6.8)
Net income tax paid	**(5.7)**	(5.5)
Net cash inflows from operating activities	**93.9**	120.5

1. Exclusive of indirect taxes.

7. Working capital.

The Group's operations are subject to seasonal fluctuations in customer travel and booking activity. Activity levels vary throughout the year in response to customer travel patterns and the timing of bookings. As a result, revenue, working capital and operating cash flows for the six months ended 30 September 2026 are not necessarily indicative of those expected for the full financial year. The increase in working capital at 30 September 2026 reflects, in part, the timing of seasonal booking activity and associated customer settlement cycles.

7.1 Trade receivables and other assets

	As at 30 September 2026 $m	As at 31 March 2026 $m
Trade receivables	**372.1**	267.1

Non-trade creditors	**15.7**	19.3
Other payables	**4.7**	2.8
Total trade payables and other payables	**704.1**	581.8

During the period, the Group revised the presentation of other liabilities, disaggregating other payables to better reflect the nature of the balances. Comparative balances have been reclassified, where necessary. This change did not impact the total amount of other payables reported.

7.3 Other liabilities

	As at 30 September 2026 $m	As at 31 March 2026 $m
Current other liabilities		
Contract liabilities[1]	**42.0**	53.3

8. Investment in financial assets.

	As at 30 September 2026 $m	As at 31 March 2026 $m
Equity linked financial assets	**28.6**	21.8
Investment in financial assets	**28.6**	21.8

The Group previously undertook capital management initiatives with the intention to obtain economic exposure to the price and dividends of its Ordinary shares. During the current and prior period, no additional investments were made. The outstanding exposure at 30 September 2026 was equivalent to 8.4 million shares (31 March 2026: 8.4 million shares) based on the share price at the respective reporting date. The movement in the fair value of the assets is recorded within non-operating expenses, refer to Note 4.3 for further details.

9. Borrowings.

9.1 Borrowings for the Group are as follows:

The Group maintains a multi-lender Revolving Credit Facility (RCF) with total committed facilities of $292.2 million (€180.0 million) maturing in April 2028. As at 30 September 2026, drawdowns under the facility were $201.3 million, with $90.9 million remaining undrawn and available for general corporate and working capital purposes.

The Convertible Notes were cash settled on 12 April 2026 using a combination of existing cash on hand and RCF draw downs.

	Terms	Maturity	As at 30 September 2026 Current $m	As at 30 September 2026 Non-current $m	As at 31 March 2026 Current $m	As at 31 March 2026 Non-current $m

Total borrowings			**-**	**201.3**	249.6	-

9.2 Covenants compliance

The RCF contains customary financial covenants, including leverage and interest cover ratios, which are tested on a rolling twelve-month basis. The Group was in compliance with all covenant requirements throughout the reporting period and as at 30 September 2026.

The Group's expected compliance with the covenants is monitored on an ongoing basis, based on forecasts as at reporting date, the Group expects to remain in compliance with the covenant in the next twelve months.

Acquisition during the period – Pruvo Net Ltd

10.1 Overview of the acquisition

On 1 April 2026, the Group acquired 100% of the issued share capital of Pruvo Net Ltd (Pruvo), an automated travel technology platform that utilises artificial intelligence and price optimisation algorithms to identify saving opportunities for travellers and travel providers.

The acquisition supports the Group's strategic objective of expanding its proprietary travel technology capabilities, enhancing its customer offering and generating future revenue opportunities through the integration of Pruvo's technology within the Group's existing travel distribution ecosystem.

The acquisition has been accounted for as a business combination in accordance with AASB 3 *Business Combinations* (AASB 3).

The purchase price allocation remains provisional at 30 September 2026. Management continues to finalise the valuation of acquired identifiable intangible assets and the fair value assessment of contingent consideration arrangements. The acquisition accounting is expected to be finalised within the measurement period permitted under AASB 3.

10.2 Purchase consideration

The acquisition-date fair value of the consideration transferred was $27.0 million, comprising:

	As at 1 April 2026 $m
Consideration transferred comprised:	
Cash paid	**20.4**
Contingent consideration[1]	**6.6**
Total consideration transferred	**27.0**

1. At the acquisition date, the Group recognised contingent consideration with a fair value of $6.6 million (€4.0 million) in respect of an earn-out arrangement. Payment is conditional on Pruvo achieving specified aggregated operational profit targets during the twelve month period from the go-live date to 15 February 2027.

The fair value of contingent consideration was determined using a discounted cash flow model which incorporated management's expectations regarding future revenue growth, profitability and the likelihood of achieving performance milestones.

As at 30 September 2026, the contingent consideration liability was recognised within other current liabilities (refer to Note 7.3) and had a carrying value of $6.5 million.

In addition, based on management's forecast, the Group expects to be obligated to pay a post-acquisition bonus to the founders of Pruvo in June 2029, subject to continued employment and FY29 performance of Pruvo.

10.3 Identifiable assets acquired and liabilities assumed

The identifiable assets acquired and liabilities assumed have been recognised at their acquisition-date fair values in accordance with AASB 3. The purchase price allocation is provisional because the valuation of certain acquired assets and liabilities remains in progress. The Group expects to finalise the purchase price allocation within the measurement period permitted by AASB 3.

10.6 Acquisition-related costs

Acquisition-related costs (included in non-operating expenses) amount to $0.3 million.

For personal use only

11. Related party transactions.

There have been no significant changes in related party relationships or transactions since the last annual reporting period that require disclosure in this half-year financial report.

The Transitional Services Agreement between WebBeds Group and Webjet Group Limited ended during FY26. Refer to the FY26 Annual Report for further details.

12. Issued capital.

During the half-year, the Group issued 748,620 Ordinary shares related to employee share plans.

On 28 July 2026, the Group announced an on-market share buy-back program to return surplus capital to shareholders and enhance capital efficiency.

During the half-year ended 30 September 2026 and up to the date of this report 2,767,958 Ordinary shares were repurchased and cancelled at an average purchase price was $3.63 per share.

The buy-back has been accounted for as an equity transaction, with the cost of shares acquired recognised directly against issued capital resulting in a reduction of $10.0 million. Accordingly, no gain or loss has been recognised in profit or loss.

13. Share-based payment arrangements.

The Group operates a number of equity-settled share-based payment plans designed to align the interests of executives and key staff with those of shareholders and to support the retention of key personnel.

The fair value of Rights granted during the period was determined at grant date using appropriate valuation methodologies having regard to the specific terms and conditions of each award. Share-based payment expense recognised in profit or loss for the six months ended 30 September 2026 was $9.2 million (30 September 2025: $3.6 million), with a corresponding increase recognised in equity.

Where awards were approved before 30 September 2026 but issued or notified subsequent to the reporting date, management assessed whether a grant date existed for the purposes of AASB 2 *Share-based payments* (AASB 2) at reporting date and accounted for such awards in accordance with the underlying contractual arrangements and service commencement period.

Key Management Personnel

During the half-year, the Group granted 6,143,909 in Rights and one-off Options to Key Management Personnel (KMP). The granted Rights and Options consisted of FY27 one-off Options (5,962,733) and additional FY26 deferred short-term incentive (STI) Rights (181,176). The awards vest subject to continued employment and the achievement of specified performance conditions over the vesting period ending FY30.

The Group is in the process of finalising a new Variable Reward Plan (VRP) for the KMP which will replace existing short-term and long-term incentive plans for FY27. There will be no other plans issued to KMP in FY27.

In addition, the share-based payment expense for the half-year includes amounts relating to previously issued rights related to FY25 and FY26 long-term incentive (LTI) plans.

Key Staff

Subsequent to 30 September 2026, the Group issued 2,979,000 Performance Rights to eligible employees under the Group's long-term incentive plans. The awards vest subject to continued employment and the achievement of specified performance conditions over the vesting period ending FY30. Each employee share Option and Right converts into one Ordinary share of the Parent Company on exercise.

In addition, the share-based payment expense for the half-year includes amounts relating to previously issued rights related to FY25 and FY26 LTI plans.

14. Spanish tax matter.

On 6 February 2026, the Group announced that the Spanish Tax Agency (STA) had initiated a tax audit (hereafter referred to as inspection or audit) of WebBeds SOL S.L. (the Group's Spanish service entity). The inspection covers corporate income tax for the financial years ended 31 March 2023 to 31 March 2025 and VAT for the period from 1 January 2022 to 31 December 2025. On 13 July 2026, WebBeds FZ LLC (the Group's UAE-based main trading entity) was formally notified that it was also subject to an inspection by the STA in relation to the same taxes and periods. The inspections remain ongoing. The STA continues to obtain and analyse information and documentation in relation to the matters under review. As at 30 September 2026, no inspection report, proposed assessment, agreement or notice of quantification of any potential tax liability has been issued by the STA.

During the half-year, the Group reassessed its financial exposure to these matters and now considers it probable that an outflow of resources will be required to settle these matters. This assessment reflects management's current view on the STA's approach and the level and nature of regulatory scrutiny observed during the half-year period and as at 30 September 2026.

As a result of this assessment, the Group has recognised a liability of $57 million impacting 'profit before income tax' for the half-year ended 30 September 2026. This amount relates to indirect and direct tax, associated penalties and interest charges which may arise from the STA's audit of prior periods and the ensuing period ended 30 September 2026. This amount has been presented as a $50 million charge against non-operating expenses relating to the historical exposure, and a $7 million reduction to revenue relating to the current period transactions.

The amounts recognised represent management's best estimate of the expenditure required to settle the relevant liability at 30 September 2026. Given the range of potential outcomes and the complex and uncertain nature of these matters, the estimates incorporate probability-weighted assessments based on management's assessment of the circumstances.

The outcome of the inspections remain uncertain and will depend on the positions taken by the STA, the outcome of any negotiations or other resolution processes and, where applicable, subsequent administrative or judicial proceedings. In the context of the ongoing audit, the Group has applied significant judgement in making a best estimate of the liability based on probability-weighted assessments. The Group will continue to reassess this liability at each reporting period.

15. Contingent liabilities.

On 31 July 2026, the Group announced that it had been served with class action proceedings filed in the Supreme Court of Victoria. The statement of claim alleges contraventions in relation to misleading or deceptive conduct and continuous disclosure obligations relating to TTV margin representations. The Group intends to vigorously defend the proceedings. The matter remains ongoing and any potential outcome and costs associated with the matter remain uncertain, including the extent to which any costs might be covered by the Group's insurance policies. Accordingly, no provision has been recognised as at the reporting date.

There are no other contingent assets or liabilities requiring disclosure as at the date of this report.

16. Subsequent events.

There has not been any matter or circumstance occurring subsequent to the end of the period and up to the date of this report that has significantly affected, or may significantly affect, the operations of the Group, the results of those operations, or the state of affairs of the Group in future periods.

Directors' Declaration.

The Directors declare that, in the Directors' opinion:

(a) the attached consolidated financial statements and notes are in accordance with the *Corporations Act 2001*, including:

  (i) giving a true and fair view of the consolidated entity's financial position as at 30 September 2026 and its performance for the half-year ended on that date; and

  (ii) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*; and

(b) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Directors made pursuant to s.303 (5) of the *Corporations Act 2001*.

Independent Auditor's Review Report to the Members of WebBeds Group Limited

Conclusion

We have reviewed the half-year financial report of WebBeds Group Limited (the "Entity") and its subsidiaries (the "Group"), which comprises the condensed consolidated statement of financial position as at 30 September 2026, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of cashflows and the condensed consolidated statement of changes in equity for the half-year ended on that date, notes to the financial statements, including material accounting policy information and other explanatory information, and the directors' declaration as set out on pages 8 to 23.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Group's financial position as at 30 September 2026 and of its performance for the half-year ended on that date; and
- Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Half-year Financial Report* section of our report. We are independent of the Group in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Entity, would be in the same terms if given to the directors as at the time of this auditor's review report.

The directors' responsibilities for the half-year financial report

The directors of the Entity are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 September 2026 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
